**SA 2899.** Ms. STABENOW submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ NO CUTS IN GUARANTEED BENEFITS.**

Nothing in this Act shall result in the reduction or elimination of any benefits guaranteed by law to participants in Medicare Advantage plans.

**SA 2900.** Mr. UDALL of New Mexico submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle D of title V, insert the following:

**SEC. 5316. PREVENTIVE MEDICINE AND PUBLIC HEALTH TRAINING PROGRAMS.**

(a) IN GENERAL.—Section 768 of the Public Health Service Act (42 U.S.C. 295c) is amended to read as follows:

**“SEC. 768. PREVENTIVE MEDICINE AND PUBLIC HEALTH TRAINING GRANT PROGRAM.**

“(a) GRANTS.—The Secretary, acting through the Administrator of the Health Resources and Services Administration and in consultation with the Director of the Centers for Disease Control and Prevention, shall award grants to, or enter into contracts with, eligible entities to provide training to graduate medical residents in preventive medicine specialties.

“(b) ELIGIBILITY.—To be eligible for a grant or contract under subsection (a), an entity shall be—

“(1) an accredited school of public health or school of medicine or osteopathic medicine;

“(2) an accredited public or private non-profit hospital;

“(3) a State, local, or tribal health department; or

“(4) a consortium of 2 or more entities described in paragraphs (1) through (3).

“(c) USE OF FUNDS.—Amounts received under a grant or contract under this section shall be used to—

“(1) plan, develop (including the development of curricula), operate, or participate in an accredited residency or internship program in preventive medicine or public health;

“(2) defray the costs of practicum experiences, as required in such a program; and

“(3) establish, maintain, or improve—

“(A) academic administrative units (including departments, divisions, or other appropriate units) in preventive medicine and public health; or

“(B) programs that improve clinical teaching in preventive medicine and public health.

“(d) REPORT.—The Secretary shall submit to the Congress an annual report on the program carried out under this section.”.

(b) REAUTHORIZATION.—Section 770(a) of the Public Health Service Act (42 U.S.C. 295e(a)) is amended to read as follows:

“(a) IN GENERAL.—For the purpose of carrying out this subpart, there is authorized to be appropriated \$43,000,000 for fiscal year 2011, and such sums as may be necessary for each of the fiscal years 2012 through 2015.”.

**SA 2901.** Mr. THUNE proposed an amendment to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; as follows:

Beginning on page 1925, strike line 15 and all that follows through line 15 on page 1979.

**SA 2902.** Ms. STABENOW submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ NO CUTS IN GUARANTEED BENEFITS.**

Nothing in this Act shall result in the reduction or elimination of any benefits guaranteed by law to participants in Medicare Advantage plans.

**SA 2903.** Ms. SNOWE (for herself, Mr. DURBIN, Mr. MERKLEY, and Ms. LANDRIEU) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr.

HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 126, strike lines 10 through 16.

**SA 2904.** Ms. SNOWE submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 167, strike lines 1 through 4, and insert the following:

(d) NO INTERFERENCE WITH STATE REGULATORY AUTHORITY.—

(1) IN GENERAL.—Except as provided in paragraph (2), nothing in this title shall be construed to preempt any State law that does not prevent the application of the provisions of this title.

(2) EXCEPTION FOR SMALL EMPLOYER MANDATES.—The provisions of, and the amendments made by, this title shall preempt any State law enacted after the date of enactment of this Act that would impose a requirement on any employer with less than 50 full-time employees to, or would impose a penalty on such an employer for failing to, offer health insurance to its employees.

**SA 2905.** Mrs. LINCOLN (for herself, Mr. LAUTENBERG, Mr. MENENDEZ, Mr. FRANKEN, Mrs. BOXER, and Mr. REED) proposed an amendment to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; as follows:

On page 2040, strike line 14 and insert the following:

(b) DOLLAR LIMIT NOT TO EXCEED COMPENSATION OF THE PRESIDENT.—

(1) IN GENERAL.—Paragraph (6) of section 162(m) of the Internal Revenue Code of 1986, as added by subsection (a), is amended by adding at the end the following new subparagraph:

“(I) DOLLAR LIMIT NOT TO EXCEED COMPENSATION OF THE PRESIDENT.—In the case of a taxable year in which the \$500,000 amount in clauses (i) and (ii) of subparagraph (A) exceeds the dollar amount of the compensation received by the President under section 102 of title 3, United States Code, for such taxable year, such clauses shall be applied by substituting the dollar amount provided in such section 102 for such \$500,000 amount.”.

(2) REVENUE INCREASE TO BE TRANSFERRED TO MEDICARE TRUST FUND.—Section 1817(a) of the Social Security Act (42 U.S.C. 1395i(a)) is amended—

(A) by striking “and” at the end of paragraph (1),

(B) by striking the period at the end of paragraph (2) and inserting “; and”, and

(C) by inserting after paragraph (2) the following new paragraph:

“(3) the revenues resulting from the application of section 162(m)(6) of the Internal Revenue Code of 1986, as determined by the Secretary of the Treasury or such Secretary’s delegate.”.

(c) EFFECTIVE DATE.—The amendments made by

**SA 2906.** Ms. COLLINS submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 308, line 16, strike all through page 314, line 6, and insert the following:

“(c) PHASEOUT OF CREDIT AMOUNT BASED ON NUMBER OF EMPLOYEES AND AVERAGE WAGES.—

“(1) IN GENERAL.—The amount of the credit determined under subsection (b) without regard to this subsection shall be reduced (but not below zero) by the sum of the following amounts:

“(A) Such amount multiplied by a fraction the numerator of which is the total number of full-time equivalent employees of the employer in excess of 10 and the denominator of which is 40.

“(B) Such amount multiplied by a fraction the numerator of which is the average annual wages of the employer in excess of the dollar amount in effect under subsection (d)(3)(B) and the denominator of which is such dollar amount.

“(2) SAFEHARBOR FOR GROWING EMPLOYERS.—

“(A) IN GENERAL.—Notwithstanding paragraph (1) and except as provided in subparagraph (B), the amount of the credit determined under subsection (b) for any taxpayer for the second or third taxable year of the credit period for such taxpayer shall not be reduced by an amount greater than the amount by which it would be reduced if such reduction amount were determined by using the same fractions determined under paragraph (1) for the first taxable year of such credit period.

“(B) REDUCTION IN AGGREGATE AMOUNT OF CONTRIBUTIONS.—For purposes of determining the amount of the credit under subsection (b) for any taxpayer to whom subparagraph (A) applies for any taxable year of the taxpayer in the credit period after the first such taxable year, the amount of the nonelective contributions made on behalf of any employee whose annual wages exceed twice the dollar amount in effect under subsection (d)(3)(B) for such taxable year which may be taken into account under subsection (b) shall not exceed such annual wages multiplied by a fraction the numerator of which is twice the dollar amount so in effect and the denominator of which is such annual wages.

“(d) ELIGIBLE SMALL EMPLOYER.—For purposes of this section—

“(1) IN GENERAL.—The term ‘eligible small employer’ means, with respect to any taxable year, an employer—

“(A) which has no more than 50 full-time equivalent employees for the taxable year,

“(B) the average annual wages of which do not exceed an amount equal to twice the dol-

lar amount in effect under paragraph (3)(B) for the taxable year, and

“(C) which has in effect an arrangement described in paragraph (4).

Notwithstanding subparagraphs (A) and (B), an employer which is an eligible small employer for the first taxable year in a credit period shall be treated as an eligible small employer for the remaining taxable years in such credit period.

“(2) FULL-TIME EQUIVALENT EMPLOYEES.—

“(A) IN GENERAL.—The term ‘full-time equivalent employees’ means a number of employees equal to the number determined by dividing—

“(i) the total number of hours of service for which wages were paid by the employer to employees during the taxable year, by

“(ii) 2,080.

Such number shall be rounded to the next lowest whole number if not otherwise a whole number.

“(B) EXCESS HOURS NOT COUNTED.—If an employee works in excess of 2,080 hours of service during any taxable year, such excess shall not be taken into account under subparagraph (A).

“(C) HOURS OF SERVICE.—The Secretary, in consultation with the Secretary of Labor, shall prescribe such regulations, rules, and guidance as may be necessary to determine the hours of service of an employee, including rules for the application of this paragraph to employees who are not compensated on an hourly basis.

“(3) AVERAGE ANNUAL WAGES.—

“(A) IN GENERAL.—The average annual wages of an eligible small employer for any taxable year is the amount determined by dividing—

“(i) the aggregate amount of wages which were paid by the employer to employees during the taxable year, by

“(ii) the number of full-time equivalent employees of the employee determined under paragraph (2) for the taxable year.

Such amount shall be rounded to the next lowest multiple of \$1,000 if not otherwise such a multiple.

“(B) DOLLAR AMOUNT.—For purposes of paragraph (1)(B)—

“(i) 2011, 2012, AND 2013.—The dollar amount in effect under this paragraph for taxable years beginning in 2011, 2012, or 2013 is \$25,000.

“(ii) SUBSEQUENT YEARS.—In the case of a taxable year beginning in a calendar year after 2013, the dollar amount in effect under this paragraph shall be equal to \$25,000, multiplied by the cost-of-living adjustment determined under section 1(f)(3) for the calendar year, determined by substituting ‘calendar year 2012’ for ‘calendar year 1992’ in subparagraph (B) thereof.

“(4) CONTRIBUTION ARRANGEMENT.—An arrangement is described in this paragraph if it requires an eligible small employer to make a nonelective contribution on behalf of each employee who enrolls in a qualified health plan offered to employees by the employer through an exchange in an amount equal to a uniform percentage (not less than 50 percent) of the premium cost of the qualified health plan.

“(5) SEASONAL WORKER HOURS AND WAGES NOT COUNTED.—For purposes of this subsection—

“(A) IN GENERAL.—The number of hours of service worked by, and wages paid to, a seasonal worker of an employer shall not be taken into account in determining the full-

time equivalent employees and average annual wages of the employer unless the worker works for the employer on more than 120 days during the taxable year.

“(B) DEFINITION OF SEASONAL WORKER.—The term ‘seasonal worker’ means a worker who performs labor or services on a seasonal basis as defined by the Secretary of Labor, including workers covered by section 500.20(s)(1) of title 29, Code of Federal Regulations and retail workers employed exclusively during holiday seasons.

“(e) OTHER RULES AND DEFINITIONS.—For purposes of this section—

“(1) EMPLOYEE.—

“(A) CERTAIN EMPLOYEES EXCLUDED.—The term ‘employee’ shall not include—

“(i) an employee within the meaning of section 401(c)(1),

“(ii) any 2-percent shareholder (as defined in section 1372(b)) of an eligible small business which is an S corporation,

“(iii) any 5-percent owner (as defined in section 416(i)(1)(B)(i)) of an eligible small business, or

“(iv) any individual who bears any of the relationships described in subparagraphs (A) through (G) of section 152(d)(2) to, or is a dependent described in section 152(d)(2)(H) of, an individual described in clause (i), (ii), or (iii).

“(B) LEASED EMPLOYEES.—The term ‘employee’ shall include a leased employee within the meaning of section 414(n).

“(2) CREDIT PERIOD.—The term ‘credit period’ means, with respect to any eligible small employer, the 3-consecutive-taxable year period beginning with the 1st taxable year in which the employer (or any predecessor) offers 1 or more qualified health plans to its employees through an Exchange.

**SA 2907.** Ms. KLOBUCHAR (for herself, Mr. THUNE, and Mr. JOHNSON) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 828, between lines 3 and 4, insert the following:

**SEC. 3130. REMOTE MONITORING PILOT PROJECTS.**

(a) PILOT PROJECTS.—

(1) IN GENERAL.—Not later than 9 months after the date of enactment of this Act, the Secretary of Health and Human Services (in this section referred to as the “Secretary”) shall conduct pilot projects under title XVIII of the Social Security Act for the purpose of providing incentives to home health agencies to utilize home monitoring and communications technologies that—

(A) enhance health outcomes for medicare beneficiaries; and

(B) reduce expenditures under such title.

(2) SITE REQUIREMENTS.—

(A) URBAN AND RURAL.—The Secretary shall conduct the pilot projects under this section in both urban and rural areas.

(B) SITE IN A SMALL STATE.—The Secretary shall conduct at least 1 of the pilot projects in a State with a population of less than 1,000,000.

(3) DEFINITION OF HOME HEALTH AGENCY.—In this section, the term “home health agency” has the meaning given that term in section

1861(o) of the Social Security Act (42 U.S.C. 1395x(o)).

(b) MEDICARE BENEFICIARIES WITHIN THE SCOPE OF PROJECTS.—The Secretary shall specify the criteria for identifying those medicare beneficiaries who shall be considered within the scope of the pilot projects under this section for purposes of the application of subsection (c) and for the assessment of the effectiveness of the home health agency in achieving the objectives of this section. Such criteria may provide for the inclusion in the projects of medicare beneficiaries who begin receiving home health services under title XVIII of the Social Security Act after the date of the implementation of the projects.

(c) INCENTIVES.—

(1) PERFORMANCE TARGETS.—The Secretary shall establish for each home health agency participating in a pilot project under this section a performance target using one of the following methodologies, as determined appropriate by the Secretary:

(A) ADJUSTED HISTORICAL PERFORMANCE TARGET.—The Secretary shall establish for the agency—

(i) a base expenditure amount equal to the average total payments made to the agency under parts A and B of title XVIII of the Social Security Act for medicare beneficiaries determined to be within the scope of the pilot project in a base period determined by the Secretary; and

(ii) an annual per capita expenditure target for such beneficiaries, reflecting the base expenditure amount adjusted for risk and adjusted growth rates.

(B) COMPARATIVE PERFORMANCE TARGET.—The Secretary shall establish for the agency a comparative performance target equal to the average total payments under such parts A and B during the pilot project for comparable individuals in the same geographic area that are not determined to be within the scope of the pilot project.

(2) INCENTIVE.—Subject to paragraph (3), the Secretary shall pay to each participating home care agency an incentive payment for each year under the pilot project equal to a portion of the medicare savings realized for such year relative to the performance target under paragraph (1).

(3) LIMITATION ON EXPENDITURES.—The Secretary shall limit incentive payments under this section in order to ensure that the aggregate expenditures under title XVIII of the Social Security Act (including incentive payments under this subsection) do not exceed the amount that the Secretary estimates would have been expended if the pilot projects under this section had not been implemented.

(d) WAIVER AUTHORITY.—The Secretary may waive such provisions of titles XI and XVIII of the Social Security Act as the Secretary determines to be appropriate for the conduct of the pilot projects under this section.

(e) REPORT TO CONGRESS.—Not later than 5 years after the date that the first pilot project under this section is implemented, the Secretary shall submit to Congress a report on the pilot projects. Such report shall contain a detailed description of issues related to the expansion of the projects under subsection (f) and recommendations for such legislation and administrative actions as the Secretary considers appropriate.

(f) EXPANSION.—If the Secretary determines that any of the pilot projects under this section enhance health outcomes for Medicare beneficiaries and reduce expenditures under title XVIII of the Social Security Act, the Secretary may initiate comparable projects in additional areas.

(g) INCENTIVE PAYMENTS HAVE NO EFFECT ON OTHER MEDICARE PAYMENTS TO AGENCIES.—An incentive payment under this section—

(1) shall be in addition to the payments that a home health agency would otherwise receive under title XVIII of the Social Security Act for the provision of home health services; and

(2) shall have no effect on the amount of such payments.

**SA 2908.** Ms. KLOBUCHAR (for herself and Mr. KOHL) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 492, between lines 15 and 16, insert the following:

**SEC. 2407. SUPPORT FOR FAMILY CAREGIVERS UNDER MEDICARE AND MEDICAID.**

(a) MEDICARE FAMILY CAREGIVER INFORMATION AND REFERRAL.—State health insurance assistance programs, the Administrator of the Centers for Medicare & Medicaid Services, and the Assistant Secretary of the Administration on Aging shall, in collaboration with each other, directly or by contract, develop practical, easy-to-understand information and referral protocols for health care providers, social workers, and other appropriate individuals to provide to family caregivers of Medicare beneficiaries either on admission to or discharge from a hospital (including a discharge from a hospital emergency room or a hospital outpatient department which has furnished a surgical service) or a post-acute care setting (including a skilled nursing facility (as defined in section 1819(a) of the Social Security Act (42 U.S.C. 1395i-3(a)), a comprehensive rehabilitation facility (as defined in section 1861(cc)(2) of such Act (42 U.S.C. 1395x(cc)(2)) or a rehabilitation agency, a provider of long-term care services, and a home health agency (as defined in section 1861(o) of such Act (42 U.S.C. 1395x(o)). Information developed under the preceding sentence shall—

(1) include information on national, State, and community-based resources for seniors, individuals with disabilities and their caregivers, which shall be updated on a semi-annual basis (or as frequently as practicable);

(2) be disseminated by health care providers, social workers, and other appropriate individuals as printed materials (including materials in Spanish and other languages (other than English) as appropriate); and

(3) be made available on the Internet websites of State health insurance assistance programs, the Centers for Medicare & Medicaid Services, and the Administration on Aging.

(b) MEDICAID ASSESSMENT OF FAMILY CAREGIVER SUPPORT NEEDS.—

(1) IN GENERAL.—Section 1915 of the Social Security Act (42 U.S.C. 1396n), as amended by section 2401, is amended—

(A) in subsection (c)(2)—

(i) in subparagraph (D), by striking “and” at the end;

(ii) in subparagraph (E), by striking the period at the end and inserting “; and”; and

(iii) by adding at the end the following new subparagraph:

“(F) under such waiver the State may provide for an assessment of family caregiver support needs (in accordance with subsection (1)).”;

(B) in subsection (d)(2)—

(i) in subparagraph (B), by striking “and” at the end;

(ii) in subparagraph (C), by striking the period at the end and inserting “; and”; and

(iii) by adding at the end the following new subparagraph:

“(D) under such waiver the State may provide for an assessment of family caregiver support needs (in accordance with subsection (1)).”;

(C) in subsection (i)(1)(F), by adding at the end the following new clause:

“(vii) Where appropriate, an assessment of family caregiver support needs (in accordance with subsection (1)).”; and

(D) by adding at the end the following new subsection:

“(I) ASSESSMENT OF FAMILY CAREGIVER SUPPORT NEEDS.—

“(1) IN GENERAL.—In the case of an individual who is determined to be eligible for home and community-based services under a waiver under subsection (c) or (d) or under section 1115, under a State plan amendment under subsection (i), under an MFP demonstration project established under section 6071 of the Deficit Reduction Act of 2005, or as part of self-directed personal assistance services provided pursuant to a written plan of care in accordance with the requirements of subsection (j), and who is dependent upon the assistance of a family caregiver, the State may provide for an assessment of the family caregiver support needs of the individual. Such assessment shall, to the extent feasible, be conducted at the same time as, or closely coordinated with, the determination of the eligibility of the individual for such services.

“(2) QUESTIONNAIRE.—

“(A) IN GENERAL.—Such assessment shall include asking the family caregiver of the individual questions in order to determine whether they would benefit from targeted support services (such as those services described in paragraph (3)).

“(B) COMPLETION ON A VOLUNTARY BASIS.—The answering of questions under subparagraph (A) by a family caregiver shall be on a voluntary basis.

“(3) TARGETED SUPPORT SERVICES DESCRIBED.—The following targeted support services are described in this paragraph:

“(A) Respite care and emergency back-up services (including short-term help for the individual that gives the family caregiver a break from providing such care).

“(B) Individual counseling (including advice and consultation sessions to bolster emotional support for the family caregiver to make well-informed decisions about how to cope with the strain of supporting the individual).

“(C) Support groups, including groups which provide help for family caregivers to—

“(i) locate a support group either locally or online to share experiences and reduce isolation;

“(ii) make well-informed decisions about caring for the individual; and

“(iii) reduce isolation.

“(D) Information and assistance (including brochures and online resources for researching a disease or disability or learning and managing a regular caregiving role, new technologies that can assist family caregivers, and practical assistance for locating services).

“(E) Chore services (such as house cleaning).

“(F) Personal care (including outside help).

“(G) Education and training (including workshops and other resources available with information about stress management, self-care to maintain good physical and mental health, understanding and communicating with individuals with dementia, medication management, normal aging processes, change in disease and disability, the role of assistive technologies, and other relevant topics).

“(H) Legal and financial planning and consultation (including advice and counseling regarding long-term care planning, estate planning, powers of attorney, community property laws, tax advice, employment leave advice, advance directives, and end-of-life care).

“(I) Transportation (including transportation to medical appointments).

“(J) Other targeted support services the Secretary or the State determines appropriate.

“(4) REFERRALS.—In the case where a questionnaire completed by a family caregiver under paragraph (2) indicates that the family caregiver would benefit from 1 or more of the targeted support services described in paragraph (3), the State shall provide referrals to the family caregiver for local, State, and private-sector family caregiver programs and other resources that provide such targeted support services.”.

(2) EFFECTIVE DATE.—The amendments made by paragraph (1) shall apply to medical assistance for home and community-based services that is provided on or after the date of enactment of this Act.

**SA 2909.** Mr. NELSON of Florida (for himself, Mr. REID, Mr. SCHUMER, Mr. KERRY, Ms. STABENOW, and Mr. LEAHY) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 1449, strike line 1 and all that follows through page 1458, line 5, and insert the following:

**SEC. 5503. DISTRIBUTION OF ADDITIONAL RESIDENCY POSITIONS.**

(a) IN GENERAL.—Section 1886(h) of the Social Security Act (42 U.S.C. 1395ww(h)) is amended—

(1) in paragraph (4)(F)(i), by striking “paragraph (7)” and inserting “paragraphs (7) and (8)”;

(2) in paragraph (4)(H)(i), by striking “paragraph (7)” and inserting “paragraphs (7) and (8)”;

(3) by adding at the end the following new paragraph:

“(8) DISTRIBUTION OF ADDITIONAL RESIDENCY POSITIONS.—

“(A) ADDITIONAL RESIDENCY POSITIONS.—

“(i) REDUCTION IN LIMIT BASED ON UNUSED POSITIONS.—

“(I) IN GENERAL.—The Secretary shall reduce the otherwise applicable resident limit for a hospital that the Secretary determines had residency positions that were unused for all 5 of the most recent cost reporting periods ending prior to the date of enactment of

this paragraph by an amount that is equal to the number of such unused residency positions.

“(II) EXCEPTION FOR RURAL HOSPITALS AND CERTAIN OTHER HOSPITALS.—This subparagraph shall not apply to a hospital—

“(aa) located in a rural area (as defined in subsection (d)(2)(D)(ii));

“(bb) that has participated in a voluntary reduction plan under paragraph (6); or

“(cc) that has participated in a demonstration project approved as of October 31, 2003, under the authority of section 402 of Public Law 90-248.

“(ii) NUMBER AVAILABLE FOR DISTRIBUTION.—The number of additional residency positions available for distribution under subparagraph (B) shall be an amount that the Secretary determines would result in a 15 percent increase in the aggregate number of full-time equivalent residents in approved medical training programs (as determined based on the most recent cost reports available at the time of distribution). One-third of such number shall only be available for distribution to hospitals described in subclause (I) of subparagraph (B)(ii) under such subparagraph.

“(B) DISTRIBUTION.—

“(i) IN GENERAL.—The Secretary shall increase the otherwise applicable resident limit for each qualifying hospital that submits an application under this subparagraph by such number as the Secretary may approve for portions of cost reporting periods occurring on or after the date of enactment of this paragraph. The aggregate number of increases in the otherwise applicable resident limit under this subparagraph shall be equal to the number of additional residency positions available for distribution under subparagraph (A)(ii).

“(ii) DISTRIBUTION TO HOSPITALS ALREADY OPERATING OVER RESIDENT LIMIT.—

“(I) IN GENERAL.—Subject to subclause (II), in the case of a hospital in which the reference resident level of the hospital (as specified in clause (iii)) is greater than the otherwise applicable resident limit, the increase in the otherwise applicable resident limit under this subparagraph shall be an amount equal to the product of the total number of additional residency positions available for distribution under subparagraph (A)(ii) and the quotient of—

“(aa) the number of resident positions by which the reference resident level of the hospital exceeds the otherwise applicable resident limit for the hospital; and

“(bb) the number of resident positions by which the reference resident level of all such hospitals with respect to which an application is approved under this subparagraph exceeds the otherwise applicable resident limit for such hospitals.

“(II) REQUIREMENTS.—A hospital described in subclause (I)—

“(aa) is not eligible for an increase in the otherwise applicable resident limit under this subparagraph unless the amount by which the reference resident level of the hospital exceeds the otherwise applicable resident limit is not less than 10 and the hospital trains at least 25 percent of the full-time equivalent residents of the hospital in primary care and general surgery (as of the date of enactment of this paragraph); and

“(bb) shall continue to train at least 25 percent of the full-time equivalent residents of the hospital in primary care and general surgery for the 10-year period beginning on such date.

In the case where the Secretary determines that a hospital no longer meets the requirement of item (bb), the Secretary may reduce the otherwise applicable resident limit of the hospital by the amount by which such limit was increased under this clause.

“(III) CLARIFICATION REGARDING ELIGIBILITY FOR OTHER ADDITIONAL RESIDENCY POSITIONS.—Nothing in this clause shall be construed as preventing a hospital described in subclause (I) from applying for additional residency positions under this paragraph that are not reserved for distribution under this clause.

“(iii) REFERENCE RESIDENT LEVEL.—

“(I) IN GENERAL.—Except as otherwise provided in subclause (II), the reference resident level specified in this clause for a hospital is the resident level for the most recent cost reporting period of the hospital ending on or before the date of enactment of this paragraph, for which a cost report has been settled (or, if not, submitted (subject to audit)), as determined by the Secretary.

“(II) USE OF MOST RECENT ACCOUNTING PERIOD TO RECOGNIZE EXPANSION OF EXISTING PROGRAM OR ESTABLISHMENT OF NEW PROGRAM.—If a hospital submits a timely request to increase its resident level due to an expansion of an existing residency training program or the establishment of a new residency training program that is not reflected on the most recent cost report that has been settled (or, if not, submitted (subject to audit)), subject to the discretion of the Secretary, the reference resident level for such hospital is the resident level for the cost reporting period that includes the additional residents attributable to such expansion or establishment, as determined by the Secretary.

“(C) CONSIDERATIONS IN REDISTRIBUTION.—In determining for which hospitals the increase in the otherwise applicable resident limit is provided under subparagraph (B) (other than an increase under subparagraph (B)(ii)), the Secretary shall take into account the demonstrated likelihood of the hospital filling the positions within the first 3 cost reporting periods beginning on or after July 1, 2010, made available under this paragraph, as determined by the Secretary.

“(D) PRIORITY FOR CERTAIN AREAS.—In determining for which hospitals the increase in the otherwise applicable resident limit is provided under subparagraph (B) (other than an increase under subparagraph (B)(ii)), the Secretary shall distribute the increase to hospitals based on the following criteria:

“(i) The Secretary shall give preference to hospitals that submit applications for new primary care and general surgery residency positions. In the case of any increase based on such preference, a hospital shall ensure that—

“(I) the position made available as a result of such increase remains a primary care or general surgery residency position for not less than 10 years after the date on which the position is filled; and

“(II) the total number of primary care and general surgery residency positions in the hospital (determined based on the number of such positions as of the date of such increase, including any position added as a result of such increase) is not decreased during such 10-year period.

In the case where the Secretary determines that a hospital no longer meets the requirement of subclause (II), the Secretary may reduce the otherwise applicable resident limit of the hospital by the amount by which such limit was increased under this paragraph.

“(ii) The Secretary shall give preference to hospitals that emphasize training in community health centers and other community-based clinical settings.

“(iii) The Secretary shall give preference to hospitals in States that have more medical students than residency positions available (including a greater preference for those States with smaller resident-to-medical-student ratios). In determining the number of medical students in a State for purposes of the preceding sentence, the Secretary shall include planned students at medical schools which have provisional accreditation by the Liaison Committee on Medical Education or the American Osteopathic Association.

“(iv) The Secretary shall give preference to hospitals in States that have low resident-to-population ratios (including a greater preference for those States with lower resident-to-population ratios).

“(E) LIMITATION.—

“(i) IN GENERAL.—Except as provided in clause (ii), in no case may a hospital (other than a hospital described in subparagraph (B)(i)(I), subject to the limitation under subparagraph (B)(ii)(III)) apply for more than 50 full-time equivalent additional residency positions under this paragraph.

“(ii) INCREASE IN NUMBER OF ADDITIONAL POSITIONS AVAILABLE FOR DISTRIBUTION.—The Secretary shall increase the number of full-time equivalent additional residency positions a hospital may apply for under this paragraph if the Secretary determines that the number of additional residency positions available for distribution under subparagraph (A)(ii) exceeds the number of such applications approved.

“(F) APPLICATION OF PER RESIDENT AMOUNTS FOR PRIMARY CARE AND NONPRIMARY CARE.—With respect to additional residency positions in a hospital attributable to the increase provided under this paragraph, the approved FTE resident amounts are deemed to be equal to the hospital per resident amounts for primary care and nonprimary care computed under paragraph (2)(D) for that hospital.

“(G) DISTRIBUTION.—The Secretary shall distribute the increase to hospitals under this paragraph not later than 2 years after the date of enactment of this paragraph.”.

(b) IME.—

(1) IN GENERAL.—Section 1886(d)(5)(B)(v) of the Social Security Act (42 U.S.C. 1395ww(d)(5)(B)(v)), in the second sentence, is amended—

(A) by striking “subsection (h)(7)” and inserting “subsections (h)(7) and (h)(8)”; and

(B) by striking “it applies” and inserting “they apply”.

(2) CONFORMING PROVISION.—Section 1886(d)(5)(B) of the Social Security Act (42 U.S.C. 1395ww(d)(5)(B)) is amended by adding at the end the following clause:

“(x) For discharges occurring on or after the date of enactment of this clause, insofar as an additional payment amount under this subparagraph is attributable to resident positions distributed to a hospital under subsection (h)(8)(B), the indirect teaching adjustment factor shall be computed in the same manner as provided under clause (ii) with respect to such resident positions.”.

**SA 2910.** Mr. FRANKEN (for himself, Mr. ROCKEFELLER, Mrs. LINCOLN, Mr. WHITEHOUSE, Mr. LEAHY, Mr. SANDERS, Mr. BROWN, and Mr. BEGICH) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R.

3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

After section 1003, insert the following:

**SEC. 1004. BRINGING DOWN THE COST OF HEALTH CARE COVERAGE.**

(a) IN GENERAL.—Section 2718 of the Public Health Service Act, as added by section 1001, is amended to read as follows:

**“SEC. 2718. BRINGING DOWN THE COST OF HEALTH CARE COVERAGE.**

“(a) CLEAR ACCOUNTING FOR COSTS.—A group health plan and a health insurance issuer offering group or individual health insurance coverage shall, with respect to each plan year, submit to the Secretary a report concerning the percentage of total premium revenue that such coverage expends—

“(1) on reimbursement for clinical services provided to enrollees under such coverage;

“(2) for activities that improve health care quality; and

“(3) on all other non-claims costs, including an explanation of the nature of such costs, and excluding State taxes and licensing or regulatory fees.

The Secretary shall make reports received under this section available to the public on the Internet website of the Department of Health and Human Services.

“(b) ENSURING THAT CONSUMERS RECEIVE VALUE FOR THEIR PREMIUM PAYMENTS.—

“(1) REQUIREMENT TO PROVIDE VALUE FOR PREMIUM PAYMENTS.—A group health plan and a health insurance issuer offering group or individual health insurance coverage shall, with respect to each plan year, provide an annual rebate to each enrollee under such coverage, on a pro rata basis, in an amount that is equal to the amount by which premium revenue expended by the plan or issuer on activities described in subsection (a)(3) exceeds 10 percent, or such lower percentage as a State may by regulation determine.

“(2) CONSIDERATION IN SETTING PERCENTAGES.—In determining the percentages under paragraph (1), a State shall seek to ensure adequate participation by group health plans and health insurance issuers, competition in the health insurance market in the State, and value for consumers so that premiums are used for clinical services and quality improvements.

“(3) ENFORCEMENT.—The Secretary shall promulgate regulations for enforcing the provisions of this section and may provide for appropriate penalties.

“(c) STANDARD HOSPITAL CHARGES.—Each hospital operating within the United States shall for each year establish (and update) and make public (in accordance with guidelines developed by the Secretary) a list of the hospital's standard charges for items and services provided by the hospital, including for diagnosis-related groups established under section 1886(d)(4) of the Social Security Act.

“(d) DEFINITIONS.—Not later than December 31, 2010, the Secretary, in consultation with the National Association of Insurance Commissioners, shall establish uniform definitions of the activities reported under subsection (a) and standardized methodologies for calculating measures of such activities.”.

(b) TECHNICAL AMENDMENTS.—

(1) ERISA.—Section 715(b) of the Employee Retirement Income Security Act, as amended by section 1562(e), is further amended by striking “sections 2716 and 2718” and inserting “section 2716”.

(2) IRC.—Section 9815(b) of the Internal Revenue Code of 1986 is amended by striking “sections 2716 and 2718” and inserting “section 2716”.

**SA 2911.** Mr. FRANKEN (for himself and Mr. LUGAR) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle C of title IV, insert the following:

**SEC. 4208. NATIONAL DIABETES PREVENTION PROGRAM.**

Part P of title III of the Public Health Service Act (42 U.S.C. 280g et seq.), as amended by section 5405, is further amended by adding at the end the following:

**“SEC. 399V-2. NATIONAL DIABETES PREVENTION PROGRAM.**

“(a) **IN GENERAL.**—The Secretary, acting through the Director of the Centers for Disease Control and Prevention, shall establish a national diabetes prevention program (referred to in this section as the ‘program’) targeted at adults at high risk for diabetes in order to eliminate the preventable burden of diabetes.

“(b) **PROGRAM ACTIVITIES.**—The program described in subsection (a) shall include—

“(1) a grant program for community-based diabetes prevention program model sites;

“(2) a program within the Centers for Disease Control and Prevention to determine eligibility of entities to deliver community-based diabetes prevention services;

“(3) a training and outreach program for lifestyle intervention instructors; and

“(4) evaluation, monitoring and technical assistance, and applied research carried out by the Centers for Disease Control and Prevention.

“(c) **ELIGIBLE ENTITIES.**—To be eligible for a grant under subsection (b)(1), an entity shall be a State or local health department, a tribal organization, a national network of community-based non-profits focused on health and wellbeing, an academic institution, or other entity, as the Secretary determines.

“(d) **AUTHORIZATION OF APPROPRIATIONS.**—For the purpose of carrying out this section, there are authorized to be appropriated such sums as may be necessary for each of fiscal years 2010 through 2014.”

**SA 2912.** Mr. WHITEHOUSE submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place in title IV, insert the following:

**SEC. \_\_\_\_ PROGRAM OF PAYMENTS TO CHILDREN'S HOSPITALS THAT OPERATE GRADUATE MEDICAL EDUCATION PROGRAMS.**

Section 340E(g)(2) of the Public Health Service Act (42 U.S.C. 256e(g)) is amended—

(1) by striking “means a” and inserting “means—

“(A) a”;

(2) by striking the period and inserting “; or”; and

(3) by adding at the end the following:

“(B) a freestanding psychiatric hospital with 90 percent or more inpatients under the age of 18, that has its own Medicare provider number as of December 6, 1999, and that has an accredited residency program.”

**SA 2913.** Mr. WHITEHOUSE (for himself and Mr. CASEY) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1507, after line 19, insert the following:

**SEC. 5510. SUPPORT OF GRADUATE MEDICAL EDUCATION PROGRAMS IN WOMEN'S HOSPITALS.**

Subpart IX of part D of title III of the Public Health Service Act (42 U.S.C. 256e et seq.) is amended—

(1) in the subpart heading, by adding “and Women's Hospitals” at the end; and

(2) by adding at the end the following:

**“SEC. 340E-1. SUPPORT OF GRADUATE MEDICAL EDUCATION PROGRAMS IN WOMEN'S HOSPITALS.**

“(a) **PAYMENTS.**—The Secretary shall make two payments under this section to each women's hospital for each of fiscal years 2010 through 2014, one for the direct expenses and the other for indirect expenses associated with operating approved graduate medical residency training programs. The Secretary shall promulgate regulations pursuant to the rulemaking requirements of title 5, United States Code, which shall govern payments made under this subpart.

“(b) **AMOUNT OF PAYMENTS.**—

“(1) **IN GENERAL.**—Subject to paragraphs (2) and (3), the amounts payable under this section to a women's hospital for an approved graduate medical residency training program for a fiscal year shall be each of the following:

“(A) **DIRECT EXPENSE AMOUNT.**—The amount determined in accordance with subsection (c) for direct expenses associated with operating approved graduate medical residency training programs for a fiscal year.

“(B) **INDIRECT EXPENSE AMOUNT.**—The amount determined in accordance with subsection (c) for indirect expenses associated with the treatment of more severely ill patients and the additional costs relating to teaching residents in such programs for a fiscal year.

“(2) **CAPPED AMOUNT.**—

“(A) **IN GENERAL.**—The total of the payments made to women's hospitals under paragraph (1)(A) or paragraph (1)(B) in a fiscal year shall not exceed the funds appropriated under subsection (e) for such payments for that fiscal year.

“(B) **PRO RATA REDUCTIONS OF PAYMENTS FOR DIRECT EXPENSES.**—If the Secretary de-

termines that the amount of funds appropriated under subsection (e) for a fiscal year is insufficient to provide the total amount of payments otherwise due for such periods under paragraph (1)(A), the Secretary shall reduce the amounts so payable on a pro rata basis to reflect such shortfall.

“(3) **ANNUAL REPORTING REQUIRED.**—The provisions of subsection (b)(3) of section 340E shall apply to women's hospitals under this section in the same manner as such provisions apply to children's hospitals under such section 340E. In applying such provisions, the Secretary may make such modifications as may be necessary to apply such provisions to women's hospitals.

“(c) **APPLICATION OF CERTAIN PROVISIONS.**—The provisions of subsections (c) and (d) of section 340E shall apply to women's hospitals under this section in the same manner as such provisions apply to children's hospitals under such section 340E. In applying such provisions, the Secretary may make such modifications as may be necessary to apply such provisions to women's hospitals.

“(d) **MAKING OF PAYMENTS.**—

“(1) **INTERIM PAYMENTS.**—The Secretary shall determine, before the beginning of each fiscal year involved for which payments may be made for a hospital under this section, the amounts of the payments for direct graduate medical education and indirect medical education for such fiscal year and shall (subject to paragraph (2)) make the payments of such amounts in 12 equal interim installments during such period. Such interim payments to each individual hospital shall be based on the number of residents reported in the hospital's most recently filed Medicare cost report prior to the application date for the Federal fiscal year for which the interim payment amounts are established. In the case of a hospital that does not report residents on a Medicare cost report, such interim payments shall be based on the number of residents trained during the hospital's most recently completed Medicare cost report filing period.

“(2) **WITHHOLDING.**—The Secretary shall withhold up to 25 percent from each interim installment for direct and indirect graduate medical education paid under paragraph (1) as necessary to ensure a hospital will not be overpaid on an interim basis.

“(3) **RECONCILIATION.**—Prior to the end of each fiscal year, the Secretary shall determine any changes to the number of residents reported by a hospital in the application of the hospital for the current fiscal year to determine the final amount payable to the hospital for the current fiscal year for both direct expense and indirect expense amounts. Based on such determination, the Secretary shall recoup any overpayments made and pay any balance due to the extent possible. The final amount so determined shall be considered a final intermediary determination for the purposes of section 1878 of the Social Security Act and shall be subject to administrative and judicial review under that section in the same manner as the amount of payment under section 1886(d) of such Act is subject to review under such section.

“(e) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to carry out this section, \$12,000,000 for fiscal year 2010, and such sums as may be necessary for each of fiscal years 2011 through 2014.

“(f) **DEFINITIONS.**—In this section:

“(1) **APPROVED GRADUATE MEDICAL RESIDENCY TRAINING PROGRAM.**—The term ‘approved graduate medical residency training program’ has the meaning given the term

'approved medical residency training program' in section 1886(h)(5)(A) of the Social Security Act.

"(2) DIRECT GRADUATE MEDICAL EDUCATION COSTS.—The term 'direct graduate medical education costs' has the meaning given such term in section 1886(h)(5)(C) of the Social Security Act.

"(3) WOMEN'S HOSPITAL.—The term 'women's hospital' means a hospital—

"(A) that has a Medicare provider agreement under title XVIII of the Social Security Act;

"(B) that has an approved graduate medical residency training program;

"(C) that has not been excluded from the Medicare prospective payment system;

"(D) that had at least 3,000 births during 2007, as determined by the Centers for Medicare & Medicaid Services; and

"(E) with respect to which and as determined by the Centers for Medicare & Medicaid Services, less than 4 percent of the total discharges from the hospital during 2007 were Medicare discharges of individuals who, as of the time of the discharge—

"(i) were enrolled in the original Medicare fee-for-service program under part A of title XVIII of the Social Security Act; and

"(ii) were not enrolled in—

"(I) a Medicare Advantage plan under part C of title XVIII of that Act;

"(II) an eligible organization under section 1876 of that Act; or

"(III) a PACE program under section 1894 of that Act."

**SA 2914.** Mr. WHITEHOUSE submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 2029, between lines 4 and 5, insert the following:

(C) PERFORMANCE ADJUSTMENT TO ANNUAL FEE.—

(1) IN GENERAL.—The Secretary shall—

(A) in the case of a penalized covered entity, increase the fee determined under subsection (b) for a calendar year as provided in paragraph (3), and

(B) in the case of any other covered entity, reduce the fee determined under subsection (b) for a calendar year as provided in paragraph (4).

(2) PENALIZED COVERED ENTITY DESCRIBED.—

(A) IN GENERAL.—For purposes of this paragraph, the term "penalized covered entity" means a covered entity that the Secretary determines has failed to meet the key performance thresholds (established under subparagraph (B)) for the calendar year involved.

(B) KEY PERFORMANCE THRESHOLDS.—The key performance thresholds established under this subparagraph are as follows:

(i) MEDICAL LOSS RATIO THRESHOLD.—The covered entity has a medical loss ratio, as reported under section 2718(a)(1) of the Public Health Service Act, of not less than 85 percent. The Secretary, in consultation with the Secretary of Health and Human Services may increase, but not decrease, such percentage by regulation.

(ii) MAXIMUM FINANCIAL RESERVE THRESHOLD.—

(I) IN GENERAL.—The covered entity has a financial reserve which is not greater than the amount established under regulations by the Secretary, in consultation with the Secretary of Health and Human Services. The Secretary may establish different thresholds for different categories of covered entity under this section. The Secretary, in consultation with the National Association of Insurance Commissioners, shall establish a uniform methodology for reporting financial reserve levels and determining maximum financial reserve thresholds under this subparagraph.

(II) REPORTS.—Each covered entity shall annually submit a report (in a manner to be established by the Secretary through regulation) to the Secretary and the Secretary of Health and Human Services containing such information about the financial reserves of the entity as the Secretary may require. The rules of subsection (g)(2) shall apply to the information required to be reported under this subclause.

(3) AMOUNT OF FEE INCREASE.—

(A) IN GENERAL.—In the case of a penalized covered entity, the fee determined under subsection (b) for the calendar year shall be increased by the penalty amount.

(B) PENALTY AMOUNT.—

(i) IN GENERAL.—The penalty amount shall be the product of—

(I) the amount determined under subsection (b), and

(II) the sum of the amounts determined under subparagraphs (C) and (D).

(ii) LIMITATION.—The penalty amount shall not exceed 20 percent of the amount determined under subsection (b).

(C) MEDICAL LOSS RATIO COMPONENT.—The amount determined under this subparagraph is the amount equal to the excess of—

(i) the medical loss ratio threshold established under paragraph (2)(A), over

(ii) the medical loss ratio (expressed in decimal form) of the penalized covered entity.

(D) FINANCIAL RESERVE COMPONENT.—The amount determined under this subparagraph is the amount equal to the ratio of—

(i) the excess of—

(I) the financial reserves of the penalized covered entity, over

(II) the maximum financial reserve threshold established under paragraph (2)(B)(ii), to

(ii) such maximum financial reserve threshold.

(4) REDUCTION IN FEE.—

(A) IN GENERAL.—

(i) AMOUNT OF REDUCTION.—In the case of any covered entity that is not a penalized covered entity, the fee determined under subsection (b) for the calendar year shall be reduced by an amount equal to the product of—

(I) the sum of all penalty amounts assessed in the calendar year under paragraph (3), and

(II) the fee redistribution ratio.

(ii) LIMITATION.—The reduction under this paragraph shall not exceed 20 percent of the amount determined under subsection (b).

(B) FEE DISTRIBUTION RATIO.—For purposes of this paragraph, the fee redistribution ratio is the ratio of—

(i) the weighted net written premium amount of the covered entity, to

(ii) the aggregate of the weighted net written premium amount of all covered entities.

(C) WEIGHTED NET WRITTEN PREMIUM AMOUNT.—For purposes of this paragraph, the weighted net written premium amount with respect to any covered entity is the amount described in subsection (b)(1)(A)(i) with respect to such covered entity, increased by the product of—

(i) such amount, and

(ii) the product of 0.05 and the sum of the amounts determined under subparagraphs (D) and (E).

(D) MEDICAL LOSS RATIO COMPONENT.—The amount determined under this subparagraph is the amount equal to the excess of—

(i) the medical loss ratio (expressed as a percentage) of the covered entity, over

(ii) the medical loss ratio threshold established under paragraph (2)(A).

(E) FINANCIAL RESERVE COMPONENT.—The amount determined under this subparagraph is the amount equal to the ratio of—

(i) the excess of—

(I) the maximum financial reserve threshold established under paragraph (2)(B)(ii), over

(II) the financial reserves of the covered entity, to

(ii) such maximum financial reserve threshold.

**SA 2915.** Mrs. SHAHEEN (for herself, Mr. BROWN, Mr. MENENDEZ, and Mr. LAUTENBERG) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 531, line 2, insert the following after the period: "In awarding planning grants, the Secretary shall give preference to States that agree to develop a State plan amendment that includes methodologies and procedures that are intended to improve coordination of care for eligible individuals with chronic conditions who are high users of health care services (including emergency room and inpatient hospital services), including through the use of referrals to health homes and outreach care management services."

**SA 2916.** Mr. UDALL of New Mexico (for himself and Mr. BINGAMAN) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1539, line 7, insert "in a rural area (as defined in section 1886(d)(2)(D)), a medically underserved community (as defined in section 799B(6) of the Public Health Service Act), or" after "located".

**SA 2917.** Mr. MENENDEZ submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other

purposes; which was ordered to lie on the table; as follows:

On page 116, between lines 6 and 7, insert the following:

(4) **SPECIAL RULE REGARDING PREGNANCY.**—An individual who becomes pregnant and is enrolled in a catastrophic plan described under this subsection may, notwithstanding any other provision of law, enroll in another qualified health plan during such individual's pregnancy.

**SA 2918.** Mr. MENENDEZ (for himself, Ms. STABENOW, and Mr. SANDERS) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 116, between lines 13 and 14, insert the following:

(g) **PAYMENTS TO FEDERALLY-QUALIFIED HEALTH CENTERS.**—If any item or service covered by a qualified health plan is provided by a Federally-qualified health center (as defined in section 1905(1)(2)(B) of the Social Security Act (42 U.S.C. 1396d(1)(2)(B)) to an enrollee of the plan, the offeror of the plan shall pay to the center for the item or service an amount that is not less than the amount of payment that would have been paid to the center under section 1902(bb) of such Act (42 U.S.C. 1396a(bb)) for such item or service.

**SA 2919.** Mr. MENENDEZ submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 33, strike line 5 and all that follows through line 4 on page 34 and insert the following:

**“SEC. 2719. APPEALS PROCESS.**

“(a) **INTERNAL CLAIMS APPEALS.**—A group health plan and a health insurance issuer offering group or individual health insurance coverage shall implement an effective appeals process for appeals of coverage determinations and claims, under which the plan or issuer shall, at a minimum—

“(1) have in effect an internal claims appeal process;

“(2) provide notice to enrollees, in a culturally and linguistically appropriate manner, of available internal and external appeals processes, and the availability of any applicable office of health insurance consumer assistance or ombudsman established under section 2793 to assist such enrollees with the appeals processes; and

“(3) allow an enrollee to review their file, to present evidence and testimony as part of the appeals process, and to receive continued coverage pending the outcome of the appeals process.

“(b) **EXTERNAL REVIEW.**—A group health plan and a health insurance issuer offering

group or individual health insurance coverage—

“(1) shall comply with the applicable State external review process for such plans and issuers that, at a minimum, includes the consumer protections set forth in the Uniform External Review Model Act promulgated by the National Association of Insurance Commissioners and is binding on such plans; or

“(2) shall implement an effective external review process that meets minimum standards established by the Secretary through guidance and that is similar to the process described under paragraph (1)—

“(A) if the applicable State has not established an external review process that meets the requirements of paragraph (1); or

“(B) if the plan is a self-insured plan that is not subject to State insurance regulation (including a State law that establishes an external review process described in paragraph (1)).”.

**SA 2920.** Mr. MENENDEZ submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

After section 1103, insert the following:

**SEC. 1104. REPORTING REQUIREMENTS REGARDING THE RATE OF DENIAL OF COVERAGE AND ENROLLMENT BY HEALTH INSURANCE ISSUERS.**

(a) **REQUIREMENTS REGARDING DENIAL OF COVERAGE FOR MEDICAL SERVICES.**—

(1) **IN GENERAL.**—Not later than 90 days after the date of enactment of this Act, the Secretary shall promulgate regulations requiring health insurance issuers to report annually to the Secretary data concerning—

(A) each denial of coverage for medical services to a plan enrollee in the preceding year, listed by the types of services for which coverage was denied; and

(B) the reasons such coverage was denied.

(2) **PUBLICATION OF DATA.**—The Secretary shall make the data reported under paragraph (1) available to the public on the Internet website described in section 1103(a).

(b) **REQUIREMENTS REGARDING DENIAL OF ENROLLMENT IN A HEALTH INSURANCE PLAN.**—

(1) **IN GENERAL.**—Not later than January 1, 2011, the Secretary shall issue regulations requiring each health insurance issuer to report annually to the Secretary data concerning—

(A) each incident in which such issuer, in the preceding year, denied the application of an individual to enroll in a health insurance plan offered by such issuer; and

(B) the reasons each such application was denied.

(2) **PUBLICATION OF DATA.**—The Secretary shall make the data reported under paragraph (1) available to the public on the Internet website described in section 1103(a).

(3) **SUNSET.**—The requirements under this subsection shall cease to have effect on January 1, 2014.

(c) **CONSULTATION.**—In developing the regulations under subsection (a)(1) and (b)(1) and collecting data as required by such subsections, the Secretary shall consult with State insurance commissioners and the National Association of Insurance Commissioners.

(d) **APPLICABILITY OF REQUIREMENTS.**—The reporting requirements under this section shall apply to all health insurance issuers and all health insurance plans, without regard to whether such issuer offers a qualified health plan, or whether such plan is a qualified health plan, as described in subtitle D.

**SA 2921.** Ms. STABENOW (for herself and Mrs. MCCASKILL) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 2074, after line 25, insert the following:

**Subtitle C—Provisions Related to Improving Tax Incentives for Individuals and Employers Under Title I**

**PART I—GENERAL PROVISIONS**

**SEC. 9031. PREMIUM ASSISTANCE CREDIT.**

(a) **IN GENERAL.**—Section 36B(b)(3)(A)(i) of the Internal Revenue Code of 1986, as added by section 1401, is amended by striking “7” each place it appears and inserting “6”.

(b) **EFFECTIVE DATE.**—The amendment made by this section shall take effect as if included in section 1401.

**SEC. 9032. SMALL EMPLOYER HEALTH INSURANCE CREDIT.**

(a) **IN GENERAL.**—Notwithstanding section 1421(f) of this Act—

(1) the amendments made by subsections (a), (b), (d), and (e) of section 1421 shall apply to taxable years beginning after December 31, 2009, and

(2) the amendments made by subsection (c) of section 1421 shall apply to credits determined under section 45R of the Internal Revenue Code of 1986 in taxable years beginning after December 31, 2009.

(b) **CONFORMING AMENDMENTS.**—

(1) Clause (i) of section 45R(d)(3)(B) of the Internal Revenue Code of 1986, as added by section 1421, is amended by inserting “2010,” before “2011” each place it appears in the text and in the heading.

(2) Subsection (g) of section 45R of such Code, as added by section 1421, is amended by inserting “2010,” before “2011” each place it appears in the text and in the heading.

(3) Section 280C(h) of such Code, as added by section 1421, is amended by inserting “2010,” before “2011”.

(c) **EFFECTIVE DATE.**—The amendments made by subsection (b) shall apply to taxable years beginning after December 31, 2009.

**PART II—REVENUE PROVISIONS**

**SEC. 9035. SURTAX ON INVESTMENT INCOME.**

(a) **IN GENERAL.**—

(1) **SURTAX.**—

(A) **IMPOSITION OF TAX.**—Subtitle A of the Internal Revenue Code of 1986 is amended by redesignating chapter 3 as chapter 4 and by inserting after chapter 2 the following new chapter:

**“CHAPTER 3—TAX ON INVESTMENT INCOME**

“Sec. 1411. Rate of tax.

“Sec. 1412. Investment income.

**“SEC. 1411. RATE OF TAX.**

“(a) **IN GENERAL.**—In addition to other taxes, there shall be imposed for each taxable year on the investment income of every

taxpayer (other than a corporation, estate, or trust) a tax equal to 1.45 percent of such investment income for such taxable year.

“(b) PHASE-IN OF RATE.—The rate under subsection (a) (determined without regard to this subsection) shall be reduced (but not below zero) by the amount which bears the same ratio to such rate as—

“(1) the excess of—

“(A) \$240,000 (\$290,000 in the case of a joint return), over

“(B) the taxpayer’s adjusted gross income for the taxable year, bears to

“(2) \$40,000.

#### “SEC. 1412. INVESTMENT INCOME.

“(a) IN GENERAL.—For purposes of this chapter, the term ‘investment income’ means the sum of—

“(1) capital gain net income, and

“(2) net investment income.

“(b) NET INVESTMENT INCOME.—For purposes of this chapter, the term ‘net investment income’ means the net income (other than income which is included in self-employment income for purposes of chapter 2) from—

“(1) dividends,

“(2) interest (other than interest which is excludable from income under chapter 1), and

“(3) investment property income.

“(c) INVESTMENT PROPERTY.—For purposes of this chapter, the term ‘investment property income’ means income (determined after taking into account any deduction allowed under chapter 1 with respect to such income) derived from—

“(1) any property held for the production of rents or royalties,

“(2) any partnership or S corporation,

“(3) any estate or trust in which the taxpayer is a beneficiary, and

“(4) any real estate mortgage investment conduit in which the taxpayer is a residual holder.

“(d) TAXABLE YEARS ENDING AS THE RESULT OF A DEATH.—Rules similar to the rules of section 1402(f) shall apply with respect to investment income in a taxable year which ends as a result of the death of the taxpayer.”

(2) ESTIMATED TAXES.—Section 6654 of the Internal Revenue Code of 1986 is amended—

(A) in subsection (a), by striking “and the tax under chapter 2” and inserting “the tax under chapter 2, and the tax under chapter 3”, and

(B) in subsection (f)—

(i) by striking “minus” at the end of paragraph (2) and inserting “plus”, and

(ii) by redesignating paragraph (3) as paragraph (4) and by inserting after paragraph (2) the following new paragraph:

“(3) the taxed imposed by chapter 3, minus”.

(3) RETURNS.—

(A) IN GENERAL.—Subpart B of part II of subchapter A of chapter 61 of the Internal Revenue Code of 1986 is amended by adding at the end the following new section:

#### “SEC. 6017A. INVESTMENT INCOME TAX RETURNS.

“Every taxpayer (other than a corporation, estate, or trust) having investment income for the taxable year shall make a return with respect to the investment income tax imposed by chapter 3.”

(B) CONFORMING AMENDMENT.—The table of sections for subpart B of part II of subchapter A of chapter 61 of such Code is amended by adding at the end the following new item:

“Sec. 6017A. Investment income tax returns.”.

(4) CONFORMING AMENDMENTS.—

(A) The following sections of the Internal Revenue Code of 1986 are amended by striking “chapter 3” and inserting “chapter 4” each place it appears:

(i) Section 33.

(ii) Section 864(b).

(iii) Section 871(k)(1)(B)(ii).

(iv) Section 877A(d)(5).

(v) Section 896(a).

(vi) Section 3402(t)(2)(A).

(vii) Section 3405(e)(1)(B)(iii).

(viii) Paragraphs (2)(C)(iv), (5)(A), and (5)(B) of section 6049(b).

(ix) Section 6414.

(x) Paragraphs (1) and (2) of section 6501(b).

(xi) Subsections (b)(3) and (c) of section 6513.

(xii) Paragraphs (1) and (2) of section 6724(d).

(B) CLERICAL AMENDMENT.—The table of chapters for subtitle A of chapter 1 of the Internal Revenue Code of 1986 is amended by redesignating the item relating to chapter 3 as relating to chapter 4 and by inserting after the item relating to chapter 2 the following new item:

#### “CHAPTER 3—TAX ON INVESTMENT INCOME”.

(5) EFFECTIVE DATE.—The amendments made by this subsection shall apply to taxable years beginning after December 31, 2012.

(b) TRANSFER OF AMOUNTS TO FEDERAL HOSPITAL INSURANCE TRUST FUND.—Section 1817(a) of the Social Security Act (42 U.S.C. 1395i(a)) is amended by striking “and” at the end of paragraph (1), by striking the period at the end of paragraph (2) and inserting “; and”, and by inserting after paragraph (2) the following new paragraph:

“(3) the taxes imposed by section 1411 of the Internal Revenue Code of 1986 with respect to investment income reported to the Secretary of the Treasury or his delegate on tax returns under subtitle F of such Code, as determined by the Secretary of the Treasury by applying the applicable rate of tax under such section to such investment income, which investment income shall be certified by the Commissioner of Social Security on the basis of records of investment income established and maintained by the Commissioner of Social Security.”.

**SA 2922.** Mr. DORGAN submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 567, after line 19, add the following:

#### **SEC. 2903. FUNDING FOR CONTRACT MEDICAL CARE FOR INDIANS.**

Title VIII of the Indian Health Care Improvement Act (25 U.S.C. 1671 et seq.) is amended by adding at the end the following:

#### **“SEC. 826. FUNDING FOR CONTRACT MEDICAL CARE.**

“(a) APPROPRIATION.—For the purpose of the Secretary, acting through the Service, providing payment for contract medical care to Indians, there is appropriated, out of any money in the Treasury not otherwise appropriated, such sums as may be necessary, not to exceed—

“(1) for fiscal year 2010, \$625,000,000;

“(2) for fiscal year 2011, \$2,500,000,000;

“(3) for each of fiscal years 2012 through 2014, the limit specified under this subsection for the preceding fiscal year, increased by the percentage increase (if any) in the medical care component of the Consumer Price Index for All Urban Consumers (all items; United States city average) over such preceding fiscal year; and

“(4) for the first quarter of fiscal year 2015, one-fourth of the limit specified under this subsection for fiscal year 2014, increased by the percentage increase (if any) in the medical care component of the Consumer Price Index for All Urban Consumers (all items; United States city average) over such preceding fiscal year.

“(b) NO EFFECT ON OTHER FUNDING FOR THIS ACT; AVAILABILITY.—Funds appropriated under subsection (a) shall—

“(1) be in addition to any other amounts made available under law (including under a provision of this Act, the Social Security Act, the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), or any other law) for payment for providing contract medical care to Indians; and

“(2) remain available until expended.

“(c) STUDY AND REPORT.—Not later than October 1, 2015, the Secretary shall study and submit a report to the Committee on Natural Resources of the House of Representatives and the Committee on Indian Affairs of the Senate on the extent to which the funds appropriated under this section have assisted in reducing health disparities among Indians.

“(d) BUDGET AUTHORITY.—This section constitutes budget authority in advance of appropriations Acts and represents the obligation of the Federal Government to provide for payment of the amounts provided under subsection (a).

“(e) DEFINITION.—In this section, the term ‘Indian health program’ means—

“(1) any health program administered directly by the Service;

“(2) any tribal health program; and

“(3) any Indian tribe or tribal organization to which the Secretary of Health and Human Services provides funding pursuant to section 23 of the Act of June 25, 1910 (25 U.S.C. 47) (commonly known as the ‘Buy Indian Act’).”.

**SA 2923.** Mr. DORGAN (for himself, Mr. WHITEHOUSE, Mr. UDALL of New Mexico, Mr. BEGICH, Mr. JOHNSON, Mr. FRANKEN, Ms. CANTWELL, Mr. UDALL of Colorado, Mr. TESTER, and Mr. INOUE) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; as follows:

At the end, add the following:

#### **DIVISION B—INDIAN HEALTH CARE IMPROVEMENT ACT REAUTHORIZATION AND EXTENSION**

#### **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

(a) SHORT TITLE.—This Act may be cited as the “Indian Health Care Improvement Reauthorization and Extension Act of 2009”.

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

# TITLE I—INDIAN HEALTH CARE IMPROVEMENT ACT REAUTHORIZATION AND AMENDMENTS

- Sec. 101. Reauthorization.
- Sec. 102. Findings.
- Sec. 103. Declaration of national Indian health policy.
- Sec. 104. Definitions.
- Subtitle A—Indian Health Manpower
- Sec. 111. Community Health Aide Program.
- Sec. 112. Health professional chronic shortage demonstration programs.
- Sec. 113. Exemption from payment of certain fees.
- Subtitle B—Health Services
- Sec. 121. Indian Health Care Improvement Fund.
- Sec. 122. Catastrophic Health Emergency Fund.
- Sec. 123. Diabetes prevention, treatment, and control.
- Sec. 124. Other authority for provision of services; shared services for long-term care.
- Sec. 125. Reimbursement from certain third parties of costs of health services.
- Sec. 126. Crediting of reimbursements.
- Sec. 127. Behavioral health training and community education programs.
- Sec. 128. Cancer screenings.
- Sec. 129. Patient travel costs.
- Sec. 130. Epidemiology centers.
- Sec. 131. Indian youth grant program.
- Sec. 132. American Indians Into Psychology Program.
- Sec. 133. Prevention, control, and elimination of communicable and infectious diseases.
- Sec. 134. Methods to increase clinician recruitment and retention issues.
- Sec. 135. Liability for payment.
- Sec. 136. Offices of Indian Men's Health and Indian Women's Health.
- Sec. 137. Contract health service administration and disbursement formula.
- Subtitle C—Health Facilities
- Sec. 141. Health care facility priority system.
- Sec. 142. Indian health care delivery demonstration projects.
- Sec. 143. Tribal management of federally owned quarters.
- Sec. 144. Other funding, equipment, and supplies for facilities.
- Sec. 145. Indian country modular component facilities demonstration program.
- Sec. 146. Mobile health stations demonstration program.
- Subtitle D—Access to Health Services
- Sec. 151. Treatment of payments under Social Security Act health benefits programs.
- Sec. 152. Purchasing health care coverage.
- Sec. 153. Grants to and contracts with the Service, Indian tribes, tribal organizations, and urban Indian organizations to facilitate outreach, enrollment, and coverage of Indians under Social Security Act health benefit programs and other health benefits programs.
- Sec. 154. Sharing arrangements with Federal agencies.
- Sec. 155. Eligible Indian veteran services.
- Sec. 156. Nondiscrimination under Federal health care programs in qualifications for reimbursement for services.

- Sec. 157. Access to Federal insurance.
- Sec. 158. General exceptions.
- Sec. 159. Navajo Nation Medicaid Agency feasibility study.

## Subtitle E—Health Services for Urban Indians

- Sec. 161. Facilities renovation.
- Sec. 162. Treatment of certain demonstration projects.
- Sec. 163. Requirement to confer with urban Indian organizations.
- Sec. 164. Expanded program authority for urban Indian organizations.
- Sec. 165. Community health representatives.
- Sec. 166. Use of Federal Government facilities and sources of supply; health information technology.

## Subtitle F—Organizational Improvements

- Sec. 171. Establishment of the Indian Health Service as an agency of the Public Health Service.
- Sec. 172. Office of Direct Service Tribes.
- Sec. 173. Nevada area office.

## Subtitle G—Behavioral Health Programs

- Sec. 181. Behavioral health programs.

## Subtitle H—Miscellaneous

- Sec. 191. Confidentiality of medical quality assurance records; qualified immunity for participants.
- Sec. 192. Arizona, North Dakota, and South Dakota as contract health service delivery areas; eligibility of California Indians.
- Sec. 193. Methods to increase access to professionals of certain corps.
- Sec. 194. Health services for ineligible persons.
- Sec. 195. Annual budget submission.
- Sec. 196. Prescription drug monitoring.
- Sec. 197. Tribal health program option for cost sharing.
- Sec. 198. Disease and injury prevention report.
- Sec. 199. Other GAO reports.
- Sec. 199A. Traditional health care practices.
- Sec. 199B. Director of HIV/AIDS Prevention and Treatment.

# TITLE II—AMENDMENTS TO OTHER ACTS

- Sec. 201. Medicare amendments.
- Sec. 202. Reauthorization of Native Hawaiian health care programs.

# TITLE I—INDIAN HEALTH CARE IMPROVEMENT ACT REAUTHORIZATION AND AMENDMENTS

## SEC. 101. REAUTHORIZATION.

(a) IN GENERAL.—Section 825 of the Indian Health Care Improvement Act (25 U.S.C. 1680o) is amended to read as follows:

## “SEC. 825. AUTHORIZATION OF APPROPRIATIONS.

“There are authorized to be appropriated such sums as are necessary to carry out this Act for fiscal year 2010 and each fiscal year thereafter, to remain available until expended.”.

(b) REPEALS.—The following provisions of the Indian Health Care Improvement Act are repealed:

- (1) Section 123 (25 U.S.C. 1616p).
- (2) Paragraph (6) of section 209(m) (25 U.S.C. 1621h(m)).
- (3) Subsection (g) of section 211 (25 U.S.C. 1621j).
- (4) Subsection (e) of section 216 (25 U.S.C. 1621o).
- (5) Section 224 (25 U.S.C. 1621w).
- (6) Section 309 (25 U.S.C. 1638a).
- (7) Section 407 (25 U.S.C. 1647).
- (8) Subsection (c) of section 512 (25 U.S.C. 1660b).
- (9) Section 514 (25 U.S.C. 1660d).
- (10) Section 603 (25 U.S.C. 1663).

(11) Section 805 (25 U.S.C. 1675).

(c) CONFORMING AMENDMENTS.—

(1) Section 204(c)(1) of the Indian Health Care Improvement Act (25 U.S.C. 1621c(c)(1)) is amended by striking “through fiscal year 2000”.

(2) Section 213 of the Indian Health Care Improvement Act (25 U.S.C. 1621l) is amended by striking “(a) The Secretary” and inserting “The Secretary”.

(3) Section 310 of the Indian Health Care Improvement Act (25 U.S.C. 1638b) is amended by striking “funds provided pursuant to the authorization contained in section 309” each place it appears and inserting “funds made available to carry out this title”.

## SEC. 102. FINDINGS.

Section 2 of the Indian Health Care Improvement Act (25 U.S.C. 1601) is amended—

(1) by redesignating subsections (a), (b), (c), and (d) as paragraphs (1), (3), (4), and (5), respectively, and indenting the paragraphs appropriately; and

(2) by inserting after paragraph (1) (as so redesignated) the following:

“(2) A major national goal of the United States is to provide the resources, processes, and structure that will enable Indian tribes and tribal members to obtain the quantity and quality of health care services and opportunities that will eradicate the health disparities between Indians and the general population of the United States.”.

## SEC. 103. DECLARATION OF NATIONAL INDIAN HEALTH POLICY.

Section 3 of the Indian Health Care Improvement Act (25 U.S.C. 1602) is amended to read as follows:

## “SEC. 3. DECLARATION OF NATIONAL INDIAN HEALTH POLICY.

“Congress declares that it is the policy of this Nation, in fulfillment of its special trust responsibilities and legal obligations to Indians—

“(1) to ensure the highest possible health status for Indians and urban Indians and to provide all resources necessary to effect that policy;

“(2) to raise the health status of Indians and urban Indians to at least the levels set forth in the goals contained within the Healthy People 2010 initiative or successor objectives;

“(3) to ensure maximum Indian participation in the direction of health care services so as to render the persons administering such services and the services themselves more responsive to the needs and desires of Indian communities;

“(4) to increase the proportion of all degrees in the health professions and allied and associated health professions awarded to Indians so that the proportion of Indian health professionals in each Service area is raised to at least the level of that of the general population;

“(5) to require that all actions under this Act shall be carried out with active and meaningful consultation with Indian tribes and tribal organizations, and conference with urban Indian organizations, to implement this Act and the national policy of Indian self-determination;

“(6) to ensure that the United States and Indian tribes work in a government-to-government relationship to ensure quality health care for all tribal members; and

“(7) to provide funding for programs and facilities operated by Indian tribes and tribal organizations in amounts that are not less than the amounts provided to programs and facilities operated directly by the Service.”.

## SEC. 104. DEFINITIONS.

Section 4 of the Indian Health Care Improvement Act (25 U.S.C. 1603) is amended—

(1) by striking the matter preceding subsection (a) and inserting "In this Act:";

(2) in each of subsections (c), (j), (k), and (l), by redesignating the paragraphs contained in the subsections as subparagraphs and indenting the subparagraphs appropriately;

(3) by redesignating subsections (a) through (q) as paragraphs (17), (18), (13), (14), (26), (28), (27), (29), (1), (20), (11), (7), (19), (10), (21), (8), and (9), respectively, indenting the paragraphs appropriately, and moving the paragraphs so as to appear in numerical order;

(4) in each paragraph (as so redesignated), by inserting a heading the text of which is comprised of the term defined in the paragraph;

(5) by inserting "The term" after each paragraph heading;

(6) by inserting after paragraph (1) (as redesignated by paragraph (3)) the following:

"(2) BEHAVIORAL HEALTH.—

"(A) IN GENERAL.—The term 'behavioral health' means the blending of substance (alcohol, drugs, inhalants, and tobacco) abuse and mental health disorders prevention and treatment for the purpose of providing comprehensive services.

"(B) INCLUSIONS.—The term 'behavioral health' includes the joint development of substance abuse and mental health treatment planning and coordinated case management using a multidisciplinary approach.

"(3) CALIFORNIA INDIAN.—The term 'California Indian' means any Indian who is eligible for health services provided by the Service pursuant to section 809.

"(4) COMMUNITY COLLEGE.—The term 'community college' means—

"(A) a tribal college or university; or

"(B) a junior or community college.

"(5) CONTRACT HEALTH SERVICE.—The term 'contract health service' means any health service that is—

"(A) delivered based on a referral by, or at the expense of, an Indian health program; and

"(B) provided by a public or private medical provider or hospital that is not a provider or hospital of the Indian health program.

"(6) DEPARTMENT.—The term 'Department', unless otherwise designated, means the Department of Health and Human Services.";

(7) by striking paragraph (7) (as redesignated by paragraph (3)) and inserting the following:

"(7) DISEASE PREVENTION.—

"(A) IN GENERAL.—The term 'disease prevention' means any activity for—

"(i) the reduction, limitation, and prevention of—

"(I) disease; and

"(II) complications of disease; and

"(ii) the reduction of consequences of disease.

"(B) INCLUSIONS.—The term 'disease prevention' includes an activity for—

"(i) controlling—

"(I) the development of diabetes;

"(II) high blood pressure;

"(III) infectious agents;

"(IV) injuries;

"(V) occupational hazards and disabilities;

"(VI) sexually transmittable diseases; or

"(VII) toxic agents; or

"(ii) providing—

"(I) fluoridation of water; or

"(II) immunizations.";

(8) by striking paragraph (9) (as redesignated by paragraph (3)) and inserting the following:

"(9) FAS.—The term 'fetal alcohol syndrome' or 'FAS' means a syndrome in which,

with a history of maternal alcohol consumption during pregnancy, the following criteria are met:

"(A) Central nervous system involvement such as mental retardation, developmental delay, intellectual deficit, microcephaly, or neurologic abnormalities.

"(B) Craniofacial abnormalities with at least 2 of the following: microphthalmia, short palpebral fissures, poorly developed philtrum, thin upper lip, flat nasal bridge, and short upturned nose.

"(C) Prenatal or postnatal growth delay.";

(9) by striking paragraphs (11) and (12) (as redesignated by paragraph (3)) and inserting the following:

"(11) HEALTH PROMOTION.—The term 'health promotion' means any activity for—

"(A) fostering social, economic, environmental, and personal factors conducive to health, including raising public awareness regarding health matters and enabling individuals to cope with health problems by increasing knowledge and providing valid information;

"(B) encouraging adequate and appropriate diet, exercise, and sleep;

"(C) promoting education and work in accordance with physical and mental capacity;

"(D) making available safe water and sanitary facilities;

"(E) improving the physical, economic, cultural, psychological, and social environment;

"(F) promoting culturally competent care; and

"(G) providing adequate and appropriate programs, including programs for—

"(i) abuse prevention (mental and physical);

"(ii) community health;

"(iii) community safety;

"(iv) consumer health education;

"(v) diet and nutrition;

"(vi) immunization and other methods of prevention of communicable diseases, including HIV/AIDS;

"(vii) environmental health;

"(viii) exercise and physical fitness;

"(ix) avoidance of fetal alcohol spectrum disorders;

"(x) first aid and CPR education;

"(xi) human growth and development;

"(xii) injury prevention and personal safety;

"(xiii) behavioral health;

"(xiv) monitoring of disease indicators between health care provider visits through appropriate means, including Internet-based health care management systems;

"(xv) personal health and wellness practices;

"(xvi) personal capacity building;

"(xvii) prenatal, pregnancy, and infant care;

"(xviii) psychological well-being;

"(xix) reproductive health and family planning;

"(xx) safe and adequate water;

"(xxi) healthy work environments;

"(xxii) elimination, reduction, and prevention of contaminants that create unhealthy household conditions (including mold and other allergens);

"(xxiii) stress control;

"(xxiv) substance abuse;

"(xxv) sanitary facilities;

"(xxvi) sudden infant death syndrome prevention;

"(xxvii) tobacco use cessation and reduction;

"(xxviii) violence prevention; and

"(xxix) such other activities identified by the Service, a tribal health program, or an

urban Indian organization to promote achievement of any of the objectives referred to in section 3(2).

"(12) INDIAN HEALTH PROGRAM.—The term 'Indian health program' means—

"(A) any health program administered directly by the Service;

"(B) any tribal health program; and

"(C) any Indian tribe or tribal organization to which the Secretary provides funding pursuant to section 23 of the Act of June 25, 1910 (25 U.S.C. 47) (commonly known as the 'Buy Indian Act').";

(10) by inserting after paragraph (14) (as redesignated by paragraph (3)) the following:

"(15) JUNIOR OR COMMUNITY COLLEGE.—The term 'junior or community college' has the meaning given the term in section 312(e) of the Higher Education Act of 1965 (20 U.S.C. 1058(e)).

"(16) RESERVATION.—

"(A) IN GENERAL.—The term 'reservation' means a reservation, Pueblo, or colony of any Indian tribe.

"(B) INCLUSIONS.—The term 'reservation' includes—

"(i) former reservations in Oklahoma;

"(ii) Indian allotments; and

"(iii) Alaska Native Regions established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.).";

(11) by striking paragraph (20) (as redesignated by paragraph (3)) and inserting the following:

"(20) SERVICE UNIT.—The term 'Service unit' means an administrative entity of the Service or a tribal health program through which services are provided, directly or by contract, to eligible Indians within a defined geographic area.";

(12) by inserting after paragraph (21) (as redesignated by paragraph (3)) the following:

"(22) TELEHEALTH.—The term 'telehealth' has the meaning given the term in section 330K(a) of the Public Health Service Act (42 U.S.C. 254c-16(a)).

"(23) TELEMEDICINE.—The term 'telemedicine' means a telecommunications link to an end user through the use of eligible equipment that electronically links health professionals or patients and health professionals at separate sites in order to exchange health care information in audio, video, graphic, or other format for the purpose of providing improved health care services.

"(24) TRIBAL COLLEGE OR UNIVERSITY.—The term 'tribal college or university' has the meaning given the term in section 316(b) of the Higher Education Act of 1965 (20 U.S.C. 1059c(b)).

"(25) TRIBAL HEALTH PROGRAM.—The term 'tribal health program' means an Indian tribe or tribal organization that operates any health program, service, function, activity, or facility funded, in whole or part, by the Service through, or provided for in, a contract or compact with the Service under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.)."; and

(13) by striking paragraph (26) (as redesignated by paragraph (3)) and inserting the following:

"(26) TRIBAL ORGANIZATION.—The term 'tribal organization' has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).";

#### Subtitle A—Indian Health Manpower

##### SEC. 111. COMMUNITY HEALTH AIDE PROGRAM.

Section 119 of the Indian Health Care Improvement Act (25 U.S.C. 1616) is amended to read as follows:

**"SEC. 119. COMMUNITY HEALTH AIDE PROGRAM.**

"(a) GENERAL PURPOSES OF PROGRAM.—Pursuant to the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the 'Snyder Act'), the Secretary, acting through the Service, shall develop and operate a Community Health Aide Program in the State of Alaska under which the Service—

"(1) provides for the training of Alaska Natives as health aides or community health practitioners;

"(2) uses those aides or practitioners in the provision of health care, health promotion, and disease prevention services to Alaska Natives living in villages in rural Alaska; and

"(3) provides for the establishment of teleconferencing capacity in health clinics located in or near those villages for use by community health aides or community health practitioners.

"(b) SPECIFIC PROGRAM REQUIREMENTS.—The Secretary, acting through the Community Health Aide Program of the Service, shall—

"(1) using trainers accredited by the Program, provide a high standard of training to community health aides and community health practitioners to ensure that those aides and practitioners provide quality health care, health promotion, and disease prevention services to the villages served by the Program;

"(2) in order to provide such training, develop a curriculum that—

"(A) combines education regarding the theory of health care with supervised practical experience in the provision of health care;

"(B) provides instruction and practical experience in the provision of acute care, emergency care, health promotion, disease prevention, and the efficient and effective management of clinic pharmacies, supplies, equipment, and facilities; and

"(C) promotes the achievement of the health status objectives specified in section 3(2);

"(3) establish and maintain a Community Health Aide Certification Board to certify as community health aides or community health practitioners individuals who have successfully completed the training described in paragraph (1) or can demonstrate equivalent experience;

"(4) develop and maintain a system that identifies the needs of community health aides and community health practitioners for continuing education in the provision of health care, including the areas described in paragraph (2)(B), and develop programs that meet the needs for such continuing education;

"(5) develop and maintain a system that provides close supervision of community health aides and community health practitioners;

"(6) develop a system under which the work of community health aides and community health practitioners is reviewed and evaluated to ensure the provision of quality health care, health promotion, and disease prevention services; and

"(7) ensure that—

"(A) pulpal therapy (not including pulpotomies on deciduous teeth) or extraction of adult teeth can be performed by a dental health aide therapist only after consultation with a licensed dentist who determines that the procedure is a medical emergency that cannot be resolved with palliative treatment; and

"(B) dental health aide therapists are strictly prohibited from performing all other oral or jaw surgeries, subject to the condi-

tion that uncomplicated extractions shall not be considered oral surgery under this section.

"(c) PROGRAM REVIEW.—

"(1) NEUTRAL PANEL.—

"(A) ESTABLISHMENT.—The Secretary, acting through the Service, shall establish a neutral panel to carry out the study under paragraph (2).

"(B) MEMBERSHIP.—Members of the neutral panel shall be appointed by the Secretary from among clinicians, economists, community practitioners, oral epidemiologists, and Alaska Natives.

"(2) STUDY.—

"(A) IN GENERAL.—The neutral panel established under paragraph (1) shall conduct a study of the dental health aide therapist services provided by the Community Health Aide Program under this section to ensure that the quality of care provided through those services is adequate and appropriate.

"(B) PARAMETERS OF STUDY.—The Secretary, in consultation with interested parties, including professional dental organizations, shall develop the parameters of the study.

"(C) INCLUSIONS.—The study shall include a determination by the neutral panel with respect to—

"(i) the ability of the dental health aide therapist services under this section to address the dental care needs of Alaska Natives;

"(ii) the quality of care provided through those services, including any training, improvement, or additional oversight required to improve the quality of care; and

"(iii) whether safer and less costly alternatives to the dental health aide therapist services exist.

"(D) CONSULTATION.—In carrying out the study under this paragraph, the neutral panel shall consult with Alaska tribal organizations with respect to the adequacy and accuracy of the study.

"(3) REPORT.—The neutral panel shall submit to the Secretary, the Committee on Indian Affairs of the Senate, and the Committee on Natural Resources of the House of Representatives a report describing the results of the study under paragraph (2), including a description of—

"(A) any determination of the neutral panel under paragraph (2)(C); and

"(B) any comments received from Alaska tribal organizations under paragraph (2)(D).

"(d) NATIONALIZATION OF PROGRAM.—

"(1) IN GENERAL.—Except as provided in paragraph (2), the Secretary, acting through the Service, may establish a national Community Health Aide Program in accordance with the program under this section, as the Secretary determines to be appropriate.

"(2) REQUIREMENT; EXCLUSION.—In establishing a national program under paragraph (1), the Secretary—

"(A) shall not reduce the amounts provided for the Community Health Aide Program described in subsections (a) and (b); and

"(B) shall exclude dental health aide therapist services from services covered under the program."

**SEC. 112. HEALTH PROFESSIONAL CHRONIC SHORTAGE DEMONSTRATION PROGRAMS.**

Title I of the Indian Health Care Improvement Act (25 U.S.C. 1611 et seq.) (as amended by section 101(b)) is amended by adding at the end the following:

**"SEC. 123. HEALTH PROFESSIONAL CHRONIC SHORTAGE DEMONSTRATION PROGRAMS.**

"(a) DEMONSTRATION PROGRAMS.—The Secretary, acting through the Service, may fund

demonstration programs for Indian health programs to address the chronic shortages of health professionals.

"(b) PURPOSES OF PROGRAMS.—The purposes of demonstration programs under subsection (a) shall be—

"(1) to provide direct clinical and practical experience within an Indian health program to health profession students and residents from medical schools;

"(2) to improve the quality of health care for Indians by ensuring access to qualified health professionals;

"(3) to provide academic and scholarly opportunities for health professionals serving Indians by identifying all academic and scholarly resources of the region; and

"(4) to provide training and support for alternative provider types, such as community health representatives, and community health aides.

"(c) ADVISORY BOARD.—The demonstration programs established pursuant to subsection (a) shall incorporate a program advisory board, which may be composed of representatives of tribal governments, Indian health programs, and Indian communities in the areas to be served by the demonstration programs."

**SEC. 113. EXEMPTION FROM PAYMENT OF CERTAIN FEES.**

Title I of the Indian Health Care Improvement Act (25 U.S.C. 1611 et seq.) (as amended by section 112) is amended by adding at the end the following:

**"SEC. 124. EXEMPTION FROM PAYMENT OF CERTAIN FEES.**

"Employees of a tribal health program or urban Indian organization shall be exempt from payment of licensing, registration, and any other fees imposed by a Federal agency to the same extent that officers of the commissioned corps of the Public Health Service and other employees of the Service are exempt from those fees."

**Subtitle B—Health Services****SEC. 121. INDIAN HEALTH CARE IMPROVEMENT FUND.**

Section 201 of the Indian Health Care Improvement Act (25 U.S.C. 1621) is amended to read as follows:

**"SEC. 201. INDIAN HEALTH CARE IMPROVEMENT FUND.**

"(a) USE OF FUNDS.—The Secretary, acting through the Service, is authorized to expend funds, directly or under the authority of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), which are appropriated under the authority of this section, for the purposes of—

"(1) eliminating the deficiencies in health status and health resources of all Indian tribes;

"(2) eliminating backlogs in the provision of health care services to Indians;

"(3) meeting the health needs of Indians in an efficient and equitable manner, including the use of telehealth and telemedicine when appropriate;

"(4) eliminating inequities in funding for both direct care and contract health service programs; and

"(5) augmenting the ability of the Service to meet the following health service responsibilities with respect to those Indian tribes with the highest levels of health status deficiencies and resource deficiencies:

"(A) Clinical care, including inpatient care, outpatient care (including audiology, clinical eye, and vision care), primary care, secondary and tertiary care, and long-term care.

"(B) Preventive health, including mammography and other cancer screening.

“(C) Dental care.

“(D) Mental health, including community mental health services, inpatient mental health services, dormitory mental health services, therapeutic and residential treatment centers, and training of traditional health care practitioners.

“(E) Emergency medical services.

“(F) Treatment and control of, and rehabilitative care related to, alcoholism and drug abuse (including fetal alcohol syndrome) among Indians.

“(G) Injury prevention programs, including data collection and evaluation, demonstration projects, training, and capacity building.

“(H) Home health care.

“(I) Community health representatives.

“(J) Maintenance and improvement.

“(b) NO OFFSET OR LIMITATION.—Any funds appropriated under the authority of this section shall not be used to offset or limit any other appropriations made to the Service under this Act or the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the ‘Snyder Act’), or any other provision of law.

“(c) ALLOCATION; USE.—

“(1) IN GENERAL.—Funds appropriated under the authority of this section shall be allocated to Service units, Indian tribes, or tribal organizations. The funds allocated to each Indian tribe, tribal organization, or Service unit under this paragraph shall be used by the Indian tribe, tribal organization, or Service unit under this paragraph to improve the health status and reduce the resource deficiency of each Indian tribe served by such Service unit, Indian tribe, or tribal organization.

“(2) APPORTIONMENT OF ALLOCATED FUNDS.—The apportionment of funds allocated to a Service unit, Indian tribe, or tribal organization under paragraph (1) among the health service responsibilities described in subsection (a)(5) shall be determined by the Service in consultation with, and with the active participation of, the affected Indian tribes and tribal organizations.

“(d) PROVISIONS RELATING TO HEALTH STATUS AND RESOURCE DEFICIENCIES.—For the purposes of this section, the following definitions apply:

“(1) DEFINITION.—The term ‘health status and resource deficiency’ means the extent to which—

“(A) the health status objectives set forth in sections 3(1) and 3(2) are not being achieved; and

“(B) the Indian tribe or tribal organization does not have available to it the health resources it needs, taking into account the actual cost of providing health care services given local geographic, climatic, rural, or other circumstances.

“(2) AVAILABLE RESOURCES.—The health resources available to an Indian tribe or tribal organization include health resources provided by the Service as well as health resources used by the Indian tribe or tribal organization, including services and financing systems provided by any Federal programs, private insurance, and programs of State or local governments.

“(3) PROCESS FOR REVIEW OF DETERMINATIONS.—The Secretary shall establish procedures which allow any Indian tribe or tribal organization to petition the Secretary for a review of any determination of the extent of the health status and resource deficiency of such Indian tribe or tribal organization.

“(e) ELIGIBILITY FOR FUNDS.—Tribal health programs shall be eligible for funds appropriated under the authority of this section on an equal basis with programs that are administered directly by the Service.

“(f) REPORT.—By no later than the date that is 3 years after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Secretary shall submit to Congress the current health status and resource deficiency report of the Service for each Service unit, including newly recognized or acknowledged Indian tribes. Such report shall set out—

“(1) the methodology then in use by the Service for determining tribal health status and resource deficiencies, as well as the most recent application of that methodology;

“(2) the extent of the health status and resource deficiency of each Indian tribe served by the Service or a tribal health program;

“(3) the amount of funds necessary to eliminate the health status and resource deficiencies of all Indian tribes served by the Service or a tribal health program; and

“(4) an estimate of—

“(A) the amount of health service funds appropriated under the authority of this Act, or any other Act, including the amount of any funds transferred to the Service for the preceding fiscal year which is allocated to each Service unit, Indian tribe, or tribal organization;

“(B) the number of Indians eligible for health services in each Service unit or Indian tribe or tribal organization; and

“(C) the number of Indians using the Service resources made available to each Service unit, Indian tribe or tribal organization, and, to the extent available, information on the waiting lists and number of Indians turned away for services due to lack of resources.

“(g) INCLUSION IN BASE BUDGET.—Funds appropriated under this section for any fiscal year shall be included in the base budget of the Service for the purpose of determining appropriations under this section in subsequent fiscal years.

“(h) CLARIFICATION.—Nothing in this section is intended to diminish the primary responsibility of the Service to eliminate existing backlogs in unmet health care needs, nor are the provisions of this section intended to discourage the Service from undertaking additional efforts to achieve equity among Indian tribes and tribal organizations.

“(i) FUNDING DESIGNATION.—Any funds appropriated under the authority of this section shall be designated as the ‘Indian Health Care Improvement Fund’.”

#### SEC. 122. CATASTROPHIC HEALTH EMERGENCY FUND.

Section 202 of the Indian Health Care Improvement Act (25 U.S.C. 1621a) is amended to read as follows:

#### “SEC. 202. CATASTROPHIC HEALTH EMERGENCY FUND.

“(a) ESTABLISHMENT.—There is established an Indian Catastrophic Health Emergency Fund (hereafter in this section referred to as the ‘CHEF’) consisting of—

“(1) the amounts deposited under subsection (f); and

“(2) the amounts appropriated to CHEF under this section.

“(b) ADMINISTRATION.—CHEF shall be administered by the Secretary, acting through the headquarters of the Service, solely for the purpose of meeting the extraordinary medical costs associated with the treatment of victims of disasters or catastrophic illnesses who are within the responsibility of the Service.

“(c) CONDITIONS ON USE OF FUND.—No part of CHEF or its administration shall be subject to contract or grant under any law, including the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et

seq.), nor shall CHEF funds be allocated, apportioned, or delegated on an Area Office, Service Unit, or other similar basis.

“(d) REGULATIONS.—The Secretary shall promulgate regulations consistent with the provisions of this section to—

“(1) establish a definition of disasters and catastrophic illnesses for which the cost of the treatment provided under contract would qualify for payment from CHEF;

“(2) provide that a Service Unit shall not be eligible for reimbursement for the cost of treatment from CHEF until its cost of treating any victim of such catastrophic illness or disaster has reached a certain threshold cost which the Secretary shall establish at—

“(A) the 2000 level of \$19,000; and

“(B) for any subsequent year, not less than the threshold cost of the previous year increased by the percentage increase in the medical care expenditure category of the consumer price index for all urban consumers (United States city average) for the 12-month period ending with December of the previous year;

“(3) establish a procedure for the reimbursement of the portion of the costs that exceeds such threshold cost incurred by—

“(A) Service Units; or

“(B) whenever otherwise authorized by the Service, non-Service facilities or providers;

“(4) establish a procedure for payment from CHEF in cases in which the exigencies of the medical circumstances warrant treatment prior to the authorization of such treatment by the Service; and

“(5) establish a procedure that will ensure that no payment shall be made from CHEF to any provider of treatment to the extent that such provider is eligible to receive payment for the treatment from any other Federal, State, local, or private source of reimbursement for which the patient is eligible.

“(e) NO OFFSET OR LIMITATION.—Amounts appropriated to CHEF under this section shall not be used to offset or limit appropriations made to the Service under the authority of the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the ‘Snyder Act’), or any other law.

“(f) DEPOSIT OF REIMBURSEMENT FUNDS.—There shall be deposited into CHEF all reimbursements to which the Service is entitled from any Federal, State, local, or private source (including third party insurance) by reason of treatment rendered to any victim of a disaster or catastrophic illness the cost of which was paid from CHEF.”

#### SEC. 123. DIABETES PREVENTION, TREATMENT, AND CONTROL.

Section 204 of the Indian Health Care Improvement Act (25 U.S.C. 1621c) is amended to read as follows:

#### “SEC. 204. DIABETES PREVENTION, TREATMENT, AND CONTROL.

“(a) DETERMINATIONS REGARDING DIABETES.—The Secretary, acting through the Service, and in consultation with Indian tribes and tribal organizations, shall determine—

“(1) by Indian tribe and by Service unit, the incidence of, and the types of complications resulting from, diabetes among Indians; and

“(2) based on the determinations made pursuant to paragraph (1), the measures (including patient education and effective ongoing monitoring of disease indicators) each Service unit should take to reduce the incidence of, and prevent, treat, and control the complications resulting from, diabetes among Indian tribes within that Service unit.

“(b) DIABETES SCREENING.—To the extent medically indicated and with informed consent, the Secretary shall screen each Indian

who receives services from the Service for diabetes and for conditions which indicate a high risk that the individual will become diabetic and establish a cost-effective approach to ensure ongoing monitoring of disease indicators. Such screening and monitoring may be conducted by a tribal health program and may be conducted through appropriate Internet-based health care management programs.

“(c) **DIABETES PROJECTS.**—The Secretary shall continue to maintain each model diabetes project in existence on the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, any such other diabetes programs operated by the Service or tribal health programs, and any additional diabetes projects, such as the Medical Vanguard program provided for in title IV of Public Law 108–87, as implemented to serve Indian tribes. tribal health programs shall receive recurring funding for the diabetes projects that they operate pursuant to this section, both at the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009 and for projects which are added and funded thereafter.

“(d) **DIALYSIS PROGRAMS.**—The Secretary is authorized to provide, through the Service, Indian tribes, and tribal organizations, dialysis programs, including the purchase of dialysis equipment and the provision of necessary staffing.

“(e) **OTHER DUTIES OF THE SECRETARY.**—

“(1) **IN GENERAL.**—The Secretary shall, to the extent funding is available—

“(A) in each area office, consult with Indian tribes and tribal organizations regarding programs for the prevention, treatment, and control of diabetes;

“(B) establish in each area office a registry of patients with diabetes to track the incidence of diabetes and the complications from diabetes in that area; and

“(C) ensure that data collected in each area office regarding diabetes and related complications among Indians are disseminated to all other area offices, subject to applicable patient privacy laws.

“(2) **DIABETES CONTROL OFFICERS.**—

“(A) **IN GENERAL.**—The Secretary may establish and maintain in each area office a position of diabetes control officer to coordinate and manage any activity of that area office relating to the prevention, treatment, or control of diabetes to assist the Secretary in carrying out a program under this section or section 330C of the Public Health Service Act (42 U.S.C. 254c–3).

“(B) **CERTAIN ACTIVITIES.**—Any activity carried out by a diabetes control officer under subparagraph (A) that is the subject of a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), and any funds made available to carry out such an activity, shall not be divisible for purposes of that Act.”

#### **SEC. 124. OTHER AUTHORITY FOR PROVISION OF SERVICES; SHARED SERVICES FOR LONG-TERM CARE.**

(a) **OTHER AUTHORITY FOR PROVISION OF SERVICES.**—

(1) **IN GENERAL.**—Section 205 of the Indian Health Care Improvement Act (25 U.S.C. 1621d) is amended to read as follows:

#### **“SEC. 205. OTHER AUTHORITY FOR PROVISION OF SERVICES.**

“(a) **DEFINITIONS.**—In this section:

“(1) **ASSISTED LIVING SERVICE.**—The term ‘assisted living service’ means any service provided by an assisted living facility (as defined in section 232(b) of the National Housing Act (12 U.S.C. 1715w(b))), except that such an assisted living facility—

“(A) shall not be required to obtain a license; but

“(B) shall meet all applicable standards for licensure.

“(2) **HOME- AND COMMUNITY-BASED SERVICE.**—The term ‘home- and community-based service’ means 1 or more of the services specified in paragraphs (1) through (9) of section 1929(a) of the Social Security Act (42 U.S.C. 1396t(a)) (whether provided by the Service or by an Indian tribe or tribal organization pursuant to the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.)) that are or will be provided in accordance with applicable standards.

“(3) **HOSPICE CARE.**—The term ‘hospice care’ means—

“(A) the items and services specified in subparagraphs (A) through (H) of section 1861(dd)(1) of the Social Security Act (42 U.S.C. 1395x(dd)(1)); and

“(B) such other services as an Indian tribe or tribal organization determines are necessary and appropriate to provide in furtherance of that care.

“(4) **LONG-TERM CARE SERVICES.**—The term ‘long-term care services’ has the meaning given the term ‘qualified long-term care services’ in section 7702B(c) of the Internal Revenue Code of 1986.

“(b) **FUNDING AUTHORIZED.**—The Secretary, acting through the Service, Indian tribes, and tribal organizations, may provide funding under this Act to meet the objectives set forth in section 3 through health care-related services and programs not otherwise described in this Act for the following services:

“(1) Hospice care.

“(2) Assisted living services.

“(3) Long-term care services.

“(4) Home- and community-based services.

“(c) **ELIGIBILITY.**—The following individuals shall be eligible to receive long-term care services under this section:

“(1) Individuals who are unable to perform a certain number of activities of daily living without assistance.

“(2) Individuals with a mental impairment, such as dementia, Alzheimer’s disease, or another disabling mental illness, who may be able to perform activities of daily living under supervision.

“(3) Such other individuals as an applicable tribal health program determines to be appropriate.

“(d) **AUTHORIZATION OF CONVENIENT CARE SERVICES.**—The Secretary, acting through the Service, Indian tribes, and tribal organizations, may also provide funding under this Act to meet the objectives set forth in section 3 for convenient care services programs pursuant to section 307(c)(2)(A).”

(2) **REPEAL.**—Section 821 of the Indian Health Care Improvement Act (25 U.S.C. 1680k) is repealed.

(b) **SHARED SERVICES FOR LONG-TERM CARE.**—Section 822 of the Indian Health Care Improvement Act (25 U.S.C. 1680l) is amended to read as follows:

#### **“SEC. 822. SHARED SERVICES FOR LONG-TERM CARE.**

“(a) **LONG-TERM CARE.**—

“(1) **IN GENERAL.**—Notwithstanding any other provision of law, the Secretary, acting through the Service, is authorized to provide directly, or enter into contracts or compacts under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) with Indian tribes or tribal organizations for, the delivery of long-term care (including health care services associated with long-term care) provided in a facility to Indians.

“(2) **INCLUSIONS.**—Each agreement under paragraph (1) shall provide for the sharing of staff or other services between the Service or a tribal health program and a long-term care or related facility owned and operated (directly or through a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.)) by the Indian tribe or tribal organization.

“(b) **CONTENTS OF AGREEMENTS.**—An agreement entered into pursuant to subsection (a)—

“(1) may, at the request of the Indian tribe or tribal organization, delegate to the Indian tribe or tribal organization such powers of supervision and control over Service employees as the Secretary determines to be necessary to carry out the purposes of this section;

“(2) shall provide that expenses (including salaries) relating to services that are shared between the Service and the tribal health program be allocated proportionately between the Service and the Indian tribe or tribal organization; and

“(3) may authorize the Indian tribe or tribal organization to construct, renovate, or expand a long-term care or other similar facility (including the construction of a facility attached to a Service facility).

“(c) **MINIMUM REQUIREMENT.**—Any nursing facility provided for under this section shall meet the requirements for nursing facilities under section 1919 of the Social Security Act (42 U.S.C. 1396r).

“(d) **OTHER ASSISTANCE.**—The Secretary shall provide such technical and other assistance as may be necessary to enable applicants to comply with this section.

“(e) **USE OF EXISTING OR UNDERUSED FACILITIES.**—The Secretary shall encourage the use of existing facilities that are underused, or allow the use of swing beds, for long-term or similar care.”

#### **SEC. 125. REIMBURSEMENT FROM CERTAIN THIRD PARTIES OF COSTS OF HEALTH SERVICES.**

Section 206 of the Indian Health Care Improvement Act (25 U.S.C. 1621e) is amended to read as follows:

#### **“SEC. 206. REIMBURSEMENT FROM CERTAIN THIRD PARTIES OF COSTS OF HEALTH SERVICES.**

“(a) **RIGHT OF RECOVERY.**—Except as provided in subsection (f), the United States, an Indian tribe, or tribal organization shall have the right to recover from an insurance company, health maintenance organization, employee benefit plan, third-party tortfeasor, or any other responsible or liable third party (including a political subdivision or local governmental entity of a State) the reasonable charges billed by the Secretary, an Indian tribe, or tribal organization in providing health services through the Service, an Indian tribe, or tribal organization, or, if higher, the highest amount the third party would pay for care and services furnished by providers other than governmental entities, to any individual to the same extent that such individual, or any nongovernmental provider of such services, would be eligible to receive damages, reimbursement, or indemnification for such charges or expenses if—

“(1) such services had been provided by a nongovernmental provider; and

“(2) such individual had been required to pay such charges or expenses and did pay such charges or expenses.

“(b) **LIMITATIONS ON RECOVERIES FROM STATES.**—Subsection (a) shall provide a right of recovery against any State, only if the injury, illness, or disability for which health services were provided is covered under—

“(1) workers’ compensation laws; or

“(2) a no-fault automobile accident insurance plan or program.

“(c) **NONAPPLICABILITY OF OTHER LAWS.**—No law of any State, or of any political subdivision of a State and no provision of any contract, insurance or health maintenance organization policy, employee benefit plan, self-insurance plan, managed care plan, or other health care plan or program entered into or renewed after the date of enactment of the Indian Health Care Amendments of 1988, shall prevent or hinder the right of recovery of the United States, an Indian tribe, or tribal organization under subsection (a).

“(d) **NO EFFECT ON PRIVATE RIGHTS OF ACTION.**—No action taken by the United States, an Indian tribe, or tribal organization to enforce the right of recovery provided under this section shall operate to deny to the injured person the recovery for that portion of the person’s damage not covered hereunder.

“(e) **ENFORCEMENT.**—

“(1) **IN GENERAL.**—The United States, an Indian tribe, or tribal organization may enforce the right of recovery provided under subsection (a) by—

“(A) intervening or joining in any civil action or proceeding brought—

“(i) by the individual for whom health services were provided by the Secretary, an Indian tribe, or tribal organization; or

“(ii) by any representative or heirs of such individual, or

“(B) instituting a separate civil action, including a civil action for injunctive relief and other relief and including, with respect to a political subdivision or local governmental entity of a State, such an action against an official thereof.

“(2) **NOTICE.**—All reasonable efforts shall be made to provide notice of action instituted under paragraph (1)(B) to the individual to whom health services were provided, either before or during the pendency of such action.

“(3) **RECOVERY FROM TORTFEASORS.**—

“(A) **IN GENERAL.**—In any case in which an Indian tribe or tribal organization that is authorized or required under a compact or contract issued pursuant to the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) to furnish or pay for health services to a person who is injured or suffers a disease on or after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009 under circumstances that establish grounds for a claim of liability against the tortfeasor with respect to the injury or disease, the Indian tribe or tribal organization shall have a right to recover from the tortfeasor (or an insurer of the tortfeasor) the reasonable value of the health services so furnished, paid for, or to be paid for, in accordance with the Federal Medical Care Recovery Act (42 U.S.C. 2651 et seq.), to the same extent and under the same circumstances as the United States may recover under that Act.

“(B) **TREATMENT.**—The right of an Indian tribe or tribal organization to recover under subparagraph (A) shall be independent of the rights of the injured or diseased person served by the Indian tribe or tribal organization.

“(f) **LIMITATION.**—Absent specific written authorization by the governing body of an Indian tribe for the period of such authorization (which may not be for a period of more than 1 year and which may be revoked at any time upon written notice by the governing body to the Service), the United States shall not have a right of recovery under this sec-

tion if the injury, illness, or disability for which health services were provided is covered under a self-insurance plan funded by an Indian tribe, tribal organization, or urban Indian organization. Where such authorization is provided, the Service may receive and expend such amounts for the provision of additional health services consistent with such authorization.

“(g) **COSTS AND ATTORNEY’S FEES.**—In any action brought to enforce the provisions of this section, a prevailing plaintiff shall be awarded its reasonable attorney’s fees and costs of litigation.

“(h) **NONAPPLICABILITY OF CLAIMS FILING REQUIREMENTS.**—An insurance company, health maintenance organization, self-insurance plan, managed care plan, or other health care plan or program (under the Social Security Act or otherwise) may not deny a claim for benefits submitted by the Service or by an Indian tribe or tribal organization based on the format in which the claim is submitted if such format complies with the format required for submission of claims under title XVIII of the Social Security Act or recognized under section 1175 of such Act.

“(i) **APPLICATION TO URBAN INDIAN ORGANIZATIONS.**—The previous provisions of this section shall apply to urban Indian organizations with respect to populations served by such Organizations in the same manner they apply to Indian tribes and tribal organizations with respect to populations served by such Indian tribes and tribal organizations.

“(j) **STATUTE OF LIMITATIONS.**—The provisions of section 2415 of title 28, United States Code, shall apply to all actions commenced under this section, and the references therein to the United States are deemed to include Indian tribes, tribal organizations, and urban Indian organizations.

“(k) **SAVINGS.**—Nothing in this section shall be construed to limit any right of recovery available to the United States, an Indian tribe, or tribal organization under the provisions of any applicable, Federal, State, or tribal law, including medical lien laws.”.

#### SEC. 126. CREDITING OF REIMBURSEMENTS.

Section 207 of the Indian Health Care Improvement Act (25 U.S.C. 1621f) is amended to read as follows:

##### “SEC. 207. CREDITING OF REIMBURSEMENTS.

“(a) **USE OF AMOUNTS.**—

“(1) **RETENTION BY PROGRAM.**—Except as provided in sections 202(a)(2) and 813, all reimbursements received or recovered under any of the programs described in paragraph (2), including under section 813, by reason of the provision of health services by the Service, by an Indian tribe or tribal organization, or by an urban Indian organization, shall be credited to the Service, such Indian tribe or tribal organization, or such urban Indian organization, respectively, and may be used as provided in section 401. In the case of such a service provided by or through a Service Unit, such amounts shall be credited to such unit and used for such purposes.

“(2) **PROGRAMS COVERED.**—The programs referred to in paragraph (1) are the following:

“(A) Titles XVIII, XIX, and XXI of the Social Security Act.

“(B) This Act, including section 813.

“(C) Public Law 87–693.

“(D) Any other provision of law.

“(b) **NO OFFSET OF AMOUNTS.**—The Service may not offset or limit any amount obligated to any Service Unit or entity receiving funding from the Service because of the receipt of reimbursements under subsection (a).”.

#### SEC. 127. BEHAVIORAL HEALTH TRAINING AND COMMUNITY EDUCATION PROGRAMS.

Section 209 of the Indian Health Care Improvement Act (25 U.S.C. 1621h) is amended by striking subsection (d) and inserting the following:

“(d) **BEHAVIORAL HEALTH TRAINING AND COMMUNITY EDUCATION PROGRAMS.**—

“(1) **STUDY; LIST.**—The Secretary, acting through the Service, and the Secretary of the Interior, in consultation with Indian tribes and tribal organizations, shall conduct a study and compile a list of the types of staff positions specified in paragraph (2) whose qualifications include, or should include, training in the identification, prevention, education, referral, or treatment of mental illness, or dysfunctional and self-destructive behavior.

“(2) **POSITIONS.**—The positions referred to in paragraph (1) are—

“(A) staff positions within the Bureau of Indian Affairs, including existing positions, in the fields of—

“(i) elementary and secondary education;

“(ii) social services and family and child welfare;

“(iii) law enforcement and judicial services; and

“(iv) alcohol and substance abuse;

“(B) staff positions within the Service; and

“(C) staff positions similar to those identified in subparagraphs (A) and (B) established and maintained by Indian tribes and tribal organizations (without regard to the funding source).

“(3) **TRAINING CRITERIA.**—

“(A) **IN GENERAL.**—The appropriate Secretary shall provide training criteria appropriate to each type of position identified in paragraphs (2)(A) and (2)(B) and ensure that appropriate training has been, or shall be provided to any individual in any such position. With respect to any such individual in a position identified pursuant to paragraph (2)(C), the respective Secretaries shall provide appropriate training to, or provide funds to, an Indian tribe or tribal organization for training of appropriate individuals. In the case of positions funded under a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), the appropriate Secretary shall ensure that such training costs are included in the contract or compact, as the Secretary determines necessary.

“(B) **POSITION SPECIFIC TRAINING CRITERIA.**—Position specific training criteria shall be culturally relevant to Indians and Indian tribes and shall ensure that appropriate information regarding traditional health care practices is provided.

“(4) **COMMUNITY EDUCATION ON MENTAL ILLNESS.**—The Service shall develop and implement, on request of an Indian tribe, tribal organization, or urban Indian organization, or assist the Indian tribe, tribal organization, or urban Indian organization to develop and implement, a program of community education on mental illness. In carrying out this paragraph, the Service shall, upon request of an Indian tribe, tribal organization, or urban Indian organization, provide technical assistance to the Indian tribe, tribal organization, or urban Indian organization to obtain and develop community educational materials on the identification, prevention, referral, and treatment of mental illness and dysfunctional and self-destructive behavior.

“(5) **PLAN.**—Not later than 90 days after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Secretary shall develop a

plan under which the Service will increase the health care staff providing behavioral health services by at least 500 positions within 5 years after the date of enactment of that Act, with at least 200 of such positions devoted to child, adolescent, and family services. The plan developed under this paragraph shall be implemented under the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the 'Snyder Act')."

#### SEC. 128. CANCER SCREENINGS.

Section 212 of the Indian Health Care Improvement Act (25 U.S.C. 1621k) is amended by inserting "and other cancer screenings" before the period at the end.

#### SEC. 129. PATIENT TRAVEL COSTS.

Section 213 of the Indian Health Care Improvement Act (25 U.S.C. 1621l) is amended to read as follows:

##### "SEC. 213. PATIENT TRAVEL COSTS.

"(a) DEFINITION OF QUALIFIED ESCORT.—In this section, the term 'qualified escort' means—

"(1) an adult escort (including a parent, guardian, or other family member) who is required because of the physical or mental condition, or age, of the applicable patient;

"(2) a health professional for the purpose of providing necessary medical care during travel by the applicable patient; or

"(3) other escorts, as the Secretary or applicable Indian Health Program determines to be appropriate.

"(b) PROVISION OF FUNDS.—The Secretary, acting through the Service and Tribal Health Programs, is authorized to provide funds for the following patient travel costs, including qualified escorts, associated with receiving health care services provided (either through direct or contract care or through a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.)) under this Act—

"(1) emergency air transportation and non-emergency air transportation where ground transportation is infeasible;

"(2) transportation by private vehicle (where no other means of transportation is available), specially equipped vehicle, and ambulance; and

"(3) transportation by such other means as may be available and required when air or motor vehicle transportation is not available."

#### SEC. 130. EPIDEMIOLOGY CENTERS.

Section 214 of the Indian Health Care Improvement Act (25 U.S.C. 1621m) is amended to read as follows:

##### "SEC. 214. EPIDEMIOLOGY CENTERS.

"(a) ESTABLISHMENT OF CENTERS.—

"(1) IN GENERAL.—The Secretary shall establish an epidemiology center in each Service area to carry out the functions described in subsection (b).

"(2) NEW CENTERS.—

"(A) IN GENERAL.—Subject to subparagraph (B), any new center established after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009 may be operated under a grant authorized by subsection (d).

"(B) REQUIREMENT.—Funding provided in a grant described in subparagraph (A) shall not be divisible.

"(3) FUNDS NOT DIVISIBLE.—An epidemiology center established under this subsection shall be subject to the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), but the funds for the center shall not be divisible.

"(b) FUNCTIONS OF CENTERS.—In consultation with and on the request of Indian tribes, tribal organizations, and urban Indian orga-

nizations, each Service area epidemiology center established under this section shall, with respect to the applicable Service area—

"(1) collect data relating to, and monitor progress made toward meeting, each of the health status objectives of the Service, the Indian tribes, tribal organizations, and urban Indian organizations in the Service area;

"(2) evaluate existing delivery systems, data systems, and other systems that impact the improvement of Indian health;

"(3) assist Indian tribes, tribal organizations, and urban Indian organizations in identifying highest-priority health status objectives and the services needed to achieve those objectives, based on epidemiological data;

"(4) make recommendations for the targeting of services needed by the populations served;

"(5) make recommendations to improve health care delivery systems for Indians and urban Indians;

"(6) provide requested technical assistance to Indian tribes, tribal organizations, and urban Indian organizations in the development of local health service priorities and incidence and prevalence rates of disease and other illness in the community; and

"(7) provide disease surveillance and assist Indian tribes, tribal organizations, and urban Indian communities to promote public health.

"(c) TECHNICAL ASSISTANCE.—The Director of the Centers for Disease Control and Prevention shall provide technical assistance to the centers in carrying out this section.

"(d) GRANTS FOR STUDIES.—

"(1) IN GENERAL.—The Secretary may make grants to Indian tribes, tribal organizations, Indian organizations, and eligible intertribal consortia to conduct epidemiological studies of Indian communities.

"(2) ELIGIBLE INTERTRIBAL CONSORTIA.—An intertribal consortium or Indian organization shall be eligible to receive a grant under this subsection if the intertribal consortium is—

"(A) incorporated for the primary purpose of improving Indian health; and

"(B) representative of the Indian tribes or urban Indian communities residing in the area in which the intertribal consortium is located.

"(3) APPLICATIONS.—An application for a grant under this subsection shall be submitted in such manner and at such time as the Secretary shall prescribe.

"(4) REQUIREMENTS.—An applicant for a grant under this subsection shall—

"(A) demonstrate the technical, administrative, and financial expertise necessary to carry out the functions described in paragraph (5);

"(B) consult and cooperate with providers of related health and social services in order to avoid duplication of existing services; and

"(C) demonstrate cooperation from Indian tribes or urban Indian organizations in the area to be served.

"(5) USE OF FUNDS.—A grant provided under paragraph (1) may be used—

"(A) to carry out the functions described in subsection (b);

"(B) to provide information to, and consult with, tribal leaders, urban Indian community leaders, and related health staff regarding health care and health service management issues; and

"(C) in collaboration with Indian tribes, tribal organizations, and urban Indian organizations, to provide to the Service information regarding ways to improve the health status of Indians.

"(e) ACCESS TO INFORMATION.—

"(1) IN GENERAL.—An epidemiology center operated by a grantee pursuant to a grant awarded under subsection (d) shall be treated as a public health authority (as defined in section 164.501 of title 45, Code of Federal Regulations (or a successor regulation)) for purposes of the Health Insurance Portability and Accountability Act of 1996 (Public Law 104-191; 110 Stat. 1936).

"(2) ACCESS TO INFORMATION.—The Secretary shall grant to each epidemiology center described in paragraph (1) access to use of the data, data sets, monitoring systems, delivery systems, and other protected health information in the possession of the Secretary.

"(3) REQUIREMENT.—The activities of an epidemiology center described in paragraph (1) shall be for the purposes of research and for preventing and controlling disease, injury, or disability (as those activities are described in section 164.512 of title 45, Code of Federal Regulations (or a successor regulation)), for purposes of the Health Insurance Portability and Accountability Act of 1996 (Public Law 104-191; 110 Stat. 1936)."

#### SEC. 131. INDIAN YOUTH GRANT PROGRAM.

Section 216(b)(2) of the Indian Health Care Improvement Act (25 U.S.C. 1621o(b)(2)) is amended by striking "section 209(m)" and inserting "section 708(c)".

#### SEC. 132. AMERICAN INDIANS INTO PSYCHOLOGY PROGRAM.

Section 217 of the Indian Health Care Improvement Act (25 U.S.C. 1621p) is amended to read as follows:

##### "SEC. 217. AMERICAN INDIANS INTO PSYCHOLOGY PROGRAM.

"(a) GRANTS AUTHORIZED.—The Secretary, acting through the Service, shall make grants of not more than \$300,000 to each of 9 colleges and universities for the purpose of developing and maintaining Indian psychology career recruitment programs as a means of encouraging Indians to enter the behavioral health field. These programs shall be located at various locations throughout the country to maximize their availability to Indian students and new programs shall be established in different locations from time to time.

"(b) QUENTIN N. BURDICK PROGRAM GRANT.—The Secretary shall provide a grant authorized under subsection (a) to develop and maintain a program at the University of North Dakota to be known as the 'Quentin N. Burdick American Indians Into Psychology Program'. Such program shall, to the maximum extent feasible, coordinate with the Quentin N. Burdick Indian health programs authorized under section 117(b), the Quentin N. Burdick American Indians Into Nursing Program authorized under section 115(e), and existing university research and communications networks.

"(c) REGULATIONS.—The Secretary shall issue regulations pursuant to this Act for the competitive awarding of grants provided under this section.

"(d) CONDITIONS OF GRANT.—Applicants under this section shall agree to provide a program which, at a minimum—

"(1) provides outreach and recruitment for health professions to Indian communities including elementary, secondary, and accredited and accessible community colleges that will be served by the program;

"(2) incorporates a program advisory board comprised of representatives from the tribes and communities that will be served by the program;

"(3) provides summer enrichment programs to expose Indian students to the various

fields of psychology through research, clinical, and experimental activities;

“(4) provides stipends to undergraduate and graduate students to pursue a career in psychology;

“(5) develops affiliation agreements with tribal colleges and universities, the Service, university affiliated programs, and other appropriate accredited and accessible entities to enhance the education of Indian students;

“(6) to the maximum extent feasible, uses existing university tutoring, counseling, and student support services; and

“(7) to the maximum extent feasible, employs qualified Indians in the program.

“(e) **ACTIVE DUTY SERVICE REQUIREMENT.**—The active duty service obligation prescribed under section 338C of the Public Health Service Act (42 U.S.C. 254m) shall be met by each graduate who receives a stipend described in subsection (d)(4) that is funded under this section. Such obligation shall be met by service—

“(1) in an Indian health program;

“(2) in a program assisted under title V; or

“(3) in the private practice of psychology if, as determined by the Secretary, in accordance with guidelines promulgated by the Secretary, such practice is situated in a physician or other health professional shortage area and addresses the health care needs of a substantial number of Indians.

“(f) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this section \$2,700,000 for fiscal year 2010 and each fiscal year thereafter.”

**SEC. 133. PREVENTION, CONTROL, AND ELIMINATION OF COMMUNICABLE AND INFECTIOUS DISEASES.**

Section 218 of the Indian Health Care Improvement Act (25 U.S.C. 1621q) is amended to read as follows:

**“SEC. 218. PREVENTION, CONTROL, AND ELIMINATION OF COMMUNICABLE AND INFECTIOUS DISEASES.**

“(a) **GRANTS AUTHORIZED.**—The Secretary, acting through the Service, and after consultation with the Centers for Disease Control and Prevention, may make grants available to Indian tribes and tribal organizations for the following:

“(1) Projects for the prevention, control, and elimination of communicable and infectious diseases, including tuberculosis, hepatitis, HIV, respiratory syncytial virus, hanta virus, sexually transmitted diseases, and *H. pylori*.

“(2) Public information and education programs for the prevention, control, and elimination of communicable and infectious diseases.

“(3) Education, training, and clinical skills improvement activities in the prevention, control, and elimination of communicable and infectious diseases for health professionals, including allied health professionals.

“(4) Demonstration projects for the screening, treatment, and prevention of hepatitis C virus (HCV).

“(b) **APPLICATION REQUIRED.**—The Secretary may provide funding under subsection (a) only if an application or proposal for funding is submitted to the Secretary.

“(c) **COORDINATION WITH HEALTH AGENCIES.**—Indian tribes and tribal organizations receiving funding under this section are encouraged to coordinate their activities with the Centers for Disease Control and Prevention and State and local health agencies.

“(d) **TECHNICAL ASSISTANCE; REPORT.**—In carrying out this section, the Secretary—

“(1) may, at the request of an Indian tribe or tribal organization, provide technical assistance; and

“(2) shall prepare and submit a report to Congress biennially on the use of funds under this section and on the progress made toward the prevention, control, and elimination of communicable and infectious diseases among Indians and urban Indians.”

**SEC. 134. METHODS TO INCREASE CLINICIAN RECRUITMENT AND RETENTION ISSUES.**

(a) **LICENSING.**—Section 221 of the Indian Health Care Improvement Act (25 U.S.C. 1621t) is amended to read as follows:

**“SEC. 221. LICENSING.**

“Licensed health professionals employed by a tribal health program shall be exempt, if licensed in any State, from the licensing requirements of the State in which the tribal health program performs the services described in the contract or compact of the tribal health program under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.).”

(b) **TREATMENT OF SCHOLARSHIPS FOR CERTAIN PURPOSES.**—Title I of the Indian Health Care Improvement Act (25 U.S.C. 1611 et seq.) (as amended by section 113) is amended by adding at the end the following:

**“SEC. 125. TREATMENT OF SCHOLARSHIPS FOR CERTAIN PURPOSES.**

“A scholarship provided to an individual pursuant to this title shall be considered to be a qualified scholarship for purposes of section 117 of the Internal Revenue Code of 1986.”

(c) **CONTINUING EDUCATION ALLOWANCES.**—Section 106 of the Indian Health Care Improvement Act (25 U.S.C. 1615) is amended to read as follows:

**“SEC. 106. CONTINUING EDUCATION ALLOWANCES.**

“In order to encourage scholarship and stipend recipients under sections 104, 105, and 115 and health professionals, including community health representatives and emergency medical technicians, to join or continue in an Indian health program and to provide services in the rural and remote areas in which a significant portion of Indians reside, the Secretary, acting through the Service, may—

“(1) provide programs or allowances to transition into an Indian health program, including licensing, board or certification examination assistance, and technical assistance in fulfilling service obligations under sections 104, 105, and 115; and

“(2) provide programs or allowances to health professionals employed in an Indian health program to enable those professionals, for a period of time each year prescribed by regulation of the Secretary, to take leave of the duty stations of the professionals for professional consultation, management, leadership, and refresher training courses.”

**SEC. 135. LIABILITY FOR PAYMENT.**

Section 222 of the Indian Health Care Improvement Act (25 U.S.C. 1621u) is amended to read as follows:

**“SEC. 222. LIABILITY FOR PAYMENT.**

“(a) **NO PATIENT LIABILITY.**—A patient who receives contract health care services that are authorized by the Service shall not be liable for the payment of any charges or costs associated with the provision of such services.

“(b) **NOTIFICATION.**—The Secretary shall notify a contract care provider and any patient who receives contract health care services authorized by the Service that such patient is not liable for the payment of any charges or costs associated with the provision of such services not later than 5 busi-

ness days after receipt of a notification of a claim by a provider of contract care services.

“(c) **NO RECOURSE.**—Following receipt of the notice provided under subsection (b), or, if a claim has been deemed accepted under section 220(b), the provider shall have no further recourse against the patient who received the services.”

**SEC. 136. OFFICES OF INDIAN MEN'S HEALTH AND INDIAN WOMEN'S HEALTH.**

Section 223 of the Indian Health Care Improvement Act (25 U.S.C. 1621v) is amended—

(1) by striking the section designation and heading and all that follows through “oversee efforts of the Service to” and inserting the following:

**“SEC. 223. OFFICES OF INDIAN MEN'S HEALTH AND INDIAN WOMEN'S HEALTH.**

“(a) **OFFICE OF INDIAN MEN'S HEALTH.**—

“(1) **ESTABLISHMENT.**—The Secretary may establish within the Service an office, to be known as the ‘Office of Indian Men's Health’.

“(2) **DIRECTOR.**—

“(A) **IN GENERAL.**—The Office of Indian Men's Health shall be headed by a director, to be appointed by the Secretary.

“(B) **DUTIES.**—The director shall coordinate and promote the health status of Indian men in the United States.

“(3) **REPORT.**—Not later than 2 years after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Secretary, acting through the Service, shall submit to Congress a report describing—

“(A) any activity carried out by the director as of the date on which the report is prepared; and

“(B) any finding of the director with respect to the health of Indian men.

“(b) **OFFICE OF INDIAN WOMEN'S HEALTH.**—The Secretary, acting through the Service, shall establish an office, to be known as the ‘Office of Indian Women's Health’, to”—

(2) in subsection (b) (as so redesignated) by inserting “(including urban Indian women)” before “of all ages”.

**SEC. 137. CONTRACT HEALTH SERVICE ADMINISTRATION AND DISBURSEMENT FORMULA.**

Title II of the Indian Health Care Improvement Act (25 U.S.C. 1621 et seq.) is amended by adding at the end the following:

**“SEC. 226. CONTRACT HEALTH SERVICE ADMINISTRATION AND DISBURSEMENT FORMULA.**

“(a) **SUBMISSION OF REPORT.**—As soon as practicable after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Comptroller General of the United States shall submit to the Secretary, the Committee on Indian Affairs of the Senate, and the Committee on Natural Resources of the House of Representatives, and make available to each Indian tribe, a report describing the results of the study of the Comptroller General regarding the funding of the contract health service program (including historic funding levels and a recommendation of the funding level needed for the program) and the administration of the contract health service program (including the distribution of funds pursuant to the program), as requested by Congress in March 2009, or pursuant to section 830.

“(b) **CONSULTATION WITH TRIBES.**—On receipt of the report under subsection (a), the Secretary shall consult with Indian tribes regarding the contract health service program, including the distribution of funds pursuant to the program—

“(1) to determine whether the current distribution formula would require modification if the contract health service program

were funded at the level recommended by the Comptroller General;

“(2) to identify any inequities in the current distribution formula under the current funding level or inequitable results for any Indian tribe under the funding level recommended by the Comptroller General;

“(3) to identify any areas of program administration that may result in the inefficient or ineffective management of the program; and

“(4) to identify any other issues and recommendations to improve the administration of the contract health services program and correct any unfair results or funding disparities identified under paragraph (2).

“(c) **SUBSEQUENT ACTION BY SECRETARY.**—If, after consultation with Indian tribes under subsection (b), the Secretary determines that any issue described in subsection (b)(2) exists, the Secretary may initiate procedures under subchapter III of chapter 5 of title 5, United States Code, to negotiate or promulgate regulations to establish a disbursement formula for the contract health service program funding.”

#### **Subtitle C—Health Facilities**

#### **SEC. 141. HEALTH CARE FACILITY PRIORITY SYSTEM.**

Section 301 of the Indian Health Care Improvement Act (25 U.S.C. 1631) is amended—

(1) by redesignating subsection (d) as subsection (h); and

(2) by striking subsection (c) and inserting the following:

“(c) **HEALTH CARE FACILITY PRIORITY SYSTEM.**—

“(1) **IN GENERAL.**—

“(A) **PRIORITY SYSTEM.**—The Secretary, acting through the Service, shall maintain a health care facility priority system, which—

“(i) shall be developed in consultation with Indian tribes and tribal organizations;

“(ii) shall give Indian tribes’ needs the highest priority;

“(iii)(I) may include the lists required in paragraph (2)(B)(ii); and

“(II) shall include the methodology required in paragraph (2)(B)(v); and

“(III) may include such health care facilities, and such renovation or expansion needs of any health care facility, as the Service may identify; and

“(iv) shall provide an opportunity for the nomination of planning, design, and construction projects by the Service, Indian tribes, and tribal organizations for consideration under the priority system at least once every 3 years, or more frequently as the Secretary determines to be appropriate.

“(B) **NEEDS OF FACILITIES UNDER ISDEAA AGREEMENTS.**—The Secretary shall ensure that the planning, design, construction, renovation, and expansion needs of Service and non-Service facilities operated under contracts or compacts in accordance with the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) are fully and equitably integrated into the health care facility priority system.

“(C) **CRITERIA FOR EVALUATING NEEDS.**—For purposes of this subsection, the Secretary, in evaluating the needs of facilities operated under a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), shall use the criteria used by the Secretary in evaluating the needs of facilities operated directly by the Service.

“(D) **PRIORITY OF CERTAIN PROJECTS PROTECTED.**—The priority of any project established under the construction priority system in effect on the date of enactment of the Indian Health Care Improvement Reauthor-

ization and Extension Act of 2009 shall not be affected by any change in the construction priority system taking place after that date if the project—

“(i) was identified in the fiscal year 2008 Service budget justification as—

“(I) 1 of the 10 top-priority inpatient projects;

“(II) 1 of the 10 top-priority outpatient projects;

“(III) 1 of the 10 top-priority staff quarters developments; or

“(IV) 1 of the 10 top-priority Youth Residential Treatment Centers;

“(ii) had completed both Phase I and Phase II of the construction priority system in effect on the date of enactment of such Act; or

“(iii) is not included in clause (i) or (ii) and is selected, as determined by the Secretary—

“(I) on the initiative of the Secretary; or

“(II) pursuant to a request of an Indian tribe or tribal organization.

“(2) **REPORT; CONTENTS.**—

“(A) **INITIAL COMPREHENSIVE REPORT.**—

“(i) **DEFINITIONS.**—In this subparagraph:

“(I) **FACILITIES APPROPRIATION ADVISORY BOARD.**—The term ‘Facilities Appropriation Advisory Board’ means the advisory board, comprised of 12 members representing Indian tribes and 2 members representing the Service, established at the discretion of the Director—

“(aa) to provide advice and recommendations for policies and procedures of the programs funded pursuant to facilities appropriations; and

“(bb) to address other facilities issues.

“(II) **FACILITIES NEEDS ASSESSMENT WORKGROUP.**—The term ‘Facilities Needs Assessment Workgroup’ means the workgroup established at the discretion of the Director—

“(aa) to review the health care facilities construction priority system; and

“(bb) to make recommendations to the Facilities Appropriation Advisory Board for revising the priority system.

“(i) **INITIAL REPORT.**—

“(I) **IN GENERAL.**—Not later than 1 year after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Secretary shall submit to the Committee on Indian Affairs of the Senate and the Committee on Natural Resources of the House of Representatives a report that describes the comprehensive, national, ranked list of all health care facilities needs for the Service, Indian tribes, and tribal organizations (including inpatient health care facilities, outpatient health care facilities, specialized health care facilities (such as for long-term care and alcohol and drug abuse treatment), wellness centers, and staff quarters, and the renovation and expansion needs, if any, of such facilities) developed by the Service, Indian tribes, and tribal organizations for the Facilities Needs Assessment Workgroup and the Facilities Appropriation Advisory Board.

“(II) **INCLUSIONS.**—The initial report shall include—

“(aa) the methodology and criteria used by the Service in determining the needs and establishing the ranking of the facilities needs; and

“(bb) such other information as the Secretary determines to be appropriate.

“(iii) **UPDATES OF REPORT.**—Beginning in calendar year 2011, the Secretary shall—

“(I) update the report under clause (ii) not less frequently than once every 5 years; and

“(II) include the updated report in the appropriate annual report under subparagraph (B) for submission to Congress under section 801.

“(B) **ANNUAL REPORTS.**—The Secretary shall submit to the President, for inclusion in the report required to be transmitted to Congress under section 801, a report which sets forth the following:

“(i) A description of the health care facility priority system of the Service established under paragraph (1).

“(ii) Health care facilities lists, which may include—

“(I) the 10 top-priority inpatient health care facilities;

“(II) the 10 top-priority outpatient health care facilities;

“(III) the 10 top-priority specialized health care facilities (such as long-term care and alcohol and drug abuse treatment); and

“(IV) the 10 top-priority staff quarters developments associated with health care facilities.

“(iii) The justification for such order of priority.

“(iv) The projected cost of such projects.

“(v) The methodology adopted by the Service in establishing priorities under its health care facility priority system.

“(3) **REQUIREMENTS FOR PREPARATION OF REPORTS.**—In preparing the report required under paragraph (2), the Secretary shall—

“(A) consult with and obtain information on all health care facilities needs from Indian tribes and tribal organizations; and

“(B) review the total unmet needs of all Indian tribes and tribal organizations for health care facilities (including staff quarters), including needs for renovation and expansion of existing facilities.

“(d) **REVIEW OF METHODOLOGY USED FOR HEALTH FACILITIES CONSTRUCTION PRIORITY SYSTEM.**—

“(1) **IN GENERAL.**—Not later than 1 year after the establishment of the priority system under subsection (c)(1)(A), the Comptroller General of the United States shall prepare and finalize a report reviewing the methodologies applied, and the processes followed, by the Service in making each assessment of needs for the list under subsection (c)(2)(A)(ii) and developing the priority system under subsection (c)(1), including a review of—

“(A) the recommendations of the Facilities Appropriation Advisory Board and the Facilities Needs Assessment Workgroup (as those terms are defined in subsection (c)(2)(A)(i)); and

“(B) the relevant criteria used in ranking or prioritizing facilities other than hospitals or clinics.

“(2) **SUBMISSION TO CONGRESS.**—The Comptroller General of the United States shall submit the report under paragraph (1) to—

“(A) the Committees on Indian Affairs and Appropriations of the Senate;

“(B) the Committees on Natural Resources and Appropriations of the House of Representatives; and

“(C) the Secretary.

“(e) **FUNDING CONDITION.**—All funds appropriated under the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the ‘Snyder Act’), for the planning, design, construction, or renovation of health facilities for the benefit of 1 or more Indian Tribes shall be subject to the provisions of section 102 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450f) or sections 504 and 505 of that Act (25 U.S.C. 458aaa-3, 458aaa-4).

“(f) **DEVELOPMENT OF INNOVATIVE APPROACHES.**—The Secretary shall consult and cooperate with Indian tribes and tribal organizations, and confer with urban Indian organizations, in developing innovative approaches to address all or part of the total

unmet need for construction of health facilities, that may include—

“(1) the establishment of an area distribution fund in which a portion of health facility construction funding could be devoted to all Service areas;

“(2) approaches provided for in other provisions of this title; and

“(3) other approaches, as the Secretary determines to be appropriate.”.

#### **SEC. 142. INDIAN HEALTH CARE DELIVERY DEMONSTRATION PROJECTS.**

Section 307 of the Indian Health Care Improvement Act (25 U.S.C. 1637) is amended to read as follows:

#### **“SEC. 307. INDIAN HEALTH CARE DELIVERY DEMONSTRATION PROJECTS.**

“(a) PURPOSE AND GENERAL AUTHORITY.—

“(1) PURPOSE.—The purpose of this section is to encourage the establishment of demonstration projects that meet the applicable criteria of this section to be carried out by the Secretary, acting through the Service, or Indian tribes or tribal organizations acting pursuant to contracts or compacts under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.).—

“(A) to test alternative means of delivering health care and services to Indians through facilities; or

“(B) to use alternative or innovative methods or models of delivering health care services to Indians (including primary care services, contract health services, or any other program or service authorized by this Act) through convenient care services (as defined in subsection (c)), community health centers, or cooperative agreements or arrangements with other health care providers that share or coordinate the use of facilities, funding, or other resources, or otherwise coordinate or improve the coordination of activities of the Service, Indian tribes, or tribal organizations, with those of the other health care providers.

“(2) AUTHORITY.—The Secretary, acting through the Service, is authorized to carry out, or to enter into contracts or compacts under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) with Indian tribes or tribal organizations to carry out, health care delivery demonstration projects that—

“(A) test alternative means of delivering health care and services to Indians through facilities; or

“(B) otherwise carry out the purposes of this section.

“(b) USE OF FUNDS.—The Secretary, in approving projects pursuant to this section—

“(1) may authorize such contracts for the construction and renovation of hospitals, health centers, health stations, and other facilities to deliver health care services; and

“(2) is authorized—

“(A) to waive any leasing prohibition;

“(B) to permit use and carryover of funds appropriated for the provision of health care services under this Act (including for the purchase of health benefits coverage, as authorized by section 402(a));

“(C) to permit the use of other available funds, including other Federal funds, funds from third-party collections in accordance with sections 206, 207, and 401, and non-Federal funds contributed by State or local governmental agencies or facilities or private health care providers pursuant to cooperative or other agreements with the Service, 1 or more Indian tribes, or tribal organizations;

“(D) to permit the use of funds or property donated or otherwise provided from any source for project purposes;

“(E) to provide for the reversion of donated real or personal property to the donor; and

“(F) to permit the use of Service funds to match other funds, including Federal funds.

#### **“(c) HEALTH CARE DEMONSTRATION PROJECTS.—**

“(1) DEFINITION OF CONVENIENT CARE SERVICE.—In this subsection, the term ‘convenient care service’ means any primary health care service, such as urgent care services, nonemergent care services, prevention services and screenings, and any service authorized by section 203 or 205(d), that is offered—

“(A) at an alternative setting; or

“(B) during hours other than regular working hours.

#### **“(2) GENERAL PROJECTS.—**

“(A) CRITERIA.—The Secretary may approve under this section demonstration projects that meet the following criteria:

“(i) There is a need for a new facility or program, such as a program for convenient care services, or an improvement in, increased efficiency at, or reorientation of an existing facility or program.

“(ii) A significant number of Indians, including Indians with low health status, will be served by the project.

“(iii) The project has the potential to deliver services in an efficient and effective manner.

“(iv) The project is economically viable.

“(v) For projects carried out by an Indian tribe or tribal organization, the Indian tribe or tribal organization has the administrative and financial capability to administer the project.

“(vi) The project is integrated with providers of related health or social services (including State and local health care agencies or other health care providers) and is coordinated with, and avoids duplication of, existing services in order to expand the availability of services.

“(B) PRIORITY.—In approving demonstration projects under this paragraph, the Secretary shall give priority to demonstration projects, to the extent the projects meet the criteria described in subparagraph (A), located in any of the following Service units:

“(i) Cass Lake, Minnesota.

“(ii) Mescalero, New Mexico.

“(iii) Owyhee and Elko, Nevada.

“(iv) Schurz, Nevada.

“(v) Ft. Yuma, California.

#### **“(3) INNOVATIVE HEALTH SERVICES DELIVERY DEMONSTRATION PROJECT.—**

“(A) APPLICATION OR REQUEST.—On receipt of an application or request from an Indian tribe, a consortium of Indian tribes, or a tribal organization within a Service area, the Secretary shall take into consideration alternative or innovated methods to deliver health care services within the Service area (or a portion of, or facility within, the Service area) as described in the application or request, including medical, dental, pharmaceutical, nursing, clinical laboratory, contract health services, convenient care services, community health centers, or any other health care services delivery models designed to improve access to, or efficiency or quality of, the health care, health promotion, or disease prevention services and programs under this Act.

“(B) APPROVAL.—In addition to projects described in paragraph (2), in any fiscal year, the Secretary is authorized under this paragraph to approve not more than 10 applications for health care delivery demonstration projects that meet the criteria described in subparagraph (C).

“(C) CRITERIA.—The Secretary shall approve under subparagraph (B) demonstration

projects that meet all of the following criteria:

“(i) The criteria set forth in paragraph (2)(A).

“(ii) There is a lack of access to health care services at existing health care facilities, which may be due to limited hours of operation at those facilities or other factors.

“(iii) The project—

“(I) expands the availability of services; or

“(II) reduces—

“(aa) the burden on Contract Health Services; or

“(bb) the need for emergency room visits.

“(d) TECHNICAL ASSISTANCE.—On receipt of an application or request from an Indian tribe, a consortium of Indian tribes, or a tribal organization, the Secretary shall provide such technical and other assistance as may be necessary to enable applicants to comply with this section, including information regarding the Service unit budget and available funding for carrying out the proposed demonstration project.

“(e) SERVICE TO INELIGIBLE PERSONS.—Subject to section 813, the authority to provide services to persons otherwise ineligible for the health care benefits of the Service, and the authority to extend hospital privileges in Service facilities to non-Service health practitioners as provided in section 813, may be included, subject to the terms of that section, in any demonstration project approved pursuant to this section.

“(f) EQUITABLE TREATMENT.—For purposes of subsection (c), the Secretary, in evaluating facilities operated under any contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), shall use the same criteria that the Secretary uses in evaluating facilities operated directly by the Service.

“(g) EQUITABLE INTEGRATION OF FACILITIES.—The Secretary shall ensure that the planning, design, construction, renovation, and expansion needs of Service and non-Service facilities that are the subject of a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) for health services are fully and equitably integrated into the implementation of the health care delivery demonstration projects under this section.”.

#### **SEC. 143. TRIBAL MANAGEMENT OF FEDERALLY OWNED QUARTERS.**

Title III of the Indian Health Care Improvement Act (as amended by section 101(b)) is amended by inserting after section 308 (25 U.S.C. 1638) the following:

#### **“SEC. 309. TRIBAL MANAGEMENT OF FEDERALLY OWNED QUARTERS.**

“(a) RENTAL RATES.—

“(1) ESTABLISHMENT.—Notwithstanding any other provision of law, a tribal health program that operates a hospital or other health facility and the federally owned quarters associated with such a facility pursuant to a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) may establish the rental rates charged to the occupants of those quarters, on providing notice to the Secretary.

“(2) OBJECTIVES.—In establishing rental rates under this subsection, a tribal health program shall attempt—

“(A) to base the rental rates on the reasonable value of the quarters to the occupants of the quarters; and

“(B) to generate sufficient funds to prudently provide for the operation and maintenance of the quarters, and at the discretion of the tribal health program, to supply reserve funds for capital repairs and replacement of the quarters.

“(3) **EQUITABLE FUNDING.**—A federally owned quarters the rental rates for which are established by a tribal health program under this subsection shall remain eligible to receive improvement and repair funds to the same extent that all federally owned quarters used to house personnel in programs of the Service are eligible to receive those funds.

“(4) **NOTICE OF RATE CHANGE.**—A tribal health program that establishes a rental rate under this subsection shall provide occupants of the federally owned quarters a notice of any change in the rental rate by not later than the date that is 60 days notice before the effective date of the change.

“(5) **RATES IN ALASKA.**—A rental rate established by a tribal health program under this section for a federally owned quarters in the State of Alaska may be based on the cost of comparable private rental housing in the nearest established community with a year-round population of 1,500 or more individuals.

“(b) **DIRECT COLLECTION OF RENT.**—

“(1) **IN GENERAL.**—Notwithstanding any other provision of law, and subject to paragraph (2), a tribal health program may collect rent directly from Federal employees who occupy federally owned quarters if the tribal health program submits to the Secretary and the employees a notice of the election of the tribal health program to collect rents directly from the employees.

“(2) **ACTION BY EMPLOYEES.**—On receipt of a notice described in paragraph (1)—

“(A) the affected Federal employees shall pay rent for occupancy of a federally owned quarters directly to the applicable tribal health program; and

“(B) the Secretary shall not have the authority to collect rent from the employees through payroll deduction or otherwise.

“(3) **USE OF PAYMENTS.**—The rent payments under this subsection—

“(A) shall be retained by the applicable tribal health program in a separate account, which shall be used by the tribal health program for the maintenance (including capital repairs and replacement) and operation of the quarters, as the tribal health program determines to be appropriate; and

“(B) shall not be made payable to, or otherwise be deposited with, the United States.

“(4) **RETROCESSION OF AUTHORITY.**—If a tribal health program that elected to collect rent directly under paragraph (1) requests retrocession of the authority of the tribal health program to collect that rent, the retrocession shall take effect on the earlier of—

“(A) the first day of the month that begins not less than 180 days after the tribal health program submits the request; and

“(B) such other date as may be mutually agreed on by the Secretary and the tribal health program.”.

#### **SEC. 144. OTHER FUNDING, EQUIPMENT, AND SUPPLIES FOR FACILITIES.**

Title III of the Indian Health Care Improvement Act (25 U.S.C. 1631 et seq.) is amended by adding at the end the following:

##### **“SEC. 311. OTHER FUNDING, EQUIPMENT, AND SUPPLIES FOR FACILITIES.**

“(a) **AUTHORIZATION.**—

“(1) **AUTHORITY TO TRANSFER FUNDS.**—The head of any Federal agency to which funds, equipment, or other supplies are made available for the planning, design, construction, or operation of a health care or sanitation facility may transfer the funds, equipment, or supplies to the Secretary for the planning, design, construction, or operation of a health care or sanitation facility to achieve—

“(A) the purposes of this Act; and

“(B) the purposes for which the funds, equipment, or supplies were made available to the Federal agency.

“(2) **AUTHORITY TO ACCEPT FUNDS.**—The Secretary may—

“(A) accept from any source, including Federal and State agencies, funds, equipment, or supplies that are available for the construction or operation of health care or sanitation facilities; and

“(B) use those funds, equipment, and supplies to plan, design, construct, and operate health care or sanitation facilities for Indians, including pursuant to a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.).

“(3) **EFFECT OF RECEIPT.**—Receipt of funds by the Secretary under this subsection shall not affect any priority established under section 301.

“(b) **INTERAGENCY AGREEMENTS.**—The Secretary may enter into interagency agreements with Federal or State agencies and other entities, and accept funds, equipment, or other supplies from those entities, to provide for the planning, design, construction, and operation of health care or sanitation facilities to be administered by Indian health programs to achieve—

“(1) the purposes of this Act; and

“(2) the purposes for which the funds were appropriated or otherwise provided.

“(c) **ESTABLISHMENT OF STANDARDS.**—

“(1) **IN GENERAL.**—The Secretary, acting through the Service, shall establish, by regulation, standards for the planning, design, construction, and operation of health care or sanitation facilities serving Indians under this Act.

“(2) **OTHER REGULATIONS.**—Notwithstanding any other provision of law, any other applicable regulations of the Department shall apply in carrying out projects using funds transferred under this section.

“(d) **DEFINITION OF SANITATION FACILITY.**—In this section, the term ‘sanitation facility’ means a safe and adequate water supply system, sanitary sewage disposal system, or sanitary solid waste system (including all related equipment and support infrastructure).”.

#### **SEC. 145. INDIAN COUNTRY MODULAR COMPONENT FACILITIES DEMONSTRATION PROGRAM.**

Title III of the Indian Health Care Improvement Act (25 U.S.C. 1631 et seq.) (as amended by section 144) is amended by adding at the end the following:

##### **“SEC. 312. INDIAN COUNTRY MODULAR COMPONENT FACILITIES DEMONSTRATION PROGRAM.**

“(a) **DEFINITION OF MODULAR COMPONENT HEALTH CARE FACILITY.**—In this section, the term ‘modular component health care facility’ means a health care facility that is constructed—

“(1) off-site using prefabricated component units for subsequent transport to the destination location; and

“(2) represents a more economical method for provision of health care facility than a traditionally constructed health care building.

“(b) **ESTABLISHMENT.**—The Secretary, acting through the Service, shall establish a demonstration program under which the Secretary shall award no less than 3 grants for purchase, installation and maintenance of modular component health care facilities in Indian communities for provision of health care services.

“(c) **SELECTION OF LOCATIONS.**—

“(1) **PETITIONS.**—

“(A) **SOLICITATION.**—The Secretary shall solicit from Indian tribes petitions for location of the modular component health care facilities in the Service areas of the petitioning Indian tribes.

“(B) **PETITION.**—To be eligible to receive a grant under this section, an Indian tribe or tribal organization must submit to the Secretary a petition to construct a modular component health care facility in the Indian community of the Indian tribe, at such time, in such manner, and containing such information as the Secretary may require.

“(2) **SELECTION.**—In selecting the location of each modular component health care facility to be provided under the demonstration program, the Secretary shall give priority to projects already on the Indian Health Service facilities construction priority list and petitions which demonstrate that erection of a modular component health facility—

“(A) is more economical than construction of a traditionally constructed health care facility;

“(B) can be constructed and erected on the selected location in less time than traditional construction; and

“(C) can adequately house the health care services needed by the Indian population to be served.

“(3) **EFFECT OF SELECTION.**—A modular component health care facility project selected for participation in the demonstration program shall not be eligible for entry on the facilities construction priorities list entitled ‘IHS Health Care Facilities FY 2011 Planned Construction Budget’ and dated May 7, 2009 (or any successor list).

“(d) **ELIGIBILITY.**—

“(1) **IN GENERAL.**—An Indian tribe may submit a petition under subsection (c)(1)(B) regardless of whether the Indian tribe is a party to any contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.).

“(2) **ADMINISTRATION.**—At the election of an Indian tribe or tribal organization selected for participation in the demonstration program, the funds provided for the project shall be subject to the provisions of the Indian Self-Determination and Education Assistance Act.

“(e) **REPORTS.**—Not later than 1 year after the date on which funds are made available for the demonstration program and annually thereafter, the Secretary shall submit to Congress a report describing—

“(1) each activity carried out under the demonstration program, including an evaluation of the success of the activity; and

“(2) the potential benefits of increased use of modular component health care facilities in other Indian communities.

“(f) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated \$50,000,000 to carry out the demonstration program under this section for the first 5 fiscal years, and such sums as may be necessary to carry out the program in subsequent fiscal years.”.

#### **SEC. 146. MOBILE HEALTH STATIONS DEMONSTRATION PROGRAM.**

Title III of the Indian Health Care Improvement Act (25 U.S.C. 1631 et seq.) (as amended by section 145) is amended by adding at the end the following:

##### **“SEC. 313. MOBILE HEALTH STATIONS DEMONSTRATION PROGRAM.**

“(a) **DEFINITIONS.**—In this section:

“(1) **ELIGIBLE TRIBAL CONSORTIUM.**—The term ‘eligible tribal consortium’ means a consortium composed of 2 or more Service units between which a mobile health station

can be transported by road in up to 8 hours. A Service unit operated by the Service or by an Indian tribe or tribal organization shall be equally eligible for participation in such consortium.

“(2) **MOBILE HEALTH STATION.**—The term ‘mobile health station’ means a health care unit that—

“(A) is constructed, maintained, and capable of being transported within a semi-trailer truck or similar vehicle;

“(B) is equipped for the provision of 1 or more specialty health care services; and

“(C) can be equipped to be docked to a stationary health care facility when appropriate.

“(3) **SPECIALTY HEALTH CARE SERVICE.**—

“(A) **IN GENERAL.**—The term ‘specialty health care service’ means a health care service which requires the services of a health care professional with specialized knowledge or experience.

“(B) **INCLUSIONS.**—The term ‘specialty health care service’ includes any service relating to—

“(i) dialysis;

“(ii) surgery;

“(iii) mammography;

“(iv) dentistry; or

“(v) any other specialty health care service.

“(b) **ESTABLISHMENT.**—The Secretary, acting through the Service, shall establish a demonstration program under which the Secretary shall provide at least 3 mobile health station projects.

“(c) **PETITION.**—To be eligible to receive a mobile health station under the demonstration program, an eligible tribal consortium shall submit to the Secretary, a petition at such time, in such manner, and containing—

“(1) a description of the Indian population to be served;

“(2) a description of the specialty service or services for which the mobile health station is requested and the extent to which such service or services are currently available to the Indian population to be served; and

“(3) such other information as the Secretary may require.

“(d) **USE OF FUNDS.**—The Secretary shall use amounts made available to carry out the demonstration program under this section—

“(1)(A) to establish, purchase, lease, or maintain mobile health stations for the eligible tribal consortia selected for projects; and

“(B) to provide, through the mobile health station, such specialty health care services as the affected eligible tribal consortium determines to be necessary for the Indian population served;

“(2) to employ an existing mobile health station (regardless of whether the mobile health station is owned or rented and operated by the Service) to provide specialty health care services to an eligible tribal consortium; and

“(3) to establish, purchase, or maintain docking equipment for a mobile health station, including the establishment or maintenance of such equipment at a modular component health care facility (as defined in section 312(a)), if applicable.

“(e) **REPORTS.**—Not later than 1 year after the date on which the demonstration program is established under subsection (b) and annually thereafter, the Secretary, acting through the Service, shall submit to Congress a report describing—

“(1) each activity carried out under the demonstration program including an evaluation of the success of the activity; and

“(2) the potential benefits of increased use of mobile health stations to provide specialty health care services for Indian communities.

“(f) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated \$5,000,000 per year to carry out the demonstration program under this section for the first 5 fiscal years, and such sums as may be needed to carry out the program in subsequent fiscal years.”.

#### Subtitle D—Access to Health Services

### SEC. 151. TREATMENT OF PAYMENTS UNDER SOCIAL SECURITY ACT HEALTH BENEFITS PROGRAMS.

Section 401 of the Indian Health Care Improvement Act (25 U.S.C. 1641) is amended to read as follows:

#### “SEC. 401. TREATMENT OF PAYMENTS UNDER SOCIAL SECURITY ACT HEALTH BENEFITS PROGRAMS.

“(a) **DISREGARD OF MEDICARE, MEDICAID, AND CHIP PAYMENTS IN DETERMINING APPROPRIATIONS.**—Any payments received by an Indian health program or by an urban Indian organization under title XVIII, XIX, or XXI of the Social Security Act for services provided to Indians eligible for benefits under such respective titles shall not be considered in determining appropriations for the provision of health care and services to Indians.

“(b) **NONPREFERENTIAL TREATMENT.**—Nothing in this Act authorizes the Secretary to provide services to an Indian with coverage under title XVIII, XIX, or XI of the Social Security Act in preference to an Indian without such coverage.

“(c) **USE OF FUNDS.**—

“(1) **SPECIAL FUND.**—

“(A) **100 PERCENT PASS-THROUGH OF PAYMENTS DUE TO FACILITIES.**—Notwithstanding any other provision of law, but subject to paragraph (2), payments to which a facility of the Service is entitled by reason of a provision of title XVIII or XIX of the Social Security Act shall be placed in a special fund to be held by the Secretary. In making payments from such fund, the Secretary shall ensure that each Service unit of the Service receives 100 percent of the amount to which the facilities of the Service, for which such Service unit makes collections, are entitled by reason of a provision of either such title.

“(B) **USE OF FUNDS.**—Amounts received by a facility of the Service under subparagraph (A) by reason of a provision of title XVIII or XIX of the Social Security Act shall first be used (to such extent or in such amounts as are provided in appropriation Acts) for the purpose of making any improvements in the programs of the Service operated by or through such facility which may be necessary to achieve or maintain compliance with the applicable conditions and requirements of such respective title. Any amounts so received that are in excess of the amount necessary to achieve or maintain such conditions and requirements shall, subject to consultation with the Indian tribes being served by the Service unit, be used for reducing the health resource deficiencies (as determined in section 201(c)) of such Indian tribes, including the provision of services pursuant to section 205.

“(2) **DIRECT PAYMENT OPTION.**—Paragraph (1) shall not apply to a tribal health program upon the election of such program under subsection (d) to receive payments directly. No payment may be made out of the special fund described in such paragraph with respect to reimbursement made for services provided by such program during the period of such election.

“(d) **DIRECT BILLING.**—

“(1) **IN GENERAL.**—Subject to complying with the requirements of paragraph (2), a tribal health program may elect to directly bill for, and receive payment for, health care items and services provided by such program for which payment is made under title XVIII, XIX, or XXI of the Social Security Act or from any other third party payer.

“(2) **DIRECT REIMBURSEMENT.**—

“(A) **USE OF FUNDS.**—Each tribal health program making the election described in paragraph (1) with respect to a program under a title of the Social Security Act shall be reimbursed directly by that program for items and services furnished without regard to subsection (c)(1), except that all amounts so reimbursed shall be used by the tribal health program for the purpose of making any improvements in facilities of the tribal health program that may be necessary to achieve or maintain compliance with the conditions and requirements applicable generally to such items and services under the program under such title and to provide additional health care services, improvements in health care facilities and tribal health programs, any health care-related purpose (including coverage for a service or service within a contract health service delivery area or any portion of a contract health service delivery area that would otherwise be provided as a contract health service), or otherwise to achieve the objectives provided in section 3 of this Act.

“(B) **AUDITS.**—The amounts paid to a tribal health program making the election described in paragraph (1) with respect to a program under title XVIII, XIX, or XXI of the Social Security Act shall be subject to all auditing requirements applicable to the program under such title, as well as all auditing requirements applicable to programs administered by an Indian health program. Nothing in the preceding sentence shall be construed as limiting the application of auditing requirements applicable to amounts paid under title XVIII, XIX, or XXI of the Social Security Act.

“(C) **IDENTIFICATION OF SOURCE OF PAYMENTS.**—Any tribal health program that receives reimbursements or payments under title XVIII, XIX, or XXI of the Social Security Act shall provide to the Service a list of each provider enrollment number (or other identifier) under which such program receives such reimbursements or payments.

“(3) **EXAMINATION AND IMPLEMENTATION OF CHANGES.**—

“(A) **IN GENERAL.**—The Secretary, acting through the Service and with the assistance of the Administrator of the Centers for Medicare & Medicaid Services, shall examine on an ongoing basis and implement any administrative changes that may be necessary to facilitate direct billing and reimbursement under the program established under this subsection, including any agreements with States that may be necessary to provide for direct billing under a program under title XIX or XXI of the Social Security Act.

“(B) **COORDINATION OF INFORMATION.**—The Service shall provide the Administrator of the Centers for Medicare & Medicaid Services with copies of the lists submitted to the Service under paragraph (2)(C), enrollment data regarding patients served by the Service (and by tribal health programs, to the extent such data is available to the Service), and such other information as the Administrator may require for purposes of administering title XVIII, XIX, or XXI of the Social Security Act.

“(4) **WITHDRAWAL FROM PROGRAM.**—A tribal health program that bills directly under the

program established under this subsection may withdraw from participation in the same manner and under the same conditions that an Indian tribe or tribal organization may retrocede a contracted program to the Secretary under the authority of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.). All cost accounting and billing authority under the program established under this subsection shall be returned to the Secretary upon the Secretary's acceptance of the withdrawal of participation in this program.

“(5) **TERMINATION FOR FAILURE TO COMPLY WITH REQUIREMENTS.**—The Secretary may terminate the participation of a tribal health program or in the direct billing program established under this subsection if the Secretary determines that the program has failed to comply with the requirements of paragraph (2). The Secretary shall provide a tribal health program with notice of a determination that the program has failed to comply with any such requirement and a reasonable opportunity to correct such non-compliance prior to terminating the program's participation in the direct billing program established under this subsection.

“(e) **RELATED PROVISIONS UNDER THE SOCIAL SECURITY ACT.**—For provisions related to subsections (c) and (d), see sections 1880, 1911, and 2107(e)(1)(D) of the Social Security Act.”

#### **SEC. 152. PURCHASING HEALTH CARE COVERAGE.**

Section 402 of the Indian Health Care Improvement Act (25 U.S.C. 1642) is amended to read as follows:

#### **“SEC. 402. PURCHASING HEALTH CARE COVERAGE.**

“(a) **IN GENERAL.**—Insofar as amounts are made available under law (including a provision of the Social Security Act, the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), or other law, other than under section 404) to Indian tribes, tribal organizations, and urban Indian organizations for health benefits for Service beneficiaries, Indian tribes, tribal organizations, and urban Indian organizations may use such amounts to purchase health benefits coverage (including coverage for a service, or service within a contract health service delivery area, or any portion of a contract health service delivery area that would otherwise be provided as a contract health service) for such beneficiaries in any manner, including through—

“(1) a tribally owned and operated health care plan;

“(2) a State or locally authorized or licensed health care plan;

“(3) a health insurance provider or managed care organization;

“(4) a self-insured plan; or

“(5) a high deductible or health savings account plan.

“(b) **FINANCIAL NEED.**—The purchase of coverage under subsection (a) by an Indian tribe, tribal organization, or urban Indian organization may be based on the financial needs of such beneficiaries (as determined by the 1 or more Indian tribes being served based on a schedule of income levels developed or implemented by such 1 or more Indian tribes).

“(c) **EXPENSES FOR SELF-INSURED PLAN.**—In the case of a self-insured plan under subsection (a)(4), the amounts may be used for expenses of operating the plan, including administration and insurance to limit the financial risks to the entity offering the plan.

“(d) **CONSTRUCTION.**—Nothing in this section shall be construed as affecting the use

of any amounts not referred to in subsection (a).”

#### **SEC. 153. GRANTS TO AND CONTRACTS WITH THE SERVICE, INDIAN TRIBES, TRIBAL ORGANIZATIONS, AND URBAN INDIAN ORGANIZATIONS TO FACILITATE OUTREACH, ENROLLMENT, AND COVERAGE OF INDIANS UNDER SOCIAL SECURITY ACT HEALTH BENEFIT PROGRAMS AND OTHER HEALTH BENEFITS PROGRAMS.**

Section 404 of the Indian Health Care Improvement Act (25 U.S.C. 1644) is amended to read as follows:

#### **“SEC. 404. GRANTS TO AND CONTRACTS WITH THE SERVICE, INDIAN TRIBES, TRIBAL ORGANIZATIONS, AND URBAN INDIAN ORGANIZATIONS TO FACILITATE OUTREACH, ENROLLMENT, AND COVERAGE OF INDIANS UNDER SOCIAL SECURITY ACT HEALTH BENEFIT PROGRAMS AND OTHER HEALTH BENEFITS PROGRAMS.**

“(a) **INDIAN TRIBES AND TRIBAL ORGANIZATIONS.**—The Secretary, acting through the Service, shall make grants to or enter into contracts with Indian tribes and tribal organizations to assist such tribes and tribal organizations in establishing and administering programs on or near reservations and trust lands, including programs to provide outreach and enrollment through video, electronic delivery methods, or telecommunication devices that allow real-time or time-delayed communication between individual Indians and the benefit program, to assist individual Indians—

“(1) to enroll for benefits under a program established under title XVIII, XIX, or XXI of the Social Security Act and other health benefits programs; and

“(2) with respect to such programs for which the charging of premiums and cost sharing is not prohibited under such programs, to pay premiums or cost sharing for coverage for such benefits, which may be based on financial need (as determined by the Indian tribe or tribes or tribal organizations being served based on a schedule of income levels developed or implemented by such tribe, tribes, or tribal organizations).

“(b) **CONDITIONS.**—The Secretary, acting through the Service, shall place conditions as deemed necessary to effect the purpose of this section in any grant or contract which the Secretary makes with any Indian tribe or tribal organization pursuant to this section. Such conditions shall include requirements that the Indian tribe or tribal organization successfully undertake—

“(1) to determine the population of Indians eligible for the benefits described in subsection (a);

“(2) to educate Indians with respect to the benefits available under the respective programs;

“(3) to provide transportation for such individual Indians to the appropriate offices for enrollment or applications for such benefits; and

“(4) to develop and implement methods of improving the participation of Indians in receiving benefits under such programs.

#### **“(c) APPLICATION TO URBAN INDIAN ORGANIZATIONS.**

“(1) **IN GENERAL.**—The provisions of subsection (a) shall apply with respect to grants and other funding to urban Indian organizations with respect to populations served by such organizations in the same manner they apply to grants and contracts with Indian tribes and tribal organizations with respect to programs on or near reservations.

“(2) **REQUIREMENTS.**—The Secretary shall include in the grants or contracts made or provided under paragraph (1) requirements that are—

“(A) consistent with the requirements imposed by the Secretary under subsection (b);

“(B) appropriate to urban Indian organizations and urban Indians; and

“(C) necessary to effect the purposes of this section.

“(d) **FACILITATING COOPERATION.**—The Secretary, acting through the Centers for Medicare & Medicaid Services, shall develop and disseminate best practices that will serve to facilitate cooperation with, and agreements between, States and the Service, Indian tribes, tribal organizations, or urban Indian organizations with respect to the provision of health care items and services to Indians under the programs established under title XVIII, XIX, or XXI of the Social Security Act.

“(e) **AGREEMENTS RELATING TO IMPROVING ENROLLMENT OF INDIANS UNDER SOCIAL SECURITY ACT HEALTH BENEFITS PROGRAMS.**—For provisions relating to agreements of the Secretary, acting through the Service, for the collection, preparation, and submission of applications by Indians for assistance under the Medicaid and children's health insurance programs established under titles XIX and XXI of the Social Security Act, and benefits under the Medicare program established under title XVIII of such Act, see subsections (a) and (b) of section 1139 of the Social Security Act.

“(f) **DEFINITION OF PREMIUMS AND COST SHARING.**—In this section:

“(1) **PREMIUM.**—The term ‘premium’ includes any enrollment fee or similar charge.

“(2) **COST SHARING.**—The term ‘cost sharing’ includes any deduction, deductible, copayment, coinsurance, or similar charge.”

#### **SEC. 154. SHARING ARRANGEMENTS WITH FEDERAL AGENCIES.**

Section 405 of the Indian Health Care Improvement Act (25 U.S.C. 1645) is amended to read as follows:

#### **“SEC. 405. SHARING ARRANGEMENTS WITH FEDERAL AGENCIES.**

“(a) **AUTHORITY.**—

“(1) **IN GENERAL.**—The Secretary may enter into (or expand) arrangements for the sharing of medical facilities and services between the Service, Indian tribes, and tribal organizations and the Department of Veterans Affairs and the Department of Defense.

“(2) **CONSULTATION BY SECRETARY REQUIRED.**—The Secretary may not finalize any arrangement between the Service and a Department described in paragraph (1) without first consulting with the Indian tribes which will be significantly affected by the arrangement.

“(b) **LIMITATIONS.**—The Secretary shall not take any action under this section or under subchapter IV of chapter 81 of title 38, United States Code, which would impair—

“(1) the priority access of any Indian to health care services provided through the Service and the eligibility of any Indian to receive health services through the Service;

“(2) the quality of health care services provided to any Indian through the Service;

“(3) the priority access of any veteran to health care services provided by the Department of Veterans Affairs;

“(4) the quality of health care services provided by the Department of Veterans Affairs or the Department of Defense; or

“(5) the eligibility of any Indian who is a veteran to receive health services through the Department of Veterans Affairs.

“(c) **REIMBURSEMENT.**—The Service, Indian tribe, or tribal organization shall be reimbursed by the Department of Veterans Affairs or the Department of Defense (as the case may be) where services are provided

through the Service, an Indian tribe, or a tribal organization to beneficiaries eligible for services from either such Department, notwithstanding any other provision of law.

“(d) CONSTRUCTION.—Nothing in this section may be construed as creating any right of a non-Indian veteran to obtain health services from the Service.”.

#### SEC. 155. ELIGIBLE INDIAN VETERAN SERVICES.

Title IV of the Indian Health Care Improvement Act (25 U.S.C. 1641 et seq.) (as amended by section 101(b)) is amended by adding at the end the following:

##### “SEC. 407. ELIGIBLE INDIAN VETERAN SERVICES.

“(a) FINDINGS; PURPOSE.—

“(1) FINDINGS.—Congress finds that—

“(A) collaborations between the Secretary and the Secretary of Veterans Affairs regarding the treatment of Indian veterans at facilities of the Service should be encouraged to the maximum extent practicable; and

“(B) increased enrollment for services of the Department of Veterans Affairs by veterans who are members of Indian tribes should be encouraged to the maximum extent practicable.

“(2) PURPOSE.—The purpose of this section is to reaffirm the goals stated in the document entitled ‘Memorandum of Understanding Between the VA/Veterans Health Administration And HHS/Indian Health Service’ and dated February 25, 2003 (relating to cooperation and resource sharing between the Veterans Health Administration and Service).

“(b) DEFINITIONS.—In this section:

“(1) ELIGIBLE INDIAN VETERAN.—The term ‘eligible Indian veteran’ means an Indian or Alaska Native veteran who receives any medical service that is—

“(A) authorized under the laws administered by the Secretary of Veterans Affairs; and

“(B) administered at a facility of the Service (including a facility operated by an Indian tribe or tribal organization through a contract or compact with the Service under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.)) pursuant to a local memorandum of understanding.

“(2) LOCAL MEMORANDUM OF UNDERSTANDING.—The term ‘local memorandum of understanding’ means a memorandum of understanding between the Secretary (or a designee, including the director of any area office of the Service) and the Secretary of Veterans Affairs (or a designee) to implement the document entitled ‘Memorandum of Understanding Between the VA/Veterans Health Administration And HHS/Indian Health Service’ and dated February 25, 2003 (relating to cooperation and resource sharing between the Veterans Health Administration and Indian Health Service).

“(c) ELIGIBLE INDIAN VETERANS EXPENSES.—

“(1) IN GENERAL.—Notwithstanding any other provision of law, the Secretary shall provide for veteran-related expenses incurred by eligible Indian veterans as described in subsection (b)(1)(B).

“(2) METHOD OF PAYMENT.—The Secretary shall establish such guidelines as the Secretary determines to be appropriate regarding the method of payments to the Secretary of Veterans Affairs under paragraph (1).

“(d) TRIBAL APPROVAL OF MEMORANDA.—In negotiating a local memorandum of understanding with the Secretary of Veterans Affairs regarding the provision of services to eligible Indian veterans, the Secretary shall consult with each Indian tribe that would be affected by the local memorandum of understanding.

“(e) FUNDING.—

“(1) TREATMENT.—Expenses incurred by the Secretary in carrying out subsection (c)(1) shall not be considered to be Contract Health Service expenses.

“(2) USE OF FUNDS.—Of funds made available to the Secretary in appropriations Acts for the Service (excluding funds made available for facilities, Contract Health Services, or contract support costs), the Secretary shall use such sums as are necessary to carry out this section.”.

#### SEC. 156. NONDISCRIMINATION UNDER FEDERAL HEALTH CARE PROGRAMS IN QUALIFICATIONS FOR REIMBURSEMENT FOR SERVICES.

Title IV of the Indian Health Care Improvement Act (25 U.S.C. 1641 et seq.) (as amended by section 155) is amended by adding at the end the following:

##### “SEC. 408. NONDISCRIMINATION UNDER FEDERAL HEALTH CARE PROGRAMS IN QUALIFICATIONS FOR REIMBURSEMENT FOR SERVICES.

“(a) REQUIREMENT TO SATISFY GENERALLY APPLICABLE PARTICIPATION REQUIREMENTS.—

“(1) IN GENERAL.—A Federal health care program must accept an entity that is operated by the Service, an Indian tribe, tribal organization, or urban Indian organization as a provider eligible to receive payment under the program for health care services furnished to an Indian on the same basis as any other provider qualified to participate as a provider of health care services under the program if the entity meets generally applicable State or other requirements for participation as a provider of health care services under the program.

“(2) SATISFACTION OF STATE OR LOCAL LICENSURE OR RECOGNITION REQUIREMENTS.—Any requirement for participation as a provider of health care services under a Federal health care program that an entity be licensed or recognized under the State or local law where the entity is located to furnish health care services shall be deemed to have been met in the case of an entity operated by the Service, an Indian tribe, tribal organization, or urban Indian organization if the entity meets all the applicable standards for such licensure or recognition, regardless of whether the entity obtains a license or other documentation under such State or local law. In accordance with section 221, the absence of the licensure of a health professional employed by such an entity under the State or local law where the entity is located shall not be taken into account for purposes of determining whether the entity meets such standards, if the professional is licensed in another State.

“(b) APPLICATION OF EXCLUSION FROM PARTICIPATION IN FEDERAL HEALTH CARE PROGRAMS.—

“(1) EXCLUDED ENTITIES.—No entity operated by the Service, an Indian tribe, tribal organization, or urban Indian organization that has been excluded from participation in any Federal health care program or for which a license is under suspension or has been revoked by the State where the entity is located shall be eligible to receive payment or reimbursement under any such program for health care services furnished to an Indian.

“(2) EXCLUDED INDIVIDUALS.—No individual who has been excluded from participation in any Federal health care program or whose State license is under suspension shall be eligible to receive payment or reimbursement under any such program for health care services furnished by that individual, directly or through an entity that is otherwise eligible

to receive payment for health care services, to an Indian.

“(3) FEDERAL HEALTH CARE PROGRAM DEFINED.—In this subsection, the term, ‘Federal health care program’ has the meaning given that term in section 1128B(f) of the Social Security Act (42 U.S.C. 1320a-7b(f)), except that, for purposes of this subsection, such term shall include the health insurance program under chapter 89 of title 5, United States Code.

“(c) RELATED PROVISIONS.—For provisions related to nondiscrimination against providers operated by the Service, an Indian tribe, tribal organization, or urban Indian organization, see section 1139(c) of the Social Security Act (42 U.S.C. 1320b-9(c)).”.

#### SEC. 157. ACCESS TO FEDERAL INSURANCE.

Title IV of the Indian Health Care Improvement Act (25 U.S.C. 1641 et seq.) (as amended by section 156) is amended by adding at the end the following:

##### “SEC. 409. ACCESS TO FEDERAL INSURANCE.

“Notwithstanding the provisions of title 5, United States Code, Executive order, or administrative regulation, an Indian tribe or tribal organization carrying out programs under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) or an urban Indian organization carrying out programs under title V of this Act shall be entitled to purchase coverage, rights, and benefits for the employees of such Indian tribe or tribal organization, or urban Indian organization, under chapter 89 of title 5, United States Code, and chapter 87 of such title if necessary employee deductions and agency contributions in payment for the coverage, rights, and benefits for the period of employment with such Indian tribe or tribal organization, or urban Indian organization, are currently deposited in the applicable Employee's Fund under such title.”.

#### SEC. 158. GENERAL EXCEPTIONS.

Title IV of the Indian Health Care Improvement Act (25 U.S.C. 1641 et seq.) (as amended by section 157) is amended by adding at the end the following:

##### “SEC. 410. GENERAL EXCEPTIONS.

“The requirements of this title shall not apply to any excepted benefits described in paragraph (1)(A) or (3) of section 2791(c) of the Public Health Service Act (42 U.S.C. 300gg-91).”.

#### SEC. 159. NAVAJO NATION MEDICAID AGENCY FEASIBILITY STUDY.

Title IV of the Indian Health Care Improvement Act (25 U.S.C. 1641 et seq.) (as amended by section 158) is amended by adding at the end the following:

##### “SEC. 411. NAVAJO NATION MEDICAID AGENCY FEASIBILITY STUDY.

“(a) STUDY.—The Secretary shall conduct a study to determine the feasibility of treating the Navajo Nation as a State for the purposes of title XIX of the Social Security Act, to provide services to Indians living within the boundaries of the Navajo Nation through an entity established having the same authority and performing the same functions as single-State medicaid agencies responsible for the administration of the State plan under title XIX of the Social Security Act.

“(b) CONSIDERATIONS.—In conducting the study, the Secretary shall consider the feasibility of—

“(1) assigning and paying all expenditures for the provision of services and related administration funds, under title XIX of the Social Security Act, to Indians living within the boundaries of the Navajo Nation that are currently paid to or would otherwise be paid to the State of Arizona, New Mexico, or Utah;

“(2) providing assistance to the Navajo Nation in the development and implementation of such entity for the administration, eligibility, payment, and delivery of medical assistance under title XIX of the Social Security Act;

“(3) providing an appropriate level of matching funds for Federal medical assistance with respect to amounts such entity expends for medical assistance for services and related administrative costs; and

“(4) authorizing the Secretary, at the option of the Navajo Nation, to treat the Navajo Nation as a State for the purposes of title XIX of the Social Security Act (relating to the State children's health insurance program) under terms equivalent to those described in paragraphs (2) through (4).

“(c) REPORT.—Not later than 3 years after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Secretary shall submit to the Committee on Indian Affairs and Committee on Finance of the Senate and the Committee on Natural Resources and Committee on Energy and Commerce of the House of Representatives a report that includes—

“(1) the results of the study under this section;

“(2) a summary of any consultation that occurred between the Secretary and the Navajo Nation, other Indian Tribes, the States of Arizona, New Mexico, and Utah, counties which include Navajo Lands, and other interested parties, in conducting this study;

“(3) projected costs or savings associated with establishment of such entity, and any estimated impact on services provided as described in this section in relation to probable costs or savings; and

“(4) legislative actions that would be required to authorize the establishment of such entity if such entity is determined by the Secretary to be feasible.”.

#### **Subtitle E—Health Services for Urban Indians**

##### **SEC. 161. FACILITIES RENOVATION.**

Section 509 of the Indian Health Care Improvement Act (25 U.S.C. 1659) is amended by inserting “or construction or expansion of facilities” after “renovations to facilities”.

##### **SEC. 162. TREATMENT OF CERTAIN DEMONSTRATION PROJECTS.**

Section 512 of the Indian Health Care Improvement Act (25 U.S.C. 1660b) is amended to read as follows:

##### **“SEC. 512. TREATMENT OF CERTAIN DEMONSTRATION PROJECTS.**

“Notwithstanding any other provision of law, the Tulsa Clinic and Oklahoma City Clinic demonstration projects shall—

“(1) be permanent programs within the Service's direct care program;

“(2) continue to be treated as Service units and operating units in the allocation of resources and coordination of care; and

“(3) continue to meet the requirements and definitions of an urban Indian organization in this Act, and shall not be subject to the provisions of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.).”.

##### **SEC. 163. REQUIREMENT TO CONFER WITH URBAN INDIAN ORGANIZATIONS.**

(a) CONFERRING WITH URBAN INDIAN ORGANIZATIONS.—Title V of the Indian Health Care Improvement Act (25 U.S.C. 1651 et seq.) (as amended by section 101(b)) is amended by adding at the end the following:

##### **“SEC. 514. CONFERRING WITH URBAN INDIAN ORGANIZATIONS.**

“(a) DEFINITION OF CONFER.—In this section, the term ‘confer’ means to engage in an

open and free exchange of information and opinions that—

“(1) leads to mutual understanding and comprehension; and

“(2) emphasizes trust, respect, and shared responsibility.

“(b) REQUIREMENT.—The Secretary shall ensure that the Service confers, to the maximum extent practicable, with urban Indian organizations in carrying out this Act.”.

(b) CONTRACTS WITH, AND GRANTS TO, URBAN INDIAN ORGANIZATIONS.—Section 502 of the Indian Health Care Improvement Act (25 U.S.C. 1652) is amended to read as follows:

##### **“SEC. 502. CONTRACTS WITH, AND GRANTS TO, URBAN INDIAN ORGANIZATIONS.**

“(a) IN GENERAL.—Pursuant to the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the ‘Snyder Act’), the Secretary, acting through the Service, shall enter into contracts with, or make grants to, urban Indian organizations to assist the urban Indian organizations in the establishment and administration, within urban centers, of programs that meet the requirements of this title.

“(b) CONDITIONS.—Subject to section 506, the Secretary, acting through the Service, shall include such conditions as the Secretary considers necessary to effect the purpose of this title in any contract into which the Secretary enters with, or in any grant the Secretary makes to, any urban Indian organization pursuant to this title.”.

##### **SEC. 164. EXPANDED PROGRAM AUTHORITY FOR URBAN INDIAN ORGANIZATIONS.**

Title V of the Indian Health Care Improvement Act (25 U.S.C. 1651 et seq.) (as amended by section 163(a)) is amended by adding at the end the following:

##### **“SEC. 515. EXPANDED PROGRAM AUTHORITY FOR URBAN INDIAN ORGANIZATIONS.**

“Notwithstanding any other provision of this Act, the Secretary, acting through the Service, is authorized to establish programs, including programs for awarding grants, for urban Indian organizations that are identical to any programs established pursuant to sections 218, 702, and 708(g).”.

##### **SEC. 165. COMMUNITY HEALTH REPRESENTATIVES.**

Title V of the Indian Health Care Improvement Act (25 U.S.C. 1651 et seq.) (as amended by section 164) is amended by adding at the end the following:

##### **“SEC. 516. COMMUNITY HEALTH REPRESENTATIVES.**

“The Secretary, acting through the Service, may enter into contracts with, and make grants to, urban Indian organizations for the employment of Indians trained as health service providers through the Community Health Representative Program under section 107 in the provision of health care, health promotion, and disease prevention services to urban Indians.”.

##### **SEC. 166. USE OF FEDERAL GOVERNMENT FACILITIES AND SOURCES OF SUPPLY; HEALTH INFORMATION TECHNOLOGY.**

Title V of the Indian Health Care Improvement Act (25 U.S.C. 1651 et seq.) (as amended by section 165) is amended by adding at the end the following:

##### **“SEC. 517. USE OF FEDERAL GOVERNMENT FACILITIES AND SOURCES OF SUPPLY.**

“(a) IN GENERAL.—The Secretary may permit an urban Indian organization that has entered into a contract or received a grant pursuant to this title, in carrying out the contract or grant, to use, in accordance with such terms and conditions for use and maintenance as are agreed on by the Secretary and the urban Indian organizations—

“(1) any existing facility under the jurisdiction of the Secretary;

“(2) all equipment contained in or pertaining to such an existing facility; and

“(3) any other personal property of the Federal Government under the jurisdiction of the Secretary.

“(b) DONATIONS.—Subject to subsection (d), the Secretary may donate to an urban Indian organization that has entered into a contract or received a grant pursuant to this title any personal or real property determined to be excess to the needs of the Service or the General Services Administration for the purposes of carrying out the contract or grant.

“(c) ACQUISITION OF PROPERTY.—The Secretary may acquire excess or surplus personal or real property of the Federal Government for donation, subject to subsection (d), to an urban Indian organization that has entered into a contract or received a grant pursuant to this title if the Secretary determines that the property is appropriate for use by the urban Indian organization for purposes of the contract or grant.

“(d) PRIORITY.—If the Secretary receives from an urban Indian organization or an Indian tribe or tribal organization a request for a specific item of personal or real property described in subsection (b) or (c), the Secretary shall give priority to the request for donation to the Indian tribe or tribal organization, if the Secretary receives the request from the Indian tribe or tribal organization before the earlier of—

“(1) the date on which the Secretary transfers title to the property to the urban Indian organization; and

“(2) the date on which the Secretary transfers the property physically to the urban Indian organization.

“(e) EXECUTIVE AGENCY STATUS.—For purposes of section 501(a) of title 40, United States Code, an urban Indian organization that has entered into a contract or received a grant pursuant to this title may be considered to be an Executive agency in carrying out the contract or grant.

##### **“SEC. 518. HEALTH INFORMATION TECHNOLOGY.**

“The Secretary, acting through the Service, may make grants to urban Indian organizations under this title for the development, adoption, and implementation of health information technology (as defined in section 3000 of the Public Health Service Act (42 U.S.C. 300jj)), telemedicine services development, and related infrastructure.”.

#### **Subtitle F—Organizational Improvements**

##### **SEC. 171. ESTABLISHMENT OF THE INDIAN HEALTH SERVICE AS AN AGENCY OF THE PUBLIC HEALTH SERVICE.**

Section 601 of the Indian Health Care Improvement Act (25 U.S.C. 1661) is amended to read as follows:

##### **“SEC. 601. ESTABLISHMENT OF THE INDIAN HEALTH SERVICE AS AN AGENCY OF THE PUBLIC HEALTH SERVICE.**

“(a) ESTABLISHMENT.—

“(1) IN GENERAL.—In order to more effectively and efficiently carry out the responsibilities, authorities, and functions of the United States to provide health care services to Indians and Indian tribes, as are or may be hereafter provided by Federal statute or treaties, there is established within the Public Health Service of the Department the Indian Health Service.

“(2) DIRECTOR.—The Service shall be administered by a Director, who shall be appointed by the President, by and with the advice and consent of the Senate. The Director shall report to the Secretary. Effective with respect to an individual appointed by the

President, by and with the advice and consent of the Senate, after January 1, 2008, the term of service of the Director shall be 4 years. A Director may serve more than 1 term.

“(3) INCUMBENT.—The individual serving in the position of Director of the Service on the day before the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009 shall serve as Director.

“(4) ADVOCACY AND CONSULTATION.—The position of Director is established to, in a manner consistent with the government-to-government relationship between the United States and Indian Tribes—

“(A) facilitate advocacy for the development of appropriate Indian health policy; and

“(B) promote consultation on matters relating to Indian health.

“(b) AGENCY.—The Service shall be an agency within the Public Health Service of the Department, and shall not be an office, component, or unit of any other agency of the Department.

“(c) DUTIES.—The Director shall—

“(1) perform all functions that were, on the day before the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, carried out by or under the direction of the individual serving as Director of the Service on that day;

“(2) perform all functions of the Secretary relating to the maintenance and operation of hospital and health facilities for Indians and the planning for, and provision and utilization of, health services for Indians, including by ensuring that all agency directors, managers, and chief executive officers have appropriate and adequate training, experience, skill levels, knowledge, abilities, and education (including continuing training requirements) to competently fulfill the duties of the positions and the mission of the Service;

“(3) administer all health programs under which health care is provided to Indians based upon their status as Indians which are administered by the Secretary, including programs under—

“(A) this Act;

“(B) the Act of November 2, 1921 (25 U.S.C. 13);

“(C) the Act of August 5, 1954 (42 U.S.C. 2001 et seq.);

“(D) the Act of August 16, 1957 (42 U.S.C. 2005 et seq.); and

“(E) the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.);

“(4) administer all scholarship and loan functions carried out under title I;

“(5) directly advise the Secretary concerning the development of all policy- and budget-related matters affecting Indian health;

“(6) collaborate with the Assistant Secretary for Health concerning appropriate matters of Indian health that affect the agencies of the Public Health Service;

“(7) advise each Assistant Secretary of the Department concerning matters of Indian health with respect to which that Assistant Secretary has authority and responsibility;

“(8) advise the heads of other agencies and programs of the Department concerning matters of Indian health with respect to which those heads have authority and responsibility;

“(9) coordinate the activities of the Department concerning matters of Indian health; and

“(10) perform such other functions as the Secretary may designate.

“(d) AUTHORITY.—

“(1) IN GENERAL.—The Secretary, acting through the Director, shall have the authority—

“(A) except to the extent provided for in paragraph (2), to appoint and compensate employees for the Service in accordance with title 5, United States Code;

“(B) to enter into contracts for the procurement of goods and services to carry out the functions of the Service; and

“(C) to manage, expend, and obligate all funds appropriated for the Service.

“(2) PERSONNEL ACTIONS.—Notwithstanding any other provision of law, the provisions of section 12 of the Act of June 18, 1934 (48 Stat. 986; 25 U.S.C. 472), shall apply to all personnel actions taken with respect to new positions created within the Service as a result of its establishment under subsection (a).”.

#### SEC. 172. OFFICE OF DIRECT SERVICE TRIBES.

Title VI of the Indian Health Care Improvement Act (25 U.S.C. 1661 et seq.) (as amended by section 101(b)) is amended by adding at the end the following:

##### “SEC. 603. OFFICE OF DIRECT SERVICE TRIBES.

“(a) ESTABLISHMENT.—There is established within the Service an office, to be known as the ‘Office of Direct Service Tribes’.

“(b) TREATMENT.—The Office of Direct Service Tribes shall be located in the Office of the Director.

“(c) DUTIES.—The Office of Direct Service Tribes shall be responsible for—

“(1) providing Service-wide leadership, guidance and support for direct service tribes to include strategic planning and program evaluation;

“(2) ensuring maximum flexibility to tribal health and related support systems for Indian beneficiaries;

“(3) serving as the focal point for consultation and participation between direct service tribes and organizations and the Service in the development of Service policy;

“(4) holding no less than biannual consultations with direct service tribes in appropriate locations to gather information and aid in the development of health policy; and

“(5) directing a national program and providing leadership and advocacy in the development of health policy, program management, budget formulation, resource allocation, and delegation support for direct service tribes.”.

#### SEC. 173. NEVADA AREA OFFICE.

Title VI of the Indian Health Care Improvement Act (25 U.S.C. 1661 et seq.) (as amended by section 172) is amended by adding at the end the following:

##### “SEC. 604. NEVADA AREA OFFICE.

“(a) IN GENERAL.—Not later than 1 year after the date of enactment of this section, in a manner consistent with the tribal consultation policy of the Service, the Secretary shall submit to Congress a plan describing the manner and schedule by which an area office, separate and distinct from the Phoenix Area Office of the Service, can be established in the State of Nevada.

“(b) FAILURE TO SUBMIT PLAN.—

“(1) DEFINITION OF OPERATIONS FUNDS.—In this subsection, the term ‘operations funds’ means only the funds used for—

“(A) the administration of services, including functional expenses such as overtime, personnel salaries, and associated benefits; or

“(B) related tasks that directly affect the operations described in subparagraph (A).

“(2) WITHHOLDING OF FUNDS.—If the Secretary fails to submit a plan in accordance with subsection (a), the Secretary shall withhold the operations funds reserved for the Office of the Director, subject to the condition that the withholding shall not adversely impact the capacity of the Service to deliver health care services.

“(3) RESTORATION.—The operations funds withheld pursuant to paragraph (2) may be restored, at the discretion of the Secretary, to the Office of the Director on achievement by that Office of compliance with this section.”.

#### Subtitle G—Behavioral Health Programs

##### SEC. 181. BEHAVIORAL HEALTH PROGRAMS.

Title VII of the Indian Health Care Improvement Act (25 U.S.C. 1665 et seq.) is amended to read as follows:

#### “TITLE VII—BEHAVIORAL HEALTH PROGRAMS

##### “Subtitle A—General Programs

##### “SEC. 701. DEFINITIONS.

“In this subtitle:

“(1) ALCOHOL-RELATED NEURODEVELOPMENTAL DISORDERS; ARND.—The term ‘alcohol-related neurodevelopmental disorders’ or ‘ARND’ means, with a history of maternal alcohol consumption during pregnancy, central nervous system abnormalities, which may range from minor intellectual deficits and developmental delays to mental retardation. ARND children may have behavioral problems, learning disabilities, problems with executive functioning, and attention disorders. The neurological defects of ARND may be as severe as FAS, but facial anomalies and other physical characteristics are not present in ARND, thus making diagnosis difficult.

“(2) ASSESSMENT.—The term ‘assessment’ means the systematic collection, analysis, and dissemination of information on health status, health needs, and health problems.

“(3) BEHAVIORAL HEALTH AFTERCARE.—The term ‘behavioral health aftercare’ includes those activities and resources used to support recovery following inpatient, residential, intensive substance abuse, or mental health outpatient or outpatient treatment. The purpose is to help prevent or deal with relapse by ensuring that by the time a client or patient is discharged from a level of care, such as outpatient treatment, an aftercare plan has been developed with the client. An aftercare plan may use such resources as a community-based therapeutic group, transitional living facilities, a 12-step sponsor, a local 12-step or other related support group, and other community-based providers.

“(4) DUAL DIAGNOSIS.—The term ‘dual diagnosis’ means coexisting substance abuse and mental illness conditions or diagnosis. Such clients are sometimes referred to as mentally ill chemical abusers (MICAs).

“(5) FETAL ALCOHOL SPECTRUM DISORDERS.—

“(A) IN GENERAL.—The term ‘fetal alcohol spectrum disorders’ includes a range of effects that can occur in an individual whose mother drank alcohol during pregnancy, including physical, mental, behavioral, and/or learning disabilities with possible lifelong implications.

“(B) INCLUSIONS.—The term ‘fetal alcohol spectrum disorders’ may include—

“(i) fetal alcohol syndrome (FAS);

“(ii) partial fetal alcohol syndrome (partial FAS);

“(iii) alcohol-related birth defects (ARBD); and

“(iv) alcohol-related neurodevelopmental disorders (ARND).

“(6) FAS OR FETAL ALCOHOL SYNDROME.—The term ‘FAS’ or ‘fetal alcohol syndrome’ means a syndrome in which, with a history of maternal alcohol consumption during pregnancy, the following criteria are met:

“(A) Central nervous system involvement, such as mental retardation, developmental delay, intellectual deficit, microcephaly, or neurological abnormalities.

“(B) Craniofacial abnormalities with at least 2 of the following:

“(i) Microphthalmia.

“(ii) Short palpebral fissures.

“(iii) Poorly developed philtrum.

“(iv) Thin upper lip.

“(v) Flat nasal bridge.

“(vi) Short upturned nose.

“(C) Prenatal or postnatal growth delay.

“(7) REHABILITATION.—The term ‘rehabilitation’ means medical and health care services that—

“(A) are recommended by a physician or licensed practitioner of the healing arts within the scope of their practice under applicable law;

“(B) are furnished in a facility, home, or other setting in accordance with applicable standards; and

“(C) have as their purpose any of the following:

“(i) The maximum attainment of physical, mental, and developmental functioning.

“(ii) Averting deterioration in physical or mental functional status.

“(iii) The maintenance of physical or mental health functional status.

“(8) SUBSTANCE ABUSE.—The term ‘substance abuse’ includes inhalant abuse.

#### **“SEC. 702. BEHAVIORAL HEALTH PREVENTION AND TREATMENT SERVICES.**

“(a) PURPOSES.—The purposes of this section are as follows:

“(1) To authorize and direct the Secretary, acting through the Service, Indian tribes, and tribal organizations, to develop a comprehensive behavioral health prevention and treatment program which emphasizes collaboration among alcohol and substance abuse, social services, and mental health programs.

“(2) To provide information, direction, and guidance relating to mental illness and dysfunction and self-destructive behavior, including child abuse and family violence, to those Federal, tribal, State, and local agencies responsible for programs in Indian communities in areas of health care, education, social services, child and family welfare, alcohol and substance abuse, law enforcement, and judicial services.

“(3) To assist Indian tribes to identify services and resources available to address mental illness and dysfunctional and self-destructive behavior.

“(4) To provide authority and opportunities for Indian tribes and tribal organizations to develop, implement, and coordinate with community-based programs which include identification, prevention, education, referral, and treatment services, including through multidisciplinary resource teams.

“(5) To ensure that Indians, as citizens of the United States and of the States in which they reside, have the same access to behavioral health services to which all citizens have access.

“(6) To modify or supplement existing programs and authorities in the areas identified in paragraph (2).

“(b) PLANS.—

“(1) DEVELOPMENT.—The Secretary, acting through the Service, Indian tribes, and tribal organizations, shall encourage Indian tribes and tribal organizations to develop tribal

plans, and urban Indian organizations to develop local plans, and for all such groups to participate in developing areawide plans for Indian Behavioral Health Services. The plans shall include, to the extent feasible, the following components:

“(A) An assessment of the scope of alcohol or other substance abuse, mental illness, and dysfunctional and self-destructive behavior, including suicide, child abuse, and family violence, among Indians, including—

“(i) the number of Indians served who are directly or indirectly affected by such illness or behavior; or

“(ii) an estimate of the financial and human cost attributable to such illness or behavior.

“(B) An assessment of the existing and additional resources necessary for the prevention and treatment of such illness and behavior, including an assessment of the progress toward achieving the availability of the full continuum of care described in subsection (c).

“(C) An estimate of the additional funding needed by the Service, Indian tribes, tribal organizations, and urban Indian organizations to meet their responsibilities under the plans.

“(2) NATIONAL CLEARINGHOUSE.—The Secretary, acting through the Service, shall coordinate with existing national clearinghouses and information centers to include at the clearinghouses and centers plans and reports on the outcomes of such plans developed by Indian tribes, tribal organizations, urban Indian organizations, and Service areas relating to behavioral health. The Secretary shall ensure access to these plans and outcomes by any Indian tribe, tribal organization, urban Indian organization, or the Service.

“(3) TECHNICAL ASSISTANCE.—The Secretary shall provide technical assistance to Indian tribes, tribal organizations, and urban Indian organizations in preparation of plans under this section and in developing standards of care that may be used and adopted locally.

“(c) PROGRAMS.—The Secretary, acting through the Service, shall provide, to the extent feasible and if funding is available, programs including the following:

“(1) COMPREHENSIVE CARE.—A comprehensive continuum of behavioral health care which provides—

“(A) community-based prevention, intervention, outpatient, and behavioral health aftercare;

“(B) detoxification (social and medical);

“(C) acute hospitalization;

“(D) intensive outpatient/day treatment;

“(E) residential treatment;

“(F) transitional living for those needing a temporary, stable living environment that is supportive of treatment and recovery goals;

“(G) emergency shelter;

“(H) intensive case management;

“(I) diagnostic services; and

“(J) promotion of healthy approaches to risk and safety issues, including injury prevention.

“(2) CHILD CARE.—Behavioral health services for Indians from birth through age 17, including—

“(A) preschool and school age fetal alcohol spectrum disorder services, including assessment and behavioral intervention;

“(B) mental health and substance abuse services (emotional, organic, alcohol, drug, inhalant, and tobacco);

“(C) identification and treatment of co-occurring disorders and comorbidity;

“(D) prevention of alcohol, drug, inhalant, and tobacco use;

“(E) early intervention, treatment, and aftercare;

“(F) promotion of healthy approaches to risk and safety issues; and

“(G) identification and treatment of neglect and physical, mental, and sexual abuse.

“(3) ADULT CARE.—Behavioral health services for Indians from age 18 through 55, including—

“(A) early intervention, treatment, and aftercare;

“(B) mental health and substance abuse services (emotional, alcohol, drug, inhalant, and tobacco), including sex specific services;

“(C) identification and treatment of co-occurring disorders (dual diagnosis) and comorbidity;

“(D) promotion of healthy approaches for risk-related behavior;

“(E) treatment services for women at risk of giving birth to a child with a fetal alcohol spectrum disorder; and

“(F) sex specific treatment for sexual assault and domestic violence.

“(4) FAMILY CARE.—Behavioral health services for families, including—

“(A) early intervention, treatment, and aftercare for affected families;

“(B) treatment for sexual assault and domestic violence; and

“(C) promotion of healthy approaches relating to parenting, domestic violence, and other abuse issues.

“(5) ELDER CARE.—Behavioral health services for Indians 56 years of age and older, including—

“(A) early intervention, treatment, and aftercare;

“(B) mental health and substance abuse services (emotional, alcohol, drug, inhalant, and tobacco), including sex specific services;

“(C) identification and treatment of co-occurring disorders (dual diagnosis) and comorbidity;

“(D) promotion of healthy approaches to managing conditions related to aging;

“(E) sex specific treatment for sexual assault, domestic violence, neglect, physical and mental abuse and exploitation; and

“(F) identification and treatment of dementias regardless of cause.

“(d) COMMUNITY BEHAVIORAL HEALTH PLAN.—

“(1) ESTABLISHMENT.—The governing body of any Indian tribe, tribal organization, or urban Indian organization may adopt a resolution for the establishment of a community behavioral health plan providing for the identification and coordination of available resources and programs to identify, prevent, or treat substance abuse, mental illness, or dysfunctional and self-destructive behavior, including child abuse and family violence, among its members or its service population. This plan should include behavioral health services, social services, intensive outpatient services, and continuing aftercare.

“(2) TECHNICAL ASSISTANCE.—At the request of an Indian tribe, tribal organization, or urban Indian organization, the Bureau of Indian Affairs and the Service shall cooperate with and provide technical assistance to the Indian tribe, tribal organization, or urban Indian organization in the development and implementation of such plan.

“(3) FUNDING.—The Secretary, acting through the Service, Indian tribes, and tribal organizations, may make funding available to Indian tribes and tribal organizations which adopt a resolution pursuant to paragraph (1) to obtain technical assistance for the development of a community behavioral health plan and to provide administrative support in the implementation of such plan.

“(e) COORDINATION FOR AVAILABILITY OF SERVICES.—The Secretary, acting through the Service, shall coordinate behavioral health planning, to the extent feasible, with other Federal agencies and with State agencies, to encourage comprehensive behavioral health services for Indians regardless of their place of residence.

“(f) MENTAL HEALTH CARE NEED ASSESSMENT.—Not later than 1 year after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Secretary, acting through the Service, shall make an assessment of the need for inpatient mental health care among Indians and the availability and cost of inpatient mental health facilities which can meet such need. In making such assessment, the Secretary shall consider the possible conversion of existing, underused Service hospital beds into psychiatric units to meet such need.

**“SEC. 703. MEMORANDA OF AGREEMENT WITH THE DEPARTMENT OF INTERIOR.**

“(a) CONTENTS.—Not later than 1 year after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Secretary, acting through the Service, and the Secretary of the Interior shall develop and enter into a memorandum of agreement, or review and update any existing memoranda of agreement, as required by section 4205 of the Indian Alcohol and Substance Abuse Prevention and Treatment Act of 1986 (25 U.S.C. 2411) under which the Secretaries address the following:

“(1) The scope and nature of mental illness and dysfunctional and self-destructive behavior, including child abuse and family violence, among Indians.

“(2) The existing Federal, tribal, State, local, and private services, resources, and programs available to provide behavioral health services for Indians.

“(3) The unmet need for additional services, resources, and programs necessary to meet the needs identified pursuant to paragraph (1).

“(4)(A) The right of Indians, as citizens of the United States and of the States in which they reside, to have access to behavioral health services to which all citizens have access.

“(B) The right of Indians to participate in, and receive the benefit of, such services.

“(C) The actions necessary to protect the exercise of such right.

“(5) The responsibilities of the Bureau of Indian Affairs and the Service, including mental illness identification, prevention, education, referral, and treatment services (including services through multidisciplinary resource teams), at the central, area, and agency and Service unit, Service area, and headquarters levels to address the problems identified in paragraph (1).

“(6) A strategy for the comprehensive coordination of the behavioral health services provided by the Bureau of Indian Affairs and the Service to meet the problems identified pursuant to paragraph (1), including—

“(A) the coordination of alcohol and substance abuse programs of the Service, the Bureau of Indian Affairs, and Indian tribes and tribal organizations (developed under the Indian Alcohol and Substance Abuse Prevention and Treatment Act of 1986 (25 U.S.C. 2401 et seq.)) with behavioral health initiatives pursuant to this Act, particularly with respect to the referral and treatment of dually diagnosed individuals requiring behavioral health and substance abuse treatment; and

“(B) ensuring that the Bureau of Indian Affairs and Service programs and services (in-

cluding multidisciplinary resource teams) addressing child abuse and family violence are coordinated with such non-Federal programs and services.

“(7) Directing appropriate officials of the Bureau of Indian Affairs and the Service, particularly at the agency and Service unit levels, to cooperate fully with tribal requests made pursuant to community behavioral health plans adopted under section 702(c) and section 4206 of the Indian Alcohol and Substance Abuse Prevention and Treatment Act of 1986 (25 U.S.C. 2412).

“(8) Providing for an annual review of such agreement by the Secretaries which shall be provided to Congress and Indian tribes and tribal organizations.

“(b) SPECIFIC PROVISIONS REQUIRED.—The memoranda of agreement updated or entered into pursuant to subsection (a) shall include specific provisions pursuant to which the Service shall assume responsibility for—

“(1) the determination of the scope of the problem of alcohol and substance abuse among Indians, including the number of Indians within the jurisdiction of the Service who are directly or indirectly affected by alcohol and substance abuse and the financial and human cost;

“(2) an assessment of the existing and needed resources necessary for the prevention of alcohol and substance abuse and the treatment of Indians affected by alcohol and substance abuse; and

“(3) an estimate of the funding necessary to adequately support a program of prevention of alcohol and substance abuse and treatment of Indians affected by alcohol and substance abuse.

“(c) PUBLICATION.—Each memorandum of agreement entered into or renewed (and amendments or modifications thereto) under subsection (a) shall be published in the Federal Register. At the same time as publication in the Federal Register, the Secretary shall provide a copy of such memoranda, amendment, or modification to each Indian tribe, tribal organization, and urban Indian organization.

**“SEC. 704. COMPREHENSIVE BEHAVIORAL HEALTH PREVENTION AND TREATMENT PROGRAM.**

“(a) ESTABLISHMENT.—

“(1) IN GENERAL.—The Secretary, acting through the Service, shall provide a program of comprehensive behavioral health, prevention, treatment, and aftercare, which may include, if feasible and appropriate, systems of care, and shall include—

“(A) prevention, through educational intervention, in Indian communities;

“(B) acute detoxification, psychiatric hospitalization, residential, and intensive outpatient treatment;

“(C) community-based rehabilitation and aftercare;

“(D) community education and involvement, including extensive training of health care, educational, and community-based personnel;

“(E) specialized residential treatment programs for high-risk populations, including pregnant and postpartum women and their children; and

“(F) diagnostic services.

“(2) TARGET POPULATIONS.—The target population of such programs shall be members of Indian tribes. Efforts to train and educate key members of the Indian community shall also target employees of health, education, judicial, law enforcement, legal, and social service programs.

“(b) CONTRACT HEALTH SERVICES.—

“(1) IN GENERAL.—The Secretary, acting through the Service, may enter into con-

tracts with public or private providers of behavioral health treatment services for the purpose of carrying out the program required under subsection (a).

“(2) PROVISION OF ASSISTANCE.—In carrying out this subsection, the Secretary shall provide assistance to Indian tribes and tribal organizations to develop criteria for the certification of behavioral health service providers and accreditation of service facilities which meet minimum standards for such services and facilities.

**“SEC. 705. MENTAL HEALTH TECHNICIAN PROGRAM.**

“(a) IN GENERAL.—Pursuant to the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the ‘Snyder Act’), the Secretary shall establish and maintain a mental health technician program within the Service which—

“(1) provides for the training of Indians as mental health technicians; and

“(2) employs such technicians in the provision of community-based mental health care that includes identification, prevention, education, referral, and treatment services.

“(b) PARAPROFESSIONAL TRAINING.—In carrying out subsection (a), the Secretary, acting through the Service, shall provide high-standard paraprofessional training in mental health care necessary to provide quality care to the Indian communities to be served. Such training shall be based upon a curriculum developed or approved by the Secretary which combines education in the theory of mental health care with supervised practical experience in the provision of such care.

“(c) SUPERVISION AND EVALUATION OF TECHNICIANS.—The Secretary, acting through the Service, shall supervise and evaluate the mental health technicians in the training program.

“(d) TRADITIONAL HEALTH CARE PRACTICES.—The Secretary, acting through the Service, shall ensure that the program established pursuant to this section involves the use and promotion of the traditional health care practices of the Indian tribes to be served.

**“SEC. 706. LICENSING REQUIREMENT FOR MENTAL HEALTH CARE WORKERS.**

“(a) IN GENERAL.—Subject to section 221, and except as provided in subsection (b), any individual employed as a psychologist, social worker, or marriage and family therapist for the purpose of providing mental health care services to Indians in a clinical setting under this Act is required to be licensed as a psychologist, social worker, or marriage and family therapist, respectively.

“(b) TRAINEES.—An individual may be employed as a trainee in psychology, social work, or marriage and family therapy to provide mental health care services described in subsection (a) if such individual—

“(1) works under the direct supervision of a licensed psychologist, social worker, or marriage and family therapist, respectively;

“(2) is enrolled in or has completed at least 2 years of course work at a post-secondary, accredited education program for psychology, social work, marriage and family therapy, or counseling; and

“(3) meets such other training, supervision, and quality review requirements as the Secretary may establish.

**“SEC. 707. INDIAN WOMEN TREATMENT PROGRAMS.**

“(a) GRANTS.—The Secretary, consistent with section 702, may make grants to Indian tribes, tribal organizations, and urban Indian organizations to develop and implement a comprehensive behavioral health program of

prevention, intervention, treatment, and relapse prevention services that specifically addresses the cultural, historical, social, and child care needs of Indian women, regardless of age.

“(b) USE OF GRANT FUNDS.—A grant made pursuant to this section may be used—

“(1) to develop and provide community training, education, and prevention programs for Indian women relating to behavioral health issues, including fetal alcohol spectrum disorders;

“(2) to identify and provide psychological services, counseling, advocacy, support, and relapse prevention to Indian women and their families; and

“(3) to develop prevention and intervention models for Indian women which incorporate traditional health care practices, cultural values, and community and family involvement.

“(c) CRITERIA.—The Secretary, in consultation with Indian tribes and tribal organizations, shall establish criteria for the review and approval of applications and proposals for funding under this section.

“(d) ALLOCATION OF FUNDS FOR URBAN INDIAN ORGANIZATIONS.—20 percent of the funds appropriated pursuant to this section shall be used to make grants to urban Indian organizations.

#### “SEC. 708. INDIAN YOUTH PROGRAM.

“(a) DETOXIFICATION AND REHABILITATION.—The Secretary, acting through the Service, consistent with section 702, shall develop and implement a program for acute detoxification and treatment for Indian youths, including behavioral health services. The program shall include regional treatment centers designed to include detoxification and rehabilitation for both sexes on a referral basis and programs developed and implemented by Indian tribes or tribal organizations at the local level under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.). Regional centers shall be integrated with the intake and rehabilitation programs based in the referring Indian community.

“(b) ALCOHOL AND SUBSTANCE ABUSE TREATMENT CENTERS OR FACILITIES.—

“(1) ESTABLISHMENT.—

“(A) IN GENERAL.—The Secretary, acting through the Service, shall construct, renovate, or, as necessary, purchase, and appropriately staff and operate, at least 1 youth regional treatment center or treatment network in each area under the jurisdiction of an area office.

“(B) AREA OFFICE IN CALIFORNIA.—For the purposes of this subsection, the area office in California shall be considered to be 2 area offices, 1 office whose jurisdiction shall be considered to encompass the northern area of the State of California, and 1 office whose jurisdiction shall be considered to encompass the remainder of the State of California for the purpose of implementing California treatment networks.

“(2) FUNDING.—For the purpose of staffing and operating such centers or facilities, funding shall be pursuant to the Act of November 2, 1921 (25 U.S.C. 13).

“(3) LOCATION.—A youth treatment center constructed or purchased under this subsection shall be constructed or purchased at a location within the area described in paragraph (1) agreed upon (by appropriate tribal resolution) by a majority of the Indian tribes to be served by such center.

“(4) SPECIFIC PROVISION OF FUNDS.—

“(A) IN GENERAL.—Notwithstanding any other provision of this title, the Secretary may, from amounts authorized to be appro-

priated for the purposes of carrying out this section, make funds available to—

“(i) the Tanana Chiefs Conference, Incorporated, for the purpose of leasing, constructing, renovating, operating, and maintaining a residential youth treatment facility in Fairbanks, Alaska; and

“(ii) the Southeast Alaska Regional Health Corporation to staff and operate a residential youth treatment facility without regard to the proviso set forth in section 4(l) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(l)).

“(B) PROVISION OF SERVICES TO ELIGIBLE YOUTHS.—Until additional residential youth treatment facilities are established in Alaska pursuant to this section, the facilities specified in subparagraph (A) shall make every effort to provide services to all eligible Indian youths residing in Alaska.

“(c) INTERMEDIATE ADOLESCENT BEHAVIORAL HEALTH SERVICES.—

“(1) IN GENERAL.—The Secretary, acting through the Service, may provide intermediate behavioral health services, which may, if feasible and appropriate, incorporate systems of care, to Indian children and adolescents, including—

“(A) pretreatment assistance;

“(B) inpatient, outpatient, and aftercare services;

“(C) emergency care;

“(D) suicide prevention and crisis intervention; and

“(E) prevention and treatment of mental illness and dysfunctional and self-destructive behavior, including child abuse and family violence.

“(2) USE OF FUNDS.—Funds provided under this subsection may be used—

“(A) to construct or renovate an existing health facility to provide intermediate behavioral health services;

“(B) to hire behavioral health professionals;

“(C) to staff, operate, and maintain an intermediate mental health facility, group home, sober housing, transitional housing or similar facilities, or youth shelter where intermediate behavioral health services are being provided;

“(D) to make renovations and hire appropriate staff to convert existing hospital beds into adolescent psychiatric units; and

“(E) for intensive home- and community-based services.

“(3) CRITERIA.—The Secretary, acting through the Service, shall, in consultation with Indian tribes and tribal organizations, establish criteria for the review and approval of applications or proposals for funding made available pursuant to this subsection.

“(d) FEDERALLY OWNED STRUCTURES.—

“(1) IN GENERAL.—The Secretary, in consultation with Indian tribes and tribal organizations, shall—

“(A) identify and use, where appropriate, federally owned structures suitable for local residential or regional behavioral health treatment for Indian youths; and

“(B) establish guidelines for determining the suitability of any such federally owned structure to be used for local residential or regional behavioral health treatment for Indian youths.

“(2) TERMS AND CONDITIONS FOR USE OF STRUCTURE.—Any structure described in paragraph (1) may be used under such terms and conditions as may be agreed upon by the Secretary and the agency having responsibility for the structure and any Indian tribe or tribal organization operating the program.

“(e) REHABILITATION AND AFTERCARE SERVICES.—

“(1) IN GENERAL.—The Secretary, Indian tribes, or tribal organizations, in cooperation with the Secretary of the Interior, shall develop and implement within each Service unit, community-based rehabilitation and follow-up services for Indian youths who are having significant behavioral health problems, and require long-term treatment, community reintegration, and monitoring to support the Indian youths after their return to their home community.

“(2) ADMINISTRATION.—Services under paragraph (1) shall be provided by trained staff within the community who can assist the Indian youths in their continuing development of self-image, positive problem-solving skills, and nonalcohol or substance abusing behaviors. Such staff may include alcohol and substance abuse counselors, mental health professionals, and other health professionals and paraprofessionals, including community health representatives.

“(f) INCLUSION OF FAMILY IN YOUTH TREATMENT PROGRAM.—In providing the treatment and other services to Indian youths authorized by this section, the Secretary, acting through the Service, shall provide for the inclusion of family members of such youths in the treatment programs or other services as may be appropriate. Not less than 10 percent of the funds appropriated for the purposes of carrying out subsection (e) shall be used for outpatient care of adult family members related to the treatment of an Indian youth under that subsection.

“(g) MULTIDRUG ABUSE PROGRAM.—The Secretary, acting through the Service, shall provide, consistent with section 702, programs and services to prevent and treat the abuse of multiple forms of substances, including alcohol, drugs, inhalants, and tobacco, among Indian youths residing in Indian communities, on or near reservations, and in urban areas and provide appropriate mental health services to address the incidence of mental illness among such youths.

“(h) INDIAN YOUTH MENTAL HEALTH.—The Secretary, acting through the Service, shall collect data for the report under section 801 with respect to—

“(1) the number of Indian youth who are being provided mental health services through the Service and tribal health programs;

“(2) a description of, and costs associated with, the mental health services provided for Indian youth through the Service and tribal health programs;

“(3) the number of youth referred to the Service or tribal health programs for mental health services;

“(4) the number of Indian youth provided residential treatment for mental health and behavioral problems through the Service and tribal health programs, reported separately for on- and off-reservation facilities; and

“(5) the costs of the services described in paragraph (4).

#### “SEC. 709. INPATIENT AND COMMUNITY-BASED MENTAL HEALTH FACILITIES DESIGN, CONSTRUCTION, AND STAFFING.

“Not later than 1 year after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Secretary, acting through the Service, may provide, in each area of the Service, not less than 1 inpatient mental health care facility, or the equivalent, for Indians with behavioral health problems. For the purposes of this subsection, California shall be considered to be 2 area offices, 1 office whose location shall be considered to encompass the northern area of the State of California and 1 office whose jurisdiction shall be considered to encompass the remainder of the

State of California. The Secretary shall consider the possible conversion of existing, underused Service hospital beds into psychiatric units to meet such need.

**"SEC. 710. TRAINING AND COMMUNITY EDUCATION.**

"(a) PROGRAM.—The Secretary, in cooperation with the Secretary of the Interior, shall develop and implement or assist Indian tribes and tribal organizations to develop and implement, within each Service unit or tribal program, a program of community education and involvement which shall be designed to provide concise and timely information to the community leadership of each tribal community. Such program shall include education about behavioral health issues to political leaders, tribal judges, law enforcement personnel, members of tribal health and education boards, health care providers including traditional practitioners, and other critical members of each tribal community. Such program may also include community-based training to develop local capacity and tribal community provider training for prevention, intervention, treatment, and aftercare.

"(b) INSTRUCTION.—The Secretary, acting through the Service, shall provide instruction in the area of behavioral health issues, including instruction in crisis intervention and family relations in the context of alcohol and substance abuse, child sexual abuse, youth alcohol and substance abuse, and the causes and effects of fetal alcohol spectrum disorders to appropriate employees of the Bureau of Indian Affairs and the Service, and to personnel in schools or programs operated under any contract with the Bureau of Indian Affairs or the Service, including supervisors of emergency shelters and halfway houses described in section 4213 of the Indian Alcohol and Substance Abuse Prevention and Treatment Act of 1986 (25 U.S.C. 2433).

"(c) TRAINING MODELS.—In carrying out the education and training programs required by this section, the Secretary, in consultation with Indian tribes, tribal organizations, Indian behavioral health experts, and Indian alcohol and substance abuse prevention experts, shall develop and provide community-based training models. Such models shall address—

"(1) the elevated risk of alcohol abuse and other behavioral health problems faced by children of alcoholics;

"(2) the cultural, spiritual, and multigenerational aspects of behavioral health problem prevention and recovery; and

"(3) community-based and multidisciplinary strategies for preventing and treating behavioral health problems.

**"SEC. 711. BEHAVIORAL HEALTH PROGRAM.**

"(a) INNOVATIVE PROGRAMS.—The Secretary, acting through the Service, consistent with section 702, may plan, develop, implement, and carry out programs to deliver innovative community-based behavioral health services to Indians.

"(b) AWARDS; CRITERIA.—The Secretary may award a grant for a project under subsection (a) to an Indian tribe or tribal organization and may consider the following criteria:

"(1) The project will address significant unmet behavioral health needs among Indians.

"(2) The project will serve a significant number of Indians.

"(3) The project has the potential to deliver services in an efficient and effective manner.

"(4) The Indian tribe or tribal organization has the administrative and financial capability to administer the project.

"(5) The project may deliver services in a manner consistent with traditional health care practices.

"(6) The project is coordinated with, and avoids duplication of, existing services.

"(c) EQUITABLE TREATMENT.—For purposes of this subsection, the Secretary shall, in evaluating project applications or proposals, use the same criteria that the Secretary uses in evaluating any other application or proposal for such funding.

**"SEC. 712. FETAL ALCOHOL SPECTRUM DISORDERS PROGRAMS.**

"(a) PROGRAMS.—

"(1) ESTABLISHMENT.—The Secretary, consistent with section 702, acting through the Service, Indian tribes, and Tribal Organizations, is authorized to establish and operate fetal alcohol spectrum disorders programs as provided in this section for the purposes of meeting the health status objectives specified in section 3.

"(2) USE OF FUNDS.—

"(A) IN GENERAL.—Funding provided pursuant to this section shall be used for the following:

"(i) To develop and provide for Indians community and in-school training, education, and prevention programs relating to fetal alcohol spectrum disorders.

"(ii) To identify and provide behavioral health treatment to high-risk Indian women and high-risk women pregnant with an Indian's child.

"(iii) To identify and provide appropriate psychological services, educational and vocational support, counseling, advocacy, and information to fetal alcohol spectrum disorders-affected Indians and their families or caretakers.

"(iv) To develop and implement counseling and support programs in schools for fetal alcohol spectrum disorders-affected Indian children.

"(v) To develop prevention and intervention models which incorporate practitioners of traditional health care practices, cultural values, and community involvement.

"(vi) To develop, print, and disseminate education and prevention materials on fetal alcohol spectrum disorders.

"(vii) To develop and implement, in consultation with Indian tribes and tribal organizations, and in conference with urban Indian organizations, culturally sensitive assessment and diagnostic tools including dysmorphology clinics and multidisciplinary fetal alcohol spectrum disorders clinics for use in Indian communities and urban centers.

"(viii) To develop and provide training on fetal alcohol spectrum disorders to professionals providing services to Indians, including medical and allied health practitioners, social service providers, educators, and law enforcement, court officials and corrections personnel in the juvenile and criminal justice systems.

"(B) ADDITIONAL USES.—In addition to any purpose under subparagraph (A), funding provided pursuant to this section may be used for 1 or more of the following:

"(i) Early childhood intervention projects from birth on to mitigate the effects of fetal alcohol spectrum disorders among Indians.

"(ii) Community-based support services for Indians and women pregnant with Indian children.

"(iii) Community-based housing for adult Indians with fetal alcohol spectrum disorders.

"(3) CRITERIA FOR APPLICATIONS.—The Secretary shall establish criteria for the review and approval of applications for funding under this section.

"(b) SERVICES.—The Secretary, acting through the Service, Indian tribes, and tribal organizations, shall—

"(1) develop and provide services for the prevention, intervention, treatment, and aftercare for those affected by fetal alcohol spectrum disorders in Indian communities; and

"(2) provide supportive services, including services to meet the special educational, vocational, school-to-work transition, and independent living needs of adolescent and adult Indians with fetal alcohol spectrum disorders.

"(c) APPLIED RESEARCH PROJECTS.—The Secretary, acting through the Substance Abuse and Mental Health Services Administration, shall make grants to Indian tribes, tribal organizations, and urban Indian organizations for applied research projects which propose to elevate the understanding of methods to prevent, intervene, treat, or provide rehabilitation and behavioral health aftercare for Indians and urban Indians affected by fetal alcohol spectrum disorders.

"(d) FUNDING FOR URBAN INDIAN ORGANIZATIONS.—Ten percent of the funds appropriated pursuant to this section shall be used to make grants to urban Indian organizations funded under title V.

**"SEC. 713. CHILD SEXUAL ABUSE PREVENTION AND TREATMENT PROGRAMS.**

"(a) ESTABLISHMENT.—The Secretary, acting through the Service, shall establish, consistent with section 702, in every Service area, programs involving treatment for—

"(1) victims of sexual abuse who are Indian children or children in an Indian household; and

"(2) other members of the household or family of the victims described in paragraph (1).

"(b) USE OF FUNDS.—Funding provided pursuant to this section shall be used for the following:

"(1) To develop and provide community education and prevention programs related to sexual abuse of Indian children or children in an Indian household.

"(2) To identify and provide behavioral health treatment to victims of sexual abuse who are Indian children or children in an Indian household, and to their family members who are affected by sexual abuse.

"(3) To develop prevention and intervention models which incorporate traditional health care practices, cultural values, and community involvement.

"(4) To develop and implement culturally sensitive assessment and diagnostic tools for use in Indian communities and urban centers.

"(c) COORDINATION.—The programs established under subsection (a) shall be carried out in coordination with programs and services authorized under the Indian Child Protection and Family Violence Prevention Act (25 U.S.C. 3201 et seq.).

**"SEC. 714. DOMESTIC AND SEXUAL VIOLENCE PREVENTION AND TREATMENT.**

"(a) IN GENERAL.—The Secretary, in accordance with section 702, is authorized to establish in each Service area programs involving the prevention and treatment of—

"(1) Indian victims of domestic violence or sexual abuse; and

"(2) other members of the household or family of the victims described in paragraph (1).

"(b) USE OF FUNDS.—Funds made available to carry out this section shall be used—

"(1) to develop and implement prevention programs and community education programs relating to domestic violence and sexual abuse;

“(2) to provide behavioral health services, including victim support services, and medical treatment (including examinations performed by sexual assault nurse examiners) to Indian victims of domestic violence or sexual abuse;

“(3) to purchase rape kits; and

“(4) to develop prevention and intervention models, which may incorporate traditional health care practices.

“(c) TRAINING AND CERTIFICATION.—

“(1) IN GENERAL.—Not later than 1 year after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Secretary shall establish appropriate protocols, policies, procedures, standards of practice, and, if not available elsewhere, training curricula and training and certification requirements for services for victims of domestic violence and sexual abuse.

“(2) REPORT.—Not later than 18 months after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Secretary shall submit to the Committee on Indian Affairs of the Senate and the Committee on Natural Resources of the House of Representatives a report that describes the means and extent to which the Secretary has carried out paragraph (1).

“(d) COORDINATION.—

“(1) IN GENERAL.—The Secretary, in coordination with the Attorney General, Federal and tribal law enforcement agencies, Indian health programs, and domestic violence or sexual assault victim organizations, shall develop appropriate victim services and victim advocate training programs—

“(A) to improve domestic violence or sexual abuse responses;

“(B) to improve forensic examinations and collection;

“(C) to identify problems or obstacles in the prosecution of domestic violence or sexual abuse; and

“(D) to meet other needs or carry out other activities required to prevent, treat, and improve prosecutions of domestic violence and sexual abuse.

“(2) REPORT.—Not later than 2 years after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Secretary shall submit to the Committee on Indian Affairs of the Senate and the Committee on Natural Resources of the House of Representatives a report that describes, with respect to the matters described in paragraph (1), the improvements made and needed, problems or obstacles identified, and costs necessary to address the problems or obstacles, and any other recommendations that the Secretary determines to be appropriate.

#### “SEC. 715. BEHAVIORAL HEALTH RESEARCH.

“(a) IN GENERAL.—The Secretary, in consultation with appropriate Federal agencies, shall make grants to, or enter into contracts with, Indian tribes, tribal organizations, and urban Indian organizations or enter into contracts with, or make grants to appropriate institutions for, the conduct of research on the incidence and prevalence of behavioral health problems among Indians served by the Service, Indian tribes, or tribal organizations and among Indians in urban areas. Research priorities under this section shall include—

“(1) the multifactorial causes of Indian youth suicide, including—

“(A) protective and risk factors and scientific data that identifies those factors; and

“(B) the effects of loss of cultural identity and the development of scientific data on those effects;

“(2) the interrelationship and interdependence of behavioral health problems with alcoholism and other substance abuse, suicide, homicides, other injuries, and the incidence of family violence; and

“(3) the development of models of prevention techniques.

“(b) EMPHASIS.—The effect of the interrelationships and interdependencies referred to in subsection (a)(2) on children, and the development of prevention techniques under subsection (a)(3) applicable to children, shall be emphasized.

#### “Subtitle B—Indian Youth Suicide Prevention

#### “SEC. 721. FINDINGS AND PURPOSE.

“(a) FINDINGS.—Congress finds that—

“(1)(A) the rate of suicide of American Indians and Alaska Natives is 1.9 times higher than the national average rate; and

“(B) the rate of suicide of Indian and Alaska Native youth aged 15 through 24 is—

“(i) 3.5 times the national average rate; and

“(ii) the highest rate of any population group in the United States;

“(2) many risk behaviors and contributing factors for suicide are more prevalent in Indian country than in other areas, including—

“(A) history of previous suicide attempts;

“(B) family history of suicide;

“(C) history of depression or other mental illness;

“(D) alcohol or drug abuse;

“(E) health disparities;

“(F) stressful life events and losses;

“(G) easy access to lethal methods;

“(H) exposure to the suicidal behavior of others;

“(I) isolation; and

“(J) incarceration;

“(3) according to national data for 2005, suicide was the second-leading cause of death for Indians and Alaska Natives of both sexes aged 10 through 34;

“(4)(A) the suicide rates of Indian and Alaska Native males aged 15 through 24 are—

“(i) as compared to suicide rates of males of any other racial group, up to 4 times greater; and

“(ii) as compared to suicide rates of females of any other racial group, up to 11 times greater; and

“(B) data demonstrates that, over their lifetimes, females attempt suicide 2 to 3 times more often than males;

“(5)(A) Indian tribes, especially Indian tribes located in the Great Plains, have experienced epidemic levels of suicide, up to 10 times the national average; and

“(B) suicide clustering in Indian country affects entire tribal communities;

“(6) death rates for Indians and Alaska Natives are statistically underestimated because many areas of Indian country lack the proper resources to identify and monitor the presence of disease;

“(7)(A) the Indian Health Service experiences health professional shortages, with physician vacancy rates of approximately 17 percent, and nursing vacancy rates of approximately 18 percent, in 2007;

“(B) 90 percent of all teens who die by suicide suffer from a diagnosable mental illness at time of death;

“(C) more than ½ of teens who die by suicide have never been seen by a mental health provider; and

“(D) ½ of health needs in Indian country relate to mental health;

“(8) often, the lack of resources of Indian tribes and the remote nature of Indian reservations make it difficult to meet the re-

quirements necessary to access Federal assistance, including grants;

“(9) the Substance Abuse and Mental Health Services Administration and the Service have established specific initiatives to combat youth suicide in Indian country and among Indians and Alaska Natives throughout the United States, including the National Suicide Prevention Initiative of the Service, which has worked with Service, tribal, and urban Indian health programs since 2003;

“(10) the National Strategy for Suicide Prevention was established in 2001 through a Department of Health and Human Services collaboration among—

“(A) the Substance Abuse and Mental Health Services Administration;

“(B) the Service;

“(C) the Centers for Disease Control and Prevention;

“(D) the National Institutes of Health; and

“(E) the Health Resources and Services Administration; and

“(11) the Service and other agencies of the Department of Health and Human Services use information technology and other programs to address the suicide prevention and mental health needs of Indians and Alaska Natives.

“(b) PURPOSES.—The purposes of this subtitle are—

“(1) to authorize the Secretary to carry out a demonstration project to test the use of telemental health services in suicide prevention, intervention, and treatment of Indian youth, including through—

“(A) the use of psychotherapy, psychiatric assessments, diagnostic interviews, therapies for mental health conditions predisposing to suicide, and alcohol and substance abuse treatment;

“(B) the provision of clinical expertise to, consultation services with, and medical advice and training for frontline health care providers working with Indian youth;

“(C) training and related support for community leaders, family members, and health and education workers who work with Indian youth;

“(D) the development of culturally relevant educational materials on suicide; and

“(E) data collection and reporting;

“(2) to encourage Indian tribes, tribal organizations, and other mental health care providers serving residents of Indian country to obtain the services of predoctoral psychology and psychiatry interns; and

“(3) to enhance the provision of mental health care services to Indian youth through existing grant programs of the Substance Abuse and Mental Health Services Administration.

#### “SEC. 722. DEFINITIONS.

“In this subtitle:

“(1) ADMINISTRATION.—The term ‘Administration’ means the Substance Abuse and Mental Health Services Administration.

“(2) DEMONSTRATION PROJECT.—The term ‘demonstration project’ means the Indian youth telemental health demonstration project authorized under section 723(a).

“(3) TELEMENTAL HEALTH.—The term ‘telemental health’ means the use of electronic information and telecommunications technologies to support long-distance mental health care, patient and professional-related education, public health, and health administration.

#### “SEC. 723. INDIAN YOUTH TELEMENTAL HEALTH DEMONSTRATION PROJECT.

“(a) AUTHORIZATION.—

“(1) IN GENERAL.—The Secretary, acting through the Service, is authorized to carry

out a demonstration project to award grants for the provision of telemental health services to Indian youth who—

“(A) have expressed suicidal ideas;

“(B) have attempted suicide; or

“(C) have behavioral health conditions that increase or could increase the risk of suicide.

“(2) ELIGIBILITY FOR GRANTS.—Grants under paragraph (1) shall be awarded to Indian tribes and tribal organizations that operate 1 or more facilities—

“(A) located in an area with documented disproportionately high rates of suicide;

“(B) reporting active clinical telehealth capabilities; or

“(C) offering school-based telemental health services to Indian youth.

“(3) GRANT PERIOD.—The Secretary shall award grants under this section for a period of up to 4 years.

“(4) MAXIMUM NUMBER OF GRANTS.—Not more than 5 grants shall be provided under paragraph (1), with priority consideration given to Indian tribes and tribal organizations that—

“(A) serve a particular community or geographic area in which there is a demonstrated need to address Indian youth suicide;

“(B) enter into collaborative partnerships with Service or other tribal health programs or facilities to provide services under this demonstration project;

“(C) serve an isolated community or geographic area that has limited or no access to behavioral health services; or

“(D) operate a detention facility at which Indian youth are detained.

“(5) CONSULTATION WITH ADMINISTRATION.—In developing and carrying out the demonstration project under this subsection, the Secretary shall consult with the Administration as the Federal agency focused on mental health issues, including suicide.

“(b) USE OF FUNDS.—

“(1) IN GENERAL.—An Indian tribe or tribal organization shall use a grant received under subsection (a) for the following purposes:

“(A) To provide telemental health services to Indian youth, including the provision of—

“(i) psychotherapy;

“(ii) psychiatric assessments and diagnostic interviews, therapies for mental health conditions predisposing to suicide, and treatment; and

“(iii) alcohol and substance abuse treatment.

“(B) To provide clinician-interactive medical advice, guidance and training, assistance in diagnosis and interpretation, crisis counseling and intervention, and related assistance to Service or tribal clinicians and health services providers working with youth being served under the demonstration project.

“(C) To assist, educate, and train community leaders, health education professionals and paraprofessionals, tribal outreach workers, and family members who work with the youth receiving telemental health services under the demonstration project, including with identification of suicidal tendencies, crisis intervention and suicide prevention, emergency skill development, and building and expanding networks among those individuals and with State and local health services providers.

“(D) To develop and distribute culturally appropriate community educational materials regarding—

“(i) suicide prevention;

“(ii) suicide education;

“(iii) suicide screening;

“(iv) suicide intervention; and

“(v) ways to mobilize communities with respect to the identification of risk factors for suicide.

“(E) To conduct data collection and reporting relating to Indian youth suicide prevention efforts.

“(2) TRADITIONAL HEALTH CARE PRACTICES.—In carrying out the purposes described in paragraph (1), an Indian tribe or tribal organization may use and promote the traditional health care practices of the Indian tribes of the youth to be served.

“(c) APPLICATIONS.—

“(1) IN GENERAL.—Subject to paragraph (2), to be eligible to receive a grant under subsection (a), an Indian tribe or tribal organization shall prepare and submit to the Secretary an application, at such time, in such manner, and containing such information as the Secretary may require, including—

“(A) a description of the project that the Indian tribe or tribal organization will carry out using the funds provided under the grant;

“(B) a description of the manner in which the project funded under the grant would—

“(i) meet the telemental health care needs of the Indian youth population to be served by the project; or

“(ii) improve the access of the Indian youth population to be served to suicide prevention and treatment services;

“(C) evidence of support for the project from the local community to be served by the project;

“(D) a description of how the families and leadership of the communities or populations to be served by the project would be involved in the development and ongoing operations of the project;

“(E) a plan to involve the tribal community of the youth who are provided services by the project in planning and evaluating the behavioral health care and suicide prevention efforts provided, in order to ensure the integration of community, clinical, environmental, and cultural components of the treatment; and

“(F) a plan for sustaining the project after Federal assistance for the demonstration project has terminated.

“(2) EFFICIENCY OF GRANT APPLICATION PROCESS.—The Secretary shall carry out such measures as the Secretary determines to be necessary to maximize the time and workload efficiency of the process by which Indian tribes and tribal organizations apply for grants under paragraph (1).

“(d) COLLABORATION.—The Secretary, acting through the Service, shall encourage Indian tribes and tribal organizations receiving grants under this section to collaborate to enable comparisons regarding best practices across projects.

“(e) ANNUAL REPORT.—Each grant recipient shall submit to the Secretary an annual report that—

“(1) describes the number of telemental health services provided; and

“(2) includes any other information that the Secretary may require.

“(f) REPORTS TO CONGRESS.—

“(1) INITIAL REPORT.—

“(A) IN GENERAL.—Not later than 2 years after the date on which the first grant is awarded under this section, the Secretary shall submit to the Committee on Indian Affairs of the Senate and the Committee on Natural Resources and the Committee on Energy and Commerce of the House of Representatives a report that—

“(i) describes each project funded by a grant under this section during the preceding 2-year period, including a description

of the level of success achieved by the project; and

“(ii) evaluates whether the demonstration project should be continued during the period beginning on the date of termination of funding for the demonstration project under subsection (g) and ending on the date on which the final report is submitted under paragraph (2).

“(B) CONTINUATION OF DEMONSTRATION PROJECT.—On a determination by the Secretary under clause (ii) of subparagraph (A) that the demonstration project should be continued, the Secretary may carry out the demonstration project during the period described in that clause using such sums otherwise made available to the Secretary as the Secretary determines to be appropriate.

“(2) FINAL REPORT.—Not later than 270 days after the date of termination of funding for the demonstration project under subsection (g), the Secretary shall submit to the Committee on Indian Affairs of the Senate and the Committee on Natural Resources and the Committee on Energy and Commerce of the House of Representatives a final report that—

“(A) describes the results of the projects funded by grants awarded under this section, including any data available that indicate the number of attempted suicides;

“(B) evaluates the impact of the telemental health services funded by the grants in reducing the number of completed suicides among Indian youth;

“(C) evaluates whether the demonstration project should be—

“(i) expanded to provide more than 5 grants; and

“(ii) designated as a permanent program; and

“(D) evaluates the benefits of expanding the demonstration project to include urban Indian organizations.

“(g) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$1,500,000 for each of fiscal years 2010 through 2013.

#### “SEC. 724. SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION GRANTS.

“(a) GRANT APPLICATIONS.—

“(1) EFFICIENCY OF GRANT APPLICATION PROCESS.—The Secretary, acting through the Administration, shall carry out such measures as the Secretary determines to be necessary to maximize the time and workload efficiency of the process by which Indian tribes and tribal organizations apply for grants under any program administered by the Administration, including by providing methods other than electronic methods of submitting applications for those grants, if necessary.

“(2) PRIORITY FOR CERTAIN GRANTS.—

“(A) IN GENERAL.—To fulfill the trust responsibility of the United States to Indian tribes, in awarding relevant grants pursuant to a program described in subparagraph (B), the Secretary shall take into consideration the needs of Indian tribes or tribal organizations, as applicable, that serve populations with documented high suicide rates, regardless of whether those Indian tribes or tribal organizations possess adequate personnel or infrastructure to fulfill all applicable requirements of the relevant program.

“(B) DESCRIPTION OF GRANT PROGRAMS.—A grant program referred to in subparagraph (A) is a grant program—

“(i) administered by the Administration to fund activities relating to mental health, suicide prevention, or suicide-related risk factors; and

“(ii) under which an Indian tribe or tribal organization is an eligible recipient.

“(3) **CLARIFICATION REGARDING INDIAN TRIBES AND TRIBAL ORGANIZATIONS.**—Notwithstanding any other provision of law, in applying for a grant under any program administered by the Administration, no Indian tribe or tribal organization shall be required to apply through a State or State agency.

“(4) **REQUIREMENTS FOR AFFECTED STATES.**—

“(A) **DEFINITIONS.**—In this paragraph:

“(i) **AFFECTED STATE.**—The term ‘affected State’ means a State—

“(I) the boundaries of which include 1 or more Indian tribes; and

“(II) the application for a grant under any program administered by the Administration of which includes statewide data.

“(ii) **INDIAN POPULATION.**—The term ‘Indian population’ means the total number of residents of an affected State who are Indian.

“(B) **REQUIREMENTS.**—As a condition of receipt of a grant under any program administered by the Administration, each affected State shall—

“(i) describe in the grant application—

“(I) the Indian population of the affected State; and

“(II) the contribution of that Indian population to the statewide data used by the affected State in the application; and

“(ii) demonstrate to the satisfaction of the Secretary that—

“(I) of the total amount of the grant, the affected State will allocate for use for the Indian population of the affected State an amount equal to the proportion that—

“(aa) the Indian population of the affected State; bears to

“(bb) the total population of the affected State; and

“(II) the affected State will take reasonable efforts to collaborate with each Indian tribe located within the affected State to carry out youth suicide prevention and treatment measures for members of the Indian tribe.

“(C) **REPORT.**—Not later than 1 year after the date of receipt of a grant described in subparagraph (B), an affected State shall submit to the Secretary a report describing the measures carried out by the affected State to ensure compliance with the requirements of subparagraph (B)(ii).

“(b) **NO NON-FEDERAL SHARE REQUIREMENT.**—Notwithstanding any other provision of law, no Indian tribe or tribal organization shall be required to provide a non-Federal share of the cost of any project or activity carried out using a grant provided under any program administered by the Administration.

“(c) **OUTREACH FOR RURAL AND ISOLATED INDIAN TRIBES.**—Due to the rural, isolated nature of most Indian reservations and communities (especially those reservations and communities in the Great Plains region), the Secretary shall conduct outreach activities, with a particular emphasis on the provision of telemental health services, to achieve the purposes of this subtitle with respect to Indian tribes located in rural, isolated areas.

“(d) **PROVISION OF OTHER ASSISTANCE.**—

“(1) **IN GENERAL.**—The Secretary, acting through the Administration, shall carry out such measures (including monitoring and the provision of required assistance) as the Secretary determines to be necessary to ensure the provision of adequate suicide prevention and mental health services to Indian tribes described in paragraph (2), regardless of whether those Indian tribes possess adequate personnel or infrastructure—

“(A) to submit an application for a grant under any program administered by the Ad-

ministration, including due to problems relating to access to the Internet or other electronic means that may have resulted in previous obstacles to submission of a grant application; or

“(B) to fulfill all applicable requirements of the relevant program.

“(2) **DESCRIPTION OF INDIAN TRIBES.**—An Indian tribe referred to in paragraph (1) is an Indian tribe—

“(A) the members of which experience—

“(i) a high rate of youth suicide;

“(ii) low socioeconomic status; and

“(iii) extreme health disparity;

“(B) that is located in a remote and isolated area; and

“(C) that lacks technology and communication infrastructure.

“(3) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary such sums as the Secretary determines to be necessary to carry out this subsection.

“(e) **EARLY INTERVENTION AND ASSESSMENT SERVICES.**—

“(1) **DEFINITION OF AFFECTED ENTITY.**—In this subsection, the term ‘affected entity’ means any entity—

“(A) that receives a grant for suicide intervention, prevention, or treatment under a program administered by the Administration; and

“(B) the population to be served by which includes Indian youth.

“(2) **REQUIREMENT.**—The Secretary, acting through the Administration, shall ensure that each affected entity carrying out a youth suicide early intervention and prevention strategy described in section 520E(c)(1) of the Public Health Service Act (42 U.S.C. 290bb–36(c)(1)), or any other youth suicide-related early intervention and assessment activity, provides training or education to individuals who interact frequently with the Indian youth to be served by the affected entity (including parents, teachers, coaches, and mentors) on identifying warning signs of Indian youth who are at risk of committing suicide.

#### “SEC. 725. USE OF PREDOCTORAL PSYCHOLOGY AND PSYCHIATRY INTERNS.

“The Secretary shall carry out such activities as the Secretary determines to be necessary to encourage Indian tribes, tribal organizations, and other mental health care providers to obtain the services of predoctoral psychology and psychiatry interns—

“(1) to increase the quantity of patients served by the Indian tribes, tribal organizations, and other mental health care providers; and

“(2) for purposes of recruitment and retention.

#### “SEC. 726. INDIAN YOUTH LIFE SKILLS DEVELOPMENT DEMONSTRATION PROGRAM.

“(a) **PURPOSE.**—The purpose of this section is to authorize the Secretary, acting through the Administration, to carry out a demonstration program to test the effectiveness of a culturally compatible, school-based, life skills curriculum for the prevention of Indian and Alaska Native adolescent suicide, including through—

“(1) the establishment of tribal partnerships to develop and implement such a curriculum, in cooperation with—

“(A) behavioral health professionals, with a priority for tribal partnerships cooperating with mental health professionals employed by the Service;

“(B) tribal or local school agencies; and

“(C) parent and community groups;

“(2) the provision by the Administration or the Service of—

“(A) technical expertise; and

“(B) clinicians, analysts, and educators, as appropriate;

“(3) training for teachers, school administrators, and community members to implement the curriculum;

“(4) the establishment of advisory councils composed of parents, educators, community members, trained peers, and others to provide advice regarding the curriculum and other components of the demonstration program;

“(5) the development of culturally appropriate support measures to supplement the effectiveness of the curriculum; and

“(6) projects modeled after evidence-based projects, such as programs evaluated and published in relevant literature.

“(b) **DEMONSTRATION GRANT PROGRAM.**—

“(1) **DEFINITIONS.**—In this subsection:

“(A) **CURRICULUM.**—The term ‘curriculum’ means the culturally compatible, school-based, life skills curriculum for the prevention of Indian and Alaska Native adolescent suicide identified by the Secretary under paragraph (2)(A).

“(B) **ELIGIBLE ENTITY.**—The term ‘eligible entity’ means—

“(i) an Indian tribe;

“(ii) a tribal organization;

“(iii) any other tribally authorized entity; and

“(iv) any partnership composed of 2 or more entities described in clause (i), (ii), or (iii).

“(2) **ESTABLISHMENT.**—The Secretary, acting through the Administration, may establish and carry out a demonstration program under which the Secretary shall—

“(A) identify a culturally compatible, school-based, life skills curriculum for the prevention of Indian and Alaska Native adolescent suicide;

“(B) identify the Indian tribes that are at greatest risk for adolescent suicide;

“(C) invite those Indian tribes to participate in the demonstration program by—

“(i) responding to a comprehensive program requirement request of the Secretary; or

“(ii) submitting, through an eligible entity, an application in accordance with paragraph (4); and

“(D) provide grants to the Indian tribes identified under subparagraph (B) and eligible entities to implement the curriculum with respect to Indian and Alaska Native youths who—

“(i) are between the ages of 10 and 19; and

“(ii) attend school in a region that is at risk of high youth suicide rates, as determined by the Administration.

“(3) **REQUIREMENTS.**—

“(A) **TERM.**—The term of a grant provided under the demonstration program under this section shall be not less than 4 years.

“(B) **MAXIMUM NUMBER.**—The Secretary may provide not more than 5 grants under the demonstration program under this section.

“(C) **AMOUNT.**—The grants provided under this section shall be of equal amounts.

“(D) **CERTAIN SCHOOLS.**—In selecting eligible entities to receive grants under this section, the Secretary shall ensure that not less than 1 demonstration program shall be carried out at each of—

“(i) a school operated by the Bureau of Indian Education;

“(ii) a Tribal school; and

“(iii) a school receiving payments under section 8002 or 8003 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7702, 7703).

“(4) APPLICATIONS.—To be eligible to receive a grant under the demonstration program, an eligible entity shall submit to the Secretary an application, at such time, in such manner, and containing such information as the Secretary may require, including—

“(A) an assurance that, in implementing the curriculum, the eligible entity will collaborate with 1 or more local educational agencies, including elementary schools, middle schools, and high schools;

“(B) an assurance that the eligible entity will collaborate, for the purpose of curriculum development, implementation, and training and technical assistance, with 1 or more—

“(i) nonprofit entities with demonstrated expertise regarding the development of culturally sensitive, school-based, youth suicide prevention and intervention programs; or

“(ii) institutions of higher education with demonstrated interest and knowledge regarding culturally sensitive, school-based, life skills youth suicide prevention and intervention programs;

“(C) an assurance that the curriculum will be carried out in an academic setting in conjunction with at least 1 classroom teacher not less frequently than twice each school week for the duration of the academic year;

“(D) a description of the methods by which curriculum participants will be—

“(i) screened for mental health at-risk indicators; and

“(ii) if needed and on a case-by-case basis, referred to a mental health clinician for further assessment and treatment and with crisis response capability; and

“(E) an assurance that supportive services will be provided to curriculum participants identified as high-risk participants, including referral, counseling, and follow-up services for—

“(i) drug or alcohol abuse;

“(ii) sexual or domestic abuse; and

“(iii) depression and other relevant mental health concerns.

“(5) USE OF FUNDS.—An Indian tribe identified under paragraph (2)(B) or an eligible entity may use a grant provided under this subsection—

“(A) to develop and implement the curriculum in a school-based setting;

“(B) to establish an advisory council—

“(i) to advise the Indian tribe or eligible entity regarding curriculum development; and

“(ii) to provide support services identified as necessary by the community being served by the Indian tribe or eligible entity;

“(C) to appoint and train a school- and community-based cultural resource liaison, who will act as an intermediary among the Indian tribe or eligible entity, the applicable school administrators, and the advisory council established by the Indian tribe or eligible entity;

“(D) to establish an on-site, school-based, MA- or PhD-level mental health practitioner (employed by the Service, if practicable) to work with tribal educators and other personnel;

“(E) to provide for the training of peer counselors to assist in carrying out the curriculum;

“(F) to procure technical and training support from nonprofit or State entities or institutions of higher education identified by the community being served by the Indian tribe or eligible entity as the best suited to develop and implement the curriculum;

“(G) to train teachers and school administrators to effectively carry out the curriculum;

“(H) to establish an effective referral procedure and network;

“(I) to identify and develop culturally compatible curriculum support measures;

“(J) to obtain educational materials and other resources from the Administration or other appropriate entities to ensure the success of the demonstration program; and

“(K) to evaluate the effectiveness of the curriculum in preventing Indian and Alaska Native adolescent suicide.

“(c) EVALUATIONS.—Using such amounts made available pursuant to subsection (e) as the Secretary determines to be appropriate, the Secretary shall conduct, directly or through a grant, contract, or cooperative agreement with an entity that has experience regarding the development and operation of successful culturally compatible, school-based, life skills suicide prevention and intervention programs or evaluations, an annual evaluation of the demonstration program under this section, including an evaluation of—

“(1) the effectiveness of the curriculum in preventing Indian and Alaska Native adolescent suicide;

“(2) areas for program improvement; and

“(3) additional development of the goals and objectives of the demonstration program.

“(d) REPORT TO CONGRESS.—

“(1) IN GENERAL.—Subject to paragraph (2), not later than 180 days after the date of termination of the demonstration program, the Secretary shall submit to the Committee on Indian Affairs and the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Natural Resources and the Committee on Education and Labor of the House of Representatives a final report that—

“(A) describes the results of the program of each Indian tribe or eligible entity under this section;

“(B) evaluates the effectiveness of the curriculum in preventing Indian and Alaska Native adolescent suicide;

“(C) makes recommendations regarding—

“(i) the expansion of the demonstration program under this section to additional eligible entities;

“(ii) designating the demonstration program as a permanent program; and

“(iii) identifying and distributing the curriculum through the Suicide Prevention Resource Center of the Administration; and

“(D) incorporates any public comments received under paragraph (2).

“(2) PUBLIC COMMENT.—The Secretary shall provide a notice of the report under paragraph (1) and an opportunity for public comment on the report for a period of not less than 90 days before submitting the report to Congress.

“(e) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$1,000,000 for each of fiscal years 2010 through 2014.”

#### Subtitle H—Miscellaneous

#### SEC. 191. CONFIDENTIALITY OF MEDICAL QUALITY ASSURANCE RECORDS; QUALIFIED IMMUNITY FOR PARTICIPANTS.

Title VIII of the Indian Health Care Improvement Act (as amended by section 101(b)) is amended by inserting after section 804 (25 U.S.C. 1674) the following:

#### “SEC. 805. CONFIDENTIALITY OF MEDICAL QUALITY ASSURANCE RECORDS; QUALIFIED IMMUNITY FOR PARTICIPANTS.

“(a) DEFINITIONS.—In this section:

“(1) HEALTH CARE PROVIDER.—The term ‘health care provider’ means any health care professional, including community health

aides and practitioners certified under section 119, who is—

“(A) granted clinical practice privileges or employed to provide health care services at—

“(i) an Indian health program; or

“(ii) a health program of an urban Indian organization; and

“(B) licensed or certified to perform health care services by a governmental board or agency or professional health care society or organization.

“(2) MEDICAL QUALITY ASSURANCE PROGRAM.—The term ‘medical quality assurance program’ means any activity carried out before, on, or after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009 by or for any Indian health program or urban Indian organization to assess the quality of medical care, including activities conducted by or on behalf of individuals, Indian health program or urban Indian organization medical or dental treatment review committees, or other review bodies responsible for quality assurance, credentials, infection control, patient safety, patient care assessment (including treatment procedures, blood, drugs, and therapeutics), medical records, health resources management review, and identification and prevention of medical or dental incidents and risks.

“(3) MEDICAL QUALITY ASSURANCE RECORD.—The term ‘medical quality assurance record’ means the proceedings, records, minutes, and reports that—

“(A) emanate from quality assurance program activities described in paragraph (2); and

“(B) are produced or compiled by or for an Indian health program or urban Indian organization as part of a medical quality assurance program.

“(b) CONFIDENTIALITY OF RECORDS.—Medical quality assurance records created by or for any Indian health program or a health program of an urban Indian organization as part of a medical quality assurance program are confidential and privileged. Such records may not be disclosed to any person or entity, except as provided in subsection (d).

“(c) PROHIBITION ON DISCLOSURE AND TESTIMONY.—

“(1) IN GENERAL.—No part of any medical quality assurance record described in subsection (b) may be subject to discovery or admitted into evidence in any judicial or administrative proceeding, except as provided in subsection (d).

“(2) TESTIMONY.—An individual who reviews or creates medical quality assurance records for any Indian health program or urban Indian organization who participates in any proceeding that reviews or creates such records may not be permitted or required to testify in any judicial or administrative proceeding with respect to such records or with respect to any finding, recommendation, evaluation, opinion, or action taken by such person or body in connection with such records except as provided in this section.

“(d) AUTHORIZED DISCLOSURE AND TESTIMONY.—

“(1) IN GENERAL.—Subject to paragraph (2), a medical quality assurance record described in subsection (b) may be disclosed, and an individual referred to in subsection (c) may give testimony in connection with such a record, only as follows:

“(A) To a Federal agency or private organization, if such medical quality assurance record or testimony is needed by such agency or organization to perform licensing or

accreditation functions related to any Indian health program or to a health program of an urban Indian organization to perform monitoring, required by law, of such program or organization.

“(B) To an administrative or judicial proceeding commenced by a present or former Indian health program or urban Indian organization provider concerning the termination, suspension, or limitation of clinical privileges of such health care provider.

“(C) To a governmental board or agency or to a professional health care society or organization, if such medical quality assurance record or testimony is needed by such board, agency, society, or organization to perform licensing, credentialing, or the monitoring of professional standards with respect to any health care provider who is or was an employee of any Indian health program or urban Indian organization.

“(D) To a hospital, medical center, or other institution that provides health care services, if such medical quality assurance record or testimony is needed by such institution to assess the professional qualifications of any health care provider who is or was an employee of any Indian health program or urban Indian organization and who has applied for or been granted authority or employment to provide health care services in or on behalf of such program or organization.

“(E) To an officer, employee, or contractor of the Indian health program or urban Indian organization that created the records or for which the records were created. If that officer, employee, or contractor has a need for such record or testimony to perform official duties.

“(F) To a criminal or civil law enforcement agency or instrumentality charged under applicable law with the protection of the public health or safety, if a qualified representative of such agency or instrumentality makes a written request that such record or testimony be provided for a purpose authorized by law.

“(G) In an administrative or judicial proceeding commenced by a criminal or civil law enforcement agency or instrumentality referred to in subparagraph (F), but only with respect to the subject of such proceeding.

“(2) IDENTITY OF PARTICIPANTS.—With the exception of the subject of a quality assurance action, the identity of any person receiving health care services from any Indian health program or urban Indian organization or the identity of any other person associated with such program or organization for purposes of a medical quality assurance program that is disclosed in a medical quality assurance record described in subsection (b) shall be deleted from that record or document before any disclosure of such record is made outside such program or organization.

“(e) DISCLOSURE FOR CERTAIN PURPOSES.—

“(1) IN GENERAL.—Nothing in this section shall be construed as authorizing or requiring the withholding from any person or entity aggregate statistical information regarding the results of any Indian health program or urban Indian organization's medical quality assurance programs.

“(2) WITHHOLDING FROM CONGRESS.—Nothing in this section shall be construed as authority to withhold any medical quality assurance record from a committee of either House of Congress, any joint committee of Congress, or the Government Accountability Office if such record pertains to any matter within their respective jurisdictions.

“(f) PROHIBITION ON DISCLOSURE OF RECORD OR TESTIMONY.—An individual or entity hav-

ing possession of or access to a record or testimony described by this section may not disclose the contents of such record or testimony in any manner or for any purpose except as provided in this section.

“(g) EXEMPTION FROM FREEDOM OF INFORMATION ACT.—Medical quality assurance records described in subsection (b) may not be made available to any person under section 552 of title 5, United States Code.

“(h) LIMITATION ON CIVIL LIABILITY.—An individual who participates in or provides information to a person or body that reviews or creates medical quality assurance records described in subsection (b) shall not be civilly liable for such participation or for providing such information if the participation or provision of information was in good faith based on prevailing professional standards at the time the medical quality assurance program activity took place.

“(i) APPLICATION TO INFORMATION IN CERTAIN OTHER RECORDS.—Nothing in this section shall be construed as limiting access to the information in a record created and maintained outside a medical quality assurance program, including a patient's medical records, on the grounds that the information was presented during meetings of a review body that are part of a medical quality assurance program.

“(j) REGULATIONS.—The Secretary, acting through the Service, shall promulgate regulations pursuant to section 802.

“(k) CONTINUED PROTECTION.—Disclosure under subsection (d) does not permit redisclosure except to the extent such further disclosure is authorized under subsection (d) or is otherwise authorized to be disclosed under this section.

“(l) INCONSISTENCIES.—To the extent that the protections under part C of title IX of the Public Health Service Act (42 U.S.C. 229b–21 et seq.) (as amended by the Patient Safety and Quality Improvement Act of 2005 (Public Law 109–41; 119 Stat. 424)) and this section are inconsistent, the provisions of whichever is more protective shall control.

“(m) RELATIONSHIP TO OTHER LAW.—This section shall continue in force and effect, except as otherwise specifically provided in any Federal law enacted after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009.”.

#### **SEC. 192. ARIZONA, NORTH DAKOTA, AND SOUTH DAKOTA AS CONTRACT HEALTH SERVICE DELIVERY AREAS; ELIGIBILITY OF CALIFORNIA INDIANS.**

Title VIII of the Indian Health Care Improvement Act is amended—

(1) by striking section 808 (25 U.S.C. 1678) and inserting the following:

#### **“SEC. 808. ARIZONA AS CONTRACT HEALTH SERVICE DELIVERY AREA.**

“(a) IN GENERAL.—The State of Arizona shall be designated as a contract health service delivery area by the Service for the purpose of providing contract health care services to members of Indian tribes in the State of Arizona.

“(b) MAINTENANCE OF SERVICES.—The Service shall not curtail any health care services provided to Indians residing on reservations in the State of Arizona if the curtailment is due to the provision of contract services in that State pursuant to the designation of the State as a contract health service delivery area by subsection (a).”.

(2) by inserting after section 808 (25 U.S.C. 1678) the following:

#### **“SEC. 808A. NORTH DAKOTA AND SOUTH DAKOTA AS CONTRACT HEALTH SERVICE DELIVERY AREA.**

“(a) IN GENERAL.—The States of North Dakota and South Dakota shall be designated

as a contract health service delivery area by the Service for the purpose of providing contract health care services to members of Indian tribes in the States of North Dakota and South Dakota.

“(b) MAINTENANCE OF SERVICES.—The Service shall not curtail any health care services provided to Indians residing on any reservation, or in any county that has a common boundary with any reservation, in the State of North Dakota or South Dakota if the curtailment is due to the provision of contract services in those States pursuant to the designation of the States as a contract health service delivery area by subsection (a).”.

(3) by striking section 809 (25 U.S.C. 1679) and inserting the following:

#### **“SEC. 809. ELIGIBILITY OF CALIFORNIA INDIANS.**

“(a) IN GENERAL.—The following California Indians shall be eligible for health services provided by the Service:

“(1) Any member of a federally recognized Indian tribe.

“(2) Any descendant of an Indian who was residing in California on June 1, 1852, if such descendant—

“(A) is a member of the Indian community served by a local program of the Service; and

“(B) is regarded as an Indian by the community in which such descendant lives.

“(3) Any Indian who holds trust interests in public domain, national forest, or reservation allotments in California.

“(4) Any Indian of California who is listed on the plans for distribution of the assets of rancherias and reservations located within the State of California under the Act of August 18, 1958 (72 Stat. 619), and any descendant of such an Indian.

“(b) CLARIFICATION.—Nothing in this section may be construed as expanding the eligibility of California Indians for health services provided by the Service beyond the scope of eligibility for such health services that applied on May 1, 1986.”.

#### **SEC. 193. METHODS TO INCREASE ACCESS TO PROFESSIONALS OF CERTAIN CORPS.**

Section 812 of the Indian Health Care Improvement Act (25 U.S.C. 1680b) is amended to read as follows:

#### **“SEC. 812. NATIONAL HEALTH SERVICE CORPS.**

“(a) NO REDUCTION IN SERVICES.—The Secretary shall not remove a member of the National Health Service Corps from an Indian health program or urban Indian organization or withdraw funding used to support such a member, unless the Secretary, acting through the Service, has ensured that the Indians receiving services from the member will experience no reduction in services.

“(b) TREATMENT OF INDIAN HEALTH PROGRAMS.—At the request of an Indian health program, the services of a member of the National Health Service Corps assigned to the Indian health program may be limited to the individuals who are eligible for services from that Indian health program.”.

#### **SEC. 194. HEALTH SERVICES FOR INELIGIBLE PERSONS.**

Section 813 of the Indian Health Care Improvement Act (25 U.S.C. 1680c) is amended to read as follows:

#### **“SEC. 813. HEALTH SERVICES FOR INELIGIBLE PERSONS.**

“(a) CHILDREN.—Any individual who—

“(1) has not attained 19 years of age;

“(2) is the natural or adopted child, stepchild, foster child, legal ward, or orphan of an eligible Indian; and

“(3) is not otherwise eligible for health services provided by the Service,

shall be eligible for all health services provided by the Service on the same basis and

subject to the same rules that apply to eligible Indians until such individual attains 19 years of age. The existing and potential health needs of all such individuals shall be taken into consideration by the Service in determining the need for, or the allocation of, the health resources of the Service. If such an individual has been determined to be legally incompetent prior to attaining 19 years of age, such individual shall remain eligible for such services until 1 year after the date of a determination of competency.

“(b) SPOUSES.—Any spouse of an eligible Indian who is not an Indian, or who is of Indian descent but is not otherwise eligible for the health services provided by the Service, shall be eligible for such health services if all such spouses or spouses who are married to members of each Indian tribe being served are made eligible, as a class, by an appropriate resolution of the governing body of the Indian tribe or tribal organization providing such services. The health needs of persons made eligible under this paragraph shall not be taken into consideration by the Service in determining the need for, or allocation of, its health resources.

“(c) HEALTH FACILITIES PROVIDING HEALTH SERVICES.—

“(1) IN GENERAL.—The Secretary is authorized to provide health services under this subsection through health facilities operated directly by the Service to individuals who reside within the Service unit and who are not otherwise eligible for such health services if—

“(A) the Indian tribes served by such Service unit requests such provision of health services to such individuals, and

“(B) the Secretary and the served Indian tribes have jointly determined that the provision of such health services will not result in a denial or diminution of health services to eligible Indians.

“(2) ISDEAA PROGRAMS.—In the case of health facilities operated under a contract or compact entered into under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), the governing body of the Indian tribe or tribal organization providing health services under such contract or compact is authorized to determine whether health services should be provided under such contract or compact to individuals who are not eligible for such health services under any other subsection of this section or under any other provision of law. In making such determinations, the governing body of the Indian tribe or tribal organization shall take into account the consideration described in paragraph (1)(B). Any services provided by the Indian tribe or tribal organization pursuant to a determination made under this subparagraph shall be deemed to be provided under the agreement entered into by the Indian tribe or tribal organization under the Indian Self-Determination and Education Assistance Act. The provisions of section 314 of Public Law 101-512 (104 Stat. 1959), as amended by section 308 of Public Law 103-138 (107 Stat. 1416), shall apply to any services provided by the Indian tribe or tribal organization pursuant to a determination made under this subparagraph.

“(3) PAYMENT FOR SERVICES.—

“(A) IN GENERAL.—Persons receiving health services provided by the Service under this subsection shall be liable for payment of such health services under a schedule of charges prescribed by the Secretary which, in the judgment of the Secretary, results in reimbursement in an amount not less than the actual cost of providing the health services. Notwithstanding section 207 of this Act

or any other provision of law, amounts collected under this subsection, including Medicare, Medicaid, or children's health insurance program reimbursements under titles XVIII, XIX, and XXI of the Social Security Act (42 U.S.C. 1395 et seq.), shall be credited to the account of the program providing the service and shall be used for the purposes listed in section 401(d)(2) and amounts collected under this subsection shall be available for expenditure within such program.

“(B) INDIGENT PEOPLE.—Health services may be provided by the Secretary through the Service under this subsection to an indigent individual who would not be otherwise eligible for such health services but for the provisions of paragraph (1) only if an agreement has been entered into with a State or local government under which the State or local government agrees to reimburse the Service for the expenses incurred by the Service in providing such health services to such indigent individual.

“(4) REVOCATION OF CONSENT FOR SERVICES.—

“(A) SINGLE TRIBE SERVICE AREA.—In the case of a Service Area which serves only 1 Indian tribe, the authority of the Secretary to provide health services under paragraph (1) shall terminate at the end of the fiscal year succeeding the fiscal year in which the governing body of the Indian tribe revokes its concurrence to the provision of such health services.

“(B) MULTITRIBAL SERVICE AREA.—In the case of a multitribal Service Area, the authority of the Secretary to provide health services under paragraph (1) shall terminate at the end of the fiscal year succeeding the fiscal year in which at least 51 percent of the number of Indian tribes in the Service Area revoke their concurrence to the provisions of such health services.

“(d) OTHER SERVICES.—The Service may provide health services under this subsection to individuals who are not eligible for health services provided by the Service under any other provision of law in order to—

“(1) achieve stability in a medical emergency;

“(2) prevent the spread of a communicable disease or otherwise deal with a public health hazard;

“(3) provide care to non-Indian women pregnant with an eligible Indian's child for the duration of the pregnancy through postpartum; or

“(4) provide care to immediate family members of an eligible individual if such care is directly related to the treatment of the eligible individual.

“(e) HOSPITAL PRIVILEGES FOR PRACTITIONERS.—

“(1) IN GENERAL.—Hospital privileges in health facilities operated and maintained by the Service or operated under a contract or compact pursuant to the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) may be extended to non-Service health care practitioners who provide services to individuals described in subsection (a), (b), (c), or (d). Such non-Service health care practitioners may, as part of the privileging process, be designated as employees of the Federal Government for purposes of section 1346(b) and chapter 171 of title 28, United States Code (relating to Federal tort claims) only with respect to acts or omissions which occur in the course of providing services to eligible individuals as a part of the conditions under which such hospital privileges are extended.

“(2) DEFINITION.—For purposes of this subsection, the term ‘non-Service health care

practitioner’ means a practitioner who is not—

“(A) an employee of the Service; or

“(B) an employee of an Indian tribe or tribal organization operating a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) or an individual who provides health care services pursuant to a personal services contract with such Indian tribe or tribal organization.

“(f) ELIGIBLE INDIAN.—For purposes of this section, the term ‘eligible Indian’ means any Indian who is eligible for health services provided by the Service without regard to the provisions of this section.”.

#### SEC. 195. ANNUAL BUDGET SUBMISSION.

Title VIII of the Indian Health Care Improvement Act (25 U.S.C. 1671 et seq.) is amended by adding at the end the following:

##### “SEC. 826. ANNUAL BUDGET SUBMISSION.

“Effective beginning with the submission of the annual budget request to Congress for fiscal year 2011, the President shall include, in the amount requested and the budget justification, amounts that reflect any changes in—

“(1) the cost of health care services, as indexed for United States dollar inflation (as measured by the Consumer Price Index); and

“(2) the size of the population served by the Service.”.

#### SEC. 196. PRESCRIPTION DRUG MONITORING.

Title VIII of the Indian Health Care Improvement Act (25 U.S.C. 1671 et seq.) (as amended by section 195) is amended by adding at the end the following:

##### “SEC. 827. PRESCRIPTION DRUG MONITORING.

“(a) MONITORING.—

“(1) ESTABLISHMENT.—The Secretary, in coordination with the Secretary of the Interior and the Attorney General, shall establish a prescription drug monitoring program, to be carried out at health care facilities of the Service, tribal health care facilities, and urban Indian health care facilities.

“(2) REPORT.—Not later than 18 months after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Secretary shall submit to the Committee on Indian Affairs of the Senate and the Committee on Natural Resources of the House of Representatives a report that describes—

“(A) the needs of the Service, tribal health care facilities, and urban Indian health care facilities with respect to the prescription drug monitoring program under paragraph (1);

“(B) the planned development of that program, including any relevant statutory or administrative limitations; and

“(C) the means by which the program could be carried out in coordination with any State prescription drug monitoring program.

“(b) ABUSE.—

“(1) IN GENERAL.—The Attorney General, in conjunction with the Secretary and the Secretary of the Interior, shall conduct—

“(A) an assessment of the capacity of, and support required by, relevant Federal and tribal agencies—

“(i) to carry out data collection and analysis regarding incidents of prescription drug abuse in Indian communities; and

“(ii) to exchange among those agencies and Indian health programs information relating to prescription drug abuse in Indian communities, including statutory and administrative requirements and limitations relating to that abuse; and

“(B) training for Indian health care providers, tribal leaders, law enforcement officers, and school officials regarding awareness and prevention of prescription drug abuse and strategies for improving agency responses to addressing prescription drug abuse in Indian communities.

“(2) REPORT.—Not later than 18 months after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Attorney General shall submit to the Committee on Indian Affairs of the Senate and the Committee on Natural Resources of the House of Representatives a report that describes—

“(A) the capacity of Federal and tribal agencies to carry out data collection and analysis and information exchanges as described in paragraph (1)(A);

“(B) the training conducted pursuant to paragraph (1)(B);

“(C) infrastructure enhancements required to carry out the activities described in paragraph (1), if any; and

“(D) any statutory or administrative barriers to carrying out those activities.”.

#### **SEC. 197. TRIBAL HEALTH PROGRAM OPTION FOR COST SHARING.**

Title VIII of the Indian Health Care Improvement Act (25 U.S.C. 1671 et seq.) (as amended by section 196) is amended by adding at the end the following:

#### **“SEC. 828. TRIBAL HEALTH PROGRAM OPTION FOR COST SHARING.**

“(a) IN GENERAL.—Nothing in this Act limits the ability of a tribal health program operating any health program, service, function, activity, or facility funded, in whole or part, by the Service through, or provided for in, a compact with the Service pursuant to title V of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 458aaa et seq.) to charge an Indian for services provided by the tribal health program.

“(b) SERVICE.—Nothing in this Act authorizes the Service—

“(1) to charge an Indian for services; or

“(2) to require any tribal health program to charge an Indian for services.”.

#### **SEC. 198. DISEASE AND INJURY PREVENTION REPORT.**

Title VIII of the Indian Health Care Improvement Act (25 U.S.C. 1671 et seq.) (as amended by section 197) is amended by adding at the end the following:

#### **“SEC. 829. DISEASE AND INJURY PREVENTION REPORT.**

“Not later than 18 months after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Secretary shall submit to the Committee on Indian Affairs of the Senate and the Committees on Natural Resources and Energy and Commerce of the House of Representatives describing—

“(1) all disease and injury prevention activities conducted by the Service, independently or in conjunction with other Federal departments and agencies and Indian tribes; and

“(2) the effectiveness of those activities, including the reductions of injury or disease conditions achieved by the activities.”.

#### **SEC. 199. OTHER GAO REPORTS.**

Title VIII of the Indian Health Care Improvement Act (25 U.S.C. 1671 et seq.) (as amended by section 198) is amended by adding at the end the following:

#### **“SEC. 830. OTHER GAO REPORTS.**

“(a) COORDINATION OF SERVICES.—

“(1) STUDY AND EVALUATION.—The Comptroller General of the United States shall conduct a study, and evaluate the effective-

ness, of coordination of health care services provided to Indians—

“(A) through Medicare, Medicaid, or SCHIP;

“(B) by the Service; or

“(C) using funds provided by—

“(i) State or local governments; or

“(ii) Indian tribes.

“(2) REPORT.—Not later than 18 months after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Comptroller General shall submit to Congress a report—

“(A) describing the results of the evaluation under paragraph (1); and

“(B) containing recommendations of the Comptroller General regarding measures to support and increase coordination of the provision of health care services to Indians as described in paragraph (1).

“(b) PAYMENTS FOR CONTRACT HEALTH SERVICES.—

“(1) IN GENERAL.—The Comptroller General shall conduct a study on the use of health care furnished by health care providers under the contract health services program funded by the Service and operated by the Service, an Indian tribe, or a tribal organization.

“(2) ANALYSIS.—The study conducted under paragraph (1) shall include an analysis of—

“(A) the amounts reimbursed under the contract health services program described in paragraph (1) for health care furnished by entities, individual providers, and suppliers, including a comparison of reimbursement for that health care through other public programs and in the private sector;

“(B) barriers to accessing care under such contract health services program, including barriers relating to travel distances, cultural differences, and public and private sector reluctance to furnish care to patients under the program;

“(C) the adequacy of existing Federal funding for health care under the contract health services program;

“(D) the administration of the contract health service program, including the distribution of funds to Indian health programs pursuant to the program; and

“(E) any other items determined appropriate by the Comptroller General.

“(3) REPORT.—Not later than 18 months after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, the Comptroller General shall submit to Congress a report on the study conducted under paragraph (1), together with recommendations regarding—

“(A) the appropriate level of Federal funding that should be established for health care under the contract health services program described in paragraph (1);

“(B) how to most efficiently use that funding; and

“(C) the identification of any inequities in the current distribution formula or inequitable results for any Indian tribe under the funding level, and any recommendations for addressing any inequities or inequitable results identified.

“(4) CONSULTATION.—In conducting the study under paragraph (1) and preparing the report under paragraph (3), the Comptroller General shall consult with the Service, Indian tribes, and tribal organizations.”.

#### **SEC. 199A. TRADITIONAL HEALTH CARE PRACTICES.**

Title VIII of the Indian Health Care Improvement Act (25 U.S.C. 1671 et seq.) (as amended by section 199) is amended by adding at the end the following:

#### **“SEC. 831. TRADITIONAL HEALTH CARE PRACTICES.**

“Although the Secretary may promote traditional health care practices, consistent with the Service standards for the provision of health care, health promotion, and disease prevention under this Act, the United States is not liable for any provision of traditional health care practices pursuant to this Act that results in damage, injury, or death to a patient. Nothing in this subsection shall be construed to alter any liability or other obligation that the United States may otherwise have under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) or this Act.”.

#### **SEC. 199B. DIRECTOR OF HIV/AIDS PREVENTION AND TREATMENT.**

Title VIII of the Indian Health Care Improvement Act (25 U.S.C. 1671 et seq.) (as amended by section 199A) is amended by adding at the end the following:

#### **“SEC. 832. DIRECTOR OF HIV/AIDS PREVENTION AND TREATMENT.**

“(a) ESTABLISHMENT.—The Secretary, acting through the Service, shall establish within the Service the position of the Director of HIV/AIDS Prevention and Treatment (referred to in this section as the ‘Director’).

“(b) DUTIES.—The Director shall—

“(1) coordinate and promote HIV/AIDS prevention and treatment activities specific to Indians;

“(2) provide technical assistance to Indian tribes, tribal organizations, and urban Indian organizations regarding existing HIV/AIDS prevention and treatment programs; and

“(3) ensure interagency coordination to facilitate the inclusion of Indians in Federal HIV/AIDS research and grant opportunities, with emphasis on the programs operated under the Ryan White Comprehensive Aids Resources Emergency Act of 1990 (Public Law 101-381; 104 Stat. 576) and the amendments made by that Act.

“(c) REPORT.—Not later than 2 years after the date of enactment of the Indian Health Care Improvement Reauthorization and Extension Act of 2009, and not less frequently than once every 2 years thereafter, the Director shall submit to Congress a report describing, with respect to the preceding 2-year period—

“(1) each activity carried out under this section; and

“(2) any findings of the Director with respect to HIV/AIDS prevention and treatment activities specific to Indians.”.

#### **TITLE II—AMENDMENTS TO OTHER ACTS**

#### **SEC. 201. MEDICARE AMENDMENTS.**

(a) IN GENERAL.—Section 1880 of the Social Security Act (42 U.S.C. 1395qq) is amended—

(1) by redesignating subsection (f) as subsection (g); and

(2) by inserting after subsection (e) the following:

“(f) PROHIBITION.—Payments made pursuant to this section shall not be reduced as a result of any beneficiary deductible, coinsurance, or other charge under section 1813.”.

(b) PAYMENT OF BENEFITS.—Section 1833(a)(1)(B) of the Social Security Act (42 U.S.C. 1395f(a)(1)(B)) is amended by inserting “or 1880(e)” after “section 1861(s)(10)(A)”.

#### **SEC. 202. REAUTHORIZATION OF NATIVE HAWAIIAN HEALTH CARE PROGRAMS.**

(a) REAUTHORIZATION.—The Native Hawaiian Health Care Act of 1988 (42 U.S.C. 11701 et seq.) is amended by striking “2001” each place it appears in sections 6(h)(1), 7(b), and 10(c) (42 U.S.C. 11705(h)(1), 11706(b), 11709(c)) and inserting “2019”.

(b) HEALTH AND EDUCATION.—

(1) IN GENERAL.—Section 6(c) of the Native Hawaiian Health Care Act of 1988 (42 U.S.C.

11705) is amended by adding at the end the following:

“(4) **HEALTH AND EDUCATION.**—In order to enable privately funded organizations to continue to supplement public efforts to provide educational programs designed to improve the health, capability, and well-being of Native Hawaiians and to continue to provide health services to Native Hawaiians, notwithstanding any other provision of Federal or State law, it shall be lawful for the private educational organization identified in section 7202(16) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7512(16)) to continue to offer its educational programs and services to Native Hawaiians (as defined in section 7207 of that Act (20 U.S.C. 7517)) first and to others only after the need for such programs and services by Native Hawaiians has been met.”.

(2) **EFFECTIVE DATE.**—The amendment made by paragraph (1) takes effect on December 5, 2006.

(c) **DEFINITION OF HEALTH PROMOTION.**—Section 12(2) of the Native Hawaiian Health Care Act of 1988 (42 U.S.C. 11711(2)) is amended—

(1) in subparagraph (F), by striking “and” at the end;

(2) in subparagraph (G), by striking the period at the end and inserting “, and”; and

(3) by adding at the end the following:

“(H) educational programs with the mission of improving the health, capability, and well-being of Native Hawaiians.”.

#### PRIVILEGES OF THE FLOOR

Mr. BAUCUS. Mr. President, I ask unanimous consent that Sarah Allen, Ryan Nalty, and Grant Jamieson, staff of the Finance Committee, be granted the privilege of the floor for the duration of debate on the health care bill.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. BAUCUS. Mr. President, I ask unanimous consent that Sara Velde of Senator HARKIN's staff be granted the privilege of the floor during the duration of today's session.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### DISCHARGE AND REFERRAL— S. 2129

Mr. BAUCUS. I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs be discharged from further consideration of S. 2129 and the bill be referred to the Committee on Environment and Public Works.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### SUPPORTING PEACE, SECURITY, AND INNOCENT CIVILIANS AF- FECTED BY CONFLICT IN YEMEN

Mr. BAUCUS. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 212, S. Res. 341.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 341) supporting peace, security, and innocent civilians affected by conflict in Yemen.

There being no objection, the Senate proceeded to consider the resolution.

Mr. BAUCUS. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no intervening action or debate, and any statements relating to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 341) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

#### S. RES. 341

Whereas the people and Government of Yemen currently face tremendous security challenges, including the presence of a substantial number of al Qaeda militants, a rebellion in the northern part of the country, unrest in southern regions, and piracy in the Gulf of Aden;

Whereas these security challenges are compounded by a lack of governance throughout portions of the country;

Whereas this lack of governance creates a de facto safe haven for al Qaeda and militant forces in regions of Yemen;

Whereas Yemen also faces significant development challenges, reflected in its ranking of 140 out of 182 countries in the United Nations Development Program's 2009 Human Development Index;

Whereas Yemen is also confronted with limited and rapidly depleting natural resources, including oil, which accounts for over 75 percent of government revenue, and water, ⅓ of which goes to the cultivation of qat, a narcotic to which a vast number of Yemenis are addicted;

Whereas government subsidies are contributing to the depletion of Yemen's scarce resources;

Whereas the people of Yemen suffer from a lack of certain government services, including a robust education and skills training system;

Whereas the Department of State's 2009 International Religious Freedom Report notes that nearly all of the once-sizeable Jewish population in Yemen has emigrated, and, based on fears for the Jewish community's safety in the country, the United States Government has initiated a special process to refer Yemeni Jews for refugee resettlement in the United States;

Whereas women in Yemen have faced entrenched discrimination, obstacles in accessing basic education, and gender-based violence in their homes, communities, and workplaces while little is done to enforce or bolster the equality of women;

Whereas these challenges pose a threat not only to the Republic of Yemen, but to the region and to the national security of the United States;

Whereas, to the extent that Yemen serves as a base for terrorist operations and recruitment, these threats must be given sufficient consideration in the global strategy of the United States to combat terrorism;

Whereas this threat has materialized in the past, including the March 18 and September 17, 2008, attacks on the United States Embassy in Sana'a and the October 12, 2000,

attack on the U.S.S. Cole while it was anchored in the Port of Aden, as well as numerous other terrorist attacks;

Whereas the population of Yemen has suffered greatly from conflict and underdevelopment in Yemen;

Whereas up to 150,000 civilians have fled their homes in northern Yemen since 2004 in response to conflict between Government of Yemen forces and al-Houthi rebel forces; and

Whereas the people and Government of the United States support peace in Yemen and improved security, economic development, and basic human rights for the people of Yemen: Now, therefore, be it

*Resolved*, That the Senate—

(1) supports the innocent civilians in Yemen, especially displaced persons, who have suffered from instability, terrorist operations, and chronic underdevelopment in Yemen;

(2) recognizes the serious threat instability and terrorism in Yemen pose to the security of the United States, the region, and the population in Yemen;

(3) calls on the President to give sufficient weight to the situation in Yemen in efforts to prevent terrorist attacks on the United States, United States allies, and Yemeni civilians;

(4) calls on the President to promote economic and political reforms necessary to advance economic development and good governance in Yemen;

(5) applauds steps that have been taken by the President and the United Nations High Commissioner for Refugees to assist displaced persons in Yemen;

(6) urges the Government of Yemen and rebel forces to immediately halt hostilities, allow medical and humanitarian aid to reach civilians displaced by conflict, and create an environment that will enable a return to normal life for those displaced by the conflict; and

(7) calls on the President and international community to use all appropriate measures to assist the people of Yemen to prevent Yemen from becoming a failed state.

#### RELATIVE TO THE DEATH OF FORMER SENATOR PAULA F. HAWKINS

Mr. BAUCUS. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of S. Res. 370, submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 370) relative to the death of Paula F. Hawkins, former United States Senator for the State of Florida.

There being no objection, the Senate proceeded to consider the resolution.

Mr. LEMIEUX. Mr. President, I rise to express my sorrow at the passing of former U.S. Senator Paula Hawkins and to pay tribute to her long life and groundbreaking career of public service.

A resident of central Florida, Paula Hawkins began her political career in 1972 when she was elected to Florida's Public Services Commission where she served for two consecutive terms and worked to become a vibrant voice for consumers.

Paula Hawkins aspired to continue her public service by running for higher office, first for the U.S. Senate in 1974, and then for Lieutenant Governor in 1978. Though both times she lost the race, she never gave up and never lost the desire to continue working for Floridians.

Paula made history in 1980 when she became the first woman from Florida to be elected to the U.S. Senate and the first woman from Florida to be elected to Federal office.

During her tenure in the Senate, Senator Hawkins became an outspoken champion for America's victimized children and brought a special focus to the problem of child abduction. Driven by the disappearance of 6-year-old Florida resident Adam Walsh, Senator Hawkins ushered passage of landmark legislation focusing on the issue of missing children. Her work would ultimately help to establish the National Center for Missing & Exploited Children. She also supported a special unit at the Federal Bureau of Investigation that would focus solely on profiling serial killers.

Though I am saddened by her passing, I am honored today to serve in the same class as Senator Hawkins—a seat she held before being succeeded by former Senator Bob Graham, and my predecessor, Senator Mel Martinez.

The citizens of our United States owe a debt of gratitude to this great Floridian and we shall not soon forget the work of Senator Hawkins.

Mr. BAUCUS. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motions to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 370) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

#### S. RES. 370

Whereas Paula F. Hawkins was a staunch consumer advocate and served the citizens of the State of Florida on its Public Service Commission for seven years, serving as its Chairman for three years;

Whereas Paula F. Hawkins was instrumental in passing the Missing Children's Assistance Act of 1984 and worked to help establish the National Center for Missing and Exploited Children;

Whereas Paula F. Hawkins served the people of Florida with distinction for 6 years in the United States Senate;

*Resolved*, That the Senate has heard with profound sorrow and deep regret the announcement of the death of the Honorable Paula F. Hawkins, former member of the United States Senate.

*Resolved*, That the Secretary of the Senate communicate these resolutions to the House of Representatives and transmit an enrolled copy thereof to the family of the deceased.

*Resolved*, That when the Senate adjourns today, it stand adjourned as a further mark of respect to the memory of the Honorable Paula F. Hawkins.

#### ORDERS FOR SATURDAY, DECEMBER 5, 2009

Mr. BAUCUS. I ask unanimous consent that when the Senate completes its business today, it adjourn until 10 a.m. on Saturday, December 5; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and the Senate resume consideration of H.R. 3590, the health care reform legislation, with the first 3 hours following any leader remarks equally divided between the two leaders or their designees and controlled in 45-minute alternating blocks of time, with the majority controlling the first block, and with no other motions or amendments in order during the controlled time.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### PROGRAM

Mr. BAUCUS. Mr. President, Senators should expect rollcall votes tomorrow afternoon. There will be no rollcall votes prior to 1 p.m.

#### ADJOURNMENT UNTIL 10 A.M. TOMORROW

Mr. BAUCUS. If there is no further business to come before the Senate, I ask unanimous consent that it adjourn under the provisions of S. Res. 370, as a further mark of respect to the memory of the late Paula Hawkins, a former Senator from the State of Florida.

Thereupon, the Senate, at 6:50 p.m., adjourned until Saturday, December 5, 2009, at 10 a.m.

#### NOMINATIONS

Executive nominations received by the Senate:

##### DEPARTMENT OF TRANSPORTATION

DAVID L. STRICKLAND, OF GEORGIA, TO BE ADMINISTRATOR OF THE NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, VICE NICOLE R. NASON, RESIGNED.

##### TENNESSEE VALLEY AUTHORITY

WILLIAM B. SANSOM, OF TENNESSEE, TO BE A MEMBER OF THE BOARD OF DIRECTORS OF THE TENNESSEE VALLEY AUTHORITY FOR A TERM EXPIRING MAY 18, 2014. (RE-APPOINTMENT)

##### DEPARTMENT OF STATE

JUDITH ANN STEWART STOCK, OF VIRGINIA, TO BE AN ASSISTANT SECRETARY OF STATE (EDUCATIONAL AND CULTURAL AFFAIRS), VICE GOLI AMERI, RESIGNED.

##### IN THE ARMY

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT IN THE UNITED STATES ARMY TO THE GRADE INDICATED UNDER TITLE 10, U.S.C., SECTION 624:

##### *To be major general*

BRIG. GEN. MARY A. LEGERE

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT IN THE UNITED STATES ARMY TO THE GRADE INDICATED WHILE ASSIGNED TO A POSITION OF IMPORTANCE AND RESPONSIBILITY UNDER TITLE 10, U.S.C., SECTION 601:

##### *To be lieutenant general*

MAJ. GEN. THOMAS P. BOSTICK

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT IN THE UNITED STATES ARMY TO THE GRADE INDICATED WHILE ASSIGNED TO A POSITION OF IMPORTANCE AND RESPONSIBILITY UNDER TITLE 10, U.S.C., SECTION 601:

##### *To be lieutenant general*

MAJ. GEN. ROBERT L. CASLEN, JR.

**SENATE—Saturday, December 5, 2009**

The Senate met at 10 a.m. and was called to order by the Honorable AL FRANKEN, a Senator from the State of Minnesota.

**PRAYER**

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Eternal God, who is without beginning or end of days, You count the nations as the dust of the balance. Use our lawmakers today to unleash freedom's might against evils that enslave people. Make our Senators such faithful servants of human needs and the common good that they will not fear history's scrutiny or Your verdict on Earth's final judgment day. Lord, give them courage and strength for the vast tasks of making America better, as they put You and Your righteousness first, above anything else. May their differences be debated but never divide them in their common striving for liberty.

We pray in Your wonderful Name. Amen.

**PLEDGE OF ALLEGIANCE**

The Honorable AL FRANKEN led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

**APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE**

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The assistant legislative clerk read the following letter:

U.S. SENATE,  
PRESIDENT PRO TEMPORE,  
Washington, DC, December 5, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable AL FRANKEN, a Senator from the State of Minnesota, to perform the duties of the Chair.

ROBERT C. BYRD,  
President pro tempore.

Mr. FRANKEN thereupon assumed the chair as Acting President pro tempore.

**RECOGNITION OF THE MAJORITY LEADER**

The PRESIDING OFFICER (Mr. DURBIN). The majority leader is recognized.

**SCHEDULE**

Mr. REID. Mr. President, following leader remarks, the Senate will resume consideration of the health care reform legislation. The first 3 hours will be for debate only. That time will be equally divided and controlled between the two leaders or their designees and controlled in 45-minute alternating blocks of time. The majority will control the first block. We anticipate reaching an agreement to have a series of votes beginning at 2:30 this afternoon. Senators will be notified as soon as possible with regard to when the votes will actually occur.

**HEALTH CARE REFORM**

Mr. REID. Mr. President, yesterday, Friday, 14,000 people lost their health insurance in America. Today, Saturday, another 14,000 people will lose their health insurance, and Sunday and Monday and Tuesday and on and on. Every day, 14,000 people lose their health insurance in America. The American people don't get weekends off from this injustice. Bankruptcy doesn't keep bankers' hours. They do not go away just because it is Sunday or Saturday. The pain is still there. So our work continues this weekend. It will continue until we give this Nation's citizens a health insurance system that works for them.

Tens of millions of Americans, those with coverage and those without coverage, know all too well right now that the system is broken. They do not need academic studies or congressional investigations or politicians' speeches to tell them health care is in critical condition. Every day they live with it, and every day some even die with it or because of it.

Next year is just around the corner. It is just weeks away. In the new year, a whole lot more Americans are about to learn just how broken our system is. You see, last year one of America's largest private insurance companies made about \$1 billion. In fact, it was more than \$1 billion. Its chairman and chief executive officer took home \$100 million himself. But this health care company isn't going to make enough this year, by their estimation. The healthy profit of this health insurance company, by their standards, is not healthy enough because its executives have decided that the profit they are making—and remember, more than \$1 billion, with the boss taking home more than \$100 million—isn't enough. So this multibillion-dollar company found a clever way to make more money next year. How? Raising rates.

As one might expect with the insurance industry, being as callous as it is,

those higher premiums are going to be too expensive for many. Some analysts say that as many as 650,000 people insured by this company will no longer be insured by the company. They will have to find other insurance or go without. Now, 650,000 is more than the entire population of North Dakota, more than the population of Vermont, and more than the population of Wyoming. It is more than the entire populations of Baltimore and Boston and Denver and Seattle. How many people is this one company going to drop? You could count every man, woman, and child in Las Vegas and still have 100,000 people left over. Las Vegas is as big as Boston, Baltimore, Denver, and Seattle. But here is the worst part: That shocking estimate comes directly from the president of the company himself—the man who made more than \$100 million last year. That means the company devised this strategy, crunched the numbers, and saw how many American families it was going to hurt. Then the bosses shrugged their shoulders and decided to go ahead anyway.

We would hardly stand idly by as a country if every citizen of one of our States was left out in the cold. And that is, in fact, what we have here. We would never consider doing nothing if every resident of one of our biggest cities was, in fact, hung out to dry, but that is the equivalent of what just one company is doing—just one of the countless health insurance companies that care about nothing except profits.

Others may suggest the system is just fine the way it is. We on this side of the Senate do not believe that.

Why are they able to do this? Well, one reason they are able to do it is they are not subject to the antitrust laws. They can conspire to fix prices, as we have indicated, and there are no civil or criminal penalties.

Some may suggest the system is fine just the way it is. We don't believe that.

Just this summer, the junior Senator from South Carolina said what we need to do is “get out of the way and allow the market to work.” Well, the market sure worked fine for this insurance company. It is working fine right now. The problem is, it doesn't work for the American people, only for the big shots of these insurance companies.

Just last week, my distinguished counterpart, the Republican leader, said the health care crisis is “manufactured.” Those were his words: The health care crisis is “manufactured.” In one sense, he is right. It has been manufactured by the greedy insurance companies, just like the one I mentioned earlier, companies that claim to

be in the business of helping people stay healthy when they are actually in the business of making as much money as they can. They raise families' rates on a whim, deny coverage because someone has a preexisting condition or they are a woman or they are too old, with concern for nothing but their own executives' personal bank accounts.

The question before the Senate is, How many more of our own citizens will we sentence to such a fate? How much longer will we look the other way while our neighbors suffer right in front of us? How much more are we going to charge those fortunate enough to have insurance in order to cover the many who don't? Right now, every individual who has insurance pays at least \$1,000 a year more because of the uninsured going to emergency rooms all over the country. I ask my colleagues, How much longer will we enable the insurance companies to deny health care to the sick? How much longer will we let those companies force thousands upon thousands of Americans into bankruptcy while they rake millions of dollars of cash into their pockets? That is the reality.

Opponents of progress have tried to drown out this truth with distortions, distractions, and dishonesty. But, as John Adams observed a long time ago, facts are stubborn things.

Here is one of the most startling facts: Last year, 750,000 people filed for bankruptcy. Seventy percent of those who filed for bankruptcy did so because of medical expenses, and 62 percent of those who filed because of medical expenses had insurance. What a sad commentary. In the year World War II ended, President Harry Truman warned that many of us were vulnerable to what he called "the economic effects of sickness." In the 64 years since, it has only gotten worse.

Here are some facts—facts about what our legislation will do: The legislation before this body will make sure every American—nearly every American, at least 97½ percent—will be covered with insurance. It will not only protect those seniors on Medicare, it will make it stronger. It will make sure more than 30 million Americans who don't have health insurance now will soon have it. It will not add a dime to our deficit. In fact, in the next 10 years it will reduce it by \$130 billion and over the next 20 years by almost \$¾ trillion.

We are even making this bill stronger than when it was introduced, this bill here. For example, because we have added Senator MIKULSKI's amendment to the legislation, women can now get the mammograms, checkups, and other preventive tests they need in order to stay healthy, at no cost. We made it better by reaffirming our commitment to seniors who rely on Medicare and Medicare Advantage, guaranteeing they will always get the care they need

and the quality of life they deserve. We made it better by ensuring that the money dedicated to the health care of America's seniors and people with disabilities should be used only for those precise payments. And today, we will continue to make it better with an amendment by Senator LINCOLN of Arkansas that stops irresponsible tax breaks for millionaire health insurance executives and starts to use companies' revenues to strengthen Medicare.

The fact is, our bill will, in short, save lives, save money, and save Medicare. It will make it possible for each and every American to afford to live a healthy life. We can't afford not to do this.

#### RESERVATION OF LEADER TIME

The PRESIDING OFFICER. Under the previous order, leadership time is reserved.

Mr. REID. Will the Chair now announce the business before the Senate.

#### SERVICE MEMBERS HOME OWNERSHIP TAX ACT OF 2009

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of H.R. 3590, which the clerk will report.

The assistant legislative clerk read as follows:

A bill (H.R. 3590) to amend the Internal Revenue Code of 1986 to modify the first-time home buyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

#### Pending

Reid amendment No. 2786, in the nature of a substitute.

Lincoln amendment No. 2905 (to amendment No. 2786), to modify the limit on excessive remuneration paid by certain health insurance providers to set the limit at the same level as the salary of the President of the United States.

Johanns motion to commit the bill to the Committee on Finance, with instructions.

The PRESIDING OFFICER. Under the previous order, the next 3 hours of debate will be equally divided between the two leaders or their designees, controlled in 45-minute alternating blocks of time, with the majority controlling the first portion of time.

#### Who yields time?

The junior Senator from Minnesota.

Mr. FRANKEN. Mr. President, I ask unanimous consent to speak as in morning business for 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The remarks of Mr. FRANKEN are printed in today's RECORD under "Morning Business.")

Mr. FRANKEN. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HARKIN. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HARKIN. Mr. President, first of all, let me say I am glad we are here this weekend. Oh, I know we like to be with our families, we have Christmas shopping to do and things such as that. It is always nice to be with our families on the weekends. But think about it this way: Millions of Americans today are giving up their weekends, they are giving up their nights, their holidays, because they are either out of work, they are working part time, they are trying to do odd jobs to get enough money together to keep their families intact. So they are working at nights, they are working on weekends. They are not taking time off. They are out there looking for work now or out there doing odd jobs, whatever they can possibly do. They are making sacrifices. They are making sacrifices for their families, but they are also making these sacrifices to pay their medical bills or to afford their needed prescriptions. It seems to me we owe them nothing less than the same level of commitment to the task of bringing quality, affordable health care within their reach.

Our leader, Senator REID, was right to call the Senate into session this weekend. We ought to keep at this bill, this health care reform bill, working hard, until the Senate finishes the job before us. Nothing less will do.

I do not plan to spend a lot of time on the debate over Medicare Advantage that we had yesterday. However, after listening to the comments yesterday, I did want to mention briefly editorials that appeared in the Des Moines Register. The first was published 6 years ago when the Senate considered the Republican Medicare drug legislation. The major element of that bill was to give outrageous bonuses to private health plans in Medicare Advantage. In criticizing that proposal, the Register called on Members of Congress "to remind themselves their job is to serve the interests of the people, not industry lobbyists."

Sadly, we didn't heed that call that time, 6 years ago. Instead, Congress, under Republican leadership at that time, enacted a bill that provided a massive and unjustified windfall to the insurance industry.

The Register revisited the same subject in an editorial this year, May 31 of this year. Here is what they said:

Congress encouraged private insurance plans, known as Medicare Advantage plans, which have cost taxpayers more than covering seniors in traditional government-administered Medicare.

Congress should not repeat the mistakes it made in 2003 when reforming Medicare—catering to special interests and pushing people into private-sector insurance coverage.

Our health bill, the one we have before us, heeds these words. We stand up

to the special interests that even today are demanding billions of dollars in taxpayer funds to prop up their inflated profits. So yesterday was a good day. Yesterday we said no to giving the insurance industry a \$120 billion bonus for doing the same job that Medicare can do for far less.

Today we will consider a proposal from Senator LINCOLN to say no to the outrageous salaries that top executives in these companies receive. Chief executive officers at the seven leading insurance companies made a combined \$118.6 million in 2007 alone, an average of \$11.9 million each. Let's compare that to the wages of millions of Americans or the minimum wage. For someone making the minimum wage, it would take nearly 800 years to make what these insurance company executives make in 1 year.

Again, here is the CEO compensation. For United Health Group, they made \$2.9 billion in profit in 2008 and they paid their CEO \$9.4 million; WellPoint, \$9.8 million; Aetna, \$24.3 million; Humana, \$47.3 million; Coventry Health Care, \$11 million; Cigna, \$4.4 million. That is the CEO compensation. That probably is not the whole package when you consider all the other benefits they get, deferred compensation and on and on—golden parachutes, all that kind of stuff. That is basically their CEO compensation for the year.

As you can see, they get paid pretty well and \$11.9 million is the average. Here is Aetna, \$24 million a year. They had a profit of \$1.3 billion that year. So they did well, their shareholders did well, their CEO did well. But how about the consumers, the working families?

In 2003, by the way, Aetna, this company right here, making all this money, paying their CEO \$24 million a year—in 2003 Aetna settled a lawsuit. You know, usually when you settle lawsuits it is because you think you are going to get hit worse down the line. They settled a lawsuit brought by who? Brought by physicians, a whole group of physicians brought a class action against Aetna because they had a history of shortchanging patient care. Aetna settled for \$470 million, just to get away from it, in 2003.

There was not any money to help them afford the coverage patients need, but they had billions for profits and they had millions for salaries—nothing for working families.

The reality for working families across America is simply this: Insurance premiums have skyrocketed, outpacing the growth in wages over the same period. Quality affordable health care is slipping further and further from the grasp of middle-class Americans. Between 1999 and 2007, the average American worker saw wages increase 29 percent. Insurance premiums during that same time rose more than 120 percent. They see the premiums skyrocketing, but their health care is slipping away.

There is something else. The profit margins of the insurance industry soared. Over the last 7 years the profits of the seven largest publicly traded health insurance companies increased by 428 percent. Profits increased by 428 percent, from \$2.4 billion to \$12.9 billion. Yet look at what our workers' wages went up—29 percent.

Now you begin to understand why people in this country are upset and discouraged and outright mad about their lack of health insurance coverage, about the affordability of that coverage and the quality of that coverage. Yet with all of this money that is going to their CEOs and huge increases in the profits they make, our Republican friends on the other side of the aisle say they still need a Federal handout. The industry cannot find a dime to bring down prices for consumers but they can find millions to lobby for more special favors.

The Wall Street Journal reported that the health care industry boosted their efforts in lobbying this year. In a quote from the Wall Street Journal:

Overall, the health-care sector reported a five percent increase in lobbying expenditures to \$133 million, making it the single largest spender on lobbying of the 10 major industry sectors tracked by the Center for Responsive Politics. Health-insurance companies increased lobbying activity by 11 percent to \$7.8 million, according to the data.

An increase of 11 percent. You wonder why all this health sector this year had \$133 million in lobbying expenditures. I think, if I am not mistaken, the supposed, stated purpose of health insurance is to protect Americans from the cost of illness. Supposedly their purpose is to keep the American people healthy and productive for the benefit of society. Yet over some 60 years, this industry, the health insurance industry, has transformed itself from an industry that is there to help you to an industry that is there to take money from you when you are healthy and avoid paying your bills when you get sick. This is an industry with armies of actuaries and functionaries whose job is to prevent you from enrolling if you have a preexisting condition. It is an industry that looks at the fine details of your medical records when you get sick so they can figure out how to cancel your policy and leave you high and dry when you need their help the most, as has been said many times around here.

The majority, actually 62 percent of bankruptcies in America, is because of medical costs, and 80 percent of that group had health insurance. They actually had health insurance, but they had to file for bankruptcy because—they didn't know it, but in their contract, in their policy, there was some fine print called a rescission clause, or there is fine print in there on terms of their annual or lifetime caps, which most people do not even know are in their policies. But when they got very sick, all

of a sudden their policy got rescinded, which means when it came up for renewal the insurance company didn't renew it, and here you are with an expensive chronic disease or illness such as cancer or heart disease or disability, and they cancel your policy. You are left with only one recourse—file for bankruptcy.

This is an industry which defines being a victim of domestic violence as a preexisting condition. I spoke about this previously. Only in America, with this health insurance industry running everything in terms of our health care coverage, only here would we have a situation where a woman can be the victim of domestic violence, be battered, get medical help, go to the hospital perhaps, a victim of domestic abuse, and then later on find that she can't get her policy renewed because she has a preexisting condition, the preexisting condition of being the victim of domestic violence.

You may think that is outlandish, but it is true, and it happens. All we are seeking is competition, openness, transparency, and fairness.

The insurance industry, what are they seeking? They are seeking to preserve and protect a sweet deal they have been enjoying on the backs of middle-class Americans and seniors. The proposal Senator LINCOLN is offering says basically: Enough is enough. In defense of their outlandish salaries, the insurance company CEOs cite the difficulty of their jobs and the complexity of their tasks. The President of the United States probably has a pretty difficult job. He has a few complex tasks to confront. There is no reason insurance company CEOs should get a tax break on salaries higher than the President's. That is exactly what the Lincoln amendment does.

I thank Senator LINCOLN for her commonsense proposal. I think consumers across America should know that when they pay their hard-earned dollars to cover the soaring cost of premiums, they are not just chipping in to pay for the CEOs' next new yacht or the newest Mercedes in the driveway. In homes across Iowa people are clipping coupons and making do with secondhand, patching up instead of buying new. They have had to make sacrifice after sacrifice to afford premiums that provide coverage for their health care. It is outrageous that their hard-earned cash goes for gold-plated salaries and bonuses. Senator LINCOLN is right to take a stand against these excesses. I urge my colleagues to support her amendment.

The Lincoln amendment is consistent with a major theme of our legislation. It is basically standing up to the health insurance industry on behalf of consumers. Her proposal will add one more important item to the list of benefits our legislation will bring to American patients.

As I said before, this bill ends the practice of denying coverage because a person has a preexisting medical condition. I would wager probably every Member of this Senate has some kind of a preexisting condition of some sort, and every one of us could be turned down if we didn't have the kind of secured program under the Federal employees program. Why shouldn't the rest of the American people have the same kind of security?

This legislation ends the lifetime limits and bans unreasonable annual limits. Our bill gives young people better options to stay on their family's and parents' plan until they are age 26. It also ends the outrageous practice of charging women higher prices for the same policy, the exact same policy a man gets. I can remember, during my town meetings back in August, talking about this issue. People were startled to learn that an insurance company can charge a woman up to twice as much for the same policy—same age, all the same parameters, same occupation, same kind of history. They can charge a woman up to twice as much as a man for the exact same coverage, the exact same policy. We get rid of that in this bill. We do not allow that kind of discrimination in any other kind of industry. Why should we allow it in this industry?

Our bill provides better options for individuals, small businesses, farms, for the self-employed. I have said many times the biggest winners in our health care reform bill are small businesses and the self-employed. Right now they are sort of at the end of their rope. They have no bargaining power whatsoever. Our bill will create exchanges so they will be able to go on the exchange and pool with other people for more options, more competition, more transparency available.

Some places in Iowa we have only one insurance company offering policies. There is absolutely no competition. Setting up the exchanges will allow our self-employed and small businesses to get more bargaining power.

These are the kinds of measures the American people want and need to make sure they get a fair deal on the coverage they buy. We need a health insurance industry that is a partner for employers and ordinary Americans, charges fair premiums, treats us right, and pays our bills when we get sick. That is what our bill is all about. It is to end a lot of these outrageous practices that have gone on for far too long in the health insurance industry.

A lot of times people say: You are always beating up on the health insurance industry. Not really. We are just taking them to task for where they have gone. Years ago when they first started out, they were doing a good job. Then the greed, the normal human nature and greed for more profits, higher CEO salaries, \$24 million sala-

ries for CEOs, gold-plated benefits packages for all their CEOs and corporate executives; it just got out of hand. It became a situation where almost one health insurance company was trying to outdo the others in terms of how much money they could squeeze out of the consumers. It is just a system that sort of ran amok.

Now it is up to us in the Congress to rein it in, to make the health insurance industry what it ought to be—a fair and reasonable, competitive system for the consumers. That is what this bill does. To me, that is the American way. That is why we have to stay here on the weekends, if we have to. If we have to be here today, fine; and tomorrow, fine; and all next week, fine; and next weekend; and, if we have to, right through the holidays.

The American people are looking to us to get this job done. We are going to get the job done. No matter how much our friends on the Republican side want to delay, delay, delay, and try to kill this bill, it is not going to happen. This bill is unstoppable because the American people are demanding that we do something about it. We are responding to that, and we are going to get the job done.

I yield the floor.

THE PRESIDING OFFICER. The Senator from Pennsylvania.

Mr. CASEY. Mr. President, we gather today on a Saturday which, as many Americans know, is rare, but it is entirely appropriate and essential that we make sure we spend the time on a weekend to debate this bill and to get the bill passed. I commend the words of Senator HARKIN and his great work over many months on this legislation. We are grateful for his leadership. I commend Senator LINCOLN on the amendment we will vote on today regarding executive compensation.

I rise to speak about children, as this bill affects their lives—in particular, the lives of children who are particularly vulnerable. I have said a number of times in this debate that at the end of this debate, when the bill is enacted into law, we should be able to say that no child is worse off, especially a child who happens to be poor or has special needs. That is what I rise to speak of this morning.

I had a joint resolution a number of months ago that was filed relating to this bill. It was joined in by Senators DODD, ROCKEFELLER, BROWN, WHITEHOUSE, and SANDERS. It was simple. It basically said what this chart says: No child worse off at the end of the debate. It is a fundamental principle, but I also believe it is a commitment we must keep. When we talk about the legislation before us, we are not talking about some new system. We are talking about figuring out a way—and I think we have in the Senate—to fix what is broken and build upon what works. I believe that is what we are trying to do.

When it comes to children, we have special considerations, and we have to have unique strategies to make sure they get the best health care possible. As so many child advocates tell us—and it seems like such a simple maxim—children are not small adults. That is a profound statement. You can't just take a health care program for adults and overlay that on the health care that is provided to children. Children are not small adults. They are different. The care they get has to be different. It has to be tailored and focused on their needs. The care they get, especially a child who is vulnerable, is determinative of their life. If we don't provide them the kind of care in the dawn of their life, as Hubert Humphrey talked about, there is very little after that we can do to save them or to allow them to reach their full potential.

That bright light inside a child, if we miss the opportunity to care for that child, will never be the same. We have an opportunity in this debate, and at the end of the debate with the legislation, to positively affect the lives of countless American children.

I have some changes I will propose to the Children's Health Insurance Program, but I wanted to speak this morning about parts of the bill that speak directly to the needs of at least two vulnerable children, two young girls by the name of Hannah and Madeline from Pennsylvania.

I will get to their story in a moment, but their mother, Stacie, communicated with us and a lot of other people about their lives and their challenges. I did want to first review some of the basic parts of the bill. We often say this bill contains consumer protections. That is a nice-sounding phrase, but when you talk about consumer protections in the lives of young children such as Hannah and Madeline, it takes on a whole new meaning. I will talk more about them in a moment.

I want to walk through some of the basic provisions in the bill as they relate to children and what we have in the bill already.

No. 1, the bill ensures pediatric input into benefit packages so that the skill and the knowledge of a pediatrician and the kind of care they can provide to a child is part of the benefits package. Again, children are not small adults. The bill also ensures benefit packages that include pediatric benefits including critical oral and vision health care.

We all remember the tragedy last year of Diamante Driver of the State of Maryland, a young boy who lost his life because his family did not have coverage for an infected tooth and couldn't afford the care. We are talking about a child in America who died from an infected tooth that would have cost \$80 to treat. This horrible tragedy that everyone in Washington was talking

about at the time was entirely preventable. We remembered his story and his tragedy in the bill by making sure that oral and vision health care are part of what we do.

In addition, the bill mandates prevention and screenings for children. It creates pediatric medical homes. People say: What is a medical home? That is not a place. It is a way to treat someone, so if an American, especially a child, has a primary care doctor, which many of them unfortunately don't—and that is another part of what we are trying to do—that primary care doctor should be surrounded by the expertise we can bring to bear to help the child. We have so much knowledge and wisdom and ability when it comes to our doctors. We have remarkable pediatricians whose sole focus is to help a child in one part of their needs, the health care needs of that child. Why should not every child be surrounded by that kind of expertise? That is what we are trying to do.

We strengthen the pediatric workforce. We can't just say we need a lot of pediatricians and hope it happens. We have to make sure we have a workforce and a recruiter workforce to do that.

Senator DODD and I and Senator BROWN—I know Senator DODD is on the floor—added a loan repayment provision in the bill for pediatric specialists and providers for mental health services for children.

I have two more items and then I will get to the story of Hannah and Madeline.

We expand drug discounts for children's hospitals and finally increase access to immunizations. The CDC will provide grants to improve immunizations for children and adolescent adults.

But let me talk for a couple moments—I know we have others who are waiting to talk this morning—about these two children: Hannah and Madeline. The good news is—this picture is a dramatic depiction of what they were suffering from when they were diagnosed with leukemia at the age of 4. They are 11 years old now, and they are doing better, but they still have enormous challenges in their lives. Their mother Stacie Ritter wrote as follows:

When my identical twins were both diagnosed with [a kind of leukemia]—

And she talks about it—

at age four, we were told they would need a bone marrow transplant in order to survive.

Imagine that. I have four daughters, and I remember when they were about the age of 4, I never had to worry about any of this. I never had to even think about it. But if my wife and I—my wife Teresa and I—were given this news, we would have been given coverage for a condition such as that by an insurance policy because I happened to be a State government employee, and now I am a Federal Government employee. So I never had to worry about that diag-

nosis for my daughters. Other than the challenge of the diagnosis itself, I did not have to worry about coverage. But Stacie Ritter and her husband Ben did. She says:

I learned that the insurance company thought my daughters were only worth \$1,000,000 each. It sounds like a lot of money. It's not!

She says that with an exclamation point.

When you add up the costs involved in caring for a patient with a life threatening disease like cancer \$1,000,000 barely covers it.

I think that is an understatement.

Fortunately the hospital social worker recommended we apply for a secondary insurance through the state considering the highly probable chance we would hit that [million dollar] cap. And we did hit that cap before the end of treatment. Thankfully the state program kicked in and helped pay for the remainder of treatment.

The State program—it sounds a lot like a public option, doesn't it, an awful lot like a public option. So at least for this part of the story, they were able to get some help through a State program, a kind of public option. We will talk more about that later.

But then Stacie goes on, and the lead headline of this section is one word, "Bankruptcy."

During this time my husband had to take family medical leave so we could take turns caring for our one year old son and our twins—

These twins, as shown in these pictures—

at the hospital. . . . For the 7 months my husband was out on family medical leave, he was able to maintain his employer based insurance for us via \$117.18 a month COBRA payments.

My recollection is, COBRA was an initiative by the Federal Government to make sure, if you lose your job, you do not lose your health insurance. We have to extend it right now—another government initiative that was helpful here.

After spending all our savings to pay the mortgage and other basic living expenses we had to rely on credit cards.

So a mother and a father who get this diagnosis for their children at age 4 have to rely on credit cards to get the help their daughters need.

Stacie writes:

In the end we had no choice but to file bankruptcy. And when you file bankruptcy everything must be disclosed, we even had to hand over the kids' savings accounts that their great grandparents—

Their great grandparents—had given them. . . .

Is this the kind of system we want, when a mother and a father are hit with that diagnosis for their two daughters, when they are age 4, that we have a system that says: Do you know what. We have to cap your coverage. We can help you a little bit, but we are going to limit it. You will figure it out. Don't worry. That is basically what the system said to them.

So what are we doing? Well, we have a bill that happens to speak to these kinds of situations. It is ironic—I guess is the word—that on page 16 of the bill, which is actually the second page of the text, we have a provision that says this:

A group health plan and a health insurance issuer offering group or individual health insurance coverage may not establish . . . lifetime limits on the dollar value of benefits for any participant or beneficiary. . . .

It is not complicated. It is not legalese. It is very specific to the lives of these two children. The first provision in the bill says there are no lifetime limits. So you cannot say to Hannah and Madeline: Sorry, we know you have leukemia and we know you need expert care and treatment, but we are going to limit your care.

So for those who think this is complicated and difficult in a lot of debate here in Washington, it is not complicated. If we had this provision as a matter of law in effect when Stacie got that diagnosis for her daughters, she would not have had to worry about coverage. She would not have had to use credit cards and go into bankruptcy and take the savings these children were given by their great grandparents.

Why do we tolerate this system? Why do we go, year after year, and talk about changing it, saying: Oh, isn't that terrible we have these situations and we let it go and we say that is too bad we couldn't get the bill passed; it got a little difficult in Washington.

Well, the time for talk and debate and discussing the finer points of this is over. We have to act to make sure a family such as this never has to go through what these parents went through but especially what these two young girls went through.

I will conclude with this: This picture, as dramatic as it is, I think connotes a lot of hope. Look at those two young girls, facing the most horrific of circumstances, and they are smiling and hopeful. But they still need help. We are going to be spending time in the next couple days getting this bill done so we can make sure we help them in the future.

With that, I yield the floor.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. DODD. Mr. President, before he leaves the floor, I wish to thank our new colleague from Pennsylvania. From the moment he arrived here, he has raised the profile of this issue involving children and families. As someone who has been involved, myself, for a long time chairing the Subcommittee on Children and Families, and with the help of the Presiding Officer and others, we did the Family and Medical Leave Act back some 17 years ago; the childcare legislation almost 25 years ago, dealing with infant screening, premature births, autism—a whole host of other issues.

I wish to thank him for bringing what has been a tireless effort since he has arrived in this Chamber, adding yet another voice, another strong voice, on behalf of children in our country. JAY ROCKEFELLER, our colleague from West Virginia, has been a stalwart for years on these issues as well. I know SHERROD BROWN of Ohio is also working very hard on these issues, and I wish to commend him.

So I wish to say thank you to my colleague from Pennsylvania. The points that he raises are good ones.

I know our time has expired, and I apologize for interfering with our other colleagues' time, but I wish to thank him for his efforts. I cannot think of a more noble cause to be involved in. There will be a lot of debate about this bill, but we must keep in mind that the most innocent in our society, our children, are born into circumstances totally beyond their own control. And there are too many instances where they are suffering from one problem after another. A great country such as this, with great resources and potential, ought to be able to ensure that every child in this country—regardless of the economic circumstances or the physical circumstances they are born into—gets the kind of care that America can be proud of. I say to the Senator, you are a champion of that, and I thank you for it.

I yield the floor.

#### RECOGNITION OF THE MINORITY LEADER

The PRESIDING OFFICER. The Senator from Kentucky.

Mr. MCCONNELL. Mr. President, I am going to proceed on my leader time, which I assume will not be charged on this side.

The PRESIDING OFFICER. The Senator is correct. His leadership time has been reserved.

The Chair will note, there is 3½ minutes remaining on the Democratic side allocated on the debate; and then, of course, there is another 45 minutes, under the unanimous consent agreement, that will be allotted to the Republican side of the aisle.

Mr. DODD. Mr. President, I would like to yield my 3½ minutes to my distinguished friend from Kentucky and my friend from Arizona and my friend from Utah and my friend from Florida and my friend from Wyoming as well—3½ minutes for all of them.

The PRESIDING OFFICER (Mr. BEGICH). The Republican leader.

Mr. MCCONNELL. Mr. President, we all know the U.S. health care system is in serious need of reform. Costs are too high, they are rising, and if we do nothing, they will continue to consume a larger and larger share of Federal dollars and of the budgets of millions of middle-class American families, of young workers trying to get their start in life, and, of course, of seniors.

For months, the administration and its allies in Congress promised a solution to these problems, a solution they said would lower costs and help the economy. They assured us that under their proposal anyone who likes the health care plans they have would be able to keep them, and they said their proposal would save Medicare.

But, in the end, what matters is not what we say. It is what we do. This week, the proponents of this plan did more with a single vote than they did all year in talking about all the things their health care plan would do.

How? Because in voting to cut a \$½ trillion from the Medicare Program for seniors, our Democratic friends undercut not only the roughly 40 million seniors who depend on Medicare, they also undercut their own promises about reform.

As I said, the President and congressional Democrats have noted, again and again, that under their measure those who like their plans will be able to keep them. After Thursday's vote, even Democrats are admitting that is no longer true.

Here is how one of our Democratic colleagues put it:

We're not going to be able to say that "If you like what you have, you can keep it."

Then he added:

... and that basic commitment that a lot of us around here have made will be called into question.

As for the oft-repeated pledge to save Medicare, well, nobody buys that one after the vote on Thursday to cut it by \$½ trillion.

These Medicare cuts will impact the quality of care for millions of American seniors. Nearly 11 million seniors on Medicare Advantage will see a reduction in benefits. Hospice care will see massive cuts. Hospitals that treat Medicare patients will see massive cuts. Nursing homes are cut. More than \$40 billion is cut from home health care agencies—agencies that provide an appealing alternative to seniors who would rather receive the care and attention they need in the comfort and privacy of their own homes.

I hear from seniors all over Kentucky worried about the impact these cuts will have.

Anita, from Hebron, KY, says she is worried about the impact these cuts will have on her husband, a Vietnam vet with multiple sclerosis. Every 2 weeks, she writes, a home health care nurse visits her husband to perform procedures prescribed by his doctors. Now Anita is worried those visits might be limited or curtailed under this bill. It is not clear they will not be because cutting \$40 billion from a benefits program is bound to affect the benefits that people such as her husband receive.

Joy, from Somerset, KY, works for a home health care agency. She wrote my office because she is also concerned

about cuts to home health care. She asked me to protect the rights of the chronically ill, elderly Medicare population that she and her colleagues care for every day in Kentucky through cost-effective home health care.

Robin, from Independence, KY, writes that her father is almost 80 and receives home health care twice a week. She says he depends on a walker and a wheelchair to get around and that it is hard for him to get out of the house. Robin's father is the kind of person home health care is meant to help. Frankly, I do not know what to tell her—I literally do not know what to tell her—except that \$40 billion in cuts to this program is not a very encouraging sign for people such as her dad.

I noticed that some years ago one of the top Senators on this issue on the Democratic side used the very same image I have used to decry these cuts. Back then, he warned, as I have in recent months, not to use Medicare as a piggy bank. Yet that is precisely what our friends are doing with Medicare. They are not fixing it. They are raiding it—raiding it—to create an entirely new government entitlement program, raiding Medicare not to help save Medicare but to create an entirely new entitlement program. In fact, one of the largest single sources of money for this 2,074-page bill is the money they get from Medicare.

I am not sure what has changed since our friends decried cuts to Medicare as immoral and irresponsible. But today I would, once again, urge them to reconsider their vote from earlier this week. They have voted now to cut Medicare, and they have now voted twice to cut the important Medicare Advantage Program for nearly 11 million seniors.

Today we will have a chance to restore the cuts they authorized to home health care. A vote in favor of the Johanna amendment is a vote in favor of the men and women who have been writing our offices, sharing their stories about the benefits of home health care. Americans never expected that health care reform would mean that they would have to give up the health care they have and like. They didn't expect it because they were told it wouldn't happen. Unfortunately, that pledge was broken this week. That pledge was broken this week. Today our friends have an opportunity to help repair some of that damage.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The minority now has 45 minutes for debate.

The Senator from Arizona.

Mr. MCCAIN. Mr. President, I ask unanimous consent that the Senator from Utah, the Senator from Kentucky, the Senator from New Hampshire, the Senator from Georgia, the Senator from Florida, and the Senator from Wyoming be allowed to participate in a colloquy.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MCCAIN. Mr. President, very quickly, I wish to remind my colleagues that the AARP continues to be referred to as endorsing this legislation and supporting it and opposing amendments that would have done things that they in the past have supported. So I urge my colleagues to look at this Washington article—one of my favorite sources of information and opinion, the Washington Post:

But not advertised in this lobbying campaign have been AARP's substantial earnings from insurance royalties and the potential benefits that would come its way from many other reforms.

So we have been looking into that, and guess what. The AARP endorsement of more than \$400 billion in Medicare savings—according to its own financial statements from 2008, AARP generated 38 percent of its \$1.1 billion in revenue or more than \$414 million in royalty fees. They also obviously will—if we take away Medicare Advantage, then Medigap sales will have to go up because that provides for the services that are being taken away. So under the AARP, they would generate in their endorsements—they have generated \$414 million, putting them in fifth place of all of the health insurance companies in America behind United Health, Wellpoint, Aetna, and Humana. So we have before the body an amendment that would modify any health insurer's remuneration to the same level as the salary of the President of the United States.

So I ask unanimous consent at this time that the AARP executives be added in under the effect of this pending amendment from the Senator from Arkansas.

The PRESIDING OFFICER. Is there objection?

Mr. BAUCUS. Mr. President, I object.

The PRESIDING OFFICER. Objection is heard.

Mr. MCCAIN. Mr. President, I also understand that Walmart sells health insurance policies. They are based in Arkansas. I ask unanimous consent that Walmart be included in this curb on excessive remuneration that will now place them under the same level.

The PRESIDING OFFICER. Is there objection?

Mr. BAUCUS. Reserving the right to object, to be totally candid, these are stunt amendments which we have not seen. I have never heard of the amendments.

Mr. MCCAIN. It is not complicated. It is pretty simple. It is people who sell health insurance.

The PRESIDING OFFICER. Is there objection?

Mr. BAUCUS. Reserving the right to object, because I have not even seen these amendments, I object.

The PRESIDING OFFICER. Objection is heard.

Mr. MCCAIN. I am sorry the Senator from Montana cannot understand that

they are people who sell health insurance as well. AARP does, Walmart does. If we are going to have this kind of demagogic amendment, then we should include them, especially Walmart, that does a lot of business.

Mr. MCCONNELL. Mr. President, I would ask the Senator from Arizona if I may ask a question. I would ask the Senator from Arizona, is this the same AARP that I recall opposed a \$10 billion reduction in the rate of increase in Medicare spending back in 2005?

Mr. MCCAIN. I would say to my colleague they not only opposed it, they got all of their members fired up in opposition to it. We all heard from them back in 2005. These were reductions in spending. This was not \$438 billion taken out of Medicare and put in to create a new entitlement program of \$2.5 trillion.

Mr. MCCONNELL. Could I ask my friend one more question? Is this the same bill that back in 2005 my counterpart, the majority leader, decried as immoral?

Mr. MCCAIN. As I recall, that is exactly it. I think the Senator from New Hampshire recalls that debate.

Mr. GREGG. Mr. President, if the Senator will yield, absolutely. I was chairman of the Budget Committee at the time. As the Republican leader is alluding to, we attempted to reduce the rate of growth of Medicaid by \$10 billion of a \$1 trillion base over 5 years, less than one-tenth of 1 percent, I believe that was. It was opposed aggressively by the AARP, and it was opposed by the other side of the aisle. Not one Member of the other side of the aisle voted for that. Do you know what that change was going to be? It was going to require that wealthy people who benefited from the Part D drug benefit would have to pay part of their premiums rather than getting them all for free. So Warren Buffett, for example, would actually have to contribute to his drug benefit, assuming he is on Part D. Maybe he isn't. Maybe he hasn't opted for it. But as a practical matter it was a very reasonable amendment.

Now we are seeing, as the Senator from Arizona has pointed out, a \$460 billion cut over the first 10 years of this bill; a \$1 trillion cut in Medicare, \$3 trillion over the first 20 years of this bill—\$3 trillion—when we already know Medicare, according to this chart, is insolvent to the extent of \$38 trillion—insolvent. Yet we are going to take this money out of Medicare, as the Senator from Arizona has pointed out, and we are going to fund a brandnew entitlement.

We are going to expand Medicaid to 133 percent of poverty with this money, and we are going to create this brandnew entitlement which has nothing to do with Medicare. None of the people who are going to get this benefit probably have ever paid into the hos-

pital trust fund, which is what funds Medicare. That seems totally inconsistent with the purposes of Medicare.

Shouldn't Medicare funds benefit Medicare recipients, I would ask the Senator from Arizona or the Republican leader? If there are going to be reductions in Medicare, should it not go to make Medicare more solvent and not to create a new entitlement?

Mr. MCCAIN. One would think so. There are two doctors in the Senate; there are lots of lawyers, two doctors. Both of them have hands-on experience. I don't know if Dr. BARRASSO has seen this morning's New York Times, another of my favorite sources of news information and opinion. On the front page this morning: "Home Care Patients Worry Over Possible Cuts."

I understand the purpose of health care reform as proposed by the other side is to reduce health care costs. Is there a way to reduce health care costs better than treating people at home than instead of in a hospital? I am curious about the Senator's experience.

Mr. BARRASSO. Well, as the Senator from Arizona knows, I have treated patients in Wyoming, families in Wyoming, for 25 years. The story in the New York Times has a wonderful picture of Bertha Milliard, a 94-year-old lady, who is very similar to many of the patients I have taken care of in families in Wyoming who depend on this care. There is a picture of Bertha dealing with her nurse. Bertha greets the nurse who has come to check her condition and review the medications she takes for chronic pain, for heart failure, and for stroke. Ms. Milliard says those visits have been highly effective, she says, in keeping her out of the hospital.

That is the whole idea: Keep them out of the hospital so they can lower the cost of care. But the home care that she receives could be altered, according to the front page of the New York Times, under the legislation passed by the House and pending on the Senate floor today. The legislation would reduce Medicare spending on home health services, which is a lifeline for homebound Medicare beneficiaries which keeps them out of hospitals as well as out of nursing homes.

So there you have it. What could be better for our seniors than to have the dignity of being in their own homes, to have someone coming into their homes to help them, to make their lives better, and that is going to include skilled nursing care, physical therapy, occupational therapy, sometimes speech and language therapy, and different medical and social services? That is where the care ought to be given, in the home. That is what we want for our seniors: the dignity at home, opportunities at home, to stay in their surroundings. That is what we want for not just all seniors such as Bertha, we want that for our Nation because that will help keep down the cost of care.

This bill does the exact opposite. That is why we have to have this amendment that says don't cut Medicare for our seniors and certainly not to start a whole new program.

In the Wall Street Journal today is an editorial by the dean of Johns Hopkins Medical Center, a wonderful, world class center: "Health Reform Could Harm Medicaid Patients."

So we are taking the money from Medicare, hurting Medicare patients, and they are using it in a way that is actually going to make it worse for patients on Medicaid, as they have dumped 15 million people into this program that is absolutely broken.

Mr. BAUCUS. Will the Senator yield for a question? Will the Senator yield for a question?

Mr. BARRASSO. I will yield to the Senator from Arizona.

Mr. MCCAIN. If it is taken out of your time, just exactly as you responded when someone asked if you would yield for a question from them yesterday. Is it taken out of your time?

Mr. BAUCUS. Yes.

Mr. MCCAIN. I ask unanimous consent that the time for the Senator's question not be taken out of the time that is allotted to us.

The PRESIDING OFFICER. It will not be.

The Senator from Montana.

Mr. BAUCUS. Do the Senators realize and do they know that yesterday the Home Care and Hospice Association, the National Association for Home Care and Hospices, the umbrella organization for home health and hospice, wrote a letter to me, which basically says:

[F]or all of these reasons, we support the provisions of your health care reform legislation as it relates to home health care.

Is the Senator aware of that letter, the Home Care and Hospice Association's support for this legislation? Is the Senator aware of that letter?

Mr. MCCAIN. My response is, I don't know what deal has been cut in Senator REID's office, as the deal was cut with the pharmaceutical companies and the deal was cut with the AMA and the deal was cut with the hospital association. But I know what the effect is. I know what the effect is. The bill would slice \$55 billion—

Mr. BAUCUS. This is not on my time because he is going to filibuster over there.

Mr. MCCAIN. The House bill would slice \$55 billion over 10 years for projected Medicare spending on home health services while the Senate bill would take \$43 billion. I know that. But I don't know the details of the deal that was cut over where the white smoke comes out. I don't know what the deal was. I know what the deal was with PhRMA. I know what the deal was with PhRMA. They told them they would oppose drug reimportation from Canada, and they told PhRMA they

would not allow competition for Medicare patients.

So I don't know the deal that was cut that bought them, but I know deals have been going on, and I know they are unsavory. I know people, such as the lady who was just referred to, Bertha Milliard, are not too interested in seeing their home health care cut.

Mr. BAUCUS. If the Senator will yield, with time being equally divided on both sides for this colloquy.

Mr. MCCAIN. I don't know what the deal was—

Mr. BAUCUS. I can tell the Senator the deal. I am going to tell the Senator the deal.

The PRESIDING OFFICER. The Senator from Arizona has the floor.

Mr. MCCAIN. I don't know what the deal was, but we will find out, just like the deals that were cut with all of these other organizations.

Mr. BAUCUS. I will tell the Senator what the deal was.

Mr. MCCAIN. This place is full of lobbyists. I can't walk through the hallway without bumping into one of their lobbyists. If the Senator keeps interrupting, he is violating the rules of the Senate. He needs to learn the rules of the Senate.

Mr. BAUCUS. Will the Senator yield to know what the deal was?

Mr. MCCAIN. I would like to finish my answer to you, if I may; that is, I don't know the deal that was cut with them, but we will find out. I know Bertha Milliard was not there when the deal was cut that generated that letter. That is my answer.

Mr. BAUCUS. Will the Senator yield for another question?

Mr. MCCAIN. I will yield for one more, but we have other Senators who wish to speak.

Mr. BAUCUS. Does the Senator know that the so-called deal was that whereas MedPAC and the administration and the House wanted to make domestic cuts to home health care, but rather we went to the home health care industry, worked with them, and took two of their major suggestions about fraud and abuse as well as outliers, so we modified so that the home health industry thought this was fair and reasonable?

Does the Senator know that was the agreement that was reached?

Mr. MCCAIN. My quick answer is, I don't know what the deal was, but I know the people who are in the home health care business, who will see \$43 billion in cuts to their business, the funding for their business, were not there when the lobbyists showed up.

We have already heard the stories of the meetings you and the majority leader have had with these people saying: Get on board or when we shape the final parameters of this bill, we are going to hurt you.

We know they have been threatened.

Mr. GREGG. I was wondering if that was the deal. We know there are a lot

of deals around here. I know the Senator from Arizona pays a fair amount of attention to earmarks and other things done around here. I hope we will get an amendment from the Senator from Arizona that lists the special deals like the ones that exempted a few States from the Medicare Advantage cuts, like the deals that got allegedly a few votes on their side of the aisle so we could get cloture and proceed to this bill.

Do you think it is part of the deal that they would not—if there really was a deal, should we not put in here that this money would go to benefit Medicare recipients and not to create a new entitlement? If you were going to take \$42 billion out of Medicare money going to home health, shouldn't it have gone to making the system more solvent rather than creating a new entitlement with that and taking that money from seniors and giving it to somebody else? Shouldn't that have been part of the deal?

Mr. MCCAIN. As is often said, it is what it is.

The Senator from Georgia has a comment.

Mr. ISAKSON. If there was a deal, it wasn't made with everybody. I have a letter that was sent December 4 of this year to me from Judy Adams, executive director of the Georgia Association for Home Health Care Agencies, endorsing the Johanns amendment. So they must not have been part of the deal. They represent Georgia. Further, in here—

Mr. MCCAIN. They will probably be called up to Senator REID's office very soon.

Mr. ISAKSON. They estimate that 68 of the 100 Medicare-approved home health care agencies in Georgia will go out of business. So if there was a deal, it wasn't made with every State because the State of Georgia is on record.

I ask unanimous consent to have this letter printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

GEORGIA ASSOCIATION FOR  
HOME HEALTH AGENCIES, INC.,  
Marietta, GA, December 4, 2009.

Hon. JOHNNY ISAKSON,  
Russell Senate Office Building,  
Washington, DC.

DEAR SENATOR ISAKSON: The members of the Georgia Association for Home Health Agencies, Inc. fully support Senator Johann's motion to commit Senator Reid's Patient Protection and Affordable Care Act back to the Senate Finance Committee with instructions to eliminate the home health cuts.

According to a study conducted by the National Association for Home Care and Hospice, under Senator Reid's bill 72.15 percent of home health agencies in Georgia will have negative margins by 2016 in the Senate bill, and approximately 68 percent of the 100 Medicare Certified home health agencies in Georgia will go out of business and the patients they serve will be rehospitalized or forced to seek alternative more costly care.

We appreciate the opportunity to offer our support for Senator Johann's motion and thank you for being an advocate for the sick and elderly citizens of Georgia.

Sincerely,

JUDY ADAMS,  
*Executive Director.*

Mr. LEMIEUX. If I may, I will follow up on my colleagues' comments about what happened in Georgia.

I walked to one of the largest home health care providers in Florida. We have a letter to the editor in the Sarasota Herald Tribune of November 16 where this person, who works for one of these home health care companies—one of the bigger ones, which aren't going to be in as much trouble—they say:

Contrary to the other assertions that senior care will be unaffected by health care reform in Florida, this scenario could be devastating for older Floridians. More than 56 percent of Florida's home health agencies could be in the red as early as 2011.

So we are going to take the smaller home health agencies—the mom-and-pops—in Florida, we have 1.9 million small businesses. They are not going to be able to function because we are going to take this money out.

I want to make a point, also, that today in the New York Times, a good point was made that there is going to be no new insurance money coming in for home health care agencies—or very little. It is not as if there are going to be folks having this new public option or new insurance-backed program because home health care is for seniors. There is not going to be any extra money. So what is going to happen? We are going to have our moms, dads, and grandparents who are benefiting from this home health care in Florida and across this country instead of having to go to a nursing home, instead of having to go to an assisted living facility away from their home and family—they are not going to be able to go anymore.

By the way, I don't believe that will save any money. I think that will increase costs because we know nursing home care is far more expensive than home health care. It is estimated that 1 day of hospital costs, for example, is 43 times as much as home health care. When you get rid of home health care, you are actually going to increase costs.

I want to follow up on a comment, if I can, of my friend from New Hampshire. I am new here, and I am still understanding the ways of Washington, DC. Everybody in America needs to know this bill will not help seniors at all. This bill takes money from senior health care. If there was a legitimate and straightforward effort to actually help seniors, we would take Medicare savings and keep the money in Medicare. But, as our leader said today, we are robbing the piggy bank, taking money out of health care for seniors and putting it into this new program.

Mr. MCCAIN. Let me remind the Senator from Montana, sometimes there is good news and sometimes it is bad. There was an article earlier this year where the staff of the Senator from Montana called in the high-paid lobbyists and told them not to meet with Republicans, saying that if they did, it would be treated as a hostile act. I can provide that article for the RECORD. I hope it is not true, but I think it is.

Mr. BENNETT. I say to the Senator from Arizona and others who have commented, home health care is not the only way seniors will be hurt by this. I am quoting from an article by Tom Scully, one of the designers of the Medicare Part D benefit, on the impact of this bill on Medicare Part D for seniors. Let me quote the key points of the article. I ask unanimous consent to have the entire article printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

MEDICARE PART D 'REFORMS' WILL HARM SENIORS  
(By Tom Scully)

There is a little-noticed provision buried deep in both the House and Senate health-care reform bills that is intended to save billions of dollars—but instead will hurt millions of seniors, impose new costs on taxpayers, and charge employers millions in new taxes.

As part of the Medicare Modernization Act in 2003, Congress created a new drug benefit—called Medicare Part D—for retirees at a cost of about \$1,900 per recipient per year. Many private employers already provided drug coverage for their retirees, and the administration and Congress did not want to tempt employers into dropping their coverage. Actuaries calculated that if the government provided a subsidy of at least \$800, employers would not stop covering retirees.

The legislation created a \$600 tax-free benefit (the equivalent of \$800 cash for employers), and it worked. Employers continued to cover about seven million retirees who might have otherwise been dumped into Medicare Part D.

It was a good arrangement for all involved. An \$800 subsidy is cheaper than the \$1,900 cost of providing drug coverage. And millions of seniors got to keep a drug benefit they were comfortable with and that in many cases was better than the benefit offered by the government.

But now that subsidy is coming in to be clipped. This fall congressional staff, looking for a new revenue source to pay for health reform, proposed eliminating the tax deductibility of the subsidy to employers. The supposed savings were estimated by congressional staff to be as much as \$5 billion over the next decade.

It sounds smart—except that nobody asked how many employers will drop retiree drug coverage. Clearly, many will. The result is that, instead of saving money, the proposed revenue raiser will force Medicare Part D costs to skyrocket as employers drop retirees into the program.

The careful calculation that was made in 2003 to minimize federal spending and maximize private coverage will go out the window if this provision becomes law. Any short-term cost savings that Congress gets by

changing the tax provision will be overwhelmed by higher costs in the long run.

Some members in the House want to mitigate the cost of this provision by mandating that employers maintain existing levels of retiree coverage despite the reduced subsidy. But it's not that simple. A mandate would increase costs on businesses, which in turn would make it harder for those businesses to hire new employees. The mandate would effectively be a tax on employers that provide retiree benefits; this in turn will simply induce some unknown number of employers to terminate their retiree drug programs before the mandate kicks in.

In short, if the changes that are proposed for employer subsidies in the current Medicare Part D program are enacted, everyone will lose. Unions will lose as employers seek ways to drop retiree drug coverage. Seniors will lose as employers drop them into Medicare Part D. Medicare and taxpayers will lose as they face higher costs. And employers will lose as they find it harder to provide benefits.

To make matters worse, accounting rules for post-retirement benefits will require companies that keep their retiree benefits to record the entire accrued present value of the new tax the day the provision is signed into law. This would cause many employers to immediately post billions in losses, which could significantly impact our financial markets.

There are many reasons to pass health-care reform. There is no reason to hurt seniors, employers and taxpayers in the process. Businesses are struggling, and the Medicare trust funds have plenty of problems as it is. It makes no sense to make these problems worse.

Mr. BENNETT. He says:

There is a little-noticed provision buried deep in both the House and Senate health care reform bills that is intended to save billions of dollars—but instead will hurt millions of seniors, impose new costs on taxpayers, and charge employers millions in new taxes.

Here is the core of it:

This fall, congressional staff, looking for a new revenue source to pay for health reform, proposed eliminating the tax deductibility of the subsidy to employers. The supposed savings were estimated by congressional staff to be as much as \$5 billion over the next decade.

It sounds smart—except that nobody asked how many employers will drop retiree drug coverage. Clearly, many will. The result is that, instead of saving money, the proposed revenue raiser will force Medicare Part D costs to skyrocket as employers drop retirees into the program.

He concludes with this comment:

There are many reasons to pass health care reform. There is no reason to hurt seniors, employers and taxpayers in the process. Businesses are struggling and the Medicare trust funds have plenty of problems as it is. It makes no sense to make these problems worse.

So not only are the programs going to be cut, but the drug costs are going to be dumped into the program, with an increased number of people involved. You are going to see tremendous financial distortions as a result of the passage of this bill.

Mr. MCCAIN. I yield to the Senator from North Carolina for a question and then the Senator from Tennessee.

Mr. BURR. I will make this point and ask this question: The President set out in this debate and targeted two things—quality and savings. He assured the American people that we were going to save health care and we were going to maintain quality.

Would it not be accurate to say that, as you take money away from home health, one, you remove from that population that tool that maintains disease, that keeps that from getting worse, and you chase seniors back to the hospitals for the services. So, one, the acuity of the senior patient is much worse and, two, the cost of the delivery of the service because by the time they hit the hospital, it has deteriorated. So we flunk on both points. We don't decrease cost by cutting home health, we increase it. From the standpoint of the quality, the outcome of the patient is worse because we put them into a hospital setting. Is that not what we are trying to eliminate?

Mr. MCCAIN. It seems to me, yes.

I yield to the Senator from Tennessee.

Mr. CORKER. I was watching this in my office.

Mr. MCCAIN. It is a lot of fun, isn't it?

Mr. CORKER. It is. I would rather not be any other place than on the floor talking about the most important piece of legislation we probably will deal with in our tenure here.

Mr. MCCAIN. Based on the principle that a fight not joined is a fight not enjoyed.

Mr. CORKER. I can tell. I have never seen the Senator from Arizona as happy as he is today in the fight against something that is so devastating.

I don't understand what it is that would cause my friends on the left, on the other side of the aisle, to throw seniors under the bus. There is no doubt that there ought to be some changes in Medicare to make it more solvent. We all want to ensure that seniors, down the road, have the ability to benefit from Medicare. no question. I think we have all said from day one that we want to join with Senator GREGG and others to make sure Medicare is here for seniors.

I do not understand—I listened to the last segment of my friends on the other side of the aisle talking about the many needs in this country. Many people don't have health insurance, and many of us have offered bills to solve that.

I don't understand, and I hope you can explain it to me, why the left would be willing to throw seniors under the bus. Regardless of what you say about the bill, they are being thrown under the bus, and doctors are going to get a 23-percent cut in a year, and they are not even dealing with that, and they are taking \$464 billion out of Medicare. What is it that would drive

our friends on the left who in the past—not today—have supported seniors but today are willing to throw them under the bus for a political victory? What drives them?

Mr. MCCAIN. I do not understand it. Perhaps my other colleagues can explain it better.

I also want to return for a second to the question of the Senator from Montana. The AMA is a classic example. When I go back to Arizona and talk to doctors and providers, they say: What is going on? You made a deal with the lobbyists. That is my answer to you. You made a deal with the lobbyists—not the home health care providers, not the nurses, not the doctors, the people who are the users of pharmaceuticals who, this year, have seen an 8- to 9-percent increase in the cost of prescription drugs—because your deal is going to protect them. My answer to you is, I don't know what you bought that letter for, but it was probably a pretty high price.

The Senator from—

Mr. BAUCUS. Will the Senator yield? I can answer the Senator's question.

The PRESIDING OFFICER. The Senator from Arizona has the floor.

Mr. MCCAIN. I know the answer to it. I just gave you the answer.

I yield to the Senator from Wyoming.

Mr. BARRASSO. I agree with the Senator. It is astonishing that the Senator from Montana would read a national organization's letter instead of one from his home State.

In Wyoming, we have 43 different home health care agencies, and some of them are in communities that don't even have hospitals. Therapists drive long distances. We have colleagues from rural States here, and Montana is certainly one of them. Those home health care agencies know they are not even going to get paid enough from Medicare to put gas in the car to drive out to the ranches and the farms where people are who are staying at home, trying to stay out of the hospitals and nursing homes. We have home health agencies throughout the States, and they drive tens of thousands of miles every year, with therapists and nurses and home care aides going out to help people stay at home and therefore give them dignity and allow them to keep down the cost of care for everybody.

Mr. MCCAIN. Mr. President, how much time remains?

The PRESIDING OFFICER. Twenty minutes 22 seconds.

Mr. MCCAIN. The salary of William B. Novelli, who has since stepped down—an old friend—last year was \$1,797,751. Mr. Tauzin, a pharmaceutical research and manufacturers lobbyist, only made \$1.5 million last year. Scott Serota, of BlueCross BlueShield, made \$1.6 million. Chicken feed.

I yield to the Senator from Utah.

Mr. BENNETT. Mr. President, I thank the Senator from Arizona.

My mind goes back to a personal experience I had that I would like to share with my friends on the left. It was an entirely different bill—No Child Left Behind. We were all for it on this side of the aisle because our President had proposed it. My staffer said to me, listening to the debate: You know, Senator, if President Clinton had proposed this, you would vote against it because you would think it was too heavy-handed with government interference. I said: You know, you are right. I have to do the right thing. I was one of the few Senators who voted against it.

If we had proposed what the Democrats had proposed, every argument we are currently hearing from the right side of the aisle would be coming with great roars and insistent statements on the other side of the aisle. But because it is their President who proposed it, they are somehow keeping their consciences under control. I hope they will recognize the irony of that and that at least one Senator—that is all we need in order to stop this bill—would recognize that conscience ought to prevail and this bill ought to be stopped.

Let's be clear. If this bill is stopped, health care reform will not die as a cause. Indeed, health care reform will be reborn in a bipartisan sense of, let's solve the problem, rather than in a partisan sense of, let's jam something down somebody's throat.

I hope that is what will happen, that conscience will prevail somewhere and one member of the Democratic Party who feels in his or her heart that this is a dumb idea will let his or her conscience prevail.

I see the Republican leader.

Mr. MCCONNELL. Will the Senator yield for an observation? Senator MCCAIN has pointed out where the lobbyists are on this bill. Senator ISAKSON has pointed out where the people of Georgia are on this bill. Senator BARRASSO has pointed out where the people of Wyoming are on this bill. We also know where the American people are.

I have not seen a survey in months—in months—by anybody that indicates the American people are for this bill. It is not in doubt. We have heard that President Clinton came up to their lunch. The President may be coming back himself. The argument they are making on the other side? Ignore the American people, make history. Make history? What I hear the American people saying to us is: Vote for this bill and you will be history.

This is not in the gray area. The American people are asking us to stop this bill and start over. They do not want a 2,074-page monstrosity of complexity and Medicare cuts and tax increases and higher premiums for everybody else. They want us to stop and start over and get it right.

Mr. MCCAIN. I ask the Senator from New Hampshire very quickly, is it your understanding that AARP does sell

health insurance and Wal-Mart sells health insurance?

Mr. GREGG. Both of those are correct.

Mr. MCCAIN. Then would it make sense they would be included in the amendment to modify the limit on excessive remuneration paid by certain health insurance providers to set the limit at the same level as the salary of the President of the United States? Wouldn't the CEO of Wal-Mart and the head of AARP, who only made \$1.8 million last year, fall under that umbrella?

Mr. GREGG. The underlying proposal is a blatant act to try to Europeanize our economy and move us to a process where the government decides what the market should do. But consistency would require that both of those organizations be included in that if the author is going to be consistent with the theme of the amendment, which is absolutely wrong in my opinion because there is no reason that we as a Congress should decide the compensation levels for people who are in the private sector.

Mr. MCCAIN. The Senator from Georgia.

Mr. ISAKSON. I want to put a face on what home health care means to the quality of health care and the lowering of the cost of health care in America.

My youngest son was in a horrible accident in 1989. He was hospitalized for 8 weeks, had four surgeries, developed an infection, and had some bone marrow threats. He was put in home health care after those 8 weeks. At a cost of pennies on the dollar, a visiting nurse came and helped my wife and me administer antibiotic drips periodically so he could continue to have the protection he needed to fight off the infection.

The 8 weeks he was in the hospital cost over \$100,000. The 8 weeks following that, when he was at home, home health care cost only a few thousand dollars.

We are taking an agency and a service that has provided to the American people that greatly reduces the cost of health care, improves the quality of life of the individual and forcing the only option for somebody hurt like that to be in a hospital. Granted, my son was not in Medicare, but people in Medicare are in accidents and have the same type of thing happen.

The patent effect of this is, on the one hand you save money to pay for somebody else's government option health insurance, but you take away an affordable, effective way to deliver health care.

Mr. MCCAIN. The Senator from Tennessee.

Mr. CORKER. I was thinking about last year's campaign. The Senator from Arizona was highly involved in that campaign. I know he offered some health care solutions that were greatly

maligned. But I think back on that, and I wonder, had our sitting President run on a health care reform bill that took money out of Medicare, which was insolvent, created a new entitlement, hurt seniors through home health, eliminated choices, making sure doctors got a 23-percent cut in a year, if he ran on a platform of health care reform that did that—had unfunded mandates to States, raised taxes—and told the American people while he was campaigning that their premiums were going to go up, I do wonder if the outcome would have been the same.

As a matter of fact, I cannot imagine a health care policy being presented that is more off base than the one we are debating. But one that makes Medicare insolvent, has unfunded mandates to States when they are troubled, raises taxes and raises premiums. That is what we are discussing. Why my friends on the left want to give our President a victory on that basis is astounding to me.

I don't know, but since you were up close and personal to that, I wonder if you might respond.

Mr. MCCAIN. I thank the Senator from Tennessee. I am very reluctant to take a trip down memory lane again. Could I say, one of the phrases throughout the campaign was: If you like the insurance policy you have, you can keep it. You tell me how people who now have Medicare Advantage can keep it under this proposal? It is impossible.

Maybe the other side is right. Maybe these reductions have to be made in Medicare Advantage. Maybe those changes have to be made. I don't happen to agree, although cost savings should be there. But no one can believe that you can keep the same Medicare Advantage policy that 11 million seniors in America have today under this proposal. It is impossible.

The Senator from Florida.

Mr. LEMIEUX. If the Senator from Arizona will allow, I want to ask one question of my friend, the medical doctor, about infections in hospitals. My understanding is that home health care is actually better for the patient, it is better for the efficacy of the treatment because a big problem we have in hospitals is that patients get staph infections and other infections. In fact, it is one of the leading causes of death in a hospital. You don't go in with this infection, you get it there.

Isn't this proposal that is going to take people out of home health care and send them to hospitals going to actually hurt patients?

Mr. BARRASSO. This proposal is going to hurt patients in a lot of ways. It is going to hurt patients psychologically. They are in a hospital when they want to be at home. It is going to hurt patients in terms of their health. The better place to be is at home, as long as somebody is coming around to

check on them. That is why for so many reasons, doctors have for decades said: Try to help patients get home as quickly as they can. That is the best place for them to heal.

We have heard from the Senator from Georgia a remarkable story about penalties on the dollar, the effectiveness of this program. It is good for folks, and it is good for the whole health care of our Nation if we have people healing at home, not in the hospital.

Mr. MCCAIN. Thanks to our crack staff who are a good example of the success of work release programs, I remind my friend from Montana, a Roll-call article as of June 11:

Top aides to Senate Finance Chairman Max Baucus called a last-minute, preemptive strike on Wednesday with a group of prominent Democratic lobbyists, warning them to advise their clients not to attend a meeting with Senate Republicans set for Thursday.

Russell Sullivan—

Whom I don't happen to know—

the top staffer on Finance, and Jon Selib, Baucus' chief of staff, met with a bloc of more than 20 contract lobbyists, including several former Baucus aides.

Who have made a nice transition.

"They said, 'Republicans are having this meeting and you need to let all of your clients know if they have someone there, that will be viewed as a hostile act,'" said a Democratic lobbyist who attended the meeting.

"Going to the Republican meeting will say, 'I'm interested in working with Republicans to stop health care reform,'" the lobbyist added.

Again, PhRMA, the New York Times, again my favorite. Tauzin, the \$1.5-million-per-year representative of PhRMA said:

"We were assured: 'We need somebody to come in first. If you come in first, you will have a rock-solid deal,'" Billy Tauzin, the former Republican House member from Louisiana . . . said. "Who is ever going to get into a deal with the White House again if they don't keep their word? You are just going to duke it out instead."

They cut a deal. That is, again, in answer to the Senator from Montana, that is probably how they got the letter, the same way Tauzin wrote his letter.

The majority leader—the minority leader, hopefully majority leader soon.

Mr. MCCONNELL. I say to my friend from Arizona, at the risk of being repetitious, what we all know is going on here is there is a total disconnect between inside-the-beltway lobbyists who cut their special deals and the American people who are speaking loudly to all of us in all of the surveys saying: Please stop this thing.

I have never been involved in an issue in all the years I have been here, I say to my friend from Arizona and other colleagues, on which people spontaneously stop me in the airport and say: Please stop this bill.

I am sure there are people in Kentucky who are for it. I have not met

one. There must be a doctor in Kentucky who is for this. I have not heard from one.

This is an incredibly unpopular bill. Thus, their only rallying cry: Make history, ignore the American people. What an act of arrogance. What an act of total arrogance. We know better than you. Why don't all you American people, all 300 million of you, shut up, sit down, and we will do it for you. We will restructure one-sixth of the economy. We know what is best for you. This is an act of total arrogance.

As the Senator from Utah pointed out, we just need one Democratic Senator to say no: No, I am not going to do this. I know the President would like me to make history, but this is wrong for the country, and I will not participate in it. Just one can make a difference.

Mr. MCCAIN. The Senator from North Carolina.

Mr. BURR. The Washington Post in October of this year, talking about the story on AARP, said:

The group and its subsidiaries collected more than \$650 million in royalties and other fees last year from the sale of insurance policies, credit cards and other products that carry the AARP name . . .

Mr. MCCAIN. Wouldn't that mean that AARP executive would naturally fall under the Lincoln amendment?

Mr. BURR. Absolutely, because it says "the majority of its \$1.14 billion in

revenue" that AARP collected, according to the tax records, were made up of sale of these insurance products.

Mr. GREGG. I think the Senator from North Carolina has made an excellent point. Consistency would require for the AARP to be included in this amendment, if the amendment is going to go forward. I hope the amendment is not adopted. But clearly it should be consistent with all the different interest groups. It appears it is not included because some deal was cut. Is that the implication here?

Mr. MCCAIN. The Senator from Utah?

Mr. COBURN. If I might, I ask unanimous consent to have printed in the RECORD the consolidated audited financial statements of AARP. They are the fifth largest insurance sales company in America.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

KPMG LLP,  
Washington, DC, March 30, 2009.

INDEPENDENT AUDITORS' REPORT  
The BOARD OF DIRECTORS,  
AARP, Inc.

We have audited the accompanying consolidated statements of financial position of AARP, Inc. and affiliates (collectively, AARP) as of December 31, 2008 and 2007, and the related consolidated statements of activities and cash flows for the years then ended. These consolidated financial state-

ments are the responsibility of AARP management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of AARP's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of AARP as of December 31, 2008 and 2007, and the changes in its net assets and its cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

As discussed in note 2 to the consolidated financial statements, AARP adopted Financial Accounting Standards Board Statement No. 157, *Fair Value Measurements*, in 2008.

KPMG LLP.

See accompanying notes to consolidated financial statements.

Mr. BENNETT. Mr. President, I have enjoyed this colloquy. I have enjoyed the enthusiasm that is here. I noticed that the sense of passion to get something done properly for the American people is on this side of the aisle. A great of sense of defensiveness is on the other side of the aisle.

We all have an been caught one time or another in the struggle between support for a leadership position or a Presidential position and our own sense of what is the right thing to do. I join with my leader from Kentucky in saying that the people of Utah have never been more worked up about any issue than this one. I have never seen any circumstance where they have been more firm and unanimous in their demand that this bill be stopped.

The Senator from Kentucky said if there is somebody in Kentucky who is for this bill, he has not met him. I have met some people in Utah who are for this bill. They have spoken to me

about it, as I pass through airports or I walk down the street in the hearing of other people from Utah. As soon as anybody hears someone tell me, Vote for this bill, there is a chorus of voices that spontaneously come up around that and say: Don't listen to him; listen to us. This is a terrible bill. This is a terrible circumstance.

I have been proud in the debate to point out that in Utah, the Dartmouth study says we have the best health care available in the United States, and if everybody got their health care there, it would not only be the best, it would be one-third cheaper than the national average.

I have spent a lot of time talking with the people who provided that result. Unanimously they tell me this bill would damage that result. It would damage the quality, and it would raise the price. Why in the world would we want to do those two things?

Mr. MCCAIN. Dr. BARRASSO from Wyoming.

Mr. BARRASSO. It has been a privilege to take care of patients in Wyoming for the last 25 years. This bill is going to hurt them. It is going to hurt the future of care. It is going to hurt the future of Medicare in America. You cannot take \$464 billion away from Medicare, a program on which the seniors of this country depend, and say it will not affect their care. It will affect them in the hospitals, it will affect them in the doctors' offices, it will affect them in the final days of their lives in the hospices. That is what I hear about across Wyoming.

I have not met doctors who support this—not at all. I have not met very many patients who support it, and they are also told by others: We don't want this. The townhall meetings have been overwhelming in opposition.

This is a bill that will be bad for our small businesses and bad for people who want to get insurance. It will be bad for people who have insurance because they know their premiums are going to go up. It will be bad for people who pay taxes because those are going to go up. But specifically for home health care, this will be awful. It will affect small communities—in all of the small communities of America, not just in Wyoming. I can't imagine anyone in a small community being for this.

Mr. MCCAIN. And put more people in the hospital.

The Senator from Tennessee.

Mr. CORKER. Mr. President, I have been listening to the debate, and it is seldom that debate on the Senate floor has much impact on me, I must add. But the fact is, I do think this amendment—the Lincoln amendment—is a terrible amendment. We should not be voting on compensation.

But I am wondering, I ask Senator MCCAIN, if we should offer a unanimous

consent agreement to change the amendment to take into account AARP, PhRMA, and others. I wonder if the other side would be willing to take that unanimous consent request.

Mr. MCCAIN. Not to mention the chief executives of the pharmaceutical companies. Why wouldn't we want to bring them in on it? After all, they are paying for lobbyists at \$1.7 million every year to cut these deals at the White House that they describe on the front page of the New York Times.

I would hope the Senator would be glad to modify her amendment to include all these other people who have gotten extremely wealthy—PhRMA, an 8-percent increase in drug prices in the last year. Again, I refer to the New York Times.

Anyone else? Senator BURR.

Mr. President, how much time remains?

The PRESIDING OFFICER. One minute.

Mr. MCCAIN. Senator BURR will wrap it up.

Mr. BURR. The Senator from Arizona has stated this case very well over a number of days, and it will continue to be stated—they are cutting Medicare to fund a new government program. They are taxing the American people through drugs and devices and more money for their own insurance policies so that government can have a larger hand in health care.

You know what. At the end of the day, the American people realize now that they are going to pay more and the quality of their health care is going to go down. It is no more obvious than the current amendment on slashing the reimbursements to nursing homes or to hospice or to any other area under Medicare.

This is wrong, it should be stopped, and the American people's voices should be heard in this debate.

I thank the Senator.

Mr. MCCAIN. It has been a great time. We are going to do it again, a lot, between now and the time the vote is forced, and the American people are on our side.

The PRESIDING OFFICER. The Senator's time has expired.

The Senator from Montana.

Mr. BAUCUS. Mr. President, this is very frustrating because we have these blocks of time, with Senators lining up to take control of the time and to make their points, and then they flee the Senate floor and we cannot get into a debate or a colloquy. We cannot make points that rebut the points they have made because they have all left the floor.

Mr. CORKER. I am glad to stay here.

The PRESIDING OFFICER. The Senator from Montana has the floor.

Mr. BAUCUS. They all come in and make their points and then they flee.

Mr. MCCAIN. We are here.

Mr. BAUCUS. Good, I am glad they are staying because I want them to

hear this. Maybe we will all learn something.

First of all, clearly, we all care about home health care. I mean, let's obviously agree that we all do. I see the Senator from Arizona nodding his head in agreement; he does care about home health care. This Senator cares about home health care. The Senator from Wyoming, Dr. BARRASSO—here he is, over here—he cares about home health care. He has talked about home health care.

We all know seniors would rather be home than in the hospital or a nursing home, if that is medically appropriate. We all know that. I know that personally. My mother was in the hospital 2 weeks ago, and she is now, thankfully—praise the Lord—out of the hospital, and she is home. We have a home health care person coming in every day to see my mom.

When I am there with the home health care person, I am very impressed. They do a super job. It is really something to behold. My mother loves it and I love it. We clearly are not going to do anything to cut home health care.

But another point I would assume all my colleagues agree with is that we want to cut waste, if there is waste. We want to cut waste out of the health care system. Why should we allow waste, as representatives of our people—the taxpayers? We want to cut out waste. Again, I see the Senator from Arizona is nodding his head, yes, that clearly we want to cut out waste that may or may not occur in the system.

Now, the next question—and it is a question—is, there are lots of forms of waste, and one is fraud—people just ripping taxpayers off and ripping seniors off. That is clear. There is a lot of waste. Let me take one small example in the home health provisions in the Senate bill, and that is this: The General Accountability Office found that in the home health industry there are a lot of outlier expenditures which are fraudulent; that is, some home health agencies classify their expenditures for home health as outliers—as extra payments—for very sick people.

In fact, there is one county in Florida which accounts for 60 percent of all outlier reimbursements, whereas they provide health care for only 1 percent of the Nation's people. The GAO has found lots of examples where the outlier portion of home health is abused. It is fraud. It is abused. Well, guess what. The home health care industry came to us and said: Gee, we have some ideas how to stop that because we don't like rotten apples spoiling our barrel. We want to stop this fraud that exists with excessive outlier payments.

So they came to us with some ideas. I know it is easy to think that suggestions might be classified as deals or whatnot, but that has not happened.

They came with an idea of how to cut excessive costs in outliers, and we have done that. That is in this bill. There are a lot of other provisions with respect to home health care.

I know the Senators have letters from their home States. I don't know if they are referring to a House-passed bill, which is very aggressive in cutting home health care benefits, or whether they have read the most recent language in the Senate bill, which essentially is much less aggressive because in talking to the agencies, they were saying: Yes, we can live with these changes—such as rebasing and market basket updates, phasing them in instead of immediately—with the idea, again, of getting rid of excessive payments and fraudulent payments.

I say excessive because the home health care industry is enjoying an 11-percent growth rate annually, as it is right now in dollars. Well, some think it is 17 percent. The chart I have is 11 percent, but maybe 17 percent. Then the national health care spending rate, spending for all care, goes up about 6 percent a year, about 6 percent a year nationwide. Home health without reform is between 11 and 17 percent. It is almost double.

Under this legislation spending will be about 8 percent. Remember, national health spending is 6 percent, and the home health industry did write a letter saying: Yes, we can live with that.

My approach, frankly, in regard to legislation, is to work with groups, to work with industries and talk to them and not just be draconian and not be arbitrary in cuts or changes. You talk to them to see what accommodations can be made consistent with your principles.

One of my principles is stopping a lot of the fraud and to see if there is a way to cut excessive spending because sometimes there is excessive spending around here, and that is what we have done in the home health industry.

I could go into more detail, but I want my colleagues to know there is real, solid, sound reason for these changes in the home health provisions, and it is my judgment this will not hurt home health care for patients. That is a very important point to make.

The same is basically true with the other industries—say with regard to the hospital industry. We worked with them and said: OK, we know you should be cut. I talked to a lot of hospital administrators privately and said: What do you think?

They said: Yeah, MAX, we should take a haircut. Our hospital should take a haircut.

As you well know, you sometimes go to a hospital and you say: Good gosh, why do they have that big fountain out front? Why do they have all that marble? Why does this look like the Taj

Mahal? You don't need that for health care.

So then they crank that back for the need of their health care. Some of the executives say to me privately: Yeah, there should be some reductions in hospital payments. So we go to the hospitals and say: What is reasonable? Remember, this is over a 10-year period.

They say: We could take a \$155 billion cut. But they say that, in part, because they know what they lose on the margin they can make up in volume because of everybody's health insurance. That means, too, that we can get health care reform.

You know, it is hard to get the health insurance industry to work with us if there is no health insurance for most Americans. If there is no health insurance for most Americans, then the health insurance industry is inclined to revert back to their old ways—or try to anyway—underwriting insurance, denying policies based on preexisting conditions, et cetera.

So this whole effort is to work with groups—work with consumer groups, with labor, with hospitals, doctors, the insurance industry, pharmaceuticals—to see what is reasonable. That is democracy—to try to get some kind of broad-based kind of rough justice agreement to put this together. That is the effort we have undertaken in this legislation.

I hear criticism, well, gee, we are cutting this and cutting that. But let's remember—and I know my colleagues agree with this—the waste in the American health care system is somewhere between \$300 billion a year to upper estimates of \$800 billion a year. It is waste, and we have to figure out a way to get rid of the waste without sacrificing care and actually, at the same time, improving the quality of care. That is the major goal.

So when you see reductions in some of the payments to providers, a lot of that is an honest attempt to get rid of the waste or excessive payments. Let's take Medicare Advantage. Somebody quoted Tom Scully today. I have a quote from Tom Scully that says there is way too much spending in Medicare Advantage. I don't have the exact quote, but it is basically a public quote that we should cut Medicare Advantage spending because there is way too much expense in Medicare Advantage.

It is a question of judgment as to how much to cut, I grant you. But still there are areas where there is excessive spending, there is waste, and home health care is a good area where we worked hard to refine the changes to get rid of some of the fraud—the outliers I mentioned—but in a way that helps seniors get good home health care.

The PRESIDING OFFICER. The Senator from Tennessee.

Mr. CORKER. Mr. President, I noticed the senior Senator from Montana

referred to us being here, and I wonder if he would yield for a very short question.

Mr. BAUCUS. I agree, so long as it comes off their future time.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CORKER. Well, I think we have a lot of time today, so I think that will work.

Mr. President, I was wondering if the Senator from Montana might educate us—and all seniors in this country who receive Medicare—if his intent is to make Medicare work better—and, by the way, I think he is, in some cases, working sincerely to do that—why is he taking those savings away from Medicare? And being the distinguished chairman of the Finance Committee, he knows as well as anybody in this country that Medicare is insolvent. Why is he not using whatever he believes to be good savings—and we may disagree with those savings—to make Medicare solvent, or at least to pay the physicians who treat Medicare recipients? They are going to get a 23-percent cut next year, and it will take \$250 billion just to make them equal in 10 years. Why is he not using those savings to actually make Medicare work for the people who are already receiving it versus leveraging all the entitlement from one insolvent entitlement to another insolvent entitlement? Why would the chairman of the Finance Committee consider doing something like that?

Mr. BAUCUS. Mr. President, I would very much like to respond to that question. First of all, I appreciate the implied premise in the statement that the Senator agrees there should be savings. The question is, Where should the savings go? I mean, basically, the Senator is implying there should be savings, and that is very good to hear. I think that is a very constructive addition to a part of this dialogue, this conversation, that we should take savings because there is waste.

The Senator's question is, OK, you take the savings, what should we do with the savings? That is the basic question.

The fact is, because of the reforms in Medicare, a couple things are happening. No. 1, we are extending the solvency of the trust fund; it is another 5 years. The Medicare trust fund will now be extended 5 years, so that helps seniors.

I know the Senator didn't mean this at all, but, rhetorically, earlier he said: Why does this side want to throw seniors under the bus? I know he didn't mean that. I know he knows nobody is trying to throw seniors under the bus, nobody wants to do that in the Senate. But the fact is, these changes do extend the solvency of the trust fund.

Then he asked a different question, and it is a very good question. It is a judgment call, what should be done

with the additional savings? This legislation takes those savings to help more people get health insurance. One could argue those savings should not be used to help those without health insurance get health insurance for them. They could go back to the Medicare trust fund, they could reduce the budget deficits—there are a lot of different options here. But this is a health care reform bill. In this legislation, we are trying to come up with a system, if you will, that gets some coherence nationwide in health care. We don't have a system today. It is a hodgepodge. It is a collection. It is kind of a free-for-all. Docs do their things, hospitals do their things, nursing homes do their things; each attempt to get health care based on profit motive, but it is kind of incoherent. There is no real—anything there.

We say let's try to look for coherence. We are the only industrialized country in the world that does not have some system, some way where everybody has health insurance. It seems to me we should try to see if we can have some kind of system, some way, where everybody has health insurance. I know it is extremely complicated. There is no doubt it is complicated. But if people have health insurance, that opens up lot of doors for other reform; one is to prevent companies, health insurance companies, from denying coverage based on preexisting conditions, health care status, and so on and so forth, because then what they lose on the margin, they can make up in volume because everybody has health insurance. It is the same with the hospitals, same with the pharmaceutical industry, same with virtually all providers, the whole system. If everybody has health insurance, not most everybody—more have health insurance the better the system is.

That is a judgment call. But I do believe, when people have health insurance—those who do not now have it—are going to be more healthy. I think that is a good thing. Hospitals will not have to worry near as much about uncompensated care, which is a big challenge to hospitals these days. The average, I think, is about \$1,100, \$1,200 a year per family, when it comes to uncompensated care that private patients' pay. Then, after that, we open up doors to delivery system reform. You get the system working a lot better, compensating more on quality outcomes rather than quantity, et cetera. I know the Senator knows much about all these things.

But it is a judgment call for those savings. I am glad the Senator seems to imply there should be or are savings, but it is a judgment call as to where the savings go.

The 21 percent in docs, we are going to have to take that up after this bill. It is going to be difficult because some want to pay for it; some want to not

pay for it. I grant you, that is going to be a huge battle.

You might ask: Why is that not in this bill?

Mr. CORKER. I did ask.

Mr. BAUCUS. My answer to that is, A, it is not part of health reform. But, B, on the other hand, it is; they are docs, we care about our docs and we are going to have to find a way to pay for them and we will, I think, by the end of this year because we have to. Docs—there cannot be any reduction.

Frankly, there is a partial fix in this bill anyway. It is 1 year with an update. At least this bill does take care of docs for at least 1 year and with an increase. That is 1 year. The House wants a permanent fix.

Frankly, I would love to have a permanent fix, but we are having a hard time finding the dollars to pay for it all, but this legislation does have a 1-year fix for docs.

I yield to the Senator from Massachusetts.

The PRESIDING OFFICER. The Senator from Massachusetts is recognized.

Mr. KERRY. Mr. President, just one moment?

Mr. BAUCUS. If the Senator will yield, I thank my colleagues for staying on the floor. I appreciate that.

Mr. KERRY. Mr. President, I just was notified—I wish to respond to a few of the things here. The Senator from Arkansas has the pending amendment. My amendment is apparently not quite ready to be called up. What I want to do, if I can make a couple comments so the conversation doesn't stay where it is, prior to the Senator from Arkansas and then I will yield and then I would like to be able to come back after that with my amendment.

I wish to say to our colleagues on the other side of the aisle, I have listened carefully, obviously, for a number of days now. I notice most of them have, indeed, disappeared—as the Senator from Montana suggested. It is pretty hard to have a legitimate debate in the Senate when people speak and then leave the floor and we can't actually test the things that have been said.

One of the things that was said a moment ago by the Senator from Utah was, you cannot find any doctors who support this plan. Can you find doctors who oppose it? Absolutely. I will give him that. But don't come to the floor of the Senate and suggest there are not huge numbers of doctors across the country who are desperately waiting for the Senate to pass health care reform and, in fact, this plan. In fact, the AMA—this is what the AMA says. They represent tens of thousands of doctors across the country, and they said:

[We are] working to put the scare tactics to bed once and for all and inform patients about the benefits of health reform.

We have heard an incredible amount of scare tactics, Senator after Senator standing there, jumping up, pounding

out one sort of misstatement or one distortion or another. The bottom line is, they have stood there for the last hour or so, claiming they are standing there to protect seniors. It is ironic, when one Senator, the Senator from Arizona, who said yesterday and sort of repeated it today—this is what he said yesterday:

I will eagerly look forward to hearing from the authors of this legislation as to how they can possibly add  $\frac{1}{2}$  trillion in cuts without impacting existing Medicare programs negatively and eventually lead to rationing of health care. . . .

That is the Senator from Arizona today.

Only a year ago, when he was running for President of the United States, this is what the Senator proposed:

"John McCain would pay for his health plan with major reductions to Medicare and Medicaid," a top aid said, "in a move that independent analysts estimate could result in cuts of \$1.13 trillion in 10 years to the government programs."

Consistency, obviously, has never constrained anybody in politics. We know that. But to stand there, over the last half hour or 45 minutes, and say: Seniors are going to get hurt and seniors don't support this and we are here to protect seniors—just a few days ago the organization that represents 40 million seniors in America, it is the largest single representative group of seniors in our country—we all know it, it is called AARP. It is the American Association of Retired Persons. It represents people from 50 years old on up. There are a total of about 90 million of those in the United States of America, so they represent about half the seniors in America.

Their interest, day to day, is making sure those seniors' interests are not hurt by what we do here in Washington. Here is what they said, on November 20:

Opponents of health reform won't rest. [They are] using myths and misinformation to distort the truth and wrongly suggest that Medicare will be harmed. After a lifetime of hard work, don't seniors deserve better?

This is what AARP said a few days before that, on November 18:

The new Senate bill makes improvements to the Medicare program by creating a new annual wellness benefit, providing free preventive benefits and—most notably for AARP members—reducing drug costs for seniors who fall into the dreaded Medicare doughnut hole, a costly gap in prescription coverage.

The Federation of American Hospitals said the following:

Hospitals always will stand by senior citizens.

They have no intention of pulling out the support that exists today.

The American Medical Association:

[We are] working to put the scare tactics to bed once and for all and inform patients about the benefits of health reform.

The Catholic Health Association of the United States:

The possibility that hospitals might pull out of Medicare [is] very, very unfounded. Catholic hospitals will never give up on Medicare patients.

So everything we have just heard continues the scare tactics, trying to gin anger in America that is unfounded, based on the basics of this bill. Let me call attention—this is the report this year in March that came out from Medicare—it is about Medicare payment policy. It is a report to us, the Congress, by MedPAC. As we all know, MedPAC is the entity that oversees the administration of Medicare, and its concern is maintaining the viability of Medicare, making sure Medicare patients are not hurt by a particular program.

What is in this bill—that Senator BAUCUS and those of us on the Finance committee put in the bill—is precisely what MedPAC told us we should do and could do without harming seniors. Let me share, specifically, what they said we should do:

The recommendation is that Congress should eliminate the market basket increase for 2010 and advance the planned reductions for coding adjustments in 2011 to 2010 so that payments in 2010 are reduced by 5.5 percent to 1990 levels.

They suggested that. They did it because they know it will make the program sounder and it will allow them to make payments in other areas of Medicare that wind up taking care of Medicare beneficiaries more effectively. They said:

The Congress should direct the Secretary [of health and human services] to rebase rates for home health care services to reflect the average cost of providing care.

That is precisely what we do here. But the other side jumps up, and they will take any change, anything that reflects a shift from one place to another—they will exploit shamelessly in an effort to scare seniors and pretend it is somehow going to affect them.

What is interesting—and America ought to take note of this—they keep coming to the floor and they keep opposing what is here. They keep wanting to strip something out. They keep wanting to send the bill back so that ends this process altogether. But they do not come to the floor of the Senate and show us how we could fix it more effectively and, in fact, serve seniors better, rather than just embracing the status quo. Everyone in America knows the status quo is unacceptable. We cannot afford it. Medicare will go bankrupt within the next 10 years, and then where are we going to be?

This is the time for responsible action, and every step we have offered offers that kind of responsible action without reducing care.

I will make one last comment and I will yield to the Senator from Arkansas and then come back and talk about further ways in which this, in fact, serves seniors and others more effectively. But as they have talked, for the

last moments they have been talking about home care cuts.

I have an amendment that shortly we will talk about that will prohibit any reduction in home care, that will guarantee we are clear that we are prohibiting any reduction in home care. But I have long been an advocate for better home care, more home care capacity. In the Finance Committee, I offered amendments to sustain that home care quality.

Nobody worked harder than our late colleague Senator Ted Kennedy, with whom I worked for years on this, to try to extend home health care, protect home health care patients and augment home health care. Here is what the people who represent home health care in America have to say. This is from the National Association for Home Care & Hospice, a letter they sent to Senator BAUCUS. It was a letter they sent yesterday.

The National Association for Home Care & Hospice supports making health care available to all Americans. We believe that everyone must be willing to sacrifice to make this happen. [The National Association for Home Care & Hospice] has agreed to do its part by reducing costs and payments in a manner that makes the Medicare home care program more efficient and less susceptible to abuse. We are grateful for the opportunity to make these improvements and at the same time protect the thousands of ethical providers who are participating in this important program. We are pleased to have the opportunity to work with your staff to make this happen. For all these reasons, [the National Association for Home Care & Hospice] supports the provisions of your health care reform legislation as they relate to home health care. We look forward to working with you and your staff. . . .

Thank you for [the] important work [you are doing].

Who better to speak to the concerns of home health care? The folks who have continually been distorting this debate and who continue to try to scare people, or an association whose sole existence, whose payroll every day is put to the use of protecting the folks they represent in home care? I think the answer is self-evident to anybody who wants to listen to common sense.

Mr. BURR. Will the Senator yield for a question?

Mr. BAUCUS. It will have to be on your time.

Mr. BURR. I would ask the Senator from Massachusetts, relating to the quote from Senator MCCAIN that he showed, is the Senator aware that the day after that, factcheck.com said that was false?

Mr. KERRY. What I am aware of is that the individual who was running for President of the United States never stood up and said it was false. I don't have any quote of Senator MCCAIN ever refuting it. All I can say is that throughout the campaign, that was the operative language. It was debated. It was never refuted.

I yield the floor.

The PRESIDING OFFICER. The Senator from Arkansas.

Mrs. LINCOLN. Mr. President, I am proud to join in this debate on an issue that is absolutely critical to all Arkansans and all Americans. I compliment Chairman BAUCUS because, as we talk about this issue in terms of health care reform, clearly, our delivery system in health care is broken. We have the best hospitals and doctors, research and technologies in the world. Yet our delivery system is broken. For the last 24 months, the Senate Finance Committee has held hearings and roundtables, summits, all kinds of different deliberative efforts working in partnership with associations that represent providers, advocacy groups on behalf of patients, anybody who would come to the table to talk about how we reform this system and make it better for the constituents we serve, the patients who are the ultimate recipients of the health care system. I applaud him and the work we have done.

To anyone who says we are jumping in here and moving too fast, I have tremendous respect for the minority leader from Kentucky. My husband trained at Kentucky, did his subspecialty there. His admiration for one of those he trained with is a good friend of Senator MCCONNELL's. But the minority leader's comment that we are saying to our constituents, sit down and shut up, again, like the comment from the Senator from Tennessee that we are throwing seniors under the bus, we are in a body that is here to be respectful of one another, respectful of our differences, our different approaches, how we come to the ideas we have of how we solve these questions.

The Senator from Massachusetts brings up a great point. Where are the suggestions from the other side of how we solve this? Come to the table. Are they going to come to the table with ideas of how we do something other than just going with the status quo? Clearly, Americans understand that we are not throwing them under the bus. We are trying to figure out how we preserve a Medicare Program that is going to be bankrupt in 2017. How do we make the difference in the delivery system so we bring down those long-term costs in health care, so that we can actually preserve the programs that work and that are so meaningful to people in their lives. As we come to this debate, I hope we will continue the age-old attitude in the Senate of being respectful for one another's views and one another's efforts in trying to bring about something that will make sense and that will be helpful, not throwing people under the bus, not telling constituents to sit down and shut up, but actually working hard to come up with some solutions.

Senator MCCAIN was trying to call an awful lot of people in Arkansas. My mother was one of those whom he tried

to get in touch with to tell them that something is wrong up here and that we are not doing what we need to do. I certainly visit with my mom an awful lot. I hear about her experiences and the concerns she has about Medicare, which is a system that is great for her, and I am proud I live in a country that provides her with that kind of care. She does believe very strongly in some of the things she has seen in her Medicare bill, inefficiencies that could be changed, ways that we could make it a better program. I hope we will all come to the table here with good ideas and ways that we can make a difference.

I notice that there was an effort or certainly a concern about wanting to add people to my amendment. I would welcome Republicans, if they wish to offer their own amendment to include other entities, if they wish to do that. I have worked on my amendment, and I like my amendment the way it is. I think it focuses on an industry with the sole purpose to provide health insurance. Their sole purpose is to provide health insurance. If they want to add other people—

Mr. THUNE. Will the Senator yield?

Mrs. LINCOLN. I will continue visiting for a moment, and then I will let the Senator take time on his part. I am directing it solely to those businesses whose only purpose is to provide health insurance for the people of this country.

I refer as an example to an article that came out yesterday. It references basically one of our large national insurance companies working hard, at least I hope they are, to do what is right. I see that they are going to be dumping 600,000-plus customers because they don't think their profits are big enough. Yet I look at the record, and I believe their CEO actually, in 2008, made over \$24 million. If they can pay their top executive \$24 million last year but they are going to complain that their profits are not big enough, that they have to dump patients, I would ask my colleagues, where do we go to correct this imbalance, if it is not to a very plausible amendment? My amendment does not restrict what industries, corporations can provide or give their executives in pay. It says we are not going to subsidize that with tax dollars. The very American taxpayers they are dumping are the ones who are subsidizing those incredible executive pay amounts.

I have to say to my friends over there, those over there who are defending the status quo on behalf of the health insurance companies and their executives who are receiving these multimillion dollar compensation packages, it took nine of them at one time, so it is a tough lift to be able to defend these executive compensations for insurance company executives; otherwise, nine of them wouldn't have been down here trying to shift the conversation to something else.

The American people do understand that is out of balance. Here we are with an opportunity to provide these insurance companies even more customers. We just simply want to be reassured that we are not, through taxpayers' dollars, subsidizing these enormous executive compensation amounts and, more importantly, that the savings that come from that are going to go into the Medicare trust fund to shore it up.

I appreciate everyone's debate and their efforts to come to the floor today and talk about a critical issue. I remind my colleagues, current law allows all businesses to deduct up to \$1 million annually per executive as a business expense. That is a million dollar tax break per executive per company that is subsidized by the taxpayers. There are multiple more ways they can obviously provide greater compensation, and there are lots of loopholes in there that allow them to get tax subsidies for more compensation for their executives. My amendment would limit this amount to \$400,000, the very amount the highest public official in this land gets paid, the President, a \$400,000 salary for those health insurance companies that will profit as a result of the health insurance reform.

Our objective is to get more people insured. Working diligently through all of these technicalities, trying to get more people insured, we are creating a new marketplace for them with more consumers, a tremendous amount. This is only in regard to health insurance companies. It doesn't dictate what a business can pay an employee. It does limit the taxpayer subsidies for compensation. This is a fair policy. It is aimed at encouraging health insurance companies to put premium dollars toward lower rates and more affordable coverage, not into their pocketbooks. They are complaining about profits. Yet they are still paying these executives a tremendous amount of money. To be sure, there is evidence these companies need the encouragement to do the right thing for consumers. Where health insurers spent more than 90 cents per every dollar on patient care in the early 1990s, that number has decreased to just over 80 cents per dollar. For every dollar they spend, only 80 cents of it goes back into their efforts to provide coverage for consumers. That is in 2007. Those are the numbers we have.

According to testimony delivered to the Senate Commerce Committee earlier this year, this trend has translated into a difference of several billion dollars in favor of insurance company shareholders and executives at the expense of health care providers and their patients. It is imperative that we do what we can to reverse that trend, particularly now when millions more Americans will be purchasing their health insurance coverage as a result

of this health reform package. Taxpayers are footing the bill for this subsidy, and we must take steps to deter the health insurance companies from further enhancing their profit margins at the expense of the American people.

We had a lot of Senators who came to the floor this morning on the Republican side to defend the status quo on behalf of the health insurance companies and their executives who are receiving these multimillion dollar compensation packages. Maybe they don't understand that under current law, the American people are already footing the bill for this tax windfall for health insurance executive pay. As we move forward, it is going to be a greater benefit to those executives and the ability for these insurance companies to be able to do that. We want to keep those insurance companies in business. We want to make sure they are there as providers. It is just a disconnect when they say they have to cut 600,000 of their insured under the current system because their profits aren't high enough. Yet they are paying their top executive a \$24 billion compensation package that is subsidized by the taxpayers.

I hope we will work together to figure out what is the right place to be here, if what we want to do is to make sure we are reforming health care, that we are asking everybody to come to the table and make an effort in putting ourselves back on track. Ultimately, we want that quality of life that a new, reformed health insurance and health care delivery system can provide. We also want to make sure we strengthen our economy. Making sure we make good use of every medical dollar, that we are getting the biggest bang for that buck is a critical part of putting our economy back on track.

The assumption on the other side has basically been based on the current and broken marketplace where insurance companies really do bully their customers and monopolize choices. I don't know about their phones, but I hear a lot on my phones and from my constituents that they can't get insurance.

They have a neighbor—a hard-working woman who is a single mom—who cannot get insurance because of a pre-existing condition. I have others who have had insurance, and then when they did become ill, they got dropped.

So our hope is we look at this in the context not of the broken marketplace that exists today but of what we are trying to create, and that is, a more robust marketplace, and one that makes sense both for insurance companies and for consumers as well.

With insurance market reforms we plan to implement, along with more consumer choices through the exchange, these insurance companies are going to have to work to keep up with the business they have and to be able to be there for future customers. That

is a healthy marketplace. I do not think I will get any disagreement from my colleagues on the other side that competition and choice is the way to go in the marketplace. That is who we are as Americans. It is to let those who have that entrepreneurial spirit—who want to get in the marketplace and provide a product at a reasonable cost—to be an active part of the marketplace. That is what we are trying to encourage in this legislation.

So the amendment I am offering today would set the deduction cap at the same level as the highest paid government official, and that is the President. It is estimated to save approximately \$650 million over 10 years, and will place these savings in the Medicare trust fund to further strengthen the solvency of that fund and protect our seniors.

We want desperately to make sure we protect our seniors. We know that in many instances there are Medicare Programs out there, unfortunately, that are oversubsidized, which means those who are in regular Medicare Programs are having to pay for the outrageous subsidies in these other Medicare Programs. We want to make sure we bring them to balance and create a better system for everybody out there. That means bringing down long-term costs. It means making sure we are protecting Medicare for all seniors. It means we do it in a deficit-neutral way, which we have done in this bill and the other bills we worked on in the Finance Committee. It means we work to put our best foot forward and bringing about partnerships between States and the Federal Government, as well as with providers who understand this delivery system is broken as well.

So in closing, the choice on this vote is very simple: either you support these revenues being placed in the Medicare trust fund or you support having the IRS write a check and sending it to health insurance companies to subsidize the multimillion-dollar salaries they are paying in their taxes.

I urge my colleagues to support this effort on behalf of the American taxpayer and on behalf of our seniors, and to vote in favor of this amendment that I feel has been structured in a very fair way.

Mr. President, I yield to the Senator from Montana.

Mr. BAUCUS. Mr. President, I think we have less than 4 minutes remaining on this side. I see someone else who wishes to speak. I promised him time, and Senator DURBIN as well. I know they are both eloquent orators. It is a bit difficult here. So I will split it in half, the time remaining, between each of the two.

Mr. DURBIN. I say to the chairman, I would yield whatever time I would have and come around in the next round.

Mr. BAUCUS. Fine.

Mr. DURBIN. I yield to Senator NELSON. And I think Senator KERRY wanted to lay down an amendment.

Mr. BAUCUS. Thank you.

Mr. NELSON of Florida. Mr. President, the Senator from Florida has 4 minutes?

The PRESIDING OFFICER. He has 2½ minutes.

Mr. NELSON of Florida. Well, let me say, the people of Florida gave me one of the toughest jobs I ever had in my life when they elected me the insurance commissioner 16 years ago of the State of Florida. I have some familiarity with the conduct of the insurance companies, and it does not surprise me that the insurance industry is out to kill this legislation and is spending millions of dollars running TV ads.

It does not surprise me that the insurance industry was very interested in this legislation to begin with, when we were going to expand all of those 46 million people who do not have insurance, to bring them into private insurance.

It does not surprise me that since they have calculated they have to do their part, and that this bill will not allow them to cancel policies in the middle of somebody getting their health care—and we have heard those horror stories: in the middle of chemotherapy, suddenly, the woman gets the notice that her insurance is canceled. We have heard those horror stories of that little boy who was a year old and was heavy in pounds, and the insurance company said: We are not going to cover him. We hear the stories that: Oh, no, we can't insure you because you have a preexisting condition. And when you look what that preexisting condition is, it was a skin rash.

Did you ever hear of the word cherry-picking? That is the typical modus operandi of insurance companies that want to keep their profit. They cherry-pick the good risk, the healthy ones, and they deny insurance to the ones who need the health insurance.

So as we come to consider the amendment of the Senator from Arkansas, which I support, as we, many times, come to hear all of this extraneous argument, come right back to the main function. When you try to—

The PRESIDING OFFICER. The Senator's time has expired.

Mr. NELSON of Florida. When you try to reform the health care system, look who is trying to kill the reform.

Thank you, Mr. President.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. GRASSLEY. Mr. President, I yield 5 minutes to Senator COBURN.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. COBURN. Mr. President, I thank you. I appreciate it. I sat here and listened to my colleagues to hear their input. I find it extremely peculiar that the only industry for which you would

limit their taxes is one that has not struck a deal with the committee. The only one. Pharmacists are going to spend \$70 million advertising for this bill. The other industries are putting up additional moneys to advertise for this bill. The only industry that we are going to restrict is the industry that is in opposition to what we are doing. It is interesting.

Senator CORNYN made the point with me a moment ago that we are going to take \$450 billion, and we are going to give it to the very industry you are talking about. We are going to take \$463 billion from Medicare and give it to the same industry you are now criticizing.

Senator BAUCUS said—and let me quote—he said: As we tried to work this, it was “rough justice” to put this agreement together. This is democracy.

It was done behind closed doors. That is not democracy. It was done behind closed doors. The Senator from Arkansas asked why we have not brought forward something. The Senator from Massachusetts asked. The first bill introduced was the Patients' Choice Act.

I commend to my colleagues a white paper by Thomson Reuters, a very well respected firm, talking about the \$600 to \$850 billion worth of waste in the health care system today, entitled “Where Can \$700 Billion in Waste Be Cut Annually From the U.S. Healthcare System.”

The reason we are concerned about \$465 billion coming out of Medicare, to be paid to the very insurance companies you are going after right now, is because we are not going where the real waste is. The promise of the President was to cut the cost of health care. Right here is where it is. This bill does not touch it.

There is \$175 billion a year in fraud in the health insurance industry. You all go after \$2 billion of it—\$2 billion. There is \$175 billion a year in fraud. What is in it? Nothing. We are going to manage to pay a private industry, but only the private industry that will not play along behind the closed door, rough justice of democracy in this country.

When Senator CORKER asked the chairman of the Finance Committee, Why are you taking the money from Medicare and using it somewhere else, rather than extending the life of Medicare, he did not answer the question. The fact is, there is a \$44 trillion—according to the latest calculation, if you go to the Medicare trustees: \$44 trillion—counting what has been borrowed—unfunded liability over the next 75 years for Medicare. We are going to take  $\frac{1}{2}$  trillion out of that program that we all know is going wrong. And I do not doubt the motives of anybody here. I just think we are misdirected. And we are going to take that and spend it on another program.

That is where people ought to be concerned.

It is interesting—I will submit another document for the RECORD. This is a report from the Congressional Research Service, released December 1, 2009, at my request.

I ask unanimous consent that document be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### MEMORANDUM

DECEMBER 1, 2009.

To: Senator Tom Coburn, Attention: Evan Feinberg.

From: Thomas L. Hungerford, Specialist in Public Finance, Congressional Research Service.

Subject: Public and Private Expenditures for Health Care, 2007.

This memorandum responds to your request for information on total national health expenditures for health care and the proportion funded by the federal, state and local governments. In particular you are interested in incorporating tax expenditures into the estimate of the proportion of national health expenditures coming from public sources. It can be argued that some private health expenditures should be attributed to the public sector because of tax subsidies available for health care spending.

Table 1 reports the breakdown of national health expenditures by source of funds. In 2007, national expenditures amounted to \$2.24 trillion, of which 53.8% came from private sources such as private health insurance and 46.8% came from public (federal, state, and local government) sources. This breakdown, however, does not take into consideration the tax subsidies for private funding for health care. For example, the exclusion of employer provided health care provides a subsidy for private health insurance, which could be counted as public funds rather than private funds.

Incorporating tax expenditures into the breakdown of health expenditures into public and private sources will change the results that are reported in Table 1. The intuition behind the analysis is fairly simple. For example, take a dollar an employer pays for a premium for an employee's health insurance. This dollar is part of the employee's compensation, but it is not taxed like other income (at an average federal, state, and local tax rate of 15%); it is excluded from income for income tax purposes. In essence, the employee receives a 15 cent government subsidy for this dollar spent on health insurance—the government pays 15 cents and the employee pays 85 cents. This suggests that some funds that are classified as private in Table 1 could arguably be classified as public funds.

TABLE 1—NATIONAL HEALTH EXPENDITURES BY FUNDING SOURCE, 2007

Source of funds	Amount (billions)
Total National Expenditures .....	\$2,241.2
Private Funds .....	1,205.5
Out-of-pocket payments .....	268.6
Private Health Insurance .....	775.0
Other Private Funds .....	162.0
Public Funds .....	1,035.7
Medicare .....	431.2
Medicaid (federal, state and local) .....	329.4
Other Federal .....	137.0
Other state and local .....	138.1

Source: Center for Medicare and Medicaid Services, Office of the Actuary, National Health Statistics Group, National Health Expenditure Data, table 3, available at <http://www.cms.hhs.gov/NationalHealthExpendData/downloads/tables.pdf>.

Table 2 reports the results of applying this reasoning to total national health expenditures. The table shows the funding sources and public/private breakdown as reported by the Center for Medicare and Medicaid Services (CMS) in the first column. The two columns of numbers show the revised split between public and private funds based on applying the reasoning described above to tax expenditures (the method is described below).

TABLE 2—REVISED NATIONAL HEALTH EXPENDITURES BY FUNDING SOURCE, 2007

(Billions of dollars)		
Source of funds	Private	Public
Private (CMS definition) .....	894.8	*310.7
Out-of-pocket payments .....	257.1	*11.5
Private Health Insurance .....	482.1	*292.9
Other Private Funds .....	155.7	*6.3
Public Funds (CMS definition) .....		1,035.7
Medicare .....		431.2
Medicaid .....		329.4
Other Federal .....		137.0
Other State and local .....		138.1
Total .....	894.8	1,346.4

Note: \*The public portion is due to tax expenditures. Source: CRS analysis of CMS data.

CMS attributes \$268.6 billion of out-of-pocket expenditures to private sources. However, taxpayers are allowed to deduct out-of-pocket medical expenditures exceeding 7.5% of adjusted gross income on their federal and state tax forms. The Joint Committee on Taxation estimates that the federal government lost \$8.7 billion in tax revenue in 2007 from this deduction. Other tax expenditures for out-of-pocket expenses amount to \$0.3 billion. State and local income tax revenues are about 28% of federal income tax revenues; it is assumed that state and local revenue losses from tax expenditures will also be 28% of federal revenue loss estimates. Consequently, it is estimated that state and local governments lost \$2.5 billion from these tax expenditures. The total tax subsidy for out-of-pocket health expenditures is \$11.5 billion.

The Joint Committee on Taxation estimates that federal government forgoes \$251.0 billion in income and payroll tax revenue due to the exclusion of employer provided health insurance and other health insurance deductions. State and local government lose \$41.9 billion in income tax revenue because of these exclusions and deductions. Consequently, \$292.9 billion of the \$775.0 billion for health insurance is classified as coming from public funds. Other private funds for health expenditures include charitable contributions to hospitals and other providers. These charitable contributions are deductible and reduce federal, state, and local tax revenues by \$6.3 billion. This analysis estimates that \$310.7 billion of health expenditures that CMS attributes to private funds could be considered public funds.

The last row of Table 2 reports the revised breakdown of national health care expenditures between private and public sources. It is estimated that public funding sources account for \$1,346.4 billion—60% of national health expenditures can be attributed to public sources.

Mr. COBURN. Here is what it says. I asked them what percentage of health care today is run through the government. You might be interested to know it is 60 percent. As the Finance chairman responded on why we were fixing it, we are going to create 70 new government programs in this bill—70 new

government programs in this bill—and we are fixing the government programs we have now. And we wonder why health care costs are out of control? They are out of control because the government is running 60 percent of it now, and there is no competition for that 60 percent.

Nobody is going to defend outlandish salaries, but it is interesting, we are not going after the outlandish salaries of the companies that are going to spend \$80 million to support this bill, the pharmaceutical companies. We are not going to go after the salaries of the people who run the hospitals who, on average, make more than \$1 million a year. We are not going to do any of those. Only the ones who say: Wait a minute. Maybe this is not such a good deal.

Mr. President, I commend to my colleagues a document entitled "Impact Of The Patient Protection And Affordable Care Act On Costs In The Individual And Small-Employer Health Insurance Markets" from Oliver Wyman and Associates, because what you claim you want to do is going to create 11 million young people who are not going to have insurance, and for those who remain, their insurance is going to cost twice as much.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. COBURN. Mr. President, I thank the chairman for allowing me to respond.

Mr. GRASSLEY. Mr. President, I yield 5 minutes to the Senator from Georgia.

The PRESIDING OFFICER. The Senator from Georgia.

Mr. CHAMBLISS. Mr. President, I thank the ranking member on the Finance Committee for allowing me to speak for a few minutes to simply respond to some of the statements, just as Dr. COBURN has done, that were made earlier.

My friend from Massachusetts, whose heart, I know, is in the right place, talked about the AMA, as if it were the last word in the medical arena, being in support of this bill.

Well, Dr. COBURN is a practicing physician, and he can speak to this maybe even better than I can, but what we know is that the AMA represents 10 percent of the practicing physicians in America—10 percent. That means 90 percent of the docs in America do not belong to this group that sent this letter in support of the Senate bill.

I speak to this with authority because my phones have been ringing off the hook since this debate started months ago—the calls coming in from docs around the State of Georgia, who are violently opposed to the Senate bill—as it was being discussed and as it came out of the closed-door session that took place across the hall after the leadership in the Finance Committee, after the leadership in the

HELP Committee could not agree on the direction on which we want to go.

The Senator from Massachusetts said we are here scaring seniors. Well, I hope we are. Seniors ought to be scared. They ought to be scared to death of what is going to happen here because we are taking almost \$500 billion out of Medicare, a program that a bipartisan Medicare Commission has said is going broke. And the Senator recognized this: It is going broke. We are taking \$500 billion out of it. Whether you agree or disagree that the cuts in Medicare proposed by the Democrats are legitimate, we ought to be taking that money and putting it back into Medicare to save that program for the long term.

The Senator from Tennessee asked the right question to the Senator from Montana, and he took 10 minutes responding to the question. And Dr. COBURN is right, he did not answer the question. There is a good reason why he did not answer the question. Because there is no legitimate answer to taking this \$500 billion out of Medicare and creating an entirely new entitlement program that in and of itself is destined to go broke.

If seniors are not scared by what we are saying, simply go to your doctor. Go to your doctor and ask your doctor about this. I know what happens to patients, Medicare patients who go to physicians who are generally in the range of 45 years or younger. Those physicians are not taking additional Medicare patients or any Medicaid patients because they can't afford it. The reimbursement rates to the physicians are less than the cost of the services they render.

The Senator from Montana said: Well, we understand that, yes; there is \$250 billion in reimbursements over the next 10 years that we need to take care of. And we are going to take care of. And I appreciate that because we need to. But it is in the House bill, and the House bill is \$1.2 trillion. It is not in this bill, other than the 1-year fix the Senator alluded to. That is the reason the House bill is \$1.2 trillion and this bill is about \$800 billion. That is the sole difference in the two, basically.

But we are coming back, and in addition to the \$800-plus billion expenditure in this bill, we still have a hole to be filled to try to take care of these docs or there is going to be a wholesale refusal on the part of the medical community to see Medicare patients. That should scare seniors. So I hope that message is getting out there.

I wish to close with one other response to my friend from Massachusetts who said the National Association for Home Care and Hospice is the leading organization in America in dealing with this issue, and we ought to listen to them. Let me tell my colleagues what they say about what is going on in my State.

I quote from a letter that has already been introduced dated December 4 from the Georgia Association for Home Health Agencies. In this letter the executive director says:

According to a study conducted by the National Association for Home Care and Hospice, under Senator REID's bill, 72 percent of home health agencies in Georgia will have negative margins by 2016 in the Senate bill and approximately 68 percent of the 100 Medicare Certified home health agencies in Georgia will go out of business and the patients they serve will be rehospitalized or forced to seek alternative more costly care.

Well, I don't know how it is in the other 49 States, but I want to see our patients, our Medicare patients in Georgia, do what they want to do, which is stay at home for the most part and receive the good home health care they are getting today which, frankly, allows them to live a better quality of life and a longer life. It is pretty obvious—

The PRESIDING OFFICER. The Senator's time has expired.

Mr. CHAMBLISS. From this letter that is not going to happen.

I yield back, and I thank the ranking member.

Mr. GRASSLEY. I yield to Senator MURKOWSKI for 5 minutes.

Ms. MURKOWSKI. Thank you, Mr. President, and thank you to my colleague from Iowa.

In this morning's Wall Street Journal there is an article—actually, an editorial—and it starts out: "Another Day, Another Study," confirming that Obamacare will increase the price of health insurance. It goes on to talk about a Blue Cross study. It talks about CBO numbers. But the reality is, we have numbers all over. I think we all recall the quote from Mark Twain: You've got liars, damn liars, and statisticians.

Well, I think we are caught up in that world now of dueling numbers. Our numbers say this is going to increase your premiums. The other side's numbers say it is going to decrease your premiums. So the real question is, Who is right and whose numbers do you look to?

Well, I think it is important, as so many of my colleagues have mentioned this morning, when we are talking about whether it is the home health care statistics in a State they impact, to look to those States and what they are saying the impact will be. So I have gone to our State's think tank, if you will. The Institute for Social and Economic Research at the University of Alaska is the entity that does a lot of analysis, not only on health care policy and issues but other economic issues. I have asked them, let's sort through some of these numbers. Let's sort through some of the statements that have been made out there. I think it is important to share this morning some of the statements coming out of ISER.

When we talk about the premiums Alaskans are going to face, instead of a

statement, a very simple statement, that, well, your premiums are going to go down, what ISER is saying is, when we look to the CBO estimate of the increase in the average premium for the nongroup market, what we expect to see is about a 12-percent increase by 2016. For single coverage, this is about \$1,160 a year, and for family coverage it is about \$2,900 in 2016.

ISER is still conducting the analysis to determine the extent of the subsidies that may be available for Alaskans that could, in fact, reduce those premiums. But I think it is important to make clear that we are understanding what we are talking about when we make statements such as, well, this is going to increase or this is going to decrease. We need to make sure we are looking at all of the numbers.

CBO has very clearly stated that the average premium per person for new nongroup policies is going to be between 10 and 13 percent higher in 2016 than the average premium. So we have to say, well, what is the difference between that statement and the statement the Democrats have made saying that the premiums are going to decrease by 14 to 20 percent? We have to look behind the screen, behind the curtain.

Two of the factors, administrative efficiencies and new enrollment, will make premiums go down, but these reductions are then overwhelmed by a 27- to 30-percent increase in premiums because of the coverage requirements that are mandated within the bill. The Democratic analysis that is out there omits this 27- to 30-percent increase, fundamentally flawing the analysis.

What are some of the other things ISER has taken a look at as it relates to this bill that is before the Senate right now? They have stated that because Alaska is a high-cost State, it is highly likely health insurance plans in Alaska will become subject to the excise tax on health insurance sooner than the U.S. average. The preliminary estimate is that roughly 50 percent of health plans in Alaska will be subject to the tax by the year 2016 compared to only a 19-percent average in the rest of the lower 48. They have also indicated that while the uninsured population will be reduced in Alaska, adding approximately 65,000 new enrollees to the market, their concern—and this is a statement I think is very important—is that the newly enrolled Medicaid expansion, and through the new exchange, will create a big surge in demand that could easily create what they call a “traffic jam” in the health care system and send the Medicare beneficiaries to the back of the line in Alaska due to Medicare’s low reimbursement rate. This is exceptionally important for us to understand.

On today’s front page of the Washington Post there is an article about Texas—

The PRESIDING OFFICER (Mrs. SHAHEEN). The Senator’s time has expired.

Ms. MURKOWSKI. The only statement we need to remember from this article is that even with insurance, you need somewhere to go.

Thank you, Madam President. I yield the floor.

Mr. GRASSLEY. Madam President, I yield myself 5 minutes.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. GRASSLEY. I rise to tell my colleagues why I am going to vote against the Lincoln executive compensation amendment. This amendment picks out one set of executives in the entire health care arena and singles out that one set of executives for limits on compensation. In the entire health care sector of the economy, this amendment suggests that only one group of executives warrants this sort of special treatment, and that happens to be the executives of health insurance companies. This amendment then takes that excess compensation that apparently Congress knows is the appropriate amount for compensation and devotes that excess money to the Medicare trust fund.

Well, a very commonsense question in this town of nonsense is, why not limit compensation for executives in other areas of health care? What about the executives of hospitals? Shouldn’t their excess compensation go to protect Medicare? Why not executives of nursing homes then? Why not executives of medical device manufacturers? Why not limit compensation on the people who run home health agencies? Why not limit compensation for doctors? Why not limit compensation for executives at the drug companies?

Well, let’s wait a second on that one. We know the answer to the one about why not include drug companies. This amendment can’t touch drug company executives because their industry cut a secret deal where they agreed to some things in this bill, and they are going to get a huge payoff in profits once this goes into effect, as long as they don’t open their big mouth and fight this legislation.

Of course, this all adds up because if you are watching TV at home, or even here on the Hill, big PhRMA is running ads all over the country in support of this 2,074-page Reid bill.

If the idea is for Congress to set the precedent of limiting compensation to protect the Medicare trust fund, then shouldn’t we branch out even beyond the health care industry? We could get a lot of compensation—or we could get a lot of income into the Medicare trust fund by limiting compensation beyond health care to say, for instance, executives of trade associations or union leaders or trial lawyers or baseball players or movie stars. But, no; this amendment focuses on one specific

group of executives who weren’t going to be bought off by this bill. So let’s just call this amendment out for the brazen political stunt it is, and if we do that, vote it down.

I wish to remind everyone in closing that I asked the sponsor to include drug company executives in her amendment but was turned down.

I yield the floor and yield 5 minutes to Senator BROWNBACK.

The PRESIDING OFFICER. The Senator from Kansas.

Mr. BROWNBACK. Madam President, I wish to thank the ranking member from Iowa for his comments on the amendment.

I wish to speak on the Johanns motion and its effect on the State of Kansas and the underlying bill in particular. Cuts to home health agencies of \$42 billion have a huge impact in my State, and I wish to urge my colleagues to support the Johanns amendment and restore that amount of money to the home health care agencies.

Years ago I did some work with the home health care agencies, and anybody who has been around them knows these groups don’t operate on much of a profit margin. They are frequently not highly capitalized. They are high on people and people skills. They take care of folks in their homes. They do a great job of it. They take care of people where they want to be taken care of, which is in their homes and not in hospitals or extended stay facilities.

Home health care and hospice frequently work with people in some of the most difficult times in their lives, when they are facing those difficult, often final, illnesses and they want to do it at home. They don’t want to be in the hospital. They want to be at home with family and friends around comfortable surroundings. In this underlying base bill, home health care is cut \$42 billion from the people who need it the most and from agencies that need it the most and are in dire straits.

I have a chart up here which shows the impact on my State, particularly on home health care agencies. Roughly \$240 million in cuts to home health care agencies in the State of Kansas will take place under this base bill. In this base bill, 64 percent of the home health agencies in Kansas will go broke by 2016, 64 percent by 2016. So just at the point in time where you have a lot of uptake and need for home health care for some people who are aging at that point in time, you are going to cut and you are going to cut this much, \$240 million in my State, 64 percent of them go broke, and for what?

Supposedly, it is to save a bunch of money, right? Well, on top of this, the CMS Office of the Actuary recently pointed out that the drastic cut to home health care will not produce savings to the Medicare Program. According to OACT, the savings from permanent annual productivity adjustments are unrealistic.

Again, that just stands to reason; if you are going to force people out of their homes into a hospital for extended care because you are cutting home health care, you are not going to save money in that system. You are going to spend more money in that system. This is not going to work. It is going to hurt people overall, and it is going to be at a point in their lives when they would rather be at home than in the hospital.

I think these are cruel cuts. I think it is at a terrible time. That is just for home health care, that alone, and then with the hospice. I have a letter from the Kansas Home Care Association that I wish to ask unanimous consent of the Presiding Officer to have printed in the RECORD at the end of my statement.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. BROWBACK. They say in this sentence, among other things:

This will cause an increase in patients seeking care in more expensive institutions which will only cause more of a drain on State and Federal budgets.

It is projected that over 58 percent of Kansas home health agencies will operate at a negative margin in 2010. . . .

I noted to you the number that is going to go broke by 2016. This isn't a far-off prospect. This is even next year, under the current setting. Then they are going to cut another \$240 million from the Kansas ones that will cause even more of them to have great difficulty and financial trouble at this point in time.

I ask my colleagues to revisit this issue. Vote for the Johannis motion that supports home health care agencies. The Johannis motion is simple. It says: Look, restore this piece. Don't take these moneys from home health care agencies. For a number of us who represent a number of rural States, home health care is key. It can be expensive in a rural setting. They need the resources to be able to meet the needs of the seniors we have.

On top of that, in the overall cuts that are taking place are key and major cuts to Medicare Advantage programs. Referring to the chart, there will be a 63.7-percent cut to Medicare Advantage benefits that will affect more than 1 in 10 Kansas Medicare beneficiaries. A \$1.5 billion cut to Kansas hospitals is taking place and an 11.8-percent cut in hospice payments. Home health care agencies often do hospice care as well. So this is a double cut for them.

Again, this is at a point in time in life where it is the most difficult. There is \$124 million in cuts of skilled nursing facilities as well. This will force more people into that setting.

# EXHIBIT 1

KANSAS HOME CARE ASSOCIATION,  
Topeka, KS, December 4, 2009.

Hon. PAT ROBERTS,  
Senator from Kansas.

DEAR SENATOR ROBERTS: On behalf of the Home Health Care and Hospice agencies of Kansas, we would like to support the Republican Senators motions to commit back to the Senate Finance Committee the HCR bill with changes that do not include cuts in payments to both home health and hospice agencies.

This bill includes cuts to home health agencies that total \$42.1 billion and cuts to hospice agencies of \$7.7 billion. In Kansas a number of our member agencies service both home care patients and hospice patients, so they would be hit twice with monstrous cuts.

It is projected that over 58 percent of Kansas home health agencies will operate at a negative margin in 2010 and that number increases significantly in years to follow. Hospice agencies have already sustained cuts that have limited access to the Hospice benefit, particularly in rural areas, which of course is much of Kansas.

Last week Governor Mark Parkinson announced a 10 percent cut to Medicaid providers in order to balance the state budget. Agencies that provide services to Medicaid clients cannot sustain such drastic cuts and access will be severely limited. This will cause an increase in patients seeking care in more expensive institutions which will only cause more of a drain on state and federal budgets.

On behalf of the Kansas Home Care Association members, we applaud your efforts to block cuts to home health care and hospice benefits that the citizens of Kansas and the United States need and deserve.

Sincerely yours,

JANE KELLY,  
Executive Director.

The PRESIDING OFFICER. The Senator's time has expired.

The Senator from Iowa is recognized.

Mr. GRASSLEY. Madam President, I yield 10 minutes to the Senator from Texas.

Mr. CORNYN. Madam President, I want to talk about the breathtaking audacity of this bill, in a takeover of yet another important sector of our economy, at a time when our economy is in recession—and the President was wondering at his job summit just on Thursday, how come the private sector seems to be on the sidelines when they should be back in the game creating jobs. This bill is exactly one of the reasons for that outcome.

This bill is chock-full of avenues that lead to more and more Washington control over our health care system and our economy. The amendment of the Senator from Arkansas would give Washington control over how much money health care executives would make. But we know as a practical matter, in terms of limiting executive compensation, section 162(m) has been a disaster.

Actually, in the past, when Congress has attempted to do this, it has exacerbated the problem by encouraging companies to come up with different ways of compensating their executives that would not be subject to those limita-

tions. This is ineffective in accomplishing the goal the Senator claims she wants.

This amendment also adds to the complexity—it adds mud to the already muddy waters—by imposing complex limitations on just one industry, as has been described.

I listened this morning—amazed—when there were offers to include other organizations such as AARP, which has reaped hundreds of billions of dollars of income from insurance sales, and executives at Walmart in the Senator's home State, who are also involved in the health care industry. Of course, those were rejected. Our favorite game around here is to try to demonize certain parts of the private sector and, of course, if the private sector is not involved in creating jobs, all that leaves is the government.

In health care, all that will do—once there is no private health insurance available because of draconian mandates, taxes, and limitations on compensation—is eventually leave the government as a single-payer provider of health care in this country. I suspect that may be the ultimate goal.

We already know the Reid bill will force millions of seniors to purchase so-called Medicare gap products which, by coincidence, are sold by AARP. We have heard Senators come to the floor and quote AARP as if it was holy writ, and somehow they represent all seniors. We know they have a blatant conflict of interest in supporting this bill, particularly as to stripping out Medicare Advantage benefits so they can sell more of our seniors Medigap coverage, which Medicare Advantage eliminates the need for.

We also know this bill provides more power to Washington and is taking it away from individuals in other ways by limiting individuals to only four different options for what kinds of health coverage they can get. There is no room for innovation or flexibility. We know, ultimately, that drives up the cost for people who have insurance now—their health insurance premiums.

We ought at least be as good to the American people as we are to ourselves as Members of Congress. We have almost 300 different health care plan options under the Federal employees health care benefits. Why should the American people accept less choices when it comes to their health care than Members of Congress? They should not.

These health insurance market reforms are designed to give Washington more power. More and more studies have said new controls by Washington will do nothing but drive up the cost of insurance. The Congressional Budget Office said they will go up by \$2,100 for American families. A new study came out yesterday saying that, in Texas, premiums would go up for 61 percent of individuals purchasing their insurance in the individual market.

The President of the United States said his goal for health care reform was to lower the cost of health insurance for the average American family by \$2,500. By that test, this bill fails to deliver on the President's promise.

Then there is, of course, the expansion of other government programs that, while they promise coverage, limit access to care by the way they are structured. This bill purports to give 94 percent of the American people health care coverage but does so by putting 15 million more Americans on the Medicaid Program. Of the 31 million newly insured under the Reid bill, the only choice of 15 million would be Medicaid. Of course, we know Medicaid—for example, in Dallas, TX, only 38 percent of doctors will see a new Medicaid patient because reimbursement rates are so low that a doctor cannot see Medicaid patients and leave his or her door open to see other patients. We, in essence, condemn low-income persons to a health care gulag, where they are offered coverage but have no access to health care. For 60 million Americans, Medicaid would be their only choice.

The \$120 billion cuts to Medicare Advantage that we talked about earlier gives more power to Washington and takes it away from the individual. By cutting the private part of Medicare under Medicare Advantage, it would result in seniors having no choice but Medicare fee for service. Medicare fee for service compensates doctors at about 80 percent of what private insurance does. That is why, in Texas, 42 percent of the doctors will not see a new Medicare patient under the Medicare fee-for-service payment formula. Frankly, it pays so low that they cannot afford to see new Medicare patients.

That means, again, this fraud is perpetrated on the American people—our seniors—saying we are going to keep our promise to them by providing coverage by effectively denying access to care because the reimbursement rates are so low.

This bill gives the government more power over people, and it takes it away from individuals in a number of other ways. While advocates describe it as a way to create competition and choice, the reality is it would drive out competition from the market and ultimately become the only choice for millions of American people. The so-called public option, which sounds relatively innocuous until people realize the effect of that, and the pay-or-play mandate on small businesses, which kills jobs, creates a rational decisionmaking process, and employers that will drop employees from the current private coverage, only to be left on a government-run plan, the so-called government option, which will end up, in the end, being anything but optional—denying power to the individual to make

their own decisions in consultation with their doctor and family, and giving Washington more power over their lives.

There are good reasons the vast majority of Americans don't trust Washington with running our health care system—an issue that so intimately affects all 300 million of us in America. We know Washington has a lousy record at managing spending. We have a \$12 trillion national debt and, before the end of this month, the administration and the majority leader will come to Members of Congress and say: Would you please lift the statutory debt limit because we maxed out our credit card and we need to lift the statutory debt limit.

Our entitlement programs are out of control, with Medicare running an unfunded liability of \$38 trillion. The majority wants to take \$½ trillion from Medicare and use it not to fix Medicare but to create a new entitlement program. Washington running health care means the personal health care decisions will be impacted by lobbyists and special interests rather than the interests of the American people. That is the reason the insurance industry has been supportive of health care up until now. There is \$450 billion in tax dollars that will flow directly to the insurance industry under this bill in the form of tax credits.

The hospital associations cut a deal so they would not be subject to the axe of the so-called “independent” Medicare advisory board.

Everyone has heard about the deal that the pharmaceutical industry cut, in which it would result in them running ads supporting Members of Congress who support this bill because they want to protect their special deal cut behind closed doors. We heard Senator McCain talk about the special deal cut in this bill for Medicare Advantage beneficiaries in Florida—another special political deal in order to secure a vote to support this bad deal—but it left out seniors in Pennsylvania and California.

I believe if there is any special deal to be cut, every senior who is a beneficiary under Medicare Advantage ought to have the same deal, not any more of these behind-closed-doors special deals in order to secure votes.

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. CORNYN. There is just one job-killing policy after another in this bill, and this is the latest.

Mr. GRASSLEY. Madam President, I yield the remaining time to the Senator from Wyoming.

Mr. BARRASSO. Madam President, how much time remains?

The PRESIDING OFFICER. There is 4½ minutes remaining.

Mr. BARRASSO. Madam President, you know as well as I that the President promised the American seniors

that if they liked the care they had, they could keep it. Nothing could be further from the truth.

Looking through this bill we are debating, there is an incredible amount of cuts to Medicare, which is a program seniors rely upon for their health care: \$120 billion of cuts to Medicare Advantage. One in four people in America who depend on Medicare for their health care—11 million Americans—are on Medicare Advantage. The reason they chose it is because it is an advantage. It helps with coordinated care and preventive care. Having practiced medicine for 25 years, I know the people at home get it. That is why they chose that program. It also cuts \$135 billion from hospitals and \$115 billion from nursing homes.

I want to focus a little bit on the \$42 billion cut from our home health agencies. I don't know how anybody on the other side of the aisle can say with a straight face that the legislation before us doesn't cut Medicare and doesn't hurt our seniors because it does.

I will tell you, having taken care of people in hospitals, the services that are provided through home health care is what helps get people out of the hospital sooner, gets them home faster, gets them out of nursing homes, and helps keep down their costs. These services include skilled nursing care, physical therapy, occupational therapy, speech and language therapy, and medical social services.

I have a letter from the director of home health services of Wyoming, the Home Health Care Alliance.

I ask unanimous consent that it be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DECEMBER 5, 2009.

Senator MICHAEL B. ENZI,  
*Ranking Member, Committee on Health, Education, Labor, and Pensions, Hart Senate Office Building, Washington, DC.*

DEAR SENATOR ENZI: Over the past ten years the Medicare home health benefit has taken a larger hit in spending reductions than any other benefit. As home health has become an increasingly important part of our health care system with highly skilled and often technically complex services that enable millions of senior citizens and disabled Americans to avoid being hospitalized or admitted to nursing homes, these home health services save Medicare millions of dollars each year.

I believe that further reduction in home health payments would place the quality and availability of home health services at risk. I urge you to oppose the cut in Medicare dollars for home health agencies through out our nation.

Sincerely,

MARI IRELAN,  
*President,*

*Home Health Care Alliance of Wyoming.*

Mr. BARRASSO. This letter talks about the devastating impact of the cuts proposed in this bill we are considering today. There are 43 home health agencies in Wyoming and a number of

them are in communities—the occupant of the chair is from a State where there are a lot of rural areas. A number of our agencies are in communities that don't even have hospitals. So it helps people stay in their homes, in their home communities, stay out of the hospital, out of the nursing home, and it gives them the dignity and the opportunity and the independence they need to stay at home.

Yet this bill, according to the folks in Wyoming and the folks nationally, is going to make it that much harder for our seniors to stay at home.

Taking \$42 billion from home health care, raiding that program to start another program, to spend it on a new government program is going to absolutely impact the ability of home health care providers in this country to offer services. These nurses, therapists, and home care aides all drive hundreds of miles on a daily basis in Wyoming, going from ranch to farm, to help care for people and to help them stay at home. It is all around the country.

There is a front-page story in the New York Times today, a wonderful story of a delightful 94-year-old lady, Bertha Milliard. She lives in Maine. There is a picture of her with her nurse during a home health care visit. Bertha is very worried that they are going to lose this service, which is the service that keeps her out of the hospital.

It just seems, as we look at this, that there is no way home health care agencies around the country are going to be able to sustain these kinds of cuts and continue to remain available to the Medicare patients who depend on home health care.

Even the National Association for Home Care & Hospice said that in a few short years, Medicare will be paying home health agencies less than it costs to even provide the services. We are talking about less than the gas in the cars and the salaries of the folks who drive around. We are not talking about profit. We are talking just about keeping doors open.

As I think about the patients in Wyoming whom I have taken care of over the years who have benefited from home health services, who have been able to receive care from nurses, therapists, home care aides and allow them to stay at home, to be more independent—not totally independent but more independent—I think anything that cuts into this is not good for America.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. BARRASSO. I yield the floor.

The PRESIDING OFFICER. The Senator from Montana.

Mr. BAUCUS. Madam President, I ask unanimous consent that we continue with debate, and debate only, as under the previous order, for an additional hour, with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAUCUS. Madam President, I yield to the Senator from Michigan, Ms. STABENOW, 5 minutes.

The PRESIDING OFFICER. The Senator from Michigan.

Ms. STABENOW. Madam President, I thank the distinguished Senator from Montana, who has been here morning, noon, and night counteracting falsehoods and scare tactics on the floor and putting forward what is really in this legislation that is so important to millions of people around the country. Everyone benefits, in one way or the other, by either costs coming down or by direct access to more affordable insurance. I thank our distinguished leader from Montana.

We have talked so much about Medicare and Medicare Advantage, but I do have to take a moment to respond to what has been said over and over on the floor. It is very difficult for me—and I know for others around the country—to listen to our friends from the other side of the aisle lamenting that they want to protect Medicare, when it was a Democratic Congress and a Democratic President who created Medicare, over the same objections, by the way. You can take a look at the objections in 1965, the debate: The world was going to come to an end if, in fact, we passed Medicare. Of course, Medicare has become a great American success story for tens of millions of seniors and people with disabilities.

Our friends now talk about how they are going to protect Medicare, at the same time that just a couple weeks ago, on the House side, 80 percent of Republicans voted to do away with Medicare as we know it today and make it a voucher system and put insurance companies back in control.

One of the frustrations for me is to hear the unfortunate negative comments that have been made about a very distinguished organization that represents senior citizens across the country, the American Association of Retired Persons, that I might add, when we were doing the prescription drug bill, my colleagues on the other side of the aisle used in every single speech because they were supporting them at that time. Now they are supporting our position. They disagree with them. They have said:

Most importantly, the legislation does not reduce any guaranteed Medicare benefits.

Now we are hearing how horrible they are, which I think is a real disservice to a very important national organization. I think it is important, in the name of truth and in the name of fairness, to look at quotes that have been made about AARP that are different from what we have heard on the floor today and since this debate began.

Our distinguished colleague from Arizona, who sponsored an amendment re-

lated to Medicare Advantage and has been on the floor numerous times, including today, disparaging AARP, said at an AARP convention:

I say God bless AARP—

This is the senior Senator from Arizona.

I say God bless AARP for everything they are doing, not only for the present generations of Americans, but for future generations. That's your duty, that's your strength, and that's why I love to see you at every town hall meeting.

The unfortunate thing is now our colleagues on the other side of the aisle don't want to see AARP at every town-hall meeting because they are not saying what they want them to say.

I also have to express concern that we had 6 years of our colleagues in full control of the Federal Government—the Presidency, House, and Senate—and we did not get legislation to bring down health care costs or legislation to make sure every American, small business, and family could afford insurance as we are doing today. So it is a little difficult, even though we have come together on other issues on health care, on this particular one it is difficult now to hear all the criticisms that are flying and all the things we should be doing, but they were not brought forward a number of years ago, when they actually were in charge and could have done something about it. That is concerning to me.

This legislation is about saving lives, it is about saving money, and it is about saving Medicare.

I wish to share one story because not too long ago—it seems like a long time since we have been working so diligently this week—it was just Thanksgiving, and families all across America came together to reminisce around the dinner table, to watch football, and share a family meal. Even in tough times we stop, reflect, and give thanks for our many blessings. I know that is true for my family, and I am sure all our families.

This year, there were 45,000 empty place settings at tables across the country for men and women whose lives were cut short because they did not have health insurance. I wish to share one story.

The PRESIDING OFFICER. The Senator's time has expired.

Ms. STABENOW. I ask for an additional minute.

Mr. BAUCUS. I yield 1 minute.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. STABENOW. One of those place settings was for a young man named Dr. Joe Hines, from Okemos, MI. He was a recent graduate of dental school. He had just completed his residency and had lined up a job in private practice in Detroit. He did not have health insurance. He became ill. He called his mom who urged him to go to a doctor, but he did not have insurance. He waited too long, figuring it would pass and

it did not pass. It got worse. He died at age 27.

This legislation is about Joe Hines. It is about his family. It is about every one of the 45,000 families who lost loved ones this year. It is about the 14,000 people who got up this morning—today—on a Saturday, with insurance and will go to bed without it. Saving lives, saving money, saving Medicare, that is what we are fighting to do.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. GRASSLEY. Madam President, I yield to the Senator from Alabama 10 minutes.

The PRESIDING OFFICER. The Senator from Alabama.

Mr. SESSIONS. Madam President, I thank Senator GRASSLEY, and I appreciate his leadership on this very important issue.

As I have reviewed the legislation and looked at the analysis, the financial accounting that has gone into it, I have been astounded, beyond my ability to express it, by the errors and fictitious promises that have been made by the bill's supporters.

My colleagues and people listening to or reading these words may think what I am saying cannot be true, that this is an exaggeration or has absolutely another side to the issue. But the statements I am making, I believe, are accurate, and if I am in error, I am glad to stand corrected.

The numbers are so huge they cannot, in reality, be hidden. The numbers simply do not add up. President Obama had a grand concept in his mind. He was following, I think, a great chimera of reform that he believed he could accomplish. He was able to express it on the campaign trail with cadence, passion, and skill. People liked those promises. As so often is the case with many of us, he came to believe his own rhetoric, his own words, and those words took on a reality of their own.

But once one takes office, words cease to be reality. Facts then dominate. Promises easily made in the Iowa spring or the New Hampshire winter, if not carefully constructed when made, become unreachable when a candidate takes office. Realities, I have to say, have risen to defeat his vision. They are not compatible.

One, the basic promises he has made financially under this bill cannot be met. The numbers do not add up. They do not work.

Two, the present debt crisis we are in, a crisis that will lead to doubling of the national debt in 5 years, the debt accumulated from the founding of the Republic, will double in 5 years and triple in 10, according to our own Congressional Budget Office. That does not include any money spent on this legislation because it is not current law. It will only make it worse. The financial crisis we are facing makes it even more important that we act with care and caution before we move forward.

I also note that many people today are happy with the quality of the health care they receive. They are nurses, they are doctors, the quality of the diagnostic equipment, the hospitals they have to utilize. They do not have any desire, whatsoever, for the Federal Government to take that over.

What they have been concerned about—and rightly so—are the rising costs. But the promises in this bill to reduce costs for the average American have not been achieved. Costs will continue to go up for average Americans.

There are many flaws, many fictions in the legislation. Its promises sound good, but reality, in fact, is interfering. I will point out a number of promises that have been made and the facts that dispute those. I will then point out what I think are the real facts. I will ask and evaluate this bill on how well it meets the promises that have been made for it. From this analysis, it becomes clear to me that it is an offer we can and an offer we must refuse.

Fiction No. 1: The allegation has been made and statements have been made from the beginning that the bill would cost \$848 billion.

The facts are, when the new programs created by this bill are fully implemented, the bill will cost \$2.5 trillion. I think the sponsors of the bill acknowledge that.

No. 1, is the cost \$848 billion as promised? The answer is, no, it is much more than that. In fact, \$2.5 trillion—2,500 billion dollars.

How can we be that far apart? The bill's new benefits programs, the expenditures the bill calls for are not phased in until 2014, the fifth year of the 2010–2019 period, during which the cost of this bill is scored by the Congressional Budget Office.

For example, the insurance subsidies funded by the Federal Government do not begin until 2014. Also, according to the bill, Medicaid will be expanded up to 133 percent of Federal poverty level, but that does not happen until 2014. It is disingenuous at best—just not accurate, some would say dishonest—for promoters of this legislation to claim the costs of the bill are only \$848 billion, when they don't begin to pay out the new benefits in the 10-year period until 5 years from now. So shouldn't you score the bill from the time the benefits start and then for 10 years to get a 10-year honest score of the legislation?

The Reid bill that is on the floor today, that was written basically in secret and added to this unrelated piece of legislation to get it to the floor, this piece of legislation begins to collect fees from insurers, medical device companies, and others—they are collecting money in increased fees and taxes—as soon as 2010. But when the true 10-year score, when the expenditures start from 2014 to 2023—the first 10 years of real implementation of the bill—that is

when the cost of the program is \$2.5 trillion. I don't think that is disputable in any significant way. Maybe a little here or there. I am just explaining what the facts are.

Overall, costs rise too. They do not go down. The Congressional Budget Office states that, "Under the legislation, Federal Government outlays for health care would increase during the 2010–2019 period, as would the Federal budgetary commitment to health care." So the Federal Government spending on health care, far from going down, is increased under this legislation.

We currently spend one-sixth of our total gross domestic product—one-sixth of the productivity of our economy—on health care. How much more can we afford to pay? And wasn't it the original intent of the bill to rein in health care spending to reduce the percentage of GDP going to health care? Wasn't that one of the concerns our business community has had—that too much of America's wealth is going to health care? They would like to see something that would reduce that.

I suppose the fact that it utterly fails in that regard and, in fact, increases the national health care expenditures from 17 percent of GDP now—more than any other country—to 21 percent is the reason groups such as the U.S. Chamber of Commerce have said this bill must be defeated and have aggressively opposed it. They do not always get engaged in these issues, but on this question they are engaged, and they have said it will not do and not meet the concerns President Obama reflected upon. He talked about the need to reduce the percentage of GDP on health care, but it is going up under this legislation, according to the scoring of the CBO.

One more question. If the benefits don't start until after 5 years from today, why is it so important to pass this monstrous bill today? Why can't we slow down a little bit? Why can't we do exactly as we are asking and go step by step and find out the things we know can work and do those things—particularly those things we can do now—that don't cost money but can actually help increase the quality of health care and maybe even bring costs down? Why don't we do those things?

Fiction No. 2: The President said in his State of the Union Address to the Congress, the joint session of Congress, that not one dime would be added to the Nation's surging debt.

Now, is that true or not? If it is not true, then I think people—

The PRESIDING OFFICER. The Senator's time has expired.

Mr. SESSIONS. Madam President, I appreciate the opportunity to speak. I will talk about the other points as the time avails itself and we have the time to do so.

I yield the floor.

The PRESIDING OFFICER. The Senator from Montana.

Mr. BAUCUS. Madam President, I ask unanimous consent that Senator ROCKEFELLER be added as cosponsor to the Lincoln amendment, No. 2905.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAUCUS. Madam President, may I ask how much time remains on each side?

The PRESIDING OFFICER. The minority has 19 minutes 40 seconds remaining; the majority has 23½ minutes.

Mr. BAUCUS. I thank the Chair. I yield 10 minutes to the Senator from Illinois.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. DURBIN. I thank the chairman.

Madam President, the Senator from Alabama has just said to the Senate: Slow down; you are going too fast on health care reform here.

Today, across America, 14,000 Americans will lose their health insurance. Tomorrow, 14,000 Americans will lose their health insurance. Monday, the same, and every day of the week.

Are we going too fast? The first time this issue came before us was over 100 years ago. Theodore Roosevelt, a Republican, said: We need to talk about health care for all Americans. It was a cause that was repeated by Franklin Roosevelt, certainly by Harry Truman and Lyndon Johnson. For 100 years now, there have always been voices in the Senate who have said: Slow down, you are going too fast.

This year, 45,000 Americans will die because they do not have health insurance. We are the only civilized country in the world—the only Western industrialized, developed country in the world—where a person can die because they do not have health insurance. That is a fact of life.

Slow down, they say on the other side of the aisle; you are going too fast. Well, we are here on a Saturday. It is a rare occurrence for the Senate to meet on Saturday, but I am glad we are here. If there were ever a time we should be here, it is right now. And we are here to discuss this bill—a 2,000-page bill. You know what went into this bill? Two committees: the Senate Finance Committee, under the leadership of the Senate Finance Committee chairman, MAX BAUCUS of Montana, and the HELP Committee, now chaired by Senator DODD of Connecticut. They spent days and weeks preparing this bill. Why did it take that long? Because health care represents \$1 out of every \$6 spent in America—one-sixth of our economy. It is that big a deal. And we produced this bill, this 2,075-page bill, after the considered effort of Democrats and Republicans writing it over the course of 1 year. Yet the other side says: Slow down.

You know what, the American people ought to ask our Republican friends: Where is your bill? Why haven't you

prepared a bill? You have had a year to do it. You knew this was coming. I know you have many ideas because we have heard them in speeches, we have seen them in charts, and we have seen them in press releases. But we don't see a bill. Nothing. It leads you to two conclusions—one of two. This is too hard to do, so they didn't do it, too difficult to write a bill, so they didn't do it, or they really don't believe we need to change the current system. Well, they are wrong.

Today, health protection for Americans is not affordable. The cost of health insurance is going up so fast—faster than wages, faster than businesses can keep up with it—and people are being tossed aside, one after the other. Fourteen thousand Americans a day are losing health insurance because they lost their job or the business they work for says: We just can't pay the premiums anymore. That is the reality.

This bill makes health insurance more affordable, No. 1 and, No. 2, this bill, at the end of the day, means that 94 percent of the people living in America will have health insurance. We have never in our history ever reached that level of protection—94 percent. I wish it were 100 percent, but it is 94 percent. Have the Republicans produced a bill that adds health insurance protection for anyone in America? No. Nothing.

There is something else this bill does, and it took a lot of hard work to achieve it. This bill not only tackles health reform, but it reduces our deficit, and we should. This is a debt our kids are carrying. So Senator BAUCUS and the Finance Committee worked with Senator REID of Nevada. This bill, by the Congressional Budget Office estimates, will reduce the deficit by \$130 billion in the first 10 years, \$650 billion in the next 10. How does it do that? Well, if the cost of health care goes down, the cost of government goes down for the same health care—real savings. Have the Republicans, who stand here day after day saying we have to do something about the deficit, produced a health care reform bill that reduces it? No. Nothing. They have nothing to bring to us.

Let me talk about one other aspect of this bill that is critically important. This bill gives to the American families and consumers, for the first time in a long time, a fighting chance against the health insurance companies. Do you know what they do to you? Do you know what happens when you get sick? You not only have to battle your illness, you have to battle your insurance company. Your doctor says you need this prescription, your doctor says you need this surgery, and then the doctor calls some clerk in some office in the middle of nowhere who says: Not covered. We are not paying for it. And do you know what happens next? The battle rages. It isn't

just you against the disease; it is you against your insurance company. Do you know what they do? They turn you down. They say: We looked at your application for insurance, and you forgot to mention a preexisting condition, such as acne, when you were a teenager. I am not making that up. You didn't take into consideration that there is a limit on how much we will pay, and when you get really sick, we just stop paying. You didn't realize that you thought your child was covered by your family health insurance company, but your young son just reached the age of 24 and he is not covered anymore. He is on his own.

Well, we take care of every one of those things in this bill. We give families, for the first time in history, a fighting chance to take on these insurance companies—real reform. I have yet to hear the first Republican come to the floor and endorse that concept. Why? Because the health insurance companies hate it. This is how they make money.

Did you see what Aetna just announced? Aetna is one of the biggest health insurers. Their CEO makes a very modest \$24 million a year in salary—\$24 million. They had their most profitable quarter ever, and they announced they need more. So in order to add to their profits next year and add to the payments to their CEO and their shareholders, they are going to take 650,000 people out of coverage at Aetna. They are going to drop the people they think may just get sick someday. So they try to cherry-pick the healthiest people to keep their profits high. What is going to happen to those 650,000 people? Do you think they are going to join in the chorus from the other side that says slow down when it comes to health insurance for everybody in this country? Of course not.

Senator LINCOLN has an amendment that challenges the CEOs of these health insurance companies and says: Enough is enough. We will let you deduct from your taxes, we will give you a subsidy for \$400,000 in income for a CEO of a health insurance company—that is how much the President gets paid, incidentally—but beyond that, we will not let you deduct it. We won't subsidize these obscene bonuses and payments to the health insurance executives. That is part of this as well.

I also think it is great to hear our colleagues on the other side of the aisle with their newfound belief in Medicare. They come before us and say: You know, we are standing here to fight for Medicare. That is what this battle is really all about. Historically, that party has not stood to fight for Medicare; they have stood to fight Medicare. They opposed it when it was created, they have tried to privatize it, and they have basically ridiculed it as a government health insurance program. But for 45 million Americans, it

is a lifeline to insurance when they retire so that their savings don't melt away and disappear because of high health care bills.

Most of our colleagues have ignored a vote they just cast 2 days ago. One of the most important votes we have had on the floor—in addition to Senator MIKULSKI's amendment which helped the women of America get preventive health services—was the amendment of Senator MICHAEL BENNET of Colorado. He offered an amendment that basically said any of the savings that come forward out of this Medicare change in this bill have to be put into giving sound financial footing to Medicare, more services for the elderly, and making certain we protect the services that are already guaranteed. That passed 100 to 0. My friends on the other side of the aisle know that. They all voted for it.

So we are protecting Medicare. We are going to put it on sound financial footing. And for the 45 million people currently receiving it and those who look forward to it in the future, this bill will make Medicare stronger.

Slow down? No, we are not slowing down. This time, we are going to pass health care reform. This time, we are going to make America a healthier country with quality, affordable health care for everybody.

Madam President, I yield the floor.

The PRESIDING OFFICER. The Senator from Iowa is recognized.

Mr. GRASSLEY. Madam President, I yield myself such time as I might consume on this side.

I listened to the distinguished majority whip. I don't know how many times we on this side have to tell him that if they want to read Republican bills here is an opportunity to come and read them. They do exist and they have existed for a long time, going back to some of their entries into the Senate in the spring.

Another thing I heard was that Republicans have no ideas, taking on the insurance companies. I would refer him to the Coburn-Burr bill that does away with the discrimination, that insurance companies cannot deny health insurance because of preexisting conditions.

I heard him say we are newfound supporters of Medicare. Let me suggest to him that when we learned from the complaints of his party 4 years ago, when they were berating the fact that we wanted to take \$10 billion out of Medicare and how that was ruining Medicare—we are faced now with \$464 billion out of Medicare and we think they have talked out of both sides of their mouth, in the sense that 4 years ago, if Medicare would be hurt if \$10 billion were taken out, surely if \$464 billion were taken out, it is hurting Medicare.

I rise not to take on the Senate majority whip at this point but I rise be-

cause we keep hearing from the other side about how premiums are going to go down. I referred in previous remarks in this past week to a letter sent to Senator BAYH that provides a very comprehensive analysis of what health insurance premiums will look like as a result of this Reid bill now before us.

That reminds me of one other thing the Senate majority whip said, that we want to delay action on this bill. What we want to have is 99 Senators have the time to consider what is in this 2,074-page bill, when you have to remember that in the secrecy of the Senate leader's office, Senator REID's office, from October 2 until about the Saturday before Thanksgiving, it took that long in secrecy to put two bills together out of two separate committees. That is one Senator putting together the 2,074-page bill we have before us. Don't you think that 99 other Senators ought to have at least that same period of time to consider what is in this bill? I think so.

Anyway, getting back to the increase in premiums and Senator BAYH's letter from the Congressional Budget Office saying that premiums are going to go up, I wonder if anyone has actually read that letter. I hear a lot of people saying this letter proves that premiums would go down under the Reid bill, even though that is not what that letter says. So I am here to tell people what the letter says. The letter makes it very clear that premiums will increase on average 10 to 13 percent for people buying coverage in the individual market. I think you saw a specific figure given by the Senator from Texas, that in his State for a large percentage of the individual market premiums would go up, just for people in the State of Texas.

I have a chart here in case you missed what this letter actually says. The people who keep saying premiums are going to go down conveniently forget to mention this 10 to 13-percent increase that is going to happen for the individual market. No, they would prefer to talk about 57 percent of Americans in the individual market who are going to get subsidies. Yes, it is true. The Government is spending \$500 billion of hard-earned taxpayers' dollars in addition to the cuts they are having in home health care that is a pending amendment before the Senate. These cuts and these tax increases cover up the fact that this bill drives up premiums faster than current law.

I repeat, premiums will go up faster under this bill. Supporters of this bill are covering up this increase in costs by then handing out these subsidies. But if you are 1 of the 14 million people who does not get a subsidy—well, what? You are out of luck. You are stuck with the fact that this is 10 to 13 percent more expensive and, coupled with it, an unprecedented new Federal law that mandates that you buy and purchase insurance.

Some may say this is the individual market, it only accounts for a small portion of the total market. Again, if you are comfortable, as the other side seems to be, with 14 million people paying more under this bill than they would under current law.

I wish to also have you look at the employer-based market. The Congressional Budget Office analysis says this bill maintains the status quo in the small group and large group insurance market. Is this something we ought to be celebrating, maintaining the status quo? Are expectations so low at this point that Democrats are celebrating that this bill will increase premiums for some 14 million people and maintain the status quo for everybody else?

I am being generous in using the phrase status quo, because this bill actually makes things worse for millions of people. This bill is so bad that Democrats are trying to convince the American people that this is more of the same when even that is not the case.

What happened to bending the growth curve? In other words, the inflation we have historically had in health care costs, going up three or four times the rate of inflation, going up now 8 or 9 percent even when we have deflation in the economy at large? What about the President's promise that everyone will save \$2,500? According to CBO, almost every small business will pay between 1 percent more or 2 percent less for health insurance. That means compared to what businesses would have paid under current law, this bill will raise premiums 1 percent or maybe decrease them by a whopping 2 percent. That doesn't sound like this bill is providing real relief, and \$2,500 in savings for every American, as President Obama pledged repeatedly during the campaign, is not going to happen.

The larger businesses will pay the same or up to 3 percent less for health insurance. Once again, that doesn't sound like relief, it sounds like more of the same. In fact, the Congressional Budget Office has confirmed that between now and the year 2016, premiums will continue to grow at twice the rate of inflation.

I thought Congress was considering health reform to put an end to the unsustainable premium increases. This bill cuts Medicare by \$500 billion, raises taxes by \$500 billion, restructures 17 percent of our economy, spends \$2.5 trillion, and some of my colleagues on the other side of the aisle are celebrating that they have achieved the status quo when in fact the situation will be worse. I thought the status quo was not something that was acceptable to most Members of this body.

Our constituents want to lower costs. That is their main concern. That is what our constituents begged for, lower costs. But this bill fails to address that concern. It raises premiums

and, despite offering new ideas throughout the committee process and on the floor, Republicans are being accused of supporting the status quo when our bills are right here for anybody to look at if they think there are not any ideas we would put forth.

The Congressional Budget Office has spoken and it is pretty clear my colleagues across the aisle are not only OK with the status quo, they are OK with making things worse—higher taxes, higher premiums, increased deficits and less Medicare. Just think, we are approaching the Christmas holiday season and a Christmas gift coming from this Senate, with a 2,074-page bill: higher taxes, higher premiums, increased deficits, \$464 billion cuts in Medicare and not doing anything about inflation in health care costs. They are celebrating that they spend \$2.5 trillion to raise premiums for 14 million people, not bending this growth curve, not cutting costs.

Don't take my word for it. You have to read this letter from the Congressional Budget Office. It is there in black and white as evidenced by the chart I have here.

I yield the floor.

The PRESIDING OFFICER. The Senator from Massachusetts is recognized.

Mr. KERRY. Madam President, I will yield myself such time as I will use.

There have been times during this debate that I have listened with astonishment to the minority. They agree with the diagnosis—that our health care system is in need of treatment. But they offer no remedy, no prescription, no cure.

We don't need a second opinion on what the problems are with our health care system. Our country leads the world in the advancement of medical science. We have the best doctors, the best technology and the best hospitals in the world. It is no surprise to see kings and queens come to the United States for medical treatment.

But for all that, the system is dysfunctional, wasteful and abusive. It rewards quantity over quality. And it delivers profits more than care. It is a system in which too many American families are just one illness or one injury away from financial ruin.

I would like to thank Majority Leader REID, Chairman BAUCUS, Chairman DODD and Chairman HARKIN for getting us to this important point in our long march toward a health care system that is affordable and available to all Americans. Their efforts have presented us an opportunity to cast a vote that will make life better for every single American. It isn't often that we get a chance to do that. But we have that chance now.

I know the majority leader, the Senate Finance Committee, and the Health, Education, Labor, and Pensions Committees have each tirelessly worked on the provisions in this bill

and have taken great care to ensure that Medicare beneficiaries will maintain access to their guaranteed benefits and will receive additional preventive benefits and expanded prescription drug coverage.

The amendment offered Senator JOHANNIS is very similar to the MCCAIN amendment we debated over the last few days. Once again, the opponents of this bill are endorsing the status quo that leaves Medicare on the brink of going bankrupt and seniors facing higher costs. My amendment simply ensures that no beneficiary would receive a reduction in their guaranteed Medicare home health benefit.

Let me remind my colleagues again what will happen if we stick with the status quo. The status quo means Medicare will be broke in approximately 8 years. The status quo means seniors will continue paying higher and higher premiums and cost-sharing due to wasteful overpayments to providers. The status quo means that each year billions of Medicare dollars will continue to be wasted on lining the pockets of private insurance companies. And the status quo means that seniors will continue struggling to pay for prescription drugs.

The stakes for seniors and for the Medicare Program have never been higher. Senators have a choice: Endorse the status quo or strengthen Medicare. Regarding Medicare changes for home health providers, let me describe what is in the Senate bill.

As most of my colleagues would agree, home health care is an important benefit in the Medicare Program. Today more than 3 million Medicare beneficiaries receive home health services across the country—including those with acute illnesses and injuries and those afflicted with numerous chronic conditions.

Across the country, more than 9,800 home health agencies provide care to seniors in their homes. This care helps seniors get better and avoid expensive rehospitalizations. Home health providers make a real difference in improving seniors' health. We should support their efforts.

While I have great respect for the services of home health providers, we also have a responsibility to protect the Medicare Program. As part of this, we must make sure Medicare is paying appropriately—and not overpaying—for Medicare services. We must also take action to root out fraud and abuse in the Medicare Program. I believe the policies in the Senate bill achieve both goals.

First, the Senate bill would “rebase” home health payments to ensure payments reflect actual costs of providing care. These changes are based on MedPAC recommendations, which is the nonpartisan group that advises Congress on Medicare.

When the current home health payments were set, seniors received an av-

erage of 31 visits per episode. Today, they only receive 22 visits. The Senate bill directs CMS to “rebase” payments to reflect this change. That is common sense.

The Senate bill also roots out fraud in the system by revising how Medicare pays for “outlier” cases. Medicare provides an extra payment today for providers who treat sicker or “outlier” patients. Unfortunately, the GAO found that some providers were gaming the system and getting more outlier payments than they deserve.

For example, GAO found that in one Florida County, providers were receiving 60 percent of all total outlier payments—even though the county had less than 1 percent of the total Medicare population. Clearly, something was going on there that needs to be changed.

The Senate bill addresses this problem by placing a cap on the amount any individual provider can receive in outlier payments. In addition, it establishes a productivity adjustment for home health providers beginning in 2015. These changes ask home health providers—like all other providers—to offer more efficient and higher quality care over time.

I believe the Senate policies are fair and reasonable. In making these changes, we worked closely with the home health industry to ensure these changes were reasonable and fair. On the rebasing policy, MedPAC recommended we fully implement these changes in 2011. To ensure providers could adapt to the new payment rates, the Senate bill phases-in the changes over 4 years. The home health providers support this phase-in.

The outlier policy and fraud changes were actually suggested by the home health industry. The home health industry fully supports these changes. For the productivity changes, the Senate bill holds off on applying these reductions while the rebasing policy is taking effect.

This will give providers extra time to adapt to the payment changes and is much less aggressive than the proposals put forth by MedPAC, the House bill and the administration, which require all of these payment changes to be implemented at the same time.

Finally, the Senate bill includes special protections for rural home health providers. From 2010–2015, rural providers will receive a 3 percent extra payment each year. This payment will ensure that rural providers are protected as we reform the broader home health system. In total, the Medicare delivery reforms in the Senate bill strike a fair balance between ensuring seniors have access to care, while also rooting out inappropriate payments from the system.

The opponents of these Medicare changes do not have a plan to protect seniors and strengthen the Medicare

Program. They advocate doing nothing. The opponents of health reform are now claiming that Medicare beneficiaries will be harmed by this bill. And here is what AARP—for example—has said about these claims:

AARP:

Opponents of health reform won't rest. [They are] using myths and misinformation to distort the truth and wrongly suggesting that Medicare will be harmed. After a lifetime of hard work, don't seniors deserve better?

I would like to remind my colleagues of the positive changes in the bill. It improves the solvency of the Medicare Program by 5 years. It puts \$30 billion back into the pockets of seniors in the form of lower Medicare premiums. It makes prescription drugs more affordable. It guarantees that seniors can continue to see the doctor of their choosing. It provides free wellness and prevention benefits to Medicare beneficiaries. And it also includes fair and appropriate changes for home health that protect access to care.

The truth is the JOHANNES amendment is harming seniors, harming the Medicare Program, and harming taxpayers. For this reason, I urge my colleagues to oppose the amendment by Senator JOHANNES and to support my home health amendment which ensures that no beneficiary would receive a reduction in their guaranteed Medicare home health benefit.

I just listened to my friend, Senator GRASSLEY. He and I have a good relationship; we work together here; we both serve on the Finance Committee. I have enjoyed a lot of the things we do together. Clearly, whatever I am saying is going to be substantive, but there is nothing personal in it. I have to say there is a lack of reality here in a lot of the comments we are hearing from our friends on the other side of the aisle, and a persistence in perpetuating a myth.

A lot have seen the politics of this country where, if you say something over and over, no matter how true it is, it can have an impact. I know that personally. But let me tell you, I heard the Senator from Iowa say—I am going to quote him; I wrote it down:

Certainly if \$450 billion is being taken out of Medicare, it is hurting Medicare.

That is what he said. Let me review what is happening here. I want to go back to the comments of the Republican nominee for President last year. This is a quote. JOHN MCCAIN, from an article in the Wall Street Journal:

John McCain would pay for his health care plan with major reductions to Medicare and Medicaid, a top aide said, in a move that independent analysts estimate could result in cuts of \$1.3 trillion.

After I said that on the floor, the Senator from North Carolina, Senator BURR, stood up and said:

Have you seen factcheck.org?

I said I haven't read the specific article but we didn't see that corrected in the course of the campaign.

Now I have seen the article. I wanted to know what the Senator from North Carolina was referring to, so I went and got factcheck.org. Factcheck.org went through the Obama campaign ads and their ads and fact checked what was being said. The McCain adviser is a fellow named Holtz-Eakin. In a conference call with reporters after the ad was released, what he said was:

No service is being reduced. Every beneficiary will in the future receive exactly the benefits that they have been promised from the beginning.

That is the same thing as we are doing. No benefit is being cut. But he didn't say he was not going to reduce the overall amount of money. What he said subsequently, and I am quoting from factcheck.org—here it is as late as October 17, about 2 weeks before the election—Mr. Holtz-Eakin said in a telephone conference call with reporters, representing the campaign for the Republican party:

Any shortfall in McCain's health care plan will be covered without cutting benefits by such measures as Medicare fraud and abuse reduction, employing a new generation of treatment models for expensive chronic diseases, speeding adoption of low-cost generic drugs, and expanding the use of information technology in medicine.

That is exactly some of which is happening right here—some of which is happening right here.

Let's get this conversation into a place of reality. Here is what happened in arriving at the reductions in overall Medicare expenditures, which does not reduce any benefit to any senior citizen, which is why AARP, that represents 40 million senior citizens, is supporting the Democratic legislation. They have written that to us as late as yesterday.

Madam President, \$120 billion comes from reducing overpayments in Medicare. Someone on the other side of the aisle has to explain to me how you hurt Medicare by stopping the charging of a \$90 overprice of premium to seniors, which is what happens. Do you know how the overpayments are paid for? Every senior couple, in a traditional Medicare plan, pays an additional \$90 per year in order to finance the overpayments. What they are suggesting is, we shouldn't cut overpayments. What they are suggesting is, Medicare is OK, paying seniors in a certain group an overpayment that doesn't even go to the seniors. Guess whom it goes to. It goes to the insurance company. Are you telling me we ought to go to the taxpayers and say: Hey, folks, we know we are paying a 14-percent overpayment for the service compared to what we pay for everybody else and we are going to keep on paying it. That is exactly what our friends on the other side of the aisle are saying.

What we are saying is: No, we think we ought to reduce that payment, and

that is the \$120 billion. That doesn't cut one benefit for a senior, but it makes the program more effective.

Let me go further. Here are the people who have come together in a series of meetings to say: Yes, we can live with a reduction in our overall Medicare payment because we can be more efficient. The hospitals came to the White House and said: We are willing to reduce the payments we are receiving by \$150 billion. Guess what. We are not even doing that. We are only asking them to reduce their payments by \$106 billion. That is what is in this bill. The hospitals have agreed. I represent hospitals in Massachusetts. We have one of the best hospital systems in America in the network of hospitals we have. People come from all over the world to come to our hospitals. I see the Senator from Minnesota. They come from all over the world to go to some of the hospitals Minnesota has. The fact is, those hospitals agree we can do this more efficiently, and we can reduce the overall payments under Medicare. We have worked very hard to protect the way we do that so it doesn't do injury.

The insurers have come to the table. Home health care came to the table. I read the letter earlier from home health care services. It is from the President of the National Association for Home Care & Hospice. He writes: We support the provisions of your health care reform legislation as they relate to home health care. That is what we are debating on the floor. They do support it.

The fact is, the Senator from Georgia, who stood and said: In our State, we have a letter that says—well, first of all, that is based on an earlier assumption. Secondly, we have no idea what the assumptions are in the analysis they made. Thirdly, it is based primarily on the House bill, which has \$13 billion more in reductions than we have. So before we get stuck there, we ought to listen to the national association that is working with us on a daily basis, where we agree on what the reductions ought to be.

The skilled nursing facilities, the rehab facilities, the long-term acute care hospitals have all come to the table and said: We can do this. Is that their preference? Do they love it? Nobody wants their budget to be tightened, where they have to make changes to try to be more effective. But the bottom line is, every single one of them has agreed with what we are doing on this side of the aisle. Notwithstanding that, our friends on the other side of the aisle keep coming back and keep trying to stand for grandma or stand for some senior citizen who is being falsely scared into believing their benefit is going to be cut or that Medicare is somehow going to be less available to them.

My amendment, which we will ultimately vote on, will guarantee that no

benefit is going to be cut for any senior under this plan. That is what we are going to do.

In addition to that, let me remind my colleagues and people listening what this bill does. This bill actually improves the solvency of Medicare. We have heard any number of people say Medicare is going to go bankrupt by 2017. Indeed, it is. We stretch that out. We improve that so we can then take the improvements in the health care system—

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. KERRY. I yield myself an additional couple of minutes.

It improves the solvency of the Medicare program by 5 years. It puts \$30 billion back into the pockets of seniors in the form of lower Medicare premiums. It makes prescription drugs more affordable. It guarantees that seniors can continue to see the doctor of their choice. It provides free wellness and prevention benefits to Medicare beneficiaries. They are busy talking about the cuts, when this actually improves what Medicare beneficiaries are going to get. They don't have wellness and prevention benefits today. It provides for them.

It guarantees they will see the doctor of their choice. It actually puts \$30 billion back into their pockets, and it also includes fair and appropriate changes for home health that actually protects access to health care.

The truth is, the Johanns amendment is the amendment that actually would wind up hurting seniors. This amendment provides additional benefits. We all understand the importance of this. The Senate bill releases home health care payments so those payments actually reflect the real cost of providing care. We do that not in a partisan way. We do that based on the nonpartisan MedPAC commission recommendations to us of how you can improve Medicare.

Our colleagues have a long way to go on the other side to begin to talk about real health care change. This bill roots out fraud from the system, revises how Medicare pays for the outlier cases; that is, the cases that treat the sicker or what we call outlier patients. Unfortunately, GAO found some providers were gaming the system and getting more outlier payments than they deserve. Do they want us to continue to overpay people, providing service that people either don't need or charging more for the service that they do need but could have gotten at a lower price? Those are the changes we make. The American people will be proud of it.

Let me give an example. The GAO found that in a Florida county, providers were receiving 60 percent of all the other outlier payments, even though the county had less than 1 percent of the total Medicare population. That is absurd. What we do is fix those

kinds of absurdities that make Americans so angry about the administration of their tax dollars in Washington.

I believe the Senate bill addresses a number of these problems in a thoughtful way.

We need to have a debate about what is in this bill and what the real impacts are and what the negative impacts are of not doing these things. Our colleagues stand for the status quo. This is going to be historic when we pass it because it is going to benefit people in so many different ways, getting rid of preexisting condition restraints, not having people kicked off insurance they thought they had but when they get sick, they find it is gone. We end that. We get 31 billion more people covered in a way that spreads the risk of being sick in a sensible way and reduces the costs for other Americans. That is common sense. I am proud of what we are doing.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. MCCAIN. Madam President, as much as I would like to put the last Presidential campaign behind me, we seem to be continuing to dredge it up in a totally false manner, time after time.

I ask unanimous consent that my campaign position paper on a specific plan of action lowering health care costs be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### A SPECIFIC PLAN OF ACTION: LOWERING HEALTH CARE COSTS

John McCain Proposes a Number of Initiatives That Can Lower Health Care Costs. If we act today, we can lower health care costs for families through common-sense initiatives. Within a decade, health spending will comprise twenty percent of our economy. This is taking an increasing toll on America's families and small businesses. Even Senators Clinton and Obama recognize the pressure skyrocketing health costs place on small business when they exempt small businesses from their employer mandate plans.

Cheaper Drugs: Lowering Drug Prices. John McCain will look to bring greater competition to our drug markets through safe re-importation of drugs and faster introduction of generic drugs.

Chronic Disease: Providing Quality, Cheaper Care For Chronic Disease. Chronic conditions account for three-quarters of the nation's annual health care bill. By emphasizing prevention, early intervention, healthy habits, new treatment models, new public health infrastructure and the use of information technology, we can reduce health care costs. We should dedicate more federal research to caring and curing chronic disease.

Coordinated Care: Promoting Coordinated Care. Coordinated care—with providers collaborating to produce the best health care—offers better outcomes at lower cost. We should pay a single bill for high-quality disease care which will make every single provider accountable and responsive to the patients' needs.

Greater Access and Convenience: Expanding Access To Health Care. Families place a high value on quickly getting simple care. Government should promote greater access through walk-in clinics in retail outlets.

Information Technology: Greater Use Of Information Technology To Reduce Costs. We should promote the rapid deployment of 21st century information systems and technology that allows doctors to practice across state lines.

Medicaid and Medicare: Reforming the Payment System To Cut Costs. We must reform the payment systems in Medicaid and Medicare to compensate providers for diagnosis, prevention and care coordination. Medicaid and Medicare should not pay for preventable medical errors or mismanagement. Medicare should lead the way in health care reforms that improve quality and lower costs. We need to change the way providers are paid to move away from fragmented care and focus their attention on prevention and coordinated care, especially for those with chronic conditions. This is the utmost important step in effectively caring for an aging population. We must work in a bipartisan manner to reform the physician payment system, focus efforts on eliminating fraud and move Medicare into a new generation of coordinated, quality care.

Smoking: Promoting the Availability of Cessation Programs. Most smokers would love to quit but find it hard to do so. Working with business and insurance companies to promote availability, we can improve lives and reduce chronic disease through smoking cessation programs.

State Flexibility: Encouraging States To Lower Costs. States should have the flexibility to experiment with alternative forms of access, coordinated payments per episode covered under Medicaid, use of private insurance in Medicaid, alternative insurance policies and different licensing schemes for providers.

Tort Reform: Passing Medical Liability Reform. We must pass medical liability reform that eliminates lawsuits directed at doctors who follow clinical guidelines and adhere to safety protocols. Every patient should have access to legal remedies in cases of bad medical practice but that should not be an invitation to endless, frivolous lawsuits.

Transparency: Bringing Transparency To Health Care Costs. We must make public more information on treatment options and doctor records, and require transparency regarding medical outcomes, quality of care, costs and prices. We must also facilitate the development of national standards for measuring and recording treatments and outcomes.

#### CONFRONTING THE LONG-TERM CARE CHALLENGE

John McCain Will Develop A Strategy For Meeting The Challenge Of A Population Needing Greater Long-Term Care. There have been a variety of state-based experiments such as Cash and Counseling or The Program of All-Inclusive Care for the Elderly (PACE) that are pioneering approaches for delivering care to people in a home setting. Seniors are given a monthly stipend which they can use to: hire workers and purchase care-related services and goods. They can get help managing their care by designating representatives, such as relatives or friends, to help make decisions. It also offers counseling and bookkeeping services to assist consumers in handling their programmatic responsibilities.

SETTING THE RECORD STRAIGHT: COVERING  
THOSE WITH PRE-EXISTING CONDITIONS

Myth: Some claim that under John McCain's plan, those with pre-existing conditions would be denied insurance.

Fact: John McCain Supported The Health Insurance Portability And Accountability Act In 1996 That Took The Important Step Of Providing Some Protection Against Exclusion Of Pre-Existing Conditions.

Fact: Nothing In John McCain's Plan Changes The Fact That If You Are Employed And Insured You Will Build Protection Against The Cost Of Any Pre-Existing Condition.

Fact: As President, John McCain Would Work With Governors To Find The Solutions Necessary To Ensure Those With Pre-Existing Conditions Are Able To Easily Access Care.

Mr. MCCAIN. Then I ask unanimous consent to have printed in the RECORD a statement from FactCheck.org, of October 20, 2008, that says: "Obama's False Medicare Claim," which were the attacks on me which were not based on fact. I quote from FactCheck.org:

These claims are false, and based on a single newspaper report that says no such thing. McCain's policy director states unequivocally that no benefit cuts are envisioned. McCain does propose substantial "savings" . . .

I did propose savings, and we can make savings. Nowhere in my wildest imagination did I ever believe we were going to cut benefits in order to create a \$2.5 trillion new entitlement program when the system is already going broke. I will have those put in the RECORD.

Mr. KERRY. Reserving the right to object—

Mr. MCCAIN. The Senator from Massachusetts wants to distort my record, and that is fine. But it gets a little—

The PRESIDING OFFICER. Is there objection to having the document printed in the RECORD?

Mr. MCCAIN. As Ronald Reagan once said: Facts are stubborn things.

Mr. KERRY. Madam President, I am not going to object to putting something important in, but I would like my colleague to stay for a moment because this is very important.

Mr. GRASSLEY. Regular order.

The PRESIDING OFFICER. The majority's time has expired.

The Senator from Iowa.

Mr. GRASSLEY. I yield the remaining time on our side to Senator THUNE.

Mr. KERRY. I have objected to a statement being put in unless I have a chance to explain it.

The PRESIDING OFFICER. Objection is heard.

Mr. MCCAIN. I ask unanimous consent that the Senator from Massachusetts be allowed 3 additional minutes and I be allowed 2 additional minutes.

The PRESIDING OFFICER. Is there objection?

The Senator from Massachusetts.

Mr. KERRY. I thank my friend from Arizona because this is the way the Senate ought to work. I totally agree

with what the Senator said. I want the Senator to know I agree with him. He is correct that the statement in FactCheck.org calls the Obama campaign to account for a misstatement about his proposal. I agree. It did that. It did not recommend a reduction in benefits. But that is not what I suggested that it did. What I am talking about is, the Senator said—and his staff insisted—he could get the savings for his reductions that would benefit Medicare from waste, fraud, and abuse from new treatment models, from expanding the use of information technology and that there is a complete similarity between what we are doing in order to achieve these savings and what he was doing. I am trying to point out the similarity, not the difference. I am not here to debate the campaign ad. I think it didn't accurately reflect the Senator's position. But do I believe, if you read the whole article, which is why I will not object to it being put in there, you will see it clearly says he is supportive of savings in Medicare, so you can do it without cutting benefits, which is exactly what we are doing.

I yield the floor and thank my colleague for his courtesy.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. MCCAIN. Madam President, I thank the Senator from Massachusetts. This has been a vigorous debate. I see my prime adversary, the Senator from Illinois, on the floor, whom I look forward to doing battle with additionally, as well as my friend from Massachusetts. The fundamental point, I would say to my friend from Massachusetts, is that I never envisioned, nor do I believe the American people ever envisioned, we would be "cutting" benefits or, as the Senator says, making savings in order to transfer that to a brand new entitlement program. That is what the debate is about, whether we are going to take a failing system that in 7 years is going bankrupt, according to the Medicare trustees, and then take all this money, no matter how these savings are made—and I believe they are cuts of huge magnitude—and then fund a brandnew entitlement program.

That is what this real debate is about.

I thank my friend from Massachusetts for his courtesy. I look forward to the rebuttal from the Senator from Illinois, as well as the Senator from Montana. Thank you.

I yield the floor.

Several Senators addressed the Chair.

The PRESIDING OFFICER. The Chair is in doubt.

Mr. BAUCUS. Madam President, I suggest the Senator from Iowa be recognized.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. GRASSLEY. Madam President, I yield the remainder of the time to the Senator from South Dakota.

The PRESIDING OFFICER. The Senator from South Dakota.

Mr. THUNE. Madam President, this is a great discussion. I have to say the fundamental point in this discussion should not be lost on anybody in this Chamber or on the American people; that is, whatever was said during the course of the campaign last year was said in the context of protecting and preserving and prolonging the lifespan of Medicare.

Senator MCCAIN is very accurate in the way he describes his position. But the American people need to understand what the other side is proposing: a \$2.5 trillion expansion of the Federal Government, financed with  $\frac{1}{2}$  trillion in Medicare cuts in the first 10 years and, as the Senator from New Hampshire said, \$3 trillion in the first two decades of this program—which does nothing to extend the lifespan of Medicare by 1 day, nothing. What it does is it creates an entirely new entitlement program that is going to be paid for by future generations of Americans.

So Medicare, which is destined to be bankrupt by 2017—is sitting out there floundering with this huge unfunded liability. It is going bankrupt. What we are talking about doing is piling a \$2.5 trillion new entitlement program on top of that. That is what this debate is about.

They can say these Medicare cuts are not real. But we have 11 million people in this country who get Medicare Advantage benefits, and if there is going to be \$118 billion cut, somebody is going to feel some pain. Surely, you jest when you say these cuts are not going to hurt anybody. Hospitals, home health agencies—\$15 billion out of nursing homes.

In the State of South Dakota, home health care agencies, like they do in Montana, provide services to people in rural areas. Some home care specialists have to travel 50 or 60 miles to serve a patient in their home. What we are talking about doing is cutting, in my State, \$35 million out of home health care. These cuts are  $\frac{1}{2}$  trillion. Of course, somebody gets hurt by that.

But what is probably most troubling of all, I guess, about the whole proposal the other side has made is, after all that—cutting Medicare, raising taxes—at the end of the day 90 percent of the people in this country either have their health insurance premiums stay the same or go up—over 6 percent if you are in the small-employer market, 5 percent if you are in the large-employer market—double the rate of inflation. That does not change anything.

If you are a family today, and you are paying \$13,000 for health care insurance—this is according to the Congressional Budget Office—in 2016 you will be paying over \$20,000 a year for health insurance. That is a \$7,000 increase. Now, tell me how that reforms or helps anybody in this country?

I want to show you how far we have come because the President said, in 2007, when he was campaigning: When I become President, we will have a health care reform bill that reduces premiums for people in this country by \$2,500 per family and covers everybody. We all know this bill leaves 24 million people uncovered, according to the Congressional Budget Office. It raises premiums by 10 to 13 percent for everybody who buys in the individual marketplace. It keeps them the same—and when I say “the same,” there will be yearly increases of 5 to 6 percent year over year for this foreseeable future—for everybody else.

The best you can hope for, America—90 percent of America—is the status quo. That is the best you can hope for under this bill. How does that change the status quo? How is that reform? You can call this an overhaul. You can call this a takeover. You can call it lots of things. But it is not reform because when the American people think about reform, they are thinking about something that drives their health care costs down not up.

The Congressional Budget Office has said that under this bill, health care costs in this country will go up by \$160 billion over the first 10 years, not down. If you are 90 percent of Americans, you stay the same or your premiums—at worst—go up by 10 to 13 percent. That is according to the Congressional Budget Office.

So I want to point out how far this debate has evolved from what the goals were in the first place. I have some comments some of my colleagues have made. Senator STABENOW said:

High health care costs are causing cuts in benefits and increases in premiums, adding to the ranks of the uninsured at alarming rates. But the impact of this problem goes beyond individual families. Skyrocketing health care costs make our businesses less competitive in the global marketplace and cost us good-paying jobs.

This is about jobs, and this proposal does nothing to help small businesses create jobs. It kills jobs. That is why the National Federation of Independent Business, the Chamber of Commerce, the National Association of Wholesalers and Distributors—all the major business organizations—are opposed to this legislation. They know the impact it will have on jobs.

I want to read one final quote. This does not come from a business organization. This comes from the dean of the Harvard Medical School. This was in an op-ed just recently in the *Wall Street Journal*:

Speeches and news reports can lead you to believe that proposed congressional legislation would tackle the problems of cost, access and quality. But that's not true. . . . So the overall effort will fail to qualify as reform.

In discussions with dozens of health-care leaders and economists, I find near unanimity of opinion that, whatever its shape,

the final legislation that will emerge from Congress will markedly accelerate national health-care spending rather than restrain it.

That is from the dean of the Harvard Medical School. He goes on to say:

This will make an eventual solution even more difficult.

So these Medicare cuts are real. They are \$½ trillion in the first 10 years. As the Senator from New Hampshire has said, \$3 trillion over the first two decades. It cuts Medicare Advantage. There are 11 million seniors in this country who get Medicare Advantage. So do not say they are not going to get hurt. Their benefits are going to go down. Of course they are going to get hurt.

Home health agencies, nursing homes, hospices—as I said, in my State of South Dakota, home health care delivery will feel an impact of \$35 million in an area of the country where we have vast distances in geography and where we already have home health agencies closing up shop because the reimbursements do not keep up with the costs, particularly when you have to travel the distances we have to in our States. If you have to put them in the hospital, the costs go up by multiples. It is so much more efficient to have somebody served in a home health setting rather than have them stay overnight in a hospital or staying successive nights in a hospital.

So this is not reform. This actually keeps costs the same or drives them up for 90 percent of Americans. It does nothing to preserve the lifespan—

The PRESIDING OFFICER. The minority's time has expired.

Mr. THUNE. I yield the floor.

The PRESIDING OFFICER. The Senator from Montana.

Mr. BAUCUS. Madam President, I ask unanimous consent that 10 more minutes of debate be allowed, evenly divided.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAUCUS. Hearing no objection?

The PRESIDING OFFICER. Yes, without objection, it is so ordered.

Mr. BAUCUS. Madam President, I would just like to state as clearly as I possibly can, so people understand, the Medicare savings are being used for Medicare. There is a strong implication by many Senators that the savings are not going to be used for Medicare, that it will go someplace else. That is not true. The Medicare savings are going to be used for Medicare.

What are the savings? I think all Senators would like to reduce waste. All Senators agree there is too much waste in the current system. It makes good sense to try to attack that waste, root out that waste, and where there are overexpenditures, to try to get the levels down to a reasonable level. Everybody knows we have spent too many dollars on Medicare Advantage. Everybody knows that. That is why we are bringing that cost down.

There is also waste and fraud—I know my good friend from South Dakota understands this—in home health care agencies. In the State of Florida, for example, the Government Accountability Office showed that in Florida 60 percent of the outlier payments—the extra money that goes for sicker patients—were in one county. That county has 1 percent of seniors. It had 60 percent of the outlier payments, according to the Government Accountability Office. That is fraud. They rooted out a lot of fraud in home health.

Home health is very good. My mother is in home health right now. It works really well. I am very proud of the home health caretaker there who takes care of my mother. But we are reducing some of the overpayments. We are getting the waste out. And guess what. Those savings, where do they go? They go back into Medicare. I repeat that. They go back into Medicare. I do not know if any Senator wants to open up his ears or her ears and hear that. They go back into Medicare. Guess what. That is why the solvency of the Medicare trust fund is extended.

If these so-called cuts, which we hear about on the other side, were really cuts, as implied by the other side, you would think that would hurt Medicare. You would think that might reduce the period in which the trust fund would be solvent; that it would go insolvent at an earlier time, if we were really cutting Medicare. No, it is the opposite. These are savings in Medicare which extend the life of Medicare.

Please, please—I see my friend from Iowa. I think he understands, these Medicare savings go into Medicare for extending the solvency of the Medicare trust fund. I see my friend from South Dakota. I think he understands—he is sitting there and grinning at me now—I think he understands those savings go back into Medicare and extend the solvency of the trust fund. So let's make that very clear.

Second, we are using some of the money to reduce Part B premiums. That helps seniors. If Part B premiums are reduced, that helps seniors. By how much? Madam President, \$30 billion over 10 years. That will reduce seniors' Part B premiums. That helps seniors. We are not taking money away from seniors; we are helping seniors, giving more dollars to seniors in this legislation.

In addition, there are additional benefits for seniors in this legislation. We are starting to close the doughnut hole—that is something seniors talk about—in prescription drug benefits. They want that doughnut hole closed.

I might add to that, there are other benefits: new preventive benefits under Medicare for mammograms, preventive screenings, colonoscopies, annual wellness visits—all new benefits.

So I want to make it very clear that it is not true when some Senators say

we are taking money away from Medicare and creating a whole new entitlement program. We are not taking money away from Medicare and hurting seniors. We are reforming how dollars are paid, taking the waste out, and extra, excessive payments, and putting the money back into Medicare, back for seniors, back for beneficiaries.

Also, not one penny of guaranteed benefits will be cut. Not one penny can be cut. So please, people, understand that the savings go to help seniors, with more benefits, extending the solvency of the trust fund. That is what we are doing. If we keep that firm point in mind, then maybe we can go address some of the next steps that are in this bill. But that is very important.

Madam President, I do not know how much time I have.

The PRESIDING OFFICER. The Senator has 16 seconds.

Mr. BAUCUS. Madam President, he can probably extend a little bit. I see the Senator from Minnesota anxiously sitting over there in the corner. Maybe we could give him a couple—

Mr. FRANKEN. Madam President, I will just take the 16 seconds.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. FRANKEN. I do have the microphone, and I thank you for the 16 seconds.

I would like to now—oh, I have used it up.

I yield my time.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. ENZI. Madam President, first, I ask unanimous consent that an article that was discussed earlier and had some objection to it—but that objection has been resolved now—from FactCheck.org be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### OBAMA'S FALSE MEDICARE CLAIM

(By Brooks Jackson)

##### SUMMARY

In a TV ad and in speeches, Obama is making bogus claims that McCain plans to cut \$880 billion from Medicare spending and to reduce benefits.

A TV spot says McCain's plan requires "cuts in benefits, eligibility or both."

Obama said in a speech that McCain plans "cuts" that would force seniors to "pay more for your drugs, receive fewer services, and get lower quality care."

Update, Oct. 21: A second Obama ad claims that McCain's plan would bring about a 22 percent cut in benefits, "higher premiums and co-pays," and more expensive prescription drugs.

These claims are false, and based on a single newspaper report that says no such thing. McCain's policy director states unequivocally that no benefit cuts are envisioned. McCain does propose substantial "savings" through such means as cutting fraud, increased use of information technology in medicine and better handling of expensive chronic diseases. Obama himself

proposes some of the same cost-saving measures. We're skeptical that either candidate can deliver the savings they promise, but that's no basis for Obama to accuse McCain of planning huge benefit cuts.

##### ANALYSIS

The Obama campaign began the Medicare assault with a 30-second TV ad released Oct. 17, which it said would run "across the country in key states."

ANNOUNCER. John McCain's health care plan . . . first we learned he's going to tax health care benefits to pay for part of it.

Now the Wall Street Journal reports John McCain would pay for the rest of his health care plan "with major reductions to Medicare and Medicaid."

Eight hundred and eighty-two billion from Medicare alone. "Requiring cuts in benefits, eligibility, or both."

John McCain . . . Taxing Health Benefits . . . Cutting Medicare. We Can't Afford John McCain.

OBAMA. I'm Barack Obama and I approved this message. The ad quotes the Wall Street Journal as saying McCain would pay for his health care plan with "major reductions to Medicare and Medicaid," which the ad says would total \$882 billion from Medicare alone, "requiring cuts in benefits, eligibility, or both."

Obama elaborated on the theme Oct. 18 in a stump speech in St. Louis, Mo., claiming flatly that seniors would face major medical hardships under McCain: "Obama, Oct. 18: But it turns out, Senator McCain would pay for part of his plan by making drastic cuts in Medicare—\$882 billion worth. Under his plan, if you count on Medicare, you would have fewer places to get care, and less freedom to choose your doctors. You'll pay more for your drugs, receive fewer services, and get lower quality care."

Update, Oct. 21: A second and even more misleading Obama ad begins: "How will your golden years turn out?" It states flatly that McCain's plan would mean a 22 percent cut in benefits, higher premiums, higher co-pays, and more expensive prescription drugs, and claims that both nursing home care and a patient's choice of doctor could be affected.

As the narrator says that McCain's plan "means a 22 percent cut in benefits," the ad displays a footnote citing an Oct. 6 Wall Street Journal story as its authority.

But, in fact, the Journal story makes no mention of any 22 percent reduction, or any reduction at all. To the contrary, the story's only mention of what might happen to benefits is a quote from McCain adviser Douglas Holtz-Eakin promising to maintain "the benefit package that has been promised." The story quotes him as saying "savings" would come from eliminating Medicare fraud and by reforming payment policies to lower the overall cost of care.

##### OBAMA-BIDEN AD: "GOLDEN YEARS"

OBAMA. I'm Barack Obama and I approve this message.

ANNOUNCER. How would your golden years turn out under John McCain? His health care plan would cut Medicare by \$800 billion. That means a 22% cut in benefits. Higher premiums and co-pays. More expensive prescription drugs. Nursing home care could suffer and so could your choice of doctor. After a lifetime of work, seniors' health care shouldn't be a gamble. John McCain's plan, it's not the change we need.

The fact is that McCain has never proposed to cut Medicare benefits, or Medicaid benefits either. Obama's claim is based on a false reading of a single Wall Street Journal

story, amplified by a one-sided, partisan analysis that piles speculation atop misinterpretation. The Journal story in turn was based on an interview with McCain adviser Holtz-Eakin. He said flatly in a conference call with reporters after the ad was released, "No service is being reduced. Every beneficiary will in the future receive exactly the benefits that they have been promised from the beginning."

##### TWISTING FACTS TO SCARE SENIORS

Here's how Democrats cooked up their bogus \$882 billion claim.

On Oct. 6, the Journal ran a story saying that McCain planned to pay for his health care plan "in part" through reduced Medicare and Medicaid spending, quoting Holtz-Eakin as its authority. The Journal characterizes these reductions as both "cuts" and "savings." Importantly, Holtz-Eakin did not say that any benefits would be cut, and the one direct quote from him in the article makes clear that he's talking about economies: "Wall Street Journal, Oct. 6: Mr. Holtz-Eakin said the Medicare and Medicaid changes would improve the programs and eliminate fraud, but he didn't detail where the cuts would come from. 'It's about giving them the benefit package that has been promised to them by law at lower cost,' he said."

Holtz-Eakin complains that the Journal story was "a terrible characterization" of McCain's intentions, but even so it clearly quoted him as saying McCain planned on "giving [Medicare and Medicaid beneficiaries] the benefit package that has been promised."

Nevertheless, a Democratic-leaning group quickly twisted his quotes into a report with a headline stating that the McCain plan "requires deep benefit and eligibility cuts in Medicare and Medicaid"—the opposite of what the Journal quoted Holtz-Eakin as saying. The report was issued by the Center for American Progress Action Fund, headed by John D. Podesta, former chief of staff to Democratic President Bill Clinton. The report's authors are a former Clinton administration official, a former aid to Democratic Sen. Bob Kerrey and a former aid to Democratic Sen. Barbara Mikulski.

The first sentence said—quite incorrectly—that McCain "disclosed this week that he would cut \$1.3 trillion from Medicare and Medicaid to pay for his health care plan." McCain said no such thing, and neither did Holtz-Eakin. The Journal reporter cited a \$1.3 trillion estimate of the amount McCain would need to produce, over 10 years, to make his health care plan "budget neutral," as he promises to do. The estimate comes not from McCain, but from the Urban-Brookings Tax Policy Center. McCain and Holtz-Eakin haven't disputed that figure, but they haven't endorsed it either.

Nevertheless, the report assumes McCain would divide \$1.3 trillion in "cuts" proportionately between the two programs, and comes up with this: "The McCain plan will cut \$882 billion from the Medicare program, roughly 13 percent of Medicare's projected spending over a 10-year period." And with such a cut, the report concludes, Medicare spending "will not keep pace with inflation and enrollment growth—thereby requiring cuts in benefits, eligibility, or both."

##### "SAVINGS" VS. "CUTS"

For the record, Holtz-Eakin said in a telephone conference call with reporters Oct. 17, after the ad was released, that any shortfall in McCain's health care plan could be covered, without cutting benefits, by such measures as reducing "Medicare fraud and

abuse," employing "a new generation of treatment models" for expensive chronic diseases, speeding adoption of low-cost generic drugs, and expanding the use of information technology in medicine.

Interestingly, Obama proposes to pay for his own health care plan in part through some of the same measures, particularly expanded use of I.T. and better handling of chronic disease. Whether either candidate can achieve the huge savings they are promising is dubious at best. As regular readers of FactCheck.org are aware, we're skeptical of Obama's claim that he can achieve his promised \$2,500 reduction in average health insurance premiums, for example.

But achievable or not, "savings" are what McCain is proposing. It's a rank distortion for Obama's ad to twist that into a plan for "cuts in benefits, eligibility or both," and for Obama to claim in a speech that seniors will "receive fewer services, and get lower quality care."

Update, Oct. 21: The Center for American Progress Action Fund issued a rebuttal to this article, claiming our analysis is "flawed," that this article "relies solely on the denials of McCain senior policy adviser Douglas Holtz-Eakin" and that we failed to conduct a "thorough analysis of the implications" of McCain's health care proposals.

We disagree. Our criticism of both Obama and American Progress is that they themselves misinterpret and misrepresent what Holtz-Eakin said to the Wall Street Journal in the first place. He was quoted in the Journal, and stated again to reporters in a conference call, that what McCain is proposing is to reduce the costs borne by Medicare and Medicaid, and that benefits will not be reduced. American Progress simply ignores that clear statement in its analysis, and the Obama ads take the extra step of telling seniors that McCain plans to cut benefits, when McCain says the opposite.

The American Progress argument rests on the idea that because McCain has also promised to make his health care plan budget neutral—neither raising nor cutting total federal spending—and that because American Progress' analysis concludes that he cannot achieve the savings that he claims, that McCain therefore must be forced to break his promise not to cut benefits.

We are also skeptical that McCain can achieve such savings, and we said so at the outset of our article. And we've twice called into question the campaign's claim that its plan is budget neutral. But it is false logic to conclude that Medicare benefit cuts would be McCain's only option should his promised savings fail to materialize. McCain could simply run up the deficit. Or he could choose to water down his health care plan to make it less expensive.

It is certainly possible that McCain will break his promise not to cut benefits, just as it is possible that Obama will break his promise to raise taxes only on families making over \$250,000 a year. We have no crystal ball, and we don't pretend we can predict the future. But for Obama or American Progress to state as a matter of fact that McCain will be forced to cut benefits, or that he is proposing any such thing, is simply a falsehood designed to frighten elderly voters.

Mr. ENZI. Madam President, I yield 5 minutes to the Senator from Maine.

The PRESIDING OFFICER. The Senator from Maine.

Ms. COLLINS. Madam President, I thank the manager of the bill.

I rise in support of the motion offered by my colleague from Nebraska to

commit this bill in order to strike the more than \$42 billion in cuts in the Medicare home health benefit.

Madam President, you, too, come from a pretty rural State, so I know you understand just how important home health care is to the seniors in our States. Home health care has become an increasingly important part of our health care system. The highly skilled services and compassionate care that our Nation's home health agencies provide have helped to keep families together. They have enabled millions of our most frail and vulnerable senior citizens to avoid hospitals and nursing homes and, instead, to receive care just where they want to be, in the privacy, comfort, and security of their own homes.

Moreover, by helping these individuals to avoid more costly institutional care, home health saves Medicare millions of dollars each year. That is why I find it so frustrating and so ironic that once again the Medicare home health benefit is under attack.

The bill before us would cut payments to home health providers by more than \$42 billion over the next 10 years. Moreover, these cuts are a double whammy because they come in addition to \$7.5 billion worth of cuts that have been imposed by the Centers for Medicare and Medicaid Services through regulation.

These cuts are particularly unfair and disproportionate for a program that costs Medicare less than \$16 billion a year. That is simply not right, and it is certainly not in the interests of our Nation's seniors who rely on home health care in order to keep out of more expensive hospitals, nursing homes, and other institutions.

The Medicare home health benefit has already taken a larger hit in spending over the past 10 years than any other Medicare benefit. In fact, home health as a share of Medicare spending has dropped from 8.7 percent in 1997 to only 3.6 percent today.

There was an excellent article in today's New York Times talking about the disproportionate impact this bill would have on home health care. As the reporter points out, under this legislation, home care would absorb a disproportionate share of the cuts. It currently accounts for 3.7 percent of the Medicare budget but would be required to absorb 10.2 percent of the savings from Medicare under the House bill and 9.4 percent of savings under the Senate bill. That does not make sense.

Home health care has consistently proven to be a compassionate and cost-effective alternative to institutional care. In rural States where home health providers have to travel long distances to deliver care, the impact of these cuts will ultimately fall on our seniors because home health agencies simply will not be able to afford to serve seniors who are living in smaller

communities off rural roads in isolated parts of our States.

These deep cuts are completely counterproductive to our efforts to control overall health care costs. They also place the quality of home health services at risk, particularly given ever-rising staffing, transportation, and technology cuts.

As our Nation faces the continuing challenges of caring for an aging population, now is not the time to be making such deep cuts in the Medicare home health benefit. I urge support for the motion to commit introduced by my friend and colleague from Nebraska.

Thank you, Madam President.

Mr. ENZI. Madam President, how much time do we have?

The PRESIDING OFFICER. The minority time has expired.

The Senator from Montana.

Mr. BAUCUS. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. ENZI. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Is there objection?

Mr. BAUCUS. As long as it is equally divided between the two sides.

Mr. ENZI. That would be fine with me, and I would even allow the Senator from Minnesota to go first. I would use the same amount of time he uses.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. FRANKEN. How much time do I have? Two minutes.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. FRANKEN. Madam President, let me use the 16 seconds I had but use it in a better way, so maybe it won't be 2 minutes. I was going to talk about Senator LINCOLN's amendment to limit tax benefits health insurance companies receive on salaries for CEOs, but let me just talk about the nature of this debate.

My esteemed colleague from Arizona, Senator McCAIN, quoted Ronald Reagan saying facts are stubborn things. We just had my distinguished colleague from South Dakota say that this bill does not extend for 1 day the solvency of Medicare. Well, according to the Office of the Actuary for the Centers for Medicare and Medicaid Services, it extends it for 5 years. Now, facts are either stubborn things or they aren't. The Actuary for CMS is either the Actuary for CMS or not. You can't have a debate such as this and throw things around. Facts are stubborn things. We are entitled to our own opinions. We are not entitled to our own facts. You cannot stand up here

and wave your arms and say this doesn't extend Medicare 1 minute, 1 day, when the Actuary for Medicare says the bill extends it for 5 years.

I yield the floor.

Mr. ENZI. Madam President, how much time do I have?

The PRESIDING OFFICER. The Senator has no time.

Mr. ENZI. Madam President, the agreement was that whatever time he took, our side would get.

The PRESIDING OFFICER. The Senator would then have 2 minutes.

Mr. ENZI. Thank you.

Madam President, the first thing I wish to do is mention that some of these things are facts, particularly if you go to specific situations. In Wyoming, our home health care is a specific situation, and we have had letters pouring in. I have one here from the Home Health Care Alliance of Wyoming, and I ask unanimous consent that it be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

HOME HEALTH CARE  
ALLIANCE OF WYOMING,

Wheatland, WY, December 5, 2009.

Senator MICHAEL B. ENZI,  
*Ranking Member, Committee on Health, Education, Labor & Pensions, Hart Senate Office Building, Washington, DC.*

DEAR SENATOR ENZI: Over the past ten years the Medicare home health benefit has taken a larger hit in spending reductions than any other benefit. As home health has become an increasingly important part of our health care system with highly skilled and often technically complex services that enable millions of senior citizens and disabled Americans to avoid being hospitalized or admitted to nursing homes, these home health services save Medicare millions of dollars each year.

I believe that further reduction in home health payments would place the quality and availability of home health services at risk. I urge you to oppose the cut in Medicare dollars for home health agencies throughout our nation.

Sincerely,

MARI IRELAN,  
*President.*

Mr. ENZI. Madam President, the letter says:

Over the past 10 years the Medicare home health benefit has taken a larger hit in spending reductions than any other benefit. As home health has become an increasingly important part of our health system with highly skilled and often technically complex services that enable millions of senior citizens and disabled Americans to avoid being hospitalized or admitted to nursing homes, these home health services save Medicare millions of dollars each year.

I believe that further reduction in home health payments will place the quality and availability of home health services at risk. I urge you to oppose the cut in Medicare dollars for home health agencies throughout our Nation.

The New York Times today pointed out that in the Reid bill:

Home care would absorb a disproportionate share of cuts. It currently accounts for 3.7

percent of the Medicare budget, but would account for 9.4 percent of the cuts in the Senate bill according to the Congressional Budget Office.

That is from the New York Times.

The last time Congress made similar cuts was in the Balanced Budget Act in 1997 when about 15 percent of home health agencies ended their participation in Medicare. So there is a history on this that shows that if we do what we are talking about doing here, we will put people out of business and we will put an end to services to seniors and the more rural—

Mr. BAUCUS. Madam President, if my good friend would allow me to interrupt to propound a unanimous consent agreement so Senators know when votes are going to come up, and then continue.

Mr. ENZI. Sure.

Mr. BAUCUS. Madam President, I ask unanimous consent that once this agreement is entered, it be in order for Senator KERRY or his designee to be recognized to offer the majority side-by-side to the Johans motion; that the Senate proceed to vote in relation to the Kerry amendment; and that upon disposition of the Kerry amendment, the Senate then proceed to vote in relation to the Johans motion; that no amendments be in order to the Kerry amendment or the Johans motion; further, that upon disposition of the above-referenced amendment and motion, the Republican leader's designee be recognized to call up an amendment related to the Lincoln amendment No. 2905; further, that on Sunday, December 6, after the Senate has resumed consideration of H.R. 3590, the time until 3:15 p.m. be for debate with respect to the Lincoln amendment No. 2905, and the Republican amendment identified above; with the time on Sunday equally divided and controlled, with Senators permitted to speak for up to 10 minutes each; that at 3:15 p.m., the Senate proceed to vote in relation to the Lincoln amendment No. 2905; that upon disposition of amendment No. 2905, the Senate then proceed to vote in relation to the Republican amendment related to the Lincoln amendment; that all of the amendments and motions covered in this agreement be subject to an affirmative 60-vote threshold and that if any achieve it, then they be agreed to and the motion to reconsider be laid upon the table; that if they do not achieve that threshold, then they be withdrawn; that prior to the second votes covered in this agreement, there be 2 minutes of debate; that after the first vote, each succeeding vote covered here be limited to 10 minutes each; provided further that no other motion be in order, except a motion to reconsider a vote with respect to the above-referenced amendments and motion.

The PRESIDING OFFICER. Is there objection?

The Republican leader.

Mr. McCONNELL. Reserving the right to object, and I will not be objecting, I also wish to make clear that the majority leader and I have an understanding that we will actually have four votes tomorrow—not just two, four. Bearing that in mind, I do not object.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAUCUS. Madam President, I might say, that is our understanding on this side as well.

AMENDMENT NO. 2926 TO AMENDMENT NO. 2786

Mr. BAUCUS. Madam President, I call up the Kerry amendment which is at the desk and ask for the yeas and nays.

The PRESIDING OFFICER. The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Montana [Mr. BAUCUS], for Mr. KERRY, proposes an amendment numbered 2926.

The amendment is as follows:

(Purpose: To protect home health benefits)

On page 869, between lines 14 and 15, insert the following:

SEC. 3143. PROTECTING HOME HEALTH BENEFITS.

Nothing in the provisions of, or amendments made by, this Act shall result in the reduction of guaranteed home health benefits under title XVIII of the Social Security Act.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The yeas and nays have been requested. Is there a sufficient second? There appears to be.

The clerk will call the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) is necessarily absent.

Mr. KYL. The following Senators are necessarily absent: the Senator from Kentucky (Mr. BUNNING), the Senator from Oklahoma (Mr. INHOFE), and the Senator from South Carolina (Mr. GRAHAM).

Further, if present and voting, the Senator from Kentucky (Mr. BUNNING) would have voted "yea."

The result was announced—yeas 96, nays 0, as follows:

[Rollcall Vote No. 363 Leg.]

YEAS—96

Akaka	Chambliss	Gregg
Alexander	Coburn	Hagan
Barrasso	Cochran	Harkin
Baucus	Collins	Hatch
Bayh	Conrad	Hutchison
Begich	Corker	Inouye
Bennet	Cornyn	Isakson
Bennett	Crapo	Johanns
Bingaman	DeMint	Johnson
Bond	Dodd	Kaufman
Boxer	Dorgan	Kerry
Brown	Durbin	Kirk
Brownback	Ensign	Klobuchar
Burr	Enzi	Kohl
Burriss	Feingold	Kyl
Cantwell	Feinstein	Landrieu
Cardin	Franken	Lautenberg
Carper	Gillibrand	Leahy
Casey	Grassley	LeMieux

Levin	Nelson (FL)	Specter
Lieberman	Pryor	Stabenow
Lincoln	Reed	Tester
Lugar	Reid	Thune
McCain	Risch	Udall (CO)
McCaskill	Roberts	Udall (NM)
McConnell	Rockefeller	Vitter

Murray	Shelby	Wicker
Nelson (NE)	Snowe	Wyden

## NOT VOTING—4

Bunning	Graham
Byrd	Inhofe

The PRESIDING OFFICER. On this vote, the yeas are 96, the nays are 0. Under the previous order requiring 60 votes for the adoption of this amendment, the amendment is agreed to.

Mr. LAUTENBERG. Mr. President, I move to reconsider the vote.

Mr. BEGICH. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

## MOTION TO COMMIT

The PRESIDING OFFICER. There will now be 2 minutes of debate equally divided on the Johanns motion to commit.

The Senator from Montana.

Mr. BAUCUS. Madam President, this is very simple. A vote for the Johanns amendment is a vote for the status quo. What does that mean? It means seniors will continue to pay higher and higher premiums, higher cost sharing due to wasteful overpayments. A vote against Johanns means we can extend the solvency of the Medicare trust fund that helps benefits.

I think we are for seniors in this body. I urge a vote against Johanns.

The PRESIDING OFFICER. The Senator from Maine.

Ms. COLLINS. Madam President, home health care is the compassionate, cost-effective alternative to institutional care. It allows our seniors to receive care just where they want to be—in their own homes. Under this bill, home health care would take a disproportionate cut.

Let me quote a home health care director in my State who sums up what the approach will be, what will happen if this motion is agreed to. She says:

Our staff is scared, but it is our patients who will pay the price if Congress makes cuts in home care.

I urge support for the motion to commit offered by the Senator from Nebraska.

Ms. COLLINS. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The question is on agreeing to the motion.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr.

BYRD), the Senator from Vermont (Mr. LEAHY), and the Senator from Vermont (Mr. SANDERS) are necessarily absent.

Mr. KYL. The following Senators are necessarily absent: the Senator from Kentucky (Mr. BUNNING), the Senator from Oklahoma (Mr. INHOFE), and the Senator from South Carolina (Mr. GRAHAM).

Further, if present and voting, the Senator from Kentucky (Mr. BUNNING) would have voted "yea."

The ACTING PRESIDENT pro tempore. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 41, nays 53, as follows:

[Rollcall Vote No. 364 Leg.]

## YEAS—41

Alexander	DeMint	McConnell
Barrasso	Ensign	Murkowski
Bayh	Enzi	Nelson (NE)
Bennett	Grassley	Risch
Bond	Gregg	Roberts
Brownback	Hatch	Sessions
Burr	Hutchison	Shelby
Chambliss	Isakson	Snowe
Coburn	Johanns	Thune
Cochran	Kyl	Vitter
Collins	LeMieux	Voinovich
Corker	Lincoln	Webb
Cornyn	Lugar	Wicker
Crapo	McCain	

## NAYS—53

Akaka	Franken	Mikulski
Baucus	Gillibrand	Murray
Begich	Hagan	Nelson (FL)
Bennet	Harkin	Pryor
Bingaman	Inouye	Reed
Boxer	Johnson	Reid
Brown	Kaufman	Rockefeller
Burr	Kerry	Schumer
Cantwell	Kirk	Shaheen
Cardin	Klobuchar	Specter
Carper	Kohl	Stabenow
Casey	Landrieu	Tester
Conrad	Lautenberg	Udall (CO)
Dodd	Levin	Udall (NM)
Dorgan	Lieberman	Warner
Durbin	McCaskill	Whitehouse
Feingold	Menendez	Wyden
Feinstein	Merkley	

## NOT VOTING—6

Bunning	Graham	Leahy
Byrd	Inhofe	Sanders

The ACTING PRESIDENT pro tempore. On this vote, the yeas are 41, the nays are 53. Under the previous order requiring 60 votes for the adoption of this motion, the motion is withdrawn.

Mr. DORGAN. Mr. President, I move to reconsider the vote and to lay that motion on the table.

The motion to lay on the table was agreed to.

The ACTING PRESIDENT pro tempore. The Senator from Nevada.

AMENDMENT NO. 2927 TO AMENDMENT NO. 2786

Mr. ENSIGN. Mr. President, I have an amendment at the desk.

The ACTING PRESIDENT pro tempore. The clerk will report the amendment.

The bill clerk read as follows:

The Senator from Nevada [Mr. ENSIGN] proposes an amendment numbered 2927 to amendment No. 2786.

Mr. ENSIGN. Mr. President, I ask unanimous consent to waive the reading of the amendment.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place, insert the following:

## SEC. —. LIMITATION ON AMOUNT OF ATTORNEY'S CONTINGENCY FEES.

(a) IN GENERAL.—An attorney who represents, on a contingency fee basis, a plaintiff in a medical malpractice liability action may not charge, demand, receive, or collect for services rendered in connection with such action (including the resolution of the claim that is the subject of the action under any alternative dispute resolution system) in excess of—

(1) 33½ percent of the first \$150,000 of the total amount recovered by judgment or settlement in such action; plus

(2) 25 percent of any amount recovered in excess of the first \$150,000 recovered by such judgment or settlement, unless otherwise determined under State law. Such amount shall be computed after deductions are made for all the expenses associated with the claim other than those attributable to the normal operating expenses of the attorney.

(b) CALCULATION OF PERIODIC PAYMENTS.—In the event that a judgment or settlement includes periodic or future payments of damages, the amount recovered for purposes of calculating the limitation on the contingency fee under subsection (a) may, in the discretion of the court, be based on the cost of the annuity or trust established to make the payments. In any case in which an annuity or trust is not established to make such payments, such amount shall be based on the present value of the payments.

(c) DEFINITIONS.—In this section:

(1) CONTINGENCY FEE.—The term "contingency fee" means any fee for professional legal services which is, in whole or in part, contingent upon the recovery of any amount of damages, whether through judgment or settlement.

(2) HEALTH CARE PROFESSIONAL.—The term "health care professional" means any individual who provides health care services in a State and who is required by the laws or regulations of the State to be licensed or certified by the State to provide such services in the State.

(3) HEALTH CARE PROVIDER.—The term "health care provider" means any organization or institution that is engaged in the delivery of health care services in a State and that is required by the laws or regulations of the State to be licensed or certified by the State to engage in the delivery of such services in the State.

(4) MEDICAL MALPRACTICE LIABILITY ACTION.—The term "medical malpractice liability action" means a cause of action brought in State or Federal court against a health care provider or health care professional by which the plaintiff alleges a medical malpractice claim.

Mr. ENSIGN. Mr. President, the amendment I am offering is an amendment on medical liability reform. I believe meaningful medical liability reform should be included in any overall health care legislation that we do this year. I have a separate bill from this amendment, a complete comprehensive medical liability reform bill, which I introduced earlier, known as S. 45. In an effort to find a compromise, however, I am offering this amendment today.

This amendment was originally offered by Senator Edward Kennedy back in 1995. While many Members of the Senate, including myself, were not here in 1995, 21 Members from the other side of the aisle were here at that time, and they supported this amendment. Those Members included: Senator AKAKA, Senator BAUCUS, Senator BINGAMAN, Senator BOXER, Senator BYRD, Senator CONRAD, Senator DODD, Senator DORGAN, Senator FEINGOLD, Senator FEINSTEIN, Senator HARKIN, Senator INOUE, Senator KERRY, Senator KOHL, Senator LAUTENBERG, Senator LEAHY, Senator LEVIN, Senator MIKULSKI, Senator MURRAY, Senator REID, and Senator SPECTER. I would hope these Members will today continue to support Senator Kennedy's amendment from 1995.

Clearly, the issue of medical liability reform is even more pressing today than it was back in 1995. We, as Americans, spend more money on lawsuits than any other country in the world and more than twice as much as all but one other country. According to a recent nonpartisan study, the direct cost of health care lawsuits is around \$30 billion a year. That is the direct cost to our health care system—around \$30 billion a year. These costs are multiplied by indirect costs, especially doctors ordering costly tests out of fear of being sued.

Estimates of wasted money spent on unneeded tests range from over \$100 billion a year annually to \$250 billion a year annually. Let me repeat those numbers. The estimates range from \$100 billion to \$250 billion annually in unnecessary tests conducted by doctors due to fear of lawsuits.

In 2006, an article in the *New England Journal of Medicine* suggested that as much as 40 percent of medical liability lawsuits are without merit. Medical liability insurance premiums are threatening the stability of our Nation's health care system. These rates are forcing many physicians, hospitals, and other health care providers to move out of high-liability States, limit the scope of their practices, and even to close their doors permanently. This crisis is affecting more and more patients and is threatening access to reliable, quality health care services.

I have a good friend in southern Nevada who practices obstetrics. In his practice, he specializes in high-risk pregnancies. Because of the medical liability problems we have seen in the past several years, his insurance company limits the number of high-risk pregnancies in which he can assist. So you have one of the best doctors practicing obstetrics who—because of fear of lawsuits by his insurance company—is limited as to the number of high-risk pregnancies in which he can assist.

If you are a woman with a high-risk pregnancy, it would seem to me you would want the best doctors to take

care of you. That only makes sense. Because of the medical liability crisis we are facing in this country, however, the best of the best are limited to the number of cases they can handle. Because of unaffordable medical liability insurance premiums, it is now common for obstetricians to not even deliver babies and it is also common for other specialists to no longer provide emergency calls or to provide certain high-risk procedures.

Ask yourself this question: What if you were in need of an emergency procedure; what if you were the woman who had a high-risk pregnancy and could not find a specialist to provide you with the care you needed?

The medical liability crisis is threatening patient access to reliable quality health care services all over America. Additionally, costly medical liability insurance premiums have forced some emergency departments to shut down temporarily in recent years.

In my home State of Nevada, our level I trauma center closed for 10 days in 2002. This closure left every patient within a 10,000 square mile area unserved by a level I trauma center.

Unfortunately, Jim Lawson was one of those in need of the trauma unit at that time. Jim lived in Las Vegas, and was just 1 month shy of his 60th birthday. He had recently returned from visiting his daughter in California. When he returned, he was injured in a severe car accident.

Jim should have been taken to University Medical Center's level I trauma center, but it was closed. Instead, Jim was taken to another emergency room, where he was to be stabilized and then transferred to Salt Lake City's trauma center. Tragically, Jim never made it that far. He died that day due to cardiac arrest caused by blunt force from physical trauma.

Why was Nevada's only level I trauma center closed? Due to a simple fact: the doctors could not afford medical liability premiums, and there were not enough doctors to provide care. Ultimately, the State had to step in and take over the liability to reopen the trauma center.

More than 35 percent of neurosurgeons have altered their emergency or trauma call coverage because of the medical liability crisis. This means that patients with head injuries or those who are in need of neurosurgical services must be transferred to other facilities, delaying much needed care.

Dr. Alamo of Henderson, NV, brought another example of this problem to my attention. Dr. Alamo was presented with a teenager suffering from myasthenia gravis. She was in a crisis and in need of immediate medical treatment. Because of the medical liability situation, there was no emergency neurologist on call to assist this young woman.

Dr. Alamo called several in the area, and none of them wanted to take her

case because of the medical liability situation. So Dr. Alamo had the young woman transported to California by helicopter to receive the medical care she needed. Just imagine if that was your daughter or some close friend or relative. How would you feel?

These kinds of situations should not happen and should not be forced to happen because of the medical liability crisis we have in America today. Stories such as these are all too common across our country.

To address the growing medical liability crisis in my State of Nevada, the State enacted legislation that includes a cap on noneconomic damages and a cap on total damages for trauma care. Several other States have enacted similar reforms.

This should not be a Republican or Democratic issue; this is fundamentally a patient issue. Simply put, the current medical liability crisis means patients cannot find access to care when they need it most in many areas.

Without Federal legislation, the exodus of providers from the practice of medicine will continue, and patients will find it increasingly difficult to obtain needed care.

As we work on a comprehensive healthcare reform bill, one of our primary goals must be to enact meaningful medical liability reform to help ensure patients access to care. As you know, President Obama addressed the entire Congress on health reform in September. During his speech, he said, "I don't believe malpractice reform is a silver bullet, but I have talked to enough doctors to know that defensive medicine may be contributing to unnecessary costs." I think that is quite an understatement. Talk to health care providers. It drastically contributes to unnecessary costs, not just maybe contributors.

The President went on to say that he has asked Secretary Sebelius to move forward on demonstration projects in individual States to test ways to put patient safety first and let doctors focus on practicing medicine.

Let's face reality. There is no doubt that defensive medicine occurs every day and that the costs to the health care system are staggering. As I mentioned earlier, tens if not hundreds of billions of dollars are wasted every year due to the practice of defensive medicine, largely in an attempt to avoid frivolous, junk lawsuits.

Just think of how many uninsured patients we could take care of with that money or how much cheaper premiums would be for those who have insurance. We must stop playing games and start doing something real to address this important healthcare issue.

Unfortunately, the underlying bill does not meaningfully address medical liability reform—it only contains a toothless sense of the Senate. The Sense of the Senate notes that Congress should consider establishing a

State demonstration program to evaluate alternatives to the current civil litigation system.

Let's be honest with ourselves. This is just windowdressing. The Sense of the Senate is just fluff. It ignores the substantial progress that many States have already made with medical liability reform. Capping noneconomic damage awards has been highly successful in a number of States, such as Texas and is something that should be part of health care reform.

But, if we cannot reach a consensus on this, then we should at least follow Senator Kennedy's example and limit the amount of attorneys' contingency fees as an important first step.

Let's do the right thing. Let's enact real medical liability reform.

The amendment that I am proposing today would place reasonable limits on attorney's contingency fees in medical malpractice cases. The limit would be 33⅓ percent of the first \$150,000 of the total amount recovered by the judgment or settlement. There would be a further limit of 25 percent of any amount recovered in excess of the first \$150,000 recovered by the judgment or settlement.

While helping to reign in the cost of frivolous medical malpractice lawsuits, this amendment also ensures that States' rights are protected. This amendment explicitly allows States that have different fee limitations to keep them in place instead of these caps. This amendment ensures appropriate State flexibility while at the same time helping to improve access to care and reduce health care costs. Let me repeat. Back in 1995 when Senator Edward Kennedy offered this amendment, these 21 Senators, part of the Democratic majority, all voted for the Kennedy amendment.

To be clear, my Medical Care Access Protection Act contains more detailed limitations on contingency fees than those contained in the amendment I am proposing today. But in the interest of finding a starting point on medical liability reform, I am willing to start off the debate by enacting Senator Kennedy's limitations first.

By the way, the other side is going to say that the trial lawyers need this money to be able to take these cases. Let's face it, the trial lawyers are mostly the ones who get the money out of these cases. We want to make sure that money goes mostly to the patient. So when you see pictures put up by the other side, you will notice that my amendment would actually help those very patients who are in the pictures that those on the other side will put up.

Medical liability reform works, and it is already turning the tide against frivolous lawsuits and outrageous jury awards in some States. We have seen it in California, in Texas and in my home State of Nevada, where the number of

medical malpractice lawsuits has decreased drastically. It has been a crisis driving doctors out of business for too long. It is time to protect patients across the country and ensure access to quality health care.

To illustrate my point, I would like to tell you about the success of medical liability reform in several States. First, take the example of Texas that passed medical liability reform in 2003.

To begin with, access to health care has improved, with 18,252 new physicians coming to Texas. The number of high-risk medical specialists in Texas is growing. Since 2003, Texas has added 768 emergency medicine doctors, 481 heart doctors, 218 obstetricians, 212 orthopedic surgeons, and 48 neurosurgeons. These additions are not limited to metro Texas. The ranks of rural obstetricians have grown by 27 percent; 22 rural counties have added an obstetrician and ten counties have added their first OB; 23 rural counties have added at least one emergency medicine physician and 18 counties added their first ER doctor.

In addition to improvements in access to health care, charity care has also greatly expanded due to medical liability reform. Today, Texas hospitals are rendering \$594 million more in charity care annually than they were just 6 years ago. That is a 24 percent increase in charity care, which is due to liability savings.

Liability savings in States across the country have allowed hospitals to: upgrade medical equipment; expand the emergency room; expand outpatient services; staff ER rooms 24/7 with high-risk specialists; improve salaries for nurses; and launch patient safety programs.

Without reforms and the attendant savings, these healthy developments would not have been possible. Lawsuit reform has been a magnet for attracting doctors and the funding mechanism to improve access to care and enhance patient safety.

Physicians have seen a decrease in their medical liability premiums. Since 2003, physicians in Texas have saved a collective \$574 million on their liability premiums. Today, most Texas doctors are paying lower liability premiums than they were in 2001. All major physician liability carriers in Texas have cut their rates since the passage of the reforms, most by double digits. Texas physicians have seen their liability rates cut, on average, 27.6 percent. Eighty-five percent of Texas doctors have seen their rates slashed 30 percent or more. More than 43 percent of Texas doctors have seen their liability premiums reduced in half. Twenty-five rate cuts have occurred since the passage of the 2003 landmark reforms.

In my home State of Nevada, limitations on noneconomic damages has helped to stabilize the medical liability climate and allowed the Independent

Nevada Doctors Insurance Exchange to keep rates steady in 2008, following a 20 percent decline in 2007. And rates stayed steady after years of increasing dramatically.

In Mississippi reform in 2004 created a hard \$500,000 limit on non-economic damages. Since that law took effect, the number of medical malpractice lawsuits has fallen nearly 90 percent, which in turn has cut malpractice insurance costs by 30 percent to 45 percent, depending on the county.

Ohio and West Virginia have also seen sizable reductions in frivolous lawsuits and as a result less costly medical liability insurance.

These examples prove that lawsuit reform can improve access to care, expand the number of doctors and types of care that hospitals are able to offer, and help reduce medical costs.

According to a conservative estimate by the Congressional Budget Office, if Congress adopted my full Medical Care Access Protection Act, the deficit would decrease by \$54 billion over 10 years.

It would also, according to the CBO, save the private sector about the same amount of money. So over \$100 billion in savings that now goes to propping up a lot of frivolous lawsuits across the country.

By the way, think about it. If you had medical malpractice committed against you, I believe you should have access to the courts. I believe you should be able to sue. I believe you should be able to get just compensation. The problem is now, because our courts are so clogged with all these frivolous lawsuits, it takes years if not up to a decade to be able to get through the court system. For many of these patients who were severely hurt—many of them die before the case is ever settled. That is another reason we need medical liability reform and we need it now.

Let me tell you why I believe medical liability reform has been left out of this bill. Actually, I don't want to tell you why. Let me let Howard Dean tell you why. Howard Dean, obviously, is the former chairman of the Democratic National Committee. I am going to quote from him.

[T]he reason why tort reform is not in the bill is because the people who wrote it did not want to take on the trial lawyers in addition to everybody else they were taking on, and that is the plain and simple truth. Now, that's the truth.

That is a direct quote from Howard Dean, the former chairman of the Democratic National Committee.

I hope as this debate unfolds many of my colleagues on the other side of the aisle will change their minds about enacting serious medical liability reform. I hope that at least these 21 Senators who voted for this amendment before will vote for it again when it comes to a vote tomorrow. This isn't a battle between the right and the left; it is a battle between right and wrong.

This amendment is a helpful prescription for patients. I know many on the other side of the aisle would like to cap salaries of people who work in the health insurance industry. I hope these same Members would support this simple amendment to limit trial lawyers' contingency fees in a responsible manner.

I urge adoption of the amendment and yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Illinois.

Mr. DURBIN. Mr. President, I ask unanimous consent that upon the conclusion of the remarks of Senator ENSIGN, I be recognized for a period of time equal to that utilized by Senator ENSIGN; further, that upon the conclusion of my remarks, Members be recognized in an alternating fashion and that they be permitted to speak for up to 10 minutes each; further, if any extensions of time are requested, the other side be accorded the same addition; further, that the Democratic speakers following me be as follows: Senators FRANKEN, LAUTENBERG, STABENOW, DODD, and KAUFMAN.

The ACTING PRESIDENT pro tempore. Is there objection?

Mr. ENZI. Reserving the right to object, and I will not, I wish to make a clarification that you wouldn't object to a couple of people without alternating so that we can have a couple of people who also go without alternating. Hopefully, we can make some arrangements on the time. I would like a provision that if one goes longer, the other side can go longer too. With that provision, I have no objection.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. DURBIN. Will the Chair inform me how much time the Senator from Nevada used?

The ACTING PRESIDENT pro tempore. Twenty-one and a half minutes.

Mr. DURBIN. I thank the Chair.

Mr. President, this issue is very personal and very important. I know a little bit about this because many years ago, before coming to Congress, I was a trial lawyer. I spent many years defending doctors when they were sued for medical malpractice, and I spent as many years representing plaintiffs who claimed to be victims of medical malpractice. I have literally been at both tables in the courtroom. At least in a previous life, I knew a little bit about this field of legal practice.

What the Senator from Nevada is trying to do is to reduce the contingency fee that can be paid to a lawyer who represents a plaintiff.

Here is how it works. If you believe you or a member of your family has been a victim of medical malpractice, where you have either been hurt or someone in your family has died, you will go to a lawyer and say: I don't think I was treated right.

The lawyer will say to you: If I think you have a good case we can prove in court, I will represent you. But I know you don't have enough money to pay me my legal fee. I will take your case, accept your case on a contingency, which means if you win, I get paid, and if you lose, I don't get paid.

That is what a contingency fee is. For most Americans who are not wealthy, this is the only way they can get a good attorney to go into court, is to pay a percentage if they win, a contingency fee. That is one side, one table in the courtroom.

There is another table in the courtroom. At that table sits the doctor or hospital and an attorney. That attorney isn't paid on a contingency fee; that attorney is paid by the hour, by the insurance company. No matter how many hours that attorney puts into the case, that attorney is confident at the end of the day he will be paid, win or lose.

The Senator from Nevada comes here and says: We think it would be just to limit how much victims' attorneys can get paid. I waited patiently and listened, hoping that at some point he would say: And in all fairness, we think defense attorneys should be limited in what they are paid too. But I didn't hear that because what it gets down to is really not about attorneys. If we are about making it fair and equal for both tables in the courtroom, we would limit both attorneys' fees. No. What this is all about is to discourage attorneys from representing victims, limit the amount of money a plaintiff's attorney can receive as a contingency fee.

There has been a lot said about frivolous lawsuits for medical malpractice. I want to tell you, as a person who did this for a living, the last thing in the world I would ever consider doing is taking a frivolous lawsuit. It costs a fortune. At the end of the day, you are likely to lose. You can't keep the doors open and the lights on in a law practice taking lawsuits that are going to lose, taking on frivolous cases. You carefully weigh the cases you take because you, as a plaintiff's attorney representing a victim, have to make a massive time-and-dollar commitment to bring that case to trial, realizing that at the end of the day, if there is a "not guilty," you are emptyhanded. You have nothing to show for all of that effort and all of that money spent. That is what is behind contingency fee cases.

That is why the Senator from Nevada has focused on only one table in the courtroom—the victims' table—saying we want to discourage lawyers from taking on victims' medical malpractice cases, we want to discourage them by paying them less. Defense lawyers—no limit whatsoever on how much the insurance company can pay them. That is the Ensign amendment in summary.

I am sorry in a way that Senator ENSIGN has invoked Senator Kennedy's name to support his effort. I am sorry that Senator Kennedy is not here because I think I know what Ted Kennedy, sitting right back here, would be saying at this very moment. He would explain to the Senator from Nevada that the amendment he is referring to was part of the Gingrich revolution, which some may recall, which was an attempt to change tort reform laws across America with some onerous provisions—removing, for example, the right of people to recover punitive damages in a lawsuit, all sorts of limitations or bars against filing lawsuits. It was an onerous law which Senator Kennedy offered his amendment to in the hopes of slowing it down. Senator Kennedy was not successful. At the end of the day, this bill passed, this Gingrich revolution bill passed. It was sent to President Clinton, who vetoed it. So to suggest this was Senator Kennedy's life's work—it was his attempt to slow down a steaming locomotive coming through the Senate. It didn't work. To invoke his name at this point is to at least not tell the whole story behind the amendment.

If you are going to tell the whole story about this amendment, you need to get beyond lawyers and start talking about victims going into courtrooms.

For the longest time, the argument on the other side of the aisle has been, if you go into a courtroom saying you are the victim of medical malpractice and prove that you are, they want to limit the amount of money a jury can give you for your injury. They used to call it caps. Right now, if you are a victim of medical malpractice and you are successful in a courtroom, you are likely to recover your medical bills and your lost income and some money for what they call noneconomic damages. Those would be scarring, disfigurement, pain and suffering. So what most of the effort has been on the other side is to limit the amount you can recover for these noneconomic losses—scarring, disfigurement, pain and suffering. For people who have proven they were the victims of malpractice, they have tried to limit the amount they can take from a jury. In over half the States in the Nation, those limitations or caps have been put in place.

What is the scope of this problem? The Institute of Medicine tells us—at least this was a finding they made back in 1999—that there are up to 98,000 deaths in America each year, preventable deaths, because of medical malpractice—98,000. When you look across the board at the number of paid malpractice claims each year against doctors in America, it is about 11,000. One in 10 of the deaths and injuries—frankly, a much smaller number than 1 in 10—actually ends up in a lawsuit. So the vast majority of victims of medical

malpractice don't bring a lawsuit. Either they don't know they were victims or they decide it is not something they want to do. A very small percentage do.

What the Senator from Nevada did not tell us is that since 2003, when this issue has been addressed by so many States, the number of medical malpractice lawsuits each year has gone down and continues to go down. The premiums for medical malpractice insurance have started to come down as well. So there is a positive trend here because of State reform and other circumstances which have led to fewer medical malpractice lawsuits.

But make no mistake, there are still victims and there still will be. We have to be honest about what those victims face and what the Ensign amendment will mean. What the Ensign amendment means is that many of them won't be able to find a lawyer. Some of them should. Let me tell you some real-life stories of victims of medical malpractice and what happened to them.

This beautiful couple, Molly Akers of New Lenox, IL, and her husband tell a story that is heartbreaking. Molly had a swelling in her breast, and her doctor performed a biopsy and determined she had breast cancer. She had several mammograms which found no evidence of a tumor. The doctors decided, however, that it must have been some rare form of breast cancer, and they said that Molly, to be safe, needed a mastectomy. They removed her right breast. After the operation, the doctor called her into the office and revealed that they discovered she never had breast cancer. Instead, the radiologist who reviewed her slides accidentally switched Molly's slides with those of another woman. Molly was permanently disfigured because of this mistake, this negligence.

She said:

I never thought something like this could happen to me, but I now know that medical malpractice can ruin your life.

By the way, the other woman, whose slides were switched with Molly's, was told she was cancer free. That was a medical error that ended up injuring two people, not just one.

Is she entitled to her day in court? Is she entitled to be compensated for what she went through? Is she entitled to have at least those responsible pay for her medical bills, her lost wages, pain and suffering, scars and disfigurement? By most standards of justice, the answer would be yes. But if she isn't rich enough to pay an attorney's fee, she walks in and says: The best I can do is tell you that if I win, you win. It will be a contingency fee basis to the lawyer. What the Senator from Nevada wants to do is to reduce the likelihood that she will find a lawyer to represent her.

This is another story of another person from Illinois. Glenn Steinberg is

shown here. In 2004, Glenn went for surgery in Chicago to remove a tumor from his abdomen. Ten days after surgery, while he was still in the hospital, he was having pain and problems. They did an xray of his abdomen and they found a 4-inch metal retractor lodged against his intestine that had been left in his body after the surgery. A second surgery was performed to remove this metal instrument, during which time Glenn's lungs aspirated and he died. Glenn's wife Mary lost her husband. She said:

Not a day goes by that I don't miss Glenn's companionship and the joy he brought to our home. Because of gross negligence, he was not here to support me when my son went off to serve our country in Iraq.

A real-life story. This man did nothing wrong—an innocent victim who, in our system of justice, is entitled to compensation. But if his widow didn't have enough money to pay the attorney's fees and went in for a contingency fee, she might be limited because of the amendment offered by the Senator from Nevada.

This next case in Illinois involves children. I have met the little fellow we are going to talk about, Martin Hartnett. He is the second boy from the right. When Martin's mother, Donna, arrived at the hospital to deliver him, her labor was not progressing. Her doctor broke her water and found it was abnormal. Rather than considering a C-section, Donna's doctor tried administering a drug to help induce contractions. Six hours later, Donna still hadn't delivered, but her son's fetal-monitoring system began indicating he was in severe respiratory distress. The doctor finally decided it was time to perform an emergency C-section but waited another hour before she was taken to the operating room. During that time, the doctor failed to administer oxygen or take other immediate steps to help Martin breathe.

After Martin was born, he was in intensive care for 3 weeks. Later, Donna learned that Martin had substantial brain damage and cerebral palsy—a direct result of the doctor's failure to respond to indications of serious oxygen deprivation and to deliver in a timely manner.

Donna's doctor told her not to have any more children because he said there was a serious problem with her DNA which could result in similar disabilities in the future.

Well, that turned out not to be true. Donna has given birth since to three perfectly healthy sons who are shown in this photo as well. Donna sued the doctor responsible for Martin's delivery and received a settlement in the case. Here she is, a young mother who is being told the problem was her problem, and it turned out it was a problem in the way she was treated when she went to the hospital.

Again, the Senator from Nevada would reduce the likelihood that Donna—the mother of this child who is going to face a lifetime of challenges—would have the attorney to come to court for reasonable compensation.

These are real-life examples. I know the other side—the Senator from Nevada said specifically: Oh, you are going to hear about the victims, but this is really about lawyers.

These victims would not have their day in court, would not have a chance to recover from medical malpractice that was eventually admitted or proven if it were not for an attorney to bring them to court. It does take a long time. I will concede, the Senator from Nevada said it takes a long time on these cases. Well, I have been there, and I know why. The attorneys representing the other side try to drag it out as long as they possibly can, filing motions and requiring discovery. It can go on and on. So an attorney who takes up one of these cases better not take up a frivolous case because it will be a lifetime of futility if you take that approach.

I took a look and asked my staff: Well, if Senator ENSIGN's amendment is dealing with victims' attorneys, are they really getting paid a lot more compared to the defense attorneys? Well, we went and looked at the information. We found that in a recent year, there was around \$1.3 billion paid to victims' attorneys who filed medical malpractice cases in America—\$1.3 billion. At the same time, \$2.1 billion was paid to defense attorneys.

So to argue we just want to reduce the plaintiffs' or the victims' attorneys' fees and ignore the defense attorneys' fees is to ignore a mismatch already. The defense attorneys in America are being paid substantially more—50 percent more—than those who represent the victims.

In 2008, in Texas, medical malpractice insurers earned \$369 million in premiums. They paid out \$17 million in losses. If one-third of that, say \$5.5 million, went to victims' attorneys, how much went to defense attorneys in medical malpractice cases in Texas? Mr. President, \$41 million. So \$5.5 million for plaintiffs' attorneys, \$41 million for defense attorneys.

This amendment does not even address the cost of defense attorneys.

In Tennessee, in 2008 malpractice insurers paid \$79 million in losses to victims, so perhaps \$26 million went to victims' attorneys' fees, and \$83 million was paid in defense attorney fees.

There is no similar outrage on the other side of the aisle when it comes to how much money the defense attorneys are being paid.

In the State of Mississippi in 2008 they paid out \$874,000 in losses, and paid \$4.1 million in defense attorneys' fees.

So it just goes on and on. The evidence is clear. Overwhelmingly, in the

courtroom, the race goes to the swift, and the swiftest are the ones with the most resources—the most attorneys, the most discovery, the most expert witnesses, and they all cost money. Time and again, plaintiffs' attorneys come into many courtrooms at a distinct disadvantage to the insurance companies that would be benefited by this.

Now, what are we going to do about this issue? And it is an issue. Well, I think the President is on the right track. First, we know it is a State issue when it comes to medical malpractice. Historically, the States set the standards, and the States initiate the reforms. A majority of States have already done that, limiting recoveries, even limiting fees in some cases. They have done it. Why would we come in at the Federal level and preempt that?

Secondly, the President said: Let's encourage some positive thinking about ways to end this. How can you reduce the number of medical malpractice lawsuits? There is one simple way, and many States have discovered it. It is when a doctor walks in and says to a patient: I made a mistake, and I am sorry. It sounds simple, doesn't it?

It happened in my family recently. One of the members of my family went for back surgery and had complications afterwards. It went on for weeks. He went in, and the doctor said: I am sorry. When I did your back surgery, I should have cauterized you right then and there rather than waiting through 2 miserable weeks until we finally did it. It was my mistake.

Well, my relative did not file a lawsuit. That doctor was honest. We know doctors are human. They make mistakes. Some States have protected the doctors' right to say: I am sorry. Many times that is all that is needed. There are other cases where States have put together panels to review lawsuits before they are filed. They do it successfully. There are other cases where they have to file an affidavit from a doctor that says this is a lawsuit with a real possibility of medical malpractice being proven.

All of these things are working, and we want to encourage them. But, please, do not close the door of the courtroom to victims and their attorneys. Do not benefit the defense attorneys, the insurance attorneys, at the expense of the victims' attorneys.

Mr. BROWN. Mr. President, will the Senator yield?

Mr. DURBIN. I am happy to.

Mr. BROWN. I say thank you to Senator DURBIN.

My understanding is, some States have stricter licensing requirements for doctors, and that typically very few doctors, relatively, commit significant, repeated mistakes as they are practicing medicine. But some small number of doctors are responsible for the

large number of medical errors and negligence and malpractice.

How important is it that the States strengthen their licensing requirements so those doctors—the small minority of doctors—who really do seem guilty of the most malpractice are disciplined either by losing their license or by being disciplined in other ways so they are not inflicting this on their patients?

Mr. DURBIN. I think the Senator from Ohio has put his finger on a part of the problem. It turns out, the vast majority of lawsuits involve a very small percentage of doctors, many of whom are making errors repeatedly. I would recommend to my friend from Ohio a book to read, and I know he reads them. It is called "Complications." It is by Dr. Atul Gawande, who is a Boston surgeon with whom we are familiar. I read it, and it was an eye opener about what a surgeon learns and goes through. But he spends a whole chapter in there about doctors and nurses of practicing doctors who are not up to skill anymore because of age, alcoholism, and drug addiction, and they are afraid to speak out.

That is not common. It is rare. But it should not happen at all. Those doctors who consistently make mistakes, consistently get sued, or have these problems should be identified and removed from the practice until they can be rehabilitated or go off to another job.

Mr. BROWN. If the Senator will yield for a moment, again, don't the State licensing boards have the ability to do disciplinary action? I know in my State, in Columbus, they do. Are they not doing that enough? Is there a way to strengthen that?

Mr. DURBIN. The point Dr. Gawande makes is there is this conspiracy of silence, this fear of outing a doctor.

Mr. BROWN. Nurses are not willing to speak up?

Mr. DURBIN. Nurses are not willing to speak up, other colleagues are not willing to speak up, and they should for the sake of their own profession, but certainly for the sake of the patients.

Mr. BROWN. So the Senator is arguing that if there was a mechanism or an environment where nurses and doctors would be willing to speak up, if there was a doctor, a surgeon who had a problem with alcohol, this issue would not go away certainly, but this issue would be much less serious, the issue of malpractice, the medical errors, the deaths, the injuries that come from some kind of medical error? Medical malpractice would be much alleviated?

Mr. DURBIN. I am.

I see my time is over. I thank the Senator from Ohio, and I would say this is one part of the answer. But denying victims a day in court I do not think brings justice to this country or fairness, and I know Senator Kennedy

would be saying the same thing if he were here today.

I yield the floor.

The PRESIDING OFFICER (Ms. STABENOW). The Senator from Wyoming.

Mr. ENZI. Madam President, I yield time to the Senator from Nevada.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. ENSIGN. Madam President, there is an urban myth that people like to talk about when they are discussing health care reform. It is like one of those rumors that runs rampant on the Internet. Nobody knows where it started, but you are sure it must be true.

The story is about Canadian health care: everyone there is covered, and they have a progressive health care system that we should somehow copy.

Well, it is time to bust this myth and tell the American people what a government-run health care system like Canada's would mean for us in the United States.

Canada and Great Britain offer what is typically referred to as universal coverage. Universal coverage, however, does not mean unlimited access to care or readily available care. Let me tell you why.

Let's talk about spending first. The U.S. spends about 16 percent of its gross domestic product on health care, while Canada spends about 10 percent. I know some Members of this body have been asking: If Canada can spend less money on health care, why can't we?

Well, there is a right way to reduce spending with technology, healthier behaviors, common sense, medical liability reform, other things I have talked about; and there is a wrong way.

In Canada, the government spends 10 percent on health care by setting a global budget. When the demand for health care exceeds that amount, the Canadian Government does not increase funding. Instead, medical care is often delayed and/or denied. Some estimate that about 750,000 Canadians are currently on a waiting list for medical procedures or referrals to specialists.

Madam President, can you imagine waiting up to 6 months for a hip replacement or up to 6 months for cardiac bypass surgery? What if you had to wait up to 4 months to get an MRI.

People who live in countries that have government-forced health care systems often wait, and then wait some more, for medical care. This chart shows typical patient wait times in Canada. The blue bar shows median clinically reasonable wait times. The red bar shows actual wait times. So this, in the blue, is what a reasonable patient wait time should be and what is shown in red is what patients actually experience.

If you look at this chart and study the wait times, you can see that in every single one of these cases whether it is general surgery, gynecology, internal medicine, neurosurgery, or ophthalmology, the actual wait times are

always much longer than what a clinically reasonable wait time should be in Canada.

For example, the median clinically reasonable wait time for neurosurgery is 5.8 weeks. But, as we see from this chart, the actual wait time is 31.7 weeks. That is for neurosurgery. That is shown on this part of the chart. Can you imagine having to wait that long for neurosurgery?

For orthopedic surgery, the clinically reasonable wait time is 11 weeks. The median actual wait time is 36.7 weeks. This is hard to fathom.

In Canada, the wait time depends on many factors. Getting in to see a doctor depends on the province in which you live, whether you are an urban or rural resident, the urgency of your medical condition, and your age.

I want to encourage all Americans not to take my word for it on these wait times. You can go to this Web site, <http://ontariowaittimes.com>, and it will actually tell you what the wait times are for various procedures.

As a matter of fact, my assistant who is on the Senate floor with me today broke her arm several months ago. Interestingly, she went to this Web site to find out how long her wait time would be for surgery in Ontario. By the time she would have got in to see a doctor in Canada to have the necessary procedure conducted, her arm would have already healed. It would have healed incorrectly, but it would have already healed.

That is unacceptable, but that is typical of what happens in countries where there is government rationing, and where the government sets a global budget.

Think about how frustrated you would be if you had to wait that length of time. Some Canadians get tired of this waiting. They leave the queue and catch planes, trains, and automobiles to the United States to get medical care when they need it most.

The Mayo Clinic, for example, sees about 2,000 Canadian patients each year. The Henry Ford Clinic in Michigan saw 191 hospital patients from Canada and had about 1,400 outpatient visits from Canada last year alone.

Those numbers have increased steadily over the past 3 years. In fact, revenue from Canadian patients has increased by \$7.5 million at the Henry Ford Clinic in the last 3 years. Although these major medical clinics do not track why some Canadian patients come to the United States for medical care, I believe the significant wait times in Canada are one of the primary reasons they choose to cross the border.

I also believe that Canadian patients come to the United States to reap the benefit of America's research and development and to access new breakthroughs in medical technologies.

Many of my colleagues have heard the story of Shona Holmes. Shona, a

Canadian citizen, was experiencing numerous conditions, including headaches, fatigue, and severe vision problems. Her primary care doctor in Canada ordered an MRI and the results suggested a brain tumor. Shona would have to wait 4 months to see a neurologist or 6 months to see an endocrinologist in Canada. She couldn't wait that long. Since it would be illegal for her to see a doctor outside the government-run health care system in her own country, she traveled 2,000 miles to the Mayo Clinic to Scottsdale, AZ, and paid for the visit herself. Doctors at the Mayo Clinic diagnosed Shona with Rathke's cleft cyst.

Shona returned to Canada with her diagnosis and attempted to have surgery under Canada's government-run health care plan. The Canadian Government wasn't able to do the necessary surgery within a 6-month time period. Since Shona's vision was rapidly declining, waiting more than 6 weeks for surgery was completely unacceptable. So her husband got a second job, took out a second mortgage on their home, and borrowed money from family and friends for surgery at the Mayo Clinic. Incidentally, the Mayo Clinic recommended a second surgery to remove her adrenal gland. So Shona went back to Canada and got in line. It took 3 years for her to get her second surgery in Canada—3 years.

In written testimony before the House Energy and Commerce Committee, Shona said:

If I had relied on my own government-run health care system in Canada, I would not be sitting before you today. At the very best I would be blind and at the very worst I would be dead.

Shona isn't the only Canadian citizen who has come to the United States for access to timely medical care. A private company called Timely Medical Alternatives was created in 2003 to help Canadian citizens obtain medical care in the United States. Over the years, the company has sent more than 500 Canadians to the United States for timely medical care. Richard Baker, the founder of Timely Medical Alternatives said:

The Canada Health Act is responsible for more pain, more suffering, and more death than any other piece of domestic legislation in Canadian history.

I am concerned that the inclusion of a government-run health plan in the Democrats' health reform bill will destroy the American health care system as we know it today.

Section 1323 of this bill establishes the community health insurance option. Don't let the name fool you; it is a government-run plan. States can opt out of the government-run plan if they enact a law prohibiting the offering of the government-run plan in the exchange, but I honestly expect that few States will take this course of action.

Regardless of the language indicating that people won't be forced to participate in a public health insurance program and won't be penalized for not participating, I still believe that some individuals will be forced into this government-run plan. I also believe this is just the first step toward a complete government-run plan.

Under the bill, the Secretary of Health and Human Services will be required to negotiate provider reimbursement rates. The government typically doesn't negotiate with doctors and hospitals. The government would likely resort to price-setting based on Medicare or Medicaid or use existing government programs as leverage for negotiations, creating similar effects. Remember, Medicare and Medicaid currently reimburse at much lower rates than the private sector.

Madam President, I ask for an additional 3 minutes.

THE PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

MR. ENSIGN. Madam President, Democrats claim that they will not be putting private health insurance companies out of business, but it seems to me that they are doing everything possible to make it harder for these companies to stay in business. I also question whether Members of Congress will be required to participate in this government-run program. We should be required to do so. If we decide that a government-run plan is good enough for the American people, then I believe that Members of Congress should subject themselves to the same type of care. I know there will be an amendment to do just that.

I want to tell a story about how federal government officials don't always think that they should be subject to the same type of care as their country's citizens. Belinda Stronach, a former Canadian Member of Parliament, opposed the privatization of Canada's health care system. Well, that was at least until she got sick. She was diagnosed with breast cancer in June 2007. Although she had led the charge against having a private system in Canada, she didn't want to wait in line in Canada to obtain treatment—so what did she do? As a matter of fact, she traveled to the United States for care—on the advice of her doctor. She went to UCLA for surgery and she paid for that treatment out of her own pocket. I have a feeling that she came to the United States because she knew that if she waited for care in Canada, the chances of her having successful treatment would be a lot lower.

Madam President, the wait to see a doctor is not the only wait Canadian patients face. Canada and other countries with government-run health care systems are slow to adopt new medical technologies. And, access to the latest medical technologies is limited. As a

result, patients often have to rely on old or outdated medical equipment for treatment.

Canadians have less access to MRIs, CT scanners, and lithotriptors than patients in other countries belonging to the Organisation of Economic Co-Operation and Development. Lack of access to cutting-edge medical technology has significant consequences. New medical technologies can often provide faster and more efficient identification and treatment of disease. They can offer the patient safer, less invasive and more comfortable treatments and care, as well as offering new treatment options where none previously existed. What is the secret to other countries' keeping costs down? One is refusing to approve or cover new life saving drugs and medical devices.

In 2007, the United States had 25.9 MRI machines per million people. Canada had 6.7 MRIs per million people and the United Kingdom had 8.2 per million people. In 2007, the United States had 34.3 CT machines per million people. The same year, Canada had 12.7 machines and the United Kingdom had 7.6 machines per million people.

It took France 5 years to approve the endoscopy pill camera and 10 years to approve implantable defibrillators. Japan is well known for refusing to pay for the latest technologies because of budgetary constraints and has yet to approve, for example, prosthetic titanium ribs and imaging masks for head surgery that have been approved in the United States for the past 6 years.

In my home State of Nevada, robotics surgery has become an exciting new frontier. Across Nevada, six hospitals are now equipped with the da Vinci Surgical System which allows patients access to cutting-edge minimally, invasive surgery. In all of Canada, the entire country, there are nine such machines. The United States has 968 machines. Wouldn't you prefer a system that thrives on innovation in medical technology? Where you have access to the most cutting-edge technology that can better diagnose and treat you?

Even with this clear discrepancy in technology investment, Democrats have argued that the United States spends more money than any other country on health care and gets worse results. The implication is that we should look to other countries for guidance on how to run our own system better. But if we look, for example, at cancer survival rates, we see that the United States gets better results than other countries that have experimented with broader government control of health care.

International studies have found Americans have far better access to new cancer drugs than do patients in Europe and the United Kingdom. The United States also has higher rates of cost-effective prevention measures that can detect certain cancers early

when they are cheaper, easier, and more effective to treat. As a result of this superior prevention and treatment, the United States has higher cancer survival rates.

Madam President, I would like to show another chart. This chart shows the European cancer survival rates for the major cancers in comparison to the United States. The United States data is in gold; the European Union data is in red. This chart shows 5-year survival rates. This part of the chart shows kidney cancer survival rates. We have significantly higher survival rates in the United States for colorectal cancer, breast cancer, cervical cancer, breast cancer, and skin cancer. You name it, across the board we have better survival rates because we don't ration care, we don't delay care, and we have access to better technology in the United States.

Madam President, I would like to be a little more specific when it comes to these facts and figures. A study published in *The Lancet Oncology* found that when comparing 5-year cancer survival rates, the United States had better outcomes than European countries. Among men, nearly two in three American cancer patients survived for at least 5 years, while fewer than half of Europeans did. Among women, 63 percent survived for 5 years in the United States, versus 56 percent in Europe. According to the study, survival rates for breast cancer were 11 percentage points higher in the United States than in Europe. Prostate cancer is even more alarming, with a 99 percent 5-year survival rate in the United States versus 78 percent in Europe. Colorectal cancer rates were 10 percentage points higher in our country than in Europe. And, survival rates for kidney cancer, cervical cancer, and melanoma were higher in the United States than in Europe.

Madam President, I think this body should take a look at what it would mean for quality of care and access to medical care in the United States if we were to adopt a government-run health care system. Many of us on this side of the aisle are opposed to government-run health care systems. We don't want these type of survival rates that are common in the European Union. We don't want people from Canada coming here and not having a place to go to obtain medical treatment. As a matter of fact, if the United States ends up going to a government-run healthcare system, where will Americans go for high-quality care when they need it most? All Americans should think about that as this bill is being considered on the floor of the Senate.

We should be very careful that reforms to our health system do not lead to reduced preventive care and poor access to lifesaving drugs. These reforms have led to lower rates of survival in places with greater government control over health systems.

These reforms have also proven unsustainable in other countries. The British National Health Service trust is issuing a report that says it will face the most severe and sustained financial shortfall in its history after 2011. In fact, the NHS trust is asking staff to work a day for free, take unpaid leave, and carry forward their vacations in order to save money. Germany's new proposal to reform the health care system met with thousands of protesters because it faces a massive budget shortfall due to rising costs. What are they looking at doing? Introduce fees, raise taxes, and do away with private plans to bring people with those plans into the public system. Sound familiar? France, too, has a gaping hole in its health care budget. France is looking at cutting subsidies in order to stop the problem. Japan faces one of the most difficult problems because of its rapidly aging population. It too has budget problems and has to find a way to offset a 5-percent increase in next year's health care budget despite all of its massive price controls on doctor, medical device, and drug prices. Is this the future of U.S. health care?

These are not health care systems that we should want to copy. Contrary to the opinion of some, the United States provides among the best care in the world for patients. The World Health Organization identifies the United States as 37th in the world, but these ratings are faulty. The United Nations World Health Organization uses subjective criteria such as "fairness" to rate many countries. "Fairness" means that any out-of-pocket expense by a patient is regressive and therefore penalizes poor people more. So, in the view of the United Nations, the United States is 54th in terms of their view of fairness. Consequently, according to the WHO ratings, countries like Colombia, Cuba, Micronesia, Mozambique, Saudi Arabia, Samoa, and Uruguay are "fairer" and therefore better than the United States. Something is wrong with that rating.

In contrast, the United States is No. 1 in responsiveness to patient care according to WHO. So, if you are sick and want the best care, even the United Nations agrees that the United States is the place to be treated.

Michael Moore's movie "SICKO" advertised how great Cuban health care is, but he apparently did not see the system used by the 11 million ordinary Cubans where patients "have to bring their own food, soap, sheets" with them to the hospital.

Some of my colleagues ask, if the United States is No. 1 in responsiveness according to WHO, then why is there lower life expectancy compared to other developed countries? Simple. Because the numbers are wrong. Life expectancy in the United States has been rising as it has been in most of the developed world. All of the life expectancy statistics include accidental and

even intentional deaths that clearly have no relation to the merit of our health care system.

For example, if you remove car accidents and homicides, both of which are higher in the United States for reasons unrelated to the effectiveness of health care, then the actual U.S. life expectancy is higher. Some economists rank the United States near the top of world rankings when that point is factored in. Moreover, the history of exceptionally heavy smoking in the United States and the recent increase in obesity means that diseases and shortened life expectancies related to these factors have little to do with the effectiveness of our health care system. That is why my approach to health care reform includes creating incentives for people to make healthier choices. We need to get to the root of health problems, not chase phantom foreign statistics.

Another example is high infant mortality. The United States has a higher level than other countries in part because of the higher number of low weight babies from teenage pregnancies. That social problem is not related to how effective our health care system is. In fact, a low birth weight baby in the United States has a better chance of survival than in Canada, but we have three times the quantity of low weight babies as Canada does.

The bottom line is that the United States has the best doctors, nurses, medical and nursing schools, medical research, medicine, hospitals, medical devices, innovative companies, and health care in the world. It is like that because we demand it.

Every night on the news for the past month or so, there are stories about the lines for the H1N1 vaccine. The vaccine supply has been slowly trickling out, and Americans are not accustomed to waiting for their care. They are frustrated about these lines and the priority groups that have denied some of them the vaccine. Welcome to government-run health care.

What Canada and Great Britain and other countries do with their health care systems is their business. They have determined that they want the government at the center of their health care system. The government decides what treatments patients can have, how long they have to wait, and how much is invested in technology. Here in the United States, that is the last kind of system we need. Instead, we need to move to a patient-centered system. We want to continue to empower patients to make decisions about their own treatment, to be consumers in the process, and to have access to the care they need.

The United States is home to some of the greatest medical advancements in the world. Turning away from that system at a time of great medical promise is not the direction we should be heading.

For generations, American researchers, scientists, physicians, and patients have worked together to push the envelope on the best tools for diagnosis and treatment. We have invested in finding cures and vaccines for illnesses. We could be on the cusp of cures for cancer, Alzheimer's disease, Parkinson's disease. The list goes on and on. But what happens when we become a one-size-fits-all, government-centered, bureaucracy-run health care system? We become like Canada and Great Britain, where wait times are unacceptable, where care is rationed, where technology and innovation are not a priority, where the doctor-patient relationship is devalued, and where patients have lost their say in their own care. So, it is not surprising that when people in other countries want the best, they come here.

Madam President, let's not put Americans in a position where they may have to wait weeks and even months for medical care. Let's not put Americans in a position where they can't access the latest medical technology or the best prescription drugs. And, let's not have government bureaucrats stand in the way of medical care. This is about patients. This is about creating a patient-centered healthcare system. The bill before us is not the answer.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. ENSIGN. I thank the other side for their indulgence and I yield the floor.

The PRESIDING OFFICER. The Senator from Minnesota is recognized. As a result of the previous agreed-upon conditions, 3 minutes will be added to the Senator's time.

Mr. FRANKEN. Madam President, I actually was kind of feeling bad because I thought I was going to be changing the subject, when Senator DURBIN said I would be the next Democrat to speak. Because our good colleague from Nevada brought up an amendment on medical malpractice liability and the Senator from Illinois responded to it and I thought the Senator from Nevada was going to respond to his response with some factual information or something, he completely changed the subject. So he went from the Canadian system to rationing, and he will include his entire statement, which included this: We don't ration care here in the United States, we let—meaning the government—we let the private sector do that.

They do a great job of rationing care in the private sector. That is where we ration care in this country. They ration it by cutting off your insurance when you get sick. They ration care by not giving you insurance if you have a preexisting condition.

I wish to speak about an amendment I have—that is why I was going to change the subject—but let me talk a

little bit about tort reform, liability insurance. Senator DURBIN mentioned Atul Gawande. He wrote that article in the New Yorker. Senator ENSIGN talked about how great the tort reform was in Texas. McAllen, TX, has the most expensive health care in the country. What kind of progress is that? They have the most draconian medical liability reform. In Minnesota, we don't have anything such as that. We do it for a third of the cost that they do it for in Texas and with better outcomes.

The reason I actually asked for time today is to express my support for Senator LINCOLN's amendment to limit the tax benefits that health insurance CEOs receive—not limit their salaries, limit the tax benefits. This does not limit their compensation, as was claimed by the Senator from Nevada.

Most Americans would agree that the government, though, shouldn't be giving tax breaks to insurance companies for lining the pockets of their CEOs at the expense of working families who are forced to pay more and more as their premiums spiral out of control. The savings from removing this tax deduction in Senator LINCOLN's amendment will go directly to our seniors as a direct deposit into the Medicare trust fund. This amendment is immensely important because it reinforces one of our primary goals with this bill, which is to rein in the cost of health care. One of the key ways we can control costs is by holding insurance companies accountable.

I am pleased to be working with Senator LINCOLN on another effort to make our health care system focused on patients, not profits. Yesterday, Senator LINCOLN joined me, Senator ROCKEFELLER, and others in introducing an amendment to require that at least 90 percent of your premium dollars go toward actual health services. We do that in Minnesota. We do that in Minnesota—91 cents, actually.

I urge my colleagues to support both our amendments to ensure we get the highest possible value for our premium dollars because nobody can contest the fact that for-profit health insurance companies have been making obscene amounts of money, while Americans watch their premiums skyrocket. From 2000 to 2007, insurance company profits rose 428 percent—in 8 years. During that same time, we saw more than 6 million more Americans become uninsured. During that same period, American families saw their premiums almost double.

So nobody can stand on this floor and argue that American families aren't suffering. No one can dispute what I hear from Minnesotans every day, that in this economic downturn, one of the greatest fears families have is: What happens if I get sick? What happens if my spouse or my child gets sick? We are hardly holding on now. We are just

one illness away from losing everything. That is what I hear. That is what I hear from Minnesota families, and this is a State that has less-expensive, higher quality health care than the rest of the country. If Minnesotans are struggling, we know we have a crisis on our hands.

That is why I am working to make sure this bill does everything it can to bring down costs, improve quality, and hold private insurance companies accountable.

The current reality is, most of us don't know where our health insurance premiums go. It is difficult enough to understand a billing statement from your health insurer, much less track where your money is spent. Well, we are going to change that. We are going to change that with transparent reporting of how health insurance companies are spending your money. That is in this bill. Clear reporting, written in plain English will help us hold them accountable for every dollar we spend on health insurance. But reporting isn't enough because, right now, some of the health insurance plans being marketed and sold in this country are nothing short of a rip-off.

A recent report in *BusinessWeek* magazine described a policy being sold in Florida to college students in which only 10 percent of the premium went toward actual health services. Again, only 10 cents out of every dollar goes to health care in this plan. The rest goes to marketing, wasteful administrative costs, and, of course, profits. And this is legal. It has been legal. It was legal when the Republicans had the White House and controlled this Congress. We are going to make it illegal.

I don't think this is what we want for our children—insurance companies pocketing millions of dollars at the expense of our physical and economic health. Is that the kind of country we want to be? I believe we can all agree this health care reform bill must guarantee that Americans get value for the premiums we pay.

I implore my colleagues to support these efforts because health insurance should be about providing the best possible health care, not about marketing, wasteful administrative costs, CEO pay, and profits.

Madam President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from New Jersey is recognized.

Mr. LAUTENBERG. Mr. President, how much time is available?

The ACTING PRESIDENT pro tempore. There is 4½ minutes remaining.

Mr. LAUTENBERG. I ask unanimous consent to be able to speak for up to 10 minutes. It will be less, I promise. I think we had a little miscue in our timing. Is there any objection to that?

The ACTING PRESIDENT pro tempore. The Senator from Wyoming is recognized.

Mr. ENZI. Mr. President, reserving the right to object, would it be possible for the Senator from Arizona to do a 5-minute speech and then the Senator from New Jersey do his speech?

Mr. LAUTENBERG. All right. If we can be assured that the Senator who speaks will not take more than 5 minutes, I will consent to that. That includes a unanimous-consent agreement for me to have up to 10 minutes. I also see our colleague from Michigan, and I don't know whether that would disturb her.

Mr. ENZI. I am willing to let her go as well, and we will make up the time on our side after that.

Ms. STABENOW. May I ask my friend a question. Do I understand it would be the Senator from New Jersey and then the Senator from Arizona and then myself?

Mr. ENZI. The Senator from Arizona, the Senator from New Jersey, and then the Senator from Michigan.

The ACTING PRESIDENT pro tempore. The Senator from Arizona is recognized.

Mr. KYL. Mr. President, I thank my colleagues for their courtesies. I am sure the Chair will cut me off at 5 minutes.

I wish to respond to some comments made earlier relative to the amendment of the Senator from Nevada on capping attorney's fees. We have an amendment we will vote on tomorrow that caps executive compensation, effectively, and the response to that from Senator ENSIGN was, if we are going to do that, let's cap the attorney's fees because we can accomplish something by doing that in medical malpractice cases. We can make sure the people who were injured get more of the money coming from these awards, with less going to the attorneys.

I think this would be a very salutary situation. This contingent fee system can really result in some abuses. I will cite some statistics from the Jury Verdict Research in a study done in 2005: Fifty-two percent of all awards in medical liability lawsuits exceed \$1 million. Think about that. Over half of the awards in these malpractice cases exceed \$1 million. The average award now weighs in at \$4.7 million. That is a lot of money. Obviously, juries have felt that is what the victims in these cases needed in order to be properly compensated.

The Ensign amendment would limit the amount of contingency fees in these kinds of lawsuits to no more than a third of the first \$150,000 recovered and a quarter of any recovery in excess of \$150,000. For example, an attorney representing a client in this average case, with a \$4.7 million verdict, would still receive \$1,187,500 for his or her services under the Ensign amendment. That is not a bad deal with a \$4.7 million verdict. The attorney gets \$1.1 mil-

lion-plus and the injured party, the plaintiff, gets the remainder. I ask my colleagues, in that situation, isn't \$1.1 million-plus enough compensation?

We are limiting the compensation for an entire year for an executive of an insurance company to \$400,000 as the amount that would be deductible to the company as a usual and ordinary business expense. Here, a lawyer has just one case, and you can have many cases in a year. He would be limited, in this particular situation, to \$1.1 million.

A lot of folks have been asked to sacrifice under this legislation—hospitals, doctors, and States, by accepting more Medicaid patients under their program; seniors would face sacrifices because of the \$500 billion cuts in Medicare; individuals would see their premiums rise; and small businesses would get hit. The one constituency that hasn't been asked to sacrifice anything is the trial lawyers. I don't think it is much of a sacrifice to say, when you get this kind of award—a \$4 million award—for your client, your fees should not exceed a little bit over \$1 million.

Even Howard Dean stated:

Tort reform is not in the [health care] bill because the people who wrote it did not want to take on the trial lawyers. And that is the plain and simple truth.

We know that to be the case. Surely, it wouldn't be too much to ask our trial lawyer friends to limit just a little bit the contingency fees they make in these cases.

There is a study that was recently conducted by the Institute for Legal Reform that found that medical liability lawsuits are being driven by the plaintiffs' bar. It cites all the advertising costs and the increase in the amount of advertising they are doing. That is where a lot of this money is going—to advertise for these lawsuits. Additionally, it showed that spending for these ads has increased dramatically in the last few years.

The threat of these "jackpot justice" suits against doctors is one of the reasons health insurance premiums are rising faster than the rate of inflation. In fact, a PricewaterhouseCoopers study concluded that approximately 10 percent of the costs of health insurance premiums are attributed to the cost of litigation and defensive medicine.

An even bigger health care cost related to the threat of frivolous lawsuits is the practice of defensive medicine. A 2005 survey in the *Journal of the American Medical Association* found that 93 percent of physicians reported practicing defensive medicine, costing the health care system \$200 billion annually.

We clearly need to reform the tort system, and not in the form of some sense of the Senate but in the way of something real. It seems to me the Ensign amendment begins that process by saying: Let's at least allow the injured plaintiffs in these cases to keep more

of the award granted to them and have less of that go to the lawyers who bring the cases. Surely, it is an adequate incentive that they receive about \$1 million out of a \$4 million lawsuit.

I thank my colleagues from New Jersey and Michigan for allowing me to speak first.

The ACTING PRESIDENT pro tempore. The Senator from New Jersey is recognized.

Mr. LAUTENBERG. Mr. President, I rise to speak in support of the amendment proposed by Senator LINCOLN from Arkansas. I thank her for an excellent idea.

At the outset, before I came to the Senate, I was a founder and CEO of a major New York Stock Exchange company—a company now employing over 40,000 people. I say that because I do understand how business works. I know we have to pay executives to encourage their full capacity. But the money being paid to top health insurance executives is simply outrageous.

Most of these companies where these executives work get subsidies from the Federal Government through payments to Medicare Advantage and Medicare Part D. Our tax dollars then wind up stuffing the pockets of insurance company executives.

Remember, these companies are obliged to provide health care funding when people are ill or need counseling to improve their health and their longevity.

The average compensation package for the top five insurance chief executives between 2006 and 2008 was almost \$15 million a year.

I think their services in these companies more closely resemble a fire department or an emergency response organization than a traditional product producer or a Wall Street firm. These companies are not selling lawnmowers. They have a different obligation, to provide a guarantee to help people maintain better health, which is essential for individuals and should be great for our country. Our country will save money by reducing overhead and improving programs that will fight to help people live better and longer.

As their executives make millions of dollars every year, their customers are getting messages such as this: Sorry, this operation or that operation is not covered by your policy, or, we don't pay for that kind of medication.

Here is an example that really lays it out perfectly.

There is a company called UnitedHealthcare. It is a major health insurance company. After that company engaged in the practice of backdating hundreds of millions of dollars in stock options—and that was done to get an even better price than the shielded gain they get—after backdating hundreds of millions of dollars of stock options, their CEO, William McGuire, was forced to quit for his

questionable performance. Despite this scandal, United gave Mr. McGuire a golden parachute of more than \$1 billion. Where did that money come from? It came from the pockets of senior citizens and from the people who had programs that were covered by this company—\$1 billion for an outgoing CEO who engaged in misconduct, while hard-working, everyday Americans get turned down for needed and critical medical procedures. There was a disease in that boardroom when they permitted those inexplicable decisions.

While health insurance executives have been gouging working families, they are gorging themselves with their outrageous pay, corporate jets, and other perks. A cancer victim may not get critical chemotherapy. A family may not be able to cover the ravages of a child with diabetes. But health insurance company executives draw down millions of dollars. It doesn't add up.

This amendment will not tell insurance companies what they can pay their executives. They can pay them whatever they choose to. But only \$400,000 annually can be treated as an expense. That is what the President of the United States makes. The rest of it will be taxed, with those funds going to make Medicare more solvent. Again, the Lincoln amendment wisely uses that new tax revenue generated by this measure to further shore up Medicare.

An observation I wish to make is that I have listened to the debate over a long period of time—not just in recent weeks but long before that—about getting health care improved for the people across our country, the over 40 million people who cannot go to a doctor but who will go to an emergency room, draw a ticket as if they are waiting for a table in a restaurant, and hope they get seen before some critical disease gets worse. What we hear is objection after objection. They like the status quo. They have their friends in the industry. Look at the advertising budgets we see and the percentage of commercials paid for by those who are opposed as contrasted with those who desperately need the insurance.

We are seeing now, for instance, that one element of our reform program is the government plan, the plan that makes the industry more competitive, the public option. We hear all kinds of reasons why that cannot be.

What is the ultimate conclusion? It is that this lush field these insurance companies plow day after day, year after year, should be held intact. It is the wrong way to go. I say to them: Stand up, say you don't want 40 million people, or somewhere near that number, to get health care coverage. Say they don't deserve it because they may not be able to afford it. Say you don't deserve it, you don't have the money to pay for it. Who do you think you are, citizens of this country.

People who are here, who have worked, in many instances, who have

lost jobs in this recession, are being told—they don't use the language but the message is clear—you don't deserve it. But they want the insurance company executives to be treated particularly well.

We need clarification of the thinking of the Republicans—and I have a lot of good friends over there, and I know there are a lot of good thinking people. But when the Senator from South Carolina said publicly that if we can bring down this health care plan, we will present a Waterloo for President Obama, what they are seeking is a political victory. They are not seeking to help people who are desperate.

More people are worried about the loss of their health insurance than they are about their jobs because a job of some sort often can be available. But if you lose your health care, if you have a condition that the insurance company is not going to cover, you are in deep trouble.

I plead with my colleagues and I plead with the people across our country who may hear our voices to protest this assault against logic, this assault against those who need help, those who understand that government can be better.

I was a young boy when I enlisted in the Army, 18. My father was sick with cancer. He was 42 years old when he was diagnosed with cancer. He was a healthy man. He used to work out at the Y and take care of himself, but cancer overtook him and after 13 months of illness—a painful illness because they did not have the materials in those days to reduce the pain victims felt—he died, leaving a 37-year-old widow, my mother, who not only was grief-stricken but flat broke, no money. She owed pharmacists. She owed doctors. She owed hospitals.

I learned then that if you cannot turn to government in the United States, you are in bad shape. We have the means to do it, and we must do it.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Michigan.

Ms. STABENOW. Mr. President, I want to specifically respond to the Senator from Nevada who was talking about the Canadian health care system a little earlier. I appreciate the information, the education. Of course, it has nothing to do with this debate, but it was nice to hear. We now understand a little bit more about the Canadian health care system.

The great news for us is that what we are designing is a uniquely American health care system. I want to walk through the elements.

About 60 percent of the folks of the great State of Michigan get their health insurance through their employer. That will continue. We are told that either their premiums will stay the same or go down, according to the Congressional Budget Office. And we

believe many of the efforts in this bill will actually bring costs down.

One of the reasons that costs will come down is those of us with insurance will no longer be paying through the back door for people who use the emergency room who are sicker than they otherwise would be. They use the emergency room and then the costs are shifted on to people with insurance. We know there is about a \$1,100 hidden tax we each pay on our premiums to pay for people right now who do not have insurance and use the emergency room inappropriately. Those with insurance now will not see their insurance change in terms of how they relate to their employer and their insurance company, but they will see costs go down because others will actually have insurance and not be using emergency rooms inappropriately.

We also put in place protections for consumers, basically those, as the Senator from Minnesota was talking about, who have a preexisting condition and cannot find insurance now. Or somebody who has insurance. I don't know how many times I have heard from constituents of mine who have paid all their life and said, I don't have a problem, I have insurance, and then somebody gets sick and somebody gets dropped. They get dropped from their insurance because the insurance company does not want to pay for it.

People with insurance now will keep the system they have but will benefit from consumer protections and from gradually seeing costs come down because we are not paying for people who are using other health care services inappropriately.

We have about 80, 85 percent of the public right now who are covered with insurance, either through their employer or through Medicare, the great American success story we have been talking about, or through Medicaid, the VA, and so on. For the 15 to 20 percent of the public we are trying to provide options for affordable insurance, those are mainly people working. A vast majority of the people we are talking about work for a small business, they work part time, they work two part-time jobs, they work three part-time jobs.

I have been hearing from small businesses for years: We wish we had the same clout as big business. We wish we could pool all the small businesses and the individuals, that entrepreneur working out of their garage, that realtor who does not have a pool. Pool us and give us the same clout as big business.

That is what we are doing in this bill. Versions of this have been proposed by the distinguished Senator from Wyoming. I know back during the Clinton years during the debate, Senator Bob Dole proposed something similar. This has been a Democratic idea and a Republican idea for years.

We are calling this an insurance exchange where basically if somebody right now cannot find affordable insurance by going out by themselves in the individual market, they are going to be able to go to a place where companies will bid on the large pool of everybody who does not have affordable insurance now. Just like what we do for the Federal Government, like our insurance plan, our Federal employee insurance plan, which is an insurance exchange, someone will be able to go to a Web site or be able to get information and be able to find out about the private insurance companies that want to offer insurance to them through this insurance pool.

One of the things we are debating is whether there should be a public insurance choice for people. I believe there should be. I believe that in order to provide competition for the for-profit companies, we should have that. But the exchange is set up basically for small businesses and individuals to purchase—and we are told that people will see cheaper rates being able to do that. And to be sure they are able to do that, we are including tax cuts, refundable tax credits for individuals, for small businesses that cannot afford insurance today, to help them afford insurance. That is what the exchange is about. That will affect 15 to 20 percent of the public who do not have insurance today.

We also have in the bill another option where a State could choose to take the tax credits available to people in the exchange and could decide to pool those and do a basic health insurance plan and negotiate with an insurance company to get a better deal for people in their State.

We also have something I wish had been in place a couple of years ago for my own children, and that is, we are going to say to young people that you can stay on your parents' insurance until your 27th birthday. We also have a policy that is more geared to young people within the exchange that will be less cost to them.

Can you imagine all of the young people today, college or not, who come out, get the first job, like my children, no health insurance, who will benefit by saying you can stay on your parents' insurance until your 27th birthday? That is in this bill, and it is very important. Also basically make Medicaid for low-income individuals a safety net so that anyone below 133 percent of poverty can qualify. What that says is—and this is very important to people in my State where we have the highest unemployment rate in the country—if you lose your job, you are not going to lose your insurance. It is a very important right for Americans.

We are improving the Medicare system. We have certainly talked about that for a long time on the floor. A lot of time has been spent on the Medicare

Program. We are cutting out overpayments to insurance companies, the for-profit companies right now that are being paid more than they should be and putting that back into the Medicare system to make it stronger for the future, to help pay for prescription drugs and to create more preventive care for seniors.

Then another very important piece I was very proud to coauthor with Senator KERRY relates to early retirees. We have a lot of folks who are retiring early not by choice. They are being told they are going to have to retire early at age 55 or age 58 or 59. They may or may not have insurance. If they do, they are a higher cost for their employer, and if they do not, it is extremely difficult to find affordable insurance for somebody more likely to be using health care at that point.

We have a provision where the Federal Government will partner with a business, with an insurance plan to make sure the costs are lower for the early retiree. It is called reinsurance. But for higher cost procedures or episodes, the Federal Government will come in above a certain level and cover the costs. It is a partnership between the private sector and the Federal Government to make sure early retirees, who are already being hit with a thousand different challenges as a result of early retirement, can afford insurance.

This is a snapshot of what we are doing. Again, the vast majority of people are in private employer-based insurance today. That will not change, other than this will over time bring their costs down and it will give them new protections because if something happens—and it is happening every single day where an employer has to decide, Do I pay the 30 percent increase in premiums or do I keep people employed? If people find themselves in a situation where their employer drops insurance or drops employees as a result of costs, they have another option. They have someplace to go where they cannot today. They can go into the insurance exchange. They can get tax cuts that will help them purchase more affordable insurance from a large group pool as a big business does.

Let me say that bottom line for all of this for us, despite everything that is being said, is that this is about saving lives, it is about saving money, and it is about saving Medicare. Every year we are losing 45,000 Americans who are dying prematurely because they cannot find health insurance and cannot get the health care they need. We have a variety of ways in this bill in which we are saving dollars. We have analysis from the Congressional Budget Office and Joint Tax showing that. And finally, we are saving Medicare for the future.

The ACTING PRESIDENT pro tempore. The Senator has spoken for 10 minutes.

Ms. STABENOW. I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Wyoming.

Mr. ENZI. Mr. President, I have found this afternoon to be very interesting. We have actually two debates going on at the same time, and sometimes they do not seem very related, but they are.

One of the amendments we are debating is the one authored by the Senator from Arkansas, and it limits the deductible compensation for insurance executives to \$400,000. Then we have the Ensign amendment which suggests that we should do the same for lawyers bringing junk lawsuits, although it doesn't go quite as far or is not quite as unreasonable in that it only limits it as a portion of the lawsuit.

Of course, one of the reasons being given on the Senate floor for supporting the amendment of the Senator from Arkansas is that Republicans are funded by insurance companies. Well, I have to object to that kind of wording. We could make a lot of insinuations about who junk lawsuits are being supported by and where the money from those folks goes. The Democrats say: Well, the evidence is that the insurance companies are putting so much money into defeating this piece of legislation. Well, I found out the pharmaceutical industry is now so firmly in the President's camp that it is developing plans to spend \$150 million promoting the plan on TV. That certainly makes me kind of curious as to why the Arkansas Senator did not include executives of pharmacy companies in her piece of legislation.

Mr. President, I don't begrudge anybody anything that they make, but I do find it interesting that the CEO of Abbott Laboratories makes \$28 million, the Allergan CEO makes \$14 million, the CEO of Bristol-Myers Squibb makes \$23 million, the CEO of Eli Lilly makes \$12 million, the CEO of Johnson and Johnson makes \$29 million—the Senator from New Jersey was mentioning these things, so I checked—and the CEO of Merck, which is New Jersey based, makes \$25 million; the CEO of Pfizer, \$15 million; Schering-Plough, \$18 million; Valeant Pharmaceuticals, their CEO makes \$20 million; and Wyeth Pharmaceuticals' CEO makes \$25 million.

Why would we want to leave these people out of the same formula? Is it because they are taking the side of passing the bill as opposed to the side of opposing the bill and informing the people? We ought not to be about that sort of thing.

Mr. President, I ask unanimous consent to have printed in the RECORD an article from CBS News titled, "White House & Big Pharma: What's the Deal?"

There being no objection, the material was ordered to be printed in the RECORD, as follows:

# WHITE HOUSE & BIG PHARMA: WHAT'S THE DEAL?

(By Sharyl Attkisson)

While much of the health care debate has been carried out publicly, some very private negotiations have gone on too—between the White House and the pharmaceutical industry. So private, neither side will release all the details, yet they potentially involve millions of Americans, reports CBS News correspondent Sharyl Attkisson.

Sources say negotiations involving the White House and the pharmaceutical industry shifted to fast-forward in mid-June. President Obama had just taken a serious hit on the escalating cost of his health care plan and needed a shot in the arm. Days later, he got it with the full backing of the pharmaceutical industry and its promise to save Americans \$80 billion in health care costs.

"This is just part of the legislative process—working with industry, part of getting this done," said Nancy-Ann Deparle, director of the White House Office of Health Reform. "And the great thing is the pharmaceutical industry and others in the health care sector are supporting reform this time."

But what did the pharmaceutical industry get in return? Initial reports said the White House agreed not to seek price controls on drugs for seniors on Medicare and would not support importing cheaper drugs from Canada. Both the White House and the pharmaceutical industry now dispute that.

But news of a backroom deal riled even some fellow Democrats, including a key committee chairman Henry Waxman.

"We're not bound by that agreement," Waxman said. "We weren't part of it and we feel strongly that the drug companies shouldn't get off with a windfall at the expense of our seniors."

Whatever the case, the pharmaceutical industry is now so firmly in the president's camp, it's developing plans to spend up to \$150 million dollars promoting it with TV ads.

"The president and Congress have a plan," reads one ad.

Consumer watchdog Dr. Sidney Wolfe says there's reason for the public to be skeptical.

"We'll give you this, you'll give us this," Wolfe says. "All sort of off the record, not really incorporated in any kind of legislation and I believe in the long run a very bad deal for the American public even if it's a good deal for the drug industry."

The president may have won crucial support from the pharmaceutical industry but the question is whether that could jeopardize support among Democrats and the public.

Mr. ENZI. Mr. President, I am sorry the Senator from Minnesota finished his presiding in the Chair. I will still address the question to him—I did not expect him to give me an answer at the moment anyway—because he said there was a 428-percent increase in profits for the insurance companies. I didn't quite get what the dates were, but he was talking percentages. As the accountant, I like to talk dollars. I would like to know what those dollars were from that first year to the final year because, for example, if a person makes \$1 in the first year and in the last year cited they make \$5.28, that is a 428-percent increase. If you start with the low number of zero, you can have an unlimited—or infinity—increase in whatever year you pick after that, if they even

make a penny. So percentages can give some bad numbers.

Also, the Senator from New Jersey was talking about administrative costs, and so was the Senator from Minnesota. I would like to get the figures from Minnesota to see how that is working—to have a limitation of 91 percent of all insurance money going to evidently pay claims—because I am not aware of the administrative costs being quite that low in almost any business. Again, as the accountant, I find that most people—and when I say most people, I would include my colleagues—think most businesses are pretty simple. But when I visit one of those businesses, and I learn a little about it, I find that when I scratch the surface, there is a lot going on that the average person out there couldn't handle.

Some of that shows up in the legislation that we do. For instance, Cash for Clunkers. That was supposed to be a 4-month program. We ran out of money in 4 days. That shows how much we knew about the car business.

So when we are talking about these different things, I got involved with some of these administrative costs when I was working on health plans. I did small business health plans, and that is something that has been rattling around here for about 12 years. It still is, and now it is 15 years. Now, how that works is that it allows small businesses, through their associations, to group together to form a big enough pool so that they can effectively lobby against insurance companies or negotiate with providers. They can make these associations across State lines, even make them nationwide if that will work better.

Presently, they have to do it within their own State. That is the law that we have set up. But I found an example of one in Ohio that is very successful. It works well. That is kind of how I modeled my small business health plan. When I did small business health plans, I was taking on the insurance companies. They were pretty upset that I was doing anything in that area, and they joined with some other people to keep me from getting cloture on the motion to proceed to the debate on that. So I know how tough health care is to move along.

But Ohio has that association within its State boundaries, and it works because they have a huge population. We have less than 500,000 people who live in Wyoming, and so if you break that down by associations, it would be small pools, and you don't get the actuarial value out of it that you would if you go to a big population. But in Ohio they can do it within the State, and in Ohio they did do it within the State. It brought down the cost of health insurance. It brought down the cost.

Now, not only that, the biggest savings was actually in administrative

costs. It costs a lot more to keep track of all of the claims and everything from a small business than it does from a big business. The bigger the pool, again, the more capable you are of handling unusual situations. But administrative costs came down from 37 percent to 12 percent, which is a 25 percent savings. Every business would like to have that. But that is how much it costs to administer small ones, so that is why they wanted to group together to form associations to form this bigger pool, which we haven't been able to do.

I would ask the Chair how much time I have remaining?

The PRESIDING OFFICER (Ms. LANDRIEU). There is 2 minutes 15 seconds remaining.

Mr. ENZI. I do want to make some quick comments about the junk lawsuits. We do have to do something about that. When I am talking about junk lawsuits, I am talking about a bunch of them being filed these days that are \$25,000, \$45,000, \$95,000, or whatever is less than what it would cost to defend that lawsuit because if it is less than what it would cost to do the lawsuit, the insurance company is going to say: Let's just pay them and we will be saving money. It is bad precedent and it leads to more junk lawsuits being filed.

It is interesting to note that both lawyers who are with the insurance companies and lawyers who are with the people who have been harmed don't want to have tort reform. That kind of surprised me. Then I thought: Well, they probably learned a lot of this in law school. In law school they probably are taught how important it is to somebody's retirement. Then I remembered the Old West and the story about how when one lawyer comes to town, he is broke. But if they can get two, they can both make a good living. It does take lawyers on both sides working these lawsuits, and it does amount to a lot of money.

So we do have to do something, particularly in the medical area, because we could save \$45 billion a year if we were to have something done about junk lawsuits, particularly with OB-GYNs. We are losing all of them in Wyoming, and it is because there is such a long tail on it. Somebody can sue for 18 years after they are born. So the OB-GYNs have to pay a lot longer insurance tail than that.

We had one dramatic case of a doctor attending a basketball game in Douglas. The reason he chose to announce his retirement is because he couldn't afford the insurance he had to pay. The reason he did is because he had birthed almost every kid on both teams. So the mothers there don't have OB-GYN help as a result of his retirement, simply because of what it cost him for insurance.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. ENZI. I thank the Chair, and I yield the floor.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. BROWN. Madam President, I come to the floor pretty often reading letters from people in my State who have had problems with their health insurance. What is interesting about these letters is that in almost every case, if you had asked these people—Mary from Madison County, Ann from Montgomery, Sheila from Richland County—a year or two years ago if they were satisfied or happy with their insurance, most of them would have said yes. But today they say something very different, maybe because a baby was born with a preexisting condition, so they can't get insurance now or maybe they got very sick and the insurance company took them off their plan, kicked them off their plan because they were costing too much or maybe they changed jobs and lost their insurance or maybe they got laid off.

The other thing I noticed—and as the Presiding Officer knows, from what happens in Louisiana and the letters you get from Baton Rouge and Shreveport and all over—is so many people who are 58 or 62 or 63 years old, and who don't have insurance, they just pray that they can make it until they are 65 because they know they have a good strong public plan at 65 that doesn't deny people with preexisting conditions. Medicare doesn't do that, of course. It is a plan that is predictable and they can stay with it and it will help them.

I want to share a handful of these letters, Madam President, and I will start with Mary from Madison County. Madison is just west of Columbus. And Mary writes:

For the past 26 years, I've worked hard and carried my own insurance. When I started a home-based business, I joined my husband's employer-based plan. But when he had an on the job injury and went on Social Security Disability in 2006, I had to find my own insurance. Guess what? I was turned down by almost every health insurance company because of a pre-existing condition—which was a heart attack I had in 2004. The only insurance I could buy was a short-term policy.

Mary says she then got sick and had \$40,000 in medical bills from a procedure, that she has wiped out her savings, and she says:

I'm still unable to buy a major medical policy. I am too young for Medicare and I make too much to qualify for Medicaid.

Mary is an example of someone who would absolutely be helped by this bill. She could go to the insurance exchange, choose a private company or choose a public option, and she could make a decision based on what her needs are whether she wants the private or the public. She would know that with the public option prices will be more stable and that the quality will be better because there will be more competition than there would be otherwise.

Here is a letter from Ann, from Montgomery County, the Dayton area. She writes:

Our insurance premiums have nearly tripled in the last six years—going from about \$560 per month to about \$1,500 per month. At the same time, none of our benefits have increased. Since we bought our policy, we have paid the insurance company \$68,000 for the insurance.

Then she writes as though she is writing in a magazine, and she says:

Anthem's total spending from my family's claims since we bought the insurance: \$4,064.24. Anthem's profit from my family: just under \$464,000. Anthem's CEO's total compensation last year alone: \$10 million.

Now, clearly, one of the biggest, strongest supporters of my friends on the other side of the aisle is the insurance industry. They are as supportive of the insurance industry as the industry is of them. Well, we do know that if we do insurance reform right—as I think we will—and the Presiding Officer from Louisiana has been in a lot of these meetings where we have discussed some of these changes that we want to make—insurance companies are not going to be able to deny coverage. When someone gets sick and submits their claims, they are going to get paid instead of having to fight over it. And we know if there is a public option, there will be more competition and that these CEO salaries are probably not going to be as high. The average salary for CEOs of the top 10 health insurance companies in the country is \$1 million. That kind of salary is probably not going to happen if we have the type of insurance reform we hope to have because they will not make the kind of money to do that.

The next letter is from Sheila from Richland County—Mansfield, my hometown—and Sheila writes:

I moved to Ohio five years ago to be with my grand-daughter. I've worked hard all my life, and now, I'm 60 years old still working and paying for my insurance. The other day I learned that my health insurance has doubled. I am alarmed because I'm wondering how long I will be able to pay for my benefits. I've talked to some other people my age and they are feeling the same way. I have always worked, never sat down, or expected hand-outs. But insurance companies are downright greedy. I do have a problem with seniors being gouged because of age and health issues.

I think that says it all.

Most of these people, as you can see, happen to be women. Women are much more likely to write us about these problems, often not just for themselves but often because they are taking care of their families. They are the major caregivers and they are the ones who navigate their way through these complicated policies to advocate for their families. These people who work hard and play by the rules—they do everything we ask of them as American citizens. We owe them a little better treatment than that.

This last one I will read is from Kelly, from Delaware County, north of Columbus.

I am a 39-year-old mother of two young sons. My husband and I decided it would be better for me to leave my job and stay at home and take care of our children.

But this also meant we would lose our health insurance through my employer.

She had the insurance in the family.

My husband works for a small business that does not provide benefits.

We ended up purchasing at what we thought was a reasonable price. But it tripled within a year.

In February 2008 I found out I was pregnant and I inquired about the maternity coverage we added despite the high cost.

I was shocked to learn there was a nine-month waiting period before the coverage took effect—and that the pregnancy and birth would not be covered because it's a pre-existing condition.

That is \$15,000 to \$20,000 that would not be covered. My husband and I talked about that if I needed critical medical care, could we end up bankrupt? Could we lose our home? [How about] our child's college fund?

That \$15,000 or \$20,000 obviously is without major complications.

By the grace of God my husband's company decided to offer health benefits and pregnancy was covered.

Then she writes, thinking of people other than herself—Kelly writes:

Please take up reform in a serious manner and consider among your reforms, a public option. Why can't insurance companies compete? What are they so afraid of?

Kelly gets it. She understands that a public option will mean that insurance companies will have to compete.

For instance, in southwest Ohio, the Cincinnati area, two insurance companies have 85 percent of the insurance business. You create a public option, it doesn't mean someone from Lebanon or Batavia or Cincinnati or Blue Ash or Evendale or Middletown or Hamilton has to take that public option. But it does mean, because of the existence of the public option, there will be more competition and the insurance company will behave better. You get better quality, lower prices, and you will not have these companies dropping coverage because of a preexisting condition.

Let me add one other thing. There was a Dow Jones story a couple of years ago entitled "Humana's Third Quarter Profits Up 65 Percent, Sees Strong Medicare Advantage Gains."

Let me excerpt from the first few paragraphs. Humana Inc.'s third-quarter earnings rose 65 percent amid improved margins in government—i.e., Medicare Advantage—segment. The company also gave an initial 2010 forecast in which the health insurance projects "substantial" Medicare Advantage membership growth, resulting in revenue of \$32 billion to \$34 billion—well above analysts' average estimate of 29 billion. Humana's forecast takes into account reductions in Medicare Advantage overpayments.

We were on this floor in the last few days, listening over and over to my friends on the other side of the aisle defend the insurance industry, saying if you do this the insurance industry is going to be in such trouble and they will have to cut benefits.

The insurance industry under our plan will get 20, 25, 30 million new customers because all these people without insurance are going to buy insurance. Of course we are putting some new rules on them. We don't want them to continue to deny care for pre-existing condition; we don't want them to continue discriminating against women, as the Presiding Officer knows. As a female, but as a good Senator, she understands that women are paying oftentimes way more than men for more or less identical coverage and more or less identical situations. The insurance companies will not be able to do that anymore. So they will have these new customers. We have some rules so they will not be able to keep gaming the system.

My friends on the other side of the aisle I hope would sort of back off the defense of the insurance industry because that is not what we are here for. We are here to help make this insurance system work better for all Americans. That is the reason for the public option. That is the reason for the insurance reforms. It will mean people will not be denied for a preexisting condition, it means people will not have to fight so hard when they submit their claims and have the insurance companies turn them down.

About a third of claims that people submit to the insurance industry are denied. That means on the initial round that people do not get reimbursed for their expenses. It also means people have to fight with their insurance companies, far too often, people in a situation where they should not have to do that, they are sick, caring for a loved one, whatever it is.

That is the reason this insurance reform is so important. I ask we move forward and pass this bill.

I yield the floor.

The PRESIDING OFFICER. Who seeks recognition? The Senator from Oklahoma is recognized.

Mr. COBURN. Madam President, I ask unanimous consent that myself and the Senator from North Carolina consume the next hour discussing the health care bill.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. COBURN. Madam President, we have been discussing health care in Washington for the past 8 months rather vigorously. Four years ago I started working on a bill with my colleagues in the Senate and we introduced a bill 2 years ago and modified it this year. It was introduced before the House bill, it was introduced before the Senate bill.

It was introduced before the bill we have on the floor at this time. It is called the Patients' Choice Act.

We have heard several times that the Republicans want to stop this. As a practicing physician, I fully recognize the need to significantly reform health care. There is no question. I recognize that. In that bill is a guaranteed issue—no preexisting conditions are allowed in exchanges under our bill. But I also recognize that as we fix health care, some of the things we cannot do are make our fiscal situation worse and also our inefficiencies worse.

Earlier today I referred to research put out and published in October of 2009, which is a white paper on the waste in our health care. This is Robert Kelly, vice president, Health Care Analytics, at Thomson Reuters, a highly esteemed, reputable firm which says that every year between \$600 and \$850 billion of money is wasted in health care. It is wasted. It doesn't help anybody get well and it doesn't prevent anybody from getting sick.

When you look at the breakdown of where that comes from, it is rather apparent that the largest component of it is unwarranted use. They break that down. What is that? That is me as a physician—I am a practicing physician, delivered thousands of babies, cared for thousands of grandmothers, granddads, kids, set bones, done operations—old-time, broad-based practice.

But what is this unwarranted use? Madam President, 40 percent of \$700 billion is \$280 billion a year. They are saying a total of \$700 billion, times 10 years in my math, at least from Oklahoma, is \$7 trillion.

We have not begun to touch in any of these other bills this unwarranted use, the fraud and abuse—19 percent—that comes to \$175 billion a year in fraud. Most of it is not in the private sector, it is in Medicare and Medicaid. That is where most of the fraud is. We have not begun to touch that, we have not attacked it. There is a minimal \$2 billion over 10 years of direct fraud elimination in the bill we have on the floor.

Administrative inefficiencies. That is the bureaucratic paperwork that both the hospitals and the doctors spend money on to make sure they maintain compliance with the regulation of medicine—17 percent. That 17 percent comes to somewhere between \$100 billion and \$150 billion a year that does not help one patient get well. It doesn't prevent one patient from getting sick.

In this unwarranted use happens to be the very thing that none of the bills attack, except our bill, which is the defensive medicine costs in this country. Why would it be important to fix that? Because it is close to \$200 billion a year. That is \$200 billion of tests that are ordered on patients, on procedures that are done on patients they do not need, because the doctors need to do it to prevent themselves being exposed to

unnecessary litigation. That is \$200 billion a year, that is \$2 trillion over 10 years. Yet we do not address it, not one iota in the bill we have on the floor.

Avoidable care—those are complications. Those are things that we cause. Iatrogenic, they are induced complications. We are not going to be able to do much with that. We could fix this—lack of care coordination with accountable care organizations—by incentivizing outcomes, by grouping in payment for how we pay. But we have not done any of that.

So here is Thomson Reuters that is showing if we want to drive down costs in our health care system, what do we have to do? We have to attack where the waste is. There is nary a gnat's rear end of reduction in these things in the bill that is before us.

The other thing I referred to earlier today was a report by the Congressional Research Service, which was issued December 1, this year, last week. What did they say? The question that was asked of them: What percentage of health care is run or funded by the Federal Government today—or the governments today? The number came back—I have been quoting 61 percent on my back-of-the-envelope calculation. The number came back, as affirmed by Congressional Research Service, that 60 percent of all health care in America is funded through or by your tax dollars funding through a government organization.

The question has to be asked: How well are we doing? Could there be any coordination or connection to the fact that the government is now running 60 percent of the health care, and health care inflation is twice what all the rest of the inflation is? Could there be any connection between the inefficiencies that are in health care and the fact that we have bureaucracies that have themselves in between patients and their providers? I think the answer to that is an astounding yes.

I visited with a cardiovascular surgeon, because I have made this statement on the floor and people have disputed it.

Find me a doctor who has trained in the last 30 years in this country, who spent part of his training at a VA medical center, and ask him or her the following question: If you or your family were sick and you had the choice of where you trained at a VA hospital or any other hospital you trained, would you go to the VA hospital or would you go to one of the private hospitals where you trained? One hundred percent will say no.

Our VA system has markedly improved. I will readily admit, in certain areas, they are better than anybody else, especially prosthetics, especially post-traumatic stress disorder. They are better. But on the vast majority of the issues, they are not. They are run by the government. Look at the Indian

Health Service. We have a profound legal treaty obligation to provide health care to Native Americans. Yet Indian health care is abysmal. That is a government-run program. Then look at Medicaid, which we are going to put millions of people in. What happens? In Medicaid, 40 percent of the doctors and 65 percent of the specialists will not see you. But we are going to say: We will give you coverage in a system where you have access to only 60 percent of the doctors. That is not choice. That is relegating you to a system that says you can't get care.

I have talked on this floor about pediatric subspecialties. Because of Medicaid, we have an absolute dearth of pediatric subspecialties because the payment mechanism is so low that nobody will spend the extra time in residency to become a pediatric subspecialist. Whether it is a cardiologist or gastroenterologist or pediatric neurologist, we can't find them. Nobody will go there. The rates for reimbursement are set so low. So physicians graduating from medical school make an economic decision based on the health and well-being of their family to not go into those areas because we have forced them.

What we know is, there are poorer health outcomes in Medicaid. That should not be surprising. Some of the best doctors are not available to Medicaid patients because we will not pay for their expertise. We also pay an extra \$1,800 per family, everybody in this country who has insurance, because of the underpayment of Medicare and Medicaid. Finally, with the large tranche of people under this bill who are going into the Medicaid Program, we are going to break the States, if they are not broken already. We are going to cover it for 4 years. For certain States, we will do a whole lot better than that; Louisiana and a few others for which we have made special exceptions. But we are basically going to transfer a load of fiscal responsibility, call it equal, and put that load on the taxpayers of the individual States.

As we look at health care, one of the things I wished to do was to talk about the problems but also talk about the bill we have before us and make this point. Are we better off with the government running health care or are we better off changing the system in such a way so the patient is put first, the government is put last, and the doctor is a 100-percent advocate for their patient? Which would be the better way? Knowing that we have \$7 to \$800 billion a year wasted, why would we not design a system that goes after that waste and create the same opportunity for everybody?

When you look at the Patients' Choice Act, which my colleague, Senator BURR, will talk about in a minute, there are some important things. First, let me tell what the CBO says about it.

The CBO says it will reduce future budget deficits, relative to protections under current law, by amounts that increase over time—the first 10 years, \$70 billion. But what it will do for the States is \$1 trillion in savings the first 10 years. It will lead to lower budget deficits. That is what the CBO said. It said it also would reduce spending on health care because it will be more efficient spending. Then, finally, the Federal contribution for Medicaid would grow at a lower rate, lower than health care inflation, which means it is going to save a ton of money for the States.

The bill we have before us creates 70 new government programs. It has 1,696 times that we will write bureaucratic rules and regulations that are going to cause the government to step between the patient and their caregiver. It is estimated, right now, to add somewhere around 20,000 new Federal employees—we are trying to get a handle on that—20,000 new Federal employees to tell you what you will and will not do in your health care. It is going to create at least \$5 to \$10 billion in new requirements for the Internal Revenue Service just to check on you. That is per year to check on you to make sure you are filling out the forms right. It will create a massive disruption in the insurance market.

Nobody who practices medicine today likes insurance companies. The very fact that we would have our colleagues claim we are defending the process is absurd. What we are defending is allowing the free market, with legitimate regulation, to allocate a scarce resource without putting the patient second. There is a big difference. I can tell you horror stories about insurance companies, but I can tell you worse stories about the Federal Government and the fact that it denies twice as many claims per 10,000 claims as all the other insurance companies.

So when we are talking about access to care, both of the bureaucracies are a nightmare. Yet this bill creates the mother of all bureaucracies, the mother of all new programs.

I will make one last point and yield the floor. We have been down here fixing things that are wrong. We fixed the Preventive Services Task Force. We said it doesn't apply to breast cancer screening. That is what we said. We voted for it. It doesn't apply. Are we going to pass that every time? We didn't get rid of it. We didn't get rid of the Medicare Advisory Commission. We didn't get rid of the Comparative Effectiveness Panel. Every time they make a bad decision, are we going to pass a law and say: You were wrong or are we going to trust the professionals, the professional societies that guide my practice of medicine today or are we going to have a bureaucrat and a bureaucratic system that says what you will get and what you won't? Under the bill we have, you are going to have

that. We have taken the hot potato off the floor in terms of breast cancer, in terms of what they said. We said it doesn't apply. We passed something for women's health which I applaud. But what about men's health? What about children, what about prostate screening for men? What about colon screening for men? What about cardiovascular screening for men? We didn't do a thing. Why didn't we? Because we know a larger percentage of the emotional attraction has to do with those things associated with women. So we pounded our chests and passed the Mikulski amendment for preventative care for women, and we ignored the preventative requirements of everybody else. How does that fit with what we should be doing?

It doesn't connect. It is political. It makes good news. It satisfies vocal interest groups. But does it fix the long-term problem?

I yield to my fellow Senator from North Carolina.

The PRESIDING OFFICER. The Senator from North Carolina.

Mr. BURR. Madam President, this debate to date has not been about health care reform. It has been about coverage expansion. We are learning how expensive it is not to do reform. In fact, incorporated in this bill, just short of \$900 billion, we are required to offset 100 percent of it because you don't receive savings unless you reform.

When Dr. COBURN and I started work over 3½ years ago to try to figure out how you change the health care system to the most efficient, yet maintaining the same quality of care and innovation and breakthrough, we went on a search. We went to States to look at creative things that States had done. I daresay everybody trumpeted the reforms in Massachusetts. What we learned very early on was Massachusetts didn't have any reforms. They did coverage expansion. Where they used to pay for it out of the right pocket, now they paid for it out of the left pocket. They promised that coverage would be extensive and include everyone.

Where are we today, just a few years later? The companies they said they would never send bills to, they are sending an additional surcharge to the Massachusetts people, and they said everybody would be covered. This year they are throwing people off the Massachusetts plan because they don't have enough money to cover them.

Real health care reform means we are going to make sure every American has the resources to be covered or to be able to pay out of pocket because the real boogeyman of health care today is the cost shift. It is cost that is incurred when a service is delivered to you that the person or the institution delivering the service isn't reimbursed for. If they receive no payment for the

service they provide, then they have to shift the cost of delivery of that service over to somebody else. The somebody else is people who privately pay. They either pay out of their pocket or they walk in with insurance, and the cost of those services is shifted to everybody who falls into that category.

Up until this debate, most Americans had thought cost shift was only generated by people who had no insurance. What we have learned in this debate is it doesn't stop there, that the cost shift is also initiated from somebody who is underinsured, meaning they haven't got enough insurance to take care of the services they need. But it doesn't stop there. For every beneficiary that Medicaid covers, we reimburse at an average rate of 72 cents of every dollar of service provided, meaning for the millions of Americans who are covered under every State Medicaid plan, we automatically cost shift 28 cents of every dollar of service they get to the private side.

As a matter of fact, for the 35 to 40 million seniors under Medicare, we reimburse at 91 cents for every dollar of service provided. Therefore, 9 cents is shifted in some fashion to the private pay side. No wonder health insurance and the cost of health care has continued to rise at an unsustainable rate. It is because we keep growing the pool of people who don't provide 100 percent of the cost of the service provided.

We are here debating a plan that they say is a reform. Well, I will give them credit for this: They do cover 31 million Americans who are not covered today. It still leaves 24 million Americans uninsured, uncovered, but they do cover 31 million. Fifty percent of that number, 15 million Americans, are going to be thrown into Medicaid in the States they live in. If the attempt is to reform health care, the first place you start is with eliminating cost shift. The first place they have started is to take the least-efficient medical delivery system in the country, Medicaid, and jam 15 million Americans into it. Forget the fact that it is an unfunded mandate to the States at some point, after the Federal Government pays 100 percent of the initial charge. We are exacerbating the problem that exists in health care today because we are putting 15 million new covered lives into Medicaid, and we know for every dollar of services they get, we are going to cost shift 28 cents of that over to people who pay out of pocket or have insurance.

The direction we have started in is flawed because we haven't tried to address the cost shift that exists in our health care system. Senator COBURN and I attacked that. After we got past Massachusetts, we looked at innovative plans such as North Carolina's for Medicaid, where they were making progress reaching new efficiencies and last year saved \$200 million in their health care plan.

Most people don't know it, but Medicaid is an opt-out program. States can choose to opt out.

That word has been used a lot as we talk about health care reform in the United States, and that as long as you do an opt-out, we will be fine for a public option for the government-run system. Well, we have one of those. It is called Medicaid. It is an opt-out government health care program. How many States opt out? None. Why? Because the subsidy is so big they cannot do it.

But what happens when they want to change their plans? Let's go back to North Carolina. North Carolina would like to change their plan further, now that they have learned things they can do. They asked the Centers for Medicare and Medicaid Services for a waiver. Religiously, what happens? They are denied the waiver to change their health care plan to raise the quality and to reduce the cost.

Sound eerily similar to what we are talking about, potentially, in a health care plan we are going to roll out for the rest of the country? Maybe an opt-out plan where States could opt out, where they say it is not a government takeover. Well, if you have to go to the government and ask their permission to change it, to increase the quality of the care and to decrease the cost because of the efficiencies you get through how you design it, I will tell you that is a government-run plan, plain and simple.

We talked to self-insured companies. There was a gold mine of great ideas from companies such as Dell, SAS, Safeway, and Pitney Bowes, companies that had frozen their health care costs year after year after year. We had one simple question. How did you do it?

They looked at us and said: We invested in prevention, wellness, and chronic disease management—even to the degree that one company offered the employees who had chronic disease the ability to have a program specifically designed for them for free, if they would enter into the program. Employees in some cases chose not to go into it. The company turned around and financially rewarded them by writing them a check to get into the program.

At one company, when they wrote them a check, they had 80 percent enrollment, and in the first 18 months they saved \$1,782 per employee. That is real savings. That is bending the cost curve of health care down. That is not what we are doing in this debate. Even the CBO says you are going to spend almost \$900 billion and you have to raise \$900 billion to do it because there is no savings because there is no reform.

So Senator COBURN and I went through that process, and we began to construct a bill. He did a majority of the work. What did we find? We found that we needed massive insurance reform in this country. As he said earlier, you cannot be excluded if you

have a preexisting condition. You cannot be excluded because you get sick. What you have to have is competition.

Well, I will tell you, in this plan, where they say there is choice and competition and innovation, they actually mention choice 40 times, they mention innovation 25 times, and, believe it or not, they mention competition 13 times. Yet when they talk about taxes, fees, and revenues, they mention it 899 times. That gives the American people some insight as to where the focus of this health care bill is.

Dr. COBURN and I went exactly the opposite way. This is not a reform effort that needs to be dominated by government. We chose the carrot versus the stick. In the bill on the Senate floor we are talking about, if an individual does not buy insurance, they are fined. They are fined if they do not buy insurance. We thought the Constitution said that if you tax the American people, you have to do it equally. You have to apply the same tax to this group that you do to that group.

Through equalizing the application of taxes in this country, we were able to come up with a plan that provided every American family \$5,700 per year in refundable tax credits. So every American family would get that \$5,700 every year.

If, yes, we had that individual who was not married, and he or she got a \$2,800 refundable tax credit, and they did not use it, we gave the States the option that they could opt them in. They could actually enroll them with that \$2,800 into a high-risk catastrophic plan. We did not penalize the individual. We took what the government had provided and made sure they had insurance so that the next weekend, if they were riding their Harley-Davidson and they had a wreck and they ended up in the emergency room with no insurance, at least for the \$200,000 bill to get them well, the hospital was not going to cost-shift that to somebody else because they were going to have catastrophic insurance. Maybe the hospital had to eat the first \$5,000. But after that, they had an insurance policy.

But this is the difference in approaches. We are not penalizing the American people. We want them to be part of a health care system that is reformed.

We looked at Medicaid. We saw this problem with a 28-percent cost-shift. We said we have to reform Medicaid. How do you do it? We gave States the option: If you want to enroll your Medicaid beneficiaries into this new plan that we created in this new competitive insurance market, then we will double the investment in your Medicaid beneficiaries so they can have \$10,000 worth of coverage through the private sector.

Again, we did not force them. We did what Dell did, what companies did: we

gave them cash because we think we can increase the quality and decrease the overall cost.

Tort reform: Dr. COBURN has talked about tort reform. Every doctor has talked about tort reform and defensive medicine, how it has run up the cost of diagnostic procedures because you have to cover yourself for the one lawsuit you get.

We came up with quite a unique approach to it. We gave States three options. We gave them the ability to have arbitration, we gave them the stability to create a health court, and we said to States: If you adopt any one of these three options, we will give you a 1-percent bonus on your Medicaid. You do not have to adopt the tort reform. But if you want the 1-percent bonus on Medicaid, then you have to adopt one of the three options we have put into it.

So, in essence, what are the three things we have done in our bill, which Dr. COBURN, once again, said was the first bill introduced in the Congress of the United States? I have sat on this floor, as Dr. COBURN has, as many people have, and, yes; we have had a sharp exchange about what is in this bill and whether it is beneficial or whether it hurts. I happen to think it hurts. But I have also listened to folks on that side of the aisle say: When are Republicans going to offer something constructive? When are they going to offer a pathway?

We have. We were the first. We were ignored. We will get an opportunity to debate it as we go through this. We will get an opportunity to vote on it, I can assure you. I do not expect it to pass. But there are a lot of good things in here.

Mr. COBURN. Madam President, will the Senator yield for a question?

Mr. BURR. I am happy to yield.

Mr. COBURN. Does the Senator recall the vote in the HELP Committee when this bill was offered—this bill that allows you to keep whatever you have, if you like it; this bill that gives no tax increases on American families; this bill with no increase in taxes on American business; this bill that lowers everybody's health insurance premium; this bill that covers preexisting conditions, period; this bill that protects seniors' high quality of care and keeps their choices; this bill that increases personal control over health care; this bill that does not do a Medicaid expansion but, instead, puts Medicaid patients into real insurance so they can have the same choice as every other American; this bill that protects physician-patient relationships; and this bill that empowers patients, families, physicians, and providers, but does not empower the government—what was the vote, does the Senator recall?

Mr. BURR. All the Republicans voted for it and all the Democrats voted against it.

Mr. COBURN. Exactly right. The difference is, you can either trust people or you can put all your trust in a nanny state, and the nanny state is running 61 percent, 60 percent of our health care today.

I thank the Senator for answering my question.

Mr. BURR. Let me conclude and give the floor back to the Senator.

There are three objectives Dr. COBURN and I set out to accomplish for all Americans in the bill. The first was to cover all Americans, make sure everybody had the capability to access affordable coverage.

Two, remember what the companies that were self-insured told us: Invest in prevention, wellness, and chronic disease management. The only direct cost savings in health care today is prevention, wellness, and chronic disease management. There are a lot of indirect savings—tort reform, insurance reform, purchasing insurance across State lines—but the only direct savings comes from prevention, wellness, and chronic disease management.

Third, and probably most important, make sure it is financially sustainable.

Well, I do not know why, right now, we would create a health care plan in America that could not financially be sustainable for decades. Why would we create a health care plan that for the current generation entering adulthood would not live with that health care plan in a financially sustainable fashion for their lives? This one will not. It costs \$2.5 trillion. It does not make it through the first 10 years.

Yet we have an option. It is an option that Republicans have already introduced. We have let the American people see it. It is not 2,074 pages. I think it is barely 240-some pages, and it incorporates much more. Oh, by the way, it fulfills—it checks all the boxes the President said we needed to do when we started on health care reform. It covers all the American people, is financially sustainable, maintains the level of quality, and it bends the cost curve down.

What is the most disappointing thing out of this debate so far? It is that we do not have to get down here to tell the American people this is going to cost them more. They know it. They know their insurance premium is going up if they have coverage today. They know the doctors are going to have to charge more because Medicare is going to cut its reimbursements. They know more doctors are going to drop seeing Medicaid beneficiaries because the reimbursements are going to continue to go down. The American people get it. That is why, in an overwhelming fashion, they are opposed to what we are here debating.

My hope is that at some point in this debate we will talk about some rational things, like what we have in the Patients' Choice Act. I do not expect it to

become law, but I expect reasonable people to accept things that really do reform health care, and a lot of them are in this bill.

Madam President, I yield to my good friend.

Mr. COBURN. Madam President, could I inquire of the Chair how much time we have remaining?

The PRESIDING OFFICER (Mrs. GILLIBRAND). There is 24 minutes remaining.

Mr. COBURN. Madam President, I want to go back over some of the things in the Patients' Choice Act because people ask me why they have not heard of it, and it is because the press does not want to cover a commonsense bill that does not spend money. The majority does not want to incorporate the ideas because it is not government-centered, it is patient-centered. We have a bill on the Senate floor that is totally government-centered.

But what does the Patients' Choice Act do? Senator BURR alluded to a lot of it. But I want to go into it in a little bit of depth.

What it does it looks at the five preventable diseases in this country that consume 75 percent of our dollars, five chronic diseases: heart disease, cancer, stroke, chronic obstructive pulmonary disease, and diabetes. They cause two-thirds of the deaths and consume 75 percent of our dollars. The Patients' Choice Act invests in preventing those diseases.

The second thing it does is it creates affordable and accessible health insurance options—not government-run, not government-mandated, but uses the experience of 50 States through exchanges and sets a floor. What is the floor? The floor is the same level of care Members of Congress can get. That is the floor. But you get to choose. Nobody says you have to have this.

Do you realize that 15 million Americans who are going to be forced into Medicaid in this bill will not have any choice? They will just say: You have Medicaid. And they will be denied 60 percent of the doctors in this country.

It eliminates preexisting conditions. It eliminates the ability of an insurance company to drop you if you are sick. You get offered health insurance regardless of your age or regardless of your health. Yet we are saving trillions, and they are spending trillions.

What is the difference? What is the disconnect? It gives you, as Senator BURR talked about, an auto enrollment mechanism. If you choose to be irresponsible, that is fine, but the rest of us should not have to pay for your irresponsibility. So if you do not sign up, you have an automatic enrollment with your tax credit that puts you in a very high deductible plan, so if you have a catastrophic illness, the rest of us do not have to pay for you.

It also allows States to join in pooling arrangements, or regional areas,

where they increase their buying power through these exchanges.

Whatever you have today, if you like it, you really can keep it. That is not true in this bill that is coming across the Senate floor. There is an absolutely zero tax increase on American families, and it is not true in this bill on the floor. There is \$500 billion worth of tax increases on either families or businesses.

It lowers the cost of health insurance premiums. This one on the floor says, at best, in the large group and medium group market, it is going to be about the same trajectory of twice the inflation rate. But if you are in the individual market, it is going to be 10 to 13 percent higher. Our bill lowers everybody's cost. It protects the seniors' high-quality care and choices today. It doesn't pick winners and losers; it allows patients to pick what is best for them. It increases patients' own personal control over their health care, and it converts Medicaid to a system where no longer are patients in Medicaid discriminated against because what we do is we buy them an insurance system—allow them to buy insurance where nobody will ever know they are a Medicaid patient, so nobody will ever know to deny them, because the patient rate will be equivalent to anybody else in the insurance market. So we give them the same access.

We treat Medicaid as we treat Indian health care: Here is your health care, but it is not as good, so tough it. Here is your health care. We know the outcomes aren't as good. So what. Those aren't Tom Coburn's opinions. Those are published data where we know the outcome in Medicaid isn't as good as any of the other insurance programs or it is not as good as people who are in the cash market even though they pay more.

It protects patients and their caregivers' relationship. Finally, it empowers patients. It empowers mothers to make choices for their children; gives them a broad array of choices. It empowers, but it doesn't empower the Federal Government.

The Federal Government is failing in health care right now. It really isn't my ingenuity that came up with this chart, but since I am around my three daughters and a lot of younger people who work for me on my staff, this is a comparison of the Patients' Choice Act or the act we have here. It is like comparing old Ma Bell to an iPhone.

The Patients' Choice Act is the iPhone.

A little over a decade ago, iPhones or even cell phones in general—who would have thought they would be so widespread? Apple's iPhone was the fastest growing smartphone of 2008, and its 2008 sales were 2½ times higher than 2007. Why the increase? Why did iPhone sales take off? What did they do? They are hugely popular because they are

user friendly and they allow tons of options and you get a personalized iPhone experience that you control.

So what does an iPhone have to do with health care? Both sides of the political aisle rhetorically agree that American consumers prefer products that are personalized, that fit their needs, that are affordable, and that are portable. It sounds a lot like an iPhone. As a matter of fact, my colleagues across the aisle are now using the language "choice and competition" to try to sell this monstrosity on the American people, the most massive expansion of Federal Government control since Johnson's Great Society.

The problem is that the policies in this bill would discard the iPhone's individual choices and consumer control. But what it would embrace is Ma Bell, the old land line black phone with a rotary dial. That is what we are going to embrace with this bill. We are not going to embrace the iPhone; we are going to embrace being locked to your house with limited choices, limited capability to expand your choices, and limited freedom.

Mr. BURR. Would the Senator yield for a question?

Mr. COBURN. I am happy to.

Mr. BURR. My question is this: It sounds as though the Patients' Choice Act allows an individual to design the coverage to meet their age, their income, and their health condition.

Mr. COBURN. Absolutely right.

Mr. BURR. That is customizing your health care choice.

Mr. COBURN. It puts the consumer—i.e., the patient—in charge of their health care rather than the government in charge of their health care.

Mr. BURR. So one could then conclude that the current legislation we are debating in the Senate not only limits but it takes away choices that currently exist to seniors, to people who work, and to the younger generation.

Mr. COBURN. I don't think there is any question that is going to happen. Actually, it is even going to be worse than that because we have shrunk the differential for young people. If you are a young person, listen to me. The cost of your insurance is going to double under this bill. If you are a young couple or a young individual—and I am talking 40 and under, 24 to 40—your insurance is going to double under this bill. What you are going to do, you are going to do this: You are going to say, I am going to pay the tax rather than coverage for insurance because it is financially much more important for me to do that. And what we know is that between 6 million and 11 million young people are going to cancel their insurance under this bill, according to a report put out by—and I will reference it here—Oliver Wyman and Associates.

Mr. BURR. But typically children are a lot less expensive to insure because

they are younger and they are healthier.

Mr. COBURN. What do you think is going to happen?

Mr. BURR. What happens?

Mr. COBURN. What is going to happen is the spread—the people who have insurance, if you are over 40, because these young people drop out, your premium is going to go up. So what is available today because of the mix of people who are in the broad group of pools who are insured—we are going to drop out young, healthy people, so that small younger group insurance is going to go up. But because there are going to be 6 million to 11 million fewer of them and the insurance company keeps them in the pot to lower the cost for the older ones, the 65 and above, their premiums are going to go up.

So we are going to have exactly the opposite effect because when you mandate coverage and you force people to buy it with a big government program, people are going to make an economic decision—and the first year of this is \$250 is all you have to pay, and it goes up to \$750—they are going to say: Why would I do that? I will buy the insurance when I get sick.

So what we are going to do is totally disrupt—and it may be planned to be that way so we can come back and say: Well, look at the private insurance industry. It is not working. The government needs to take it all over. I don't know that is the case, but the consequences of what this bill is going to do—

Mr. BURR. From the way the Senator has described it, the current bill that is being debated in the Senate really doesn't benefit anybody. Everybody loses.

Mr. COBURN. Oh, yes, it does. We will have at least 20,000 new Federal Government employees. It will benefit them. It will benefit the bureaucracies. It will give them power to control. It is not a soft control or a light control; it is a heavy control. We will mandate on States bankruptcy through Medicaid—mandate to the States—the mother of all mandates to the States. So it will benefit the Federal Government and the bureaucracy but will have minimal benefit for the patients in this country.

Mr. BURR. So at best, we can claim that the bill being debated in the Senate is a \$2.5 trillion bill designed to try to stop waste, fraud, and abuse in the health care system.

Mr. COBURN. Supposedly.

Mr. BURR. Think about that. We are spending \$2.5 trillion to try to get waste, fraud, and abuse out of just the government side of health care. Yet the bill itself is making the government a bigger factor in health care, which means the likelihood is, because of the design not changing, you have more waste, fraud, and abuse. So there is no real value to the \$2.5 trillion, except to the government workers who are hired

to either collect the fines and the new taxes or sit on the panels to determine who gets coverage and who doesn't.

Mr. COBURN. Well, I wouldn't go quite that far. There is no question that some people who have no coverage today will get Medicaid. But compared to the Patients' Choice Act, they could get a private insurance policy instead of Medicaid. They would get access to all of the physicians, not just 60 percent of them.

Mr. BURR. And save \$2.5 trillion of the American people's money.

Mr. COBURN. And save \$2.5 trillion and have the flexibility of choice based on what they need and what they perceive their children or family needs.

So they do increase coverage, but how do they do it? They put you into a substandard plan. They put you into a plan that doesn't give you the same access Members of Congress have. They put 15 million people into that, and they decrease the flexibility and choice for those people, 11 million people, in Medicare, because we know better.

Mr. BURR. My good friend probably remembers the day we marked this up in the Health, Education, Labor, and Pensions Committee. As a matter of fact, it wasn't a day, it was 3½ weeks and 56½ hours, if I remember exactly. One of the amendments they accepted was an amendment that is titled this: The 2220 rule. My good friend being a doctor would recognize this was a program the Federal Government had to allow medical students to delay the repayment of their student loans until they actually got their practice up and running. That was eliminated about 2 years ago. I am sure the good doctor remembers that was accepted under a UC in the committee. But if you read the 2,074 pages, it was noticeably absent in the 2220 rule. Yet, as you know, we have less than a million doctors in the United States of America trying to provide medical coverage to 300 million people and growing. And some suggest that if this bill passed, we would lose 25 percent of our doctors in the first year who decided: This is it. I am going to retire. I am out of here.

The 2220 provision is the only thing we had in our bill that actually created an incentive for more individuals to seek medicine as a career.

Mr. COBURN. Madam President, if I may inquire how much time we have remaining.

The PRESIDING OFFICER. Nine minutes.

Mr. COBURN. Thank you.

Again, going back to incentive, carrots versus sticks, how is it that we have a shortage of primary care physicians in the country? Why is that? We have put a lot of money into medical schools. The States have put a lot of money into medical schools. We have student loans for physicians who average about \$170,000 in debt when they get out of there. How is it that people

don't want to be a pediatrician and a general internist or a family practice doctor? Why is that?

Mr. BURR. Reimbursements.

Mr. COBURN. The reimbursements, where you can invest 1 additional year in residency and double the income you can make from being a physician.

How did the payment rates get where they are? Who set the payment rates? The Federal Government set the payment rates because 60 percent of the payments to private physicians come from Medicare, Medicaid, TRICARE.

Mr. BURR. Indian Health.

Mr. COBURN. Those are contracted. Those are even lower. So they set them. Private insurance sets all the rates based on what the government does. So the government has created a shortage of primary care which we are going to see just explode as we put other people—the CBO has rightly said, if you add lots of people, you will get some increased utilization, a significant amount. They are not there. They are not there.

So you take somebody in their late fifties, mid- to late fifties or early sixties, who planned on practicing 10 or 15 years, and all of a sudden you say—and we don't in this bill. We had the claim today that this extends the life of Medicare. Well, here is how it does that. It uses the Medicare Advisory Commission to force cuts in Medicare, not fraud necessarily, just cuts. It doesn't pay for the doctor fix, which is \$250 billion, and then it cuts Medicare.

So the reason—and I don't have any problem extending the life of Medicare—I think so—but it ought to be all about fraud. It ought to be all about—the vast majority of fraud in health care today is through government programs, not the private sector. The fraud rate in the private sector is less than 1 percent. Here we have \$150 billion. We could save \$1 trillion over the next 10 years if we had an effective fraud program, which this bill minimally addresses, which our bill aggressively addresses—aggressively addresses. We even have undercover patients, undercover doctors where we create sting operations to put people in jail—not fine them, not ban them from Medicare; we put them in jail if you are stealing from the American people.

There is nothing anywhere close to that in this bill. So, in fact, we are aggressively going after the largest problem of the \$800 billion that is wasted every year, which is fraud.

The second largest problem is we need to incentivize the States to fix the tort extortion that is going on in this country that causes people to have tests done on them, not necessarily without any consequence to their health, and money wasted on tests so the doctors can be in a better defensive position.

Mr. BURR. How could a group such as AARP, whose primary role, by design, is to represent our Nation's seniors, be in favor of a reform package

that doesn't provide any additional benefits to our Nation's seniors?

Mr. COBURN. And it doesn't reform. I have wondered that.

Mr. BURR. As the Senator knows, we drastically cut Medicare Advantage, the only private sector option that a senior has for coverage. We basically eliminate that. That is 11 million seniors in this country.

Mr. COBURN. Well, we have protected some through earmarks in this bill—certain States; we have protected some. In some States, if you have Medicare Advantage, you are protected. In other States, if you don't happen to be on that side of the aisle, or you don't need help in your reelection, you don't get that.

Mr. BURR. If somebody didn't have Medicare Advantage as a choice, what insurance product would they have to go into the marketplace to buy?

Mr. COBURN. If they could afford it—and that is where a large number of Medicare Advantage people will be hurt; most of those people cannot afford to buy a supplemental policy. The fifth largest seller of insurance policies in the country happens to be AARP.

Mr. BURR. AARP, yes. So to eliminate Medicare Advantage is a tremendous financial windfall to AARP.

Mr. COBURN. For AARP.

Mr. BURR. That association supposedly looking out over the seniors in this country.

Mr. COBURN. We are fairly cynical, and we don't mean to be. We need to wrap up, if we can. There are two ways of fixing health care in this country. One is, we have the government running it—I make this point. Everybody agrees that in 2017 or 2019, Medicare will go belly up. Medicaid is already belly up. They are all in trouble. They are running deficits. The Census is broke. Social Security is going to be broke. The U.S. Post Office is absolutely broke. Cash for clunkers was broke before we started. The highway trust fund is \$18 billion in the red. And we are going to put another 16 percent of health care—76 percent instead of 60—in the hands of the government. Or we can utilize what we know works, which if you incentivize the management of chronic disease and incentivize prevention, incentivize transparency, and you create a way for people to have access, the Patients' Choice Act will insure 94 percent of Americans with a real insurance policy, not Medicaid or Indian health care.

By the way, Native Americans, listen up. Under our bill, if you are due health care, you get a card and you can go anywhere you want and it will be paid for. We need to do that for veterans, too.

The point is there is a choice. We can run a large government option or we can run a small government with 50 States, incentivizing them to do the right and best thing for their citizens,

where we will actually lower costs, increase access, and have better care, and we won't destroy the best health care system in the world.

I challenge my colleagues to come down here to the floor and debate me on that, because I guarantee you that in their families I can find somebody who was saved because they lived in this country and, had they not, they would not be alive. It is the best health care system in the world. Why should we destroy that as we try to fix what is wrong in health care in America today?

Mr. BURR. I ask my colleague to put that next chart up.

I ask unanimous consent for 5 additional minutes.

The PRESIDING OFFICER (Mrs. McCASKILL). Without objection, it is so ordered.

Mr. BURR. Madam President, this is self-explanatory, I think. Today we are borrowing 43 cents out of every dollar we spend; 43 cents of every dollar we spend in the Federal Government we are borrowing from somebody. You know, we talk about these unbelievable numbers in Washington—billions and trillions. The most popular bumper sticker out there is this: Don't tell Congress what comes after a trillion. Personally, I don't want to know, because I know if we get there, we are at the point of no return. Senator COBURN and I are close to the same age. We have kids just getting started raising families. We know what they are going to be faced with to raise their families, to make sure their children and grandchildren get educations, to make sure they go to college and have that opportunity, and make sure they have an opportunity after that for a place to work and an income. Do you know what is going to be the thing that dictates most of what they are faced with? It is right there on that chart. For every penny we borrow, it means we have an obligation to pay interest on that penny. Today interest is practically zero. We provide, as a Federal Government, money to banks they can lend out, and we charge them practically zero. That will not last forever. At some point, interest rates will go up.

Depending upon how much money we have borrowed, that will dictate how much we are obligated to pay in interest.

Mr. COBURN. Let me interrupt my colleague. Here is what the constellations show. Walk with me slowly. If you are 25 years of age or younger today in America—and we go out 20 years—that will be 45 and younger—that is 103 million Americans who will be in that group. Here is what they are each going to owe based on the unfunded liabilities of Medicare, Medicaid, and Social Security: 103 million Americans, 45 years and younger, will each owe \$1.119 million. That is what they will be responsible for. They will have to pay the average interest on

that, which will be about 6 percent. Before they ever pay the first bit of income taxes, they will have to cover that interest; otherwise, that will grow.

How does that fit a young family 20 years from now? We are talking about tax rates that allow no increased standard of living. As a matter of fact, they are rates that decrease the standard of living by 35 percent. That is the heritage we are creating and what we are going to expand with this health care bill the majority leader has brought to the floor. We are going to steal the future and the opportunity for those 25 years and younger today, because we cannot live and make the hard choices that are necessary, and we think the answer to every problem is more government, rather than more personal responsibility, competition, transparency in a market, and incentivizing people to do the right thing, rather than punishing them when they do the wrong thing.

Mr. BURR. The Senator is absolutely correct. What we can only hope to pass on to the next generation is an opportunity equal to what we have had. To strap them with this debt, to continue to go down this road and pile on the obligations, we will limit the next generation's opportunity. As you choke that opportunity for them, you will choke the fabric of this country in a way that the problems we are faced with today are minor in comparison to what they will deal with in the future.

As we sit here and debate the pluses and minuses of this health care legislation, I remind my colleagues, when you talk about \$2.5 trillion—and you probably never will save that money out of Medicare; you probably never will cut that doctors' reimbursement quite as much as in there—every time you don't do that, we are borrowing 43 cents of every dollar we spend. That is the obligation our children will inherit from us.

I am not willing to do that anymore. I want to make sure we are focused on the opportunity that is there for them. We can only do that if we do it in a responsible way, do the right thing as it relates to health care here.

Mr. COBURN. I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. PRYOR. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. PRYOR. Madam President, I ask unanimous consent that no amendments be in order to the pending amendments prior to the votes on Sunday, December 6.

The PRESIDING OFFICER. Without objection, it is so ordered.

## MORNING BUSINESS

Mr. PRYOR. Madam President, I ask unanimous consent that the Senate proceed to a period for the transaction of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

## AMERICAN HOSTAGES

Mr. FRANKEN. Madam President, I rise today to talk about Shane Bauer, Sarah Shourd, and Josh Fattal. These three young Americans have been in custody in Iran since July 31, 2009. That is more than 4 months.

Shane is from Minnesota, where his devoted mother, Cindy Hickey, still lives. I have been in constant and close touch with Cindy over the phone, and last month I was able to meet with all the families of the young hikers, and they have been back in Washington again this week. I have to say, they are a remarkable group of people who want nothing more than to be reunited with their children. On behalf of their families, I have come to the floor today to urge the Government of Iran to make a humanitarian gesture and release these young Americans so they can be together with their families again.

As many of you know, Josh, Sarah, and Shane were hiking near the Iraqi-Iranian border in a remote region that is famous for a beautiful waterfall when they were taken into custody by Iranian authorities. The Iranians have indicated that the Americans strayed across the border in this remote region. There can be no doubt that it was an accident. Four months later, Josh, Sarah, and Shane remain in prison in Iran.

The Iranian Government has allowed the Swiss Embassy, in its capacity as protection power for U.S. interests in Iran, to have consular access to them twice during the time they have been held. I hope this will continue, and continue more regularly.

The Swiss have been enormously helpful in working with us to resolve the situation to bring these Americans home. I have been assured by one of the Swiss that Josh, Sarah, and Shane were all in decent physical condition as of the last visit. But it is also clear the imprisonment is taking its toll on these young people.

The President of Iran has indicated that their case will be examined expeditiously and with compassion, which is encouraging. President Ahmedinejad first made that statement around the time the U.N. General Assembly met this past September.

These young American tourists find themselves in unfortunate circumstances. One thing is clear: These circumstances do and should have nothing to do with politics. I hope that Josh, Sarah, and Shane's situation can

be resolved on the same basis—as purely a human gesture by the Government of Iran. I understand that people on all sides tend to get caught in the middle of geopolitical events they have nothing to do with. That is a cycle that can and should be stopped. We do not want to perpetuate that cycle. Above all, I hope the Iranian Government will recognize that these Americans have committed nothing more than an innocent mistake and want nothing more than to be brought back together with their families. The Americans should be released.

In the meantime, I hope Josh, Sarah, and Shane will be able to speak with their families by phone immediately. That would be the first direct contact they have had since their detention over 4 months ago.

As we approach the holiday season and the end of the year, this is an especially important time for families to be together. That is not an American value or an Iranian value, it is a human value. It is my fervent hope that Josh, Sarah, and Shane will be brought back together with their families now. I urge the Government of Iran to make a humanitarian gesture and make that family reunion possible.

## ADDITIONAL COSPONSORS

S. 605

At the request of Mr. KAUFMAN, the name of the Senator from Utah (Mr. HATCH) was added as a cosponsor of S. 605, a bill to require the Securities and Exchange Commission to reinstate the uptick rule and effectively regulate abusive short selling activities.

S. 1857

At the request of Ms. STABENOW, the name of the Senator from Maryland (Ms. MIKULSKI) was added as a cosponsor of S. 1857, a bill to establish national centers of excellence for the treatment of depressive and bipolar disorders.

S. 2833

At the request of Mr. REED, the name of the Senator from Minnesota (Mr. FRANKEN) was added as a cosponsor of S. 2833, a bill to provide adjusted Federal medical assistance percentage rates during a transitional assistance period.

AMENDMENT NO. 2789

At the request of Mr. COBURN, the name of the Senator from Wisconsin (Mr. FEINGOLD) was added as a cosponsor of amendment No. 2789 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2871

At the request of Mr. BROWN, the name of the Senator from Maryland

(Mr. CARDIN) was added as a cosponsor of amendment No. 2871 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2882

At the request of Mr. JOHANNIS, the names of the Senator from Kansas (Mr. ROBERTS) and the Senator from Georgia (Mr. ISAKSON) were added as cosponsors of amendment No. 2882 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2884

At the request of Ms. STABENOW, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of amendment No. 2884 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2895

At the request of Mr. BROWN, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of amendment No. 2895 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2905

At the request of Mr. BAUCUS, the name of the Senator from West Virginia (Mr. ROCKEFELLER) was added as a cosponsor of amendment No. 2905 proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2921

At the request of Ms. STABENOW, the name of the Senator from Minnesota (Mr. FRANKEN) was added as a cosponsor of amendment No. 2921 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

## AMENDMENTS SUBMITTED AND PROPOSED

SA 2924. Mr. CASEY (for himself and Mr. SPECTER) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS,

Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table.

SA 2925. Ms. STABENOW submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2926. Mr. BAUCUS (for Mr. KERRY) proposed an amendment to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra.

SA 2927. Mr. ENSIGN (for himself and Mr. INHOFE) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra.

SA 2928. Mr. CASEY (for himself and Mr. KOHL) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2929. Mr. CASEY (for himself, Mr. DURBIN, and Mr. MENENDEZ) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2930. Ms. STABENOW submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2931. Mr. LAUTENBERG (for himself and Mr. WHITEHOUSE) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2932. Mr. LAUTENBERG submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2933. Mr. LAUTENBERG submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2934. Mr. INOUE (for himself and Mr. AKAKA) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2935. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 2923 submitted by Mr. DORGAN (for himself, Mr. WHITEHOUSE, Mr. UDALL of New Mexico, Mr. BEGICH, Mr. JOHNSON, Mr. FRANKEN, Ms. CANTWELL, Mr. UDALL of Colorado, Mr. TESTER, and Mr. INOUE) and intended to be proposed to the amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2936. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 2922 submitted by Mr. DORGAN and in-

tended to be proposed to the amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2937. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2938. Mrs. GILLIBRAND (for herself, Ms. STABENOW, Mr. BROWN, Mr. KERRY, Mr. MENENDEZ, Mr. SCHUMER, and Mr. LEVIN) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2939. Mr. PRYOR submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

#### TEXT OF AMENDMENTS

**SA 2924.** Mr. CASEY (for himself and Mr. SPECTER) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

#### **SEC. \_\_\_\_ . GRANTS FOR FUNDING OF NEWLY ACCREDITED MEDICAL SCHOOLS.**

(a) **IN GENERAL.**—The Secretary of Health and Human Services (in this section referred to as the “Secretary”) shall establish a program of grants to newly accredited allopathic and osteopathic medical schools for the purpose of increasing the supply of physicians.

(b) **USE OF GRANTS.**—Amounts provided under grants under this section may be used to support scholarships, develop residencies, build infrastructure, recruit and retain faculty, and develop research programs for the purpose described in subsection (a).

(c) **ALLOCATION.**—The Secretary shall allocate funds appropriated under this section among newly accredited medical schools based on the following criteria:

(1) First priority shall be given to allopathic and osteopathic medical schools accredited to admit students from 2009 through 2014.

(2) Medical schools that enroll larger classes, while maintaining competitive faculty to student ratios, shall receive increased funding based on their size.

(3) Funds shall only be allocated to medical schools that provide accountability and transparency in expending such funds.

(d) **REPORTS.**—Each medical school receiving a grant under this section shall submit to the Secretary such reports as the Secretary may require on the specific uses of the funds provided under the grant and on how the grant benefitted the region and the Nation as a whole.

(e) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to

carry out this section \$500,000,000 for the 5-fiscal-year period beginning with fiscal year 2010.

**SA 2925.** Ms. STABENOW submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place in title I, insert the following:

#### **SEC. \_\_\_\_ . STATE HEALTH ACCESS PROGRAM GRANTS.**

(a) **IN GENERAL.**—The Secretary of Health and Human Services (in this section referred to as the “Secretary”) shall award grants to States (as defined for purposes of title XIX of the Social Security Act) to establish programs to expand access to affordable health care coverage for the uninsured populations in that State in a manner consistent with reforms to take effect under this title (and the amendments made by this title) in 2014.

(b) **TYPES OF PROGRAMS.**—The types of programs for which grants are available under subsection (a) include the following:

(1) **STATE INSURANCE EXCHANGES.**—State insurance Exchanges that develop new, less expensive, portable benefit packages for small employers and part-time and seasonal workers.

(2) **COMMUNITY COVERAGE PROGRAM.**—Community coverage with shared responsibility between employers, governmental or non-profit entities, and the individual.

(3) **REINSURANCE PLAN PROGRAM.**—Reinsurance plans that subsidize a certain share of carrier losses within a certain risk corridor health insurance premium assistance.

(4) **TRANSPARENT MARKETPLACE PROGRAM.**—Transparent marketplace that provides an organized structure for the sale of insurance products such as a web-based exchange or portal.

(5) **AUTOMATED ENROLLMENT PROGRAM.**—Statewide or automated enrollment systems for public assistance programs.

(6) **INNOVATIVE STRATEGIES.**—Innovative strategies to insure low-income childless adults.

(7) **PURCHASING COLLABORATIVES.**—Business and consumer collaboratives that provides direct contract health care service purchasing options for group plan sponsors.

(c) **ELIGIBILITY AND ADMINISTRATION.**—

(1) **IMPLEMENTATION OF KEY STATUTORY OR REGULATORY CHANGES.**—To be eligible to receive a grant under this section for a program, a State shall demonstrate that—

(A) it has achieved the key State and local statutory or regulatory changes required to begin implementing the new program within 1 year after the initiation of funding under the grant; and

(B) it will be able to sustain the program without Federal funding after the end of the period of the grant.

(2) **INELIGIBILITY.**—A State that has developed a comprehensive health insurance access program prior to the date of enactment of this Act shall not be eligible for a grant under this section.

(3) **APPLICATION REQUIRED.**—No State shall receive a grant under this section unless the State has approved by the Secretary such an application, in such form and manner as the Secretary specifies.

(4) ADMINISTRATION BASED ON CURRENT PROGRAM.—The program under this section is intended to build on the State Health Access Program funded under the Omnibus Appropriations Act, 2009 (Public Law 111-8).

(d) FUNDING LIMITATIONS.—

(1) IN GENERAL.—A grant under this section shall—

(A) only be available for expenditures before 2014; and

(B) only be used to supplement, and not supplant, funds otherwise provided.

(2) MATCHING FUND REQUIREMENT.—

(A) IN GENERAL.—Subject to subparagraph (B), no grant may be awarded to a State under this section unless the State demonstrates the seriousness of its effort by matching at least 20 percent of the grant amount through non-Federal resources, which may be a combination of State, local, and private dollars from insurers, providers, and other private organizations.

(B) WAIVER.—The Secretary may waive the requirement of subparagraph (A) if the State demonstrates to the Secretary financial hardship in complying with such requirement.

(e) STUDY.—The Secretary shall review, study, and benchmark the progress and results of the programs funded under this section.

(f) REPORT.—Each State receiving a grant under this section shall submit to the Secretary a report on best practices and lessons learned through the grant to inform the health reform coverage expansions under this title beginning in 2014.

(g) FUNDING.—There are authorized to be appropriated such sums as may be necessary to carry out this section.

**SA 2926.** Mr. BAUCUS (for Mr. KERRY) proposed an amendment to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; as follows:

On page 869, between lines 14 and 15, insert the following:

**SEC. 3143. PROTECTING HOME HEALTH BENEFITS.**

Nothing in the provisions of, or amendments made by, this Act shall result in the reduction of guaranteed home health benefits under title XVIII of the Social Security Act.

**SA 2927.** Mr. ENSIGN (for himself and Mr. INHOFE) submitted an amendment to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; as follows:

At the appropriate place, insert the following:

**SEC. . LIMITATION ON AMOUNT OF ATTORNEY'S CONTINGENCY FEES.**

(a) IN GENERAL.—An attorney who represents, on a contingency fee basis, a plaintiff in a medical malpractice liability action

may not charge, demand, receive, or collect for services rendered in connection with such action (including the resolution of the claim that is the subject of the action under any alternative dispute resolution system) in excess of—

(1) 33½ percent of the first \$150,000 of the total amount recovered by judgment or settlement in such action; plus

(2) 25 percent of any amount recovered in excess of the first \$150,000 recovered by such judgment or settlement,

unless otherwise determined under State law. Such amount shall be computed after deductions are made for all the expenses associated with the claim other than those attributable to the normal operating expenses of the attorney.

(b) CALCULATION OF PERIODIC PAYMENTS.—In the event that a judgment or settlement includes periodic or future payments of damages, the amount recovered for purposes of calculating the limitation on the contingency fee under subsection (a) may, in the discretion of the court, be based on the cost of the annuity or trust established to make the payments. In any case in which an annuity or trust is not established to make such payments, such amount shall be based on the present value of the payments.

(c) DEFINITIONS.—In this section:

(1) CONTINGENCY FEE.—The term “contingency fee” means any fee for professional legal services which is, in whole or in part, contingent upon the recovery of any amount of damages, whether through judgment or settlement.

(2) HEALTH CARE PROFESSIONAL.—The term “health care professional” means any individual who provides health care services in a State and who is required by the laws or regulations of the State to be licensed or certified by the State to provide such services in the State.

(3) HEALTH CARE PROVIDER.—The term “health care provider” means any organization or institution that is engaged in the delivery of health care services in a State and that is required by the laws or regulations of the State to be licensed or certified by the State to engage in the delivery of such services in the State.

(4) MEDICAL MALPRACTICE LIABILITY ACTION.—The term “medical malpractice liability action” means a cause of action brought in State or Federal court against a health care provider or health care professional by which the plaintiff alleges a medical malpractice claim.

**SA 2928.** Mr. CASEY (for himself and Mr. KOHL) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1289, between lines 11 and 12, insert the following:

“(VII) Direct care workforce capacity at all levels.”.

**SA 2929.** Mr. CASEY (for himself, Mr. DURBIN, and Mr. MENENDEZ) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr.

REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; as follows:

At the appropriate place, insert the following:

**SEC. . NATIONAL TRAINING INITIATIVES ON AUTISM SPECTRUM DISORDERS.**

Title I of the Developmental Disabilities Assistance and Bill of Rights Act of 2000 (42 U.S.C. 15001 et seq.) is amended by adding at the end the following:

**“Subtitle F—National Training Initiative on Autism Spectrum Disorders**

**“SEC. 171. NATIONAL TRAINING INITIATIVE.**

“(a) GRANTS AND TECHNICAL ASSISTANCE.—

“(1) GRANTS.—

“(A) IN GENERAL.—The Secretary, in consultation with the Interagency Autism Coordinating Committee, shall award multiyear grants to eligible entities to provide individuals (including parents and health, allied health, vocational, and educational professionals) with interdisciplinary training, continuing education, technical assistance, and information for the purpose of improving services rendered to children and adults with autism, and their families, to address unmet needs related to autism.

“(B) ELIGIBLE ENTITY.—To be eligible to receive a grant under this subsection, an entity shall be—

“(i) a University Center for Excellence in Developmental Disabilities Education, Research, and Service; or

“(ii) a comparable interdisciplinary education, research, and service entity.

“(C) APPLICATION REQUIREMENTS.—An entity that desires to receive a grant for a program under this paragraph shall submit to the Secretary an application—

“(i) demonstrating that the entity has capacity to—

“(I) provide training and technical assistance in evidence-based practices to evaluate, and provide effective interventions, services, treatments, and supports to, children and adults with autism and their families;

“(II) include individuals with autism and their families as part of the program to ensure that an individual- and family-centered approach is used;

“(III) share and disseminate materials and practices that are developed for, and evaluated to be effective in, the provision of training and technical assistance; and

“(IV) provide training, technical assistance, interventions, services, treatments, and supports under this subsection statewide.

“(ii) providing assurances that the entity will—

“(I) provide trainees under this subsection with an appropriate balance of interdisciplinary academic and community-based experiences; and

“(II) provide to the Secretary, in the manner prescribed by the Secretary, data regarding the number of individuals who have benefited from, and outcomes of, the provision of training and technical assistance under this subsection;

“(iii) providing assurances that training, technical assistance, dissemination of information, and services under this subsection will be—

“(I) consistent with the goals of this Act, the Americans with Disabilities Act of 1990,

the Individuals with Disabilities Education Act, and the Elementary and Secondary Education Act of 1965; and

“(II) conducted in coordination with relevant State agencies, institutions of higher education, and service providers; and

“(iv) containing such other information and assurances as the Secretary may require.

“(D) USE OF FUNDS.—A grant received under this subsection shall be used to provide individuals (including parents and health, allied health, vocational, and educational professionals) with interdisciplinary training, continuing education, technical assistance, and information for the purpose of improving services rendered to children and adults with autism, and their families, to address unmet needs related to autism. Such training, education, assistance, and information shall include each of the following:

“(i) Training health, allied health, vocational, and educational professionals to identify, evaluate the needs of, and develop interventions, services, treatments, and supports for, children and adults with autism.

“(ii) Developing model services and supports that demonstrate evidence-based practices.

“(iii) Developing systems and products that allow for the interventions, services, treatments, and supports to be evaluated for fidelity of implementation.

“(iv) Working to expand the availability of evidence-based, lifelong interventions; educational, employment, and transition services; and community supports.

“(v) Providing statewide technical assistance in collaboration with relevant State agencies, institutions of higher education, autism advocacy groups, and community-based service providers.

“(vi) Working to develop comprehensive systems of supports and services for individuals with autism and their families, including seamless transitions between education and health systems across the lifespan.

“(vii) Promoting training, technical assistance, dissemination of information, supports, and services.

“(viii) Developing mechanisms to provide training and technical assistance, including for-credit courses, intensive summer institutes, continuing education programs, distance based programs, and Web-based information dissemination strategies.

“(ix) Promoting activities that support community-based family and individual services and enable individuals with autism and related developmental disabilities to fully participate in society and achieve good quality-of-life outcomes.

“(x) Collecting data on the outcomes of training and technical assistance programs to meet statewide needs for the expansion of services to children and adults with autism.

“(E) AMOUNT OF GRANTS.—The amount of a grant to any entity for a fiscal year under this section shall be not less than \$250,000.

“(2) TECHNICAL ASSISTANCE.—The Secretary shall reserve 2 percent of the amount appropriated to carry out this subsection for a fiscal year to make a grant to a national organization with demonstrated capacity for providing training and technical assistance to—

“(A) assist in national dissemination of specific information, including evidence-based best practices, from interdisciplinary training programs, and when appropriate, other entities whose findings would inform the work performed by entities awarded grants;

“(B) compile and disseminate strategies and materials that prove to be effective in

the provision of training and technical assistance so that the entire network can benefit from the models, materials, and practices developed in individual centers;

“(C) assist in the coordination of activities of grantees under this subsection;

“(D) develop a Web portal that will provide linkages to each of the individual training initiatives and provide access to training modules, promising training, and technical assistance practices and other materials developed by grantees;

“(E) serve as a research-based resource for Federal and State policymakers on information concerning the provision of training and technical assistance for the assessment, and provision of supports and services for, children and adults with autism;

“(F) convene experts from multiple interdisciplinary training programs, individuals with autism, and the families of such individuals to discuss and make recommendations with regard to training issues related to assessment, interventions, services, treatment, and supports for children and adults with autism; and

“(G) undertake any other functions that the Secretary determines to be appropriate.

“(3) AUTHORIZATION OF APPROPRIATIONS.—To carry out this subsection, there are authorized to be appropriated \$17,000,000 for fiscal year 2011 and such sums as may be necessary for fiscal years 2012 through 2015.

“(b) EXPANSION OF THE NUMBER OF UNIVERSITY CENTERS FOR EXCELLENCE IN DEVELOPMENTAL DISABILITIES EDUCATION, RESEARCH, AND SERVICE.—

“(1) GRANTS.—To provide for the establishment of up to 4 new University Centers for Excellence in Developmental Disabilities Education, Research, and Service, the Secretary shall award up to 4 grants to institutions of higher education.

“(2) APPLICABLE PROVISIONS.—Except for subsection (a)(3), the provisions of subsection (a) shall apply with respect to grants under this subsection to the same extent and in the same manner as such provisions apply with respect to grants under subsection (a).

“(3) PRIORITY.—In awarding grants under this subsection, the Secretary shall give priority to applicants that—

“(A) are minority institutions that have demonstrated capacity to meet the requirements of this section and provide services to individuals with autism and their families; or

“(B) are located in a State with one or more underserved populations.

“(4) AUTHORIZATION OF APPROPRIATIONS.—To carry out this subsection, there is authorized to be appropriated \$2,000,000 for each of fiscal years 2011 through 2015.

“(c) DEFINITIONS.—In this section:

“(1) The term ‘autism’ means an autism spectrum disorder or a related developmental disability.

“(2) The term ‘interventions’ means educational methods and positive behavioral support strategies designed to improve or ameliorate symptoms associated with autism.

“(3) The term ‘minority institution’ has the meaning given to such term in section 365 of the Higher Education Act of 1965.

“(4) The term ‘services’ means services to assist individuals with autism to live more independently in their communities.

“(5) The term ‘treatments’ means health services, including mental health services, designed to improve or ameliorate symptoms associated with autism.

“(6) The term ‘University Center for Excellence in Developmental Disabilities Edu-

cation, Research, and Service’ means a University Center for Excellence in Developmental Disabilities Education, Research, and Service that has been or is funded through subtitle D or subsection (b).”.

**SA 2930.** Ms. STABENOW submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 466, between lines 5 and 6, insert the following:

#### **SEC. 2305. THERAPEUTIC FOSTER CARE.**

(a) RULE OF CONSTRUCTION.—Nothing in this title or an amendment made by this title shall prevent or limit a State from covering therapeutic foster care for eligible children in out-of-home placements under section 1905(a) of the Social Security Act (42 U.S.C. 1396d(a)).

(b) THERAPEUTIC FOSTER CARE DEFINED.—For purposes of this section, the term “therapeutic foster care” means a foster care program that provides—

(1) to the child—

(A) structured daily activities that develop, improve, monitor, and reinforce age-appropriate social, communications, and behavioral skills;

(B) crisis intervention and crisis support services;

(C) medication monitoring;

(D) counseling; and

(E) case management services; and

(2) specialized training for the foster parent and consultation with the foster parent on the management of children with mental illnesses and related health and developmental conditions.

**SA 2931.** Mr. LAUTENBERG (for himself and Mr. WHITEHOUSE) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle G of title I, insert the following:

#### **SEC. 1563. DISCLOSURE OF INSURANCE COMPANY EXECUTIVE COMPENSATION.**

(a) MANDATORY DISCLOSURE OF EXECUTIVE COMPENSATION INFORMATION.—Each health care insurance company, including qualified health plans participating in an Exchange established under section 1311 and applicable plans or entities (as defined in section 1128J(f)(2) of the Social Security Act, as added by subsection (g)), shall annually disclose the compensation of the Chief Executive Officer of such health care insurance company for the previous year.

(b) STANDARDS.—The Secretary of the Treasury, in consultation with the Secretary

of Health and Human Services and the Chairman of the Securities and Exchange Commission, shall develop standards for disclosing the information described in subsection (a) in a manner determined to be understandable by the average health plan enrollee.

(c) **COMPENSATION DEFINED.**—In this section, the term “compensation” means wages, salary, fees, commissions, fringe benefits, deferred compensation, retirement contributions, options, bonuses, property, and any other form of remuneration, as the Secretary of the Treasury determines appropriate.

(d) **EFFECTIVE DATE.**—Beginning on April 1, 2010, each health care insurance company shall annually disclose the information as described in subsection (a) to—

(1) the Secretary of Health and Human Services, for inclusion of data in the internet portal to affordable coverage options established and operated under sections 1103 and 1311(c)(4);

(2) an applicant at the time of application;

(3) an enrollee at the time of enrollment;

(4) a policyholder or certificate holder at the time of issuance of the policy or delivery of the certificate.

(e) **ENFORCEMENT.**—A person that willfully fails to provide the information required under this section shall be subject to a fine of not more than \$1,000 for each such failure. Such failure with respect to each enrollee, applicant, policyholder, or certificate holder shall constitute a separate offense for purposes of this subsection.

(f) **AMENDMENT TO SECTION 1311.**—Section 1311(c)(1) is amended—

(1) in subparagraph (G), by striking “and” at the end; and

(2) by inserting after subparagraph (G) the following:

“(H) annually disclose the compensation of the Chief Executive Officer of the health care insurance company for the previous year, in accordance with the standards developed under section 1563(b); and”.

(g) **APPLICATION TO MEDICARE AND MEDICAID.**—Section 1128J of the Social Security Act, as added by section 6402, is amended by adding at the end the following new subsection:

“(f) **DISCLOSURE OF EXECUTIVE COMPENSATION BY CERTAIN PLANS AND OTHER ENTITIES.**—

“(1) **IN GENERAL.**—An applicable plan or entity shall annually disclose the compensation of the Chief Executive Officer of the applicable plan or entity for the previous year, in accordance with the standards developed under section 1563(b) of the Patient Protection and Affordable Care Act.

“(2) **APPLICABLE PLAN OR ENTITY.**—In this subsection, the term ‘applicable plan or entity’ means the following:

“(A) A Medicare Advantage plan under part C of title XVIII.

“(B) A prescription drug plan under part D of such title.

“(C) A Medicaid managed care organization (as defined in section 1903(m)(1)(A)).

“(D) Any health insurance issuer that contracts with a State to provide medical assistance under a State Medicaid program under title XIX or child health assistance under the State Children’s health insurance program under title XXI.

“(E) Any other plan or entity the Secretary determines appropriate.”.

**SA 2932.** Mr. LAUTENBERG submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr.

BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. —. DIABETES RESEARCH, EDUCATION, AND OTHER ACTIVITIES.**

(a) **CENTERS FOR DISEASE CONTROL AND PREVENTION.**—Part B of title III of the Public Health Service Act (42 U.S.C. 243 et seq.) is amended by inserting after section 317T the following section:

**“SEC. 317U. DIABETES IN MINORITY POPULATIONS.**

“(a) **DIABETES; HEALTH PROMOTION, PREVENTION ACTIVITIES, AND ACCESS.**—

“(1) **IN GENERAL.**—The Secretary, acting through the Director of the Centers for Disease Control and Prevention, shall carry out culturally appropriate diabetes health promotion and prevention programs for minority populations.

“(2) **CERTAIN ACTIVITIES.**—Activities regarding culturally appropriate diabetes health promotion and prevention programs for minority populations shall include the following:

“(A) Expanding the Diabetes Prevention and Control Program (currently existing in all the States and territories) and providing funds for education and community outreach on diabetes.

“(B) Providing funds to strengthen existing surveillance systems to improve the quality, accuracy, and timeliness of morbidity and mortality diabetes data for such populations.

“(b) **DEFINITION.**—For purposes of this section, the term ‘minority population’ means a racial and ethnic minority group, as defined in section 1707(g).

“(c) **AUTHORIZATION OF APPROPRIATIONS.**—For the purpose of carrying out this section, there are authorized to be appropriated such sums as are necessary for fiscal year 2010 and each subsequent fiscal year.”.

(b) **HEALTH RESOURCES AND SERVICES ADMINISTRATION.**—Part P of title III of the Public Health Service Act is amended—

(1) by redesignating the section 399R inserted by section 2 of Public Law 110-373 as section 399S;

(2) by redesignating the section 399R inserted by section 3 of Public Law 110-374 as section 399T; and

(3) by adding at the end the following new section:

**“SEC. 399U. PROGRAMS TO EDUCATE HEALTH PROVIDERS ON THE CAUSES AND EFFECTS OF DIABETES IN MINORITY POPULATIONS.**

“(a) **IN GENERAL.**—The Secretary, acting through the Director of the Health Resources and Services Administration, shall conduct and support programs described in subsection (b) to educate health professionals on the causes and effects of diabetes in minority populations.

“(b) **PROGRAMS.**—Programs described in this subsection, with respect to education on diabetes in minority populations, shall include the following:

“(1) Making grants for diabetes-focused education classes or training programs on cultural sensitivity and patient care within such populations for health care providers.

“(2) Providing funds to community health centers for programs that provide diabetes services and screenings.

“(3) Developing a diabetes focus within, and providing additional funds for, the National Health Service Corps Scholarship program to place individuals in areas that are disproportionately affected by diabetes and to provide health care services to such areas.”.

**SA 2933.** Mr. LAUTENBERG submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place in subtitle E of title I, insert the following:

**SEC. —. STUDY OF GEOGRAPHIC VARIATION IN APPLICATION OF FPL.**

(a) **IN GENERAL.**—The Secretary shall conduct a study to examine the feasibility and implication of adjusting the application of the Federal poverty level under this subtitle (and the amendments made by this subtitle) for different geographic areas so as to reflect the variations in cost-of-living among different areas within the United States. If the Secretary determines that an adjustment is feasible, the study should include a methodology to make such an adjustment. Not later than January 1, 2013, the Secretary shall submit to Congress a report on such study and shall include such recommendations as the Secretary determines appropriate.

(b) **INCLUSION OF TERRITORIES.**—

(1) **IN GENERAL.**—The Secretary shall ensure that the study under subsection (a) covers the territories of the United States and that special attention is paid to the disparity that exists among poverty levels and the cost of living in such territories and to the impact of such disparity on efforts to expand health coverage and ensure health care.

(2) **TERRITORIES DEFINED.**—In this subsection, the term “territories of the United States” includes the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, the Northern Mariana Islands, and any other territory or possession of the United States.

**SA 2934.** Mr. INOUE (for himself and Mr. AKAKA) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle A of title II, insert the following:

**SEC. 2008. 100 PERCENT FMAP FOR MEDICAL ASSISTANCE PROVIDED TO A NATIVE HAWAIIAN THROUGH A FEDERALLY QUALIFIED HEALTH CENTER OR A NATIVE HAWAIIAN HEALTH CARE SYSTEM UNDER THE MEDICAID PROGRAM.**

(a) **MEDICAID.**—The third sentence of section 1905(b) of the Social Security Act (42 U.S.C. 1396d(b)) is amended by inserting “, and with respect to medical assistance provided to a Native Hawaiian (as defined in section 12 of the Native Hawaiian Health Care Improvement Act) through a Federally

qualified health center or a Native Hawaiian health care system (as so defined) whether directly, by referral, or under contract or other arrangement between a Federally-qualified health center or a Native Hawaiian health care system and another health care provider" before the period.

(b) **EFFECTIVE DATE.**—The amendment made by this section applies to medical assistance provided on or after the date of enactment of this Act.

**SA 2935.** Mr. VITTER submitted an amendment intended to be proposed to amendment SA 2923 submitted by Mr. DORGAN (for himself, Mr. WHITEHOUSE, Mr. UDALL of New Mexico, Mr. BEGICH, Mr. JOHNSON, Mr. FRANKEN, Ms. CANTWELL, Mr. UDALL of Colorado, Mr. TESTER, and Mr. INOUE) and intended to be proposed to the amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 71 of the amendment, between lines 21 and 22, insert the following:

**SEC. 138. LIMIT RELATING TO ABORTION.**

Title II of the Indian Health Care Improvement Act (25 U.S.C. 1621 et seq.) is amended by adding at the end the following:

**"SEC. 227. LIMIT RELATING TO ABORTION.**

"(a) **DEFINITION OF HEALTH BENEFITS COVERAGE.**—In this section, the term 'health benefits coverage' means a health-related service or group of services provided pursuant to a contract, compact, grant, or other agreement.

"(b) **LIMITATION.**—

"(1) **IN GENERAL.**—Except as provided in paragraph (2), no funds or facilities of the Service may be used—

"(A) to provide any abortion; or

"(B) to provide, or pay any administrative cost of, any health benefits coverage that includes coverage of an abortion.

"(2) **EXCEPTIONS.**—The limitation described in paragraph (1) shall not apply in any case in which—

"(A) a pregnancy is the result of an act of rape, or an act of incest against a minor; or

"(B) the woman suffers from a physical disorder, physical injury, or physical illness that, as certified by a physician, would place the woman in danger of death unless an abortion is performed, including a life-endangering physical condition caused by or arising from the pregnancy itself."

**SA 2936.** Mr. VITTER submitted an amendment intended to be proposed to amendment SA 2922 submitted by Mr. DORGAN and intended to be proposed to the amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 4 of the amendment, strike line 5 and insert the following: "as the 'Buy Indian Act'".

**"SEC. 827. LIMIT RELATING TO ABORTION.**

"(a) **DEFINITION OF HEALTH BENEFITS COVERAGE.**—In this section, the term 'health

benefits coverage' means a health-related service or group of services provided pursuant to a contract, compact, grant, or other agreement.

"(b) **LIMITATION.**—

"(1) **IN GENERAL.**—Except as provided in paragraph (2), no funds or facilities of the Service may be used—

"(A) to provide any abortion; or

"(B) to provide, or pay any administrative cost of, any health benefits coverage that includes coverage of an abortion.

"(2) **EXCEPTIONS.**—The limitation described in paragraph (1) shall not apply in any case in which—

"(A) a pregnancy is the result of an act of rape, or an act of incest against a minor; or

"(B) the woman suffers from a physical disorder, physical injury, or physical illness that, as certified by a physician, would place the woman in danger of death unless an abortion is performed, including a life-endangering physical condition caused by or arising from the pregnancy itself."

**SA 2937.** Mr. VITTER submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1703, between lines 4 and 5, insert the following:

**SEC. 6303. RULE OF CONSTRUCTION.**

Nothing in the provisions of or amendments made by this subtitle shall be construed to allow any employee of the Federal government or any political appointee to dictate the manner in which a health care provider practices medicine.

**SA 2938.** Mrs. GILLIBRAND (for herself, Ms. STABENOW, Mr. BROWN, Mr. KERRY, Mr. MENENDEZ, Mr. SCHUMER, and Mr. LEVIN) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1996, between lines 3 and 4, insert the following:

**SEC. 9001A. INCREASED THRESHOLDS ON HIGH COST EMPLOYER-SPONSORED HEALTH COVERAGE SUBJECT TO EXCISE TAX.**

Section 4980I of the Internal Revenue Code of 1986, as added by section 9001(b), is amended—

(1) by striking "\$8,500" in subsection (b)(3)(C)(i)(I) and inserting "\$9,500", and

(2) by striking "\$23,000" in subsection (b)(3)(C)(i)(II) and inserting "\$25,000".

**SA 2939.** Mr. PRYOR submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain

other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 134, between lines 10 and 11, insert the following:

(4) **ENROLLEE SATISFACTION SYSTEM.**—The Secretary shall develop an enrollee satisfaction survey system that would evaluate the level of enrollee satisfaction with qualified health plans offered through an Exchange, for each such qualified health plan that had more than 500 enrollees in the previous year. The Exchange shall include enrollee satisfaction information in the information provided to individuals and employers through the Internet portal established under paragraph (5) in a manner that allows individuals to easily compare enrollee satisfaction levels between comparable plans.

**PRIVILEGES OF THE FLOOR**

Mr. COBURN. Mr. President, I ask unanimous consent that Josh Trent of my staff be granted the privilege of the floor for the duration of the debate on H.R. 3590.

The PRESIDING OFFICER. Without objection, it is so ordered.

**ORDERS FOR SUNDAY, DECEMBER 6, 2009**

Mr. PRYOR. Madam President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 12:30 p.m., Sunday, December 6; that following the prayer and the pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and the Senate resume consideration of H.R. 3590, the health care reform legislation, as provided for under the previous order, with the majority controlling the first 60 minutes and the Republicans controlling the next 60 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

**PROGRAM**

Mr. PRYOR. Madam President, Senators should expect at least two roll-call votes tomorrow to begin at approximately 3:15 p.m. The first two votes will be in relation to the Lincoln amendment No. 2905 regarding executive compensation, to be followed by a vote in relation to the Ensign amendment No. 2927 regarding attorneys fees. We are also working on the next amendments that will be offered, and we are hopeful we will be able to vote on those tomorrow after the 3:15 p.m. votes. Senators will be notified when any additional votes are scheduled.

**ADJOURNMENT UNTIL 12:30 P.M. TOMORROW**

Mr. PRYOR. Madam President, if there is no further business to come before the Senate, I ask unanimous consent that the Senate adjourn under the previous order.

There being no objection, the Senate, at 6:29 p.m., adjourned until Sunday, December 6, 2009, at 12:30 p.m.

## SENATE—Sunday, December 6, 2009

The Senate met at 12:30 p.m. and was called to order by the Honorable MARK BEGICH, a Senator from the State of Alaska.

### PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Eternal Lord God, the source of our strength, as we labor this weekend, we are grateful for Your keeping power. Lord, You sustain us and this land we love through dangers seen and unseen. Your faithfulness and mercy astound us, for throughout our Nation's history, Your loving providence has guided us through sunshine and storms.

Today, accompany our Senators in their work. May they feel Your presence, hear Your whisper, and follow Your leading. Remind them of the momentous nature of the work they seek to accomplish, as they remember that history will critique their labors. Help them also to take solace in the fact that they are ultimately accountable to You. We pray in Your great Name. Amen.

### PLEDGE OF ALLEGIANCE

The Honorable MARK BEGICH led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

### APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,  
PRESIDENT PRO TEMPORE,  
Washington, DC, December 6, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable MARK BEGICH, a Senator from the State of Alaska, to perform the duties of the Chair.

ROBERT C. BYRD,  
President pro tempore.

Mr. BEGICH thereupon assumed the chair as Acting President pro tempore.

### RECOGNITION OF THE ACTING MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The Senator from Illinois is recognized.

### SCHEDULE

Mr. DURBIN. Mr. President, following leader remarks, the Senate will resume consideration of H.R. 3590, the health care reform legislation. The time until 3:15 p.m. will be equally divided. The majority will control the first hour, the Republicans will control the next hour. The remaining time will be equally divided and controlled between the two leaders or their designees.

At 3:15 p.m., the Senate will proceed to vote in relation to the Lincoln amendment, No. 2905, related to executive compensation, to be followed by a vote in relation to the Ensign amendment, No. 2927, relating to attorney's fees.

We are working on the next amendments in order and hope to have them ready for votes this afternoon. Senators will be notified if additional votes are scheduled after the votes at 3:15 p.m.

### RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

### HEALTH CARE REFORM

Mr. MCCONNELL. Mr. President, first, I wish to extend a welcome to the President, who is coming to the Capitol today to meet with Democrats on the subject of the health care bill.

So far, they have voted to cut Medicare three times—cuts they previously described as immoral and irresponsible; cuts that made it impossible for the President to keep his pledge that people who like their plans can keep them; cuts that will reduce the quality of home health care; cuts that will reduce benefits for nearly 11 million American seniors on Medicare Advantage; cuts that raid Medicare instead of fixing it; and cuts the American people vehemently oppose.

Democrats are in a tough situation on this bill. They want to expand the government's reach into health care, but they do not have the money, and they don't have the support, more importantly, of the American people. So what did they do? They decided to take the money they need out of Medicare, and that has only made their health care plan even less popular with the American people.

The Gregg amendment, which we will vote on later this afternoon, will help reverse the damage of last week's

votes. The Gregg amendment says Democrats can't raid Medicare, which is already in serious trouble, in order to pay for their \$2.5 trillion bill. The money going out of Medicare's hospital insurance trust fund already exceeds its annual income. It is already drying up. By 2017, the hospital insurance trust fund will not be able to pay full benefits, and that is before our colleagues get their hands on it. This program needs to be fixed, not pillaged to create another one.

So the Gregg amendment prohibits using money from Medicare to pay for any new government programs, for expanding existing programs, or for subsidies. Instead, it directs that any money from Medicare be put back into Medicare to strengthen and preserve it for future generations so we can keep our promises. Frankly, this is common sense.

Americans don't want this bill to pass, and they certainly don't want it to pass at the expense of the roughly 40 million American seniors who depend on Medicare. The Gregg amendment would keep that from happening. A vote for the Gregg amendment is a vote to keep our promise to seniors.

We are also going to have a vote today on the Ensign amendment. The amendment is simple: It is designed to ensure that injured patients—not their lawyers—receive the vast majority of any settlement in a medical malpractice suit. It says that since lawsuits should benefit patients, not lawyers, lawyers can't take more than one-third of the recovery their clients receive. In other words, the lawyers can't take more than one-third of what the client gets.

These are responsible limits. Moreover, they were written by a Democrat and supported in the past by 21 of our current Democratic colleagues, as well as the Vice President, and they would drive down costs, which was the original purpose of reform.

The independent Congressional Budget Office has said comprehensive liability reforms would save the taxpayers more than \$50 billion. The Ensign amendment is a step in that direction.

We will offer a better, step-by-step reform to end junk lawsuits against doctors and hospitals later in the consideration of this bill. I am hopeful my Democratic colleagues will support it again, since so many of them have supported it in the past.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Illinois is recognized.

Mr. DURBIN. Mr. President, I ask unanimous consent to speak as in leader time.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### HEALTH CARE REFORM

Mr. DURBIN. Mr. President, Senator REID contacted me earlier today and said he was unable to be here for the opening of the session, and I told him I would be here to open.

I would like to say, briefly, in response to the comments that have been made by the minority leader, Senator MCCONNELL, who continues to raise the question about the future of Medicare, that I hope the Senator is sensitive to the fact that this last week, on December 3, we voted 100 to 0 for the amendment offered by Senator BENNET of Colorado, which said nothing in the amendments to this act shall result in the reduction of guaranteed benefits under the Social Security Act provisions related to Medicare; and we went on to say any savings would be used to extend the solvency of the Medicare trust fund, reduce Medicare premiums and other cost sharing for benefits and improve or expand guaranteed Medicare benefits and protect access to Medicare providers.

We voted 100 to 0, in a bipartisan fashion, to make certain we protect the Medicare Program. That is the way it should be, and that is the way the Senate voted.

#### RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

#### SERVICE MEMBERS HOME OWNERSHIP TAX ACT OF 2009

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will resume consideration of H.R. 3590, which the clerk will report.

The legislative clerk read as follows:

A bill (H.R. 3590) to amend the Internal Revenue Code of 1986 to modify the first-time home buyers credit in the cases of members of the Armed Forces and certain other Federal employees, and for other purposes.

Pending:

Reid amendment No. 2786, in the nature of a substitute.

Lincoln amendment No. 2905 (to amendment No. 2786), to modify the limit on excessive remuneration paid by certain health insurance providers to set the limit at the same level as the salary of the President of the United States.

Ensign amendment No. 2927 (to amendment No. 2786), relative to limitation on amount of attorney's contingency fees.

The ACTING PRESIDENT pro tempore. Under the previous order, the time until 3:15 p.m. will be for debate

with respect to amendment No. 2905, offered by the Senator from Arkansas, Mrs. LINCOLN; and amendment No. 2927, offered by the Senator from Nevada, Mr. ENSIGN, with the time equally divided and controlled, with Senators permitted to speak for up to 10 minutes, with the majority controlling the first 60 minutes and the Republicans controlling the next 60 minutes.

The Senator from Florida.

Mr. NELSON of Florida. Mr. President, I wish to speak on the bill and, in part, respond to the minority leader. At the end of the day, why are we staying around the clock discussing this bill with the intent that we are going to pass the bill? It is simply that we cannot continue as we are. We are in a system whereby insurance is not solving the Nation's health needs.

All you have to do is talk to a doctor. If they haven't already pulled their hair out, they are about to, in that when they want to give a certain treatment to a patient, they feel like they have to negotiate with the insurance company. In fact, the insurance company often is dictating to them what treatment and what drugs they can or cannot use or look at the simple little cases we hear about.

They are absolutely simple cases but end up with catastrophic results because someone is in the middle of a treatment for something and then they get a notice that their insurance company is going to cancel them or, perhaps, they have lost their job and they are desperately trying to get health insurance again and an insurance company uses, as an excuse, that they had a preexisting condition. It may be a flimsy excuse. I gave the example yesterday of a reason for denial being something as silly as a skin rash as a preexisting condition and so they can't get health insurance now on their own. We have a system that is out of control.

We hear a lot about cost out here. We hear a lot about cost. Indeed, if we don't do something about the cost of health care, none of our people are going to be able to afford it. Talk to corporate America and the CEOs and listen to them as they describe what the insurance companies are saying to them and how they are jacking up their rates on their employer-sponsored group policies. Please, pray that you are not an individual who can't get a group policy and you are having to go out there and try to find an individual policy because the likelihood is you are not going to be able to afford it.

So cost is a critical factor. It is a factor also to the Government because the U.S. Government cannot afford the cost of Medicare as it keeps exploding into the future. We have to bring these costs under control. When you mix that in with the horror stories that we hear of the 46 million people who don't have health insurance but who, when

they get sick, end up in the emergency room, we know they are getting that care at the most expensive place while the rest of us pay. That is a hidden tax.

On average, in this Nation, that hidden tax is \$1,000 per family's health insurance policy. I can tell you, in my State of Florida it is even higher. It is \$1,400. In Florida, a family with a group insurance policy is paying \$1,400 more per year to take care of those folks who do not have insurance but end up getting sick, and that bill is paid by everybody else.

What I have described is a system that is in tilt. It is not working. The whole purpose of this bill is to try to make it work so, No. 1, it is affordable; No. 2, that health insurance is available. At the end of the day, we are going to pass it. At the end of the day, poor old HARRY REID, our majority leader, is going to figure out a way to get 60 of us to come down here to shut off the filibuster so we can go to final passage and get it down to a conference committee in the House. At the end of the day, after that conference committee comes back, we are going to get those 60 votes again because this is so desperately needed, despite all the supposed arguments we hear from the other side.

Can this product be improved? Of course it can. I certainly wish to share, as I did in the Finance Committee, an amendment that would cause the pharmaceutical industry to come up with some more money.

They have made a pledge, to their credit. Let me just say that Billy Tauzin, the head of the pharmaceutical association, is smart. He knows what he is doing, and he is trying to play ball with the leadership and the White House. I want the pharmaceutical industry to know this Senator appreciates that because with everybody else, such as the insurance industry, trying to kill it dead than a doornail, at least they are helping. But the pharmaceutical industry said they were coming forth with \$80 billion over 10 years that they were going to contribute. The hospital industry said they were going to contribute about \$150 billion over 10 years, and so forth. But, in fact, the pharmaceutical industry is not contributing \$80 billion.

Here is a Morgan Stanley analysis for investors of pharmaceutical stocks. This is their analysis of what is going to happen to the pharmaceutical industry in the future. Morgan Stanley has said these guys are so smart, they are not contributing \$80 billion. They are contributing only \$22 billion. Why? Because when they say they are going to contribute discounts to allow half of this so-called doughnut hole to be filled, that means there is going to be a lot more drugs sold.

Oh, by the way, the bill takes Medicaid from 100 percent to 133 percent. That is going to mean a lot more drugs sold as a result of this bill.

So the real loss, or contribution, if you will, of the pharmaceutical industry is \$22 billion over 10 years, not \$80 billion. That does not even include—remember, they just raised their prices 9 percent, three times the rate of inflation. So they are going to make up a lot of that anyway.

What I want to plead with the leadership in the White House and the leadership of the pharmaceutical industry—come back to your \$80 billion real figure over 10 years. One way to get there is the amendment I offered in the Finance Committee that was rejected on a narrow vote of 13 to 10. Out here on the floor it is my intention to offer that amendment. I filed it. It would produce, according to the CBO, \$106 billion of taxpayer fund savings over 10 years because the discounts would have to be there for the Medicaid recipients who are entitled to discounts, but now, since they buy their drugs through Medicare, they can't get those discounts. That is because we changed the law 6 years ago in the prescription drug benefit. That is just simply not right.

I am not out here to try to punish anybody. I am out here to try to make this work and to get 60 votes so we can go to final passage. But everybody has to do their part. Everybody has to contribute for their part.

I look forward to the future discussions as we close in on what probably is going to end up being the final passage of this, probably a week or 8 days down the road.

The ACTING PRESIDENT pro tempore. The time of the Senator has expired.

The Senator from Pennsylvania is recognized.

Mr. SPECTER. Mr. President, the schedulers have allocated 15 minutes to me, so I ask unanimous consent at this time that I may speak for up to 15 minutes.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. SPECTER. Mr. President, I have sought recognition to speak in opposition to the Ensign amendment. The authoritative statement on attorney's fees has come from the National Association of Insurance Commissioners in a 2008 document entitled "Countrywide Summary of Medical Malpractice Insurance." These are authoritative figures on how much the defense lawyers have taken and how much the plaintiffs' lawyers have taken.

It shows that the plaintiffs' lawyers, on this state of the record, are underpaid—paid less than defense lawyers—hardly the cause for an amendment to lower attorney's fees even more for plaintiffs' lawyers.

These are the statistics by the National Association of Insurance Commissioners as to the attorney's fees. The attorney's fees for defendants were \$2.110 billion. The total recovery by

plaintiffs was \$4.09 billion. Calculating attorney's fees at one-third would mean that the attorney's fees were, for the plaintiffs' attorneys, \$1.340 billion, substantially under the \$2.110 billion for defense attorneys.

Attorneys who take on cases on a contingent fee do so because, unlike insurance companies which have the funds to retain lawyers on an hourly basis, most plaintiffs are unable to pay attorney's fees, do not have the capital to do so. The arrangement is worked out that the fee will be paid by a share of the recovery. If there is no recovery, there is no fee. Beyond the absence of the fee, the plaintiffs characteristically cannot afford the costs of litigation. When depositions are taken or filings are made or various other costs arise, it is up to the plaintiff's lawyer to pay those fees and those are not reimbursed.

An effort is being made now to have those deductions on an annual basis. The plaintiff's attorney cannot even take them in the year when they are paid. So if you see a situation where, in absolute dollars plaintiffs' lawyers on contingent fees are paid less than defense lawyers, and you have added to that the risk factor that the plaintiff's lawyers may get nothing, there should even be a greater compensation for plaintiffs' lawyers than defense lawyers. As these statistics show, it is less.

Most of my experience in the courtroom has been as a prosecuting attorney, but some experience—I worked for a big law firm, Barnes, Dechert, Price, Myers and Rhoads, representing the Pennsylvania railroads, defendants, representing insurance companies. In the firm practice in that kind of representation, there is frequently a senior lawyer, junior lawyer, associate, paralegal, and multiple tiers running up the costs.

Most plaintiffs' lawyers do not have large firms. Many are single practitioners. To postulate a situation where the fees be cut even further is just not reasonable or not realistic.

When the contention has been made—it was just made by the Republican leader, repeated earlier contentions—that there are Senators who voted in favor of the Kennedy bill on liability reform, it is not so as represented. First of all, Senator Kennedy's bill in 1995 was a much different bill. Second, it was a tabling motion. Those who voted against tabling were willing to consider the issue, not that they agreed with what was in the bill. Procedurally, when there is a motion to table, if it is passed the bill is off the floor. If a motion to table is defeated, then the bill remains on the floor for consideration. But it does not mean that people who want to consider the bill are in agreement the bill ought to be enacted.

The issue of attorney's fees and the issue of malpractice litigation ought to

be left to the States in our Federal system. Pennsylvania, my State, is illustrative of the way State governments can handle the issue and deal with it to avoid excesses. In Pennsylvania there was a rule change made to require that before a malpractice suit could be brought, there had to be a certification from a doctor that the case fell below applicable standards of care. A second major change was made which required that the medical malpractice action be brought only in the county where the cause of action took place. That was a move aimed at eliminating so-called venue shopping, to go to a venue where there is likely to be a better result.

As a consequence of these two rule changes, the number of filings in Pennsylvania dropped dramatically. With the comparison of the years 2000 to 2002, it was noted that the rates dropped by more than 37 percent in 2003, continued to decline in every succeeding year, and in 2008 had dropped 41.4 percent.

The improvement in the picture was further illustrated by the fact that the reforms resulted in the reduction of premiums on malpractice insurance. These reductions are in sharp contrast to 2002, when one leading carrier increased its rates an average of 40 percent and a second leading carrier increased its rates by 45 percent. Then the rates have been decreased consistently and in ensuing years.

Other indications in the success of Pennsylvania was the renewed interest of companies that want to sell medical malpractice insurance in Pennsylvania—57 newly licensed entities are now writing medical malpractice coverage since April, 2002. This is illustrative of the way the States can deal with this issue. It ought to be left to the States.

Interestingly, the Senator from Nevada, who has proposed this amendment, has filed legislation this year, S. 45, and in S. 45 he has a different approach. He allocates for some recoveries up to 40 percent. Why there is a difference now, cutting it back to 33 percent, and then down to 25 percent, is unexplained. But when an amendment of this sort is offered on a bill for comprehensive health care reform, it is not germane to the issues before the Senate. The standard of being germane means whether there is any provision in the bill now which relates to this matter.

Had this really been a serious effort to get legislation, the process or recourse to be followed would have been considerably different. The way to get legislation enacted is not merely to come before some bill and offer it without hearings before the committee of jurisdiction, without the consideration of witnesses. There have been no hearings on the amendment offered by the Senator from Nevada. Had there been

hearings we would have been in a position to make a determination as to what are the real facts.

Are the fees collected by plaintiffs' attorneys on a contingent basis excessive? What is the reality for the justification, in terms of the time it takes and the expenses involved? But no request was made, to my knowledge, for a hearing before the Judiciary Committee. I do know that no hearing was held. So we do not have a factual basis for making an evaluation of this amendment at this time.

It is my hope that we will move from this amendment and take up the issues which are in dispute. We need to eliminate and reject the false rumors which have been advanced. The contention has been made that there would be death panels as a result of this bill. That has been thoroughly debunked. There has been a context that there would be cuts in Medicare. We argued an amendment a few days ago on the contention that there would be very substantial cuts in Medicare. The AARP opposed that amendment because it was fallacious. It was untrue. AARP is an outstanding guardian of the interests and rights of senior citizens, and AARP opposed that amendment.

The contention has been made that there will be a government takeover of medical care which has also been disputed and pretty well disproved. When the government option is offered, it is just that. I believe America would be well served by having a robust public option. But the option is nothing more or less than what it says. It is one alternative. Private insurers would still be in the picture.

There have been repeated contentions that there will be an increase in the deficit. President Obama is pledged not to sign a bill which will add to the deficit. I am pledged not to vote for a bill which will add to the deficit. When you take a look at what this bill will accomplish, there are very substantial savings in the current cost of medical care, which is \$2.4 trillion. I will be specific in what they are. With annual examinations available and incentives for people to take annual examinations, they will be catching what could turn out to be chronic ailments, very disabling, very expensive. Catching a problem with a cardiac issue, with a heart problem, or catching breast cancer at an early stage or catching Hodgkin's at an early stage—I speak with some experience about this issue—will cut down medical expenses tremendously. When there are advance directives, there will also be additional savings. This bill provides for counseling for people who want to know about advance directives. No one should tell anyone else what they ought to do about end-of-life medical care, but it is fair to say consider it, make a decision, have a living will, do not leave it to the

last minute when someone is rushed to the hospital and the burden then falls on family members. Estimates range as high as 27 percent of Medicare costs in the last few days, few weeks of a person's life.

There are also very substantial savings available for changes in lifestyle. Safeway has demonstrated lower insurance premiums for people who stop smoking, lower insurance premiums for people who have lower cholesterol. That is another major area of savings.

An additional area of savings would be to change the current approach of having fines imposed for Medicare.

I ask unanimous consent for 30 additional seconds.

The PRESIDING OFFICER (Mr. BINGAMAN). Without objection, it is so ordered.

Mr. SPECTER. Currently the criminal justice system results most of the time in fines for health care fraud. That is totally ineffective. But if there were jail sentences imposed, that would be a deterrent to others, something I learned years ago as a prosecuting attorney. We can also come to terms on the abortion issue, allowing women to pay for abortion coverage in their medical care. There is no reason they should be denied in maintaining the principles of the Hyde amendment with no federal payment for abortion services.

I thank the Chair and yield the floor.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. DURBIN. Mr. President, I thank the Senator from the Commonwealth of Pennsylvania for his opening remarks. He has addressed an issue relative to a pending amendment offered by the Senator from Nevada. He makes note of a very critical flaw in this amendment. The Senator from Nevada is restricting the ability of the victims of medical malpractice to go to court to recover by restricting the attorney's fees that can be paid, contingency fees, because people usually don't have enough money to buy an attorney. The attorney takes the case and says: If you win, then I get paid. If you lose, I don't get paid. Contingent fee basis.

The Senator from Nevada is restricting the ability of these attorneys to represent plaintiffs, victims, on a contingency fee basis, but does not restrict the defense attorneys and the amount they are paid. As the Senator from Pennsylvania noted, the record is clear, the amount of money being paid to defense attorneys in medical malpractice cases is 50 percent higher on an annualized basis than that paid to those representing victims.

I won't question the motive of the Senator from Nevada, but the effect of his amendment is to reduce the likelihood that an injured victim will be able to go to court and be represented by an attorney to make their claim. Our system of justice has a courtroom

and jury and a judge there to make that final decision. What the Senator from Nevada does is preclude and reduce the possibility that victims can recover. How many people die each year in America from medical malpractice? The Institute of Medicine told us 10 years ago the number was 98,000 people a year. Many more are injured because of medical malpractice. How many lawsuits, claims are successfully filed each year in America for medical malpractice, for injuries and deaths? About 11,000. A very small percentage of the actual victims of malpractice go to court. It doesn't happen. Those who try to go to court are usually not rich people so they do it on a contingency fee. What the Senator from Nevada is trying to do, unfortunately, is to close the courthouse door to favor the defense of a malpractice case over the victim. That, to me, is unfortunate, and I hope we are successful in defeating it. For those who are following the proceedings of the Senate today, either in person or through C-SPAN, it is an unusual—not unprecedented but unusual—meeting on Sunday. But it is appropriate that we would do something extraordinary when you consider the matter at hand. This 2,000-page bill is the health care reform bill that has been in the works now for a year. It has been considered by three committees in the House and two in the Senate. The Presiding Officer from New Mexico has the dubious distinction of having been privy to all of the Senate committee proceedings and some extraneous proceedings. He has probably been subjected to more debate on this issue than any other Member.

A lot of hard work has gone into this bill. Some critics say it is too long. There are too many pages. When you consider that we are tackling our health care system, which comprises one-sixth of our gross domestic product—\$1 out of every \$6 spent in America—it is understandable that we would need to work carefully and try in a comprehensive way to address all the issues.

So what does this bill do? First, it is historic in that it moves us toward 94 percent of the American people having health insurance. Today about 50 million people don't have health insurance. That is not counting the people with bad health insurance. These are people who have no health insurance. Some have lost jobs, some worked for businesses that can't afford insurance, and some can't afford to buy it themselves, 50 million of them. Thirty million are going to move toward coverage in this bill. It will be the largest percentage of Americans with the security of health insurance protection in our Nation's history. That is what this bill does.

Secondly, this bill makes health insurance premiums more affordable. For

over 80 percent—some say over 90 percent—of the people in America, they will see either a reduction in premium or a slowdown in the rate of growth in health insurance premiums. That is something that is absolutely essential because health insurance premiums are breaking the bank. Ten years ago, the average health insurance plan for a family of four cost \$6,000 a year. That is a lot of money, \$500 a month. That was 10 years ago. Now it has doubled. The average is \$12,000 a year, \$1,000 a month for a family of four for health insurance coverage. That is the average, to work and earn \$1,000 a month strictly for health insurance. What is the projection in 8 years? That it will double again to \$24,000, that you will be working and earning \$2,000 a month just to pay for health insurance. That is unaffordable for so many people. That is why that is one of the highest priorities in this bill.

The third thing this bill does is to give people across America a fighting chance against the health insurance companies. These private insurance companies are some of the wealthiest companies in America and pay the highest amounts to their CEOs each and every year. What we are trying to do is to make sure they don't turn down people when they need help the most. Too many of these insurance companies, as has been noted many times, raise the issue of preexisting conditions and say: We are not going to cover that particular surgery or that particular drug because you had a pre-existing condition you didn't disclose. They game the system against the person who is sick. That is going to change. This bill will provide for coverage despite preexisting conditions, and we won't allow the insurance companies to assert a limit, a lifetime limit on what they can pay.

You know what happens. You get seriously ill, and they cut you off. What is happening today is that two out of three people who file for bankruptcy in America do so because of medical bills, bills they can't pay. That tells us that the number of people facing this threat is huge. But even worse is the fact that some 74 percent of those filing bankruptcy already have health insurance. It turns out the health insurance was not worth much when they needed it.

The last thing this bill does—and one of the most important things—is it doesn't add to the deficit. President Obama told us to do this job but don't make the deficit worse. The Congressional Budget Office, which is the referee and umpire when it comes to the cost of bills, came back and said our bill will actually reduce the Federal deficit by \$130 billion over the first 10 years and \$650 billion over the next 10. Bringing down the cost of health care brings down the cost of government health programs. It saves us money, saving families and businesses money,

saving the government money. It is the largest deficit reduction bill ever considered by Congress. It is before us now.

It is no surprise—we heard this morning from the Republican Senate leader, and we have heard before—that there are those who are arguing this is a dangerous bill and this bill should not be passed. I asked my staff to do a little bit of work on previous debates right here on the floor of the Senate and what was said.

In 1934, when Congress was considering the Social Security Program, which gave everybody a basic retirement plan, an insurance plan for retirement, even after the Social Security bill came to the Senate floor, not including health insurance, a Republican Senator from Delaware, Daniel Hastings, said on the floor about Social Security:

I fear it may end the progress of a great country.

A Congressman from the State of New York, James Wadsworth, in the same debate over Social Security, said that the passage of Social Security:

... opens the door and invites the entrance into the political field of a power so vast, so powerful as to threaten the integrity of our institutions and to pull the pillars of the temple down upon the heads of our descendants.

We know that when former Senator from Ohio Robert Taft was addressing the effort by President Harry Truman to have universal health care in America, he said:

I consider it socialism.

It was used against Lyndon Johnson. That same charge was used against Bill Clinton. It is virtually being used today. When we hear the Republicans who are opposing this bill come to the floor, I have a basic question to ask them. We have been at this debate for a year. Where is your bill? What do you want to do?

Oh, they tell us: We have some bills, and you are going to see them any day now. Well, I would like to. I would like to see the comprehensive health reform bill from the Republican side of the aisle. This is ours, and it has been on the Internet for 2 weeks for everybody in this Nation to read word by word, line by line. Sadly, there is no Republican bill.

I know there are two possible reasons for that. This was hard work. This was not easy politically or otherwise and they have not engaged in that hard work. What we have seen are press releases and speeches, graphs and pictures, but no bill, no comprehensive health care reform bill from the Republican side. Secondly, there are many on that side of the aisle who like this system of health care. They agree with the health insurance companies: Let's keep it the way it is.

But Americans know better. We are going to work today in the Senate on

this bill, as we should. While we are working today, 14,000 Americans are going to lose their health insurance. Mr. President, 14,000 Americans lost their health insurance yesterday, and 14,000 will lose it tomorrow, and every single day of the year. That is how many people, despite their best efforts, lose their coverage.

We have to stop that. It is time for us to provide the kind of peace of mind that every single family deserves in America when it comes to quality and affordable health care.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Pennsylvania is recognized.

AMENDMENT NO. 2927

Mr. CASEY. Mr. President, I rise this afternoon to speak about one of the amendments we are going to be voting on later today. As we stand here today, we are debating the bill on the floor, the health care bill, where we are trying to do a couple things at one time, and I think we can, and I think this bill does it, even though we will make some changes to it.

We are trying to improve the quality of care for Americans, whether they get their health care through a public program or through a private insurance company or a private plan. We are trying to finally use preventive measures to make people healthier and have better health outcomes.

We are also working to reduce costs. If you want to talk about it in terms of a doctor and a patient or a health care system and an American, who should benefit from the health care system, we basically want to have people get the care they need from the doctor they choose.

What we are engaged in now is a debate about an amendment which the other side says is about the fees going to trial lawyers. That is the way they like to talk about it, and I know that is popular. When the other side makes an amendment such as this, they like to have a target, so their target is trial lawyers. But, unfortunately, for this debate, I think it is misleading because this amendment, which I would urge people to vote against, is not about lawyers. It is about victims and whether we are going to ensure that victims have a shot, a fair chance, when they have a claim for medical negligence when they have been injured as a result of negligent conduct.

I said before, we are debating the health care bill and we are talking about costs. This amendment will do nothing to lower costs. What it will do is not lower anyone's costs. What it will do is increase the cost or the burden a claimant has to bear when they have a claim against any kind of hospital or doctor in the case of a medical negligence case. So the question is, are we going to enable people who do not have the means to bring cases versus very powerful interests? That is one of

the basic questions we will answer with regard to this amendment.

I would hope if a member of my family or any family—and I think this is true of everyone in this Chamber—if a member of your family, as a result of medical negligence, had to bring a claim, you would hope that individual could walk into a courtroom or file a claim with someone who has the skill and the ability to be their advocate. Because I will tell you one thing, they are going to be up against a very powerful interest: insurance companies that write medical liability policies, an incredibly powerful interest.

A lot of us come at this question through our own personal experience, through the experiences of our families. I had a grandfather who I never met, my father's father, Alphonsus Casey. He, like a lot of people in northeastern Pennsylvania, as a young kid, went into the coal mines at a very young age. He worked as a mule boy. One of the days he was tending to the mules in that mine, just as a kid, 11 or 12 years old at the time, he was kicked by a mule. He got a scar that started above his eyebrow and went across his face, split his lip, and went down through one side of his chin. So he understood injury as a child, injury in the course of working. I think he also understood that when he became a lawyer, many years later, well into his adulthood. He understood what it is like to suffer an injury and to make a claim for an injury. But what he did is represent injured workers. That was his law practice. I wonder what he would say if he were here talking about what happens to victims when they have an injury they want redress for.

Like on so many other things in this debate, I think the other side of the aisle is carrying water for the insurance companies. Just my opinion, but I think that is the case. Yet in the case of medical negligence and what happens in the real world, we know that 98,000 deaths a year are from preventable medical errors. Let me say that again. We know there are 98,000 deaths in America a year, according to the Institute of Medicine, from preventable medical errors.

So what this amendment does is deny patients the attorney of their choice. It further restricts access to the courts. It drives up costs for victims. When we talk about bringing a case and the barriers to doing that, that is not some future result of this amendment. Oh, I think this amendment will make that problem a lot worse. But right now—no matter what happens in this debate, no matter what happens on the vote on this amendment—there are barriers right now for people to bring a lawsuit. It costs, in many cases, thousands, if not tens of thousands, to bring a case. And then to see a case all the way through costs a lot more than that.

What are we talking about here? We are talking about allowing someone

who has a claim for a serious injury to go see a lawyer and to sit down with that lawyer and enter into an agreement for the fee, whatever that fee will be, whatever that will be. If that lawyer and that person, that patient or victim, goes forward with the case, they bear a risk. The victim bears a risk that they will not be successful and that at the end of that they will have no recovery at all.

But because of the way the contingent fee works, the lawyer bears a risk as well that he or she will not be paid, and they also stand a risk of having to pay for costs the victim cannot pay—and the lawyer will bear those costs throughout the pursuit of that case.

So here is what we are talking about. This is basically a debate about victims and whether they are going to have the kind of representation they need. If I were going in to have surgery in a hospital, I would hope the surgeon would be someone of the best, the highest skill possible. I would want the best surgeon, as I take on that battle. Anyone would.

I would hope we would not do something in the debate to reduce the chances that a victim of medical negligence could go into a courtroom or file a claim with the best, most highly skilled lawyer they can find. I would hope we would not want to do anything that would injure that basic right.

It is interesting that this amendment applies only to patients—it does not apply to anyone else—patients who would become victims of medical negligence.

In conclusion, in terms of what happens in our States, States regulate the conduct of lawyers. They do it all the time. But we also have evidence from the States about what happens in these kinds of cases. In Pennsylvania, for example, in most counties, as to cases going to trial because of medical malpractice claims—those kinds of lawsuits—in most counties in Pennsylvania, 90 percent of those cases are won by the defense, won by the insurance company. That is the evidence in Pennsylvania.

I know we have others who are ready to speak on this and other amendments. But I think we should make it very clear. On this amendment, this is a debate about two parties: victims of medical negligence versus insurance companies. It is time to choose up which side you stand on. Unfortunately, this amendment is very clearly drafted and intended to help insurance companies, not victims of medical negligence.

I yield the floor.

I suggest the absence of a quorum.

I withhold that suggestion.

The PRESIDING OFFICER. The Senator from Montana is recognized.

Mr. BAUCUS. Mr. President, for the benefit of all Senators, I want to take a moment to review today's program.

This is the seventh day of debate on the health care reform bill. It has been nearly 2½ weeks since the majority leader moved to proceed to this bill. We have now considered 14 amendments, and we have conducted 10 roll calls.

Between now and 3:15 this afternoon, the Senate will continue to debate the amendment by the Senator from Arkansas, Mrs. LINCOLN, on insurance company executive compensation and, at the same time, we will debate the amendment by Senator ENSIGN limiting attorney's fees. The majority controls the first 60 minutes, and the Republicans will control the next 60 minutes. At 3:15 p.m., the Senate will conduct back-to-back votes on or in relation to the Lincoln amendment and the Ensign amendment.

Thereafter, we expect to turn to another Democratic first-degree amendment and another Republican first-degree amendment. That is the lineup at this time. It is possible the Senate may vote on those next two amendments today. As a result, additional votes are possible following the two votes at 3:15.

Once again, I thank all Senators for their cooperation and courtesy on this extraordinary weekend session.

Mr. President, I suggest that Senator HARKIN be next recognized for 7 minutes.

The PRESIDING OFFICER. The Senator from Iowa is recognized.

Mr. HARKIN. Mr. President, I will have more to say about this later. But there has been so much talk about fear, fear, fear. Everybody has a fear. Let's get away from that. It is time to quit talking about fear. Let's talk about hope. Let's talk about the realities of what is affecting people out there, what we are trying to do to make their lives better. Why do we always want to inject fear into people? Let's talk about hope. Let's talk about real people and what this bill does.

As shown in this picture, this is Sarah Posekany of Cedar Falls, IA. Let me tell you her story. It is incredible. She was diagnosed with Crohn's disease when she was 15 years old. During her first year in college, she ran into complications from the disease and had to drop classes. Because she was no longer a full-time student, her parents' private health insurance company terminated her coverage. Then the medical bills piled up. Four years later, she found herself \$180,000 in debt, and was forced to file for bankruptcy.

Sarah has undergone seven surgeries—seven. Here is what is disturbing. Two of those came as a direct result of not being able to afford medication. So again, it is an incredible story, but it is a true story.

So many people have to go through this. Our bill says: Look, you can stay on your parents' coverage until you are age 26, and—guess what—no pre-existing conditions will apply to you

from here on out. Think about Sarah when we are talking about this bill and the hope she needs—and so many like her—that we are going to change this system to make her life better.

Second, this is a picture of Tasha Hudson of Des Moines, IA. She is a single mother, with three kids. She had a job which provided health insurance, but she took a new job that paid her more, 50 percent more. You would think: Isn't that the American way? You learn, you get better, you get a better paying job. The problem is, the private sector job did not come with health insurance. Despite the higher pay, she could not afford the coverage.

Ironically, her higher pay led to cuts in her Medicaid benefits and the loss of childcare services. As a result, Tasha is now in the process of returning to a lower paying job, despite its limited opportunities, for one reason: because it will provide health insurance for her family. These are real people. These are the people to whom we need to give hope.

Here is one last one. Eleanor Pierce lives in Cedar Falls, IA. She lost her job when her company was eliminated. She had the option of purchasing COBRA, but she couldn't afford it. So she searched for coverage, but because of high blood pressure—preexisting condition—she was denied access. So age 62, suffering from high blood pressure, she had no choice but to go without insurance.

That is why we need this bill. Not for fear—let's quit talking about fear. Let's talk about hope for the people I just talked about, the hope that their lives will be better, that they will get the insurance coverage they need, that they will be able to get on with their lives and not have to go so far in debt that they have to go into bankruptcy.

If you are a 62-year-old woman with a serious heart condition such as the one Eleanor has, high blood pressure, you just don't have a prayer, you are on your own, and the odds of premature death are disturbingly high. We can and must do better. That is what we ought to be talking about: hope for the future, not fear.

Mr. President, I yield the floor.

Mr. BAUCUS. Mr. President, I yield to the Senator from Connecticut all the remaining time, and if he wants to speak for a little longer, I know we can make some accommodations with the other side.

Mr. DODD. How much time remains?

The PRESIDING OFFICER. Eight minutes is remaining.

Mr. DODD. I thank my colleagues.

Mr. President, some of these numbers get thrown around so much that it is almost dizzying. I wonder how the average person, even someone who is intently listening to these debates, can sort it all out: 47 million who have no coverage; 14,000 people every single day in our country who lose health care

coverage either because they are thrown into personal bankruptcy or because of medical costs or job loss around the country—14,000 a day, every day, 7 days a week. Just do the math. For 7 or 8 days, we have been debating this legislation. You can run the numbers yourself to determine over that period of time how many citizens across the country have found themselves in that free fall, that dreaded fear that a child or a loved one may end up needing care. It is not as though you can postpone the decision to some later time, as you can about whether to take a vacation or to buy that new car or maybe to spend more than you thought you would over the holidays coming up. If you now have a medical emergency and you are one of those 14,000 a day who have lost coverage, what do you do? So sometimes the sheer magnitude of these numbers can cause us to lose sight of the individual stories, anecdotes that are not exclusive or isolated but commonplace stories that are happening as we speak here on this Sunday, on a rare Sunday session in the Senate because of the importance of this issue.

So I rise today to share a few stories from my own State that I think put a face on these issues and why we are here. Let me start by asking some questions because I think too often when we debate these issues, sometimes we are so removed as Members of this body, from what goes on in the daily lives of the people we represent that we fail to appreciate what is happening right outside these doors from this very Chamber on a daily and an hourly occasion. The 535 of us who have the privilege of serving in the Congress, including Members of the other body, none of us here are worrying about losing our health care. Not a single Member here ever spent a nanosecond worrying about whether they are going to be dropped from their health care coverage—not one.

Is there anybody among the 535 of us who ever worries about whether we will be able to afford health care insurance? I don't know of anyone who ever worries about that, of the 535 who are here.

Has anyone ever been up late at night with a child or a loved one, wondering whether they are going to be able to afford the treatment that child may need, or that loved one? I would go so far as to say I don't think that happens here. God forbid if we are confronted with a child or a loved one who needs that care. We may worry about that, but we are not going to worry about whether the insurance will be there or whether we will have the ability to pay for it. Not one of us ever worries about that.

Has anybody ever spent hours being bounced from voice mail to voice mail to voice mail trying to find out why the insurance company you pay thousands of dollars to every year suddenly

refuses to pay for your spouse's cancer treatments? Has that ever happened to anyone here? I doubt it. I sincerely doubt it.

Is there anyone stuck in a job that pays very little because you can't afford to change jobs because you have a preexisting condition and you know if you go to that new job that may pay more, you are going to find yourself without the insurance coverage to take care of that preexisting condition? No one here worries about being in that particular predicament.

Has anyone been driven into bankruptcy, any Members of Congress, because they had a medical crisis? We now know that 62 percent of all bankruptcies this year alone are medical crisis related, and 70 percent of that 62 percent have health care insurance—70 percent of that 62 percent.

Is anybody here a small business owner who has had to choose between cutting coverage or putting your employees out of work?

Well, the answer to all of these questions obviously is a resounding no. None of us have ever had to grapple with what 14,000 people do in this country every day: losing their coverage, or the underinsured who discover all of a sudden that the coverage they thought they had doesn't quite cover the problems, or the out-of-pocket expenses you have to pay before getting to insurance are so high that you can't possibly meet them. That goes on every minute of every day all across our Nation, and it is why we are here on this Sunday in December, to try to finally see if we cannot come to terms and start moving on a coverage program, a health care and health insurance coverage program that makes it possible for all of our fellow citizens to be in the same position we are.

None of us are immune from health care crises. Every one of us here has grappled with that at one time or another. The difference is, we don't ever worry about the ability to pay for it, losing our coverage, having to go through what every other citizen does every single day.

These are real people who go through this. We can get so lost in the weeds on this debate. I am not suggesting the details are unimportant—they are important—but we are losing sight of the whole; that is, for 80 years every single Congress, whether it has been controlled by Republicans or Democrats, whether a Democrat or Republican has been in the White House, has been unable to even come close to solving this problem.

We are now that close—closer than we have ever been in our history—to coming up with a health care system that can begin to take care of that basic right every American ought to have—and it is a right—that if you are a citizen of the United States and you get sick, you ought not to be shoved

into bankruptcy, lose your job, or have your family suffer because of your economic circumstances. The privilege of getting good health care ought not to be based on wealth; it ought to be based on the fact that we live in the United States of America and we are able to take care of our fellow citizens when they reach those difficult times every one of us will at one point or another.

There are stories, and I know my colleagues have them as well.

A young woman in Connecticut, Maria, diagnosed with non-Hodgkins lymphoma, asked her insurance company to cover her treatments. The insurance company found out that Maria had once gone to a doctor for what she thought was a pinched nerve. Even though no tests had been done for cancer, they denied her claim based on a preexisting condition. How many have heard these stories? She passed away, by the way, from that illness.

A young man named Frank disclosed on his insurance application that he sometimes got headaches. Some months after he got his policy, he went in for a routine eye exam. The doctor saw something he didn't like and sent him to a neurologist, who told him that he had multiple sclerosis. The insurance company told him he should have known his occasional headaches were a sign of MS and took away his coverage retroactively. Frank's doctor wrote them a letter saying there was no way anyone could have known that an ordinary headache was related to multiple sclerosis. But the insurance left Frank out to dry, sticking him with a \$30,000 medical bill he couldn't afford. Frank's condition got worse. He had to leave his job and go on public assistance.

Kevin Galvin is a small business owner in my State. I have met with Kevin a number of times, and we have talked over the last year or so during my Connecticut Prescriptions for Change listening tour. Kevin owns a small business, a maintenance company. He employs seven people, some older, some younger. He can't afford to insure them. He would like to, but he can't afford it. His younger employees use the emergency room as their regular doctor. If one of them has a child with an ear infection—

The PRESIDING OFFICER. The majority time has expired.

Mr. DODD. I ask unanimous consent for 1 additional minute, I ask my colleagues.

Mr. BAUCUS. I ask unanimous consent for 1 additional minute.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. DODD. I thank my colleagues.

Kevin has three employees in their twenties and thirties. This is Kevin here, by the way, running this maintenance shop in Hartford, CT. He has em-

ployees in their twenties and thirties who have never had a physical or a dental cleaning by a hygienist. One of them, age 28, with two children to support, was out of work for 12 weeks and nearly died from a staph infection he got from an untreated cavity.

Kevin has been working hard to try to provide for these people, but he has recently lost people who worked for him for more than 20 years because they got a job that paid less than he pays them but they can get health insurance coverage. So here is an employee who leaves a job in order to get a job where he can have health insurance.

Again, small business owners who go through this are all across our country.

My simple point is this: Anyone who suggests this bill is the end-all obviously hasn't been through this process over the last several years. There will be a lot more work that needs to be done in the years to come. But we need to do what no other Congress has done before: We need to start. That is why I feel so passionately about getting this bill passed and moving it forward. I ask my colleagues to join us.

I yield the floor.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. ENZI. Mr. President, I yield 5 minutes to the Senator from New Hampshire and 10 minutes to the Senator from Texas.

Mr. GREGG. Mr. President, I ask unanimous consent that during the next hour which we control we be allowed to enter into colloquies on our side of the aisle.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GREGG. Mr. President, we have certainly heard a lot of talk about Medicare over the last few days, and we have actually even voted on a few amendments, but they have all had no force of law, and they have just been statements of purpose. They are called sense of the Senate. Every one of these sense of the Senate has had as its purpose to try to give political cover to Members on the other side relative to the issue of the fact that this bill reduces Medicare spending by close to \$½ trillion in the first 10 years, \$1 trillion when it is fully implemented over a 10-year period, and \$2.5 trillion over the first 20 years, and that those reductions in spending in Medicare are going to translate immediately and unquestionably into a reduction in service and coverage for Medicare-recipient senior citizens. The money from that—the \$½ trillion in the first 10 years, the \$1 trillion in the 10 years that we are doing the implementation, and the \$2.5 trillion over the next 20 years—is being taken out of the senior citizen program called Medicare, and it is going to be moved over into a brandnew entitlement program and into the expansion of Medicaid.

Those dollars will be used to create new Federal programs for people who have never paid, for the most part, into the Medicare hospitalization fund; for people who are not senior citizens and therefore do not, arguably, deserve to receive the benefit of the Medicare hospitalization fund. As a result, seniors will see their benefits reduced and other people will get a new benefit through the Federal Government. Ironically, the new benefit, this new entitlement, will not be adequately funded either, but large portions of part of that funding are going to come from the Medicare trust fund.

The problem here is that the Medicare trust fund is insolvent. It has \$30 trillion of outstanding exposure to the Medicare trust fund, which we don't know how we are going to pay for as seniors retire over the next 20, 30, 40 years. Thus, there will be a reduction in the benefits to Medicare, a reduction to Medicare recipients, a reduction in the Medicare trust fund to the tune of \$½ trillion in the first 10 years, \$1 trillion when it is fully implemented, and \$2.5 trillion over the next 20 years.

That type of reduction shouldn't go to create new Federal programs. If it is going to be done at all, it should go to making the Medicare trust fund more solvent. Well, that has been essentially the tenure of some of the proposals from the other side of the aisle. We have heard a lot of people on the other side of the aisle say: All right, we are not going to cut Medicare. We are not going to cut Medicare. We are just going to reduce it by \$½ trillion, and then we are going to create a new program with it. We are not going to do this to the seniors. We are not going to take their money and start a new program.

We have heard that statement in different levels of machinations from the other side of the aisle quite regularly.

I do, however, for the record, want to say—because I have immense respect for him, and he has been totally forthcoming on these issues, and very accurate—that the chairman of the Finance Committee has not represented that is what is happening with the Medicare funds.

He has represented on the floor that those Medicare funds that are being reduced—those reductions in Medicare spending will go to create a new program. But a lot of folks on the other side have said they don't agree with that, that is not what they are intending to do. Some of the sense of the Senate have clearly had that implication in their passage.

So what does that amendment do that I am going to be offering? It shoots real bullets. No longer is it a political statement, a sense of the Senate, a thought process, a virtual event saying you want to protect the Medicare trust funds. This amendment is real. It protects the Medicare trust

fund. It is real hard language, which says that if you vote for this amendment, you are voting not to move Medicare trust fund dollars out of the Medicare trust fund, away from Medicare recipients, over to start a new program; that any new program started in this bill must be paid for by something other than Medicare.

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. GREGG. Mr. President, I ask unanimous consent for an additional minute.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GREGG. So this shoots with real bullets. It says, essentially, if you vote for this amendment, you are voting to keep the Medicare dollars with Medicare, not to take those dollars that are being cut out of senior citizen programs and move them to create a brandnew set of programs at the Federal level.

This will be the vote that I believe determines whether we raid the Medicare funds for the purpose of creating a new Federal program or whether we maintain the integrity of the Medicare system. This is a serious amendment, and it is a real amendment. There is no sense of the Senate about this. This is enforceable language. Anybody voting against this amendment is formally voting, unquestionably and unequivocally, to take  $\frac{1}{2}$  trillion of Medicare funds, in the first 10 years, and move them over to fund a new program; to take \$1 trillion from the Medicare funds, when fully implemented, and move them to fund a new program; to take \$2.5 trillion, over the next 20 years, of Medicare benefits that should be going to seniors—because they are Medicare funds and should be benefiting the solvency of the Medicare funds—and moves them to create new programs. Anybody who votes against this amendment is accomplishing that; they are cutting Medicare for the purpose of creating a new program. If you vote for the amendment, to the extent Medicare savings occur, they would not be used to fund new programs. It is a real, enforceable amendment.

The PRESIDING OFFICER (Mr. KYL). The Senator from Texas is recognized.

Mr. CORNYN. Mr. President, the President of the United States is reportedly traveling to Capitol Hill to meet with Senate Democrats in a few moments. Unfortunately, Republicans are not invited, which follows an established pattern, where notwithstanding the public statements that Republican ideas are welcome, they have been rejected at every stage of the development of this 2,074-page bill. There were party line votes in the HELP Committee and the Finance Committee and virtually every Republican idea was rejected. The President is coming to rally our Democratic friends to basi-

cally do it in a “my way or the highway” sort of way. They are going to own it 1,000 percent.

I think it is perhaps very timely to recall some of the President’s promises because, frankly, if the President follows the promises he made to the American people, he will not be able to sign this bill or anything similar to it.

First of all, talking about transparency, he said we are going to have negotiations around a big table on C-SPAN so people can see who is making arguments on behalf of their constituents and who is making arguments on behalf of the drug companies or the insurance companies.

The reality is, this bill was merged between the Finance bill and the HELP Committee bill—merged behind closed doors, with only three Senators present and presumably their staffs.

Another promise the President made was this:

The plan I am announcing tonight—

This was during the joint session of Congress, I believe, we attended.

—will slow the growth of health care costs for our families, our businesses, and our government.

This is a pledge the President made to the American people. That was his stated goal for this bill. We see something very different in this 2,074-page bill, a different reality. We see that premiums for those in the individual market—families—will be increased by 10 percent by 2016, according to the CBO. You don’t have to take my word for it. It is not some insurance company talking. This is the Congressional Budget Office. Businesses that fail to comply with the job-killing mandates in the bill will face additional taxes of \$28 billion—yes, during a recession when unemployment is at 10 percent. That is according to the CBO. They also say taxpayers will see Federal outlays for health care coverage increase by \$160 billion over 10 years.

This is from the dean of Harvard Medical School. He said:

In discussions with dozens of health care leaders and economists, I find near unanimity of opinion that, whatever its shape, the final legislation that will emerge from Congress will markedly accelerate national health care spending.

So much for bending the proverbial cost curve. Then there is this promise—another solemn promise. The President said:

I have made a solemn pledge that I will sign a universal health care bill into law by the end of my first term as President that will cover every American—

This bill obviously does not.

—and cut the cost of a typical family’s premium by up to \$2,500 a year.

As I mentioned, under the CBO score, the average premium for families in the individual market will go up by \$2,100, not go down by \$2,500—another promise made that will not be kept if this bill is passed into law.

Then the President talked about deficits. There has been a lot about this bill being so-called deficit neutral. If you cut enough benefits for seniors and raise taxes enough on everybody, you can produce a deficit-neutral bill. This bill will spend \$2.5 trillion over the next 10 years with full implementation. President Obama’s chief actuary at the Center for Medicare and Medicaid Services called the ability to sign a bill such as this, without raising the deficit, “unrealistic and doubtful.” David Broder, the dean of the Washington press corps, said:

While the CBO said that both the House-passed bill and the one Reid has drafted meet Obama’s test for being budget neutral, every expert I have talked to says that the public has it right. These bills, as they stand, are budget busters.

Then there is the promise of choice. The President said the American people ought to have choice when it comes to health care, their choice of their doctors and health plans. The fact is, this bill would consign 60 million Americans to a health care “gulag” called Medicaid. I say that because, although Medicaid provides what some people would say is coverage, it certainly doesn’t provide access. In the metroplex of Texas, the Dallas-Fort Worth area, 38 percent of doctors will not see a new Medicaid patient because of Medicaid’s low rates.

Then there is this claim that it will not raise taxes. Well, the Joint Committee on Taxation indicates that 38 percent of the people earning less than \$200,000 a year will see a tax increase under this bill. In other words, this is another promise the President made that will be violated if this bill is passed into law because taxes will go up for 38 percent of the people. As a matter of fact, out of that 38 percent, 24 percent of them will experience a tax increase, even after taking into account the premium tax credit that is being paid under this bill. Another promise made, another promise that cannot be kept if this bill becomes law.

Then there is this one. The President said:

So don’t pay attention to those scary stories about how your benefits will be cut. That will never happen on my watch. I will protect Medicare.

Dr. Elmendorf, the head of the CBO, said Medicare’s managed care plans would see reduced benefits—I am sorry, that is according to CBS News. The chief actuary said:

Providers might end their participation in the program, possibly jeopardizing access to care for beneficiaries.

Dr. Elmendorf said you would see additional benefits that seniors get under Medicare Advantage cut by about half. Another promise, another promise broken if this bill becomes law.

There is this, which pertains to the Ensign amendment pending on the floor. The President said:

I want to work with the American Medical Association so we can scale back the excessive defensive medicine that reinforces our current system, and shift to a system where we are providing better care simply—rather than simply more treatment. So this is going to be a priority for me.

If this is a priority for the President of the United States, it is apparently not a priority of those who have authored this bill because all that is contained in the bill is a nonbinding sense of the Senate. We have heard that medical liability reform laws, such as those that have been passed and implemented in Texas—if passed nationwide, this bill could bend the cost curve by \$54 billion over 10 years. Yet all we get is a watered-down sense of the Senate that has no binding effect at all.

If the President was sincere about making those promises to the American people, then this Congress ought to be sincere about helping him keep that promise. The fact is, time after time, this bill breaks the promises that President Obama made to the American people. It is not too late to change that. I hope that, today, when he meets with Senate Democrats behind closed doors, to the exclusion of Republicans, there will be some discussion of how can we help you keep those promises to the American people because this bill does not.

The PRESIDING OFFICER. The Senator from Wyoming is recognized.

Mr. ENZI. Mr. President, I yield such time as they need to several Senators for the purpose of a colloquy.

Mr. MCCAIN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. GREGG. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Arizona is recognized.

Mr. MCCAIN. Mr. President, I am pleased to see my friends on the floor again today—very intelligent people, such as the Senator from New Hampshire and my friend, Senator ENZI, who is an expert on this issue, and the rest of us who know that a fight not joined is a fight not enjoyed. I look forward to another spirited discussion with my colleagues.

Maybe if I could, to start with, I will take up a point about the debate and discussion we had yesterday on the floor with the Senator from Montana, the chairman of the committee, where he asked me why did I think that certain groups supported this legislation pending before the Senate. I said I didn't know what kinds of deals had been cut. I referred to the deal made with PhRMA and others. I didn't know exactly why because I am not taken into the discussions and negotiations

off the floor in the office of the majority leader.

There seems to have been some blowback on that, and somebody said maybe that wasn't appropriate to talk about deals that were cut. This morning, on the front page of the Washington Post, it says:

Deals Cut with Health Groups May Be at Peril.

Perhaps the Washington Post is impugning the reputation of someone or staffers or others. They have certainly impugned mine from time to time. But the fact is, this is a news story.

Again, I go back, very briefly, because we have a lot to talk about, my colleagues and I. The fact is, there have been deals cut, just like is reported in the Washington Post this morning, as has been reported all over America about the deals cut with various interest groups that don't necessarily represent the people they claim to represent. I know the American Medical Association does not represent the majority of physicians and caregivers. In the State of Arizona, I know too many of them. I also know they have a very large lobbying presence in our Nation's Capitol, as do the other interested groups that have "cut deals" that may be at peril now, according to the Washington Post.

With that, I will mention, again, that the doctor is in. Would the doctor care to give us some enlightened information, before we give our various opinions on this issue?

Mr. BARRASSO. I agree with the Senator from Arizona. I looked at another one of his favorite newspapers, the New York Times, today because we—

Mr. MCCAIN. My absolute favorite.

Mr. BARRASSO. On this floor have said the Democratic proposal is cutting the Medicare the seniors of this country depend on for their health care. We pointed out that they have taken \$120 billion away from Medicare Advantage. Mr. President, 11 million seniors use Medicare Advantage. One out of four seniors is on Medicare. The reason they signed up for Medicare Advantage is because there is an advantage for the seniors—preventive care, coordinated care, things we know are important.

Yesterday on this floor, the Democrats voted to cut away from home health care. This is a lifeline for home-bound patients. It helps keep them out of the hospital and out of the nursing homes. Yet in spite of all the letters we have read from patients, as well as home health care communities in all of our States, they have cut back.

Yet the majority whip came to the floor at the opening of the session today and said: Oh, we have handled all of that. He said: We have handled all of that with a wonderful resolution of the Senate by Senator MICHAEL BENNET.

The New York Times today, about that resolution, said:

Democrats decided to respond to the Republicans saying: Hey, you are cutting Medicare for our seniors. "Democrats decided to respond . . . with a meaningless amendment." The New York Times editorial today, "a meaningless amendment." We knew it was meaningless, and we know they are cutting Medicare from the seniors who depend on it—Medicare Advantage from hospitals, from nursing homes, from hospice, from home health care. This is robbing the people who need this care, deserve the care.

If you said maybe we should take a look at Medicare, then do it, Mr. President, to save Medicare, to save Medicare that we know is going broke.

I see the Senator from New Hampshire is here. He has been an expert on this topic of the budget and ways we can save Medicare. I say to my friend from New Hampshire, is this not true that Democrats have proposed a meaningless amendment but they are cutting the guts out of the Medicare Program on which the seniors of this country are dependent?

Mr. GREGG. As usual, the Senator from Wyoming is absolutely true. The sense-of-the-Senate amendments we have had from the other side of the aisle on Medicare are political amendments meant to make a political statement, but they have no substantive effect. That is why I brought forward my amendment which hopefully will be voted on in the next couple of days or so which says specifically what the Senator from Wyoming has asked for.

To the extent there are reductions in Medicare spending—and there may need to be some—that those reductions are reserved for the seniors for the benefit of their program and to make Medicare more solvent and no new programs be created on the backs of seniors by cutting Medicare and moving the money from Medicare over to new programs.

My amendment is not a sense of the Senate. My amendment is a real amendment. It is the one chance people are going to have to vote for protecting Medicare and not creating new programs with Medicare money. And that is what it is going to be.

Mr. MCCAIN. To be clear, the amendment of the Senator from New Hampshire is exactly the same as the White House sense-of-the-Senate amendment and the Bennet amendment, only it has the actual force of law.

Mr. GREGG. Absolutely. It is not exactly the same in the sense that it is real. Theirs is not real. Mine is real. It says you are going to keep the Medicare money to benefit Medicare, and you are not going to use the Medicare money for the purpose of creating new programs which have nothing to do with Medicare for people who are not on Medicare.

Mr. ENSIGN. I say to the Senator from Arizona, another place in this bill

where they have a sense of the Senate that is not real is medical liability reform. Back in September, when The President addressed the Nation, he said defensive medicine caused by the medical liability crisis may be contributing to unnecessary costs; there are unnecessary tests.

Let me show you the amount of money they are going to save with their medical liability reform sense of the Senate in this bill. That is it. That is how much their sense of the Senate on medical liability reform is going to save—zero.

In contrast, the Medical liability reform several of us have offered is real medical liability reform. Several of us have been working on that. The savings from a real medical liability reform: \$100 billion.

We at least have said we have an amendment we are going to vote on later today. Let's at least do something to get the ball rolling on medical liability reform with the amendment we are offering today. The President suggested getting the ball rolling on medical liability reform.

Back in 1995, Senator Ted Kennedy offered an amendment that would at least limit attorney's fees. These are contingencies fees. Twenty-one Democrats who were here back in 1995 who are here now voted for that limit. They are: AKAKA, BAUCUS, BINGAMAN, BOXER, BYRD, CONRAD, DODD, DORGAN, FEINGOLD, FEINSTEIN, HARKIN, INOUE, KERRY, KOHL, LAUTENBERG, LEAHY, LEVIN, MIKULSKI, MURRAY, REID, and SPECTER. All 21 of these Senators voted for caps on attorney's fees. That would at least do something. That would help get the ball rolling on medical liability reform.

But the same thing they have done with Medicare, saying they are going to keep Medicare savings in Medicare, they have not done. It is not real. Senator GREGG has a real amendment to fix that. I have a real amendment to fix the medical liability reform that hopefully will be voted on later as well. But at least let's go for a little bit of compromise right now.

Mrs. HUTCHISON. Will the Senator from Nevada yield?

Mr. ENSIGN. I will be happy to yield.

Mrs. HUTCHISON. Talk about liability, I have real statistics. I hear the other side say: Oh, we are going to lower the cost; that is what health care reform is about, lowering the cost of health care so more people will have access to affordable options. Yet the main one that is clearly available is medical malpractice reform, tort reform.

I know the Senator from Nevada has an amendment, and I am a cosponsor. Let me give some statistics about how we could save money.

Mr. MCCAIN. May I ask the Senator from Texas, is it not true that it is the State of Texas that is the demonstra-

tion project for medical malpractice reform?

Mrs. HUTCHISON. Exactly. And let me tell you what it has done in Texas and something we could do, and I think we would have bipartisan, 100 percent support in this body because that would be reform that would help health care.

Since medical malpractice and tort reform has been passed in Texas, over 7,000 new physicians have flooded into our State—a 7,000 increase. The reason? Tort reform. Since passed just 5, 6 years ago, physicians in Texas have saved \$574 million in liability premiums, and their liability rates have been cut an average of 27.6 percent, almost a 30-percent cut in premiums.

What has this done? Today in rural counties, the number of obstetricians has increased by 27 percent. Twelve counties did not have one obstetrician before this was passed, and now they do; 24 counties had no emergency room physicians, and now they do; and 58 counties, in addition to that, have added one more.

Rural counties are the ones that have suffered the most, and every State in this Union has rural counties—every one. They are the ones who are hurt the most. Yet the Medicare cuts will take \$135 billion out of rural hospitals' ability to serve Medicare patients. There is no medical malpractice reform unless, of course, in a huge bipartisan effort and gesture we can adopt the Ensign amendment which we are offering to try to make this a bipartisan bill that can work.

We have seen from Senator ENSIGN's charts that Democrats have supported limits on lawyer fees so that we would be able to cut back on the frivolous lawsuits that have been hampering our ability to cut the costs in Medicare.

I appreciate so much that Senator ENSIGN is offering this amendment because Texas can show us that this will work. It would be meaningful reform. It would cut the costs and make health care more available and, most important, it will give patients the opportunity to have doctors in their rural communities who will not practice today because their liability premiums are so high they cannot afford to stay in medicine and give this care to those rural patients. That is what we need.

Mr. MCCAIN. May I say in the immortal words of Howard Dean, the former chairman of the Democratic National Committee—he put it simply:

The reason why tort reform is not in the bill—

Talking about this bill—

The reason why tort reform is not in the bill is because the people who wrote it did not want to take on the trial lawyers in addition to everybody else they were taking on, and that is the plain and simple truth. Now, that's the truth.

I totally agree with Howard Dean. I could not agree with him more.

Mrs. HUTCHISON. If the Senator will yield, in addition to that, the House said: We have medical malpractice reform. They put it in their bill. You know what it says? There will be a State grant program and States can apply if they can show that they have made a meaningful effort at curbing frivolous lawsuits. But the only two reasons a State would not be eligible are if lawyer fees are capped or if damages are capped. Lawyer fees capped, damages capped—that is off the table. So I am thinking to myself—maybe the Senator from Nevada could tell me, if you don't curb lawyer fees and you don't curb the caps, what meaningful reform do you think we could get in medical malpractice?

Mr. ENSIGN. No question, those are the two most important types of reforms for medical liability laws that have been placed in the States—my State of Nevada, Texas, California and other States. The caps are what have shown a reduction in the medical liability premiums for doctors. They are what have shown a reduction in the cost of our health care system.

Mr. President, let me quote because the other side is talking about these contingency fees; that they need these contingency fees to take on these lawsuits, especially for those who are very poor. They say it is the only way for this to happen.

I quote:

Since 1960, the effective hourly rates of tort lawyers—

These are the personal injury attorneys—have increased 1,000 percent to 1,400 percent (in inflation-adjusted dollars).

While the overall risk of nonrecovery has remained essentially constant though it has decreased materially for such high end tort categories as products liability and medical malpractice.

The lawyers, basically, have created all these laws that make it easier for them to sue and their contingency rates have gone up 1,000 to 1,400 percent since 1960, and yet there is no more increased risk and even reduced risk of nonrecovery in medical malpractice cases. It is easier to sue nowadays. This comes down to, are you on the patients' side or the trial lawyers' side? Which side are you on? We are on the side of the patients; the other side seems to be on the side of the trial bar.

Mr. MCCAIN. The Senator from Alabama.

Mr. SESSIONS. I thank the Senator from Arizona for driving home this point. The reason that malpractice litigation reform is not in the bill is simple, plain, and known to every Member of this body because it is opposed by the plaintiff trial lawyers who are big supporters of Democratic Members of the body and the President. That is true.

Let me ask Dr. BARRASSO, can the Senator think of any other thing that

we could do in reforming health care that could save \$100 billion and not diminish the quality of care in America? Is there anything else? How do fellow doctors feel about that?

Mr. BARRASSO. When I talk to other doctors, they tell me, across the board they order a number of tests, expensive tests—call it defensive medicine—tests that do not necessarily help a patient get better, get well, but just to make sure they get covered in case they are sued. It is not unusual, when you look at the numbers, that we are talking \$100 billion a year in tests that are done that do not necessarily help somebody get better, but they are doing it because of the legal atmosphere in this country.

Here we are on the Senate floor on a Sunday afternoon. The President is less than 100 yards away, a former Member of this body. He ought to be involving all Senators. He is meeting behind closed doors, possibly cutting deals, trying to come to arrangements, twisting arms, asking people to march, follow his marching orders right off a cliff that I think is going to be coming for health care in America. I think he ought to be involving all Americans. We are talking to the Americans in this country. We are not hiding behind closed doors. People who aren't part of those discussions are completely cut out.

I know my colleague from Tennessee has been outstanding and outspoken on these very issues, but we are here, and we want to visit with people because we do have solutions that work; that will not increase the cost of care, which is what we are seeing now; that are not going to cut Medicare, which is what the Democrats are proposing; that are not going to increase taxes, which the Democrats are proposing; and they are not going to drive up the premiums.

The whole idea behind this was to get the costs under control. Senator ENSIGN's amendment does that by taking a look at the lawsuit abuse that we look at in this country. But I want to turn to my colleague from Tennessee, who I know has some more points he wants to make.

Mr. CORKER. I know all of us benefit from the Senator's background as a physician and knowledge in the industry. I also thank the Senator from Arizona for spending a lifetime focusing on how special interests affect this body.

I was thinking about this meeting taking place here in the Capitol not far from us from 2 to 3 p.m. with the President and 60 of our colleagues on the left, and I have this image of them being twisted up like pretzels because of the fact there are so many interest groups they have to sort of kowtow to. I have this image of a bunch of them up in a room with a yoga instructor, kind of loosening up, because they are so

twisted in knots trying to basically undo all the pledges they have made to so many groups.

I think about, for instance, Senator ENSIGN's amendment to deal with medical malpractice, but, no, the trial lawyers keep them from doing that. I think about the kinds of things Senator MCCAIN ran on during his Presidential election campaign, and others of us have looked at, as has Senator GREGG, so that people in this country have choice; that we create a market system that allows people to have choice. But they cannot do that because the unions don't want them to do so. The unions don't allow them to cap the exclusion, which many of us have talked about. The unions keep them from doing appropriate health care reform, and so instead, what happens, in order to make this work? Again, they are so twisted up. Remember that Peter Orszag, the major guru within this administration regarding health care, has said the thing that will bend the cost curve down would be these exclusions. I am so glad Senator GREGG, who has the integrity and the longstanding knowledge to deal with this, is offering an amendment.

Yesterday I was challenged on this by Senators on the other side of the aisle, but there is no doubt this bill throws seniors under the bus. We have an insolvent program that money is being taken from to create a whole new entitlement it is leveraging. If that is not throwing seniors under the bus, I don't know what is. So we have a program that is throwing seniors under the bus because the unions cannot be offended, the trial lawyers cannot be offended, so many other groups—AARP cannot be offended—and then we also lock 15 of the 31 million Americans who are receiving health care into a program none of us would be a part of—Medicaid. And they do that because of their unwillingness to address the free market issues that would make health care work in this country: medical malpractice issues, addressing defensive medicine, capping exclusions, and those kinds of things we Republicans have put forth from day one.

So I think the Senator from Arizona is doing an outstanding job pointing out the conflicts of interest that exist in this bill. We have a group on the other side of the aisle that won't address health care in the appropriate way, and I believe are in another room twisted up in knots with themselves trying to figure out a way to get out of this box they have put themselves into, and a President who is basically giving them a pep talk to keep them from getting out of the box.

I thank the Senator so much.

Mr. MCCAIN. Our Republican leader is here on the floor of the Senate, and he can speak for himself, but I am sure he would appreciate the opportunity if the President would come and sit down

and meet with us. I think we are all ready to have a meeting with him. Perhaps we would be able to give our input and recommendations as to what we need to do to get this bill unstuck.

That was, as I recall, the campaign. And I am getting tired of going down memory lane here, but that was going to be the "change." That was going to be the change in Washington. We are going to change the climate. We are all going to sit down together, Republicans and Democrats. Well, I think on this Sunday afternoon, we are all available, are we not, I would ask the Senator from Kentucky?

Mr. MCCONNELL. I would say to my friend from Arizona, normally we would be watching the Redskins game today, but we are here and ready to sit down with the President and ready to discuss with the American people this issue.

You know, it was said at the beginning of the debate, if they wanted to come up with a bill that would pass with 80 votes, the way to do that is not to craft a bill that no Republican can support and end up in the position they are in now, trying to get every single Democrat in line so they can pass this bill, even though they know the American people are overwhelmingly opposed to it. All the surveys indicate the American people do not want us to pass this bill. They would like for us to stop, start over, and get it right, with some of the suggestions that have been made here on the floor today and other days during this debate.

Mr. MCCAIN. And we could do that, perhaps in the most effective fashion, if we sat down with the President and made some of the very points he made in his State of the Union Message.

I want to turn to the Senator from South Dakota, but I want to mention something first on this issue of tort reform I have never quite gotten over. One of the most famous cases of the 1970s, and I think it spilled over into the 1980s, was agent orange, the defoliant that was used during the Vietnam war and which caused so many physical problems for our Vietnam veterans who were exposed to it. It was a big class action suit the trial lawyers won. The trial lawyers got paid off first, and Vietnam veterans died before the money was distributed to them. I will never get over that.

Mr. THUNE. I think the reason we are here today is that the Ensign and Gregg amendments strike at the very crux and the very core and the very heart of what this is all about. The Democratic majority was unwilling to take on the trial lawyers, unwilling to do things that actually bend the cost curve down, such as capping contingency fees, and so now we are faced with voting on the Ensign amendment, which would do that, but we are also voting on the Gregg amendment because they weren't willing to put actual measures in this bill that would

bend the cost curve down. What they have had to resort to is cutting Medicare to pay for it. A \$2.5 trillion expansion of the Federal Government has to be financed somehow, because there aren't any real cost-saving measures in here.

I point out to my colleagues that in spite of all that, this is where we are. The Congressional Budget Office says that even with the all of the Medicare cuts and all the tax increases that are in here, we actually still increase spending in this country on health care. The cost curve goes up. The blue line on this chart represents the existing cost curve if nothing is done. If we did nothing today, that is what would happen. That is the blue line. The red line represents what happens under this bill. We actually raise the cost curve even more. Costs for health care in this country under this legislation go up \$160 billion.

How does that affect the individual family? I want to show you exactly what this means in terms that I think most Americans can understand. This is the example of a family of four who today is paying \$13,000, a little over \$13,000 for their health insurance. Under this bill, their life doesn't get any better. In the year 2016, they are going to be paying over \$20,000 a year in health insurance. So what happens is they have locked in the status quo. And that status quo is year over year increases, double the rate of inflation, all because they were unwilling to put measures in this bill that actually do control costs.

If we did something along the lines of the Ensign amendment, that actually would get these contingency fees under control. We all have seen the statistics. The CBO has said that would bend the cost curve down.

We have all talked to physicians in our own States. I talked last week to a physician from my State who, unsolicited, said that 50 percent of the tests he does are to avoid being sued. Fifty percent of the tests he conducts are due to defensive medicine. That drives the cost of health care up for everybody. That is why the Ensign amendment is so important.

Unfortunately, why we have to vote on the Gregg amendment is because the Gregg amendment forces the Democrats to put their money where their mouth is and to see if they mean what they say—that they want all these savings in Medicare to go into Medicare. We all know that is not true. To pay for a \$2.5 trillion expansion of the Federal Government and create an entirely new entitlement, you have to take the cuts from Medicare and put them into this new entitlement program.

So we are voting on a couple of amendments today that will ensure seniors in this country are not going to be faced with cuts to their benefits—home health care, nursing homes, hos-

pitals, all those that receive cuts in this bill—and actually try to substitute something in there that would get costs under control, and would—according to the CBO—drive the cost curve down; would do something about this year over year double the rate of inflation that the average American family is seeing.

This is what the CBO said would happen to the average American family of four if this bill passes. Today they are paying \$13,000 a year—a family of four—and in the year 2016, they will be paying \$20,000 a year. Tell me, how is that reform? How can anybody go to an average American family with a straight face and say they are reforming health care when all they are doing is locking in permanently year-over-year increases that are double the rate of inflation, and in some cases even going up beyond that if you have to buy your insurance in the individual market?

I am glad the Senator from Nevada has offered this amendment. I am anxious to see how the other side votes on the amendment the Senator from New Hampshire has offered which would guarantee these Medicare savings would go back into Medicare and not be used to pay for a new government entitlement program at a cost of \$2.5 trillion to the American taxpayer.

Mr. MCCAIN. I will recognize the Senator from Texas, who will be presiding next, and wish to add one more comment.

Mrs. HUTCHISON. I so appreciate the opportunity to talk about these different areas of cuts and then the increase in spending overall, because everyone in America today is concerned about the spending and the debt and the ceiling we are about to reach.

I wanted to bring up one more point on hospitals, because this affects every State in America. In Texas, 29 percent of our hospitals are in rural areas. The cuts in this bill will especially affect hospitals in rural areas. In fact, out of the \$135 billion in Medicare cuts to hospitals, \$20 billion is cuts in Medicare payments for treating low-income seniors and another \$23 billion in Medicaid payments to hospitals for treating low-income patients.

I want to read an excerpt of a letter I received this week from the Texas Organization of Rural and Community Hospitals, which represents 150 rural hospitals in the State. They write:

We also fear the Medicare cuts as proposed could disproportionately hurt rural hospitals, which are the health care safety net for more than 2 million rural Texans. Because of lower financial margins and higher percentage of Medicare patients, rural hospitals will be impacted more than urban hospitals by any reductions in reimbursement. These proposed Medicare cuts could have a devastating effect on many of the hospitals, which could lead to curtailing of certain services. And, the closure of some of these Texas hospitals is a real possibility. It has

happened every time previously when Congress imposed so-called large-scale, cost-saving measures.

Well, this is the granddaddy of large-scale cost cuts—\$500 billion, or \$½ trillion—taken out of the hide of the hospitals that are treating low-income patients and seniors.

I ask the Senator from Nevada if he is experiencing that same thing, and if he feels that hospitals all over our country are going to be hurt by this bill?

Mr. ENSIGN. Mr. President, I thank the Senator from Texas for her comments, and I note that even the Congressional Budget Office has said when you cut, for instance, reimbursement rates, those are going to come out of somebody's hide. And basically, the hide it is going to come out of is the seniors.

As the Senator from Tennessee said, we are throwing seniors under the bus. When you cut \$465 billion out of Medicare, it is going to come out of services for seniors—if these cuts are real. And in this bill they are real. That is why the Gregg amendment is going to be so important.

I know the Senator from Kansas wants to jump in, so we welcome you to the conversation.

Mr. BROWNBACK. I appreciate that. I also note the Ensign amendment, instead of cutting, creates.

A Robert Woods study in 2006 said caps on things such as this hold down awards in cases 20 to 30 percent and increases the supply of physicians, which is something else we need.

I wish to give a better live example that we have in my State of Kansas. In the early 1980s, mid-1980s the piston engine industry of aircraft was just about dead. It had been sued—the aircraft industry, general aviation had been sued so much they were stopping making piston engine aircraft. Congress, finally, because the industry was dead, said we are going to put a 17-year statute of limitations on it so after 17 years you cannot sue the manufacturer anymore after that period of time.

It brought the industry back. They are now being made. There is a new plant in Independence, KS. There is another one that is making this aircraft because there was a limitation put, a reasonable limitation on manufacturing reform.

If we do this, this will create—this will help our medical industry, it will hold down costs, it will increase the number of physicians. These sorts of changes have worked. There is no reason at all not to do this in this bill.

Mr. ENSIGN. I thank the Senator from Kansas for his excellent remarks. I know the Senator from Florida, the newest Member, one of the newest Members of the body, would like to join in.

Mr. LEMIEUX. I thank the Senator from Nevada.

I don't know that there is a State that is going to be more impacted by cuts in health care for seniors than my State of Florida, with 3 million Floridians on Medicare, almost 1 million on Medicare Advantage. I think it is worth repeating what these cuts are going to mean: \$137.5 billion from hospitals that treat seniors. I talked to the director of a hospital district down where I am from, down in south Florida. He said these cuts will be devastating: \$120 billion from Medicare Advantage, \$14.6 billion from nursing homes that treat seniors, \$42 billion from health care for seniors—from home health care, and \$7.7 billion from hospice care.

Yesterday, our friends on the other side were trying to convince us and the American people that there are not going to be any cuts to benefits. It is not going to affect health care for seniors because they are going to pay less, but that will just get rid of the waste and the fraud and the abuse.

Everyone is against waste fraud and abuse. We have a measure on this side of the aisle that actually, I think, would do something about it. We have gone through the Reid bill to find all the provisions. My staff and I have been going through it, line by line, to find all the provisions that go after waste, fraud, and abuse—and there are some, to their credit. But the Congressional Budget Office has said, in their report that came out on November 18, the provisions that go toward waste, fraud, and abuse would cut \$1.5 billion and create that efficiency. But the cuts are \$464 billion. So if they are going to save \$1.5 billion and there is going to be \$464 billion in cuts, where are the rest of the cuts going to come from?

It is, as my friend, the Senator from Tennessee, said, seniors are going to get thrown under the bus. But you are not going to be able to cut \$464 billion, only get \$1.5 billion in savings, and not cut benefits. So seniors who want to go to the hospital are going to have their benefits cut; seniors who have home health care, their benefits are going to get cut and all the way down the line. Everyone needs to understand that at its base, this is a bill that hurts seniors.

Perhaps no State is going to be impacted more than Florida, where we have this huge population of seniors. I know my friend from Nevada has a huge population of seniors in his State. We have the highest per capita number of seniors. We like to say all the rest of the seniors in the country are eventually going to move to Florida anyway. We are going to have the greatest generation—we have them there now—we are going to have more of them living in Florida, and their health care is going to get cut.

This bill cuts from health care for seniors, it raises taxes, and it doesn't decrease the cost of health care for the

170 million Americans who have health insurance now. For some, it raises it.

For me, a new Member to this body, it does not make any sense. But what does make sense is what my esteemed colleague from New Hampshire has done with this amendment. If you are for health care for seniors and you do not want it to be cut and if you are true to your word that we have to put the savings back into Medicare, then this bill, which says as its purpose "to prevent Medicare from being raided for new entitlements and to use Medicare savings to save Medicare"—I cannot imagine that anyone could vote against that amendment, because if you vote against that amendment, you are voting against senior health care.

I ask my colleague from New Hampshire, who has so much experience on these budget issues, if this amendment is not agreed to, what is going to happen to the Medicare program?

Mr. GREGG. To begin with, it is going to be reduced by \$460 billion in the first 10 years. In the second 10 years, it will be reduced by \$1 trillion. In the full 20-year time, it will be reduced by \$3 trillion. All those funds, all those reductions, will go to create a new entitlement for people who are not seniors and who probably have not paid into the HI trust fund, not having paid into the Medicare trust fund, which is an insurance program, in part.

As a practical matter, it will take scarce resources out of the Medicare trust fund, which should be used to make the Medicare trust fund more solvent, and move them over to expand the Government in another place.

It will mean that we as a government have basically used up some of the resources which we might want to use to make Medicare more solvent because it has \$35 trillion of unfunded liability out there, and we will use up those resources to create a new Federal program which will not help us address this outyear insolvency of Medicare.

It doubles the problem. First, it does not address the Medicare problems in the future and, second, it creates a brandnew entitlement which will have to be supported forever by Medicare funds, it appears.

Mr. ENSIGN. I see the Republican whip is on the floor and wants to join in the fun we are having on a Sunday afternoon. Please join us.

(Mrs. HUTCHISON assumed the chair.)

Mr. KYL. I thank my colleague from Nevada. I had the opportunity, which we don't have very much anymore, to preside for a half hour, watching over a dozen of my Republican colleagues engaging in a very informative debate for the American people.

It occurred to me, as my colleague from Nevada was talking about his amendment, which would actually reduce the cost of medicine, would reduce the defensive medicine practiced by physicians and, therefore, have a

tendency to reduce health care costs, that he was doing that by actually attacking another problem we have been talking about; that is, these runaway lawsuits or these junk lawsuits that have been talked about.

As a person who used to practice law, as I was listening to the Senator, it occurred to me that maybe I should take the microphone and defend the trial lawyers. So I wish to make sure I have the math right.

Under the amendment of my colleague, there would be a cap on the amount of attorney's fees these lawyers could get, depending upon how much money they recovered for their plaintiff client; is that correct?

Mr. ENSIGN. That is correct.

Mr. KYL. First of all, you would get one-third of all the money you collected up to \$150,000. That is \$50,000. Then you would get one-fourth of everything beyond that; is that correct?

Mr. ENSIGN. My colleague is correct.

Mr. KYL. Is my colleague aware that the average malpractice award in this country today is \$4.3 million? Does that sound about right?

Mr. ENSIGN. It depends on the State, but that sounds about right.

Mr. KYL. In fact, over half of all the awards are over \$1 million. As a poor trial lawyer, for every one of these cases—we are not talking about cases per year and this is per case, you can try 20, 30, 40, 50 cases a year—so for each case, if the average award is \$4.3 million, I am only going to keep \$1.1 million. Is that fair; that the trial lawyer should only get \$1.1 million for every one of these cases? Of course, the clients I am recovering the money for don't get that money. That money goes into my pocket.

Mr. ENSIGN. Remember, if I would ask a practicing attorney, they also don't just get that percentage, they also get court costs and various other research they have to do. It is not that the person who was injured gets three-quarters; they actually get less than the three-quarters that even this amendment would limit them to.

Mr. KYL. Exactly so. Under the amendment of my colleague, at least the plaintiff, on whose behalf the lawsuit was brought, would get a fair amount of recovery, unlike today, when there are no caps, and we frequently find the person who was injured gets a very small percentage after the lawyer gets his chunk, the expert witnesses, other court costs, and so on.

Maybe I should not defend my lawyer friends. Maybe the Senator is right. This is a way to attack costs. It is certainly not unfair to the trial lawyers and actually would benefit the people who do deserve to get some recovery in these cases where, in fact, they have been injured.

Mr. ENSIGN. We do have a couple attorneys on the floor, including the

ranking member of the Judiciary Committee, and maybe one of the two of you could also talk about the true victims who actually have had medical malpractice against them. How long does it take to get through the court today because of all of these frivolous lawsuits that clog the courts?

Mr. SESSIONS. I think the Senator raises a very important point. It seems to me that there should be mechanisms created to settle cases much quicker, without the huge payouts going to lawyer fees and litigation. Don't forget, the insurance company that the doctor hires and that is defending the doctor charges too. That is all money going to increase the cost of health care.

I have with me, today, working for me, Dr. Conrad Pierce. On a normal day in Alabama, he would be my Sunday school teacher today. Today he is working.

He just retired. He delivered 7,000 babies. He told me, some years ago, that an average OB's insurance for a year is \$60,000. I don't know whether it is still that way. That was several years ago. Some smaller town physicians may not deliver more than 60 babies a year. That is \$1,000 per delivery in insurance premiums. It is driven by this litigation rush we are having, and the pursuit of these big verdicts that sometimes occur and make lawyers wealthy—and, to be fair, sometimes serious injuries occur and serious malpractice occurs. But I absolutely believe this country can, consistent with our heritage of allowing individuals to sue for wrongs done to them, create a much better system for medical malpractice. One of the steps is the one the Senator has mentioned in his amendment.

Mr. ENSIGN. I appreciate that. Maybe we can have Dr. BARRASSO jump in. I have a good friend who practices obstetrics and gynecology in Las Vegas, and he is a specialist in high-risk pregnancies. Because of the messed up medical liability situation, his insurance company limited the number—the same as Senator SESSIONS was talking about—limited the number of high-risk deliveries he could participate in. So if you are one of the unfortunate ones who got cut off—in other words, he had reached his cap of the number he could actually deliver, and you are a woman who has a high-risk pregnancy—there may not be one of the specialists around. Now you have to deal with just the normal OB who may not have the expertise.

What does that do to not only the practice of obstetrics but, as an orthopedic surgeon, I am sure this kind of example plays out in many other areas in medicine?

Mr. BARRASSO. Standing on the Senate floor, looking at so many colleagues from States with a lot of rural areas, it is a challenge to have people who can provide these excellent serv-

ices, who are very well trained, know how to do it, how they can provide the services in these small communities. We have dealt with that in Wheatland, WY, and New Castle, WY, where the expense for the malpractice insurance for those physicians was so high that even though they didn't deliver that many babies in these small communities, they could not afford and the hospital could not afford to allow them to continue to deliver any babies. The amount of money they would receive from delivering babies was not enough to cover the insurance. In New Castle, WY, there were three physicians qualified to deliver, but the number of deliveries was such they ended up with no one delivering because they wanted to take one night and the next and the next. So you have communities all across our country that are losing highly qualified medical practitioners—whether it is cardiologists, surgeons, trauma surgeons, whether it is obstetricians, gynecologist. We are seeing this all over our communities.

The Senator from Tennessee is here. There are a lot of small communities where they are going to lose those. We are seeing it in the cuts yesterday for home health. Those people are not going to be available to deliver small community care, lifeline, homebound, keeping them out of nursing homes, keeping them out of hospitals.

There are real consequences of this bill, not just with the junk lawsuits—that is a big part of it—but also with the Medicare cuts, also with the increased taxes we are seeing in this bill and how that is going to affect small businesses, which are the engines that drive the economy of this country—and profoundly.

We heard the Senator from South Dakota show the premiums families are going to have to pay for insurance are going to climb faster if this bill becomes law than if nothing were passed. Even though the President promised that families in this country on average would see a \$2,500-per-year decline in premiums, the President's own numbers people say: Sorry, it is going to go up \$2,100. That is a \$4,600 shift for every family who tries to buy their own health insurance. That is what we are seeing in Wyoming.

I ask my colleague from Tennessee if he is seeing the same things at home.

Mr. CORKER. Madam President, I have just finished my second tour of all 95 counties in our State. In 91 of the 95 counties in our State, women do not have access to the types of medical services they should have. The reason is that this whole issue of malpractice is especially prevalent in the issue of OB. That is the area of babies being born. Obviously, a physician cannot determine if there is going to be a genetic deficiency of some kind or something else. But trial lawyers are out there waiting to ensure that no matter what

happens, even if it is by the grace of God that something happens that is not so good, the fact is a trial lawyer is waiting there to take advantage of a physician. So they have just decided to leave that particular industry.

We have had a bunch of side-by-side votes here. The American people understand the trickery that takes place. Fortunately, Senator MCCAIN's favorite publication, the New York Times, pointed out what absurdity it was yesterday that we passed 100 to zip the Bennett amendment which everybody knows is toothless.

Today, we have the opportunity to actually have a values vote. The American people can determine the values of each Senator. Senator ENSIGN has an amendment to cap the amount trial lawyers are paid. Senator LINCOLN has one to cap the amount that people who are actually delivering health insurance are paid. This is a values vote. We have a nonprofit in our State that pours every bit of its money back into providing health insurance. Senator LINCOLN's amendment would cap the amount that person is paid. Senator ENSIGN would cap the amount a trial lawyer is paid who is pursuing a physician and causing them to pay more. This is the first of a real values vote.

Mr. ENSIGN. One clarification: We don't cap the total dollar they can be paid; we just cap the percentage. So even though they will cap at \$400,000 what somebody can be paid for an insurance company, trial lawyers could still, because they can get up to 25 percent of the verdict—if the verdict is on average, as we learned from Senator KYL, \$4 million, they can still make \$1 million on that one case, and they can have however many of those cases they want per year.

Mr. CORKER. I know Senator ENZI wants the floor.

Mr. GRASSLEY. Madam President, there are a number of issues that this amendment raises. Some are health care-related, most are not.

First, this amendment amends section 162(m) of the Tax Code—a tax law intended to curb excessive executive compensation.

Unfortunately, section 162(m) has been a disaster. It has encouraged companies to cook up complex design packages so as to avoid the limitations under the law.

Actually, excessive executive compensation exploded as a direct result of section 162(m)—which was enacted back in 1993.

I have consistently made it clear that the outrageous pay practices of many companies must stop. True pay-for-performance must be the cornerstone of any compensation package. And the boards of directors, compensation committees, and shareholders must all be partners in practicing good corporate governance. We should look to reform section 162(m) of the Tax

Code, not add to it. And we should look at whether Congress needs to reform the way corporate governance is practiced.

This amendment adds to section 162(m). It does not reform it. This amendment does nothing to empower shareholders to hold the corporation's board accountable. All it does is hurt shareholders by taking money out of the company and giving it to the government.

That is right. By limiting a corporation's deduction, shareholders are the ones who are disadvantaged, not the corporation.

My friends on the other side of the aisle forget that seniors are often shareholders who rely on dividends and capital gains for income to live on day in and day out. So actually, my Democratic friends are enacting policies that will hurt seniors. All in an effort to show the country that they have it in for the big, bad insurance companies.

I also find it interesting to hear my friends say that it is unfair for insurance companies to get a taxpayer-funded "subsidy" in the form of a tax deduction.

First, all corporations are allowed to deduct compensation as a business expense. Big, small, private, and public corporations get this same tax deduction.

Are these companies getting a tax subsidy? If so, why not take the subsidy away from them?

Now, my friends on the other side may argue that these restrictions are just like those Congress passed in T-A-R-P. And the way the legislation works, they would be correct.

But, the executive compensation restrictions in T-A-R-P were conditions for receiving taxpayer dollars. My constituents in Iowa would call them bailouts.

Now my friends may argue that health insurance companies are benefiting from their reforms and they should pay their "fair share." They may also say that they are receiving the government-subsidized tax credits for health insurance, which is taxpayer dollars.

The main reason why the government is subsidizing health insurance for low-income individuals is because the Reid bill forces people to buy health insurance.

If you force people to buy insurance, you have to make sure it is affordable for them to buy. This has forced the government to spend close to \$400 billion on these tax credits, which is one of most expensive parts of the Reid bill. And the cost of these tax credits are paid with higher taxes, fees, and penalties on the majority of Americans. Paid by many of those who earn less than \$250,000 a year.

Data from the Joint Committee on Taxation tells us that 38 percent of tax

returns making under \$200,000 in 2019 will see a tax increase under the Reid bill. Yet only 8 percent of tax returns in 2019 will be benefiting from the tax credit. That doesn't seem balanced.

Finally, this amendment directs the revenue generated from it to the Medicare trust fund. I commend my Democratic friends for crafting policies that would help shore up Medicare. What is interesting is that this bill cuts Medicare. To the tune of \$400 billion—that is billion with a B.

And the money raised from cutting Medicare is not being directed to help shore up Medicare. Rather, the money is being spent on expanding and creating new entitlement programs. The Joint Committee on Taxation scored this amendment as raising \$651 million over 10 years—that is million with an M.

So what we have here is \$400 billion in cuts in Medicare that is being used for other spending, in exchange for \$600 million which would be directed Medicare trust fund. Doesn't seem like a fair trade.

Do my friends on the other side feel guilty for using Medicare money for non-Medicare purposes? And to make up for this guilt, they decided to direct non-Medicare-related money to the Medicare trust fund?

I will close by saying that my Democratic friends will take to the floor and say that anyone who votes against this amendment is "in the pockets of the insurance companies." I will first tell my friends that they should look in the mirror. Then I will say opposing irrational policies that add complexity to our tax laws is not protecting insurance companies.

Let's get on to reforming our health care system, instead of voting on amendments so my Democratic friends can (1) look like they are taking it to the insurance companies, and so they can look like (2) they are helping Medicare solvency.

Mr. INHOFE. Madam President, I support the amendment offered by the Senator from Nevada, which I have also cosponsored, that calls for real reform of the medical liability system.

A key component to health care reform in our Nation is medical liability reform. However, the Democrats are not actually interested in making changes to the current system as evidenced by the inclusion in this bill of "the sense of the Senate that health care reform presents an opportunity to address issues related to medical malpractice and medical liability insurance." Well that opportunity has come now, with a vote on this amendment that will limit the amount of contingency fees available to trial lawyers who bring medical liability actions.

The threat of massive lawsuits and the costs of insuring against them have driven doctors out of the practice of medicine, influenced doctors and

nurses to avoid certain specialties, and in part led to the steady increase of health care premiums. With the threat of lawsuits hanging over their heads, doctors are forced to take extra precautions when diagnosing and treating patients through the ordering of additional tests and procedures. The Journal of the American Medical Association found that 93 percent of doctors admit practicing this type of self-protective medicine.

A recent study by the Pacific Research Institute estimates the cost of defensive medicine is at least \$191 billion per year, while other reports put costs over \$200 billion annually. According to the Congressional Budget Office, if Congress adopted only a few of the malpractice reforms we have seen various States enact, such as Texas and Alabama, the deficit would decrease by \$54 billion over 10 years.

At the heart of this issue, beyond the costs and savings, is the damage the current liability system does to the relationship patients have with their doctors. When physicians are afraid they could be sued, not only do they run unnecessary tests and procedures, but the quality of care patients receive is compromised. A 2003 GAO report concluded that defensive medicine has also contributed to access issues, especially in rural areas. Physicians tend to move to States and areas with lower liability rates, and hospitals are able to expand available services.

It is estimated that attorneys' fees and administrative costs amount to 54 percent of the compensation paid to plaintiffs. Less than 15 cents of every dollar awarded actually goes towards compensation for the individual. This amendment is not about preventing compensation to injured individuals; it is about increasing access to doctors and lowering costs. In fact, this measure allows injured plaintiffs to keep more of the reward. The simple truth is that lowering the cost of doing business allows doctors to serve more people at lower costs.

On November 6, I received a letter from the Oklahoma State Medical Association, confirming that medical liability reform would reduce health care costs because the practice of defensive medicine adds billions of dollars to the yearly cost of health care. Oklahoma physicians pay anywhere from \$20,000 to \$90,000 a year, depending on their specialty, for malpractice insurance, and their yearly costs have risen astronomically since 1999 to the point that some specialties, like OB-GYNs, have had to change careers or move to other States where State malpractice reform is already in place. Since 1999, Oklahoma OB-GYNs have seen their yearly malpractice costs rise from \$15,000 to \$63,000.

Meaningful malpractice reform must be a part of any comprehensive health care reform. This is not a partisan

issue. As my colleagues mentioned yesterday, this amendment was actually proposed by Senator Kennedy in 1995, with the support of many current Senators on the other side of the aisle. It will be very interesting to see just how serious the Democrats are about health care reform. The bill has a "sense of the Senate" recognizing medical malpractice costs are a problem. We will see if they think it is important to really do anything about it.

The PRESIDING OFFICER (Mr. BROWNBACK). The Senator from Wyoming.

Mr. ENZI. Mr. President, the time for the colloquy has, unfortunately, expired. The balance of the time goes to the Senator from Iowa. I thank everybody for their participation.

The PRESIDING OFFICER. The Senator from Iowa is recognized.

Mr. GRASSLEY. Mr. President, I rise to speak in favor of the amendment of the Senator from New Hampshire.

Because as I have been saying, the people who wrote the excesses of the Reid bill appear willfully ignorant of what is going on in the rest of the economy outside of health care.

We are a nation facing very challenging economic times with industries in financial crisis and Federal debt increasing to all-time highs.

So we should be considering a bill that would create jobs and prevent this country from being burdened with a bigger and more unsustainable Federal budget instead of this health bill.

But instead, we are now considering a bill that cuts half a trillion dollars from the Medicare Program to fund yet another unsustainable health care entitlement program.

You have heard from Members on this side of the aisle about how flawed this approach is and how these drastic Medicare cuts will threaten beneficiary access to care.

Medicare's chief actuary at the U.S. Department of Health and Human Services has warned Congress in his report that these cuts could jeopardize access to health care for beneficiaries.

In fact, a number of Members on the other side of the aisle have made clear that they share our concerns when they joined us to vote in favor of motions to eliminate these cuts.

Most of the Members on the other side of the aisle, however, claim that this bill does no such thing.

They claim that Medicare money is not being used to start up yet another unsustainable entitlement program that we clearly can't afford.

They claim that the Reid bill doesn't technically change the law on guaranteed benefits for beneficiaries.

They are ignoring the fact that while those benefits may be technically guaranteed, if the cuts put health care providers out of business, then those guarantees will be nothing more than useless words in the Medicare Act.

Guaranteed benefits are not worth much without health care providers who can treat patients, provide home health services, run the hospitals and hospice agencies.

These claims are not good enough to assure seniors who have paid into the Medicare Program all these years. It is not good enough for protecting access to the health care services and benefits they were promised.

So the Gregg amendment would back up those claims with a real enforceable mechanism to ensure that Medicare savings aren't being used to fund a new program.

The Gregg amendment is needed to protect the Medicare Program.

After all, if you knew that the Medicare Program already had \$37 trillion in unfunded obligations, would you be assured without an enforcement mechanism to back up those promises?

No guarantee is worth the paper it is written on without an enforcement mechanism to back it up. Otherwise, it is just a meaningless guarantee. It is not real without an enforcement mechanism.

The Gregg amendment provides that enforcement mechanism. It makes the guarantee real.

Opposition to the Gregg amendment will shine a light on the issue. If the Gregg amendment is not approved, it should be clear to everyone watching that all the guarantees they are making that Medicare is protected in the Reid bill are, in fact, worthless. As a result, I hope that everyone will be watching carefully how the other side votes on the Gregg amendment.

Now supporters of the Reid bill trumpet the fact that their drastic and permanent Medicare cuts extend the life of the program.

I agree that we can't ignore the pending insolvency of the Medicare Program.

The Medicare hospital insurance trust fund started going broke last year. In 2008, the Medicare Program began spending more out of this trust fund than it is taking in.

The Medicare trustees have been warning all of us for years that the trust fund is going broke. They now predict that it will go broke right around the corner in 2017.

But rather than work to bridge Medicare's \$37 trillion in unfunded liabilities, this bill cuts half a trillion dollars from the Medicare Program to fund yet another unsustainable health care entitlement program.

By diverting Medicare resources elsewhere, this bill ignores other major problems in the Medicare Program, like fixing the physician payment flaw with the sustainable growth rate formula, or SGR as it is known.

So the few years of extended life this bill would give to the Medicare hospital insurance trust fund is a Pyrrhic victory.

Because the drastic and permanent Medicare cuts in this bill will worsen health care access and quality.

And the Reid bill leaves problems that have long been vexing Congress like the fatally flawed physician payment formula unsolved.

The Reid bill will leave Congress with few options for fixing these problems.

So the Gregg amendment is essential for protecting the Medicare Program. It is essential for making those guarantees real.

The way the Gregg amendment works to enforce those guarantees is quite simple.

The Gregg amendment would make sure that the Medicare Program is not used as a piggy bank to spend for other purposes. It would make sure that the Medicare Program is not being raided to fund this new program as the other side claims.

Under this important amendment, the director of the White House Office of Management and Budget and Medicare's chief actuary would both be required to add up non-Medicare savings in the bill and compare that total to the total of new spending and revenues in the bill.

If non-Medicare savings don't offset all the new costs, then the Treasury Secretary and the HHS Secretary would be prohibited from implementing the new spending or revenue provisions in the bill.

By doing so, the Gregg amendment would ensure that the non-Medicare savings are paying for the new spending in this bill. And it would ensure that Medicare itself is not being used to pay for the new spending in the bill.

It is that simple.

The amendment therefore would prevent massive government expansions at the expense of Medicare beneficiaries.

As you can see, this amendment has teeth. This amendment is real.

As opposed to a mere nonbinding sense of the Senate resolution that the other side has offered to pretend to protect Medicare, the Gregg amendment requires action to protect the Medicare Program.

The Gregg amendment is the enforcement mechanism for the guarantees the other side says they are making to protect Medicare benefits.

Slashing Medicare payments to start up another new unsustainable government entitlement program is not the way to address a big and unsustainable budget.

That is why I support the Gregg amendment. And I urge my colleagues to do the same.

Vote to protect Medicare.

Vote to keep Medicare from being used to fund a separate new program.

Vote to keep Medicare funds from being siphoned off.

Vote to put in place a real guarantee that Medicare funds won't be used.

Vote to back up those promises with real action.

I yield the floor.

The PRESIDING OFFICER (Mr. FRANKEN). The Senator from Wyoming.

Mr. ENZI. What is the status of the time?

The PRESIDING OFFICER. The minority has 50 seconds remaining, and the majority has 16 minutes 48 seconds.

Mr. ENZI. I will reserve the remainder of my time.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. DURBIN. I ask unanimous consent to be recognized for 5 minutes under the majority time.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DURBIN. Mr. President, one of the amendments we are about to consider is offered by the Senator from Nevada.

We know medical malpractice is an issue in this country. The Institute of Medicine tells us that 98,000 Americans die each year from medical malpractice. Many more are injured. In the United States of America each year, there are about 11,000 medical malpractice claims paid.

There is a concern about the impact of medical malpractice on the practice of medicine. That is why President Obama and this legislation were looking together for ways to reduce medical malpractice, negligence, and errors. We are looking for ways to reduce any number of lawsuits that may not be necessary. That is a good and positive thing for us to do.

Unfortunately, the amendment offered by the Senator from Nevada is not a good amendment to achieve that goal because what the Senator from Nevada does is puts together a formula for compensating the lawyers who represent the victims of medical malpractice and reduces the amount of money that is available. I want every single dollar we can bring to the victims of medical malpractice, but the fact is, in our country today, most victims are not wealthy, and the only way they can bring a lawsuit is if the lawyer says it is a contingency fee. If you, the victim, win, then I will be paid. If you lose, I am not paid. It is the only way many people of modest means can get into a courthouse.

The Senator from Nevada wants to limit the amount of money that can be paid to the attorneys, limit the opportunity for victims to be represented. If his goal is to reduce the money paid to lawyers, you would think the amendment would also reduce the money paid to defense lawyers, those insurance company lawyers who are at the other table in the courtroom. Studies show that 50 percent more is paid to them than paid to the victims' lawyers. But the Senator from Nevada does not restrict their payment in any way. In other words, if you are going to try to

defeat a victim of medical malpractice in a courtroom, you can spend an unlimited amount of money, according to the Senator from Nevada. However, if you are going to represent that victim, he would limit the amount of money that counsel, that attorney can be paid. It will mean fewer victims will have lawyers, and maybe some of the lawyers they have will not be the best because of the amendment offered by the Senator from Nevada. That is bad policy. It is not fair to the victims because many of these victims are innocent victims.

I recall a woman in Chicago who went to one of our more famous hospitals for the simple removal of a mole from her face. She was administered a general anesthesia, and during the course of the general anesthesia, the oxygen, which she was receiving, exploded, caught fire, and burned off her facial features. She went through repeated reconstructive surgery, scarring, disfigurement, pain and suffering.

She was an innocent victim. She did nothing wrong. She wanted to make sure her medical bills were paid, her lost wages were paid, there was compensation for her pain and suffering. She was not a wealthy person. She went to an attorney, who said: I will take the case, but it is a contingency. If you win, I am paid. If you lose, I am not paid.

What the Senator from Nevada does with his amendment is limit the opportunity for innocent victims, just like her, to go into a courtroom, into our court of justice, and see justice at the end of the day. That is not a just result. We need to stick with this bill, which moves us forward, with innovative ways to reduce medical errors, reduce medical malpractice, and find ways to resolve the differences between medical providers and the patients in the fairest possible way. That is what this bill does. That is what we should do.

The amendment that has been offered by the Senator from Nevada fails to reach that goal and is fundamentally unfair and unjust to victims who are just asking for a day in court and for the compensation which they deserve for their injury.

Mr. President, I reserve the remainder of my time.

The PRESIDING OFFICER. The Senator from Montana.

Mr. BAUCUS. Mr. President, I yield 2 minutes to the Senator from Arkansas.

The PRESIDING OFFICER. The Senator from Arkansas.

AMENDMENT NO. 2905

Mrs. LINCOLN. Mr. President, I think it is so important we look at the choice we will be making when we vote on this amendment in a few minutes. It is very simple. When health insurance reform becomes law, health insurance companies will receive millions of new customers purchasing their product for the first time.

My amendment is intended to encourage those insurance companies to put the additional premium dollars they will be bringing in with the volume of new customers back toward lowering their rates and making more affordable coverage for consumers, not putting it in their own pocketbooks.

Where health insurers spent more than 90 cents of every dollar on patient care in the early 1990s, that number has decreased dramatically to just over 80 cents for every dollar in 2007, and even more so in recent years.

According to testimony delivered in the Senate Commerce Committee earlier this year, this trend has translated into a difference of several billion dollars in favor of insurance company shareholders and executives at the expense of health care providers and their patients.

I think it is so important we understand what it is. This amendment does not dictate what insurance companies can pay their executives. They have the complete ability to pay what they choose. It is not a salary cap. But it does limit the American taxpayers' subsidization of outrageous pay and, instead, devotes those resources to protecting Medicare.

A vote for this amendment is a vote in support of strengthening the Medicare trust fund. A vote against this amendment is a vote in support of having the IRS write a check of \$650 million to the health insurance companies to subsidize the multimillion-dollar salaries they are paying their executives.

So I urge my colleagues to support this effort on behalf of the American taxpayer and our seniors and to vote in favor of our amendment.

Mr. BAUCUS. Mr. President, how much time is remaining on our side?

The PRESIDING OFFICER. There is 9 minutes 39 seconds remaining.

Mr. BAUCUS. Mr. President, I yield 9 minutes 39 seconds to my esteemed friend from Vermont.

The PRESIDING OFFICER. The Senator from Vermont.

Mr. LEAHY. Mr. President, I thank the senior Senator from Montana.

AMENDMENT NO. 2927

Mr. President, let me wear my hat as chairman of the Senate Judiciary Committee and talk about the amendment we are going to vote on to cap attorney fees. It is a one-sided amendment. It does not hurt attorneys. It hurts injured Americans who seek to recover damages in our court system. It may not be obvious to the nonlawyers listening to this debate that many ordinary Americans who suffer an injury through another's negligence cannot afford to pay for the legal representation they need to go to court.

Our legal system allows for a plaintiff and an attorney to negotiate to determine what the compensation is going to be. In these cases, the parties

sign a contract where the attorney may agree to work on a case with no compensation at all unless the victim ultimately receives compensation from the doctor or hospital responsible for the injury. This is called a contingency fee. In other words, a judge and a jury have to agree that person was injured and deserves this compensation. The parties do not do that. This allows all Americans, not just the wealthy, to have their day in court.

It should also be noted that if a judge believes a compensation agreement is unfair to the victim, or if they believe it is disproportionate, the judge has the power to reduce the fee. I believe this is the same in virtually every State in this country. States have regulated the area of attorney compensation extensively, striving for reasonableness. States have done this. Doesn't that make the most sense that the States decide?

Let's not forget that lawyers only are compensated if the client's case is successful and if a jury finds that a wrong was committed and if that jury finds they should be compensated. This is not some kind of windfall. It is the result of an attorney's very hard work to redress a wrong.

The pending amendment would override all of these traditional considerations. It would impose a flat cap on all attorney fees for significant injuries. But the amendment would not cap the attorney fees of those representing a negligent hospital or doctor. That hospital, those doctors—their insurance companies could pay any amount of money they wanted, for example, in the case—and there have been cases like this—where the wrong leg was amputated by mistake or a person was given the wrong medicine and they end up paralyzed.

But this amendment says, if that person who was paralyzed wants to sue, we are going to cap the amount of compensation that could be possibly paid to their attorney. But for the person who wants to escape liability for giving the wrong medicine that paralyzed a patient—their insurance companies, their hospitals—they can pay all however much they want for attorneys. They can pay their own counsel 10 times what a plaintiff's attorney might get in their effort to prevent a hospital or doctor from being held liable for that horrible mistake.

Trust me, this gives a defendant every incentive to prolong litigation. Why should they settle? Why should they admit wrongdoing? They have the deep pockets. Yet through this amendment, a plaintiff would be limited by the actions of the Senate—made up of 100 people who can afford a lawyer, unlike many of the people who are injured? And so are we going to say that the Senate has capped what a plaintiff's lawyer can get? By the way—wink, wink, nudge, nudge—if you are

the hospital, the insurance company for a doctor or somebody who has done a grievous wrong, just keep this thing rolling long enough because you have the money and you can just beat it down.

When a patient receives more than \$150,000 in medical expenses or compensatory or other damages, it is because the injury is severe and ongoing or because it resulted in death. Those patients are going to have a tougher time finding someone to hold the person who harmed them accountable. Adding this insult to injury does not further the laudable goals of the pending health care bill. We should be increasing patient safety and health, not punishing those who have already been injured by wrongdoing.

I understand that yesterday the junior Senator from Nevada identified several prominent Democrats as having supported a similar amendment offered by Senator Kennedy a decade ago in a Republican-controlled Senate. I am not surprised by this tactic, given the disappointing tenor of the debate. Of course, upon a review of the actual vote, anyone would see that several Senators in this Chamber, including this one, opposed a motion to table Senator Kennedy's amendment. That is hardly the same as advocating a cap on fees.

It is also worth noting that in 1995, the Senate was considering a draconian products liability bill, not a health care bill. At that time, the then-Republican majority was attempting to go further than any other Congress in history to prevent injured Americans from recovering damages from the corporations that hurt them or their children.

I am relieved that legislation in 1995 never became law. I can see why some might have wished it had. Maybe they knew what was going to come because after that, what came to light were many recent incidents of harmful products that had been introduced into commerce—many of them toys for little children—and nothing could have been done about it had that bill become law. If that bill had become law, I fear we would have seen many more deaths or serious injuries among children as a result of faulty products.

I find it ironic, given the often-professed loyalty to the sovereignty of the States and the sanctity of private contracts, many on the other side of the aisle now seem to have no concerns about the vast Federal intrusion into these areas of traditional State control that this and other medical malpractice reform proposals represent.

Basically they are saying: Oh, we are all for States rights and sovereignty of the States except when it may cost some of the big insurance companies some money. We are all in favor of the sanctity of private contracts—except when it may cost some of the big insurance companies some money.

So I am going to oppose the amendment offered by Senator ENSIGN. It is unfair. It will only hurt Americans who have already been injured by making it more difficult for them to gain access to our court system.

I yield the floor.

Mr. BAUCUS. Mr. President, how much time remains on this side?

The PRESIDING OFFICER. A minute and a half.

Mr. BAUCUS. A minute and a half. I yield 1 minute to my friend from California.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. Mr. President, I thank the Senator.

I have been listening to this debate. It has been very interesting. It is very clear what this amendment does. It hurts the victims who, through no fault of their own, get hurt in a medical malpractice case by essentially making it very difficult for them to get the best attorneys. Some of these cases cry out for the best attorneys.

But let me tell you, I have been in Congress since the 1980s. When a House Member or a Senator gets into trouble, do you know the first person they call? An attorney—the best attorney—and they do not come on this floor and say: Oh, let's make sure those attorneys do not earn enough money. They are willing to pay whatever it takes with their campaign accounts. By the way, that is all legal.

But I find it amazing that Senators—who the first person they call when they are in trouble through their work is an attorney—would wind up going after victims the way they do. When they are a victim of a problem, as they see it, they get the best attorneys and they pay the high price. It is just not right.

The PRESIDING OFFICER. Thirty seconds remain.

Mrs. BOXER. I hope we will defeat the Ensign amendment.

The PRESIDING OFFICER. The Senator from Montana.

Mr. BAUCUS. Mr. President, let me, in closing, remind Senators that the Senate is about to conduct two back-to-back votes. The first vote will be on the Lincoln amendment on executive compensation. The second vote will be on the Ensign amendment on attorney's fees.

Mr. President, I yield back the remaining time.

The PRESIDING OFFICER. Fifteen seconds remains on the minority side.

The Senator from Nevada is recognized.

Mr. ENSIGN. Mr. President, the Ensign amendment is going to come down to a choice: Are you on the side of the patients or are you on the side of the trial bar, personal injury attorneys. That is what it comes down to. Personal injury attorneys will be able to, on their contingency fees—the first

\$150,000 they will be able to collect 33½ percent. Anything above that, we are going to cap them at collecting 25 percent.

This was from an amendment that was offered in 1995 by Senator Edward Kennedy. Twenty-one Members of the current Democratic majority who were also Members of the Senate in 1995 who voted for that amendment. Let's see how that vote comes out today. It is the right amendment. Let's be on the side of the patient instead of the side of the personal injury attorneys.

The PRESIDING OFFICER. All time has expired.

The question is on agreeing to the Lincoln amendment.

Mr. BAUCUS. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be.

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) is necessarily absent.

Mr. KYL. The following Senator is necessarily absent: the Senator from Kentucky (Mr. BUNNING).

Further, if present and voting, the Senator from Kentucky (Mr. BUNNING) would have voted "nay."

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 56, nays 42, as follows:

[Rollcall Vote No. 365 Leg.]

#### YEAS—56

Akaka	Harkin	Nelson (FL)
Baucus	Inouye	Pryor
Bayh	Johnson	Reed
Begich	Kaufman	Reid
Bennet	Kerry	Rockefeller
Boxer	Kirk	Sanders
Brown	Klobuchar	Schumer
Burris	Kohl	Shaheen
Cantwell	Landrieu	Snowe
Cardin	Lautenberg	Specter
Casey	Leahy	Stabenow
Dodd	Levin	Tester
Dorgan	Lincoln	Udall (CO)
Durbin	McCaskill	Udall (NM)
Feingold	Menendez	Warner
Feinstein	Merkley	Webb
Franken	Mikulski	Whitehouse
Gillibrand	Murray	Wyden
Hagan	Nelson (NE)	

#### NAYS—42

Alexander	Cornyn	LeMieux
Barrasso	Crapo	Lieberman
Bennett	DeMint	Lugar
Bingaman	Ensign	McCain
Bond	Enzi	McConnell
Brownback	Graham	Murkowski
Burr	Grassley	Risch
Carper	Gregg	Roberts
Chambliss	Hatch	Sessions
Coburn	Hutchison	Shelby
Cochran	Inhofe	Thune
Collins	Isakson	Vitter
Conrad	Johanns	Voinovich
Corker	Kyl	Wicker

#### NOT VOTING—2

Bunning Byrd

The PRESIDING OFFICER. On this vote, the yeas are 56, the nays are 42.

Under the previous order, requiring 60 votes for the adoption of amendment No. 2905, the amendment is withdrawn.

Mr. REID. Mr. President, I move to reconsider the vote, and I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. REID. Mr. President, I have had a brief conversation this afternoon with the Republican leader. We originally were not going to offer a side-by-side to the Gregg amendment. We have one more vote. We would like Senators GREGG and PRYOR to lay down their amendments after that. Because we have told everybody we wouldn't be voting late tonight, we need to complete work on these matters in the morning. So we will debate this tomorrow.

It is my understanding that tomorrow there will be a bipartisan amendment on abortion. We can debate the Pryor and Gregg thing in the morning, and then we will debate abortion, and we will be able to dispose of the Gregg and Pryor matters no earlier than 3:15 tomorrow. So we are going to be debating these two things tomorrow.

I say this off the subject: We have been grinding things out here for some time on a very partisan basis. I was confronted yesterday with an issue. We are here working on a Sunday. We had the President come here to talk to the caucus. The Republican leader said: I don't really think that is fair. Why should we be out of session? It is your caucus. So I said: You keep talking; you can preside. I had no concern about any untoward action taken. In a situation such as that, I had no problem. I trust implicitly Senator MCCONNELL and Senator KYL.

I hope that is kind of a breakthrough here. We have to start trusting each other. It is rarely done. I have never seen that happen before. I think it is the right thing to do. I am disappointed that there weren't more Democrats listening to what they had to say. From a procedural perspective, I never doubted that everything would go fine.

We are going to have one more vote. We will not be in session much longer today.

The PRESIDING OFFICER. The minority leader is recognized.

Mr. MCCONNELL. Mr. President, I thank the majority leader. I did suggest yesterday that, since the President was not meeting with us, we had nothing constructive to do during that hour. I suggested that we be allowed to speak. We worked that out in our first bipartisan moment on this bill, as he indicated.

With regard to the agenda tomorrow, as the majority leader indicated, we have the Gregg amendment, the Pryor amendment, and the abortion amendment. We will have an additional amendment on this side as well. That is up to four.

Mr. REID. A counter to the abortion amendment or something like that?

Mr. MCCONNELL. No.

Mr. REID. Just an additional amendment.

Mr. MCCONNELL. Yes.

Mr. REID. Mr. President, I don't really know who is going to offer the amendment tomorrow for sure, but it is an issue I want to get out of the way. I think we all do. So it is OK. It will be our slot, no matter who will be the first person on the amendment.

AMENDMENT NO. 2927

The PRESIDING OFFICER. There is now 2 minutes of debate prior to a vote in relation to amendment No. 2927 offered by Senator ENSIGN.

The Senator from Nevada is recognized.

Mr. ENSIGN. Mr. President, the 2,074-page health care bill before us has a provision on medical liability reform. Here are the savings: zero.

Back in 1995, Senator Edward Kennedy offered an amendment on liability reform to cap attorney's fees. Twenty-one current Democratic Senators, who were Members at that time, voted for that amendment. This chart lists the Members who were in the Senate then.

The Members from the other side of the aisle have made arguments that plaintiffs need these contingency fees to be that high. Let me quote an abstract of a study written in the Washington University Law Quarterly:

Since 1960, the effective hourly rates of tort lawyers have increased 1,000 to 1,400 percent (in inflation-adjusted dollars), while the overall risk of nonrecovery has . . . decreased materially for such high-end tort categories as . . . medical malpractice.

Mr. President, the complete study that I just quoted an abstract of, is entitled, Effective Hourly Rates of Contingency Fee Lawyers: Competing Data and Non-Competitive Fees. I would urge all of my fellow Members to review that study.

Let me also quote from Howard Dean, who said:

The reason why tort reform is not in the bill is because the people—

The PRESIDING OFFICER. The Senator's time has expired.

Mr. ENSIGN. Mr. President, I ask unanimous consent for 30 more seconds.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEAHY. Reserving the right to object. If the Senator receives an extra minute, then we will have an extra minute on this side.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ENSIGN. Howard Dean said:

The reason why tort reform is not in the bill is because the people who wrote it did not want to take on the trial lawyers in addition to everybody else they were taking on, and that is the plain and simple truth. Now that's the truth.

That is a quote from Howard Dean.

We have a choice. We can be on the side of personal injury attorneys or we can be on the side of the patients. I think we should be on the side of the patients and vote for the Ensign amendment.

The PRESIDING OFFICER. The Senator from Vermont.

Mr. LEAHY. Mr. President, it is hard to respond to all the inaccuracies in the statement of the junior Senator from Nevada.

One, incidentally, he may be interested in knowing, as I was leaving Burlington, VT, this morning after saying goodbye to a number of our Guard members I ran into Howard Dean. He hopes we will pass the bill that is on the floor.

Second, the motion he talks about and those who voted, including this Senator, was a procedural motion on a question of tabling Senator Kennedy's amendment. We thought he should be allowed to have a vote. It was not a vote in favor of caps.

Lastly, if you look at what he has done with this amendment, he is saying that the insurance companies and the hospitals or somebody who may have cut the wrong leg off or paralyzed you by giving you the wrong medication, they can spend all the money they want to stop you from getting any relief. You, however, will be limited and the Federal government will override the laws of your State and tell you what you can contract for on fees with your attorney.

In other words, the people who caused the damage can spend any amount of money they want to escape liability from the damage. The poor individual who has been damaged would not have an equal chance at recompense. Come on. Is the Senate actually going to vote for something like that? I would hope not.

Mr. ENSIGN. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The question is on agreeing to amendment No. 2927.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) is necessarily absent.

Mr. KYL. The following Senator is necessarily absent: the Senator from Kentucky (Mr. BUNNING).

Further, if present and voting, the Senator from Kentucky (Mr. BUNNING) would have voted "yea."

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 32, nays 66, as follows:

[Rollcall Vote No. 366 Leg.]

#### YEAS—32

Alexander	Grassley	McCain
Barrasso	Gregg	McConnell
Bond	Hagan	Murkowski
Brownback	Hutchison	Roberts
Burr	Inhofe	Sessions
Coburn	Isakson	Snowe
Corker	Kohl	Thune
Cornyn	Kyl	Vitter
DeMint	Lieberman	Voinovich
Ensign	Lincoln	Warner
Enzi	Lugar	

#### NAYS—66

Akaka	Feingold	Mikulski
Baucus	Feinstein	Murray
Bayh	Franken	Nelson (NE)
Begich	Gillibrand	Nelson (FL)
Bennet	Graham	Pryor
Bennett	Harkin	Reed
Bingaman	Hatch	Reid
Boxer	Inouye	Risch
Brown	Johanns	Rockefeller
Burr	Johnson	Sanders
Cantwell	Kaufman	Schumer
Cardin	Kerry	Shaheen
Carper	Kirk	Shelby
Casey	Klobuchar	Specter
Chambliss	Landrieu	Stabenow
Cochran	Lautenberg	Tester
Collins	Leahy	Udall (CO)
Conrad	LeMieux	Udall (NM)
Crapo	Levin	Webb
Dodd	McCaskill	Whitehouse
Dorgan	Menendez	Wicker
Durbin	Merkley	Wyden

#### NOT VOTING—2

Bunning Byrd

The PRESIDING OFFICER. On this vote, the yeas are 32, the nays are 66. Under the previous order requiring 60 votes for the adoption of this amendment, the amendment is withdrawn.

Mr. DURBIN. Mr. President, I move to reconsider the vote and to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. COBURN. Mr. President, I am going to ask to have printed in the RECORD a letter dated December 1, 2009, from the insurance commissioner of the State of Oklahoma—she happens to be of your party, the majority's party—outlining the significant problems that she sees for our State if this bill becomes law. This is not a partisan document. This is a document that relates to what is going to happen to Oklahoma.

If I might summarize, very shortly: It will increase premium costs and increase the number of uninsured people in Oklahoma. That is according to our State insurance commissioner, who is of your party. It will decrease the amount of availability of insurance to people who do not have insurance today.

The letter states it will not rein in the cost. In fact, it will increase costs for everybody else in the State of Oklahoma. It will drive up costs and increase the number of uninsured. It will increase the costs for the private plans, negatively impacting medical providers and the health delivery system in Oklahoma, and it will encourage

fewer businesses in Oklahoma to offer benefits.

That is a fairly strong indictment from somebody who cares about the people of Oklahoma and what is going to happen in health care.

Mr. President, I ask unanimous consent to have printed in the RECORD this letter from the State insurance commissioner of Oklahoma.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

OKLAHOMA INSURANCE DEPARTMENT,

STATE OF OKLAHOMA,

Oklahoma City, OK, December 1, 2009.

Re Senate Leadership Bill Patient Protection and Affordable Care Act.

Senator TOM COBURN,  
Russell Senate Office Building,  
Washington, DC.

DEAR SENATOR, I appreciate the opportunity to give you an Oklahoma perspective on the latest health care reform measure being considered by the US Senate. As you are well aware, the challenges associated with health care in America are immense. These complex problems require solutions grounded in fact and sound deliberation.

Large numbers of uninsured Oklahomans generate more than \$954 million dollars in uncompensated medical care each and every year in our state alone. This cost is shifted to those with insurance. Recent estimates indicate that this adds an additional \$2,911 annually to health insurance premiums for an Oklahoma family of four.

As Oklahoma Insurance Commissioner, I strongly support efforts to provide our citizens with high quality health care and affordable health insurance. Many features of the Senate Bill attempt to accomplish this, at least in part, when taken together. However, in the absence of a strong inducement to purchase coverage, the consequences of adverse selection can cause market disruption, higher costs and lower than desired take-up rates.

#### IMPACT TO OKLAHOMA

##### (1) Individual Mandate:

The Oklahoma Health Care Authority has estimated that there are nearly 600,000 uninsured working Oklahomans—nearly half between the ages of 19 and 32. There is no indication that most of those uninsured would voluntarily enroll in any health benefit plan.

Our popular Insure Oklahoma individual plan offers comprehensive, guaranteed issue coverage to individuals earning less than 200% of federal poverty level for less than \$40 per month, yet we have only 6,000 covered by that plan and most are over age 30. A healthy 25-year-old male in Oklahoma can purchase a comprehensive individual health insurance policy from a major Oklahoma medical insurer for just \$1,634 annually. In Oklahoma, affordability is not the issue for this age cohort. Therefore, we support an individual mandate to purchase health insurance that includes a strong inducement to take up health coverage to avoid the likelihood of adverse selection when only the older and healthier are motivated to enroll.

The Senate Leadership bill includes a minor penalty for non-enrollment scheduled to be phased in over a three year period beginning in 2014. The penalty is \$95 the first year, increasing to \$750 in year three. This penalty is inadequate to induce a large-scale take up of health coverage among Oklahoma's uninsured. Even with generous premium credits, the absence of a strong non-

compliance penalty will not encourage the desired and necessary take-up among the young and healthy to offset the greater risk and cost of the older and unhealthier.

(2) Guarantee Issue:

The Senate Leadership bill would require insurers to offer individual plans on a guaranteed issue basis without pre-existing condition limitations. We support guaranteed coverage when accompanied by a mandate to purchase coverage that is strongly enforced. The absence of a meaningful penalty for non-enrollment will likely result in those with chronic or serious health issues purchasing coverage while younger healthier individuals simply choose to pay the nominal penalty. The result will be higher insurance rates due to a higher percentage of insured being higher risk/expense individuals.

(3) Qualified Health Benefit Plans (QHBP):

The Senate Leadership bill would establish "Qualified Health Benefit Plans" and require all individual/family plans to conform to QHBP standards by 2014. While the minimum coverage requirements are suitable for some, they restrict individual choice and limit the ability of healthy and/or wealthier individuals from self-insuring part of their risk.

(4) Rating Standards:

The Senate Leadership bill would restrict the use of risk factors in determining rates to geographic area, smoking and age and would limit age bands to a 3:1 ratio. The age band restriction will shift the cost of the older individual to the younger individual. Blue Cross estimates that this factor alone will increase the base cost for a healthy 25-year-old by 44 percent in Oklahoma. This higher cost burden on the young will further discourage coverage take-up and drive up costs to the remaining insured's.

(4) Employer Penalties:

The Senate Leadership bill would impose a penalty on employers who do not offer coverage equal to \$750 for any employee who purchases coverage through a state exchange. This penalty is inadequate to induce an employer to establish a plan. Most employers who do not offer coverage have fewer than 50 employees (only 37 percent of Oklahoma small businesses offer coverage compared to 48 percent nationally) and most uninsured Oklahomans work for small businesses. This nominal penalty creates a potential incentive for certain small employers who currently offer coverage to employees to drop their plan and simply incur the penalty at less expense than the cost of a plan—particularly once the small employer tax credits sunset.

(5) State-Based Health Insurance Exchanges:

The Senate Leadership bill would require the formation of state-based exchanges from which individual coverage would be solely available and small group insurance may be purchased. While we support the state-based exchange concept and are currently in the planning stages for a similar concept here in Oklahoma, the infrastructure costs have been estimated in the millions of dollars. In the absence of a financial grant, current state budget limitations will preclude Oklahoma from making the necessary investment to create the exchange.

(6) Public Health Insurance Option:

The Senate Leadership bill would allow for a federal "Public Health Insurance Option" from which states may opt-out. Oklahoma would likely resist participation as long as the private insurance market remains robust and competitive. Although the bill provides that the federal government would "negotiate" provider rates, experience with Medi-

care and Medicaid suggests that reimbursement rates for a federal public option would result in low reimbursement rates.

Currently, our medical provider community relies on private pay to make up the difference in cost of services over government reimbursement rates resulting in higher private insurance rates—more cost-shift. In addition, we have concerns over the potential for government to assert an unfair advantage that would adversely affect our insurance markets and further stress our health care delivery system.

(7) Health Insurance Cooperatives (Co-Ops):

The Senate Leadership bill would provide funding to establish non-profit health insurance "co-ops." We question the likelihood that this notion will produce a lower cost option while meeting all requirements stipulated in the bill (specifically, benefit and solvency requirements). Some of the principles embodied in this idea already exist. For example, Oklahoma's largest health insurer, with nearly 30% of the Oklahoma health insurance marketplace, is a mutual company owned by policyholders for the benefit of policyholders.

(8) Premium Credits:

The Senate Leadership bill would provide "Premium Credits" for individuals with incomes up to 400% of FPL. The majority (approximately 65%) of Oklahoma's uninsured population have incomes less than 250% of FPL. Currently, 74% of Oklahoma's total population has incomes of 400% of FPL or less.

(9) Medicaid Eligibility Expansion:

The Senate Leadership bill would increase eligibility requirements for Medicaid. Recently, the Oklahoma State Coverage Initiative (SCI) process reached consensus and recommended that Medicaid be extended to adults with incomes up to 100% of FPL. The Senate Leadership bill would expand eligibility to all non-elderly persons with incomes up to 133% of FPL. This would increase Medicaid rolls by an estimated 285,000 adults and the state's annual cost share by \$116 million. This rough estimate is based on current Medicaid experience and does not include working-aged individuals who have not accessed reasonable and timely medical care due to an inability to pay. Our concern is that the cost of this expansion for the state is severely underestimated.

(10) Long-Term Care:

The Senate Leadership bill would provide for a federal, voluntary long-term care insurance plan. This plan appears to directly compete with the private insurance market based on reasons other than need.

(11) Anti-Trust Exemption:

The Senate Leadership bill would leave in place the anti-trust exemption established by the McCarren-Ferguson Act. We support such a decision. This exemption has long provided for a more competitive insurance marketplace and has facilitated solvency among carriers.

(12) Controlling Cost:

As mentioned in the opening of this letter, coverage is essential to increasing access to affordable health care. However, this bill does very little to address rapidly increasing health care costs. Data shows that the number one driver in health insurance premium costs are increased medical costs and utilization. As you know, on average, between \$0.80 and \$0.90 of every premium dollar for a comprehensive health plan is spent directly on benefits to policyholders.

In Oklahoma, we are studying the issue of rising costs as it relates specifically to our non-profit self-insured state plan. Medical

costs for the Oklahoma State Employee and Education Group Insurance plan have increased an average of 10% annually in recent years.

Of concern to us are reports from the CBO and others that the Senate reform plan will reduce premium costs. In actuality, we believe premium costs will rise substantially if adverse selection is allowed to occur and if the cost of medical care is not addressed. While the generous premium subsidies contemplated by the bill will indeed reduce an individual's expense in financing their health care needs (a strategy we agree is necessary to ensure affordability), health insurance premiums will not be lower.

Again, I thank you for the opportunity to provide this perspective and I hope that you have found it helpful. If you wish to further discuss this matter, please do not hesitate to contact me at anytime.

Sincerely,

KIM HOLLAND,  
Commissioner.

Mr. COBURN. Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mr. GREGG. Mr. President, I ask unanimous consent to call up my amendment No. 2942.

I see the Senator from Arkansas is standing. I thought I was supposed to offer my amendment first. Is the Senator from Arkansas supposed to go first?

Mr. PRYOR. I believe the sequence was that I would go first.

Mr. GREGG. I will reserve.

The PRESIDING OFFICER. The Senator from Arkansas.

AMENDMENT NO. 2939 TO AMENDMENT NO. 2786

Mr. PRYOR. Mr. President, I call up amendment No. 2939.

The PRESIDING OFFICER. The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Arkansas [Mr. PRYOR] proposes an amendment numbered 2939 to amendment No. 2786.

Mr. PRYOR. I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To require the Secretary to provide information regarding enrollee satisfaction with qualified health plans offered through an Exchange through the Internet portal)

On page 134, between lines 10 and 11, insert the following:

(4) ENROLLEE SATISFACTION SYSTEM.—The Secretary shall develop an enrollee satisfaction survey system that would evaluate the level of enrollee satisfaction with qualified health plans offered through an Exchange, for each such qualified health plan that had more than 500 enrollees in the previous year. The Exchange shall include enrollee satisfaction information in the information provided to individuals and employers through the Internet portal established under paragraph (5) in a manner that allows individuals to easily compare enrollee satisfaction levels between comparable plans.

Mr. GREGG. Mr. President, I ask unanimous consent that the amendment of the Senator from Arkansas be

set aside so I may call up my amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 2942 TO AMENDMENT NO. 2786

Mr. GREGG. Mr. President, I call up amendment No. 2942.

The PRESIDING OFFICER. The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from New Hampshire [Mr. GREGG], for himself, and Mr. CORKER, Mr. THUNE, Mr. COBURN, Mr. ENSIGN, Mr. ISAKSON, Mr. BURR, Mr. ENZI, Mr. ALEXANDER, Mr. BARRASSO, Mr. CORNYN, Mr. MCCAIN, and Mr. LEMIEUX, proposes an amendment numbered 2942 to Amendment No. 2786.

Mr. GREGG. I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To prevent Medicare from being raided for new entitlements and to use Medicare savings to save Medicare)

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . PREVENTING THE IMPLEMENTATION OF NEW ENTITLEMENTS THAT WOULD RAID MEDICARE.**

(a) BAN ON NEW SPENDING TAKING EFFECT.—

(1) PURPOSE.—The purpose of this section is to require that savings resulting from this Act must fully offset the increase in Federal spending and reductions in revenues resulting from this Act before any such Federal spending increases or revenue reductions can occur.

(2) IN GENERAL.—Notwithstanding any other provision of this Act, the Secretary of the Treasury and the Secretary of Health and Human Services are prohibited from implementing the provisions of, and amendments made by, sections 1401, 1402, 2001, and 2101, or any other spending increase or revenue reduction provision in this Act until both the Director of the Office of Management and Budget (referred to in this section as “OMB”) and the Chief Actuary of the Centers for Medicare and Medicaid Services Office of the Actuary (referred to in this section as “CMS OACT”) each certify that they project that all of the projected Federal spending increases and revenue reductions resulting from this Act will be offset by projected savings from this Act.

(3) CALCULATIONS.—For purposes of this section, projected savings shall exclude any projected savings or other offsets directly resulting from changes to Medicare and Social Security made by this Act.

(b) LIMIT ON FUTURE SPENDING.—On September 1 of each year (beginning with 2013), the CMS OACT and the OMB shall each issue an annual report that—

(1) certifies whether all of the projected Federal spending increases and revenue reductions resulting from this Act, starting with the next fiscal year and for the following 9 fiscal years, are fully offset by projected savings resulting from this Act (as calculated under subsection (a)); and

(2) provides detailed estimates of such spending increases, revenue reductions, and savings, year by year, program by program and provision by provision.

Mr. PRYOR. Mr. President, I ask unanimous consent that no further amendments or motions be in order today.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from North Dakota.

Mr. DORGAN. Mr. President, this issue of health care and health care reform has been an issue that has caused a great deal of advertising and claims on television from both sides, back and forth. A substantial amount of the advertising we have seen has been totally and completely without foundation—completely inaccurate. But, nonetheless, political dialogue in this country allows one to say whatever one wishes, so the very aggressive discussion about this issue of health care has taken on interesting tones—claims by some that Congress is working to undermine the Medicare Program.

The fact is, those of us on this side of the aisle are the ones who created the Medicare Program, at a time when most senior citizens had no health insurance at all. There were no insurance companies in this country tracking down senior citizens and saying: Do you mind if we sell you a policy for health care? At a time when people's lives were going to need an increasing claim on health care benefits, were insurance companies tracking them down and saying: Can I do business with you? Of course they weren't. Over half the American people had no access to health insurance. Folks reaching the end of their lives, retired, would lay their head down on their pillow at night and wonder if tomorrow would be the day they would get sick and have no health insurance coverage; and wonder if they would get sick, who would treat them or how they would find the money to provide for themselves. So the fact is, this Congress created something called Medicare at a time when it was decided that maybe we should put together a program to give senior citizens an opportunity to be covered with health care.

It was decried as socialism—unbelievable—when we tried to put together this government program to provide Medicare for senior citizens. Some old guy in a little town in North Dakota one night, at a town meeting, got up, and he was so angry with the government. He shook his hand as he spoke. He was a thin, older guy, and his neck was coursing out and bulging so that I thought he was going to have a heart attack right there, shouting about the government. At the end of the meeting, an elderly woman took me aside and said: You know what, I hope you are not upset with Ernie because he's been pretty emotional about a lot of things. He just had open heart surgery and he gets kind of emotional about things.

So I saw the gentleman as he was leaving, and I sidled up to him and I said: I understand you just had open heart surgery, and he said: Yeah. So I asked him if his surgery was covered by Medicare, and he said it was. I said: Well, there is at least one government

program that works. He said: Medicare “ain't” government. It just “ain't” government.

Well, of course, it is government. The reason he had health insurance coverage was because we—that is we the government, the Congress, the American people—decided we weren't going to let people come to the end of their years and not have health insurance coverage.

Some might say: Well, yes, you put together Social Security and Medicare and now you have trouble financing it. That is true. That is true. We have trouble financing it because of success. We can handle success. Our country can handle success. People are living longer and better lives these days—longer and better lives—and they claim more health care during those extra 5, 10 or 20 years they are living.

I have often told my colleagues that I have an 89-year-old uncle who runs in the Senior Olympics. He runs the 50 meter, the 100 meter, and the 200 meter. He runs the 100 meter in under 19 seconds at age 89. Would that have happened 30 years ago? Not likely. But people are living longer and healthier lives and it causes some strain on Social Security and Medicare, but we can deal with success. Surely, we can deal with success.

Now we are talking about a system of health care that doesn't work for everybody or it doesn't work very well for many people and it works very well for some others. But should we do nothing or should we decide to try to tackle this question?

I walked into a restaurant about 2 weeks ago, and I saw what several of my colleagues have seen: advertisements on the wall. This particular restaurant, as you walk through the door, has a plate glass window up to the ceiling, and it had a couple of advertisements on it. Both of them were advertisements for people who needed to raise money to try to pay for their health care costs—spaghetti dinners, bake sales, various things to ask people to come and chip in some money for their health care needs.

Let me read a few of them. I will not read the name, but this one is a benefit for Chris's family: A spaghetti feed and silent auction is going to be held from 5 to 7:30 p.m. to benefit Chris. He is a sheriff's deputy who was shot in the head and the abdomen while on duty and is still recovering at a rehabilitation hospital outside of Denver, CO. They will have a spaghetti feed and silent auction to try to raise the funds to benefit that family for their needs.

Here is a spaghetti supper, silent auction, bake sale, free-will offering for supper or donations to be made to the Duane fund at the Community National Bank. He has stomach cancer that has spread to other areas and is undergoing various treatments and needs help with medical and living expenses.

This is what you see on the side of the wall in cafes, posted to a bulletin board downtown: A burger supper and free-will offering to be held for Amy. In July, Amy was diagnosed with uterine cancer, which has metastasized to the lymph nodes. She has had surgery and is now undergoing chemotherapy radiation and needs to raise funds for health care costs.

Here is a pancake breakfast to be held for Sean in the school cafeteria. Scrambled eggs, pancakes, and sausage will be served, and there will be a free-will offering. Sean's infant daughter was born with a heart defect and needs corrective surgery and a lengthy stay in the hospital. The staff is hosting the event to defray the expenses so they can provide the funds to try to afford this very expensive medical treatment.

Joyce is the mother of Brandy. Brand is a 16-year-old who was involved in a car accident weeks after her parents decided to give up their health care coverage so they could afford mortgage payments. The family had a meatball and mashed potato dinner benefit last month to help pay for Brandy's health care needs.

I have a long list. The list goes on, and one wonders whether we should be oblivious to that, that we walk into the business places in the downtowns and the Main Streets of our communities and see that there are many people who have to have a spaghetti supper or burger feed to see if they can raise enough money just to get to the hospital, just for transportation, let alone the surgery, let alone the medical treatment.

I think it is the worst, not the best of our political system that when we debate these things, there is so much misinformation, so much bad information that is alleged about legislation to try to deal with health care.

It is interesting to me, I do not know of an attempt of a government takeover of the health care system. I have heard it 1,000 times on this floor. I am not familiar with any legislation that has been discussed that represents a government takeover of health care. I am just not familiar with it. Maybe it exists in some cubbyhole someplace, but I have not seen it. But I know why the allegation comes to the floor every day—because it works. Scare the devil out of people. Somebody is trying to have a complete government takeover of the health care system. I wouldn't support a government takeover of the health care system. I wouldn't support it. I do support Medicare. By the way, that is a government-created system to make sure all citizens have access to health care because the private industry is not going to get there. They didn't prior to Medicare, and they wouldn't now if we didn't have Medicare.

The very people who come and talk about government health care, it is in-

teresting they do not come to the floor of the Senate offering an amendment that would abolish Medicare. I don't understand—if, in fact, they really do not like this at all, they should be offering an amendment that abolishes the Medicare Program, saying it is just not worthy, to have a system in which the government tries to guarantee health care for America's seniors. The reason I think they do not is they agree with Medicare. They believe Medicare should exist, and as a result, they support a form of government health care, at least for senior citizens.

What I want to do briefly—I will talk more about that later. I am going to offer an amendment. I expect it will be tomorrow night or Tuesday.

I see Senator GRASSLEY is on the floor. He has been a cosponsor of this legislation, Senator SNOWE, Senator MCCAIN and others—many on my side—Senator STABENOW. There are a lot of folks who have worked on this, the issue of prescription drug importation. I want to make a couple of comments about that. I have not been on the floor speaking about the health care much until now, and I will be offering this amendment; I guess it will either be tomorrow evening or I expect it to be on Tuesday. But I want to make a couple of comments about it because I think it is very important.

I don't think you can leave the issue of health care, having tried to do things about the escalating costs—some people talk about bending the cost curve, whatever that means. All I know is, putting the brakes on increasing costs at the time they are skyrocketing is important for businesses, for families, for individuals. The question is, What about prescription drugs? How can we possibly leave that subject behind?

There are a whole lot of people in this country who are taking prescription drugs to manage their diseases and keep them out of an acute-care bed in a hospital. Cholesterol-lowering medicine, blood pressure-lowering medicine—a whole lot of people take both every day of their lives and do so to manage health care problems. Yet what they see with brand-name prescription drugs is a dramatic increase in prices. I want to just give some examples.

This year alone, the average price of brand-name prescription drugs has gone up 9.2 percent, well over quadruple the rate of inflation. Justification for that? I see none. Should we do something about it? Should we try to put the brakes on some of this? I think we should. Let's look at some examples. Enbrel, for arthritis, up 12 percent in 2009; Nexium, for ulcers, up 7 percent in 2009; Lipitor, up 5 percent; Singulair, for asthma, up 12 percent; Plavix, up 8 percent; Boniva, for osteoporosis, up 18 percent this year.

All of us understand—you watch television in the morning and brush your

teeth, you have a television set there someplace, and they are saying to you: Do you know what you should be doing? You should be going to talk to your doctor. You should talk to your doctor and see whether the purple pill is right for you.

I don't know what the purple pill is, but the television commercial is pretty seductive. You almost feel like: I ought to find a doctor someplace; maybe I am missing something; maybe the purple pill is right for me.

The list goes on and on. Flomax, Lipitor—you name it, they are advertising it relentlessly. Go ask your doctor whether these pills are right for you.

The problem is, the American people, with respect to the price of prescription drugs, are charged the highest prices in the world. Not even close—brand-name prescription drugs cost much more here than anywhere else in the world.

I have in my desk something I would like, by consent, to show. These are two bottles of Lipitor. This is, by the way, the most popular cholesterol-lowering drug in America. These bottles, as you can see, are the same shape. These pills are made in the same place. They are made in Ireland and then shipped around the world. This bottle was shipped to the United States. This bottle, with 20-milligram tablets of Lipitor, was shipped to the United States. You get to buy them as a U.S. consumer for \$4.48 per tablet. This bottle—one is red, one is blue, same size, same pills, same company—this bottle went to Canada, same 20-milligram tablets. No, it was not \$4.48, which the American consumer paid, it was \$1.83. It does not matter whether it is Canada, Italy, Spain, Germany, France—I would cite exactly the same numbers in terms of the American people being told they should be paying double, triple, in some cases quadruple what other people are paying for exactly the same prescription drug.

On this chart, this represents inflation—the yellow line. This represents the increased prices for prescription drugs—the red line—which I think demonstrates clearly why something ought to be done.

A group of us have put together a piece of legislation that is simple, and, in my judgment, very effective in addressing this problem that the American people are charged the highest prices in the world for brand-name prescription drugs.

An example of that, I sat on a straw bale out on a farm once about a year or so ago with some people at a town meeting. One of the old guys out there—he was about 80 years old—he said: My wife and I have driven to Canada every 3 months so she could buy Tamoxifen to treat her breast cancer.

I said: Why did you do that?

He said: Because we can't afford to buy Tamoxifen in the United States. I

bought it for one-fifth of the price in Canada of what it would cost us. My wife has been fighting breast cancer—in her late seventies now—for 3 years, and the only way we could afford the drug was to drive into Canada.

Most people cannot drive into Canada. There is an informal opportunity for people to bring back a 3-month supply on their person if they go to Canada. Most Americans cannot possibly do that. But the same drug is sold all over the world by the major drugmakers, and the difference is they charge the highest prices to the American people.

The question is this: Why shouldn't the American people have some freedom—the freedom to shop for that same FDA-approved drug wherever it is sold if it is sold at a fraction of the price? The answer is, they should have that freedom. Our legislation gives them that freedom.

I assume there will be people coming here and saying: If you pass this legislation, that allows the American people to access, through pharmacists or through registered wholesalers, these identical FDA-approved drugs for a fraction of the price. If you do that somehow, we are worried we will have an unsafe drug supply, we are worried about counterfeit drugs.

In this legislation I put together with my colleagues, Senator SNOWE, Senator STABENOW, and Senator GRASSLEY—a wide range, bipartisan group of Senators—that is pretty unusual. This is a bipartisan amendment, by the way. But in our legislation, we have the significant changes that are necessary to ensure safe drug supply, not just those you would ship in but those you buy here. We talk in our legislation about batch lots and pedigree and a whole series of things. So you track every drug right back through the chain of custody, right to its manufacturer, and that is something we do not do today.

When we offer this, the question is, Do we have the votes to get this passed? We have tried for a long time. We have been rebuffed here and there for various reasons.

There is a supposed “deal” that has been struck with the pharmaceutical industry, for \$80 billion. I think the pharmaceutical industry has something like \$220 billion a year in revenues, so that is \$2.2 trillion over 10 years. A very small fraction of that \$220 billion was agreed to by the White House, I guess, and somebody here in Congress.

One of my colleagues who served here years ago said, “I am not for any deal I am not a part of.” Most Members of the Senate were not part of any deal. So my expectation is, the time and place and reason to offer this is right now. We can't do health care and leave behind this question of the cost, the price of prescription drugs.

I think the drug industry is a fine industry. I want them to succeed. I want

them to be profitable. I want them to be successful. I want them to produce the new miracle lifesaving drugs, and by the way, much of that comes from public investments we make in the National Institutes of Health. But I just want them to change their pricing strategy. Why should the American people be paying the highest prices in the world?

Europe has had a strategy—it is called parallel trading—that they have had in place over 20 years. If you are in England and want to buy a drug from France, no problem. If you are in Spain and want to buy a drug from Italy, no problem. They have done it for 20 years successfully. Somehow, people are suggesting that we can't do what the Europeans do? That is nonsense.

We are going to offer this legislation: Myself, Senator MCCAIN, I mentioned Senator STABENOW, Senator GRASSLEY—there are so many Members of the Democratic and Republican side on this. We will offer this legislation, and I hope we will have the 60 votes necessary to pass it. I hope finally, at last—at long, long last—we will have enough people standing on the floor of Senate who will say: You know what, I am on the side of the American people here. I am not interested in having the American people pay the highest prices in the world for prescription drugs. How about some fair pricing for a change, fair pricing for the American people? And how about some freedom, freedom for the American people to access those identical drugs where they are sold at a fraction of the price? Why restrict the freedom of the American people? Everybody talks about this being a global economy. Well, that is so when it benefits everybody else, but what about a global economy that benefits the consumer when they want to access an FDA-approved drug when it is sold elsewhere for a half, quarter, or eighth of the price?

Let's give people a little freedom. I hear people talk about freedom on the floor of the Senate. This will be a bill in which we decide whether we want to give the American people the freedom to access those low-cost prescription drugs.

I am going to have a lot to talk about when we offer this amendment.

Just this year, again, just this year the price of prescription drugs has increased 9.2 percent.

I showed the chart. There is no reason that brand-named prescription drugs should be on a stepladder like that. What about the people who struggle, trying to figure out how to buy those drugs? Does anybody care about them?

They say the deal that was made with the pharmaceutical industry affects what is called the doughnut hole, and 50 percent of the doughnut hole is being filled if they buy brand-named—I don't care about that. That is a recipe

for a stew I was not part of making. What I do care about is a whole lot of folks going to the grocery store where the pharmacy is in the back of the store and they are trying to figure out, what do these drugs cost me this time when I fill them so I know how much money I have left to buy food. Over and over in this country, people are making those choices. There is no excuse for a 9-percent increase in these brand-name prescription drugs this year, in anticipation of health care reform.

The fact is, health care reform ought to contain the kinds of things that begin to put brakes on this.

I am not saying you put the brakes on it by imposing government pricing. I am saying you put the brakes on it by giving the American people the freedom to access those drugs where they are sold at a fraction of the price they are sold here. And you give the American people that freedom, I guarantee you, they will shop where they get the best price on identical drugs, FDA approved. It will force the pharmaceutical industry to reprice drugs in the United States.

A couple quick points in conclusion. President Barack Obama was a cosponsor of this legislation last year when he was a Senator. The Chief of Staff at the White House, Rahm Emanuel, was one of the leaders in the House on this legislation last year when he served in the House. It tells you a little something about the breadth of support that exists or existed for this. Somebody told me at the door as I came in: We are not sure the White House is supporting this. I fully expect the White House to support an amendment they supported last year in the Senate.

There are big issues and small issues. This issue is an important issue. A lot of us have worked for a long time to get it right. We have been thwarted by a very powerful industry that has a lot of friends in this town. I am hoping the consumers have a lot of friends as well. A lot of people are out there struggling to try to figure out how to afford the prescription drugs they need to take. A whole lot of folks are deciding, I guess what I will do is get the prescription drugs the doctor says I should have, and I will cut them in half and see if I can make that work somehow. The next time they show up at the counter, it is 9 percent more.

I say knock off a little of that advertising. There are different reports, but there are some reports that say they spend more money on marketing promotion and advertising than they do on research. How about knocking off a little of that advertising if that is causing some of the relentless price increases.

I want to begin the discussion because we will have a full discussion on this when it comes to the floor. It will be either tomorrow afternoon or Tuesday morning. Senator MCCAIN will be

joining me on the floor and many of my colleagues on both sides of the aisle to see if we can't finally lift this piece of legislation and get it over the finish line. It is important for the American people.

I yield the floor.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. GRASSLEY. Mr. President, I had a chance to hear the Senator from North Dakota. I am not rising to speak on that issue right now, but I support him in that effort. I thank him for working with my staff over a period of years to develop a bill that does not violate any of our trade agreements. That is an important aspect of the work of the Senate Finance Committee on which I serve. I look forward to that debate coming up.

Mr. DORGAN. Will the Senator yield for a question?

Mr. GRASSLEY. I yield.

Mr. DORGAN. I wanted to say it is so rare for us to have a bipartisan amendment. Those of us who have worked on this, including Senator GRASSLEY and Senator MCCAIN and many on my side, will be faced once again with the charge that this would undermine safety and so on. I wanted to make the point that Senator GRASSLEY was one of those who especially worked with us—and Senator MCCAIN—to make sure we had safety in this legislation, pedigrees, batch lots, safety that does not exist now even in domestic supply, let alone imported drugs.

I appreciate the Senator from Iowa working with us on this legislation. This is a good piece of legislation. I look forward to seeing the Senator from Iowa on the floor when we get it to the floor to have that debate.

Mr. GRASSLEY. I thank Senator DORGAN. He gave a very good description just now of how careful this piece of legislation—of which I am a cosponsor—would go not only to make price transparency and price competitiveness much better for the American consumer but to guarantee the same safety we would for drugs imported as we do for drugs produced here.

I rise to speak in a generic way about this 2,074-page bill that is before us, to speak about people who have raised questions about whether this bill is or is not a first step toward a government takeover of health care. I take the position that it is definitely a first step in that direction. If you spend a little bit of time watching any of the cable news stations, you will hear someone talking about how the current health reform proposals represent a government takeover of our health care system. The phrase “government takeover” has become a common talking point for people opposed to this pending bill. Unfortunately, these opponents rarely explain why this bill warrants such a claim, that it is a step toward government takeover of the en-

tire health care system or the nationalization of health care. Supporters of these bills don't do much better as well. These supporters dispute the claim but at the same time they seem unaware of all the new roles and responsibilities the Federal Government is taking on in this 2,074-page health care reform bill. I want to explain why I see the pending bills as a government takeover of our health care system.

I don't come to the floor to scare people or misinform them. I am more than willing to listen to different points of view. But if I am going to use the phrase “government takeover,” I want to make sure other Senators—and particularly my constituents in Iowa—know what I am talking about. I wish to start with the simplest example of government takeover, the government-run plan. It is sometimes referred to as the public option. This one seems to be pretty straightforward. In other words, the government-run plan is a pretty straightforward example that people can understand the government getting more involved.

If you wonder maybe sometimes why the public at the grassroots is a little bit concerned about the takeover of health care by the Federal Government, remember that it was only a few months ago the Federal Government nationalized General Motors, as an example, and has partially nationalized individual banks and financial institutions—in a sense, taking a big step toward nationalizing the whole financial system with the Federal Reserve system's intimate involvement and the Secretary of the Treasury's intimate involvement in a lot of decision making there or decisions that affect the entire financial system.

We are here with the prospect of building upon other things that have happened this year, having the Federal Government take over health care. The public option is one step in that direction. I see a government-run plan, whether it is an opt out, an opt in, a trigger or a straight government plan paying Medicare rates, as this country's first step toward a single-payer system. A single-payer system is a government-run system, one system for the entire country, as in Canada, without options or choices that people have. I don't want you to take my word for it.

Let's look at a quote from Representative JAN SCHAKOWSKY of Illinois:

A public option will put the private insurance industry out of business and lead to single payer.

I have another quote by Representative BARNEY FRANK of Massachusetts:

If we could get a good public option it could lead to single payer, and that's the best way to reach single payer.

Judging by these quotes, I would say both of these prominent Members of the Democratic party agree that the so-called public option is a first step

toward government taking over our health care system. But we don't need to rely only upon sound bites. Let me explain why I see the government-run plan leading to a single-payer system. The government-run plan may start out with some rules to keep it from having an unfair advantage over private insurers. Supporters might say it is on a level playing field with private insurers. They may say it would have to pay the same rates, form networks, and be independently solvent. But I remind people, when they hear those promises today, why something the government is doing can be competitive and not unfair competition with the private sector.

Those same kinds of promises were made during the Medicare debate way back in 1965. Supporters of the bill in 1965 promised the new government health insurance program would not interfere with the practice of medicine and would pay fair reimbursement rates. But over time, as the costs of the program exceeded projections, the government broke promises it made. The pending bills represent a government takeover of our health care system, because I believe the same thing that happened in 1965 with Medicare, the government breaking its promises, will also happen with the so-called public option.

In fact, I want to quote from a recent Wall Street Journal article:

Any policy guardrails built this year can be dismantled once the basic public option architecture is in place . . . That is what has always happened with government health programs.

Isn't that what Representative SCHAKOWSKY and Representative FRANK were saying? Start in a very simple way, saying to people the private sector needs competition. Government will give that competition. But start with a government-run plan so you can end up with a single-payer system, regardless of how innocent it sounded when you first started out. Slowly but surely, the government plan would take over the market. This is just one example of why I see the pending bills as a government takeover of our health care system. But there are others.

I wish to take a look at some health insurance reforms that are within this bill. All of these insurance reforms aren't bad as separate items. But coupled with all the bad things in the bill, it makes it difficult to sort out the good things.

For instance, I support stronger rules and regulations for private insurers. This is within the principle of the Federal Government's constitutional power to regulate interstate commerce, going way back to 1944 or 1945. The Supreme Court ruled that. Then Congress passed the McCarran-Ferguson Act and gave it right back to the States to do, where it has been basically regulated. But this bill brings a lot of that regulation back to the Federal Government. I

do support some stronger rules and regulations. Congress should make sure that people are not discriminated against because of preexisting conditions, and people should not have to stay up at night worrying about whether their insurance will be there when they get sick and need it most, just as you wouldn't want your fire insurance on your house canceled at the same time the fire starts in the house.

Those are the kinds of reforms I say are good in this bill and could get strong bipartisan support. But the pending bills go much further than creating stronger rules and regulations.

First, let's keep in mind that under current law, health insurance is primarily regulated under McCarran-Ferguson at the State level. State insurance commissioners and legislatures set most of the rules. The health reform proposals being debated in the Senate and over in the House would have the Federal Government take over these responsibilities. Under the present bills, the Federal Government, either through the Secretary of Health and Human Services, or a newly created office of health choices commissioner, or an unelected Federal health board is going to decide what health insurance has to look like. What every health plan has to cover is what the Federal Government is going to decide.

It is not just a case of ending discrimination. It is a case of the Federal Government saying what that health insurance plan needs to look like. If your current coverage does not meet one of the bronze, silver, gold, or platinum categories set up by the Federal Government—despite the President's promise—you may not be able to keep what you have.

The Federal Government is also going to set a national standard for how much insurers can vary prices between younger and older beneficiaries. These reforms will result in drastic price increases, particularly for younger and healthier beneficiaries. This means millions of people who are expecting lower costs as a result of reform will end up paying higher premiums.

So the Federal Government will decide how much plans can charge and what benefits can be covered. To help make these decisions, the Federal Government will have a newly created comparative effectiveness research program. This program would be similar to the ones in Great Britain and other foreign governments that decide which treatments you can and cannot have.

I want everyone to understand that the principle of comparative effectiveness research in and of itself is not something I oppose because I think when it is used as a way of informing patients and providers about best practices, it is a good thing to have. But I am also worried this research could be used as a tool for government to ration

care. Especially the reason for my concern is the recently passed House bill failed to include a prohibition on rationing that was in their original discussion draft. That discussion draft of the House bill, H.R. 3200, stated that the committee should "[e]nsure that essential benefits coverage does not lead to rationing of health care."

But, unfortunately, that line was not included in the final bill.

Now, that makes you wonder: When everybody says comparative effectiveness research is not going to be used to ration care, then why would you object to a statement saying: "Ensure that essential benefits coverage does not lead to rationing of health care." Why wouldn't that be in the bill if that is what you believe?

So under these pending bills, you have the Federal Government telling private plans how much they can charge and deciding what benefits they have to cover. Then the Federal Government is going to tell them—again, a Federal intervention in health care and a step toward more nationalization—they are not only going to tell them what benefits they have to cover, but then the Federal Government is going to tell you that you have to buy it.

Understand, as far as I know, in the 225-year history of our great country, the Federal Government has never said you had to buy anything—buy or not buy anything. They do not tell you.

Somebody is going to say: Well, the States make you buy car insurance. Well, under the 10th amendment, the States can do anything they want to that is not prohibited by the Federal Government. But the Federal Government is a government of limited power.

So you have the Federal Government saying you have to buy health insurance. But the government takeover does not stop there. The proposed bills also include the biggest expansion of the Medicaid Program since it was created in 1965. The bills force 14 million more Americans into Medicaid, even though many doctors will not see Medicaid patients. Under current law, the government already pays for about 50 percent of health care. But with the new subsidies and massive Medicaid expansion, the Federal Government will eclipse the private market when it comes to paying for health care services.

I am sure some of my colleagues saw recently released data from the inspector general showing that about 12 percent of Medicare payments were payment errors that could be the result of fraud, waste, and abuse. It is no wonder then that Medicare is scheduled to be insolvent within the next 10 years.

Clearly, the government cannot afford or even manage the programs it has now. But here we are debating the single largest expansion of government health care in history embodied in this 2,074-page bill.

So I would like to review why I see the current bill as a government takeover of our health care system.

First, there is a government-run plan that will drive private health plans out of business. In fact, some Democratic legislators have said publicly they see it as a first step toward a single-payer system.

Second, States will no longer be in charge of their own insurance markets. The Federal Government is going to take over the responsibility of setting premiums and defining benefits. So regardless of whether you are getting your health insurance through an employer or on your own, when you go to buy a new policy, the Federal Government is going to tell you what you can and cannot buy. If you do not buy the coverage the government has chosen for you, you could end up paying a new tax or even end up in jail under this new intrusive health insurance mandate that is going to be enforced by the Internal Revenue Service.

Interestingly, an analysis of similar health reform legislation said the IRS would have to grow by 25 percent in order to manage all the new taxes, fees, and mandates.

By the way, I have written a letter to the Secretary of the Treasury trying to get exactly some estimate of how much money it is going to take for the IRS to administer this program, and we do not have an answer yet.

Finally, we have the single largest expansion of Medicaid since its inception. Current proposals plan to add 14 million people to the Medicaid Program—a program that States already cannot afford.

All of this begs the question then: At more than 2,000 pages, and about \$2.5 trillion in spending when fully implemented, how can anyone say the pending bills do not represent a government takeover of health care? From the government-run plan, to a Federal takeover of private health insurance, to a massive expansion of Medicaid, I find it hard to call the pending bills anything else.

The American people want lower costs, higher quality, and better access. That is clear. I share these goals, but I cannot support any bill that I believe hands our private system of medicine over to a bunch of Washington bureaucrats. That is not what my constituents want, and it is not what this country needs.

I yield the floor.

The PRESIDING OFFICER. The Senator from Alabama.

Mr. SESSIONS. Mr. President, I thank Senator GRASSLEY for his leadership on this issue.

I am going to share some facts and fictions that are relevant to this bill. I think it will explain to anybody who looks at it carefully why Senator GRASSLEY and others who hoped to be able to support this legislation are not

able to support it. It is why I am not able to support it.

Supporters of this legislation promise that it will do a number of things. We are being told we should support it and vote for it. But it does not do those things that are advertised of it. I wish it did. I wish we could create something for nothing. I wish we could make these numbers balance, but they do not.

Earlier today, one of our colleagues on the other side of the aisle said: We would not do anything about hurting Medicare. We Democrats, 45 years ago, created the program, and we would not do anything to hurt it.

Well, then, we are going to have a vote. We are going to have a serious vote coming up, probably tomorrow, on the Gregg amendment. Senator Judd Gregg is one of the most knowledgeable persons in the Senate on Medicare. He has worked hard on it for a number of years. He chaired the Budget Committee when Republicans were in the majority, and now he is the ranking Republican. Everybody respects him. He has offered an amendment that would make sure we do not raid Medicare—and that is exactly what this bill would do. If this bill does not raid Medicare, then why wouldn't everybody vote for the Gregg amendment?

We are entering a time in which we will have a defining moment. Some of my colleagues will say they voted for the Bennet amendment. As we said then, the amendment meant nothing. It did not do what they said it would do because it did not prohibit the raiding of the Medicare trust fund. But my colleagues wanted to adopt it. This is why people are angry with Congress—it was a cover amendment.

For a day or two it seemed as if the cover may have worked; that by voting for this amendment, my colleagues who are supporting this legislation could say they voted to not hurt Medicare. They could go back home and say: I voted for the Bennet amendment.

Well, the New York Times—along with anybody who takes the time to look at the amendment—said it was meaningless. And the New York Times supports the legislation. It is meaningless. It was absolutely meaningless. The amendment does not do anything, and will not protect the Medicare program.

We are going to have an opportunity to deal with that tomorrow. The numbers in this bill are not adding up. The way this bill is being financed in part is by a \$465 billion raid on Medicare. Well, I am going to raise a number of issues, but I will not do them all today, so you can rest with some relaxation.

As to some of the things that are critical to whether a person can support this kind of reform, the fiction that has been stated is that the bill's net total cost is \$848 billion. Well, in truth, when the bill is fully imple-

mented, the first 10 years of full implementation costs \$2.5 trillion, three times the number that their supporters claim.

How can this happen? Well, Senator REID and whomever he selected met down the hall in secret, and they talked about the numbers, and they were worried about how to meet the president's claim that their bill would not cost more than \$900 billion. They were trying to promise it would be only \$848 billion, but the numbers were not adding up.

So what did they do? They delayed the implementation of the expenditures the bill promises for 5 years. So they delay the expenditures, the benefits they promised, for 5 years, but the taxes start now. That way, you can take the first 10 years of the bill, and it looks pretty good because you only have expenditures—the big expenditures—for 5 years, and you have revenue for 10. Well, this is flimflammy. It is not honest. The numbers do not add up.

If you examine the bill's costs when it is fully implemented for 10 years, it is \$2.5 trillion, \$2,500 billion.

So I would say, first of all, that is a fiction. The fact is that these numbers are not accurate. They did not do what they said they were going to do. The bill does not do what it promises.

No. 2, the President told us in a joint session of Congress that he will not sign a bill that adds one dime to the deficit. Well, that is pretty good. In fact, they produced this \$848 billion bill, they say, that it is going to only cost \$848 billion. They say, boy, give us a pat on the back. Not only is it going to be deficit neutral and not add to the debt, it is going to increase revenues by \$130 billion, and we will pay down the debt. Have you heard that? We are going to pay down the debt.

But they had a number of problems. One of them was they promised to pay the doctors a reasonable fee. Under the existing law, the way it was passed in one of the budget balancing acts, doctors are set to take a 23-percent reduction in their payments in 2011 for doing Medicare work—23 percent—which we know we cannot allow to occur. Doctors will quit doing Medicare. Many of them are having difficulty continuing to see Medicare patients now. We cannot cut them 23 percent. So what did the writers of this bill do? They increased the doctors' reimbursement for 1 year. Next year, they give them a one-half-percent increase. But in the next 9 years, their budget assumptions assume the doctors will take a 23-percent cut. That is absolutely bogus. We are not going to cut the doctors 23 percent. We cannot do so and maintain health care in America for our seniors. And yet, that is one of the major problems with Medicare today: we are not on a sound financial basis. This bill assumes that Medicare expenditures for

physicians is going to drop 23 percent in 2011 and remain at that rate—and that amounts to a \$250 billion shortfall from 2011 through 2019.

So, they ask: How can we figure out how to do this, how to make this bill deficit-neutral and less than \$900 billion? We don't want to admit that our bill is not a \$130 billion surplus over 10 years if we have to pay the doctors, which we are going to pay one way or the other. If we pay the doctors, it will actually be a \$120 billion deficit on that issue alone. So what can they do? They came up with a budgetary gimmick. They just took physician pay out of the health care reform package, and decided to try to pass it on the floor of the Senate, with every penny of it, \$250 billion, going to the deficit—not a penny of it paid for.

So if you bring the physician pay issue back up, and add it to the health care reform bill that we are supposed to be passing, you end up at the beginning of the whole thing with a \$120 billion deficit. So, to avoid that, supporters of this bill moved physician pay out of the bill and tried to pass it. A lot of the Democratic colleagues wouldn't vote for that. It failed because, out in the open before the whole world, people did not want to vote, after all of this deficit that we are imposing on our children and grandchildren, for another \$250 billion hit to the debt. How can we continue to do that? So it was voted down, thank goodness. But the problem is still there. You have to raise \$494 billion in taxes to make this bill deficit-neutral. Instead of using that money to fund new entitlement programs, maybe we ought to use that tax revenue to pay for the program we have: Medicare, the one that is slipping into serious default, one in which we are not paying the doctors what we should be paying them for the work they do. If we are going to raise taxes, maybe that is what we ought to do with the money—and not create a new entitlement benefit that is going to grow and far exceed costs projections in the years to come and further jeopardize our spending. As I think most of my colleagues are pretty well informed, under the present spending program we will double the entire debt of the United States of America in 5 years. Then, in 10 years, we will triple it. It will go from \$5.7 trillion to over \$17 trillion in 10 years. We cannot keep doing this. It is unsustainable and the American people know it.

So, the cost promises of the bill are not being met. There are a lot of other points too. I would just first mention the fact that it was contended at the beginning that this reform bill ought to be able to keep us from spending so much of our gross domestic product on health care. It is a serious matter. We definitely need to wrestle with the cost of health care. It is not an easy thing

to deal with. But what does this bill do? It promised it was going to do something about that. It was going to bend the cost curve. Our cost curve on health care is currently going up, and this bill was going to bend it downward, contain the growth of health care as a percentage of the gross domestic product in America, and free up money for economic growth and jobs and other important items.

Well, does the bill do that? No, it doesn't. As Senator THUNE has pointed out, and others have, health care currently is about 17 percent of our gross domestic product. Of the total wealth of America, its productivity, 17 percent goes to providing health care. If this bill is passed, it will increase to 21 percent, and that is a faster rate of increase than if we didn't pass this bill at all. That is a big deal. I thought we had a promise and a commitment that the bill would reduce the percentage of growth there. Indeed, it will not.

There are a number of other issues that I will be talking about, including how the actual premiums for average families for insurance will be going up instead of going down as has been promised by the President and how this bill will increase the deficit and not reduce it; how it will increase the percentage of GDP to health care and not decrease it; how it will increase taxes and how it will raid Medicare, but not shore up the program. I am just going to repeat this again, because it is important: This bill is a raid on Medicare. It cannot be disputed, in my view. The idea that we could take \$465 billion out of Medicare and put it into an entirely new program without having any adverse effect on Medicare is something I don't think anybody can imagine to be true.

How did they do that, you might ask. Well, Senator SESSIONS, surely they thought this through. How can they say that? This is the gimmick. This is how they do it: We are not denying any "guaranteed" benefits under Medicare, they say. Don't worry, seniors. All your guaranteed benefits are going to be provided. Where does the \$465 billion come from? Well, we are just going to cut the providers, not your benefits. We are going to cut hospitals. We are going to cut hospice. We are going to cut home health care. We are going to cut nursing homes. We are going to cut disproportionate share hospitals that treat the poor, all of these things. We are going to cut all of these institutions and groups that provide health care, but don't worry. You will still get all of the benefits you had before. Study after study indicates that the health care providers are already operating on the margin. Health care will be savaged under this bill.

Second, if, indeed, we could save money in Medicare—and I think there are some savings there, and we need to work at it and see what we can do

without breaching the promise we made to our seniors—if we could save money there, let me ask my colleagues: What would you do with the money that is saved? Would you use it to try to keep Medicare healthy, or would you create a new entitlement program with it and raid the seniors' money?

Well, that is what has happened. The savings that are from Medicare need to be kept in Medicare so that we can keep the program from going insolvent in 2017. We should use that money, those savings to help the seniors.

Remember, Medicare is funded and has been funded by people such as Bill Eberle from Huntsville, AL, who wrote me about it. He said he paid into the fund for 40 years and now he is ready to draw down benefits. He didn't get any benefit from his years of Medicare taxes until he hit 65. But now he is ready to draw, and we are considering taking his money and spending it on somebody else. He doesn't like that. He doesn't think that is right, and he is correct.

That is why I am not able to support the legislation. It doesn't do what it promised. It is going to make our health care situation worse. It is going to create greater debt at a time when our spending is already out of control.

I thank the Chair and my colleagues. I hope as this debate goes forward that we can make some improvements, although I am not confident of the direction that we are headed right now. It seems as though any significant attempt to make real progress with the bill is failing. But Senator GREGG's amendment is important. I hope my colleagues will study up on it and vote to preserve Medicare and to keep the savings that can be obtained in Medicare in the program, and not create a new entitlement.

I thank the Chair.

Mr. ENZI. Mr. President, I rise in support of Senator JUDD GREGG's amendment, which would prevent the Medicare cuts in the Reid bill from being used to pay to create a new entitlement program to cover the uninsured.

I do not oppose covering the uninsured. Nor do I oppose reforming the Medicare Program. We should do those things.

What I oppose is the Reid bill. This is the wrong approach to solve these problems.

The amendment offered by my friend from New Hampshire highlights the main problems with the Reid bill and suggests a better approach.

His amendment would protect the savings from the Medicare Program, and prevent them from being used to create a new entitlement.

This would mean that this new program would not have to rely on cuts to Medicare to fund its operation. It would also reserve all of the money taken from Medicare so that it could

be used to fix the problems in the Medicare Program.

Some Democrats have argued that we are not creating a new entitlement program. They are simply wrong. Just like Social Security, Medicare and Medicaid, this bill will commit the Federal Treasury to paying for these new subsidies for the uninsured forever.

That means that, as Federal spending continues to grow, this new program will continue to grow. It will crowd out other federal spending priorities, like education and national defense.

Any future attempts to modify or restrain its growth will be met by cries of indignation, arguing that cuts would devastate access to health care. If anyone has any doubts, they should look at the transcripts from our debate on the Deficit Reduction Act.

In 2005, Congress tried to reduce Medicare spending by about \$20 billion and enact modest reforms to the Medicaid Program. These programs would have strengthened the long-term solvency of these programs and helped reduce the Federal deficit.

In response, Senator REID called that bill an "immoral document." The junior Senator from California said she strongly opposed the cuts in the bill, because they would "cut Medicare and Medicaid by \$27 billion."

Yet today, these same Members and the rest of my Democratic colleagues want to create a new entitlement program that will spend hundreds of billions of dollars. And they would pay for it by cutting \$464 billion from the Medicare Program.

I believe these facts highlight why we need to adopt the Gregg amendment. I don't believe we should create a new entitlement program, which will permanently obligate our children and grandchildren to pay its costs. If my colleagues insist on doing it, however, at a minimum we need to guarantee that any new program has a stable and reliable source of funding.

The Medicare cuts in this bill are neither stable nor reliable.

My Democratic colleagues have spoken at length about how the Medicare provisions in this bill will bend the growth of health care spending. That is unfortunately far from accurate.

If you don't believe me, listen to what other nationally recognized experts have to say.

According to the New York Times, the CEO of the world renowned Mayo Clinic dismissed the reforms in the bill. Dennis Cortese said the Reid bill only took baby steps towards revamping the current fee-for-service system.

The dean of the Harvard Medical School, Jeffery Flier, said that the bills being considered in Congress would accelerate national health care spending.

I wish there were more actual reforms in this bill. I applaud some of the efforts that Senator BAUCUS included

that will create incentives for coordinated care and rewarding providers who provide higher quality. I believe those are exactly the types of things that we should be doing to improve the Medicare Program.

Unfortunately, the savings from these actual reforms are a few pennies compared to the dollars of arbitrary payment cuts included in this bill.

According to the Congressional Budget Office, all of the savings from the various policies to link Medicare payments to quality and encourage better coordination of care in the Reid bill provide less than \$20 billion in total savings.

In contrast, the Reid bill includes over \$220 billion in arbitrary payment cuts to health care providers, including hospitals, nursing homes, home health agencies and hospice providers. The Reid bill also includes an additional \$120 billion in cuts to Medicare Advantage plans.

Those are not reforms. Instead they represent the best efforts of folks in Washington to guess how much it actually costs real doctors and nurses to provide health care services to Medicare beneficiaries.

These cuts are an excellent example of how government price controls work.

Medicare does not negotiate payment rates with providers, like private insurers. Medicare uses price controls to set payment rates. Experts in Washington then look at various reported costs, revenues and profits of health care providers and then decide how much we should pay health care providers.

I have often said that everyone thinks they know everything about a business, until they actually have to run it. As a former small business owner, I want to assure them, it is actually a lot harder than it looks.

The Medicare cuts in this bill are based on the efforts of folks in Washington to decide how much it costs to run a nursing home in Cheyenne or a home health agency in Gillette. Based on their past track record, I don't have much confidence in their abilities.

In 1997, Congress passed the Balanced Budget Act. It contained over \$434 billion in Medicare payment cuts. Lots of really smart folks in Washington made arguments similar to those we are hearing today about how these cuts would not harm providers or beneficiaries.

What happened after these cuts went into effect? Within two years, these cuts had driven four of the largest nursing home chains in the Nation into bankruptcy.

Vencor, Sun Healthcare, Integrated Health Services and Mariner Post-Acute Network all filed for bankruptcy. Between them, they operated 1,400 nursing homes that provided care for hundreds of thousands of Medicare beneficiaries.

Similarly, the bill also included cuts in payments to Medicare + Choice plans. After these cuts went into effect, one out of every four plans pulled out of the Medicare Program. Millions of beneficiaries then lost the extra benefits that these plans had provided.

Given this track record, I have grave concerns about what the Medicare cuts in the Reid bill would do to Medicare beneficiaries and the doctors, hospitals and other providers who treat them.

I have even greater concerns about using any estimated savings from these cuts to fund this new entitlement program for the uninsured.

That is why we should pass the Gregg amendment. Rather than relying on cuts that could devastate the Medicare Program, let's find a stable and reliable funding source that we could use to pay for health care reform.

The Gregg amendment says that savings from any Medicare cuts should be reserved for the Medicare Program. That way, if the Washington experts again got it wrong, we will not have already spent all the savings on another program.

Mr. INHOFE. Mr. President, yesterday the U.S. Senate voted on two measures, one by the Senator from Massachusetts and one by the Senator from Nebraska relating to home health benefits. I was unable to attend yesterday's session of the Senate but had I voted, I would have voted for both measures.

Home health and hospice benefits are very important to Oklahomans. In fact, the National Association for Home Care and Hospice reported that Oklahomans alone may receive a cut of over \$1 billion in home health and hospice benefits under this bill. I understand the value of home health and hospice very well. In March 2007, I introduced legislation with Senators THAD COCHRAN, ROGER WICKER, PETE DOMENICI, and RICHARD SHELBY, the Preserving Access to Hospice Act, to ensure America's terminally ill seniors have access to hospice care, by providing immediate relief for hospices impacted by the Medicare hospice cap and authorizing a MedPAC study on the cap issue. Identical legislation was introduced in the House led by Congressman JOHN SULLIVAN with many cosponsors. I introduced this legislation because of a flawed provision in Federal law which required hospices to repay the Centers for Medicare and Medicaid Services, CMS, for serving eligible patients in prior years. Many small, family, and community-owned hospices faced closure, and patients faced losing access to hospice care. In Oklahoma especially, hospice care companies of all sizes service a large number of Oklahomans. However, in 2005, 41 percent of the hospices providing care in Oklahoma received letters from CMS demanding repayment. Since then, I have been working to help small, commu-

nity hospices in Oklahoma as they face repayment letters from CMS for millions of dollars. Without help, hospices face closure and the discharge of significant numbers of terminally ill patients, possibly into more expensive care. In fact, during last summer's contentious debate on physician Medicare reimbursements, I argued at the very least for a MedPAC study on payment methodology for hospice care to evaluate if there is a problem with payments and whether cap amount revisions are needed.

I understand and greatly appreciate the value of good home health care and hospice benefits.

Admittedly, one of the measures considered yesterday would have been better than the other. The amendment from the Senator from Massachusetts simply said that nothing in the bill should result in the reduction of guaranteed home health benefits. The problem is that access to home health is not a "guaranteed" Medicare benefit. So even though the amendment from the Senator from Massachusetts passed 96 to 0, will it have a real impact on protecting seniors from the loss of access to home health care? No. The better approach was offered by the Senator from Nebraska. Unfortunately, the better approaches are failing by party line votes. However, I compliment the Senator from Virginia, Mr. WEBB, for his support of the motion by the Senator from Nebraska. This motion would have recommitted this entire legislation to the appropriate Senate committee to remove the cuts to home health benefits. I think that is the best and most direct approach. I think that is the most honest approach. Simply remove the cuts. For the past several days we have been discussing the cuts to Medicare and especially the cuts to Medicare Advantage. In each case, the Republicans have offered motions and amendments to recommit this massive 2,000-page health bill back to committee to improve it, namely, to remove the cuts to programs seniors and the disabled use. I was disappointed to see this most recent attempt to send this massive bill back to committee to improve it fail 41 to 53.

I look forward to today's debate. One scheduled for a vote is on medical malpractice reform. It will be very interesting to see just how serious the Democrats are about health care reform. Currently, the bill only has a "sense of the Senate" recognizing medical malpractice costs are a problem. We'll see if they think it is important to really do anything about it.

#### MORNING BUSINESS

Mr. BEGICH. Mr. President, I ask unanimous consent that the Senate proceed to a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### ADDITIONAL COSPONSORS

S. 1389

At the request of Mr. NELSON of Nebraska, the name of the Senator from Arkansas (Mr. PRYOR) was added as a cosponsor of S. 1389, a bill to clarify the exemption for certain annuity contracts and insurance policies from Federal regulation under the Securities Act of 1933.

AMENDMENT NO. 2884

At the request of Ms. STABENOW, the name of the Senator from Minnesota (Mr. FRANKEN) was added as a cosponsor of amendment No. 2884 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2927

At the request of Mrs. HUTCHISON, her name was added as a cosponsor of amendment No. 2927 proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2939

At the request of Mr. PRYOR, the names of the Senator from Iowa (Mr. HARKIN) and the Senator from Massachusetts (Mr. KERRY) were added as cosponsors of amendment No. 2939 proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

#### AMENDMENTS SUBMITTED AND PROPOSED

SA 2940. Mr. SPECTER (for himself, Mr. MERKLEY, Mr. WYDEN, Mr. CASEY, Ms. STABENOW, Mr. LEVIN, and Mr. BROWN) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table.

SA 2941. Mr. SPECTER (for himself, Mr. WYDEN, and Mr. CASEY) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2942. Mr. GREGG (for himself, Mr. CORKER, Mr. THUNE, Mr. COBURN, Mr. ENSIGN, Mr. ISAKSON, Mr. BURR, Mr. ENZI, Mr. ALEXANDER, Mr. BARRASSO, Mr. CORNYN, Mr. MCCAIN, and Mr. LEMIEUX) submitted an

amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra.

SA 2943. Mr. CARPER (for himself and Mr. CONRAD) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2944. Mrs. BOXER submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2945. Mrs. BOXER submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2946. Mr. CASEY submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2947. Ms. KLOBUCHAR submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2948. Ms. SNOWE submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2949. Mr. ROCKEFELLER (for himself and Mr. BROWN) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2950. Mr. ROCKEFELLER submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2951. Mr. ROCKEFELLER submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2952. Mr. ROCKEFELLER submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

#### TEXT OF AMENDMENTS

SA 2940. Mr. SPECTER (for himself, Mr. MERKLEY, Mr. WYDEN, Mr. CASEY, Ms. STABENOW, Mr. LEVIN, and Mr. BROWN) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which

was ordered to lie on the table; as follows:

On page 466, between lines 5 and 6, insert the following:

#### SEC. 2305. EXTENSION OF DELAY IN APPLICATION OF MEDICAID PROVIDER TAX PROVISIONS TO CERTAIN MANAGED CARE ORGANIZATIONS.

Effective as if included in the enactment of the Deficit Reduction Act of 2005 (Public Law 109-171), section 6051(b)(2)(A) of that Act of 2005 42 U.S.C. 1396b note) is amended by striking "2009" and inserting "2011".

SA 2941. Mr. SPECTER (for himself, Mr. WYDEN, and Mr. CASEY) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 857, strike lines 5 through 25 and insert the following:

(a) IN GENERAL.—Section 1834(a)(7)(A)(iii) of the Social Security Act (42 U.S.C. 1395m(a)(7)(A)(iii)) is amended—

(1) by inserting "complex rehabilitative power-driven wheelchair and any other" after "in the case of a" and

(2) by adding at the end the following: "In the case of a power-driven wheelchair that is not a complex rehabilitative power-driven wheelchair, the following rules shall apply:

"(aa) The first sentence of this clause shall only apply if the length of need is at least 13 months, as certified by a physician.

"(bb) If the individual exercises the option under the first sentence of this clause and the individual discontinues use of the item prior to end of the 13-month period that begins on the date the individual exercises such option, the supplier shall be subject to recovery by the Secretary of an amount equal to the amount (if any) by which the lump-sum payment for the purchase for the wheelchair exceeds the total of the monthly payments for the wheelchair that would have been made on a rental basis for continuous use of less than 13 months.

"(cc) If the Secretary recovers any payments under item (bb), the title for the wheelchair shall revert to the supplier at the option of the supplier."

SA 2942. Mr. GREGG (for himself, Mr. CORKER, Mr. THUNE, Mr. COBURN, Mr. ENSIGN, Mr. ISAKSON, Mr. BURR, Mr. ENZI, Mr. ALEXANDER, Mr. BARRASSO, Mr. CORNYN, Mr. MCCAIN, and Mr. LEMIEUX) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_\_. PREVENTING THE IMPLEMENTATION OF NEW ENTITLEMENTS THAT WOULD RAID MEDICARE.**

(a) **BAN ON NEW SPENDING TAKING EFFECT.**—

(1) **PURPOSE.**—The purpose of this section is to require that savings resulting from this Act must fully offset the increase in Federal spending and reductions in revenues resulting from this Act before any such Federal spending increases or revenue reductions can occur.

(2) **IN GENERAL.**—Notwithstanding any other provision of this Act, the Secretary of the Treasury and the Secretary of Health and Human Service are prohibited from implementing the provisions of, and amendments made by, sections 1401, 1402, 2001, and 2101, or any other spending increase or revenue reduction provision in this Act until both the Director of the Office of Management and Budget (referred to in this section as “OMB”) and the Chief Actuary of the Centers for Medicare and Medicaid Services Office of the Actuary (referred to in this section as “CMS OACT”) each certify that they project that all of the projected Federal spending increases and revenue reductions resulting from this Act will be offset by projected savings from this Act.

(3) **CALCULATIONS.**—For purposes of this section, projected savings shall exclude any projected savings or other offsets directly resulting from changes to Medicare and Social Security made by this Act.

(b) **LIMIT ON FUTURE SPENDING.**—On September 1 of each year (beginning with 2013), the CMS OACT and the OMB shall each issue an annual report that—

(1) certifies whether all of the projected Federal spending increases and revenue reductions resulting from this Act, starting with the next fiscal year and for the following 9 fiscal years, are fully offset by projected savings resulting from this Act (as calculated under subsection (a)); and

(2) provides detailed estimates of such spending increases, revenue reductions, and savings, year by year, program by program and provision by provision.

**SA 2943.** Mr. CARPER (for himself and Mr. CONRAD) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 722, after line 20, insert the following:

**SEC. 3016. ADVANCING IMPLEMENTATION OF CERTAIN VALUE-BASED PURCHASING PROGRAMS.**

(a) **ADVANCING IMPLEMENTATION OF HOSPITAL VALUE-BASED PURCHASING PROGRAM.**—

(1) **IN GENERAL.**—Section 1886(o) of the Social Security Act, as added by section 3001, is amended—

(A) in paragraph (1)(B)—

(i) in the subparagraph heading, by striking “2013” and inserting “2012”; and

(ii) by striking “2012” and inserting “2011”; and

(B) in paragraph (2)(B)—

(i) in clause (i), by striking “2013” each place it appears and inserting “2012”; and

(ii) in clause (ii), by striking “2014” and inserting “2013”; and

(C) in paragraph (7)—

(i) in subparagraph (B)(i), by striking “2013” and inserting “2012”; and

(ii) in subparagraph (C)—

(I) in clause (i), by striking “2013” and inserting “2012”; and

(II) in clause (ii), by striking “2014” and inserting “2013”; and

(III) in clause (iii), by striking “2015” and inserting “2014”; and

(IV) in clause (iv), by striking “2016” and inserting “2015”; and

(V) in clause (v), by striking “2017” and inserting “2016”; and

(iii) in subparagraph (D)(ii)(I), by striking “2012 and 2013” and inserting “2011, 2012, and 2013”.

(2) **CONFORMING AMENDMENT.**—Section 1886(b)(3)(B)(viii) of the Social Security Act, as amended by section 3001, is further amended—

(A) in subclause (V), by striking “2012” and inserting “2011”; and

(B) in each of subclauses (VIII) and (IX), by striking “2013” each place it appears and inserting “2012”.

(b) **ADVANCING IMPLEMENTATION OF NATIONAL PILOT PROGRAM ON PAYMENT BUNDLING.**—Section 1866D(a)(3) of the Social Security Act, as added by section 3023, is amended by striking “2013” and inserting “2012”.

**SEC. 3017. INTEGRATED HEALTH CARE SYSTEM COLLABORATION INITIATIVE.**

(a) **IN GENERAL.**—In order to improve health care quality and reduce costs, the Secretary of Health and Human Services (in this section referred to as the “Secretary”) shall develop, in consultation with major integrated health systems that have consistently demonstrated high quality and low cost (as determined by the Secretary and verified by a third party) a collaboration initiative (referred to in this section as “the Collaborative”). The Collaborative shall develop an exportable model of optimal health care delivery to apply value-based measurement, integrated information technology infrastructure, standard care pathways, and population-based payment models, to measurably improve health care quality, outcomes, and patient satisfaction and achieve cost savings.

(b) **PARTICIPATION.**—Prior to January 1, 2010, the Secretary shall determine 5 initial participants who will form the Collaborative and at least 6 additional participants who will join the Collaborative beginning in the fourth year that the Collaborative is in effect.

(1) **INITIAL PARTICIPANTS.**—Initial participants selected by the Secretary shall meet the following criteria:

(A) Be integrated health systems organized for the purpose of providing health care services.

(B) Have demonstrated a record of providing high value health care for at least the 5 previous years, as determined by the Secretary in accordance with the Dartmouth Atlas of Health Care.

(C) Any additional criteria specified by the Secretary.

(2) **ADDITIONAL PARTICIPANTS.**—Beginning January 1, 2013, the Secretary shall select 6 or more additional participants who represent diverse geographic areas and are situated in areas of differing population densities who agree to comply with the guidelines, processes, and requirements set forth for the Collaborative. Such additional participants shall meet the following additional criteria:

(A) Be organized for the provision of patient medical care.

(B) Be capable of implementing infrastructure and health care delivery modifications necessary to enhance health care quality and efficiency, as determined by the Secretary in accordance with the Dartmouth Atlas of Health Care.

(C) The participant’s cost and intensity of care do not meet the definition of high value health care.

(3) **ADDITIONAL CRITERIA.**—In addition to the criteria described in paragraphs (1) and (2), the participants in the Collaborative shall meet the following criteria:

(A) Have a legal structure that would allow the participant to receive incentive payments under this section.

(B) Agree to report on quality, cost, and efficiency in such form, manner, and frequency as specified by the Secretary.

(C) Provide care to patients enrolled in the Medicare program.

(D) Agree to contribute to a best practices network and website, that is maintained by the Collaborative for sharing strategies on quality improvement, care coordination, efficiency, and effectiveness.

(E) Use patient-centered processes of care, including those that emphasize patient and caregiver involvement in shared decision-making for treatment decisions.

(F) Meet other criteria determined to be appropriate by the Secretary.

(c) **COLLABORATIVE INITIATIVE.**—

(1) **IN GENERAL.**—Beginning January 1, 2010, the Collaborative shall begin a 2 year development phase in which initial participants share the quantitative and qualitative methods through which they have developed high value health care followed by a dissemination of that learning model to additional participants of the Collaborative.

(2) **COORDINATING MEMBER.**—In consultation with the Secretary, the Collaborative shall select a coordinating member organization (hereafter identified as the Coordinating Organization) of the Collaborative.

(3) **QUALIFICATIONS.**—The Coordinating Organization will have in place a comprehensive Medicare database and possess experience using and analyzing Medicare data to measure health care utilization, cost, and variation, such as The Dartmouth Institute for Health Policy and Clinical Practice. The Coordinating Organization shall be responsible for reporting to the Secretary as required and for any other requirements deemed necessary by the Secretary.

(4) **RESPONSIBILITIES.**—The Coordinating Member shall—

(A) lead efforts to develop each aspect of the learning model;

(B) organize efforts to disseminate the learning model for high value health care, including educating participant institutions; and

(C) provide administrative, technical, accounting, reporting, organizational and infrastructure support needed to carry out the goals of the Collaborative.

(5) **DEVELOPMENT OF LEARNING MODEL.**—

(A) **IN GENERAL.**—Initial participants in the Collaborative shall work together to develop a learning model based on their experience that includes a reliance on evidence based care that emphasizes quality and practice techniques that emphasize efficiency, joint development and implementation of health information technology, introduction of clinical microsystems of care, shared decision-making, outcomes and measurement, and the establishment of an e-learning distributive network, which have been put into practice at their respective institutions.

(B) **RESPONSIBILITIES.**—The Coordinating Member shall do the following:

(i) Partner with initial participants to comprehensively understand each institution's contribution to providing value-based health care.

(ii) Provide and measure value-based health care in a manner that ensures that measures are aligned with current measures approved by a consensus-based organization, such as the National Quality Forum, or other measures as determined appropriate by the Secretary, while also incorporating patient self-reported status and outcomes.

(iii) Create a replicable and scalable infrastructure for common measurement of value-based care that can be broadly disseminated across the Collaborative and other institutions.

(iv) Implement care pathways for common conditions using standard measures for assessment across institutions, targeting high variation and high cost conditions, including but not limited to—

(I) acute myocardial infarction (AMI) and angioplasty;

(II) coronary artery bypass graft surgery and percutaneous coronary intervention;

(III) hip or knee replacement;

(IV) spinal surgery; and

(V) care for chronic diseases including, but not limited to, diabetes, heart disease, and high blood pressure.

(v) Deploy and disseminate the comprehensive learning model across initial participant institutions, achieving improvements in care delivery and lowering costs, and demonstrating the portability and viability of the processes.

(6) **ADDITIONAL BEST PRACTICES.**—As additional methods of improving health care quality and efficiency are identified by members of the Collaborative or by other institutions, Initial Participants in the Collaborative shall incorporate those practices into the learning model.

(d) **IMPLEMENTATION OF LEARNING MODEL.**—

(1) **IN GENERAL.**—Beginning January 1, 2013, as additional participants are selected by the Secretary, Initial Participants in the Collaborative shall actively engage in the deployment of the learning model to educate each additional participant in the common conditions that have been identified.

(A) **DISSEMINATION OF LEARNING MODEL.**—Dissemination methods shall include but not be limited to the following methods:

(i) Specialized teams deployed by the Initial Participants to teach and facilitate implementation on site.

(ii) Distance-learning, taking advantage of latest interactive technologies.

(iii) On-line, fully accessible repositories of shared learning and information related to best practices.

(iv) Advanced population health information technology models.

(B) **EVALUATION OF PARTICIPANTS.**—Evaluation of initial participants shall be based on documented success in meeting quality and efficiency targets. Specific statistically valid measures of evaluation shall be determined by the Secretary.

(e) **EFFICIENCY AND QUALITY TARGETS.**—

(1) **EFFICIENCY TARGET BASED ON GROWTH RATE.**—Initial participants shall implement techniques under the comprehensive learning model to meet a growth rate target equal to, as selected by the Secretary with respect to the participant—

(A) the percentage increase in the consumer price index for all urban consumers (all items; United States city average) over the previous year, plus 2 percentage points; or

(B) the percentage increase in the projected per capita amount of National Health

Expenditures from the calendar year in which the previous fiscal year ends to the calendar year in which the fiscal year involved ends, as most recently published by the Secretary before the beginning of the fiscal year, minus 1.5 percentage points.

(2) **QUALITY TARGET.**—The Secretary shall establish a quality target, based on measures endorsed by a consensus-based quality organization, for the initial participants in the first year and subsequently for the additional participants.

(f) **PAYMENTS.**—

(1) **BASE PAYMENT.**—With respect to each participant in the Collaborative, the Secretary shall determine a base amount on a per capita basis for the participant for purposes of measuring the growth rate in total payments for common conditions, based on the reimbursement amount paid to the participant under title XVIII of the Social Security Act for furnishing items and services with respect to such conditions.

(2) **BONUS PAYMENT.**—If the growth rate in total payments for services for common conditions does not exceed the growth rate target selected for the participant under subsection (e)(1), and the participant satisfies the quality target established by the Secretary under subsection (e)(2), the Secretary shall provide a bonus payment equal to 50 percent of any per capita payment reductions that are below the capita base amounts determined under paragraph (1).

(3) **PENALTY PAYMENT.**—If the growth rate in total per capita payments for furnishing items and services for common conditions exceeds the growth rate target, the Secretary shall pay only 25 percent of any additional expenses that exceed the base amounts determined under paragraph (1).

(4) **BUDGET NEUTRALITY LIMITATION.**—The Secretary shall limit incentive payments to each of the participating organizations under this section as necessary to ensure that the aggregate expenditures with respect to applicable beneficiaries under title XVIII of the Social Security Act (inclusive of incentive payments described in this subsection) do not exceed the amount that the Secretary estimates would be expended for such beneficiaries if the Collaborative under this section were not implemented.

(g) **ADMINISTRATIVE PAYMENT.**—Out of funds not otherwise obligated in the Treasury, there are appropriated \$228,000,000, to remain available until expended, to be distributed in the following manner:

(1) The Coordinating Organization shall receive \$10,000,000 per year for program development related to the Collaborative, including for health information technology and other infrastructure, project evaluations, analysis, and measurement, compliance, audits and other reporting. Not less than \$5,000,000 of such funds shall be provided for education and training, including for support for the establishment of training teams for the Collaborative, to assist in the integration of new health information technology, best practices of care delivery, microsystems of care delivery, and a distributive e-learning network for the Collaborative.

(2) Each Initial Participant shall receive \$4,000,000 per year for internal program development for health information technology and other infrastructure, education and training, project evaluations, analysis, and measurement, and compliance, auditing, and other reporting.

(3) Beginning in 2013, the Secretary may provide funding to additional participants in the Collaborative in an amount not to exceed \$4,000,000 per participant per year under the

same use guidelines as apply to the Initial Participants.

(h) **CONTINUATION OR EXPANSION.**—

(1) **TERMINATION.**—Subject to paragraph (2), the Collaborative shall terminate on the date that is 6 years after the date on which the Collaborative is established.

(2) **EXPANSION.**—The Secretary may continue or expand the Collaborative if—

(A) participants meet the established growth rate targets and consistently receive bonus payments during the first 4 years of the Collaborative and are consistently meeting quality standards; or

(B) the Collaborative is consistently exceeding quality standards and is not increasing spending under the program.

(i) **TERMINATION.**—The Secretary may terminate an agreement with the Collaborative or a participating organization under the Collaborative if such organization did not qualify for incentive payments or consistently failed to meet quality standards in any of the first 3 years of the Collaborative.

(j) **REPORTS.**—

(1) **PERFORMANCE RESULTS REPORTS.**—The Secretary shall provide such data as is necessary for the Collaborative to measure the efficacy of the Collaborative and facilitate regular reporting on spending and cost savings results relative to a value-based program initiative.

(2) **REPORTS TO CONGRESS.**—Not later than 2 years after the date the first agreement is entered into under this section, and annually thereafter, the Secretary shall submit to Congress and make publicly available a report on the authority granted to the Secretary to carry out the Collaborative under this section. Each report shall address the impact of the use of such authority on expenditures for, access to, and quality of, care under title XVIII of the Social Security Act.

(k) **DEFINITIONS.**—In this section:

(1) **BENEFICIARY.**—The term “beneficiary” means a Medicare beneficiary enrolled under part B and entitled to benefits under part A who is not enrolled in Medicare Advantage under Part C or a PACE program under section 1894, and meets other criteria as the Secretary determines appropriate.

(2) **HIGH VALUE HEALTH CARE.**—The term “high value health care” means the care delivered by organizations shown by statistically valid methods to meet the highest quality measures established by the Secretary as of or after the date of enactment of this Act and to be delivering low-cost care with high patient satisfaction and clinical outcomes.

(3) **LEARNING MODEL.**—The term “learning model” means a standardized model developed by the Initial Participants in the Collaborative and based on best practices, as jointly developed and put into practice at the Initial Participant's respective institutions.

(4) **SECRETARY.**—The term “Secretary” means the Secretary of Health and Human Services.

(l) **ADDITIONAL MONITORING.**—The Secretary may monitor data on expenditures and quality of services under title XVIII of the Social Security Act with respect to a beneficiary after the beneficiary discontinues receiving services under the Collaborative.

(m) **OTHER PROVISIONS.**—

(1) **LIMITATIONS ON REVIEW.**—There shall be no administrative or judicial review under this section or otherwise of—

(A) the elements, parameters, scope, and duration of the Collaborative, including the selection of participants in the Collaborative;

(B) the establishment of targets, measurement of performance;

(C) determinations with respect to whether savings have been achieved and the amount of savings;

(D) determinations regarding whether, to whom, and in what amounts incentive payments are paid; and

(E) decisions about the extension or expansion of the Collaborative.

(2) **ADMINISTRATION.**—Chapter 35 of title 44, United States Code shall not apply to this section.

(3) **EVALUATION.**—The Secretary shall evaluate the payment incentive model for the Collaborative to assess impacts on beneficiaries and on the Medicare program under title XVIII of the Social Security Act. The Secretary shall make such evaluation publicly available within 60 days of the date of completion of such report.

(4) **MONITORING.**—The Inspector General of the Department of Health and Human Services shall provide for monitoring of the operation of the Collaborative with regard to violations of section 1877 of the Social Security Act (popularly known as the “Stark law”).

(5) **ANTI-DISCRIMINATION.**—The Secretary shall not enter into an agreement with an entity to provide health care items or services under the Collaborative, or with an entity to administer the Collaborative, unless such entity guarantees that it will not deny, limit, or condition the coverage or provision of benefits under the Collaborative for beneficiaries to participate in the Collaborative, based on any health status-related factor described in section 2702(a)(1) of the Public Health Service Act.

**SA 2944.** Mrs. BOXER submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle D of title V, add the following:

**SEC. 5316. GERIATRIC HEALTH CARE WORKFORCE.**

(a) **INVESTMENT IN TOMORROW'S GERIATRIC HEALTH CARE WORKFORCE.**—Part E of title VII of the Public Health Service Act (42 U.S.C. 294n et seq.), as amended by section 5314, is further amended by adding at the end the following:

**“SEC. 779. INVESTMENT IN TOMORROW'S GERIATRIC HEALTH CARE WORKFORCE.**

“(a) **ESTABLISHMENT.**—The Secretary shall establish and carry out a Geriatric and Gerontology Loan Repayment Program under which the eligible individual agrees to be employed full-time for a specified period (which shall not be less than 2 years) as a physician, physician assistant, nurse practitioner, clinical nurse specialist, pharmacist, psychologist, physical therapist, or social worker in geriatric care practice.

“(b) **PROGRAM ADMINISTRATION.**—Under the program established under subsection (a), the Secretary shall enter into contracts with qualified health professionals described in subsection (c) under which—

“(1) such qualified health professionals agree to provide full-time clinical practice and service to older adults through work serving, or for a provider serving—

“(A) an area with shortage of the specified geriatric or gerontology specialty that has a sufficient population of older adults to support such geriatric or gerontology specialty, as determined by the Secretary; and

“(B) a medically underserved community (including a health professional shortage area), or a medically underserved population; and

“(2) the Secretary agrees to make payments on the principal and interest of the graduate medical education loans of professionals described in paragraph (1) that—

“(A) are not more than \$35,000 a year for each year of agreed upon service under such paragraph for a period of not more than 4 years; and

“(B) are not more than 1/4 of the total of such principal and interest, for each year of the service, for a period of not more than 4 years.

“(c) **QUALIFIED HEALTH PROFESSIONALS.**—

“(1) **IN GENERAL.**—A qualified health professional described in this subsection is an individual—

“(A) who—

“(i) is a physician, including an osteopathic physician, who—

“(I) is entering or enrolled in an accredited fellowship in geriatric medicine or geriatric psychiatry; or

“(II) has completed (but not prior to the calendar year in which this section is enacted) an accredited fellowship in geriatric medicine or geriatric psychiatry; or

“(ii) is a nurse practitioner or clinical nurse specialist, pharmacist, social worker, physician assistant, physical therapist, or psychologist who has completed specialty training in geriatrics or gerontology;

“(B) who has obtained an educational loan for costs associated with graduate training in medicine, pharmacy, psychology, physical therapy, or social work, or costs associated with training to become a nurse practitioner, clinical nurse specialist, or physician assistant;

“(C) who is appropriately licensed or certified in the State in which the individual practices, or who meets other qualifications as determined by the Secretary;

“(D) who agrees to provide clinical services to older adults for a period of not less than 2 years in a setting determined appropriate by the Secretary; and

“(E) who has demonstrated the capability through education or training to work with frail older adults and older adults with disabilities, including individuals with dementia, urinary incontinence, and problems with balance or mobility, and medication regimes for older adults.

“(2) **ADDITIONAL ELIGIBILITY REQUIREMENTS.**—The Secretary may not enter into a contract under this subsection with an individual unless—

“(A) the individual is a United States citizen or a permanent legal United States resident;

“(B) if the individual is enrolled in a graduate program, the program is accredited, and the individual has an acceptable level of academic standing (as determined by the Secretary); and

“(C) the individual is not participating in any other Federal undergraduate or graduate medical education loan repayment program.

“(d) **PRIORITY.**—In entering into contracts under this section, the Secretary shall give priority to qualified health professionals who demonstrate financial need.

“(e) **APPLICABILITY OF CERTAIN PROVISIONS.**—With respect to the National Health Service Corps Loan Repayment Program es-

tablished in subpart III of part D of title III, the provisions of such subpart shall, except as inconsistent with this section, apply to the program established in this section in the same manner and to the same extent as such provisions apply to the National Health Service Corps Loan Repayment Program.

“(f) **DEFINITION.**—In this section:

“(1) **GERIATRICS.**—The term ‘geriatrics’ means the branch of medicine that deals with the problems and diseases of older adults and aging, including chronic conditions and geriatric syndromes such as dementia, delirium, urinary incontinence, osteoporosis, falls or gait disorders, or sleep disorders.

“(2) **GERONTOLOGY.**—The term ‘gerontology’ means the interdisciplinary study of the aging process and individuals as they grow from middle age through later life. Such term encompasses the social, cognitive, psychological, biological, and economic aspects of aging.

“(3) **GRADUATE MEDICAL EDUCATION.**—The term ‘graduate medical education’ means a graduate program in medicine, pharmacy, psychology, physical therapy, or social work, or a graduate program that trains individuals to become nurse practitioners, clinical nurse specialists, or physician assistants.

“(4) **SPECIALTY TRAINING.**—The term ‘specialty training’ means a concentration in coursework in geriatrics or gerontology or clinical training, including internships, residency programs, or fellowships, in a geriatric setting, or other requirements, as determined by the Secretary.

“(g) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this section, \$4,000,000 for fiscal year 2010, \$9,500,000 for fiscal year 2011, \$16,000,000 for fiscal year 2012, \$24,000,000 for fiscal year 2013, and \$30,500,000 for fiscal year 2014.”.

(b) **EXPANSION OF NURSING EDUCATION LOAN REPAYMENT PROGRAM.**—Section 846 of the Public Health Service Act (42 U.S.C. 297n) is amended—

(1) by redesignating subsection (i) as subsection (j); and

(2) by inserting after subsection (h), the following:

“(i) **GERIATRIC CARE PRACTICE IN LONG-TERM CARE SETTINGS.**—

“(1) **LOAN REPAYMENTS.**—In providing for loan repayments under this section, the Secretary shall ensure that eligible individuals include registered nurses who complete specialty training in geriatrics or gerontology and who elect to provide nursing services to older adults in home and community-based or facility-based long-term care settings, or any other program determined appropriate by the Secretary.

“(2) **DEFINITION.**—In this subsection, the term ‘specialty training’ means coursework in geriatrics or gerontology or clinical training, including internships or fellowships, in a geriatric setting.

“(3) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this subsection, \$1,500,000 for fiscal year 2010, \$3,000,000 for fiscal year 2011, \$5,000,000 for fiscal year 2012, \$7,000,000 for fiscal year 2013, and \$8,500,000 for fiscal year 2014.”.

**SA 2945.** Mrs. BOXER submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time

homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ . REPORT ON IMPACT OF NURSE STAFFING.**

Not later than 18 months after the date of the enactment of this Act, the Director of the Agency for Healthcare Research and Quality shall submit to Congress a report on the impact of the nurse-to-patient ratio on the quality of care and patient outcomes, including recommendations for further integration into quality measurement and quality improvement activities as determined appropriate.

**SA 2946.** Mr. CASEY submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 330, line 9, insert after “1402(g)(1)” the following: “, or an individual who would be eligible for an exemption under such section if the individual were self-employed.”.

**SA 2947.** Ms. KLOBUCHAR submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1411, between lines 5 and 6, insert the following:

**SEC. 5316. GRANTS FOR EMERGENCY MEDICAL SERVICES PERSONNEL TRAINING FOR VETERANS.**

Section 330J of the Public Health Service Act (42 U.S.C. 254c-15) is amended—

(1) in subsection (b)(1)—  
(A) in subparagraph (E), by striking “or” at the end;

(B) by redesignating subparagraph (F) as subparagraph (G); and

(C) by inserting after subparagraph (E), the following:

“(F) an entity providing training for emergency medical services personnel, including institutions of higher education, technical colleges, community colleges, and other State-certified training entities; or”;

(2) in subsection (c)—  
(A) in paragraph (7), by striking “and” at the end;

(B) in paragraph (8), by striking the period and inserting “; and”;

(C) by adding at the end the following:

“(9) provide to military veterans required coursework and training that take into account, and are not duplicative of, previous medical coursework and training received when such veterans were active members of the Armed Forces, to enable such veterans to

satisfy emergency medical services personnel certification requirements, as determined by the appropriate State regulatory entity.”.

**SA 2948.** Ms. SNOWE submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

Strike subtitle I of title VI and insert the following:

**Subtitle I—State Medical Malpractice Programs**

**SEC. 6801. PRE-LITIGATION SCREENING AND MEDIATION PANELS.**

(a) IN GENERAL.—As a condition for receiving Federal funds under the Medicaid program under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.), each State and territory shall, not later than 3 years after the date of enactment of this Act, create a pre-litigation screening and mediation panel which shall provide timely review of each medical malpractice claim before such claim is filed in a State or Federal court in such State.

(b) REQUIREMENTS.—

(1) IN GENERAL.—Each medical malpractice claim shall be heard by such panel before such claim may be filed in a State or Federal court and before litigation of such case may commence.

(2) REPORTS.—The panel shall issue a report containing the findings and recommendations of such panel, based on the evidence presented to the panel. The report described in this paragraph shall not affect a claimant's right to bring a medical malpractice claim in State or Federal court. Notwithstanding any other provision of State or Federal law, such report may be admissible in such court.

(c) DUTIES.—Each panel established under subsection (a) shall—

(1) review medical malpractice claims;

(2) assess the evidence offered by the parties; and

(3) render professional judgment on the validity of claims.

(d) MEMBERSHIP.—Each panel established under subsection (a) shall be comprised of lawyers, retired judges, doctors, and medical professionals. Members of the panel shall serve on a volunteer basis, unless a State chooses to arrange for compensation of, or reimbursement of expenses for, such members.

(e) EXEMPTED STATES.—A State that, on the day before the date of enactment of this Act, has enacted laws that require medical malpractice claims to be heard by a pre-litigation panel, in a manner similar to the requirements of this section, may, at the discretion of the Secretary, be exempt from the requirements of this section for as long as such State maintains such panel.

(f) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to interfere with or restrict an individual's right to bring a lawsuit in civil courts.

**SEC. 6802. STANDARDS FOR MEDICAL LIABILITY EXPERT WITNESSES.**

As a condition for receiving Federal funds under the Medicaid program under title XIX

of the Social Security Act (42 U.S.C. 1396 et seq.), each State and territory shall require that an individual wishing to present evidence through an expert witness in a medical malpractice case demonstrate that such expert witness—

(1) be credentialed or licensed in one or more States to deliver health care services;

(2) typically treat the diagnosis or condition at issue in the case, or provide the type of treatment under review; and

(3) is substantially familiar with applicable standards of care and practice as they relate to the act or omission that is the subject of the lawsuit.

**SEC. 6803. ENCOURAGING SETTLEMENT OF MEDICAL MALPRACTICE LAWSUITS.**

As a condition for receiving Federal funds under the Medicaid program under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.), each State and territory shall require that a party in a medical malpractice lawsuit that refuses a settlement offer in an amount that is significantly greater than the amount awarded by a jury after trial reimburse the party that made such settlement offer for the costs of the trial, including attorney's fees associated with the trial.

**SA 2949.** Mr. ROCKEFELLER (for himself and Mr. BROWN) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 182, strike line 8 and all that follows through page 200, line 5, and insert the following:

**SEC. 1323. CONSUMERS CHOICE HEALTH PLAN.**

(a) FINDINGS.—Congress makes the following findings:

(1) Americans need health care coverage that is always affordable.

(2) Americans need health care coverage that is always adequate.

(3) Americans need health care coverage that is always accountable.

(4) A public health insurance plan option that can compete with private insurance plans is the only way to guarantee that all consumers have affordable, adequate, and accountable options available in the insurance marketplace.

(b) OFFICE OF HEALTH PLAN MANAGEMENT.—

(1) ESTABLISHMENT.—Not later than July 1, 2010, there shall be established within the Department of Health and Human Services an Office of Health Plan Management (referred to in this section as the “Office”). The Office shall be headed by a Director (referred to in this section as the “Director”) who shall be appointed by the President, by and with the advice and consent of the Senate.

(2) COMPENSATION.—The Director shall be paid at the annual rate of pay for a position at level II of the Executive Schedule under section 5313 of title 5, United States Code.

(3) LIMITATION.—Neither the Director nor the Office shall participate in the administration of the Exchanges established under this title or the promulgation or administration of any regulation regarding the health insurance industry.

(4) **PERSONNEL AND OPERATIONS AUTHORITY.**—The Director shall have the same general authorities with respect to personnel and operations of the Office as the heads of other agencies and departments of the Federal Government have with respect to such agencies and departments.

(c) **CONSUMER CHOICE HEALTH PLAN.**—

(1) **IN GENERAL.**—The Office shall establish and administer the Consumer Choice Health Plan (referred to in this section as the “Plan”) to provide for health insurance coverage that is made available to all eligible individuals (as described in paragraph (4)(A)) in the United States and its territories.

(2) **REGULATORY COMPLIANCE.**—The Plan shall comply with—

(A) all regulations and requirements that are applicable with respect to other qualified health plans that are offered through the Exchanges; and

(B) any additional regulations and requirements, as determined by the Director.

(3) **BENEFITS.**—

(A) **IN GENERAL.**—The Plan shall offer health insurance coverage at different benefit levels, provided that such benefits are commensurate with the required benefit levels to be provided by a qualified health plan through the Exchanges.

(B) **MINIMUM BENEFITS FOR CHILDREN.**—

(i) **IN GENERAL.**—The minimum benefit level available under the Plan for children shall include at least the services described in the most recently published version of the “Maternal and Child Health Plan Benefit Model” developed by the National Business Group on Health.

(ii) **AMENDMENT OF BENEFIT LEVEL.**—The Secretary of Health and Human Services, acting through the Director of the Agency for Healthcare Research and Quality, may amend the benefits described in clause (i) based on the most recent peer-reviewed and evidence-based data.

(4) **ELIGIBILITY AND ENROLLMENT.**—

(A) **ELIGIBILITY.**—An individual who is eligible to purchase coverage from a qualified health plan through an Exchange shall be eligible to enroll in the Plan.

(B) **ENROLLMENT PROCESS.**—An individual may enroll in the Plan only in such manner and form as may be prescribed by applicable regulations, and only during an enrollment period as prescribed by the Director.

(C) **EMPLOYER ENROLLMENT.**—An employer shall be eligible to purchase health insurance coverage for their employees and the employees’ dependents to the extent provided for all qualified health plans under the Exchanges.

(D) **SATISFACTION OF INDIVIDUAL MANDATE REQUIREMENT.**—An individual’s enrollment with the Plan shall be treated as satisfying any requirement under Federal law for such individual to demonstrate enrollment in health insurance or benefits coverage, including the requirement under section 5000A of the Internal Revenue Code of 1986.

(5) **PROVIDERS.**—

(A) **NETWORK REQUIREMENT.**—

(i) **MEDICARE.**—A participating provider who is voluntarily providing health care services under the Medicare program established under title XVIII of the Social Security Act (42 U.S.C. 1395 et seq.) shall be required to provide services to any individual enrolled in the Plan.

(ii) **MEDICAID AND CHIP.**—A provider of health care services under the Medicaid program established under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.), or the CHIP program established under title XXI of such Act (42 U.S.C. 1397aa et seq.),

shall be required to provide services to any individual enrolled in the Plan.

(B) **EXCEPTION.**—Subparagraph (A) shall not be construed as requiring a provider to accept new patients due to bona fide capacity limitations of the provider.

(C) **OPT-OUT PROVISION.**—

(i) **MEDICARE.**—A participating provider as described under subparagraph (A)(i) shall be required to provide services to any individual enrolled in the Plan for the 3-year period following the establishment of the Plan. Upon the expiration of the 3-year period, a participating provider in the Plan may elect to become a non-participating provider without affecting their status as a participating provider under the Medicare program.

(ii) **MEDICAID AND CHIP.**—A provider as described under subparagraph (A)(ii) shall be required to provide services to any individual enrolled in the Plan for the 3-year period following the establishment of the Plan. Upon the expiration of the 3-year period, a provider in the Plan may elect to cease provision of services under the Plan without affecting their status as a provider under the Medicaid program or the CHIP program.

(D) **PAYMENT RATES.**—

(i) **INITIAL PAYMENT RATES.**—

(I) **IN GENERAL.**—During the 2-year period following the establishment of the Plan, providers shall be reimbursed at such payment rates as are applicable under the Medicare program.

(II) **ADJUSTMENT.**—The Director may reimburse providers at rates lower or higher than applicable under the Medicare program if the Director determines that the adjusted rates are appropriate and ensure that enrollees in the Plan are provided with adequate access to health care services.

(ii) **SUBSEQUENT PAYMENT RATES.**—Subject to clause (iii), upon the expiration of the 2-year period following the establishment of the Plan, the Director shall develop payment rates for reimbursement of providers in order to maintain an adequate provider network necessary to assure that enrollees in the Plan have adequate access to health care. In determining such payment rates, the Director shall consider—

(I) competitive provider payment rates in both the public and private sectors;

(II) best practices among providers;

(III) integrated models of care delivery (including medical home and chronic care coordination models);

(IV) geographic variation in health care costs;

(V) evidence-based practices;

(VI) quality improvement;

(VII) use of health information technology; and

(VIII) any additional measures, as determined by the Director.

(iii) **PAYMENT RATE CONSULTATION.**—The Director shall determine payment rates under clause (ii) in consultation with providers participating under the Plan, the Director of the Office of Personnel Management, the Medicare Payment Advisory Commission, and the Medicaid and CHIP Payment and Access Commission.

(E) **ADOPTION OF MEDICARE REFORMS.**—The Plan may adopt Medicare system delivery reforms that provide patients with a coordinated system of care and make changes to the provider payment structure.

(6) **SUBSIDIES.**—The Plan shall be eligible to accept subsidies, including subsidies for the enrollment of individuals under the Plan, in the same manner and to the same extent as other qualified health plans offered through an Exchange (including credits

under section 36B of the Internal Revenue Code of 1986).

(7) **FINANCING.**—

(A) **TRANSITIONAL FUNDING.**—

(i) **IN GENERAL.**—In order to provide for adequate funding of the Plan in advance of receipt of payments as described in subparagraph (B), beginning July 1, 2010, there are transferred to the Plan from the general fund of the Treasury such amounts as may be necessary for operation of the Plan until the end of the 3-year period following the establishment of the Plan.

(ii) **RETURN OF FUNDS.**—Upon the expiration of the 3-year period following the establishment of the Plan, the Director shall enter into a repayment schedule with the Secretary of the Treasury to provide for repayment of funds provided under clause (i). Any expenditures made by the Plan pursuant to a repayment schedule established under this subparagraph shall not constitute administrative expenses as described in subparagraph (B)(ii).

(B) **SELF-FINANCING.**—

(i) **IN GENERAL.**—The Plan shall be financially self-sustaining insofar as funds used for operation of the Plan (including benefits, administration, and marketing) shall be derived from—

(I) insurance premium payments and subsidies for individuals enrolled in the Plan; and

(II) assessable payments made pursuant to section 4980H of the Internal Revenue Code of 1986 (as added by section 1513) by employers that fail to offer their full-time employees (and their dependents) the opportunity to enroll in minimum essential coverage under an eligible employer-sponsored plan.

(ii) **LIMITATION ON ADMINISTRATIVE EXPENSES.**—Not more than 5 percent of the amounts provided under clause (i) may be used for the annual administrative costs of the Plan.

(C) **CONTINGENCY RESERVE.**—

(i) **IN GENERAL.**—The Director shall establish and fund a contingency reserve for the Plan in a form similar to the contingency reserve provided for health benefits plans under the Federal Employees Health Benefits Program under chapter 89 of title 5, United States Code.

(ii) **REVENUE.**—Any revenue generated through the contingency reserve established in clause (i) shall be transferred to the Plan for the purpose of reducing enrollee premiums, reducing enrollee cost-sharing, increasing enrollee benefits, or any combination thereof.

(D) **GAO FINANCIAL AUDIT AND REPORT.**—Beginning not later than October 1, 2011, the Comptroller General shall conduct an annual audit of the financial statements and records of the Plan, in accordance with generally accepted government auditing standards, and submit an annual report on such audit to the Congress.

(E) **SUPERMAJORITY REQUIREMENT FOR SUPPLEMENTAL FUNDING.**—Upon certification by the Comptroller General that the financial audit described in subparagraph (D) indicates that the Plan is insolvent, supplemental funding may be appropriated for the Plan if such measure receives not less than a three-fifths vote of approval of the total number of Members of the House of Representatives and the Senate.

(8) **TRANSPARENCY.**—

(A) **IN GENERAL.**—Beginning with the first year of operation of the Plan through the Exchanges, the Director shall provide standards and undertake activities for promoting transparency in costs, benefits, and other

factors for health insurance coverage provided under the Plan.

(B) STANDARD DEFINITIONS OF INSURANCE AND MEDICAL TERMS.—

(i) IN GENERAL.—The Director shall provide for the development of standards for the definitions of terms used in health insurance coverage under the Plan, including insurance-related terms (including the insurance-related terms described in clause (ii)) and medical terms (including the medical terms described in clause (iii)).

(ii) INSURANCE-RELATED TERMS.—The insurance-related terms described in this clause are premium, deductible, co-insurance, co-payment, out-of-pocket limit, preferred provider, non-preferred provider, out-of-network co-payments, UCR (usual, customary and reasonable) fees, excluded services, grievance and appeals, and such other terms as the Director determines are important to define so that consumers may compare health insurance coverage and understand the terms of their coverage.

(iii) MEDICAL TERMS.—The medical terms described in this clause are hospitalization, hospital outpatient care, emergency room care, physician services, prescription drug coverage, durable medical equipment, home health care, skilled nursing care, rehabilitation services, hospice services, emergency medical transportation, and such other terms as the Director determines are important to define so that consumers may compare the medical benefits offered by health insurance plans and understand the extent of those medical benefits (or exceptions to those benefits).

(C) DISCLOSURE.—

(i) IN GENERAL.—In carrying out this paragraph, the Director shall disclose to Plan enrollees, potential enrollees, in-network health care providers, and others (through a publicly available Internet website and other appropriate means) relevant information regarding each policy of health insurance coverage marketed or in force (in such standardized manner as determined by the Director), including—

(I) full policy contract language; and

(II) a summary of the information described in subparagraph (D).

(ii) PERSONALIZED STATEMENT.—The Director shall disclose to enrollees (in such standardized manner as determined by the Director) an annual personalized statement that summarizes use of health care services and payment of claims with respect to an enrollee (and covered dependents) under health insurance coverage provided through the Plan in the preceding year.

(D) REQUIRED INFORMATION.—The information described in this subparagraph includes, but is not limited to, the following:

(i) Data on the price of each new policy of health insurance coverage and renewal rating practices.

(ii) Claims payment policies and practices, including how many and how quickly claims were paid.

(iii) Provider fee schedules and usual, customary, and reasonable fees (for both in-network and out-of-network providers).

(iv) Provider participation and provider directories.

(v) Loss ratios, including detailed information about amount and type of non-claims expenses.

(vi) Covered benefits, cost-sharing, and amount of payment provided toward each type of service identified as a covered benefit, including preventive care services recommended by the United States Preventive Services Task Force.

(vii) Civil or criminal actions successfully concluded against the Plan by any governmental entity.

(viii) Benefit exclusions and limits.

(E) DEVELOPMENT OF PATIENT CLAIMS SCENARIOS.—

(i) IN GENERAL.—In order to improve the ability of individuals and employers to compare the coverage and relative value provided under the Plan, the Director shall develop and make publically available a series of patient claims scenarios under which benefits (including out-of-pocket costs) under the Plan are simulated for certain common or expensive conditions or courses of treatment (including maternity care, breast cancer, heart disease, diabetes management, and well-child visits).

(ii) CONSULTATION.—The Director shall develop the patient claims scenarios described in clause (i)—

(I) in consultation with the Secretary of Health and Human Services, the National Institutes of Health, the Centers for Disease Control and Prevention, the Agency for Healthcare Research and Quality, health professional societies, patient advocates, and other entities as deemed necessary by the Director; and

(II) based upon recognized clinical practice guidelines.

(F) MANNER OF DISCLOSURE.—The Director shall disclose the information under this paragraph—

(i) with all marketing materials;

(ii) on the website for the Plan; and

(iii) at other times upon request.

(d) CONFORMING AMENDMENTS.—

(1) COMMUNITY HEALTH INSURANCE OPTION.—

(A) IN GENERAL.—Title I of this Act is amended by striking “community health insurance option” each place it appears and inserting “Consumer Choice Health Plan”.

(B) ANNUAL FEE ON HEALTH INSURANCE PROVIDERS.—Section 9010(c)(2)(B) is amended by striking “community health insurance option” and inserting “Consumer Choice Health Plan”.

(2) SPECIAL RULES.—Section 1303(a)(1)(C) is amended by—

(A) in clause (i)(III), striking “section 1323(e)(1)(C) or”; and

(B) in clause (ii), striking “section 1323(b)(3)(A)” and inserting “section 1323(c)(3)(A)”.

#### SEC. 1323A. ESTABLISHMENT OF AMERICA'S HEALTH INSURANCE TRUST.

(a) ESTABLISHMENT.—As of the date of enactment of this Act, there is authorized to be established a non-profit corporation that shall be known as the “America's Health Insurance Trust” (referred to in this section and section 1323B as the “Trust”), which is neither an agency nor establishment of the United States Government.

(b) LOCATION; SERVICE OF PROCESS.—The Trust shall maintain its principal office within the District of Columbia and have a designated agent in the District of Columbia to receive service of process for the Trust. Notice to or service on the agent shall be deemed as notice to or service on the corporation.

(c) APPLICATION OF PROVISIONS.—The Trust shall be subject to the provisions of this section and, to the extent consistent with this section, to the District of Columbia Non-profit Corporation Act.

(d) TAX EXEMPT STATUS.—The Trust shall be treated as a nonprofit organization described under section 170(c)(2)(B) and section 501(c)(3) of the Internal Revenue Code of 1986 that is exempt from taxation under section 501(a) of the Internal Revenue Code of 1986.

(e) BOARD OF DIRECTORS.—

(1) IN GENERAL.—The Board of Directors of the Trust (referred to in this section as the “Board”) shall consist of 19 voting members appointed by the Comptroller General.

(2) TERMS.—

(A) IN GENERAL.—Subject to subparagraph (C), each member of the Board shall serve for a term of 6 years.

(B) LIMITATION.—No individual shall be appointed to the Board for more than 2 consecutive terms.

(C) INITIAL MEMBERS.—The initial members of the Board shall be appointed by the Comptroller General not later than October 1, 2010, and shall serve terms as follows:

(i) 8 members shall be appointed for a term of 5 years.

(ii) 8 members shall be appointed for a term of 3 years.

(iii) 3 members shall be appointed for a term of 1 year.

(D) EXPIRATION OF TERM.—Any member of the Board whose term has expired may serve until such member's successor has taken office, or until the end of the calendar year in which such member's term has expired, whichever is earlier.

(E) VACANCIES.—

(i) IN GENERAL.—Any member appointed to fill a vacancy prior to the expiration of the term for which such member's predecessor was appointed shall be appointed for the remainder of such term.

(ii) VACANCIES NOT TO AFFECT POWER OF BOARD.—A vacancy on the Board shall not affect its powers, but shall be filled in the same manner as the original appointment was made.

(3) CHAIRPERSON AND VICE-CHAIRPERSON.—

(A) IN GENERAL.—The Comptroller General shall designate a Chairperson and Vice-Chairperson of the Board from among the members of the Board.

(B) TERM.—The members designated as Chairperson and Vice-Chairperson shall serve for a period of 3 years.

(4) CONFLICTS OF INTEREST.—An individual may not serve on the Board if such individual (or an immediate family member of such individual) is employed by or has a financial interest in—

(A) an organization that provides a health insurance plan;

(B) a pharmaceutical manufacturer; or

(C) any subsidiary entities of an organization described in subparagraphs (A) or (B).

(5) COMPOSITION OF THE BOARD.—

(A) POLITICAL PARTIES.—Not more than 10 members of the Board may be affiliated with the same political party.

(B) DIVERSITY.—In appointing members under this paragraph, the Comptroller General shall ensure that such members provide appropriately diverse representation with respect to race, ethnicity, age, gender, and geography.

(C) CONSUMER REPRESENTATION.—10 members of the Board shall be independent and non-conflicted individuals representing the interests of health care consumers. Each member selected under this subparagraph shall represent 1 of the 10 Department of Health and Human Services regions in the United States.

(D) REMAINING REPRESENTATION.—

(i) IN GENERAL.—9 members of the Board shall be selected based on relevant experience, including expertise in—

(I) community affairs;

(II) Federal, State, and local government;

(III) health professions and administration;

(IV) business, finance, and accounting;

(V) legal affairs;

(VI) insurance;  
 (VII) trade unions;  
 (VIII) social services; and  
 (IX) any additional areas as determined by the Comptroller General.

(ii) **INCOME FROM HEALTH CARE INDUSTRY.**—Not more than 4 of the members selected under this subparagraph shall earn more than 10 percent of their income from the health care industry.

(6) **MEETINGS AND HEARINGS.**—The Board shall meet and hold hearings at the call of the Chairperson or a majority of its members. Meetings of the Board on matters not related to personnel shall be open to the public and advertised through public notice at least 7 days prior to the meeting.

(7) **QUORUM.**—A majority of the members of the Board shall constitute a quorum for purposes of conducting the duties of the Trust, but a lesser number of members may meet and hold hearings.

(8) **EXECUTIVE DIRECTOR AND STAFF; PERFORMANCE OF DUTIES.**—The Board may—

(A) employ and fix the compensation of an Executive Director and such other personnel as may be necessary to carry out the duties of the Trust;

(B) seek such assistance and support as may be required in the performance of the duties of the Trust from appropriate departments and agencies of the Federal Government;

(C) enter into contracts or other arrangements and make such payments as may be necessary for performance of the duties of the Trust;

(D) provide travel, subsistence, and per diem compensation for individuals performing the duties of the Trust, including members of the Advisory Council (as described in subsection (f)); and

(E) prescribe such rules, regulations, and bylaws as the Board determines necessary with respect to the internal organization and operation of the Trust.

(9) **LOBBYING COOLING-OFF PERIOD FOR MEMBERS OF THE BOARD.**—Section 207(c) of title 18, United States Code, as amended by section 3403(a)(2), is amended by inserting at the end the following:

“(4) **MEMBERS OF THE BOARD OF DIRECTORS OF THE AMERICA’S HEALTH INSURANCE TRUST.**—Paragraph (1) shall apply to a member of the Board of Directors of the America’s Health Insurance Trust who was appointed to the Board as of the day before the date of enactment of the Patient Protection and Affordable Care Act.”.

(f) **ADVISORY COUNCIL.**—

(1) **ESTABLISHMENT.**—The Board shall establish an advisory council that shall be comprised of the insurance commissioners of each State (including the District of Columbia) to advise the Board on the development and impact of measures to improve the transparency and accountability of qualified health plans provided through the Exchanges established under this title.

(2) **MEETINGS.**—The advisory council shall meet not less than twice a year and at the request of the Board.

(g) **FINANCIAL OVERSIGHT.**—

(1) **CONTRACT FOR AUDITS.**—The Trust shall provide for financial audits of the Trust on an annual basis by a private entity with expertise in conducting financial audits.

(2) **REVIEW AND REPORT ON AUDITS.**—The Comptroller General shall—

(A) review and evaluate the results of the audits conducted pursuant to paragraph (1); and

(B) submit a report to Congress containing the results and review of such audits, includ-

ing an analysis of the adequacy and use of the funding for the Trust and its activities.

(h) **RULES ON GIFTS AND OUTSIDE CONTRIBUTIONS.**—

(1) **GIFTS.**—The Trust (including the Board and any staff acting on behalf of the Trust) shall not accept gifts, bequeaths, or donations of services or property.

(2) **PROHIBITION ON OUTSIDE FUNDING OR CONTRIBUTIONS.**—The Trust shall not—

(A) establish a corporation other than as provided under this section; or

(B) accept any funds or contributions other than as provided under this section.

(i) **AMERICA’S HEALTH INSURANCE TRUST FUND.**—

(1) **IN GENERAL.**—There is established in the Treasury a trust fund to be known as the “America’s Health Insurance Trust Fund” (referred to in this section as the “Trust Fund”), consisting of such amounts as may be credited to the Trust Fund as provided under this subsection.

(2) **TRANSFER.**—The Secretary of the Treasury shall transfer to the Trust Fund out of the general fund of the Treasury amounts determined by the Secretary to be equivalent to the amounts received into such general fund that are attributable to the fees collected under sections 4385 and 4386 of the Internal Revenue Code of 1986 (relating to fees on health insurance policies and self-insured health plans).

(3) **FINANCING FOR FUND FROM FEES ON INSURED AND SELF-INSURED HEALTH PLANS.**—

(A) **GENERAL RULE.**—Chapter 34 of the Internal Revenue Code of 1986 is amended by adding at the end the following new subchapter:

**“Subchapter C—Additional Fees on Insured and Self-Insured Health Plans**

“Sec. 4385. Health insurance.

“Sec. 4386. Self-insured health plans.

“Sec. 4387. Definitions and special rules.

**“SEC. 4385. HEALTH INSURANCE.**

“(a) **IMPOSITION OF FEE.**—In the case of any specified health insurance policy issued after October 1, 2009, there is hereby imposed a fee equal to—

“(1) for policies issued during fiscal years 2010 through 2013, 50 cents multiplied by the average number of lives covered under the policy; and

“(2) for policies issued after September 30, 2013, \$1 multiplied by the average number of lives covered under the policy.

“(b) **LIABILITY FOR FEE.**—The fee imposed by subsection (a) shall be paid by the issuer of the policy.

“(c) **SPECIFIED HEALTH INSURANCE POLICY.**—For purposes of this section:

“(1) **IN GENERAL.**—Except as otherwise provided in this section, the term ‘specified health insurance policy’ means any accident or health insurance policy (including a policy under a group health plan) issued with respect to individuals residing in the United States.

“(2) **EXEMPTION FOR CERTAIN POLICIES.**—The term ‘specified health insurance policy’ does not include any insurance if substantially all of its coverage is of excepted benefits described in section 9832(c).

“(3) **TREATMENT OF PREPAID HEALTH COVERAGE ARRANGEMENTS.**—

“(A) **IN GENERAL.**—In the case of any arrangement described in subparagraph (B)—

“(i) such arrangement shall be treated as a specified health insurance policy, and

“(ii) the person referred to in such subparagraph shall be treated as the issuer.

“(B) **DESCRIPTION OF ARRANGEMENTS.**—An arrangement is described in this subparagraph if under such arrangement fixed pay-

ments or premiums are received as consideration for any person’s agreement to provide or arrange for the provision of accident or health coverage to residents of the United States, regardless of how such coverage is provided or arranged to be provided.

“(d) **ADJUSTMENTS FOR INCREASES IN HEALTH CARE SPENDING.**—In the case of any policy issued in any fiscal year beginning after September 30, 2014, the dollar amount in effect under subsection (a) for such policy shall be equal to the sum of such dollar amount for policies issued in the previous fiscal year (determined after the application of this subsection), plus an amount equal to the product of—

“(1) such dollar amount for policies issued in the previous fiscal year, multiplied by

“(2) the percentage increase in the projected per capita amount of National Health Expenditures from the calendar year in which the previous fiscal year ends to the calendar year in which the fiscal year involved ends, as most recently published by the Secretary of Health and Human Services before the beginning of the fiscal year.

“(e) **TERMINATION.**—This section shall not apply to policy years ending after September 30, 2019.

**“SEC. 4386. SELF-INSURED HEALTH PLANS.**

“(a) **IMPOSITION OF FEE.**—In the case of any applicable self-insured health plan issued after October 1, 2009, there is hereby imposed a fee equal to—

“(1) for plans issued during fiscal years 2010 through 2013, 50 cents multiplied by the average number of lives covered under the plan; and

“(2) for plans issued after September 30, 2013, \$1 multiplied by the average number of lives covered under the plans.

“(b) **LIABILITY FOR FEE.**—

“(1) **IN GENERAL.**—The fee imposed by subsection (a) shall be paid by the plan sponsor.

“(2) **PLAN SPONSOR.**—For purposes of paragraph (1) the term ‘plan sponsor’ means—

“(A) the employer in the case of a plan established or maintained by a single employer,

“(B) the employee organization in the case of a plan established or maintained by an employee organization,

“(C) in the case of—

“(i) a plan established or maintained by 2 or more employers or jointly by 1 or more employers and 1 or more employee organizations,

“(ii) a multiple employer welfare arrangement, or

“(iii) a voluntary employees’ beneficiary association described in section 501(c)(9),

the association, committee, joint board of trustees, or other similar group of representatives of the parties who establish or maintain the plan, or

“(D) the cooperative or association described in subsection (c)(2)(F) in the case of a plan established or maintained by such a cooperative or association.

“(c) **APPLICABLE SELF-INSURED HEALTH PLAN.**—For purposes of this section, the term ‘applicable self-insured health plan’ means any plan for providing accident or health coverage if—

“(1) any portion of such coverage is provided other than through an insurance policy, and

“(2) such plan is established or maintained—

“(A) by one or more employers for the benefit of their employees or former employees,

“(B) by one or more employee organizations for the benefit of their members or former members,

“(C) jointly by 1 or more employers and 1 or more employee organizations for the benefit of employees or former employees,

“(D) by a voluntary employees’ beneficiary association described in section 501(c)(9),

“(E) by any organization described in section 501(c)(6), or

“(F) in the case of a plan not described in the preceding subparagraphs, by a multiple employer welfare arrangement (as defined in section 3(40) of Employee Retirement Income Security Act of 1974), a rural electric cooperative (as defined in section 3(40)(B)(iv) of such Act), or a rural telephone cooperative association (as defined in section 3(40)(B)(v) of such Act).

“(d) ADJUSTMENTS FOR INCREASES IN HEALTH CARE SPENDING.—In the case of any plan issued in any fiscal year beginning after September 30, 2014, the dollar amount in effect under subsection (a) for such plan shall be equal to the sum of such dollar amount for plans issued in the previous fiscal year (determined after the application of this subsection), plus an amount equal to the product of—

“(1) such dollar amount for plans issued in the previous fiscal year, multiplied by

“(2) the percentage increase in the projected per capita amount of National Health Expenditures from the calendar year in which the previous fiscal year ends to the calendar year in which the fiscal year involved ends, as most recently published by the Secretary of Health and Human Services before the beginning of the fiscal year.

“(e) TERMINATION.—This section shall not apply to plans issued after September 30, 2019.

#### **“SEC. 4387. DEFINITIONS AND SPECIAL RULES.**

“(a) DEFINITIONS.—For purposes of this subchapter—

“(1) ACCIDENT AND HEALTH COVERAGE.—The term ‘accident and health coverage’ means any coverage which, if provided by an insurance policy, would cause such policy to be a specified health insurance policy (as defined in section 4385(c)).

“(2) INSURANCE POLICY.—The term ‘insurance policy’ means any policy or other instrument whereby a contract of insurance is issued, renewed, or extended.

“(3) UNITED STATES.—The term ‘United States’ includes any possession of the United States.

“(b) TREATMENT OF GOVERNMENTAL ENTITIES.—

“(1) IN GENERAL.—For purposes of this subchapter—

“(A) the term ‘person’ includes any governmental entity, and

“(B) notwithstanding any other law or rule of law, governmental entities shall not be exempt from the fees imposed by this subchapter except as provided in paragraph (2).

“(2) TREATMENT OF EXEMPT GOVERNMENTAL PROGRAMS.—In the case of an exempt governmental program, no fee shall be imposed under section 4385 or section 4386 on any covered policy or plan under such program.

“(3) EXEMPT GOVERNMENTAL PROGRAM DEFINED.—For purposes of this subchapter, the term ‘exempt governmental program’ means—

“(A) any insurance program established under title XVIII of the Social Security Act,

“(B) the medical assistance program established by title XIX or XXI of the Social Security Act,

“(C) the Federal Employees Health Benefits Program under chapter 89 of title 5, United States Code,

“(D) the Consumer Choice Health Plan established under section 1323 of the Patient Protection and Affordable Care Act,

“(E) any program established by Federal law for providing medical care (other than through insurance policies) to individuals (or the spouses and dependents thereof) by reason of such individuals being—

“(i) members of the Armed Forces of the United States, or

“(ii) veterans, and

“(F) any program established by Federal law for providing medical care (other than through insurance policies) to members of Indian tribes (as defined in section 4(d) of the Indian Health Care Improvement Act).

“(c) TREATMENT AS TAX.—For purposes of subtitle F, the fees imposed by this subchapter shall be treated as if they were taxes.

“(d) NO COVER OVER TO POSSESSIONS.—Notwithstanding any other provision of law, no amount collected under this subchapter shall be covered over to any possession of the United States.”.

(B) CLERICAL AMENDMENTS.—

(1) Chapter 34 of such Code is amended by striking the chapter heading and inserting the following:

#### **“CHAPTER 34—TAXES ON CERTAIN INSURANCE POLICIES**

“SUBCHAPTER A. POLICIES ISSUED BY FOREIGN INSURERS

“SUBCHAPTER B. INSURED AND SELF-INSURED HEALTH PLANS

“SUBCHAPTER C. ADDITIONAL FEES ON INSURED AND SELF-INSURED HEALTH PLANS

#### **“Subchapter A—Policies Issued By Foreign Insurers”.**

(ii) The table of chapters for subtitle D of such Code is amended by striking the item relating to chapter 34 and inserting the following new item:

“CHAPTER 34—TAXES ON CERTAIN INSURANCE POLICIES”.

#### **SEC. 1323B. DUTIES OF AMERICA'S HEALTH INSURANCE TRUST.**

(a) INSURANCE PLAN RANKINGS AND WEBSITE.—

(1) WEB-BASED MATERIALS.—The Trust shall establish and maintain a website that provides informational materials regarding the qualified health plans provided through the Exchanges established under this title, including appropriate links for all available State insurance commissioner websites.

(2) PLAN RANKINGS.—The Trust shall develop and publish annual rankings of the qualified health plans provided through the Exchanges, based on the assignment of a letter grade between “grade A” (highest) and “grade F” (lowest). The Trust shall provide for a comparative evaluation of each plan based upon—

(A) administrative expenditures;

(B) affordability of coverage;

(C) adequacy of coverage;

(D) timeliness and adequacy of consumer claims processing;

(E) available consumer complaint systems;

(F) grievance and appeals processes;

(G) transparency;

(H) consumer satisfaction; and

(I) any additional measures as determined by the Board.

(3) INFORMATION AVAILABLE ON WEBSITE BY ZIP CODE.—The annual rankings of the qualified health plans (as described in paragraph (2)) shall be available on the website for the Trust (as described in paragraph (1)), and websites for the Exchanges, in a manner that is searchable and sortable by zip code.

(4) CONSUMER FEEDBACK.—

(A) CONSUMER COMPLAINTS.—The Trust shall develop written and web-based methods

for individuals to provide recommendations and complaints regarding the qualified health plans provided through the Exchanges.

(B) CONSUMER SURVEYS.—The Trust shall obtain meaningful consumer input, including consumer surveys, that measure the extent to which an individual receives the services and supports described in the individual's health insurance plan and the individual's satisfaction with such services and supports.

(b) DATA SHARING.—

(1) IN GENERAL.—An organization that provides a qualified health plan through an Exchange shall provide the Trust with all information and data that is necessary for improving transparency, monitoring, and oversight of such plans.

(2) ANNUAL DISCLOSURE.—Beginning with the first full year for which Exchanges are required to be operational under this title, an organization that provides a qualified health plan through an Exchange shall annually provide the Trust with appropriate information regarding the following:

(A) Name of the plan.

(B) Levels of available plan benefits.

(C) Description of plan benefits.

(D) Number of enrollees under the plan.

(E) Demographic profile of enrollees under the plan.

(F) Number of claims paid to enrollees.

(G) Number of enrollees that terminated their coverage under the plan.

(H) Total operating cost for the plan (including administrative costs).

(I) Patterns of utilization of the plan's services.

(J) Availability, accessibility, and acceptability of the plan's services.

(K) Such information as the Trust may require demonstrating that the organization has a fiscally sound operation.

(L) Any additional information as determined by the Trust.

(3) FORM AND MANNER OF INFORMATION.—Information to be provided to the Trust under paragraphs (1) and (2) shall be provided—

(A) in such form and manner as specified by the Trust; and

(B) within 30 days of the date of receipt of the request for such information, or within such extended period as the Trust deems appropriate.

(4) INFORMATION FROM THE DEPARTMENT OF HEALTH AND HUMAN SERVICES.—

(A) IN GENERAL.—Any information regarding the qualified health plans that are offered through the Exchanges that has been provided to the Secretary of Health and Human Services shall also be made available (as deemed appropriate by the Secretary) to the Trust for the purpose of improving transparency, monitoring, and oversight of such plans. Such information may include, but is not limited to, the following:

(i) Underwriting guidelines to ensure compliance with applicable Federal health insurance requirements.

(ii) Rating practices to ensure compliance with applicable Federal health insurance requirements.

(iii) Enrollment and disenrollment data, including information the Secretary may need to detect patterns of discrimination against individuals based on health status or other characteristics, to ensure compliance with applicable Federal health insurance requirements (including non-discrimination in group coverage, guaranteed issue, and guaranteed renewability requirements applicable in all markets).

(iv) Post-claims underwriting and rescission practices to ensure compliance with applicable Federal health insurance requirements relating to guaranteed renewability.

(v) Marketing materials and agent guidelines to ensure compliance with applicable Federal health insurance requirements.

(vi) Data on the imposition of pre-existing condition exclusion periods and claims subjected to such exclusion periods.

(vii) Information on issuance of certificates of creditable coverage.

(viii) Information on cost-sharing and payments with respect to any out-of-network coverage.

(ix) The application to issuers of penalties for violation of applicable Federal health insurance requirements (including failure to produce requested information).

(x) Such other information as the Trust may determine to be necessary to verify compliance with the requirements of this section.

(B) **REQUIRED DISCLOSURE.**—The Secretary of Health and Human Services shall provide the Trust with all consumer claims data or information that has been provided to the Secretary by any qualified health plan that is offered through an Exchange.

(C) **PERIOD FOR PROVIDING INFORMATION.**—Information to be provided to the Trust under this paragraph shall be provided by the Secretary within 30 days of the date of receipt of the request for such information, or within such extended period as the Secretary and the Trust mutually deem appropriate.

(5) **NON-DISCLOSURE OF HEALTH INSURANCE DATA.**—The Trust shall prevent disclosure of any data or information provided under this paragraph that the Trust determines is proprietary or qualifies as a trade secret subject to withholding from public dissemination. Any data or information provided under this paragraph shall not be subject to disclosure under section 552 of title 5, United States Code (commonly referred to as the Freedom of Information Act).

**SA 2950.** Mr. ROCKEFELLER submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 34, between lines 4 and 5, insert the following:

**“SEC. 7270. LIMITATION ON ANNUAL GROWTH IN HEALTH INSURANCE PREMIUMS.**

“(a) **IN GENERAL.**—A group health plan and a health insurance issuer offering group or individual health insurance coverage may not increase the health insurance premium rates for such plan or coverage in any year by a percentage that is greater than the percentage increase in the Medical Care Component of the Consumer Price Index for all urban consumers for year involved.

“(b) **EFFECT.**—If a plan or an issuer increases the health insurance premium rate by a percentage greater than the percentage described in subsection (a), that plan or issuer shall refund the excess premium dollars back to the enrollee or to the Federal

treasury, in amounts equal to the respective premium contributions of the enrollee and the Federal Government, taking into account premium subsidies provided to individuals or families for coverage purchased in an Exchange.”.

**SA 2951.** Mr. ROCKEFELLER submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 112, between lines 8 and 9, insert the following:

**(5) MAXIMUM TOTAL OUT-OF-POCKET EXPENSES.—**

**(A) IN GENERAL.**—Notwithstanding any other provision of this Act (or any amendments made by this Act), in no case may out-of-pocket expenses incurred under a health plan with respect to self-only coverage or coverage other than self-only exceed the following limits for any plan year beginning in or after 2014:

(i) 7.5 percent of annual household income for an individual with household income under 200 percent of the poverty line for the size of the family involved.

(ii) 10 percent of annual household income for an individual with household income between 200 and 400 percent of the poverty line for the size of the family involved.

(iii) 12 percent of annual household income for an individual with household income above 400 percent of the poverty line for the size of the family involved.

**(B) OUT-OF-POCKET EXPENSES.**—In this paragraph, the term “out-of-pocket expenses” includes deductibles, coinsurance, copayments, premiums, balance billing amounts for non-network providers, and similar charges.

**SA 2952.** Mr. ROCKEFELLER submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1925, between lines 14 and 15, insert the following:

**Subtitle C—Provisions Relating to Authorized Generic Drugs**

**SEC. 7201. PROHIBITION OF AUTHORIZED GENERICS.**

**(a) IN GENERAL.**—Section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) is amended by adding at the end the following:

“(w) **PROHIBITION OF AUTHORIZED GENERIC DRUGS.**—

“(1) **IN GENERAL.**—Notwithstanding any other provision of this Act, no holder of a new drug application approved under subsection (c) shall manufacture, market, sell, or distribute an authorized generic drug, di-

rect or indirectly, or authorize any other person to manufacture, market, sell, or distribute an authorized generic drug.

“(2) **AUTHORIZED GENERIC DRUG.**—For purposes of this subsection, the term ‘authorized generic drug’—

“(A) means any version of a listed drug (as such term is used in subsection (j)) that the holder of the new drug application approved under subsection (c) for that listed drug seeks to commence marketing, selling, or distributing, directly or indirectly, after receipt of a notice sent pursuant to subsection (j)(2)(B) with respect to that listed drug; and

“(B) does not include any drug to be marketed, sold, or distributed—

“(i) by an entity eligible for exclusivity with respect to such drug under subsection (j)(5)(B)(iv); or

“(ii) after expiration or forfeiture of any exclusivity with respect to such drug under such subsection (j)(5)(B)(iv).”.

**(b) CONFORMING AMENDMENT.**—Section 505(t)(3) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(t)(3)) is amended by striking “In this section” and inserting “In this subsection”.

**ORDERS FOR MONDAY, DECEMBER 7, 2009**

Mr. BEGICH. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 10 a.m., Monday, December 7; that following the prayer and the pledge, the Journal of proceedings be approved to date, the morning hour be deemed to have expired, the time for the two leaders be reserved for their use later in the day, and the Senate resume consideration of H.R. 3590, the health care reform legislation; that following leader remarks, the first 2 hours be equally divided and controlled between the two leaders or their designees, with Senators permitted to speak therein for up to 10 minutes each, with the Republicans controlling the first 30 minutes, and the majority controlling the next 30 minutes, and with no amendments or motions in order during the controlled time.

The PRESIDING OFFICER. Without objection, it is so ordered.

**PROGRAM**

Mr. BEGICH. Mr. President, rollcall votes in relation to the amendments to the health care reform bill are expected to occur after 3:15 p.m. tomorrow.

**ADJOURNMENT UNTIL 10 A.M. TOMORROW**

Mr. BEGICH. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it adjourn under the previous order.

There being no objection, the Senate, at 5:24 p.m., adjourned until Monday, December 7, 2009, at 10 a.m.

## SENATE—Monday, December 7, 2009

The Senate met at 10 a.m. and was called to order by the Honorable KAY R. HAGAN, a Senator from the State of North Carolina.

### PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Eternal Spirit, our shelter in the time of storm, thank You for the opportunity to serve You and our country. Remind us that You are more interested in our faithfulness than our success.

Today, empower our lawmakers to be faithful in the small things, thereby qualifying themselves for greater opportunities to serve. Make them worthy stewards of the rich resources You have given our Nation, as they remember the rich legacy of faithful labor that punctuates our history. Guide their thinking so that they will see Your plan and follow Your leading.

And Lord, on this anniversary of the attack on Pearl Harbor, we think of all the veterans of past wars, those currently in harm's way and all who have served in our Nation's military. Thank You for their sacrifices and for the faithfulness of their loved ones.

We pray in Your powerful Name. Amen.

### PLEDGE OF ALLEGIANCE

The Honorable KAY R. HAGAN led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one Nation under God, indivisible, with liberty and justice for all.

### APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,  
PRESIDENT PRO TEMPORE,  
Washington, DC, December 7, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable KAY R. HAGAN, a Senator from the State of North Carolina, to perform the duties of the Chair.

ROBERT C. BYRD,  
President pro tempore.

Mrs. HAGAN thereupon assumed the chair as Acting President pro tempore.

### RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

### SCHEDULE

Mr. REID. Madam President, following leader remarks, the Senate will resume consideration of the health care legislation. Following those remarks, the first 2 hours will be for debate only, with Senators permitted to speak for up to 10 minutes each. Republicans will control the first 30 minutes and the majority will control the next 30 minutes. The remaining hour will be equally divided between the two leaders or their designees. The Pryor amendment regarding enrollee satisfaction and the Gregg amendment regarding Medicare are pending. In addition, I have been informed by Senator BEN NELSON that he will offer sometime today the abortion amendment, either as the lead sponsor or as a cosponsor. We hope to complete these amendments this afternoon sometime and move on to other matters.

I should inform Members, we will not be in late tonight. There is an event at the White House that a number of Senators will be attending. So we will not be in late tonight, but the rest of the week we probably will be. As I indicated, it appears we certainly have to be in this weekend again.

### HEALTH CARE REFORM

Mr. REID. Madam President, I think everyone will acknowledge the legislatively historic time in which we are now involved. We have tried to get to this point with health care legislation for almost 70 years. We are there. We can see the light at the end of the tunnel, so that people in the future will not have to file bankruptcy because they get sick. That is what happens today. For example, 750,000 people filed bankruptcy last year, as I have said here on a number of occasions, and almost 70 percent of those who filed bankruptcy did so because of medical expenses. In addition, 62 percent of those who filed because of medical expenses had insurance. That pretty well says it all.

There is not one of us who has gone home in recent months and hasn't had someone come to us in a grocery store or some other public event and say: My daughter has diabetes. She is now 23 years old. She goes off our insurance. What are we going to do? She can't get insurance.

That is going to stop. There is nothing the people of America want more than for us to do something about this. They want us to stop greedy insurance companies from denying health care to the sick and taking away your coverage at the exact time you need it the most. They want us to make it illegal for multibillion-dollar companies to say: I am sorry, your high cholesterol is going to prevent us from giving you an insurance policy or you were in an accident and badly injured your leg a few years ago and we can't give you insurance now or you are too old or you have hay fever or you have asthma. We have all heard the stories. These insurance companies say: You are on your own. Why? Because they are concerned more about their bottom line than they are about taking care of the American people. I was here a couple days ago talking about an insurance company that made more than \$1 billion in profits last year. Their chief executive officer made over \$100 million in take-home pay. But they are still out denying coverage to everybody. These companies are not good for the American people.

What we want to do is make sure that before people get sick, they get the tests they need before these diseases start. We want women to be able to afford screenings that will catch breast cancer.

There was an interesting piece, sad though it was, on public radio this morning. African-American women get breast cancer at a much earlier age and it is a much more difficult type of breast cancer. That is why what Senator MIKULSKI did was so important. Women can now, no matter their age, have a mammogram to find out if they have breast cancer. They need these tests. We need to make sure women are able to get Pap smears when they need them and other things that are so important. Men need to be able to check for prostate cancer, which is something that has now become fixed on men's minds. It wasn't in the past.

Seniors want to be able to afford prescription drugs. They want to know their Medicare benefits will be protected.

The American people want us to make it possible for everyone to afford insurance. They know that until we do, those who do have it will keep paying extra to cover those who don't. They want us to cut the waste and fraud out of the health care system so that everyone can save money. They want us to make sure they can choose their own doctors, their own hospitals, and a health plan that is right for them.

They want us to guarantee they will be able to afford health care even if they lose or change jobs.

That is why we have written a good bill, one that will make it possible for every single American to stay in a condition known as healthy. It is a bill that will make health care more affordable and health insurance companies more accountable, and it will do all this while reducing the deficit.

Yet, while the American people want us to act, our Republican colleagues in the Senate want nothing more than failure. They wanted us to do nothing. That is why Republicans have sounded a familiar cry: Slow down. Stop everything. Start over.

We have seen it again and again. They like to pretend America's health care crisis isn't a problem, that it can have some little minor tweaks here and there and everything will be fine. They choose to ignore the fact that unfair and unchecked insurance companies are forcing the very people these Senators represent to lose their homes, file for bankruptcy, and even die.

It amazes me that the Republican leader rejects the suggestion that what we are doing is truly historic. In fact, the day before yesterday he said it is "an act of total arrogance." That is a direct quote. I am confident history, ironically enough, will prove the Republican leader wrong. This is indeed historic, as I began my conversation today. I am not afraid to say it is. But instead of joining us on the right side of history, all Republicans can come up with is this: Slow down. Stop everything. Let's start over.

If you think you have heard these same excuses before, you are right. When this country belatedly recognized the wrongs of slavery, there were those who dug in their heels and said: Slow down. It is too early. Let's wait. Things aren't bad enough.

When women spoke up for the right to speak up, when they wanted the vote, some insisted they simply slow down. There will be a better day to do that. Today isn't quite right.

When this body was on the verge of guaranteeing equal civil rights to everyone regardless of the color of their skin, some Senators resorted to the same filibuster threats we hear today.

And more recently, when Chairman CHRIS DODD of Connecticut, one of the people who will go down in history as the chief champion of the bill before us, said that Americans should be able to take care of their families without fear of losing their jobs, we heard the same old excuses. Through 7 years of fighting and more than one Presidential veto, it was slow down, stop everything, start over.

History is repeating itself before our eyes. There are now those who don't think it is the right time to reform health care. If not now, when? But in reality for many who feel that way,

there will be never a good time to reform health care.

I know this country has never had a place for those who hope for failure. So here is whom I would rather listen to: the men and women in Nevada who write me every day. They are hard-working people, lots of different letters, really sad letters, people who play by the rules and don't understand why their health insurance system doesn't do the same. They write from the heart. Here are a couple of stories I will talk about.

A woman named Lisa lives in Gardnerville, NV, a beautiful place beneath the Sierra Nevada mountains, with her two daughters, both of whom are in elementary school. The youngest suffers seizures. Her teachers think she has a learning disability. Because of her family history, Lisa, the girl's mom, is at a high risk for cervical cancer. Although she is supposed to get an exam every 3 months, now she is not able to get one at all. When Lisa lost her job, she lost her health coverage. Now both she and her daughter miss out on the tests and preventative medicine that could keep them healthy. Her long letter to me ended with a simple plea. It wasn't slow down, stop everything, start over. It was:

We want to go to the doctor.

Another person named Braden lives in Sparks, NV. Sparks and Reno are side by side. Braden works a 55-hour week to support his family, but it just barely pays the bills. It is not enough for him to get health insurance. He had to go to the emergency room—\$12,000. It was the only place he could go. He is a brave man, though, and in his letter he doesn't dread the debt he carries, and he is going to try to pay it. He doesn't grumble about how hard he works. But he does have one fear. It is not that the Senate is doing its job. His fear is, as he wrote:

If I was seriously sick or injured, I would lose it all.

That is the way many Americans feel.

Michelle is a 60-year-old woman who lives in Fallon, NV, about 60 miles southeast of Reno. Like so many in my State, she moved to Nevada in the last 10 years. Like so many Americans who keep our economy going, she is self-employed and has to find her own health insurance. She has two choices. One is a company that won't give her a policy because she takes three prescription medications. The insurance company only allows you to have two. So Michelle is stuck buying insurance from the other company, the only one that will sell her a plan. When Michelle moved to Nevada a few years ago, she picked the cheapest plan. Now, within 3 years, her plan costs three times as much. That doesn't include dental and vision insurance. It is very minimal, a bare-bones policy. She is waiting. But she is not waiting for us to scrap every-

thing we have done over the past year and start over. She wrote that she is "waiting to be old enough for Medicare to afford the surgery my doctor says I need, as I know with my current policy it will cost more than I can afford."

These are real stories about real people: Braden, Michelle, and Lisa. They are not written with a political objective in mind. I do not know whether they are Democrats or Republicans or Independents. They have no axe to grind, as far as any partisan view. They are written by people who know that insurance companies discriminate against their policyholders, and it is not based, I repeat, on party affiliation. They are written by citizens who know this crisis is bigger than politics, and too big to ignore. They are written by Americans who want to be able to live a healthy life without going broke.

My colleagues on the other side want us to slow down, stop everything, and start over. But the course of our country goes in a different direction, only one direction. We move forward. We make progress. And when history calls on its leaders to make life better for its citizens, we answer, and we act. And we are going to act.

#### RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

#### SERVICE MEMBERS HOME OWNERSHIP TAX ACT OF 2009

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will resume consideration of H.R. 3590, which the clerk will report.

The legislative clerk read as follows:

A bill (H.R. 3590) to amend the Internal Revenue Code of 1986 to modify the first-time home buyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

Pending:

Reid amendment No. 2786, in the nature of a substitute.

Pryor amendment No. 2939 (to amendment No. 2786), to require the Secretary to provide information regarding enrollee satisfaction with qualified health plans offered through an Exchange through the Internet portal.

Gregg amendment No. 2942 (to amendment No. 2786), to prevent Medicare from being raided for new entitlements and to use Medicare savings to save Medicare.

The ACTING PRESIDENT pro tempore. Under the previous order, there will be 2 hours of controlled debate, equally divided between the two leaders or their designees, with the Republicans controlling the first 30 minutes, and the majority controlling the second 30 minutes.

The Senator from Tennessee.

Mr. ALEXANDER. Madam President, on our Republican time, the Senator from Wyoming, Mr. BARRASSO, will lead a colloquy and ask for permission

to do that concerning Senator GREGG's amendment, which we will be talking about this afternoon, making clear to the American people this Democratic health care bill is being paid for by treating Medicare as a piggy bank. But before we do that, I want to say, briefly, something in response to the majority leader's comments.

He, the majority leader, said the Republican leader had said the Democratic health care bill is arrogant. It is historic in its arrogance. It is arrogant to think we are wise enough—we 100 Senators are wise enough—in a 2,000-page bill to completely turn upside down and change a comprehensive health care system that affects nearly 300 million Americans and 16 or 17 percent of our economy all at once.

It is arrogant for us to imagine the American people are not wise enough to see through the proposals in this bill, which are to transfer millions more Americans into a Medicaid Program for low-income people that none of us would want our families or members a part of.

It is arrogant for us, then, to send a significant bill for much of that to State governments. We make the decision, we send them the bill, and do that in a way that in my State, at least, will cause devastating cuts in higher education or huge tax increases.

It is arrogant to say to the American people it is an \$800 billion bill, which, as the Senator from New Hampshire has pointed out, when it is fully implemented it is a \$2.5 trillion bill—half paid for by Medicare cuts.

It is arrogant to say we have balanced our budget when in fact—when in fact—we leave outside the budget what it costs to pay doctors to work in the government-run program we have today.

So this legislation is historic. It is historic in its arrogance, and the American people will see through it and will expect us to, instead, identify a clear goal. That is the Republican proposal, which is, to reduce costs and go step by step in a direction toward those goals—whether we are allowing small businesses to put together their plans so they can serve more people at a lower cost, whether it is creating competition by allowing people to buy insurance across State lines, whether it is reducing junk lawsuits against doctors. We have made all these proposals.

We are ready not to roll a wheelbarrow of our own in here with a comprehensive proposal. But day after day, we have said, instead of increasing costs, raising taxes, allowing premiums to go up, shifting costs to States, and dumping low-income Americans into Medicaid, let's reduce costs. We have a plan to do that.

AMENDMENT NO. 2942

I wish to recognize the Senator from Wyoming so we can have a discussion about Senator GREGG's amendment.

The PRESIDING OFFICER (Mr. BINGAMAN). The Senator from Wyoming.

Mr. BARRASSO. Mr. President, I ask unanimous consent to engage in a colloquy with my colleagues to discuss the issues at hand.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BARRASSO. I thank the Presiding Officer.

Mr. President, I have been looking at the bill, which, to me, is going to hurt the health care system of our country. I am a physician. I have taken care of families in Wyoming for 25 years, and I think if we want to get costs under control, if we want to help families all across America who are struggling with their health care needs, we need to focus on an amendment that is before us today, brought forward by the Senator from New Hampshire.

I ask my friend and colleague from New Hampshire, is it not true that the numbers we are looking at are underreported? It is going to be much more expensive and the cuts are going to come from our seniors, those who are vulnerable, those who depend on Medicare for their health care, and we need to make sure and promise the American people we will be protecting those folks who depend on Medicare for their health care?

Mr. GREGG. Mr. President, the Senator from Wyoming, first as a doctor and second as a Senator, raises a very important point; that is, this is the largest expansion in government in the history of the government.

Let's begin right there. This is a \$2.5 trillion expansion in the size of the government when fully implemented. It is a massive growth in the size of government. Most of that growth comes from the expansion of government in two areas: the expansion and creation of a brand new entitlement and the expansion of Medicaid, as was alluded to by the Senator from Tennessee.

How is that paid for? How is this huge explosion in the size of government paid for? Well, a large part of that is paid for by reducing the amount of money in Medicare that is paid in Medicare, paid to Medicare providers, and available to Medicare recipients—\$460 billion in the first 10 years, \$1 trillion in the first 10 years when the program is fully implemented—that would start in about 5 years—and then \$3 trillion, by our estimates, which are linear—I suspect it will be more—over the first 20 years of this bill, a \$3 trillion reduction in Medicare benefits.

We heard arguments from the other side of the aisle: Oh, that is not going to affect benefits. Well, that is not believable. We know that. You cannot reduce Medicare provider payments and you cannot cut Medicare Advantage—with the total cuts of both, combined, by \$460 billion in the first 5 years, \$1

trillion in the first 10 years of full implementation, and \$3 trillion over 20 years—and not affect benefits.

This is money that is going to have the most significant impact we have ever had occur on our seniors in their Medicare system. This is a fundamental change in the way Medicare services are paid for and the insurance that is available to seniors under Medicare, specifically, Medicare Advantage. We know for a fact that of the 11 million people on Medicare Advantage, approximately a fourth of them will lose it—simply lose their Medicare Advantage.

We also know hospital groups, provider groups, and doctors are all going to see significant reductions in their reimbursement rates, which means, of course, they are going to change the way in which they treat seniors. Seniors are going to find it harder to find a doctor. They are going to find it harder to get a procedure they need because the reimbursement rate for those procedures is going to have been cut so significantly under this bill.

Home health care will be dramatically impacted. The Senator from Wyoming had a very interesting letter from his home health care groups in Wyoming which related to what percentage of home health care agencies would actually close. It was a very high percentage under this proposal.

There is no question but that Medicare is in dire straits. It is headed toward insolvency. It goes into a negative cashflow in 2 years, and it has \$35 trillion of obligations, which we have no idea how we are going to pay for. So Medicare reform is important. I have supported it. I proposed it. In fact, I proposed it a number of times and have always been voted against by colleagues on the other side of the aisle.

But any reform to Medicare of this size—\$464 billion in the first 10 years, \$1 trillion in the first 10 years of implementation, \$3 trillion over 20 years—anything that is going to cut Medicare by those numbers, those savings, if they are going to occur, those reductions, should go to benefit making Medicare more solvent.

But what happens under this bill? That is not what they are used for. Those dollars which come right out of the pockets of seniors and the people who provide seniors care—and the ability of seniors to purchase insurance under Medicare Advantage—those dollars go from the senior over to creating these new major programs, these new entitlements.

In fact, I was looking at the bill. It appears to me some of those dollars go to get votes around here. Isn't that incredible? They are going to take money away from seniors and use it for the purposes of getting votes to pass this bill by sending money back to States of Members who are maybe a little wavery on whether they want to vote

for this bill. That is where some of the money goes.

But most of the money goes to creating these new entitlements for people who may be deserving—probably are deserving—but who are not seniors and who probably have not paid into the insurance fund that seniors have paid into for all their life and, thus, it is totally inappropriate to do that.

I have an amendment. It is very simple. It is an amendment that has real teeth, and it is actually an amendment that follows up on a number of statements from the other side of the aisle and some sense of the Senate which were voted 100 to nothing around here, which says, simply: No Medicare money can be used to fund other parts of this bill. To the extent Medicare savings occur under this bill as a result of cuts to home health care, cuts to Medicare Advantage, cuts to provider groups, those dollars will not be taken and used to fund new entitlements for people who are not on Medicare, not seniors. They will not be taken to fund the purchase of votes around here to pass this bill.

This is a real amendment. A lot of stuff happening around here is sense of the Senate, where people stand up and say: Oh, I am for that. Exactly, what I said—let's do a sense of the Senate to that effect.

But sense of the Senate has no impact at all. It is political cover. This is not political cover. This amendment, as structured, will actually accomplish the goal of not allowing Medicare dollars—cuts in Medicare that are \$464 billion over the first 10 years, \$1 trillion over the fully implemented period, and \$3 trillion over the 20-year period—it will not allow any of those dollars to be used to fund new programs in this bill which do not benefit seniors.

That is all it says. It seems to me, if you are going to stand up for responsible action in the area of Medicare, if you are going to live by the sense of the Senate that have been voted for here, if you are going to stand behind your word, as the sense of the Senate have called for—that Medicare money be used for Medicare, and that Medicare money not be used to fund things that are extraneous to Medicare; Medicare cuts savings—then you have to vote for this amendment.

Mr. THUNE. Will the Senator yield for a question?

Mr. GREGG. I would be happy to yield.

Mr. THUNE. It strikes me that the Senator's amendment is very straightforward, very simple, and very clear; that is, any savings that come out of the Medicare Program cannot be used to fund a new entitlement program.

Mr. GREGG. That is not related to seniors.

Mr. THUNE. Correct. And it seems to me, at least, that the amendment gets at what some on the other side have ar-

gued, with their amendments, they are trying to accomplish.

Could the Senator from New Hampshire describe how the effect, the legal effect, of his amendment differs from, say, for example, the votes we have had, where it was a 100-to-0 vote the other day on a Bennet amendment, what the impact the amendment of the Senator from New Hampshire would be relative to some of the previous votes we have had, which it appears to me, at least, were completely meaningless, sort of cover votes, to try and give people on the other side the opportunity to say: We voted to protect Medicare, when, in fact, they did not?

How is the amendment of the Senator from New Hampshire distinguished from those that have been voted on previously?

Mr. GREGG. My amendment has force of law behind it. Those amendments have no force of law behind them. They have no effect at all. As the Senator said: a political statement, an editorial comment, a piece of paper written.

This amendment, if passed, will have the force of law behind it. It will very simply be structured in a way that the money cannot be taken out of Medicare if it is going to be used for the purposes of funding the new programs in this bill, whether they are the entitlement programs for people who are not seniors—this expansion of entitlements—or whether they are for the purposes of getting votes to pass the bill.

Mr. THUNE. So if a Senator on either side of the aisle, a Republican on this side or a Democrat, was serious about protecting Medicare, ensuring that Medicare's solvency is protected and that these funds are not going to be re-allocated to create some new entitlement program or spend money on some new, clearly, \$2½ trillion expansion of government, which we know is going to require enormous amounts of revenue which seems to me has to come from somewhere—what the Senator's amendment would do is simply force the other side to put up or shut up with regard to this argument they have, which is that they are, in fact, supporting Medicare; the Senator's amendment would essentially say, very clearly, in a very straightforward way, that funds that come in out of savings from Medicare have to be retained in the Medicare account.

Mr. GREGG. That is correct. This is the first and only vote Members on this floor are going to have, to make it clear that Medicare dollars will not be used for something other than Medicare.

Mr. CHAMBLISS. Would the Senator yield for an additional question? The language in the Bennet amendment that passed 100 to nothing the other day said, basically, that Medicare savings should benefit the Medicare Program and Medicare beneficiaries. That

sounds pretty straightforward, pretty simple. But let me ask the Senator—

Mr. GREGG. Well, if I might interject, anybody who voted for that amendment would want to vote for mine.

Mr. CHAMBLISS. That is exactly the question I am getting to. Is there anything in the Bennet amendment that removes the expenditure of almost \$500 billion from Medicare in the base Reid bill that would require the restoration of those cuts to benefit Medicare versus using it as a fund to pay for the underlying Reid bill?

Mr. GREGG. Well, the Senator has made an excellent point. Essentially, the Bennet amendment has no teeth. It has no substance. It has no substantive effect. It is just a statement of purpose. If the statement of purpose is as recited by the Senator from Georgia, then you would need to vote for this amendment, my amendment, if you voted for the Bennet amendment, because my amendment has the teeth that backs up the language of the Bennet amendment.

Mr. CHAMBLISS. If I understand what the Senator is saying in his amendment, he is requiring the Office of Management and Budget as well as CMS to certify to Congress, basically, that the savings that are referred to in the Bennet amendment as well as in the Senator's amendment are, in fact, being used to fund Medicare benefits versus being used to fund other benefits outside Medicare until such time as Medicare is fully funded.

Mr. GREGG. That is, essentially, what it says. It says that CMS and OMB must certify that no funds are being used to fund the additional activity in this bill that does not relate to Medicare with Medicare funds. It does not say that Medicare savings—it agrees to the Medicare savings, but those Medicare savings would basically be used for the purposes of reducing the outyear fiscal imbalance of Medicare. So it doesn't contest the Medicare savings as proposed in this bill, although those amendments have—we have already voted on a number of those. We voted on home health care, and we voted on Medicare Advantage, but to the extent those savings go in, those cuts in Medicare benefits go in, the revenues from those cuts cannot be used and spent to expand the size of government in someplace else which has nothing to do with senior citizens.

Mr. BARRASSO. If I could follow up with a question for my colleague from New Hampshire, because as I read the Sunday New York Times, it said the Bennet amendment was completely meaningless—the Bennet amendment was meaningless. It also goes on to say, Senator MCCAIN is trying to keep that \$500 billion in Medicare, but the Democrats are trying to take that money out of Medicare and, as the article

says, the editorial says: to finance coverage for uninsured Americans but not people on Medicare.

So it does seem the New York Times, at least in this segment, got it right: that the Bennet amendment that our colleague from Georgia referred to is meaningless, that the cuts are going to come out of people who depend upon Medicare for their health care to pay for a whole new government program and not to focus on Medicare.

Well, don't we owe it to these seniors who have paid into the program and who have been promised the program to save that program first?

Mr. GREGG. Well, the Senator from Wyoming is absolutely right. I think the New York Times got it right. It is a convergence of two unique forces of nature that the Republican minority in the Senate and the New York Times should be on the exact same page on this issue and both be right.

Mr. ALEXANDER. I wonder if the Senator from New Hampshire would characterize this discussion this way: As I am hearing it, in order to protect Medicare, a Senator wouldn't want to say: I voted for the Bennet amendment and then I voted against the Gregg amendment, when it counted.

Mr. GREGG. It would be virtually impossible to make that argument with a straight face.

Mr. BARRASSO. I have a question for my Senate colleague from South Dakota who is here. We heard the majority leader, Senator REID, come to the floor a few minutes ago and talk about how this bill is going to get premiums under control, keep the cost—for people who have insurance, keep their premiums under control. I saw a chart from the Senator from South Dakota yesterday that said for 90 percent of Americans, those who have insurance now, if we did nothing and did not pass this bill, the premiums would be lower than if we do pass this bill; that passing this bill actually will raise premiums, in spite of the fact the President of the United States promised, while campaigning, that he would lower the cost of premiums for American families by \$2,500.

I would ask my colleague from South Dakota, isn't it true that if this bill passes, Americans wanting—feeling they have been promised that premiums would be reduced, are they not doomed to disappointment?

Mr. THUNE. The Senator from Wyoming is correct. This is where the real rub in this bill comes into play because what we were told and the promises that were made—of course, many promises were made throughout the course of the campaign, many of which will never be realized with this legislation. There was also a promise made that taxes wouldn't go up for people making less than \$250,000 a year—not payroll taxes, not income taxes, not any kind of taxes. In fact, we now know

that 38 percent of the people who make under \$200,000 a year are going to see their taxes go up under this legislation. So promises made during a campaign season tend not to necessarily be adhered to when it comes time to legislate and actually follow through, and I think that is clearly the case here.

With regard to the question of the Senator from Wyoming, the whole purpose of health care reform, at least as I understand it—and I think, for the most part, as the people of South Dakota whom I represent understand it—is to lower cost. Because everybody complains—the thing you hear the most when you go home—and the Senator from Georgia is here. If you go to Georgia, Wyoming, South Dakota, I think the sentiment you hear most frequently from people in our States is: Do something about the cost of health care. We have these year-over-year, double-digit increases or increases that are twice the rate of inflation, and we are dealing with this. Small businesses are dealing with it. More and more people—families are struggling with the high cost of health care. Nobody argues that. We all, basically, accept the premise that health care costs have been going up and health care reform ought to be focused directly on trying to get those costs under control.

The irony in all this is, after cutting \$½ trillion from Medicare in the first 10 years, and if you go into the fully implemented time period it is about \$1 trillion, and \$½ trillion in tax increases, what happens with premiums? Well, according to the Congressional Budget Office, 90 percent of Americans would be the same or worse off. In other words, 90 percent of Americans would see no improvement in their health insurance premiums. In fact, if you buy in a small group market, if you buy in a large group market, your premiums go up by about 6 percent a year, year over year. In fact, a family of four—let's put it in a perspective that an American family can understand. If you are a family of four—this is according to the Congressional Budget Office—that is paying \$13,900 for insurance this year and you are getting your insurance in a large group market because you work for a large employer, in 2016, your insurance cost is going to be over \$20,000 a year. In other words, your insurance is going to go up about—a little under \$14,000 to over \$20,000 a year in that time period.

So what American in their right mind is going to say that is reform? I think most Americans are going to say: What are you doing? You are spending \$2.5 trillion, you are raising my taxes, and cutting my parents' or my grandparents' Medicare benefits, for what? So my premiums can stay the same or go up? If you buy your insurance in the individual marketplace, your insurance premiums, according, again, to the Congressional Budget Of-

fice, are going to go up anywhere from 10 to 13 percent a year. So you get Medicare cuts, you get tax increases, and for 90 percent of Americans, you stay the same or are worse off. In other words, your insurance premiums are now going to be impacted, you have achieved the status quo or, worse yet, your insurance premiums are going to go up 10 to 13 percent if you are buying in the individual market. That is according to the Congressional Budget Office.

So I would say to my friend from Wyoming, the point he made is exactly right. In doing all this, the exercise ought to be about reducing costs. Clearly, that is not the case with this legislation.

Mr. CHAMBLISS. Let me address a question to our friend from Wyoming who is a medical doctor, in addition to being an outstanding Senator.

What we are being asked to believe from the folks on the other side and what the American people are struggling with and having a hard time believing is, they are saying that even though they are cutting Medicare by a total of \$450 billion-plus over a 10-year period, actually the solvency of Medicare is going to be extended. They expect the American people to believe that somehow.

The fact is, we know from the information we received this spring from the bipartisan Medicare Commission, unless something is done, Medicare is going to become insolvent in the year 2017, pure and simple. What we are doing is not taking the savings they are proposing—and we don't agree with them, but irrespective of that—irrespective of the savings they are saying are going to be achieved, instead of applying that back, we are going to use that to grow the size of government, tie some reimbursement payments to physicians to the Medicare Program, and now we are looking at about a 23-percent reduction in payments to physicians as reimbursement under Medicare if we don't take some action next year. When you put all this together, the American people are saying: You have to be kidding me. How in the world are you going to extend the life of Medicare by cutting it by almost \$500 billion?

Mr. BARRASSO. As my colleague from Georgia knows, there is no way you can save Medicare when you cut that kind of money out of it. How, when they cut physicians' payments by 23 percent, are we going to have physicians going to any of our small communities in South Dakota, in Georgia, in Wyoming, where we have many people who depend on Medicare for their health care? I worry about access to care.

Our colleague, Senator ISAKSON, yesterday talked about home health care and how, for pennies on the dollar, you can help people. It provides a lifeline

for people who are homebound. It keeps them out of the hospital, out of the nursing homes. Instead, this Senate, the Democratically led Senate, yesterday voted to cut \$42 billion out of home health care, which people in our small communities and in the rural areas of our State depend upon. So there is no way this program can stay solvent.

It is hard for me to fathom and, clearly, hard for the people of Wyoming to fathom, how with all this budget trickery it is going to work for people who need to go to see a doctor or to have a home health care provider in many of our rural communities.

We all have townhall meetings, and when I go to townhall meetings, people say: Don't cut my Medicare, don't raise my taxes, and don't make things worse for me than they are now.

Mr. THUNE. If the Senator will yield, the Senator, of course, is one of only two physicians in the Senate and has great experience and great depth on this issue and knows what it is like to serve and provide health care services to people in rural areas, such Wyoming and South Dakota and some areas of Georgia.

I think it is interesting too—and the Senator from Georgia was here, as was I; I don't think the Senator from Wyoming was here at the time. But in 2005, we had a debate about Medicare, and the Senator from New Hampshire proposed cutting \$10 billion in Medicare, taking \$10 billion over a 5-year period or about \$2 billion a year, and paid for it by income testing the Part D benefit that people got. In other words, the premiums that are paid, those who are in the higher income categories would have to pay a higher premium for their Part B drug benefit than would those in lower income categories. You would have thought that the apocalyptic pronouncements and predictions around here about what that was going to do for Medicare: \$2 billion a year or \$10 billion over 5 and you heard the other side describe it as immoral, it was cruel, it was a disaster of monumental proportions. That was some of the terminology that was used around here at the time. That was for \$10 billion over 5 years, and that basically was to say to people who have higher incomes, the Warren Buffetts of the world ought to pay a little bit more for their prescription drug benefit under Medicare than those in lower income categories, and people on the other side went nuts about that.

Now here we are talking about cutting \$465 billion over a 10-year period, \$1 trillion over 10 years, when it is fully implemented, and it seems to me, I would say to my colleagues, the other side is going to have a lot of explaining to do to the American people about why \$10 billion in reductions was immoral, cruel, and a disaster of monumental proportions, but cutting \$½ trillion out of home health care and

nursing homes and hospitals and everything else to pay for an entirely new entitlement program, a \$2.5 trillion expansion, somehow makes sense.

Mr. BARRASSO. Mr. President, I appreciate the comments from my colleagues. I think we are hearing around the country that we do need health care reform. We need to get costs under control. We need to have patient-centered reform, not government-centered reform, not insurance-centered reform. We need to not cut Medicare. We need to not raise taxes. We need to not make things worse for the American people.

From what I have seen of this bill—and I worked my way all the way through it—it makes things worse for the American people, not better. This is not the right prescription for health care in America.

With that, I yield the floor.

The PRESIDING OFFICER. The Senator from Montana is recognized.

Mr. BAUCUS. Mr. President, for the benefit of all Senators, I will take a moment to lay out today's program. It has been 2½ weeks since the majority leader moved to proceed to the health care reform legislation. This is the eighth day of debate. The Senate has considered 16 amendments and motions and conducted 12 rollcall votes.

Today, we will debate an amendment by Senator PRYOR and, at the same time, an amendment by Senator GREGG to do with spending taking effect. The first 2 hours will be equally divided. The Republicans will control the first 30 minutes and the majority will control the next 30 minutes. There may or may not be a side-by-side amendment to the Gregg amendment. The Senate will conduct votes on or in relation to the Pryor and Gregg amendments this afternoon. We expect at least those votes to begin sometime between 3:15 and 4 p.m. this afternoon.

I will take a few moments to discuss the amendment Senator GREGG offered yesterday. The Gregg amendment has been billed as protecting Medicare. That seems to be the new fashion on the other side of the aisle—to say that the bill cuts Medicare. Frankly, that is a misleading statement at best, and it is inaccurate, basically. In reality, the Gregg amendment is a killer amendment. It is designed to prevent health care reform from taking effect. That is the purpose of the Gregg amendment. It is a killer amendment.

The amendment has more details to it, but you can get the flavor of it from a few excerpts. Let me quote from the amendment.

The first subsection of the amendment is entitled "Ban on New Spending Taking Effect." You really don't have to go much further to get an idea of what the amendment is about. Just focus on that statement in the amendment—a ban on new spending taking effect.

Let me quote further from the second subsection:

... the Secretary of the Treasury and the Secretary of Health and Human Services are prohibited from implementing the provisions of, and amendments made by, sections 1401, 1402, 2001 and 2101. . . .

What are those sections? The Gregg amendment will stop this spending from taking effect.

Section 1401 is refundable tax credits providing premium assistance for coverage. Those are the tax credits, the tax reductions that help people buy health insurance. The Gregg amendment says we cannot help people buy health insurance, that they can't have those tax credits.

The second section is 1402. What is that? It is to reduce cost sharing for individuals. That is the part that would make copays and other out-of-pocket expenses affordable. The Gregg amendment says: No, we can't have reduced cost sharing for individuals. We have to keep those copays in effect and out-of-pocket expenses high. It would help people with copays and other out-of-pocket expenses.

The third section the Gregg amendment would stop is section 2001. It is a section that provides Medicaid coverage for the lowest income population. That is the one that provides expanded Medicaid coverage up to 133 percent of poverty. The Gregg amendment says: No, you can't help poor people with health care. The Secretary is prohibited from making those payments to Medicaid if that amendment is adopted.

The fourth section the Gregg amendment would stop is section 2101. Section 2101 is a section that provides additional funding for the Children's Health Insurance Program. Can you believe that? A Senator gets up on the floor of the Senate and wants to stop funding to the Children's Health Insurance Program? That is what that section provides.

So if you don't like tax reductions to help people buy health insurance, if you don't like making health insurance affordable, if you don't like health care for the lowest income Americans, and if you don't like health care for kids, then the Gregg amendment is for you.

The folks on the other side of the aisle have spent a lot of time this year talking about Medicare. That is about all I hear from them. They make it sound as if they want to help Medicare. In effect, they are hurting it. A lot of folks say they want to help Medicare, and I see the big crocodile tears they shed. I will take a few moments to set the record straight about how the trust fund works. That might help them understand, frankly, why the bill before us—the Reid bill—helps Medicare, contrary to protestations of those on the other side.

The Medicare trust fund provides hospital insurance for seniors and

Americans who are disabled. Working Americans pay into that trust fund when they pay their payroll taxes. When a senior has to go to the hospital or a nursing home—there are lots of areas where seniors get help—the spending to help pay for that hospitalization comes out of the trust fund. The actual sum comes out of Medicaid, but some payments come out of the Medicare trust fund, such as for home health care, et cetera.

When payroll tax revenues are greater than the payments for hospitalizations, the assets in the Medicare trust fund grow. That is good. On the other hand, when spending for hospital care is greater than payroll tax revenues and interest payments on the trust fund assets, then assets in the Medicare trust fund diminish. That is not good.

The Actuary for Medicare—the person charged with determining the health of the Medicare trust fund over at HHS—tells us that if we don't do anything—if this legislation is not passed—then by about 2017 the Medicare trust fund assets will be exhausted. That is clear. That is definite. That is a fact, and I emphasize the word “fact.” I am just being honest, Mr. President. I have to be objective and honest about this stuff. When I hear Senators talk about Medicare, they are not looking at facts. It is one thing to say something and engage in all this rhetoric, but if it is not backed by facts, it is a bit irresponsible.

The fact is, the life of the Medicare trust fund will be extended for 5 years under this legislation. I talked to a Senator on that side privately. He said that the Medicare trust fund will not be extended—the solvency—for 5 years. I asked him privately: How can that be true? Did you read the Actuary's report? By the way, it was not this Senator right here; it was another Senator, and that Senator said: I don't believe it. It is a fact. The Actuary says that will be the result of the legislation before us; namely, that the solvency of the trust fund will last 5 more years. That is a fact. That is what the Actuary's report said.

So we can either raise more payroll taxes to continue the solvency of the trust fund so that seniors get their benefits or we can reduce spending out of the trust fund. We can either increase the money or decrease the money coming out.

I will say it again. The Medicare Actuary tells us that health care reform will extend the life of the Medicare trust fund by 5 years or, to put it another way, if we do not enact health care reform, we will hurt Medicare's long-term solvency.

Let me cite some examples on how that works.

Health care reform would discourage hospital readmissions, for example. That is waste. See, here is what the

other side doesn't quite understand. You don't hear them talking about it. The goal here is to extend the life of the trust fund, basically by cutting out waste—not hurting seniors but cutting out waste and cutting back on overpayments in some areas where some providers are overpaid, and where seniors are helped, not hurt.

Again, here is an example: hospital readmissions. If you can discourage hospital readmissions, that is fewer dollars wasted out of the trust fund, and it is better health care for seniors. The incentive is for hospitals to have more readmissions because that is how they make money. Some hospitals, frankly, don't go out of their way to prevent readmissions because they can make more money that way, although it is not good care for seniors.

When a senior is discharged from a hospital, you want to make sure there is a flow, a seamless effort of keeping health care for that patient, whether it is extended care or home health care in a nursing home or whatnot, and there is a physician involved and nurses involved and so forth, making sure the patient is taking his or her medication, and it is just to make sure patients are getting better all the time.

We all know—I know because I have experienced it, and I have watched it firsthand, and I have heard many people talk about this—that too often, when a patient is discharged, the care for that patient is not as great, as the hospital is in longer involved, and sometimes the regular doctor is not involved because that doctor is not very much involved with the patient at the hospital. My own view is that it needs improvement. It is not working too well.

Again, we are saving dollars in the Medicare trust fund by preventing excessive readmissions. That is wasteful and doesn't help the patient. So that is a way we are saving and extending the solvency of the trust fund. That is one way. There are others. I will cite a second.

Health care reform discourages hospital-acquired infections. I think in America, unfortunately—and I don't know the facts, but I have read this somewhere, but I haven't confirmed it—the rate of infections in American hospitals is greater than it is for other industrialized countries. That is clearly a problem. People die from infections in hospitals, and it seems to me that the more we can encourage fewer infections—one way is through health care reform. Maybe we can lower payments to hospitals that have too many infections. I know it is hard to do. It is a judgment call. You have to do the best you can. That, too, will help the solvency of the trust fund and help care for patients. That is another way we are extending solvency of the trust fund.

I see my good friend from Wyoming on the floor, Senator BARRASSO, who

talks about home health care. I am sure he wants to eliminate fraud in home health care. I am sure he does. We all want to. So we cut back on areas where there is fraud. Where is there fraud? In outliers. Too many hospitals bill too much for outlier payments, additional payments, because they say they have a special patient who is an outlier. One county in Florida billed for 60 percent of the outlier payments in America even though they had 1 percent of seniors in America. There are other examples like that. The GAO came to us and said we have to do something about this. There is fraud in the home health care program. I am a big fan of home health care—a big, big fan. They do very good work. But we want to take out the fraud—excessive payments that are fraudulent. Isn't that a good thing? Doesn't that extend the solvency of the trust fund? Isn't that helping patients instead of hurting them?

There are examples. The home health folks came to us and said: Make some of these changes because it is more efficient and we can give better care. As a result, fewer dollars are going to home health care. We also had a provision for rural health care. We add an extra bonus for rural health care.

My point is simply that when Senators stand up on the floor and say we are cutting Medicare—sometimes they use the words “cutting benefits” or “hurting beneficiaries”—that is patently false. It is not true. It is true that in some cases we are taking some of the fraud out. It is also true that in some cases we are taking excessive payments—not by our judgment but by the judgment of MedPAC and other organizations and experts who study this. One Senator from Florida stood up and told me he agreed that payments to Medicare Advantage are excessive. Doesn't it make sense to take out the excess, the waste, and the fraud in order to extend the solvency of the trust fund? That is what this bill does.

It doesn't hurt seniors by “cutting” Medicare, leaving the implication that we are cutting Medicare benefits. It is an old saying in life: If you say something loud enough, maybe people will start to believe it. That is what the other side is engaging in.

If you look at the actual facts, the actuary says it does extend the life and solvency of the trust fund. The actual fact is we are cutting out waste. The actual fact is the industry has come to us and said: Help us with this, help us with that so we can be more efficient, much of what is going on here.

I have countless examples. Let me give a third one. This legislation would encourage hospitals and doctors to work together by bundling payments. If doctors and hospitals work together, guess what happens. They are less likely to order duplicate tests. They are working together. Payments based on

fee for service, payments based today on volume, on quantity are, in some cases, wasteful. It is wasteful.

All of us who go to a hospital, a doctor's office, we kind of wonder: My gosh, some things seem wasteful here. We have to get new tests, new this; the doctor doesn't know what happened when I was here previously; we have to start all over again; new x rays, new imaging, so forth. They are waste. We are trying to cut out a lot of this waste, and bundling payments is definitely going to help.

We have other techniques—accountable care organizations, medical home concepts. These could take 1 year, 2, 3, or 4 to kick in. But if they do work, it is the model of integrated care systems we all talked about which cut out waste and improve quality at the same time, and that is going to help Medicare. These integrated systems are going to also help extend the solvency of the trust fund and improve quality of care—not reduce it but improve it.

The main point I am making is these reforms will extend the life of the trust fund. And guess what. They improve the quality of care, not decrease the quality of care but improve it.

We also add some additional benefits for seniors that they will not receive if this legislation does not go into effect.

I note we only have a half hour on our side. I probably used more time than I should. The chairman of the HELP Committee is on the floor. Mr. President, how much time remains on the majority side?

The PRESIDING OFFICER. Thirteen minutes remains.

Mr. BAUCUS. I yield 10 minutes to the Senator from Iowa.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. HARKIN. Mr. President, I thank my colleague from Montana, the chairman of the Finance Committee, for his great leadership on this issue, on this bill, and Senator DODD, who took the leadership of our HELP Committee, in putting our bill together. The two of them have done an admirable job of getting our bill this far along and, hopefully, we are going to see the light at the end of the tunnel pretty soon. One of the best Christmas presents we can give the American people is to bring this bill to a close, have our votes up or down and let's get this bill passed so the American people can look ahead to a brighter future in terms of their health care and its quality, affordability, and accessibility.

AMENDMENT NO. 2939

I wish to take a little bit of time this morning to speak in strong support of Senator PRYOR's amendment, which is before us, which would provide information on the consumer satisfaction of health plans offered through the exchanges. The Pryor amendment develops an enrollee satisfaction survey for these plans and requires exchanges to

include information from this survey on an Internet Web site. This, too, will allow consumers, both individuals and small businesses, to easily compare survey results and make well-informed choices.

Currently, OPM manages an enrollee satisfaction survey for the Federal Employees Health Benefits Plan, the one we are all in and the one our staffs are in, the one that postal workers are in and civil servants all over this country are in. Right now OPM, in managing that plan, has an enrollee satisfaction survey. The Pryor amendment would provide a tool to all Americans that we as Members of Congress have when we select a plan.

The survey results could be used by GAO, the Government Accountability Office, and the committee I chair, the Senate HELP Committee, to monitor the quality of exchange plans and fulfill our oversight responsibilities over the exchanges.

As a little aside, I keep reminding people we will pass this bill, we will get this health reform bill passed. It will be signed into law. But that does not mean, like the Ten Commandments, it is written in stone, never to be changed. Laws are laws and laws change. They get amended, and we change and adapt as times and conditions demand. As we move ahead and as we look at how the exchanges work, what is happening out there, I have no doubt in my mind there will be some bumps in the road and we will have to come back and revisit it and make some changes. By having this Pryor amendment and what we have in the bill to provide for this kind of survey to see how satisfied people are with the plans, it gives us that kind of oversight ability, that oversight responsibility to look ahead and plan on changes that we will probably be making in the future.

But most important, the Pryor amendment will give consumers an important voice. It will keep the insurance companies honest because they will know to maintain and grow their enrollment they must satisfy their customers.

This amendment truly complements and reinforces the purpose and function of the exchanges. The Patient Protection and Affordable Care Act, our reform bill, creates exchanges as a place for one-stop shopping where consumers, the self-employed, and small businesses can easily compare plans. This amendment will increase competition and lower premiums as the exchanges will increase competition and lower premiums.

This past week, the Congressional Budget Office validated this approach, and the CBO said this about the exchanges:

The exchanges would enhance competition among insurers in the nongroup market—

That is small businesses, individuals, self-employed—

by providing a centralized marketplace in which consumers could compare the premiums of relatively standardized insurance products. The additional competition would slightly reduce average premiums in the exchanges by encouraging consumers to enroll in lower-cost plans and by encouraging plans to keep their premiums low in order to attract enrollees.

What we have been hearing from the other side of the aisle all along is premiums are going to go up, everything is going to skyrocket. CBO debunked this last week. CBO also said it will benefit small business:

Those small employers that purchase coverage through the exchanges would see similar reductions in premiums because of the increased competition among plans.

The Senate bill before us ensures consumers and small businesses have the information they need to make informed choices.

One, our bill requires exchange plans to provide information on quality measures for health plan performance. This was a provision offered in our committee by Senator JACK REED, and I commend him for it.

Second, our bill develops a rating system that will rate exchange plans based on quality and price—ratings, again, that will be available on an Internet Web site.

Third, our bill requires exchanges to operate a toll-free hotline to respond to requests for consumer assistance.

Fourth, our bill develops an online calculator so that consumers can figure out how much they will have to pay, factoring in their tax credits and cost-sharing reductions.

And fifth, and perhaps most important, I want to acknowledge a contribution made by Senator DODD in this area. He authored a key provision in our bill to require all plans—all plans—not just exchange plans, all plans—to provide a uniform, easily understandable summary of coverage to enrollees and applicants. In other words, no longer will Americans have to read and try to comprehend the fine print.

All of these provisions are currently in our bill to enhance consumer choice, which is what this bill is about—enhancing and expanding affordable choices.

Some of them have been overlooked in a lot of the verbiage going on about cutting Medicare and all that stuff, but these provisions will do a great deal to change the way Americans shop for and buy health insurance.

This amendment by Senator PRYOR will add one more important tool to help our consumers. It is a consumer amendment to make sure consumers get the information they need and the input, a satisfaction survey so consumers can have an input. That way we know here if we need to make changes down the road.

I commend Senator PRYOR for offering the amendment. I urge my colleagues to support it.

I yield the floor.

The PRESIDING OFFICER. The Senator from Minnesota.

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent to speak as in morning business for up to 7 minutes.

The PRESIDING OFFICER. Is there objection?

Mr. BARRASSO. No objection.

The PRESIDING OFFICER. No objection is heard. The Senator may speak for up to 7 minutes.

Ms. KLOBUCHAR. Mr. President, I rise today in support of the amendment offered by Senator PRYOR that calls for an enrollee satisfaction survey for health care plans offered through the exchange. As you know, the exchange will be a series of different policies from which people can choose. What I love about this idea is that for my small businesses and self-employed who are paying 20 percent more than people who work for big businesses right now because they simply cannot leverage their numbers, it is hard for them to get good rates because they are out there on their own, this exchange, where they can choose a number of different policies like Members of Congress can choose from, whether it is Blue Cross or a number of the other choices, they can pick a policy on the exchange.

I serve with Senator PRYOR on the Consumer Protection Subcommittee and know that he offers this amendment with the full intent of improving resources for individuals who buy insurance. A satisfaction survey will be a tool to help consumers navigate through the complicated process of purchasing health insurance. The survey results will allow individuals and small businesses to make well-informed health care decisions by comparing current enrollee satisfaction levels among the plans offered through the exchange.

This survey also provides, as Senator HARKIN has pointed out, an oversight tool for Congress so we can monitor the progress of the exchange and present information to patients in an open, transparent manner.

As I have said many times, I come from Minnesota, often known as a "medical Mecca." We are home to the Mayo Clinic. We are home to the University of Minnesota. Countless innovative businesses have contributed groundbreaking medical research that is bettering the lives of patients.

The key to this Minnesota model, where we have some of the highest quality care in the country and some of the lowest costs, is by putting the patient in the driver's seat. I have been at the Mayo Clinic. I have seen what happens there. It is integrated care with one primary doctor with a group of doctors that work with him, like a quarterback on a football team. They also focus on the patients with satisfaction surveys, keeping the team accountable for what they are doing.

I always say to my colleagues, it is counterintuitive. If you go to a hotel and pay more money, you often get the best room with a view. That is not true with health care in America. You can pay more money and get some of the worst quality care in this country because there is no accountability. That is why these patient surveys, in allowing consumers in this country to look at these different plans and figure out which one is better for them, is the way to go.

In my State, 92 percent are covered by some form of health insurance, and we have done that by learning the importance of transparency and providing quality information to consumers.

In 2004, a Minneapolis-based nonprofit called Minnesota Community Measurement developed a consumer resource called Developed HealthScores. HealthScores is based on information submitted by more than 300 clinics statewide and is available to consumers on an easily accessible Web site.

HealthScores is also used by medical groups and clinics to improve patient care and by employers and patients to provide access to critical information about the quality of health care services.

Researchers at the University of Oregon have studied public reporting efforts and found that public reporting motivates health care providers and insurers to work harder on improving care, largely because of a concern about their reputation.

This is how the private market should work. You cannot just have insurance policies that have a name and not understand what they mean for the consumer. By having these surveys, we are going to be able to understand so a consumer can navigate through and figure out which policy is good, what it offers, what is best for their family.

As we continue our debate on health care, we must remain focused on solutions with outcomes. Public reporting works. Senator PRYOR's amendment ensures that customers are able to voice their approval or disapproval of plans offered by insurance companies and that information will be available to small businesses and individuals to make well-informed decisions about their health care.

How can they make a well-informed decision without knowing what plans are good, what plans are bad, what plans offer? That is why we need this, if we want to make this private market solution work for consumers.

As the experience in Minnesota has shown, public reporting also has the ability to improve quality as well. HealthScores in Minnesota has forced health plans, medical groups, and employers to focus on a common set of goals. Through this process, patient outcomes have produced dramatic improvements for chronic conditions such as diabetes.

We know already that small businesses are paying too much—up to 18 percent more than large businesses—often forcing small businesses to lay off employees or cut back on their coverage. We all know, from the letters we have gotten in our offices, what the average American families are facing right now with these skyrocketing premiums.

We must provide these patients and these consumers with tools to make informed health care decisions. Not only will we put consumers in the driver's seat so they can make the decision, we will also have an effect on the entire market. Because if insurance companies think no one is watching them, that consumers can't figure it out—maybe something has a great name so they go buy it—they will never get the kind of accountability and cost reductions we want.

The lessons from Minnesota have shown that providing consumers with information about their health care has the ability to improve patient satisfaction and drive our system to focus on quality results.

I yield the floor.

The PRESIDING OFFICER. The Senator from Utah.

Mr. BENNETT. Mr. President, I ask unanimous consent to proceed as in morning business, not to exceed 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BENNETT. Mr. President, in this morning's Washington Post, we have, once again, an outstanding article by Robert Samuelson, this one entitled: "Health-care Nation: Medical spending threatens everything else." Mr. Samuelson has been critical of Republicans—and he is in this article—and he has been critical of Democrats—and he is in this article—but he makes some points I think are worth bringing to our attention, the primary one being that we are not focusing on the right issue, which is making some kind of attempt to turn the cost curve down—using the budgetary doublespeak—with respect to health care.

Let me quote a few comments from Mr. Samuelson's presentation. He says, first:

The most obvious characteristic of health spending is that government can't control it.

As demonstrated by our past history, that is a very true statement, which I will show in a moment. He goes on to say:

[The] consequence is a slow, steady, and largely invisible degradation of other public and private goals. Historian Niall Ferguson, writing recently in Newsweek, argued that the huge Federal debt threatens America's global power by an "inexorable reduction in the resources" for the military. Ferguson got it half right. The real threat is not the debt but burgeoning health spending that, even if the budget were balanced, would press on everything else. "Everything else" includes universities, roads, research, parks,

courts, border protection, and—because similar pressures operate on States through Medicaid—schools, police, trash collection and libraries. Higher health spending similarly weakens families' ability to raise children, because it reduces households' discretionary income either through steeper taxes or lower take-home pay, as higher employee-paid premiums squeeze salaries.

He concludes:

... Obama talks hypocritically about restraining deficits and controlling health costs while his program would increase spending and worsen the budget outlook. Democrats congratulate themselves on caring for the uninsured—who already receive much care—while avoiding any major overhaul of the delivery system. The resulting society discriminates against the young and increasingly assigns economic resources and political choice to an unrestrained medical-industrial complex.

Mr. President, I ask unanimous consent to have printed in the RECORD the entire article at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. BENNETT. To demonstrate the accuracy of what Mr. Samuelson has to say, I have some charts. This one shows the breakdown of Federal spending in 1966. Why do I pick 1966? Because that was the year for the beginning of Medicare. At that time, 26 percent of the Federal budget went for mandatory spending—overwhelmingly Social Security—7 percent went to pay interest on the national debt, and 44 percent went for defense, with 23 percent for nondefense.

Where are we now? In 2008, mandatory spending had more than doubled and had gone to 54 percent, interest costs remained about the same—8 percent—defense had shrunk to 21 percent, cut in half, and the nondefense discretionary, 17. The difference? Medicare and Medicaid taking over the mandatory side.

What do we see as we look out to 2019. We can't break down the difference between defense and non-defense because that would require an analysis that is not available to us in that future year. But mandatory by that time will have grown to 61 percent. The size of the debt increasing costs now, interest costs have grown to 10 percent and defense and nondefense discretionary have shrunk to 29—a complete reversal. That is roughly what mandatory was when Medicare was started.

I am not saying we should not have Medicare, and I am not saying we should not have Medicaid, but I am saying we should be focusing on how we make people healthier, how we reward people for not using the system, how we do something to control the costs, instead of increasing the status quo with respect to health care spending.

This chart was drawn up before we had the bill before us. I think it is very

likely, if the bill before us passes, this mandatory will grow even further and we find ourselves in this situation with respect to 2010. I watched the budget as it came down and it said, in 2010, Federal revenues were going to be \$2.2 trillion and mandatory spending was going to be \$2.2 trillion, which means every dime of everything else had to be borrowed.

I worked with Senator WYDEN and a number of others on both sides of the aisle to craft a health care plan that would turn the cost curve for health care down. We didn't even get a vote in the Finance Committee. We didn't even get anybody to consider what we had to say because everyone was focused entirely on the issue of let's cover the uninsured. The position is: Let's cover the uninsured by taking what we are doing now and spreading it even wider.

As Mr. Samuelson says, very clearly, in his column today: That squeezes out the money for everything else. That is an uncontrolled expenditure. We are not focusing on changing the system in a way that can cause cost curves to come down, we are focusing on taking the present system and spreading it wider.

The cost curve can come down. I have quoted this before. The Dartmouth study talks about where the best health care is available in America, and it is in three cities, according to Dartmouth: Seattle, WA, Rochester, MN, and Salt Lake City, UT. Then they go on to say, if every American got his or her health care in Salt Lake City, UT, it would be the best in the country and one-third cheaper than the national average. It is one-third cheaper than the national average because the focus in that plan, as it is in Rochester, MN, at the Mayo Clinic, and other places, is trying to make health care better and, therefore, cheaper, instead of focusing on taking the present system and perpetuating it.

If we don't get into that mentality, if we just take the present system, which this bill does, and spread it over a wider number of people, which this bill does, we will see the spending go up and we will see everything else suffer as a result of it and the health care will not get any better for the people who are involved.

#### EXHIBIT 1

[From the Washington Post, Dec. 7, 2009]

#### HEALTH-CARE NATION

(By Robert J. Samuelson)

President Obama's critics sometimes say that he is engineering a government takeover of health care or even introducing "socialized medicine" into America. These allegations are wildly overblown. Government already dominates health care, one-sixth of the economy. It pays directly or indirectly for roughly half of all health costs. Medicine is pervasively regulated, from drug approvals to nursing-home rules. There is no "free market" in health care.

What's happening is the reverse, which is more interesting and alarming: Health care

is taking over government. Consider: In 1980, the federal government spent \$65 billion on health care; that was 11 percent of all its spending. By 2008, health outlays had grown to \$752 billion—25 percent of the total, one dollar in four.

Even without new legislation, the health share would grow, as an aging population uses more Medicare (insurance for the elderly) and Medicaid (the joint federal-state insurance for the poor, including the very poor elderly). Obama would magnify the trend by expanding Medicaid and providing new subsidies for private insurance. Thirty million or more Americans would receive coverage.

All this is transforming politics and society. The most obvious characteristic of health spending is that government can't control it. The reason is public opinion. We all want the best health care for ourselves and loved ones; that's natural and seems morally compelling. Unfortunately, what we all want as individuals may harm us as a nation. Our concern sanctions open-ended and ineffective health spending, because everyone believes that cost controls are heartless and illegitimate. The recent furor over proposals to reduce mammogram screenings captures the popular feeling.

The consequence is a slow, steady and largely invisible degradation of other public and private goals. Historian Niall Ferguson, writing recently in *Newsweek*, argued that the huge federal debt threatens America's global power by an "inexorable reduction in the resources" for the military. Ferguson got it half right. The real threat is not the debt but burgeoning health spending that, even if the budget were balanced, would press on everything else.

"Everything else" includes universities, roads, research, parks, courts, border protection and—because similar pressures operate on states through Medicaid—schools, police, trash collection and libraries. Higher health spending similarly weakens families' ability to raise children, because it reduces households' discretionary income either through steeper taxes or lower take-home pay, as higher employer-paid premiums squeeze salaries.

A society that passively accepts constant increases in health spending endorses some explicit, if poorly understood, forms of income redistribution. The young transfer to the elderly, because about half of all health spending goes for those 55 and over. Unless taxes are increased disproportionately for older Americans (and just the opposite is true), they are subsidized by the young. More and more resources also go to a small sliver of the population: In 2006, the sickest 5 percent of Americans accounted for 48 percent of health spending.

Political power in this system shifts. It flows to groups that promote and defend more health spending—AARP, the lobby for Americans 50 and over, and also provider organizations such as the American Medical Association (AMA), which represents doctors. Predictably, AARP has been active in the present debate. It claims to have participated in 649 town-hall and other meetings and to have reached more than 50 million people through ads this year. Not surprisingly, AARP and the AMA recently conducted a joint TV ad campaign.

The rise of health-care nation has con-founded America's political and intellectual leaders, of both left and right. No one wants to appear unfeeling by denying anyone treatment that seems needed; no one wants to endorse openly meddling with doctors' independence. It's easier to perpetuate and enlarge the status quo than to undertake the

difficult job of restructuring the health-care system to provide better and less costly care.

Obama's health-care proposals may be undesirable (they are), but it's mindless to oppose them—as many Republicans do—by screaming that they'll lead to “rationing.” Almost everything in society is “rationed,” either by price (if you can't afford it, you can't buy it) or explicit political decisions (school boards have budgets). Health care is an exception; it enjoys an open tab. The central political problem of health-care nation is to find effective and acceptable ways to limit medical spending.

Democrats are no better. Obama talks hypocritically about restraining deficits and controlling health costs while his program would increase spending and worsen the budget outlook. Democrats congratulate themselves on caring for the uninsured—who already receive much care—while avoiding any major overhaul of the delivery system. The resulting society discriminates against the young and increasingly assigns economic resources and political choice to an unrestrained medical-industrial complex.

Mr. BENNETT. Mr. President, I see the Senator from Iowa wishes to ask me a question and I am happy to respond, but tell me how much time I have remaining. Maybe some of it will have to come off his time.

The PRESIDING OFFICER. The Senator has 2 minutes remaining.

Mr. BENNETT. In my 2 minutes remaining, unless it is a long question, I will be happy to respond to any question my friend may ask.

Mr. HARKIN. Mr. President, I would say that a lot of what Senator BENNETT says I agree with. That is why, in this bill—and I keep reminding people because it is not talked about much—there are more provisions in this bill to promote wellness and prevention than any health bill we have ever passed—ever—in the United States. There are huge investments in this bill on prevention and wellness.

I happen to think that perhaps one of the reasons Salt Lake City is so good is because people don't smoke and don't drink and that goes a long way toward providing for a healthier form of living. So I say to my friend from Utah, people talk about bending the cost curve only in terms of the spending. I think—and I sincerely believe this—the only way we are going to bend that cost curve is by pushing more of this upstream, by keeping people healthy in the first place, starting with kids and adults, community-based, clinical-based, workplace-based wellness programs.

So I ask my friend from Utah to look at that part of the bill.

Mr. BENNETT. Mr. President, if I can reclaim my 2 minutes to respond to the Senator from Iowa, I can give you data that indicates it is not just the fact there are a lot of people who don't smoke and don't drink in Utah that makes them healthier. I agree there are many things in this bill that are for wellness, and I approve of that. But the fact is, the bill does not go anywhere near far enough in this direction to change the paradigm that has created the situation we find ourselves in.

Every expert I have talked to, in the 3½ years I have immersed myself in this issue, has repeated that. They have said the only way you are going to deal with this is to do something dramatically different, which is what Senator WYDEN and I tried to do and we got the cold shoulder. All right, I understand, if you don't have the votes, you can't get anywhere. But the fact remains, we are not going to be able to afford all the things we want to do in this country, militarily and otherwise, in this cost projection that we are on with respect to health care right now.

Mr. BAUCUS. Will the Senator yield for a question?

The PRESIDING OFFICER. The Senator has used 10 minutes.

Mr. BENNETT. That is right; my time has gone. I will be happy to respond to the Senator from Montana, if he wants to take the time to let me.

Mr. BAUCUS. If my colleagues will allow, I ask unanimous consent for 3 minutes.

The PRESIDING OFFICER. Without objection, the Senator from Montana has 3 minutes.

Mr. BAUCUS. I understand what the Senator is saying, and like everything around here, there is a kernel of truth in almost everything. I read that Samuelson article, and what I took away from it is the guy is kind of pessimistic. There is not a lot you can do. People love health care, they want to get all the health care they want, and that is going to drive up spending.

But the main point is this. You mentioned how Intermountain and the quality of care is so good at Intermountain and the costs are down.

Mr. BENNETT. If I may, it is not just Intermountain. There are other agencies in Utah that do a good job.

Mr. BAUCUS. I was going to say, it is Intermountain, and there are many other great integrated systems. There is one in Billings, MT—the Billings Clinic. There are lots of integrated systems, and generally in these areas, in these integrated systems—which I think work quite well—a lot of the doctors are salaried, a lot of the incentives are there to focus on health care of the patient, and it is coordinated care in contrast with some other parts of the country.

In this bill, in addition to wellness and prevention, I would ask if the Senator agrees the delivery system reforms will help move health care, as it is in Intermountain and other integrated systems, to encourage coordinated care, encourage bundling, encourage these accountable care organizations and so forth. I was wondering if the Senator thinks that will help systems—clinics, doctors, hospitals, nursing homes and health care providers generally—to work better together, where there may be more salaried physicians than there are currently, but

the salaried physicians I talked to at the Mayo Clinic, for example, and Kaiser and other similar places, kind of like that because they get decent salaries and they can spend their time not on paperwork but can focus on the patients.

I am sure the Senator knows all the delivery reforms that are in this that help move toward the Intermountain direction, and I would ask if he thinks that will help.

Mr. BENNETT. Responding to the question of the Senator from Montana, I am delighted there is as much of that in the bill as there is, but I still believe the basic structure of the bill is fatally flawed because it perpetuates the present system in ways that will guarantee the cost curve will continue to go up. I disagree with him about the Samuelson article. I do not think he is being overly pessimistic. I think he is being very realistic.

Mr. BAUCUS. One more moment, if I might, Mr. President.

I understand the bill that the Senator and Senator WYDEN cosponsored is basically to move us away from the employer-based system. Currently, our tax law encourages employers providing tax free health insurance and so forth. I understand the theoretical and actual problems with the current system. In fact, I earlier advocated moving in that direction, all the way to your legislation. But as you know, this town, this city, this country, this White House was not moving there, and major business was not moving in that direction. Therefore, we had to find something else. My main point is, if we can't go in that direction—you might say keep trying, but read the tea leaves. If we can't do that, at least now, isn't it better to start moving toward the integrated delivery system reforms in this bill?

Mr. BENNETT. Mr. President, I certainly hope this legislation will surprise me by producing—

Mr. BAUCUS. I hope so, too.

Mr. BENNETT. The result the Senator from Montana is hoping for.

Mr. BAUCUS. I like your answer, too. Thank you.

Mr. BENNETT. I am not going to hold my breath, however.

Mr. BAUCUS. Mr. President, I am going to yield 10 minutes—this is a jump ball, so why don't you go ahead. I yield to the Senator from Vermont.

The PRESIDING OFFICER. The Senator from Vermont is recognized for 10 minutes.

Mr. SANDERS. Mr. President, there are at least two major goals we have to achieve in health care reform and that is we have to expand access to everyone in America, and we have to control costs. We focus a lot on expanding insurance but expanding insurance is not expanding access. There are people today in America who have insurance but they do not have access. The fact

is, we have 60 million people who do not have access to a physician on a regular basis and many of those people—according to recent studies, 45,000—may die because they do not get to a doctor in a timely manner. By the time they walk into the doctor's office their situation is terminal.

We need substantially improved access to health care. When we improve access, we save money because people do not go to the emergency room, they do not end up in the hospital, sicker than they otherwise would have been. We need a revolution in primary health care in America. Unless we do something and do it now, our primary health care system infrastructure is close to collapse.

We have an aging primary care workforce which is not being replaced. At a Senate hearing I chaired earlier this year, it was noted that only 2 percent of internal medicine residents were choosing primary care as their specialty. Happily, there are two Federal programs that can both assure access and control costs, and I refer to the Community Health Center Program and the National Health Service Corps. Both are well-established programs that have garnered broad bipartisan support because of their proven cost effectiveness.

What a federally qualified community health center is about—and I believe they exist in all States in this country. They have widespread support from Members of the Senate and the House of both political parties. What they are about is saying that anyone in an underserved area can walk into that facility and get health care, either Medicaid, Medicare, private insurance, or a sliding scale—if you don't have enough money, you pay on a sliding scale basis—and low-cost prescription drugs.

This is a very successful program that now provides health care to over 20 million Americans and it is a 40-year-old program, again supported widely in the House and the Senate.

I am pleased that in the Senate bill, it recognizes the importance of both federally qualified community health centers and the National Health Service Corps. The National Health Service Corps is a long-established Federal program which says to people in medical school: We are prepared to provide debt forgiveness to you—on average, I know in Vermont, people are coming out \$150,000 in debt—if you are prepared to work in primary health care in an underserved area.

In the Senate bill we recognize the importance of the federally qualified community health centers and the National Health Service Corps. In fact, our bill calls for authorization levels that, if appropriated, would enable the Community Health Centers Program to expand to every underserved area within 5 years, and would result in sup-

porting at least 40,000 more primary care professionals in the next 10 years—doctors, nurses, dentists.

But we can and must improve the Senate bill. I favor very strongly the language in the House bill which calls for a dedicated trust fund with mandatory annual spending for community health centers and the National Health Service Corps. In other words, in the Senate we have authorized funding. The House has established a trust fund to actually pay for it. The Senate bill contains authorization levels that would be sufficient to fund a community health center in every underserved area in America and thus provide primary health care to 60 million more people by the year 2015. These are people who do not have to go into the emergency room, they don't have to go into the hospital because they are sicker than they should have been. They are going to get timely, cost-effective health care at a community health center.

Therefore, let me be very clear: I favor the language in the House bill which includes community health centers in its Public Health Investment Fund and guarantees mandatory funding for health centers totaling \$12 billion over the next 5 years. This is in addition to the \$2.2 billion current annual appropriation for community health centers which, it is anticipated, would also continue to be appropriated in each of the next 5 years. While this House funding level will not achieve a community health center in every underserved area, it will take us very far toward that goal, bringing primary care health services to some 40 million citizens living in underserved areas. Also in the House bill there is appropriated money to greatly expand the National Health Service Corps.

In the middle of all this discussion on health care, health insurance, let us not forget a few basic points. Sixty million Americans do not have access to a doctor. We need a revolution in primary medical care. We need to make sure we have the physicians, nurses, and dentists who are going to get out in underserved areas. The Senate bill provides authorization. The House bill provides a trust fund for community health centers and for disease prevention in general. My strong hope—and I am going to do everything I can to make sure it happens—is that the Senate adopts the House provisions.

If we are serious about providing health care to all Americans, we have to expand community health centers, we have to make sure there are primary health care doctors, dentists, nurses out there.

In addition, we need to focus on disease prevention. I know my colleague from Iowa has worked very hard on that. So we have to support the trust fund in that area.

I yield to my friend from Iowa.

Mr. HARKIN. First, I thank my friend from Vermont. There is no one who has been leading the charge longer and stronger and more fervently than the Senator from Vermont, Mr. SANDERS. I thank him for that. Obviously, we all have community health centers in our States. In Iowa they have been a godsend for so many people in rural areas who did not have access to these kinds of facilities.

I remember one time I was in Fort Dodge several years ago. They had a small free clinic there. It was in a church basement one night a week, so people could come in who didn't have insurance and couldn't get access to a doctor. They had one old dental chair there. I think every couple of weeks a dentist would come in for people. A woman had come in who had an abscessed tooth. It was hurting her so much she took a hammer and screwdriver and tried to knock her tooth out. Of course she damaged her gums. That is how desperate people get.

Because of that, I got the Fort Dodge community looking at a community health center. They now have a wonderful community health center. They have doctors there, they have nurses there, and people have access to that kind of dental care and health care.

Mr. SANDERS. Let me mention to my friend, in the State of Vermont, the poorest region of our State borders on Canada. It is called the Northeast Kingdom, in the northeast part of the State. For 30 years we have had a number of community health centers in that region. Do you know what? Amidst all of the poverty, all of the unemployment, all of the economic problems, we do not have a problem in terms of primary health care in the poorest area of the State of Vermont precisely because of these community health centers, which you indicate address dental care, which we often forget about, mental health counseling, we forget about, low-cost prescription drugs.

I look forward to working with the chairman of the HELP Committee and others to make sure we fund the kind of revolution we need in disease prevention, in primary health care, which at the end of the day improves people's health, keeps them out of the emergency room, keeps them out of the hospital, saves us money.

Study after study: Saves us money.

Mr. HARKIN. I thank the Senator again. I can't help but every time we talk about community health centers, I always have to add one thing. A lot of people think community health centers are just for poor people who do not have anything. Nothing could be further from the truth. They will take anyone who walks in the door. You can have health insurance, you can be on Medicare, you can be on Medicaid, you can have no insurance, you can have a

great insurance plan—whoever walks in the door. They have a sliding scale based on income, based on resources, of who they will take.

It has been my experience—I ask the Senator from Vermont what it has been in his area, but it has been my experience in our growing number of community health centers in my State of Iowa that more and more people—

Mr. SANDERS. I ask unanimous consent for 2 minutes more.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HARKIN. Come to community health centers. Why? Because they get the kind of hands-on care, they get many kinds of supportive services. A lot of times there are language barriers that are a problem. They get preventive care, they get all the things that make people feel better about their own quality of health care. So more and more we are finding people who actually have health insurance going to community health centers.

I ask if that has been the experience in Vermont?

Mr. SANDERS. Let me concur. In the State of Vermont we have gone from 2 to 8 with 40 satellites. Over 100,000 people in Vermont are now accessing community health centers for their primary health care.

The other point we don't often make about community health centers is they are democratically run, they are run by the communities themselves. My experience is exactly that of the Senator from Iowa. They are community health centers.

In rural areas it is not rich or poor. By and large, most of the people, regardless of income, go there. The doctors are there for a long time. The dentists are there. It is, in fact, in the best sense of the word, a community health center open and accessed by all people. People take responsibility for it because it is democratically run. It is a program—one of the bright shining stars of public health in America. I hope to work with the chairman of the HELP Committee to make sure these programs are funded adequately in this bill and that we adopt the language in the House, which goes a long way.

I yield the floor.

Mr. HARKIN. I can assure my friend from Vermont that this Senator will be in the forefront of fighting for the maximum possible support, money, and input for community health centers that we can possibly get out of this bill. I can assure him that.

Mr. SANDERS. I thank the Senator very much and yield the floor.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. ENZI. Mr. President, I yield myself as much time as I might need out of the remaining time we have.

I, too, thank the Senator from Vermont for his passionate comments on community health centers. In Wy-

oming we have community health centers and they serve a great role. For underserved areas across the Nation, they are absolutely critical. I wish there were more that we were doing in the area of community health centers. I think it provides some better solutions than some of the other things we are doing in this bill.

Wyoming is considered to be underserved. The whole State is underserved. Even our biggest cities are considered underserved. We are missing every single kind of medical provider, including veterinarians.

Usually when I make that comment, people say: People don't use veterinarians. But as far as our distances are, some people are happy to get to a veterinarian in an emergency situation.

We do have situations across the country that need to be taken care of. One of my concerns is that we are doing this huge Medicaid expansion. And when we do the Medicaid expansion, we already have it priced for doctors so that 60 percent of the doctors won't take a Medicaid patient. If you can't see a doctor, you don't have insurance, period. I don't think we are doing enough to take care of that difficulty prior to expanding this population. So we are going to shove more and more people out of getting any health care.

#### AMENDMENT NO. 2942

But the main thing I wanted to do today is rise in support of the Gregg amendment which would prevent Medicare cuts in the Reid bill from being used to create new entitlement programs to cover the uninsured. Yes, I want to have the uninsured covered. I don't oppose covering the uninsured, nor do I oppose reforming the Medicare Program. We need to do those things. We absolutely need to do those. But we shouldn't do it on a system that is going broke. We should not take the money from a system that is going broke to do new entitlement programs.

I know the Senator from Montana admitted that if the Gregg amendment were to pass, it would limit some of these entitlements, that they wouldn't be able to do them. Again, we are not opposed to doing those new entitlements. We are opposed to paying for them with Medicare money because Medicare is going broke.

They do say that if we put these extra burdens on Medicare, we will extend the life of it. And you can believe that or not. But we could expand it even more and we could solve some problems in Medicare if we took the money and we used it for Medicare. Medicare needs changes. Medicare needs to have money that we are now going to move away and put into other programs. But don't worry about it because we are going to form a Medicare Commission. Every year, that Commission is going to tell us what we ought to do to make more cuts. Before we

start doing more cuts, maybe we ought to make sure the cuts we are doing go to what we anticipated needed the most help.

I am not opposed to covering the uninsured. I don't oppose reforming the Medicare Program. We should do those things. What I oppose is the Reid bill. This is the wrong approach to solve the problems.

The Gregg amendment would go quite a ways to solving some of my discontent with the bill. The amendment offered by my friend from New Hampshire highlights the main problems of the Reid bill and suggests a better approach. His amendment would protect the savings from the Medicare Program and prevent them from being used to create a new entitlement. This would mean this new program would not have to rely on cuts to Medicare to fund its operation. It would also reserve all money taken from Medicare so that it could be used to fix the problems in the Medicare system.

Earlier, we had an amendment that said that the money for Medicare would go to Medicare. Every single program that we allocate money to, we have inspectors general who are supposed to make sure the money for that program goes to that program. But this is a different situation. What we are saying here is that we want the money from Medicare to go to Medicare, not the money for Medicare to go to Medicare. The money for Medicare has to go to Medicare. But we are going to take money from Medicare. I say, if we have that money we can take from Medicare, we ought to put it to Medicare and only to Medicare until we have the Medicare problem solved. Our seniors are relying on that. Don't be caught up by the little words in do-nothing amendments that say the money for Medicare is going to go to Medicare. What we want to say is that the money from Medicare goes only to Medicare.

Mr. BAUCUS. Will the Senator yield on that point?

Mr. ENZI. I am on my time here.

Mr. BAUCUS. Do we have any time remaining on our side, Mr. President?

The PRESIDING OFFICER. There are 12 minutes remaining on the majority side and 14 minutes remaining on the Republican side.

Mr. BAUCUS. I will take 2 minutes from our side to ask a question.

The PRESIDING OFFICER. Does the Senator from Wyoming wish to yield time?

Mr. ENZI. It is my understanding that the Senator from Montana is willing to take his time for the question.

Mr. BAUCUS. Correct.

The PRESIDING OFFICER. The Senator from Montana is recognized.

Mr. BAUCUS. May I ask the Senator from Wyoming a question? To, from, for—isn't the result the same? If we take a program—let's take home health care. We are all for home health

care. But if there is fraud, if the GAO says there is fraud in home health—maybe others too—doesn't the Senator think it is a good idea that we eliminate some of the fraud that might exist in the Medicare Program? Does the Senator agree with that?

Mr. ENZI. Absolutely.

Mr. BAUCUS. Does the Senator also agree that when that happens, that means that program—say, home health care, for example—is spending fewer dollars not on less care but fewer dollars because it is not making fraudulent payments?

Mr. ENZI. Yes.

Mr. BAUCUS. Does the Senator further agree that would extend the life of the trust fund because that program—in this case, home health—would be spending fewer dollars even though the quality of health care is not diminished? Doesn't that have the effect of extending the quality of health care, and isn't that reduction for Medicare, for seniors, not to take it away but to give it to seniors because it extends the life of the trust fund?

Mr. ENZI. That is where the Senator runs into a dead end. If you take the money that would be from home health care and you put it into an entitlement that has nothing to do with home health care, nothing to do with Medicare, then you did not extend the life of Medicare.

Mr. BAUCUS. No, no, no. There is less spending; therefore, by definition, the solvency of the trust fund is extended, so there are more dollars for seniors in future years. That is the basic point here. That is not a dead end. That is a big wide avenue to help extend the solvency of the Medicare trust fund.

Mr. ENZI. Reclaiming my time, I am the accountant in the Senate. If you take money from a program and you give it to something else, you have less money in that program. We admit that Medicare does have problems in the long term. Seven or eight years out there, it is going broke, and maybe we can extend it a year or two. If we took that money, that fraud and abuse—and I will say some more things about fraud and abuse here in just a minute—if we took that money and put it into the Medicare Program to extend the life of the program, we could give some assurance to seniors that we are doing something for them. That is where a lot of the concern comes from.

On fraud and abuse, if there is all this fraud and abuse out there, how come we haven't been getting at that in the past and putting it to some kind of good use? All of a sudden, we are saying there is all this fraud and abuse and we are going to take this extra fraud and abuse and we are going to put it in there. I notice we have increased the amount of fraud and abuse we are capturing, but we did that by changing the definition. We just

claimed more fraud and abuse. We didn't capture more money. That is one of the problems with having a government bureaucracy do things they really have no value in doing. If the government agency finds the money, it doesn't come back to their program, so they are not very excited about doing it. We keep passing fraud and abuse things around here, and the fraud and abuse never gets found to any extent. And the money can't be used if it can't be found.

As an accountant, what I have always suggested is, we have a separate fund set up, and when we find this fraud and abuse, we put it in that fund. We would only be able to use the money from that fund in these areas where we say we are going to fund it with fraud and abuse money. Because we have no incentive in government to go out and collect the money. It is a huge problem around here.

Some Democrats have argued that we are not creating a new entitlement program. They are simply wrong with that too. Just like Social Security, Medicare, and Medicaid, this bill will commit the Federal Treasury to paying for these new subsidies for the uninsured forever.

When we start a program around here, we don't put an end date on it. As soon as we have passed it, the people say: Wow, thanks, that is really great. Now what are you going to do for us? We look around and we say: Maybe we can do like Medicare Part D. Then we pass that and they say: Yes, you gave us Medicare Part D, but you still have the doughnut hole. So we take care of that. Anytime we do an entitlement, we keep adding to the entitlement regardless of where the money is coming from. And that is how Medicare has gotten in trouble. Once subsidies are given, they are never taken back. They are only expanded. There is no appreciation for what has been done. Medicare Part D; now they want the doughnut hole closed.

We are going to do kind of a phony thing to close that doughnut hole. PhRMA said they would give \$50 billion that can be used as a subsidy as people go through the doughnut hole, but they said: You can only use the subsidy if we can pay it directly to the customer. That way, they keep in contact with the customer. And you can only use it if they stay with our brand name. OK, so they get through the doughnut hole. Then the taxpayer picks up the money, and they are stuck with the brand name. That is why the pharmaceutical companies can make so much money. If they can get them to not switch to that generic and make good economic decisions as they go through the doughnut hole, they can make a lot more money, once it is on the taxpayer outside of the doughnut hole. I am really upset with the pharmaceutical industry for doing that. That is the

reason they are putting all the money into promoting this.

That means that as Federal spending continues to grow, new programs continue to grow. It will crowd out other Federal spending priorities such as education or national defense. States will tell you it is already crowding out education. When we put these new Medicaid requirements in there and they have to pay for them, they have a limited budget too. What they have done is take money away from colleges, so colleges have had to increase tuition dramatically in order to cover the money they had to give to Medicaid. So when we do some of these things, we are affecting a whole lot of things, other spending priorities such as education and national defense.

Any future attempts to modify or restrain this growth will be met by cries of indignation, arguing that cuts would devastate access to health care. If anyone has any doubt, they should look at the transcripts from our debate on the Deficit Reduction Act.

In 2005, Congress tried to reduce Medicare spending by about \$20 billion and enact modest reforms to the Medicare Program. These reforms would have strengthened the long-term solvency of these programs which we are talking about now and helped reduce the Federal deficit. In response, Senator REID called that bill an "immoral document," and the junior Senator from California said she strongly opposed the cuts in the bill because they would "cut Medicare and Medicaid by \$27 billion."

There are thousands of media quotes. The media quotes the majority more often, and here in DC the volume of quotes is equated with being right. Yet today these same Members and the rest of my Democratic colleagues want to create a new entitlement program that will spend hundreds of billions of dollars, and they would pay for it by cutting \$464 billion from the Medicare Program. That is enough money to run the State of Wyoming for 320 years.

We don't understand how much money we are talking about here. You can't take that kind of money from a program, give it to other programs, and expect the program to work. We recognize that. That is why we put this Medicare Commission in there that annually is supposed to suggest extra cuts.

Let's see. We made a deal with the hospitals that we weren't going to cut them. We made a deal with the pharmaceuticals that we wouldn't cut them any more. We made a deal with doctors that we wouldn't cut them any more, although we never followed through on the doctor stuff because their deal—and these were all hidden deals—was supposed to be that they would either get a 1-year fix on the doc fix and medical malpractice or they would get a 10-year fix on the doc fix. That isn't in either of the bills. I don't know if they

are going to stick with the hidden deal they made. I don't know what other hidden deals there were in this.

I believe these facts highlight why we need to adopt the Gregg amendment.

We should be very careful creating a new entitlement program which will permanently obligate our children and grandchildren to pay its costs. In fact, with the way we have maxed out our credit cards, we are now talking about the seniors actually having to pay for these other new entitlements. So grandpa and grandma will be paying for that, too, not just our grandkids and children. If my colleagues insist on doing it, however, at a minimum we need to guarantee that any new program has a stable and reliable source of funding. The Medicare cuts in this bill are neither stable nor reliable.

My Democratic colleagues have spoken at length about how the Medicare provisions in this bill will bend the growth of health care spending. That, unfortunately, is far from accurate. If you don't believe me, listen to what the other nationally recognized experts have to say.

According to the New York Times, the CEO of the world-renowned Mayo Clinic, which we use around here all the time, dismissed the reforms in the bill. Dennis Cortese said the Reid bill only took baby steps toward revamping the current fee-for-service system. The dean of the Harvard Medical School, Jeffrey Flier, said the bills being considered in Congress would accelerate national health care spending.

I wish there were more actual reforms in this bill. I applaud some of the efforts Senator BAUCUS included that will create incentives for coordinated care and rewarding providers who provide higher quality. I believe those are exactly the types of things we should do to improve the Medicare Program. Unfortunately, the savings from these actual reforms are a few pennies compared to the dollars of the arbitrary payment cuts included in the bill.

According to the Congressional Budget Office, all of the savings from the various policies to link Medicare payments to quality and encourage better coordination of care in the Reid bill provide less than \$20 billion in total savings.

In contrast, the Reid bill includes over \$220 billion in arbitrary payment cuts to health care providers, including hospitals, nursing homes, home health agencies, and hospice providers. We have made a point of how much those are and what the effect is going to be, and it is going to take away service that people have come to expect.

The Reid bill also includes an additional \$120 billion in cuts to Medicare Advantage plans. Medicare Advantage is—we talked about wanting to provide catastrophic care for everybody. That was one of the goals. Well, Medicare people do not have catastrophic care.

They can buy catastrophic care through Medicare Advantage. But we are talking about making some substantial cuts to that which are either going to decrease benefits or, in some cases, make the whole service go away.

Those are not reforms. Instead, they represent the best efforts of folks in Washington to guess how much it actually costs real doctors and nurses to provide health care services to Medicare beneficiaries. We are not experts in the health care field, but we are going to guess at how much extra revenue they are getting. I want to emphasize that word "revenue" because, again, as an accountant, there is a difference between profit and revenue. We are going to cut substantially into the revenues, which is going to eliminate profits, which is the point at which people say: Why am I doing this?

So doctors and nurses are going to—people who are looking at being doctors and nurses are going to say: Why would I want to do that? Well, there is going to be a huge demand because the baby boomers are coming up, and they are going to need services.

So cuts like the ones to doctors and nurses and home health, and all of those, are an excellent example of how government price controls do not work.

Medicare does not negotiate payment rates with providers like private insurers do. Medicare uses price controls to set payment rates.

When I first went into the shoe business, President Nixon suggested we should have price controls; that the cost of goods was going out of sight. At that time, one could buy a pair of men's dress shoes for \$10. They put in price controls—like this—but they could not put the price controls in immediately because it takes a while to pass a bill. So what did everybody who was manufacturing shoes do? They raised their prices, which forced us at the retail end to have to raise our prices too. By the time that went into effect, that \$10 pair of shoes was \$20. So price controls do not work. I have experienced it. It was dramatic, and it was terrible for the customer. We are talking about customers again.

Medicare uses price controls to set payment rates. Experts in Washington then look at various reported costs, revenues, and profits of health care providers, and then decide how much we should pay health care providers.

I have often said everyone thinks they know everything about a business until they actually have to run it. Unfortunately, we have been taking over a lot of businesses, and our expertise is showing. I am kind of fascinated by the Cash for Clunkers. That was a little business we decided we would set up on behalf of the government, and we said it would last for 4 months. It went broke in 4 days.

So as to any of the numbers anybody around here is considering, you ought

to take a look at it because as a former small business owner, I want to assure them, it is actually a lot harder to run a business than it looks. For the simplest business you can think of out there, if you scratch the surface just a little bit you will find out those people are making dramatic decisions on a daily basis just to keep in business, which means, hopefully, paying themselves, but definitely paying their employees because that is not an option. If it was as easy as we think around here to do a business, everybody would be going into business.

The Medicare cuts in this bill are based on the efforts of folks in Washington to decide how much it costs to run a nursing home in Cheyenne or a home health agency in Gillette or any of these businesses in much smaller communities than that. Based on the past track record of Washington, I do not have much confidence in their abilities, and I do not think America does. I think that is showing up in the polls. I think that is showing up in the town meetings.

In 1997, Congress passed the Balanced Budget Act. It contained Medicare payment cuts. Lots of smart folks in Washington made arguments similar to those we are hearing today about how those cuts would not harm the providers or beneficiaries. That was historic.

Well, let me show you the historic arrogance of that time. What happened after these cuts went into effect? Within 2 years, these cuts had driven four of the largest nursing home chains in the Nation into bankruptcy. Vencor, Sun Healthcare, Integrated Health Services, and Mariner Post-Acute Network all filed for bankruptcy. Between them, they operated 1,400 nursing homes that provided care for hundreds of thousands of Medicare beneficiaries.

Similarly, the bill also included cuts in payments to Medicare+Choice plans. After these cuts went into effect, one out of every four plans pulled out of the Medicare program. Millions of beneficiaries lost the extra benefits these plans had provided.

Given this track record, I have grave concerns about what the Medicare cuts in the Reid bill would do to Medicare beneficiaries and the doctors, hospitals, and other providers who treat them. I have even greater concerns about using any estimated savings from these cuts to fund this new entitlement program for the uninsured.

That is why we should pass the Gregg amendment. Rather than relying on cuts that could devastate the Medicare Program, let's find a stable and reliable funding source that we could use to pay for health care reform. The Gregg amendment says that savings from any Medicare cuts should be reserved for the Medicare Program. That way, if the Washington experts again got it wrong, we will not have already

spent all the savings on another program.

The ACTING PRESIDENT pro tempore. The Senator's time has expired.

Mr. ENZI. Madam President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Montana.

Mr. BAUCUS. Madam President, I ask unanimous consent that the time until 1 p.m. today be under the same conditions and limitations as previously ordered; further, that the prohibition on amendments and motions also be extended until 1 p.m.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. BAUCUS. Madam President, I yield 25 minutes to the Senator from North Dakota.

The ACTING PRESIDENT pro tempore. The Senator from North Dakota.

Mr. CONRAD. Madam President, I thank the distinguished chairman and I thank the Acting President pro tempore.

I come to the floor to respond to some of the things I have heard over the last several days with respect to the legislation before us and to try to give—in some cases—the other side of this story because I am increasingly concerned, as I listen to this debate, that people have started to create their own facts, and that is never useful in a debate.

Let me start with an ad that is running—a full-page ad—back in my home State of North Dakota, with the headline:

Isn't Senator Conrad Supposed to be a "Deficit Hawk?"

It starts by saying some nice things about me. It says:

Senator Kent Conrad has a long, admirable record as a deficit hawk. For years, he has advocated for fiscal sanity and smaller deficits, and he has served North Dakota well.

I wish they would have just ended the ad there. That would have been a very good ad. But they go on to say:

Now, federal spending is totally out of control:

And they give some examples. Then they say:

On top of all this, Congress is considering a new \$900 billion health care entitlement, with some estimates saying it could actually cost more than \$2 trillion!

Well, the \$2 trillion number is a number that somebody has concocted. That is not the 10-year cost of this bill. The 10-year cost of this bill is between \$800 billion and \$900 billion, as the ad says. Then they go on to conclude:

America can't afford it. And North Dakotans can't afford it.

Of course, this ad is not paid for by North Dakotans. But they are clear that: "North Dakotans can't afford it."

Senator Conrad: how can you even consider this?

"How can you even consider this?" Well, because I have read the bill, and

this bill does not increase the deficit; this bill reduces the deficit. That is not my opinion as chairman of the Budget Committee. That is what the Congressional Budget Office—which is non-partisan, which is the objective scorekeeper—they are the ones we look to for analysis of legislation before Congress. Objective analysis—not made up analysis. Here is their conclusion.

This is the Congressional Budget Office estimate of the Senate health plan, the legislation that is before us now. It reduces the deficit over the budget period by \$130 billion. It does not increase the deficit, despite all the speeches that have been given. It reduces the deficit by \$130 billion.

Our colleagues get different numbers because they come out here and say: Well, if this part of the bill were not included, it would increase the deficit. But that is not the bill. The bill before us has been analyzed by the Congressional Budget Office, and they say the bill before us—the one we will be voting on—reduces the deficit by \$130 billion in the first budget window.

In the second budget window—the second 10 years—the Congressional Budget Office says:

CBO expects that the bill, if enacted, would reduce federal budget deficits over the ensuing decade [beyond 2019] relative to those projected under current law—with a total effect during that decade that is in a broad range around one-quarter percent of [gross domestic product].

What is one-quarter of 1 percent of gross domestic product in the second decade? It is \$650 billion. If you take, then, in total what the Congressional Budget Office is telling us to 2019—the first 10 years—it reduces the deficit by \$130 billion. In the second 10 years, it reduces the deficit by one-quarter of 1 percent of GDP, which is equal to \$650 billion.

So to my friends who ran this ad in every newspaper in my State, wondering why a deficit hawk might support this legislation, it is because this legislation reduces the deficit, both in the first 10 years and in the second 10 years, according to the Congressional Budget Office. That record should be clear.

Do we have a problem long term? Absolutely, we do. As this chart shows, Medicare and Medicaid combined are going from 2 percent of GDP, back in 1980, to 12.7 percent of GDP on the current trend line by 2050, and that is an unsustainable course. I think we all understand that. Medicare and Medicaid are increasing very dramatically as a share of our gross domestic product, and they are a key reason we are seeing the gross Federal deficit expand, and expand dramatically.

We now project the gross Federal debt to be 114 percent of the gross domestic product in 2019. That is almost as high as it was after World War II, which is the previous record in this

country. Already we are approaching 100 percent of GDP with the economic downturn and with all the pressures that exist with two wars and a very sharp reduction in revenue in this country.

The reality is, for those who say we do not have to do anything, Medicare is going broke. It is already cash negative; that is, more money is going out from Medicare than is coming in under the revenue sources of Medicare. The trustees tell us it will be insolvent by 2017—2 years earlier than forecast just last year.

So those who say we do not have to do anything—just steady as she goes, the status quo is fine—are detached from any financial reality. The bill before us has significant Medicare savings: provisions that lower cost growth without harming beneficiaries.

Let me give some examples. In the legislation before us, we reduce overpayments to private Medicare Advantage plans. We reform the health care delivery system. By the way, this is the provision that most experts say is the single most important component of this legislation, and it has gotten almost no attention in this debate. It has gotten almost no attention in the media—reforming the delivery system so instead of paying for procedures, we pay for quality outcomes.

We incentivize those integrated systems such as the Mayo Clinic, such as the Cleveland Clinic, such as Geisinger in Pennsylvania and Intermountain Healthcare out in Utah that have much lower cost and the highest quality outcomes. We are going to, for the first time, provide major incentives for other systems to adopt their good practices. This is what health care reformers say are really the most important parts of the legislation.

We also improve payment accuracy, crack down on fraud and waste, which we all know is significant in Medicare, perhaps as much as \$70 billion a year. We are going to beef up very substantially the moves to go after those who are committing fraud in this system. It also slows the growth in reimbursements to providers, many of whom will benefit from over 30 million newly insured people.

So people ask: How is this bill paid for? One of the biggest ways of paying for it is to go to the providers and say: Your future increases will not be as large as previously indicated. You are not going to have growth as much as you had previously thought in your level of reimbursements. These groups have, by and large, agreed to that prospect. Why? Because, No. 1, they know there are savings to be accrued. No. 2, they know that with over 30 million more people being covered, they will have a big increase in business, and they will have a sharp reduction in uncompensated care.

So that is why the hospitals have agreed to more than \$150 billion in savings over ten years and that is why nursing homes and home health care have agreed to significant savings and why the pharmaceutical industry has as well. Let me say, before we are done, I believe that what is in the bill for nursing homes will be further modified so it is not as much of a reduction in their increases as was anticipated. Because if you look at who has put up how much, there is rough agreement from these providers to take these reductions in their increases. They are not cuts in the sense of getting less next year than they got the year before, it is getting less of an increase.

Interestingly enough, an argument made by Republicans when they were advocating reductions and savings out of Medicare were far higher, far bigger than anything that is in this bill. This is an amusing point for those who have been listening to this debate. Our Republican colleagues are now decrying savings out of Medicare which just a year ago they themselves were advocating. They had their President come forward with a proposal with much bigger savings than those in this bill. We will get to that in a minute.

Here is what some of my colleagues have been saying on deficit and debt because the rhetoric coming from our colleagues on the other side has been interesting, and the difference between their rhetoric and their amendments is striking. Here is what they have said. This is Senator MCCONNELL, the Republican leader:

We're heading down a dangerous road. It's long past time for the administration and its allies in Congress to face the hard choices that Americans have had to face over the past several months. No more spending money we don't have on things we don't need. No more debt.

That is Leader MCCONNELL.

Senator KYL, again, a member of the Republican leadership:

We have got to reduce deficit spending to manageable levels and ultimately learn to live within our means, and the sooner the better.

Senator MCCAIN, who offered the first Republican amendment:

This staggering deficit threatens our children's and grandchildren's future and simply cannot be sustained. I call on my colleagues on both sides of the aisle to chart a different course toward real change and fiscal responsibility.

Well, that is what they have said in their speeches. What have they done with their amendments with respect to debt? This is curious. Every major amendment they have offered was to increase the debt, to increase deficits. After all the brave speeches about how important it was to be fiscally responsible, what amendments have they offered? Well, Senator MCCAIN offered the first one to eliminate the Medicare savings. That would increase the deficit and increase the debt by \$441 billion. So much for the brave speeches.

The Hatch amendment was to continue overpayments to Medicare Advantage plans, increasing the deficit and debt by \$120 billion. So much for the brave speeches.

The Johanns amendment to eliminate the home health care savings would increase the deficit and debt by \$42 billion.

So far our Republican colleagues, who have given such strong speeches about the need to reduce deficits and debt, every single major amendment they have offered have been to increase deficits and debt and so far the running total is over \$440 billion that our colleagues on the other side would increase the deficit and debt by, if their amendments had been adopted.

The good thing is, there are other people watching, other people who are listening to the speeches and comparing the speeches to the amendments and comparing the speeches to the policy prescriptions of our colleagues on the other side. Here is what the American Association of Retired Persons said on November 20:

Opponents of health care reform won't rest. They are using myths and misinformation to distort the truth and wrongly suggesting that Medicare will be harmed. After a lifetime of hard work, don't seniors deserve better?

On November 18, the American Association of Retired Persons said this:

The new Senate bill—

Talking about the bill before us—

makes improvements to the Medicare program by creating a new annual wellness benefit, providing free preventive benefits, and—most notably for AARP members—reducing drug costs for seniors who fall into the dreaded Medicare doughnut hole, a costly gap in prescription drug coverage.

The Federation of American Hospitals, on November 20, said:

Hospitals always will stand by senior citizens.

The American Medical Association said, on that same day:

We are working to put the scare tactics to bed once and for all and inform patients about the benefits of health reform.

On November 16, the Catholic Health Association of the United States said:

The possibility that hospitals might pull out of Medicare is very, very unfounded. Catholic hospitals would never give up on Medicare patients.

Again, from the National Committee to Preserve Social Security and Medicare on November 19:

We are . . . very well aware of the positive impact health reform can have on the future of the Medicare program and its beneficiaries.

One of the things that is most striking to me in listening to our friends on the other side is they are trying to scare people into thinking that the savings in Medicare are going to disadvantage Medicare beneficiaries. What is most remarkable is, the last time our friends on the other side of-

fered a budget, it was offered in the Bush administration. Their savings out of Medicare in that budget were \$481 billion over 10 years, far larger than the savings in this bill. Interestingly enough, I never heard a single Republican colleague say one peep about those savings out of Medicare. There was no suggestion it threatened grandma. There was no suggestion this was going to ruin Medicare. There was no suggestion these savings out of Medicare were going to undermine Medicare beneficiaries. That was their budget. That was their President's budget, to save \$481 billion out of Medicare.

Let's compare it to the savings in Medicare in this bill. The Bush administration, the last budget they offered, had \$481 billion in 10-year savings out of Medicare. The net reduction in this bill is \$380 billion. I would ask my colleagues on the side opposite: What is the bigger number? Is \$481 billion bigger or is \$380 billion bigger? They didn't say one word in opposition to Medicare savings from the previous administration, their administration, when it was \$481 billion, but now this administration has savings of \$380 billion on a net basis, all of a sudden the sky is falling and it is the end of the world. I would say the hypocrisy meter is on tilt when I listen to these speeches from the opposite side.

Medicare Advantage plans. I have heard so many speeches here about Medicare Advantage. Medicare Advantage was originally put in place to save money for Medicare. In fact, it was capped at 97 percent of traditional fee-for-service Medicare. What has happened? Is it saving money? No. On average, it is costing 114 percent of traditional fee-for-service Medicare. In fact, there are plans in Medicare Advantage that are costing 150 percent of traditional fee-for-service Medicare. We have a runaway train. We have a program in Medicare Advantage—at least some elements of it, to be fair, because some of them are working fine—some elements of it are a runaway deficit train, costing 150 percent of traditional fee-for-service Medicare. These are the hard realities Medicare Advantage is contributing to Medicare's fiscal problem.

This is the MedPAC report from March of 2009:

In 2009, payments to Medicare Advantage plans continue to exceed what Medicare would spend for similar beneficiaries in traditional fee-for-service. Medicare Advantage payments per enrollee are projected to be 114 percent of comparable fee-for-service spending for 2009. . . . This added cost contributes to the worsening long-range financial sustainability of the Medicare program.

In plain English, it is contributing to Medicare heading for insolvency, and this bill does something about it. It moves Medicare Advantage to a more sound and sustainable course.

By the way, interestingly enough, the estimates by the Congressional

Budget Office are, there will be more people in Medicare Advantage after this bill passes. After this bill passes, there will still be more people in Medicare Advantage than have been in the past. So Medicare Advantage will go forward, but the abuses will be run out of the system, the overpayments will be reduced, and that will help extend the solvency of Medicare.

Question: Does this bill that is before us extend the solvency of Medicare or does it reduce the years of solvency of Medicare? What is the right answer? The correct answer is, this legislation extends the solvency of Medicare by at least 4 years and perhaps 5. We know the House bill has been scored. It extends Medicare solvency, according to the CMS actuaries, 5 years. The bill that came out of the Finance Committee extended solvency of Medicare by at least 4 years, and most estimates are, the bill before us does somewhat better.

Back on the question of Medicare Advantage:

Taxpayers pay 50 percent more for beneficiaries enrolled in Medicare Advantage plans in some areas.

I asked CBO last year: Is Medicare Advantage saving money which was its original intention? They came back and said not only is it not saving money:

It is on average costing 14 percent more, or 114 percent of traditional fee-for-service Medicare and, in some places, the Medicare Advantage pricing benchmarks currently range from 100 percent to over 150 percent of local per capita spending in the fee-for-service traditional Medicare sector.

Facts are stubborn things. The fact is, this bill reduces the deficit by \$130 billion over the first 10 years and by as much as \$650 billion over the second 10 years. Those are facts, according to CBO, not facts made up by colleagues on the floor, for one purpose or another.

This bill extends the solvency of Medicare by at least 4 years and perhaps as long as 5 years. That is not all that needs to be done, but it is a beginning. Those who want to oppose it and vote against it will have to explain why they don't want to extend the solvency of Medicare, why they don't want to achieve savings, why they don't want to go after the fraud and abuse that exists in the system.

Let me say with respect to the Gregg amendment, I have enormous respect for Senator GREGG, but his amendment is designed to kill this bill.

Let's just be clear. That is the purpose of the amendment. If you want to kill the bill that reduces the deficit, the bill that will reduce premiums for a significant majority of the American people; if you want to kill the bill that begins the critically important process of reform, then you ought to vote for the Gregg amendment. If you want this bill to be able to advise and deliver on

the promises made to the American people about what must be done to solve Medicare—not to solve it but to extend its solvency; if you want to have legislation that begins the critically important process of reform, then reject the Gregg amendment.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Wyoming is recognized.

Mr. ENZI. Madam President, I wasn't going to take any part of this 30 minutes, but I can't help it. I will allocate myself 5 minutes.

I keep running into this comment that the Republicans were willing to cut \$481 billion from Medicare. Would somebody show me where we cut \$481 billion from Medicare? We didn't do it, and this bill won't cut \$464 billion. Seniors won't let you do that. We didn't even propose it; the President proposed that. We knew it wasn't going to happen. You cannot cut Medicare without having the seniors all upset because they understand their program is going broke—going broke.

That is why we have had this series of amendments. We have tried to come up with one that would actually solve the problem. We have been emphasizing the problem. The Gregg amendment takes care of the problem. That is why we brought up the Gregg amendment and why we should pass it. Rather than relying on cuts that can devastate the Medicare Program, we can find a stable and reliable funding source to pay for health care reform.

The Gregg amendment says that savings from any Medicare cuts should be reserved for the Medicare Program. That is saying that if these things are all possible that we are talking about as being possible and as being cost savers, if they really work, put it into Medicare. If you really want to extend Medicare, don't just say you are going to extend Medicare and then overlook a few things.

I have a little chart I haven't had a chance to use yet.

It was reiterated here that this bill is "deficit neutral." Yes, according to CBO, it is—if you assume that Medicare physician payments will be cut 20 percent in 2011 and that they will be cut 40 percent over the next 10 years. We hold the physicians hostage every year, 1 year at a time, to get something out of them, and then we keep the cuts from happening. These cuts aren't going to happen. If they did happen, it would not be deficit neutral.

The bill makes no provision for paying this 20 percent that will be cut in 2011 or for the 40 percent over the next 10 years. There is no provision. So that part is going to be false as to having a deficit-neutral bill.

A massive new tax will be imposed on employer health benefits, hitting 31 percent of American family plans by 2019, if that does not happen—and I

think people will notice the tax in a whole bunch of different ways—then this assumption is wrong and it is not deficit neutral.

Also, it relies on us cutting \$464 million from Medicare. The Actuary said this level of cuts would bankrupt hospitals and threaten patient care.

I have a typo on the chart. It is supposed to be \$464 billion, not million. I am still having trouble with that.

That amount would fund the State of Wyoming for 320 years. It is a big number. We are talking about cutting it by that much. If we don't cut this and we use this to pay for the other entitlement, the bill is not deficit neutral. CBO says that.

Everybody is entitled to their own opinions, but the facts are there. The facts say that if, if, if. We are not going to do those "ifs." I will not go into that point, even though I am a little upset.

Mr. GREGG. Will the Senator yield for a quick question?

Mr. ENZI. Yes.

Mr. GREGG. I know the Senator from Idaho wants to speak, but if I can ask the ranking member a quick question.

Mr. CRAPO. That is fine.

Mr. GREGG. I heard the Senator from Montana and the Senator from North Dakota say the amendment I have pending would make it impossible for them, under this bill, to create their entitlement programs because the Medicare money that will be taken from Medicare would not be available. My amendment says they cannot do that. It says Medicare cannot be used to create new entitlements, but it doesn't say those entitlement programs cannot be created if they want to pay for them some other way. So really what they are saying is they don't have the idea, the courage, or the will to pay for them in a way other than by stealing from Medicare. Isn't that what they are saying?

Mr. ENZI. The Senator from New Hampshire is absolutely correct. I am glad he came here to make that point on the amendment we are going to vote on this afternoon. It is critical. If you want to save Medicare, this amendment will save Medicare. It doesn't prohibit their programs from happening. They can still do the entitlements, but they have to be sure they are paid for. That is one of the problems. To say they are going to take the \$464 billion from Medicare and put it into these other entitlements, that is not fair.

Mr. GREGG. I thank the Senator.

Mr. ENZI. Madam President, I yield 10 minutes to the Senator from Idaho.

The ACTING PRESIDENT pro tempore. The Senator from Idaho is recognized.

Mr. CRAPO. Madam President, I am here to speak in support of the Gregg amendment. I rise in support of my colleague's amendment because it would

prohibit using Medicare cuts in the Democratic health care bill to pay for new government spending.

It is interesting, as you listen to the debate—in fact, I was interested to hear my colleague from North Dakota say the Republican amendments would increase the deficit. They would only do that if you assume all of the spending in the bill, which is also opposed by the Republicans.

One of the key parts of the debate that I think needs to be emphasized here is, among all of the other things this bill does, when you have the first full 10 years of real implementation of the bill, it is a \$2.5 trillion increase in Federal spending, paid for with hundreds of billions—in fact, trillions in new taxes and cuts in Medicare.

The purpose of the Gregg amendment is to require that when we do achieve savings in Medicare, instead of it being used to just transfer into a new government entitlement program, making Medicare less solvent, we use the savings for Medicare itself.

In the first 10 years of their bill, we will see cuts in Medicare by \$465 billion, every dollar of which will simply be transferred over to a massive new Federal entitlement program. If you actually take the first 10 full years of the implementation of the bill—and recall that there are some budget gimmicks being played to say it is not generating a deficit, and it is not really implemented fully until about 4 years into the bill—if you take the first 10 years of implementation, the cuts to Medicare are not \$465 billion but \$1 trillion, and \$3 trillion over a longer period of time as we evaluate the bill moving into the future.

In Medicare's hospital insurance trust fund, annual outlays already exceed the annual income, so the fund is drawing down its holdings to pay full benefits—but not for long. By 2017, the HI trust fund will be insolvent and will no longer be able to pay full benefits for seniors. These cuts will make it worse.

This amendment provides that the major provisions in the underlying bill, including the subsidies and Medicaid expansion, cannot go into effect unless the Director of OMB and the Centers for Medicare and Medicaid Services certify that all of the projected spending in the bill is offset with savings, but that savings shall exclude any changes to Medicare or Social Security. In other words, we require that Medicare savings be used for Medicare and Social Security savings be used for Social Security. This will ensure that the savings generated from the Medicare cuts in the bill don't go toward the creation of a new entitlement program at the expense of our seniors. If the non-Medicare savings don't offset the new costs, then the Secretary of the Treasury and the Secretary of HHS are prohibited from implementing new spending or revenue-reduction provisions in the bill.

Republicans have opposed the Reid bill's harmful cuts to Medicare through three votes. Should those cuts remain, the Gregg amendment makes sure Medicare savings go to making the program more solvent, not to offsetting the new entitlement programs.

Congress should not raid Medicare—a program that has \$38 trillion in unfunded liabilities—and use it as a piggy bank to pay for a new health care entitlement. The government already has \$70 trillion in unfunded obligations over the next 75 years, and we should not add to it with these dangerous provisions. The \$70 trillion in unfunded obligations represents a burden of \$600,000 per American household. The Reid bill carries an estimated cost of \$2.5 trillion over the first 10 years that it is fully implemented. It is fully loaded with budget gimmicks.

Earlier in the debate, we voted 100 to 0 for the Bennet amendment—a rule of construction—which stated that nothing in the bill “shall result in the reduction of guaranteed” Medicare benefits. In contrast with the Bennet amendment, the Gregg amendment actually guarantees there will be Medicare for future generations, while guarding against the creation of a new unfunded entitlement this country cannot afford.

I wish to respond a little bit to some of the arguments my colleague from North Dakota just made.

I mentioned we have had three votes already to try to take these Medicare cuts out of the bill. All of those votes have failed. The Senator from North Dakota indicated those votes would have reduced the deficit or would have caused a huge deficit problem. That is only true if you assume the \$2.5 trillion of spending in the bill will continue.

But those who claim there is a reduction in the deficit in this bill can do so only if they assume three things—one, if they assume the budget gimmicks are implemented. They have not included the SGR payments for physicians—a \$245 billion cost over the next 10 years. It is just not in the bill because it cannot be accounted for.

Second, they have delayed the cost implementation portions of the bill by 4 years now, so that they have 10 years of revenue and 4 years of spending, so they can claim it balances. Even then, they cannot claim this bill helps the deficit unless they assume the hundreds of billions of dollars of new taxes and the hundreds of billions of dollars of cuts in Medicare. If any one of those items was taken out—the Medicare cuts, the tax increases, or the budget gimmicks—this bill would be shown to be what it is: a huge expansion of the Federal Government that is going to necessitate increased tax burdens and reductions in spending, as well as budget gimmicks to hide what cannot be hidden in order to claim it doesn't generate a deficit. I think most Americans

understand that those kinds of gimmicks are the things we see all the time in Congress when we are trying to make it look as if we are not engaging in debt spending and increasing the national debt.

The bottom line here is that there is a significant amount of reform that can be achieved, that can reduce the cost of health care, that can reduce the cost of health insurance premiums, that we could agree to on a bipartisan basis if we were not stuck in this debate on the insistence that we create a massive new intrusion of the Federal Government into the operation and control of the health care economy and the development of another massive new Federal entitlement program at the expense of some of the current entitlement programs.

I haven't even talked about what is being done in Medicaid yet. I am sure others will talk about that.

This bill, as I said, will increase spending and the size of the government by \$2.5 trillion. It will cut Medicare benefits over that same true full period by \$1 trillion. It will increase taxes by hundreds of billions of dollars, and over that true full 10-year period of implementation, over \$1 trillion. It will force the neediest of our uninsured in this country not into the opportunity to gain insurance coverage but into another failing entitlement program, which is Medicaid. It will drive a massive, unfunded mandate onto our States, which are already trying to figure out how they are going to deal with their fiscal problems. It will cause the cost of health insurance to go up for 30 percent of all Americans immediately and for the 70 percent who are in the large groups and get insurance from large companies, and they will basically see no significant savings and ultimately more taxes.

The bottom line is, we are not going to see an increase in the ability to control or handle the cost of health care. We are going to see an increase in government, an increase in government controls, an increase in taxes, and a reduction in the stability of our Medicare programs. That is not the way we should approach reform.

The Gregg amendment simply says let's create a lockbox, if you will, for Medicare, the same kind of lockbox we need for Social Security to keep the Congress from continuing to raid Social Security. Let's put it into place to ensure that all these great statements we hear on the floor about how we want to protect and preserve Medicare are enforced.

It simply creates by power of law, by force of law, the necessary mechanism to help all of us be sure that what we are talking about on the floor actually happens; namely, that we protect Medicare from being raided for the establishment of yet again another massive Federal entitlement program.

Madam President, I yield back my time.

The ACTING PRESIDENT pro tempore. The Senator from Wyoming.

Mr. ENZI. Madam President, may I inquire as to the time arrangement?

The ACTING PRESIDENT pro tempore. The minority has 5½ minutes. The majority has 7½ minutes.

Mr. BAUCUS. Madam President, before we continue, I ask unanimous consent that the time be extended for debate only until 2 p.m., with the limitations of the previous order remaining in effect.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Senator from Wyoming.

Mr. ENZI. Madam President, I usually don't say much at these debates, but today I am going to make that an exception. I allocate the rest of our time to me. There have been a lot of comments here and they need to be clarified.

I do want to pass a bill that decreases health insurance premiums. I have traveled thousands of miles across the State of Wyoming, and every time I talk with somebody about health care, they ask me to do something to lower their health care costs—to lower their health care costs. That is what most people in America want.

American families cannot afford to pay ever increasing health insurance premiums. Small businesses cannot afford premiums that increase twice as fast as inflation.

Earlier this week, CBO issued—actually, it was last week—its long awaited report on the impact the Reid bill would have on insurance premiums. CBO said the premiums for individuals and families purchasing their health insurance will increase by 10 to 13 percent.

That means if the Reid bill is enacted, these folks will pay 10 to 13 percent more—more—for their health insurance. The legislation that its sponsors say is intended to lower health care costs will actually increase insurance premiums.

We should not be surprised by this finding. Several well-known actuarial business consulting firms have already issued reports that said the exact same thing: The bill increases health insurance premiums.

What is surprising is that some of my Democratic colleagues have argued that this CBO report provides support for enacting health reform. The New York Times even described this as “Good News on Premiums.”

These statements defy logic and common sense. The bill attempts to completely restructure the nonemployer insurance market and impose massive new government mandates. Is anybody surprised that as a result the costs will go up?

Yet some of my Democratic colleagues have attempted to cherry-pick

data and use selective quotes to try to mask what CBO said. For instance, some of them have pointed out how CBO said the Reid bill would lower premiums by 7 to 10 percent because of changes in the rules governing the insurance market.

As the Senate's only accountant, I take offense to these kinds of misrepresentations. Giving my Democratic colleagues the benefit of the doubt, I will assume they do not understand the differences between gross and net numbers.

I am not going to try to do a lot of numbers here. I did that once in committee and my staff watching back at the office—I got to ask the accountants at the SEC important questions at the time Enron was failing. You could see this little wedge of people seated behind the people testifying, and they were all asleep. I want to use this chart instead.

CBO did say the premiums would go down 7 to 10 percent due to insurance market changes. They also said premiums would go down another 7 to 10 percent because healthier people would sign up for insurance. What my colleagues forgot to mention or do not want to mention is that CBO also said that premiums would go up by 27 to 30 percent because the bill has so many mandates and requires most Americans to purchase more expensive coverage.

Yes, the Federal Government is going to tell you what you need for insurance, and then they are going to fine you if you do not get it. Maybe this chart helps to explain it.

We can see the net impact. Here is the 27 percent in increases because of the mandates and the requirement to purchase more expensive coverage. This is the decrease that I mentioned. But you cannot just talk about this decrease and you cannot just talk about this decrease. You can talk about the net, and the net is a 13-percent increase in premiums.

I urge anyone who questions what I am saying to read the CBO letter. It is on the CBO Web site. Page 4 of the letter clearly states premiums will increase by 10 to 13 percent. That amounts to \$2,100 for families purchasing coverage on their own. That does not meet the requirement that people in Wyoming think they are going to get. And the younger they are, the more surprised they are going to be because we get rid of the ratings, and young people will be paying considerably more. They are already paying into Medicare for seniors without getting any promise that will last until the time they become seniors, unless we pass something like the Judd Gregg amendment.

We have to protect that Medicare money to make sure it goes to Medicare and only Medicare if we are going to make sure Medicare stays solvent. We have to make that as a promise to

the kids paying into the system now. They and their employers, and the amount the employers pay in, is the amount they could have in their own pocket if the employer did not have to pay it. But they are paying that so seniors can have the Medicare benefits, and we want them to have those benefits. We should not at this point take money from Medicare and build new entitlements and expect those same young people to pay an increased amount on while they pay an increase in their insurance premiums. Their insurance increase is going to be a lot more than 27 percent. In Wyoming, it was estimated to be around 300 percent. I think they will notice. I think they will be upset. If this bill passes, there will be a revolution in this country when people realize what has been thrust on them in this bill.

I yield the floor and keep the remainder of my time.

The ACTING PRESIDENT pro tempore. The Senator from Montana.

Mr. BAUCUS. Madam President, I think everybody who is interested in the subject ought to read the CBO letter. Different people make different claims about the CBO letter, but I think it is only fair to read the entire letter, refer to the entire letter, not bits and pieces and parts of the CBO letter.

For example, it has been stated that CBO claims the average premiums—we are talking about the nongroup market. That is the individual market now. In fact, that is page 6 of their letter which said average premiums would be 27 percent to 30 percent higher because of greater coverage. That is the statement we just heard.

The CBO letter does say that. But I think it is also important to say that those people would be getting much higher quality insurance because of all the insurance market reforms we provide for in this legislation.

Even more important, CBO goes on to say on that same page in that same letter:

The majority of these enrollees, about 57 percent, would receive subsidies via the new insurance exchanges, and those subsidies on average would cover two-thirds of the total premium.

It is true that some in the so-called nongroup market in the year 2016 would find their premiums go up without subsidies. I think that figure nets out to about 7 percent. But they are getting better insurance, much better insurance than they currently have because the insurance they buy in the exchange—we are talking about 2016—will be much better insurance than they now have.

According to everybody else, a fair reading of the CBO letter leads one to conclude that premiums will basically go down by a little bit—not a lot, a little bit—or be about the same. For example, I have heard on this floor the

assertion, but no reference, no authority for this assertion—I heard this morning the assertion that for employees who work for larger companies, their premiums would go up. The fact is the CBO letter said just the opposite.

One can make the assertion premiums go up, but I think it is unfair to the American people to make rhetorical claims that are not backed up with authority. The CBO letter is probably the best authority we have for us to work with, and that letter says flatly that premiums for those persons—that is about five-sixths of Americans—would go down, not up, as has been asserted without the authority on the floor.

I am making the opposite assertion they will go down by about 3 percent. Not a lot but 3 percent. But my authority is the Congressional Budget Office. That is what they say.

Basically, 93 percent of premiums will either go down or be about the same. I mentioned a 3-percent reduction for the employees. Five-sixths of persons work for big companies and in the so-called small group market, CBO says—this is all the year 2016—premiums will be up 1 percent or down by 2 percentage points. It depends on who gets the credit. Some will, some will not.

Let's not forget small business gets credit under this legislation, too. I am not sure whether CBO calculated that in. A fair reading is the small group market, that is about 13 percent of Americans, it is, say, a net minus 1 because some go up 1 percent and some down by 2 percent.

Basically, if we compare apples to apples, that is what insurance will be in 2016—premiums will go down for those in the nongroup market, down by 14 or 20 percent. Because those with better benefits will find their premiums might go up by 10 to 13 percent and add in the tax credits which one has to do because that is the legislation, on a net basis, for two-thirds of those folks, their premiums will be lower by a large amount. By "large," I mean by about 56 to 59 percent.

Who knows what is going to happen in 2016. CBO is giving their best shot based on this legislation. That is what their letter says. I have the letter right in front of me.

I might also say that CBO says—I don't know if it is in this letter or another letter—the bill is deficit neutral, and basically over 10 years—I think a 20-year period—the net effect is not much more government or less government, it is about the same as today. There are wild assertions: Oh, it is bigger government. CBO said government's involvement in people's lives will be basically no more or less than today, and that is partly because of a lot more choice people will have. They will have a lot more choice in the exchanges, a lot of choice under the ex-

changes. It is that choice which will encourage greater competition, and greater competition will encourage lower prices. At least that is the theory. Most of us tend to think competition lowers prices, and that is what the legislation does.

Unless the Senator from Wyoming wishes to speak, Senator KERRY, on our side, wishes to speak for at least 15 minutes.

The ACTING PRESIDENT pro tempore. The Senator from Massachusetts.

Mr. KERRY. Madam President, I might pick up, if I may, on this issue of premiums. First, let me say it is astonishing to me how we are continuing here to have a debate about mythology and not reality. We keep trying to bring it back to reality. Our friends on the other side of the aisle, for better or worse, seem to be content to continue to try to scare America's seniors and to try to frighten people about this legislation overall.

I was listening to the debate about premiums, whether premiums are going to go up or premiums are going to go down. Let me share with people who are listening, particularly seniors, who I hope will not be scared by the false assertions that have been made; let me tell you about the experience in the Commonwealth of Massachusetts where we passed landmark health care reform 3 years ago.

Since implementing this plan in which we require—we require—every single citizen in the State to buy insurance, and employers are penalized if they do not provide insurance, the fact is that today in Massachusetts, the plan is working. The companies like it and the citizens like it because they have the coverage. In fact, coverage by companies, corporations, has gone up since we put it in place. There are more companies that now participate and find that it works for them than before. But most important, 432,000 people now have gained quality, affordable health care coverage where they didn't have it before.

We have the lowest uninsured numbers in the United States of America and we are proud of that. In Massachusetts, 97.3 percent of our citizens—more than we are attempting to cover under the legislation we want to pass here—97.3 percent of our citizens are covered and have health insurance. Equally important, the newly insured have enrolled in all types of private and public coverage. There are 18 percent who are in the State's Medicaid; 40 percent are in something called Commonwealth Care, which is administered by the Commonwealth, the new subsidized plan; 33 percent are in employer-based coverage; and 9 percent are in a nongroup purchase plan.

Let me say to the Senate, health reform has improved access in the Commonwealth of Massachusetts. There are fewer insured individuals who report

cost as a barrier to being able to get care. In the last year, most Massachusetts residents—88 percent—had at least one visit to a doctor and 78 percent had a preventive care visit. A recent State survey found that 92 percent of individuals reported having a primary care provider in our State. As coverage has increased, the number of uninsured individuals going to hospitals for free care has declined. So we have reduced the number of people who sort of unfairly require everybody else to pay for their coverage when they go to a hospital and the hospital covers them, and it is paid for unevenly by the people who have coverage and by the corporations that have to make up the difference. That has gone down now. Now the free care has gone down because the people have a program, they have a plan, and they can go in and get the care that is afforded to them.

Here is what is important—and I say this to my friend who is managing for the Republicans right now—the average premiums in the individual market fell dramatically in Massachusetts—falling from \$8,537 at the end of 2006 to \$5,143 in mid-2009. In other words, premiums, which we have been arguing about, in the individual market, fell by 40 percent, while the rest of the Nation saw a 14-percent increase. Which would you rather have, a program where you spread the risk more fairly, where you lower the premiums and you provide quality care for people who don't have coverage today or continue the status quo, where you get thrown off your insurance by a company that just wants to take the profit and doesn't care about the fact that you got sick; that cuts you off after you have paid your premiums because they find a little catchphrase in the clauses of the contract and they tell you: Sorry, you are not covered when you are sick, or you can't even get covered because you have a preexisting condition when you walk in and you try to get the coverage.

I think the case is so clear it is almost unbelievable to me that we are here arguing about this at this point. But even more ridiculous is the following: The very same people who are coming to the floor right now and telling us not to slow the growth of Medicare, which is all that we are doing. We are not cutting any benefits. I hope every senior in America hears this. It is time to end these scare tactics. There is no cut in benefits. Every benefit currently under the law will continue to be given to the seniors of this country, and that is an obligation we have. But listen to what the people who are coming to tell you that there are cuts in your benefits used to say. I say used to say because it was when they had a Republican President and they were running the Senate.

The fact is, back in June 2009, because of a report on the long-term

budget outlook, we know, point-blank, that if we don't cut, if we don't do something to reduce the rate of growth in Medicare, by 2080, the Federal Government is going to spend almost as much a share of the economy on just its two major health programs as it spent on all its programs in every branch of government in recent years. The Medicare provisions in this bill take the necessary steps to try to reform the delivery system through value-based purchasing initiatives, through bundled payments. A bundled payment is when you give a hospital or a delivery provider a sort of global budget, if you will. You give them a big amount of money and you say: This is what we are giving you, and you have to manage with that amount of money, instead of paying them for every single time somebody comes in to do something. When you give them that global budget, that so-called bundled budget, it encourages the executives to do what they haven't done today, which is find the ways to deliver the same quality of care but to deliver it more effectively and more efficiently.

We provide the creation of an innovation center to test new payments, to have comparative effectiveness research. Doesn't that make sense? We want to know if what they are doing in Wyoming or what they are doing in Colorado or some other part of the country makes as much sense as what they are doing in Kentucky or Massachusetts or West Virginia somewhere. By looking at the comparative effectiveness, we will all learn and become more effective and more efficient at delivering services. Thanks to the distinguished Senator from West Virginia, we create an independent Medicare advisory board, which will have a profound impact on forcing the Congress to make decisions we have avoided for far too long.

Our colleagues who are here today saying: Don't do this. Don't be smart about Medicare. That is effectively what they are saying because that is what we are doing. We are trying to be smart about Medicare. We are not cutting any benefits. But they are coming here and telling you we are cutting benefits, even though in June of 1995, June 28, Senator GRASSLEY from Iowa came to the floor and said:

We propose slower growth of Medicare. Medicare would otherwise be bankrupt.

On June 29, 1995 Senator JOHN KYL said:

We do heed the warning of the Medicare board of trustees and limit growth to more sustainable levels to prevent Medicare from going bankrupt in 2002.

Medicare, we think, is not going to go bankrupt until 2017. Thanks to what is in this bill, we actually extend the life of Medicare another 4, definitely, and hopefully 5 years. But here is what Senator KYL said:

Preventing Medicare from going bankrupt is what is necessary to make sure seniors do

not lose their benefits altogether as a result of bankruptcy in 7 years.

On June 29, 1995, Senator HATCH said:

It is important to start the structural reforms which are necessary to make Medicare solvent in the long term.

That is exactly what we are doing. That is precisely what we are doing, and we should have the support of Senator KYL and Senator GRASSLEY and Senator HATCH.

On October 17, 1995, Senator KYL said:

We also know that it is necessary to prevent the Medicare program from going broke. The Republican budget will slow the growth in Medicare because the Medicare trustees have warned us that without doing so the system will go broke. I think that it is totally irresponsible for any organization in America to be scaring America's senior citizens.

I am quoting Senator JOHN KYL: "... irresponsible for any organization ... to be scaring America's seniors." Yet here is the Republican Party scaring America's seniors.

I wish to talk about what this legislation does and doesn't do because every claim that is being made is simply without foundation. This amendment is basically an amendment designed to try to gut this bill and what it does is condition any spending increases or tax reductions in the bill on certification that all costs in the bill are offset, without counting changes in Medicare or Social Security. That is a gimmick. It is a game. It is calculated to prevent us from taking the positive changes we make and using those positive changes in an effective way to do even more that is positive.

I wish to be very specific about more that is positive, but I want to, first, go through each of the claims made by the other side. First of all, they claim the Medicare payroll taxes are used in this bill to pay for non-Medicare benefits. They say this bill raises the Medicare payroll tax so we pay for non-Medicare benefits. Well, it is not true. It is true the payroll tax goes up for an individual with an income over \$200,000 and for a married couple with an income over \$250,000. But let's set the record straight. By law—and nothing in this bill changes that law—all Medicare payroll taxes are used to improve the solvency of the Medicare Program. This bill does not change that practice, notwithstanding anything they try to say, and it certainly doesn't divert Medicare payroll taxes to another program.

Even the CMS actuary has certified that because of the Medicare provisions contained in this bill, the solvency of the Medicare Part A hospital insurance trust fund will be improved by 5 years. So what they are saying with respect to that is simply not true.

They also claim Medicare cuts are used to pay for coverage expansion. This statement actually ignores the benefits seniors receive from this bill.

I think it also is important to remind people how the Medicare financing sys-

tem works. I just talked about the Medicare solvency in the Part A Program. The Part A Program is paid through payroll tax. The Part B Program and the prescription drug program is paid through a combination of general revenue contributions and enrollee premiums. About 25 percent of the total program cost is paid through the premium, and 75 percent is paid by the general revenues. Part D financing works exactly the same way.

This bill reduces Medicare spending by a total of \$463 billion. It doesn't reduce the benefits, but it reduces the spending over the next 10 years. Do you know what that does? That lowers the out-of-pocket premiums beneficiaries pay for Medicare physician services and prescription drug coverages. In effect—and this has already been certified by CBO—we lower the premiums for seniors. That is the benefit.

The opponents claim the Medicare cuts to providers are going to result in decreased access. Well, it is interesting that the very same people who brought us the so-called death panels, which never existed, are at it again with respect to access. They want to scare you. They want to say you are not going to get access to a doctor or access to your medical care, and they claim Medicare benefits could be harmed by the bill. Yet, even as they say that, AARP, the people who represent 40 million retired Americans, says: No, no, no, that is not true. Our people are protected. The American Medical Association says: No, no, no, that is not true. The folks we care about are protected.

This bill fully protects guaranteed Medicare benefits for seniors. It will keep Medicare from going broke in 7 years, it extends the life of the Medicare trust fund, it reduces prescription drug costs for seniors, it ensures seniors can keep their own doctors next year by blocking a 21-percent pay cut for physicians, it creates new prevention and wellness benefits in Medicare, and it keeps seniors in their own homes and not in nursing homes.

The ACTING PRESIDENT pro tempore. The time of the Senator has expired.

Mr. BAUCUS. Mr. President, I yield an additional 5 minutes to the Senator from Massachusetts.

The ACTING PRESIDENT pro tempore. The Senator may proceed.

Mr. KERRY. I thank the distinguished leader and the Chair.

So the opponents of health care reform are simply not telling you that the program is about to be insolvent because private insurance companies and some of the providers are, in fact, using the money basically to get rich off the Medicare dollar.

We ought to be clear about the impact of these policies. Even with the Medicare changes we have made—I hope Medicare beneficiaries hear this—

even with the Medicare changes in the bill, overall provider payments are still going to go up. They are not cut. They are going up. We are simply slowing the rate of growth, and that is something everybody on the other side has said they want to do.

Wall Street analysts also have suggested that many providers, including hospitals, are going to be “net winners.” That is a quote, “net winners.” Under our bill, they estimate hospital profitability will increase with reform because more and more hospital patients will have private insurance that they do not have today and the hospitals today are out of pocket because they take care of these people but they do not have the insurance. Just as in Massachusetts, where the premiums went down and where the expenses for free care went down, that is precisely what the impact will be here.

We have a choice. We can do nothing, which is basically what our colleagues have proposed. The status quo means Medicare is going to be broke in approximately 7 years. It means seniors are going to pay higher and higher premiums and cost sharing due to wasteful overpayments to providers. It means that each year billions of Medicare dollars are going to continue to be wasted, lining the pockets of the private insurance companies that kick people off indiscriminately or tell them they don't have the coverage when they finally get sick and need the coverage. The status quo means seniors are going to continue to pay for their prescription drugs.

The fact is, this is the time for responsible action. This bill strengthens the Medicare Program, it reduces premium costs for seniors, it restores Medicare's financial integrity, and it fortifies Medicare and protects Medicare benefits for America's seniors.

Let me point to another thing they keep saying. They keep saying this bill cuts billions of dollars from the Medicare Advantage Program, hurting the 11 million seniors who are enrolled in those programs today. I know that is exactly what they have said—this bill cuts Medicare Advantage and hurts those millions of seniors. Wrong, not true, scare tactic, same old procedure, trying to distort and provide fear. Nothing could be further from the truth. This bill cuts down on overpayments, not benefits. What taxpayer in America should knowingly be paying an additional amount for a service, more than the service is worth and more than we pay in the regular program?

Mr. COBURN. Will the Senator yield for a question?

Mr. KERRY. I want to finish the thought. If we can yield on your time at the end, I will be happy to do that, but I want to make the points.

It is the overpayments to insurers that actually threaten Medicare's fu-

ture. That is what increases the costs for seniors.

In 2009, MedPAC, the independent commission that advises us on issues affecting Medicare, estimates that Medicare is going to pay approximately \$12 billion more for beneficiaries enrolled in private Medicare Advantage plans than if they were in the traditional Medicare. These are overpayments, according to MedPAC and according to folks in the medical profession. They exist because private insurers, under Medicare Advantage, are overpaid by about 14 percent, on average.

I might add, coincidentally, in 2008, when the Senator from Arizona was the nominee for President, one of his top aides, Mr. Douglas Holtz-Eakin, said—I think it was in an article in USA TODAY—that Medicare Advantage plans should “compete on a level playing field” with traditional Medicare. The changes in this bill will help to reduce these overpayments, and they bring us closer to that level playing field that was suggested last year.

My friends on the other side of the aisle also say that reducing the government subsidies to private medical plans is going to increase the costs for seniors. Again, this statement is fiction. The overpayments private insurance companies receive under the current law to deliver Medicare benefits have increased the costs for seniors today. They, in fact, result in a \$90 increase in premiums to every married couple enrolled in Medicare.

As we go forward, I hope it is the truth and facts that will prevail here, not the fiction we keep hearing to scare seniors.

Americans ought to take note that the Minority do not come to the floor of the Senate and show us how we could fix Medicare's problems more effectively. The minority does not support changes that serve seniors better. Instead, they just embrace the status quo. Everyone in America knows the status quo is unacceptable. We cannot afford it. Medicare will go bankrupt within the next 10 years. I ask my colleagues, then where are we going to be?

This is the time for responsible action, and every step we have offered offers that kind of responsible action without reducing care. Opponents of health reform won't rest. They are using myths and misinformation to distort the truth and wrongly suggest that Medicare will be harmed. After a lifetime of hard work, don't seniors deserve better?

The Patient Protection and Affordable Care Act clearly strengthens the Medicare program. The bill reduces premium costs for seniors, improves Medicare's financial integrity and delivers immediate benefits for seniors like lower prescription drug costs and free preventive services. In short, health care reform will fortify Medi-

care and protect Medicare benefits for America's seniors. I would like to take the next few minutes to separate the facts from the fiction.

My friends on the other side of the aisle say that health reform will cut Medicare benefits for seniors. And once again, this statement is false. Health reform will increase the number of Medicare benefits that seniors are entitled to under law. Nothing in this bill will take away or reduce guaranteed Medicare benefits. In fact, the legislation increases coverage of preventive services at no additional costs to seniors. That means, when seniors visit a doctor for a colonoscopy, mammography, or other preventive screen, they won't pay the co-pay required under current law. Encouraging more preventive care is one of the best ways we can save lives and lower health care costs. That's why, under this bill, seniors will receive even better preventive benefits than they receive today.

My friends on the other side of the aisle say that under health reform, government bureaucrats will dictate personal health care decisions. This statement is completely false. Health care decisions about providers and treatments are some of the most personal decisions many people make. Under current law, doctors and patients decide which treatments Medicare patients need. The same is true under this bill. Health reform will keep these decisions between health care providers and patients. And with improved payment policies, this bill also ensures Medicare providers get the resources they need to continue providing quality care to their patients.

My colleagues on the other side of the aisle say that reducing fraud, waste and abuse in Medicare will not save a significant amount of money. To the contrary, waste, fraud and abuse cost the health care system billions of dollars every year. Improving Medicare's financial integrity is one of the first steps we can take to save the program. According to independent analysis from the Congressional Budget Office, under this bill, enhanced oversight, like requiring background checks and screening for providers, will save Medicare dollars. Targeting waste, fraud and abuse in Medicare will protect American taxpayers and help extend the life of the program.

My friends on the other side of the aisle claim that health care reform will not lower costs for seniors but drive costs higher. The truth is that seniors will see immediate savings in prescription drug costs under health care reform. This legislation will save seniors money in the Medicare prescription drug coverage program by providing more coverage and lowering the costs of brand-name prescription drugs. In 2010, seniors will receive an additional \$500 of coverage before they have to begin paying out of their own pocket in

the coverage gap or “doughnut hole” in the Medicare Prescription Drug Benefit. Also beginning in 2010, the price of brand-name drugs and biologics will be cut in half for the seniors who have to pay for prescriptions out of their own pocket when they hit the “doughnut hole” between initial and catastrophic coverage.

Those on the other side of the aisle say that we are not doing enough to protect home health care. The fact is that this bill includes provisions I introduced to make home and community-based services more widely available in Medicaid. Despite advancements in home and community-based services, seniors have few affordable and accessible options in choosing a health care setting today. Seniors deserve more options, rather than just nursing homes. For seniors eligible for both Medicare and Medicaid and who prefer home or community-based services, this bill provides valuable support.

We have heard repeatedly from my friends on the other side of the aisle that leading advocacy groups do not support the Senate health care bill. Nothing could be further from the truth. The country’s leading advocacy groups for seniors rights are helping stop the scare tactics and clear up the facts. Voices like AARP and the American Medical Association support the responsible Medicare reform in this bill.

On November 18th, AARP said:

The new Senate bill makes improvements to the Medicare program by creating a new annual wellness benefit, providing free preventive benefits, and—most notably for AARP—members reducing drug costs for seniors who fall into the dreaded Medicare doughnut hole, a costly gap in prescription drug coverage.

On November 20th, the American Medical Association said:

[We are] working to put the scare tactics to bed once and for all and inform patients about the benefits of health reform.

On November 16th, the Federation of American Hospitals said

Hospitals always will stand by senior citizens.

And on November 16th, the Catholic Health Association of the United States said:

The possibility that hospitals might pull out of Medicare [is] very, very unfounded. Catholic hospitals would never give up on Medicare patients.

The minority today is arguing the exact opposite of what they have said previously. In the late 1990s, Republicans and Democrats joined together to fight for America’s seniors, advocating Congress take the advice of experts who said the solvency of Medicare was in trouble. Today, some are using scare tactics, falsely claiming that the Patient Protection and Affordable Care Act will impose “cuts to Medicare” that hurt seniors. In truth,

this bill protects the guaranteed Medicare benefits our seniors deserve. I urge my colleagues to stop spreading the misinformation and false claims about this bill that are intended only to scare seniors. Instead, I urge you to work with us on this legislation which delivers health care to an additional 31 million Americans and strengthens and preserves Medicare for the 45 million beneficiaries who rely on the program.

The PRESIDING OFFICER (Mr. ROCKFELLER). The Senator from Wyoming is recognized.

Mr. ENZI. Mr. President, I ask unanimous consent that following the comments of the Senator from Massachusetts, an article be printed in the RECORD called “The Coming Deficit Disaster” by Douglas Holtz-Eakin, the same Congressional Budget Office Director to whom he was referring. That goes into a number of these points I probably will do later, but I want it at this moment because I want to relinquish such time as the Senator from Oklahoma might want.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### THE COMING DEFICIT DISASTER

The president says he understands the urgency of our fiscal crisis, but his policies are the equivalent of steering the economy toward an iceberg. By Douglas Holtz-Eakin (Mr. Holtz-Eakin is former director of the Congressional Budget Office and a fellow at the Manhattan Institute. This is adapted from testimony he gave before the Senate Committee on the Budget on Nov. 10.)

President Barack Obama took office promising to lead from the center and solve big problems. He has exerted enormous political energy attempting to reform the nation’s health-care system. But the biggest economic problem facing the nation is not health care. It’s the deficit.

Recently, the White House signaled that it will get serious about reducing the deficit next year—after it locks into place massive new health-care entitlements. This is a recipe for disaster, as it will create a new appetite for increased spending and yet another powerful interest group to oppose deficit-reduction measures.

Our fiscal situation has deteriorated rapidly in just the past few years. The federal government ran a 2009 deficit of \$1.4 trillion—the highest since World War II—as spending reached nearly 25% of GDP and total revenues fell below 15% of GDP. Shortfalls like these have not been seen in more than 50 years. Going forward, there is no relief in sight, as spending far outpaces revenues and the federal budget is projected to be in enormous deficit every year. Our national debt is projected to stand at \$17.1 trillion 10 years from now, or over \$50,000 per American. By 2019, according to the Congressional Budget Office’s (CBO) analysis of the president’s budget, the budget deficit will still be roughly \$1 trillion, even though the economic situation will have improved and revenues will be above historical norms.

The planned deficits will have destructive consequences for both fairness and economic growth. They will force upon our children and grandchildren the bill for our overconsumption. Federal deficits will crowd out domestic investment in physical capital,

human capital, and technologies that increase potential GDP and the standard of living. Financing deficits could crowd out exports and harm our international competitiveness, as we can already see happening with the large borrowing we are doing from competitors like China.

At what point, some financial analysts ask, do rating agencies downgrade the United States? When do lenders price additional risk to federal borrowing, leading to a damaging spike in interest rates? How quickly will international investors flee the dollar for a new reserve currency? And how will the resulting higher interest rates, diminished dollar, higher inflation, and economic distress manifest itself? Given the president’s recent reception in China—friendly but fruitless—these answers may come sooner than any of us would like.

Mr. Obama and his advisers say they understand these concerns, but the administration’s policy choices are the equivalent of steering the economy toward an iceberg. Perhaps the most vivid example of sending the wrong message to international capital markets are the health-care reform bills—one that passed the House earlier this month and another under consideration in the Senate. Whatever their good intentions, they have too many flaws to be defensible.

First and foremost, neither bends the health-cost curve downward. The CBO found that the House bill fails to reduce the pace of health-care spending growth. An audit of the bill by Richard Foster, chief actuary for the Centers for Medicare and Medicaid Services, found that the pace of national health-care spending will increase by 2.1% over 10 years, or by about \$750 billion. Senate Majority Leader Harry Reid’s bill grows just as fast as the House version. In this way, the bills betray the basic promise of health-care reform: providing quality care at lower cost.

Second, each bill sets up a new entitlement program that grows at 8% annually as far as the eye can see—faster than the economy will grow, faster than tax revenues will grow, and just as fast as the already-broken Medicare and Medicaid programs. They also create a second new entitlement program, a federally run, long-term-care insurance plan.

Finally, the bills are fiscally dishonest, using every budget gimmick and trick in the book: Leave out inconvenient spending, back-load spending to disguise the true scale, front-load tax revenues, let inflation push up tax revenues, promise spending cuts to doctors and hospitals that have no record of materializing, and so on. If there really are savings to be found in Medicare, those savings should be directed toward deficit reduction and preserving Medicare, not to financing huge new entitlement programs. Getting long-term budgets under control is hard enough today. The job will be nearly impossible with a slew of new entitlements in place. In short, any combination of what is moving through Congress is economically dangerous and invites the rapid acceleration of a debt crisis.

It is a dramatic statement to financial markets that the federal government does not understand that it must get its fiscal house in order. The time to worry about the deficit is not next year, but now. There is no time to waste.

Again, Mr. Holtz-Eakin is former director of the Congressional Budget Office and a fellow at the Manhattan Institute. This is adapted from testimony he gave before the Senate Committee on the Budget on Nov. 10.

Mr. COBURN. Mr. President, the question I was going to ask the distinguished Senator from Massachusetts is,

how many Medicare Advantage patients has he ever cared for? How many Medicare Advantage—how many Medicare patients has he ever cared for? How many times has he been in the trough, experiencing the heavy hand of government as we try to care for people on Medicare? The answer to that question is zero because he is not a physician. He relies on the American Medical Association—the American Medical Association that today represents less than 10 percent of the active practicing doctors in this country. He relies on AARP, which has 40 million in membership but is the fifth largest revenue receiver from supplemental policies. That is whom he relies on. The fact is, he does not have the experience of being in the trough, caring for patients.

Let me tell you what is going to happen to Medicare Advantage patients.

Mr. KERRY. Will the Senator yield—

Mr. COBURN. The Senator would not yield to me. I have no intention to yield to him.

Mr. KERRY. I was ready to yield on your time.

Mr. COBURN. The Senator would not yield. I will continue my talk.

For Medicare Advantage patients—there is no question, I have agreed with the chairman of the Finance Committee—the competitive bidding needs to happen. But there is one little thing that happened on the way to the bank. It is that there is going to be a decrease in benefits—not only a decrease in what we pay for, but there is going to be a decrease in benefits. Where will that impact be most importantly felt? Not in the urban areas. It is not going to be felt in the urban areas. It is going to be felt in rural areas throughout this country. That is where it is going to be felt. It is going to be felt out there where there is a marginal rural hospital that is using the other benefits to help maintain the flow to that hospital.

So there is no question that, if you are one of the 11 million—with the exception of those who got deals cut in this bill—that, for sure, the 90,000 Oklahomans are going to feel an impact from this cut.

Nobody says Medicare Advantage is perfect. It is not. It is far from it. But there is another aspect of Medicare Advantage that really helps those on the lower rung of the economic ladder. It is that with Medicare Advantage, they did not have to buy a supplemental policy because all the things they need are covered.

Ninety-four percent of Americans on Medicare who are not on Medicare Advantage purchase a supplemental policy. Why do they do that? Why do they spend \$300 or \$400 a month to buy a supplemental policy? Because basic Medicare that we have proudly said will not be cut does not cover the basic needs of

a senior and their health care. Consequently, they pay into Medicare Part A, HI trust fund their whole life, they buy Medicare Part B, and then they buy a supplemental policy. It just so happens that one of the largest sellers of those policies happens to be somebody who is endorsing this bill. If that is not a conflict of interest, I don't know what is.

I heard the Senator talk about Massachusetts. I refer to an article from the Chicago Tribune—they have broadened care. I am proud of them for doing that. But at what cost? At a 10-percent increase in cost of premiums for the people in the middle.

When we go back to what the President said about what his goals are, there is no question that this bill does not keep those promises.

I now ask unanimous consent to turn to another area which we have discussed and ask unanimous consent to have printed in the RECORD an article from the North County Times/The Californian, dated December 5, 2009, at 9:35 p.m.

Mr. KERRY. Reserving the right—

The PRESIDING OFFICER. It is so ordered—the Senator from Massachusetts?

Mr. KERRY. I reserve the right to object. I want to find out if we can have a moment to have a discussion, I ask my colleague.

Mr. COBURN. I will offer you the same courtesy you offered me. When I finish my remarks, on your time, you are more than welcome to refute what I said.

I ask unanimous-consent that be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator's unanimous-consent request is granted as it was before.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the North County Times, Dec. 5, 2009]

STATE ENDS SUBSIDY FOR MAMMOGRAMS TO LOW-INCOME WOMEN UNDER 50

(By Bradley J. Fikes)

The eligibility age for state-subsidized breast cancer screening has been raised from 40 to 50 by the California Health and Human Services Agency, which will also temporarily stop enrollment in the breast cancer screening program.

Advocates for low-income women, whose health care the department helps pay for, say the cuts put a two-tier system in place that is based on money rather than medical standards.

The cuts will greatly harm the clinic's mammogram program, said Natasha Riley, manager of Vista Community Clinic's Breast Health Outreach and Education Program.

The clinic and others like it in San Diego County provide reduced-cost care, mostly to low-income people, with money from the state and some private donations.

"More than 50 percent of the women we give breast exams and mammograms to are in their 40s," Riley said. "The majority of our current breast cancer survivors are women in their 40s."

The state's decision, announced Dec. 1 and effective Jan. 1, follows a controversial federal recommendation last month that mammograms before the age of 50 are generally not needed.

However, the public health department also linked the change to California's budget woes.

The federal recommendation, made Nov. 16 by the U.S. Preventive Services Task Force, has encountered strong opposition.

The task force later retreated a bit, adjusting its recommendation to state that mammograms for women ages 40 to 49 should be considered by their doctors on an individual basis.

Moreover, private health care systems such as Scripps Health have rejected the federal task force's recommendation, choosing instead to keep the existing standard, which calls for a mammogram at age 40, with annual mammograms thereafter.

That means doctors will be using two medical practice guidelines, distinguished not by knowledge but by the pocketbook, said Dr. Jack Klausen, a gynecologist and obstetrician who practices at Vista Community Clinic.

"If we are in a situation where we don't screen, but the private-practice doctor can screen, then we are actually not practicing to the standard of care," Klausen said.

In its announcement, the state said the cuts were needed because of a projected budget shortfall for the California Department of Public Health, and from declining revenue from tobacco taxes.

However, it did not say how much money it expected to save.

Calls to the department were not returned Friday.

The policy puts lives at risk, said Barbara Mannino, CEO of Vista Community Clinic.

"I bet you everybody knows a woman who was diagnosed in her 40s, and her life was saved by a mammogram, or lost because it was too late," Mannino said, just before leaving for her own mammogram.

And she said that little money would be saved, because all the equipment and staff to provide mammograms is already in place.

There is a difference of opinion in the medical community about when mammograms, an X-ray of the breast, should be used.

Mammograms sometimes give false alarms, with the incidence of false positives especially high for women in their 40s.

Estimates are that 10 percent to 15 percent of mammograms give false positives, experts say.

False negatives, in which the cancer is present but the mammogram seems normal, occurs 20 percent of the time, according to the National Cancer Institute.

However, false negatives become less frequent with age.

But the benefits in finding cancers when they are more easily treatable outweigh the drawbacks, Mannino and Klausen said.

And Scripps' breast cancer task force said that because 28 percent of women newly diagnosed with breast cancer are younger than 50, the number of lives saved outweighs the additional cost.

Klausen said the federal panel was trying to "create a best-practices (standard) from a monetary point of view," to provide the most health care for all, out of a limited budget.

Women who get false positives on mammograms not only undergo stress, but they must go through other tests, only to find out there's nothing wrong.

That adds costs to the system without providing any better health care, according to the federal panel's reasoning.

However, Klausen said the state has taken that reasoning too far, putting too much emphasis on saving money.

"What makes me really worried is that the California Department of Public Health wants to save money by taking away a cancer-detection program," Klausen said. "That discriminates against a gender, and also discriminates against an income level. And it also discriminates against how community clinics can practice medicine."

Mr. COBURN. In this bill, what we are debating are three terrible things for care but great things for cost: the U.S. Preventive Task Force on Prevention Services, the Medicare Advisory Commission, and the references to the Cost Comparative Effectiveness Panel.

When the U.S. Preventive Services Task Force came out with their recommendation, as far as costs—I am talking about breast cancer screening for 40- to 49-year-olds—as far as costs, they were absolutely right, as far as cost-effectiveness. But as far as clinical effectiveness, they were absolutely wrong. What did we do? We accepted a Vitter amendment to hold off, so that recommendation, that mandate from that panel will not apply to women in this country under these programs—except the women in California on Medicaid because, you see, this week California embraced the U.S. Preventive Services Task Force. So if you are a Medicaid patient—which we are going to put 15 million more people into—you cannot have a mammogram in California if you are under 50. You cannot have it because, from a cost standpoint, they are right. From a clinical standpoint, they are wrong.

What we have done is, every time one of these three organizations creates a ruling, that the American people rise up and say: That is wrong, we are going to come in here and correct it? But throughout this bill, strung throughout are multiple references to what these three panels are going to ration—I did not miss that word—ration the care to American people in this country.

If you are a senior, you have two real reasons to be worried. One is, we are cutting Medicare. And if we are not, then vote for the Gregg amendment and you will make sure we don't. It is an insurance policy. But more important, within that, we are going to see the care to seniors rationed based not on what is in their own best interests or their health's best interests but what is in the cost's best interests. There is no question about it. We are going to do that.

It would be different if we created a comparative effectiveness panel, a clinical comparative panel. But they are already out there. We knew that.

When I study to take my recertification exams, I have to know what the clinical comparative effectiveness guidelines are or I will not pass as a practicing physician. But we didn't do that. We said: Cost is most important. So how are we going to cut? We are

going to say where something is cost-effective though not clinically effective, we are going to cut that care.

So if you are a senior, especially if you are on Medicare Advantage, you don't have to just worry about the fact that we are going to decrease the revenue stream that will supply those benefits that cause you not to have to buy a supplemental policy, and we are going to decrease some of the things that are available to you as a Medicare Advantage patient, but you also have to worry about the next ruling that is going to come from the U.S. Preventative Health Services Task Force. You have to worry about what is going to come from the Medicare Payment Advisory Commission because it is going to be looking at costs too.

Then you have to worry about what is going to come from the cost comparative effectiveness panel. I could spend up to 8 hours talking about tragedies from England and Canada on care denied based on things Americans have today that that very panel is going to deny to Americans in the future because they are not cost-effective. That is one of the reasons our result in terms of cancer treatments is one-third better than anywhere else in the world. It is because we don't have mother nanny bureaucracy saying what you can and cannot have.

It would be totally different if we created incentives for lowering the cost, but we don't. We create mandates. We drive down the cost of health care in specific areas through these three separate panels.

There is one thing that is even worse than the two things I just talked about for Medicare patients. Here is what it is. When you have these three panels, you have just taken away the loyalty of your physician to you. You have just decided, with these three panels, that the physicians have to keep their eyes on the government. They have to do what the government says is in your best health interest rather than what that provider knows is in your best interest. Remember, the Medicare Payment Advisory Commission, the cost comparative effectiveness panel, and the Preventative Services Task Force doesn't know your family history, doesn't know your clinical history, has never done an exam on you, do not know the idiosyncrasies of your health care. But we are going to apply that all to you; we are going to depersonalize health care.

I readily admit, for 80 percent of the people, it is going to be just fine. They will not see any untoward result. But I will predict, as a practicing physician for over 25 years, for that remaining 20 percent it is going to be a disaster as far as their personal health is concerned. It will destroy the patient-doctor relationship. It will give us worse outcomes, and it will not save us any money because the consequences of

those decisions will create a complication which will require more dollars expended.

When we think the government can practice medicine—and that is what this bill does; this bill sets up the government to practice medicine—we might as well hang it up and just be ready because 20 percent are going to get substandard care compared to what a Medicare patient receives today. We are going to get sicker. The life expectancy of people under this health care bill will decline. The quality of care will decline. The innovation of new advancements in health care will decline because we have chosen the government to decide what everybody will get. It is a disaster as far as the individual patient is concerned.

That is not the motivation of my colleagues on the other side. I know that. I am not accusing them of that. But what they don't see, sitting in Washington, is what I see in a clinic office practice in medicine. Medicine is intensely personal. It ought to be about your choice, about what is best for you and your family and your children, not what the government says makes the best economic sense to the budget picture in Washington any particular year. When we lose that quality in American medicine, we are going to lose the best of what we have in the name of fixing what is wrong.

I agree with my colleagues the insurance industry has a lot of stink to it. But there are a lot of ways to fix it other than the way we have done. I agree with my colleagues that my profession is not pure at every turn of the corner. I agree with my colleagues we can do better. But when we write a bill that is absent any absolute clinical judgment left to the practice of medicine by those who know the patients best, who have 100 percent of that patient's best interests at heart, we are going to hurt the quality of care. We are going to hurt it significantly. Your motivations are good. The answers are wrong on a clinical basis.

Now to the Gregg amendment. The Gregg amendment does what you all say you want to do. I remind my colleagues the Medicare trustees are highly suspicious of the Medicare cuts in this bill. What they say is, they highly doubt it will ever happen because it has never happened before because there is not the political will to decrease the dollars in Medicare. More importantly, the dollars are going to come out of care instead of out of fraud. There is only \$2 billion, say, out of at least \$100 billion a year, in fraud. Only 2 percent of it per year is coming out. That is the problem. We could have had a Medicare bill and we could have cut \$60 or \$70 billion of fraud together out of this bill. We can come together on that. We could have cut \$720 billion out of Medicare just based on fraud alone without ever touching Medicare Advantage,

without ever giving sweetheart deals to the people in Florida because their Senator wanted it, without ever touching FMAP adjustments in other States.

We could have done that, but we chose not to. We chose what we know up here rather than what we know in the hinterland, those of us who are practicing medicine. What do we know? We know there are some rip-offs in home health care. We know there are significant rip-offs in durable medical equipment. We know there are some rip-offs in hospice. We know there are drug company rip-offs. We could agree to some of those. We actually even know in large hospitals that there are some problems there as well. But there are very few problems in our rural hospitals because they are struggling just to keep the doors open. We could have done that, but we chose not to. So we have this divide, and we are going to fix it one way. The biggest pot of honey in Medicare is fraud. Everybody knows that. But we are not going to fix it.

If, in fact, what my colleagues claim is true, that these are Medicare cuts that nobody will ever feel any consequence from, in spite of my own years of practice and knowing the difference, that that isn't true, but let's give you that, why would we not put it all back in Medicare so we don't steal from our children and our grandchildren? Why would we not do that? We have chosen not to do that. We have chosen to mix it. And it is honorable to try to create a system to get more people insured. Yet we will still have 24 million people not insured. Out of this bill, we will still have 24 million people not insured, when it is all said and done, if everything goes as planned.

Yesterday I introduced into the RECORD the analysis by the State insurance commission in the State of Oklahoma. Kim Holland is of your party, the majority party. But she sees what is getting ready to happen with this bill. What does she say? What she says is, insurance premiums are going to significantly rise in Oklahoma. More people will be uninsured than there are today. The State Medicaid fund is going to be tremendously stressed with at least \$67 million a year having to go into that, again, based on the mandates in this bill that we don't have money to do; that, in fact, it is not the way to solve what Oklahoma is facing in terms of health care.

I didn't call her and say: Give me something bad to say about this bill. She volunteered this information out of her legitimate concern for the consequences, of what is going to happen with this bill. Why would she do that? Because she knows one heck-of-a-lot more about insurance than I do and anybody else in this body. She knows it in our State. And the other insurance commissioners around here, some through their association, have en-

dorsed this bill. Most, when they look at their State, especially the poorer States, especially West Virginia, it is going to hurt.

How are we going to cover that? We are going to shift 15 million people to Medicaid. What do we know about Medicaid? I have delivered thousands of babies and over half of them have been Medicaid. I have cared for thousands of Medicaid children, thousands of Medicaid adults and thousands of Medicaid patients. What do we know? Medicaid is a substandard program. Compared to everybody else, it is substandard, except when compared to the Indian Health Service, and that is a disaster. So our answer is to put a mandate on the States that they cannot afford and shove another 15 million people into a system that has poorer outcomes, higher complication rates, higher infant mortality rates, later presentation, and a system that has 11 million people eligible for it today who are not signed up.

We have the system out there, but they are not signed up. So they are not getting any preventative care. They are not interacting with a primary care physician.

And that is our answer? Move 15 million more Americans into Medicaid. By the way, keep a discriminatory stamp on their forehead, rather than give them an insurance program; put a stamp on their forehead that says 40 percent of the doctors can't see you, 65 percent of the specialists will not see you because your reimbursement rate is so low they can't afford to have you walk into their office and cover the cost of seeing you. That is what we are going to do.

That is not reform to health care. That is banishing people to a substandard system as compared to what the rest of the system is and then feeling good about it. That is not reform. That is discrimination because here is what really happens to a Medicaid mom and her children.

If she has a sick kid, she can't get in. She has this 6-year-old with a fever, not eating, dehydrated, and she can't get in to see a primary care physician, which could keep that child out of the hospital. So what happens? She keeps trying to get in. What does she do? She accesses the emergency room, the most expensive place. She accesses it late—not early, late.

So we have a sicker child, with higher costs, because we have a system that will not reimburse its costs. And you all have actually talked about the cost shift on that, from Medicare and Medicaid, to the private sector. We would be much better off paying the same rates in Medicaid so we do not get that cost shift, so we do not discriminate against people on Medicaid for access to care. But we have chosen not to do that because it fits with the numbers. It fits with the Washington, govern-

ment-centered management of health care.

I will tell you as a physician, we would be better off—single-payer rationing and all—than what you are doing to so many of these patients in this bill. We would be better off with the government just running it all, rationing it, and saying: Tough, you get to 75 years of age, you can't get your hip fixed; you get cancer, we are not going to give you the latest drugs. We would be better off because now we are going to get the worst of both worlds. We are going to get the rationing through these three panels I talked about. They are going to tell doctors what they can and cannot do. They are going to practice medicine—the very people who have never touched, never had an encounter, never visited with that patient and do not know anything about them—they are going to make a decision.

Mr. President, I would inquire, I think I have 5 minutes.

THE PRESIDING OFFICER. The Senator is correct.

Mr. COBURN. What is the request of my ranking member?

Mr. ENZI. Senator SESSIONS?

Mr. SESSIONS. Mr. President, I will just respond by saying to Senator COBURN, I think he should use the remainder of the time, and then I will be able to work with the Democrats to get time.

Mr. COBURN. I think I will finish up in seconds.

Mr. SESSIONS. I say to the Senator, take the remainder of the time, if you would like it. I will get my opportunity in a few minutes.

Mr. COBURN. Every person in this country should be able to have access. I agree. Nobody should lose their home. Nobody should have to file for bankruptcy because of health care. I agree. That premise we agree on. How we get there is in two totally different ways.

The No. 1 impediment to access is cost. Costs are not going to go down. We know that by all the studies. The health care costs are not going to go down. They are not going to go down per individual and they are not going to go down in total. So we will not have fixed the big problem with health care, which is cost.

We will have worked on access through a government program, but we will not have fixed the real problems. What are the real problems? Fraud is at least 6 percent of the cost of health care. Tort extortion by the trial bar is at least 6 percent of the cost of health care when you count defensive medicine. There is 12 percent where you could lower it tomorrow—12 percent where you could lower the cost of health care tomorrow if, in fact, we would fix the real problems.

No. 3, transparency with insurance companies and transparency with doctors so you know what the cost is, you

know what the outcomes are, you know what their track record is, so you can truly make a decision about your care. There is no incentive for that, the incentivization for prevention and management of chronic disease.

I have said this on the floor before, but it bears repeating: The reason we have a primary care doctor shortage in this country today is because of Medicare. The Centers for Medicare & Medicaid Services sets the rates of reimbursement for primary care encounters in Medicare, and everybody else follows it. So you have a disruption, a differential of 300 percent from a family practice doctor and an obstetrician like me to a super-subspecialist. And what do you think the doctors in medical schools are doing? Last year, only 1 in 50 went into primary care. Only 1 in 50 went into primary care.

So let's say we get everybody covered. Who are they going to see? Oh, I know what the answer is. We are going to use physician extenders. So not only are we going to say you are covered, now we are not going to give you an experienced, gray-haired, reasoned, long-term educated physician with 25 or 30 years of experience; we are going to hand you off to somebody who is a nurse or a PA who is good at limited things but does not practice the art of medicine.

So I will wind up with this. I so want to fix health care. I am so sick of the way it is. But I am not near as sick of the way it is as the way it is getting ready to be under this bill. I know my patients are going to get hurt under this bill. My Medicaid patients are going to get hurt under this bill. My Medicare patients are going to get hurt under this bill. And those who are in between—whether it is with insurance with their employer or insurance they are buying on their own or they are paying cash—are going to pay more for their health care because of this bill. That is what I believe is going to be the outcome of this bill. And all you have to do is go look at the history. Talk to Alice Rivlin, the first CBO Director, about the accuracy of CBO in estimating anything when it comes to health care. They have missed it every way. They have only gotten one “wrong,” by saying it was going to cost more. For every other one, they said it was going to cost less than it did. So every patient—every patient—in some way or another is going to suffer under this bill. That is what we should be worried about. We should not worry about whether the President wins or we win.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. COBURN. I thank the Presiding Officer for the accommodation of the time, and I yield the floor.

The PRESIDING OFFICER. The Senator from Montana.

Mr. BAUCUS. Mr. President, how much time is remaining in this hour?

The PRESIDING OFFICER. Eight and a half minutes.

Mr. BAUCUS. Mr. President, I would like to yield 3 minutes to the Senator from Massachusetts. I have spoken with Senator SESSIONS. He is very kindly and very graciously agreeing that Senator SHAHEEN from New Hampshire will be able to speak next after Senator KERRY. So Senator KERRY for 3 minutes, and then the remaining 5½ minutes will be for Senator SHAHEEN.

I also unanimous consent that we be able to proceed until 3 o'clock under the usual form; that is, under the conditions of the last agreement.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAUCUS. Mr. President, I yield 3 minutes to the Senator from Massachusetts. It is also my understanding that the Republican leader may come down at some point after Senator SHAHEEN speaks and use leader time. That is my understanding—or after Senator KERRY speaks. Whenever he comes, he comes. Thank you.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KERRY. Mr. President, thank you very much, and I thank Senator BAUCUS for the time.

My friend from Oklahoma asked how many patients I take care of in terms of Medicare. I must say that is not the essential ingredient of being able to exercise common sense and to make some judgments about this issue. I could turn to him and ask, how many buses has he driven, but he votes on transportation policy; how many wars has he fought in, but he sends people to Afghanistan; how many courtrooms has he practiced in and tried a case in, but he is willing to limit attorney's fees. That is not the measure here. The measure is, what does the policy do?

Let me be very clear. The Medicare Advantage Program was put in place. It is a private plan that is run by the insurance companies. We put them in place, and they grew, in 2003, and gained the name “Medicare Advantage” because they were going to be run more efficiently and at lower cost. Originally, we were paying about 95 percent to the repayment, but that has angled up now to the point where MedPAC itself—not AARP. This is not AARP. This is MedPAC. Here is the MedPAC report. MedPAC says:

Currently, Medicare pays Medicare Advantage plans 14 percent more than it would spend for similar beneficiaries in [the Medicare program], pays a subsidy of \$3.26 for each dollar of enhanced benefits. . . .

So the Medicare folks are subsidizing additional payments to a program that is paying more than is regularly paid, and it goes straight to the insurance company. It does not make sense for tax dollars to be spent that way.

Finally, let me just say, the Senator referenced Massachusetts. Let me read a quote from the Massachusetts Tax-

payers Foundation. It is the most conservative—it is constantly protecting the expenditure of tax dollars. Everyone in the State looks to it on issues of tax policy, expenditures. Here is what it says about our plan in Massachusetts:

[T]he cost to taxpayers of achieving near universal coverage has been relatively modest and well within initial projections of how much the state would have to spend to implement reform, in part because many of the newly insured have enrolled in employer-sponsored plans at no public expense.

That is what happens.

The final comment I make to him: We are blessed to have five physicians in my immediate family—my daughter, my son-in-law, her father-in-law, and two nieces—and every single one of them would overwhelmingly disagree with the comments made by the Senator from Oklahoma. They hope we will pass this legislation, as do millions of other doctors.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mrs. SHAHEEN. Mr. President, for the past several months, my office has responded to thousands of letters and phone calls about health care. I have traveled all across New Hampshire talking to small business owners and families who are desperate for help. I have talked to health care providers that are frustrated with the current system. The underlying message is very clear: Health care reform cannot wait any longer.

My colleagues on the other side of the aisle continue to offer amendments that would take this bill off the floor of the Senate, arguing we need to go back to the beginning and start all over or, worse, do nothing at all. But, Mr. President, you and I both know we need to act and we need to act as soon as possible. We need to continue to move forward. We need to move forward on behalf of thousands in New Hampshire and millions across this country who need health care reform.

I have listened to these families, these individuals, and I want to take a few minutes this afternoon to share two of their stories.

Judith Pietroniro from Franconia, NH, was diagnosed with breast cancer in 2005 after her doctor found a lump during a routine mammogram. After undergoing multiple surgeries and radiation treatment, I am very pleased to report that Judith is now in her fourth year of being cancer free. However, at a time in her life when she should be celebrating her good health, Judith is facing a new challenge—finding affordable health insurance—because, you see, when Judith was in treatment, she was fortunate to be covered on her husband's insurance plan. They paid \$82 a week for a family plan. Unfortunately, her husband lost his job last year. But the family has been able to take advantage of COBRA. However,

when her COBRA option runs out, which is going to be at the end of this year, she will be unable to buy an insurance plan from her current carrier. That is because breast cancer is considered a preexisting condition until the patient is cancer free for 5 years under her plan. But the rub is, once she is cancer free for 5 years and able to qualify for insurance under her current plan, she will face a monthly premium of over \$2,000 for a plan that has a huge deductible. Health care for Judith will simply be out of reach.

Now, Mr. President, you and I both know cancer does not discriminate. This could happen to any of us.

I also recently heard from Colleen Connors, a woman who lives in my hometown of Madbury, NH. Like so many others, she has struggled with our ailing health care system. She was born with a hip condition, and she has suffered from several other medical problems, including lupus and scoliosis. As a result, she has also been denied coverage because of her preexisting conditions.

I heard my colleague from Oklahoma talking about the people who he said were being denied care in other health care systems. But let me read what Colleen, my neighbor in Madbury, says about her situation under our health care system. She writes:

It's very difficult to be in this position. As a part-time lecturer at a college, I'm not eligible to buy health insurance through the system.

She says:

I was born with a serious congenital hip deformity and have incurred some 30, mostly related, surgical procedures to make it possible for me to walk and function with relative normalcy. It has given—

She names her insurer; I will not report that—

all the reason, it seems, to legally deny me the coverage I so desperately need. All other venues I have attempted to engage to secure affordable, sustainable, and efficacious coverage have similarly been denied me. I cannot tell you how hurtful this has been. The trickle down economics of my currently uninsured state has had a terrible impact on my daughter also, who just earlier today asked me, "Mom, how long ago is it since your last mammogram?" I told her, "Five years, I think," to which she replied, "Well, I've already lost one parent. I don't want to lose two."

What is happening to people in New Hampshire and throughout this country is devastating to people like Colleen and Judith. But despite Colleen's struggles and the difficulties life has placed in her path, she has remained optimistic and hopeful that things will get better. I, too, am optimistic. I am optimistic we can pass comprehensive health reform that changes the way the insurance market works so my neighbors Colleen and Judith from New Hampshire and Americans in communities all across this country no longer face this discrimination.

The reality is we can't always control whether we get sick, and when we are at our most vulnerable moments, we shouldn't have to worry about whether we are going to be kicked off our insurance or whether our coverage is going to run out. Health care reform will offer this peace of mind to millions of Americans. Health care reform will touch the lives of all Americans.

We have the opportunity to improve our health care system for everyone in New Hampshire and across the country, and we must act now on this opportunity and pass meaningful, comprehensive health care reform.

I thank the Chair.

Mr. ENZI. Mr. President, I yield up to 20 minutes to the Senator from Alabama.

The PRESIDING OFFICER (Mr. FRANKEN). The Senator from Alabama is recognized.

Mr. SESSIONS. Mr. President, I appreciate the comments that have been made about preexisting illnesses, and I do think we can do something with this legislation to fix that. We just have to be careful. If you have two people both making the same salary, they have both worked for 20 years, one individual saved and paid his health care insurance for those 20 years and got sick and is covered by it, and another one chose not to, it is not insurance if a person then walks in and wants somebody else to pay for it. But we can do that. I think we can work through those difficulties, and I would definitely support moving in that direction.

My colleagues earlier mentioned about Medicare Advantage, that this is a program some are critical of, and they think we can deliver health care better without the Medicare Advantage part of the Medicare Program. I would say Medicare Advantage can and probably should be reformed, but we shouldn't address the problems in Medicare Advantage by directly cutting its seniors' benefits.

With regard to the physicians, in my hometown of Mobile, the medical association ran a poll of their members and 94 percent of them opposed a government option which is in this bill, a part of this legislation. They opposed the bill in general in large numbers. A similar poll in Montgomery, AL, showed the same thing.

What I wish to talk about today is the Gregg amendment. The purpose of his amendment is to prevent Medicare from being raided for new entitlements and to use those Medicare savings, any that we can achieve, to save Medicare. I note for the record Senator GREGG, the former chairman of our Budget Committee and the ranking member on the Budget Committee today, is probably the most knowledgeable person in the Senate—not probably, I am pretty certain he is the most knowledgeable person in the Senate on the financial

instability of Medicare. He has worked hard over the years to try to identify some way to fix it. A number of years ago he proposed an amendment, an idea that would have saved, over 5 years, \$10 billion through cost effectiveness and smart actions within Medicare, and that \$10 billion would have enabled the Medicare Program to extend its life. Because all the actuaries tell us—and there is no dispute about this—that by 2017 Medicare will be in default. Less money will be coming in than going out. So Senator GREGG saw that coming and he attempted to fix it. He was attacked by my colleagues on the other side for this \$10 billion efficiency idea that would have strengthened Medicare, not spent it on something else, but he would spend it to strengthen Medicare. I do not think a single Member of the Democratic Party voted for it and several Republicans didn't. It was a tie vote. The Vice President had to break the vote.

The idea now that we are going to find \$465 billion in Medicare savings without damaging the care and take that money not to strengthen Medicare and put it on a self-sustaining basis, as we should be trying to do, but to take it and create an entirely new entitlement program, is something I cannot support. Actually, I understand my colleagues in their speeches say they don't support it. They say they don't. They voted for the Bennet amendment which sort of seemed to say that. But we knew, those of us who read it carefully, that the amendment of the Senator from Colorado wouldn't do anything. Even the New York Times which supports this bill said it was a meaningless amendment.

So let's talk about where we are. The Gregg amendment, unlike the Bennet amendment, means what it says. This is a serious vote. It simply says if you take money from Medicare, it ought to be used to strengthen Medicare, not to create a new program with it. It is pretty clear about it. It has teeth. It means what it says. It is not a joke. It is not a flimflam. It is a serious amendment. So we will now be, I think, ascertaining how people in this body actually believe with reference to Medicare and whether we ought to be taking money from it.

The amendment says if non-Medicare savings—which are very few, if you want to know the truth—if the non-Medicare savings in this proposal do not offset the new cost of this new bill, the Secretary of the Treasury and the Secretary of HHS are prohibited from implementing new spending or revenue reduction provisions in the bill. The reality is there are not going to be any—or very few say non-Medicare savings. That is where the savings are, frankly.

The amendment prevents Medicare cuts from being used to create new and expanded entitlement programs and to fuel massive government growth on the

backs of Medicare beneficiaries. I recall for my colleagues that people who pay into Medicare have paid into it all their lives and they are now at a point in their life where they are drawing from it. The social contract we had with them was that they would pay into this program, and when they got to be 65, they would get the benefits from it. They didn't get the benefits of it when they were 30. They didn't get the benefits when they were 40. They didn't get the benefits when they were 50, yet they were paying in all these years, and now when the time comes to benefit from it, we have a massive plan to raid that program that clearly is the most unstable, actuarially unsound program we have in our country. It is heading into default. When it goes into default, it is not going to gradually go beyond the break-even line; it is going to drop below it dramatically. It accelerates. One study from the Heritage Foundation, I believe, said as much as \$80 trillion over the lifetime of instability in this program. So I don't think anybody disputes the numbers and the problems that Medicare faces.

The bill says we are going to have a budget-neutral piece of legislation here, and don't worry, it is not going to add to the debt. In fact, we are told by the President that not one dime will be added to the debt. We have Members of this body who say the bill on the floor will create a \$130 billion surplus over 10 years. Well, that would be good if it were true. How do you do that? Well, there are a number of things, but one of them is you have a \$494 billion tax increase, and an \$848 billion fund achieved largely from Medicare. That is where the \$465 billion comes from: Medicare. But the truth is that is not an accurate number, because the tax increases start immediately and the benefits don't start until 2014, 5 years down the road, the fifth year. When you add that up and you take the first 10 years of the real implementation of the legislation that is on the floor, it is going to cost \$2.5 trillion. That is a big amount of money.

Also, it does not fix the doctors payments that everybody assumed and thought and we were told would be part of health care reform. That is not done. Why is it not done? Because the bill wouldn't balance. You wouldn't be able to tell the American people that it brings in revenue when it doesn't. That is \$250 billion to fix an essential payment to our doctors that we cannot cut. We need to put that on a sound financial basis. It should be a part of this reform. But since they couldn't—they figured they had raised enough taxes and they couldn't claim to cut anymore from Medicare, they put it out here on the side somewhere and we will do as has been done in the past, unfortunately: Pay the doctors their payments by increasing the debt. Every penny of the money that goes to

make up the shortfall in doctor payments increases the debt and it is going to continue and it should end.

The bill is not balanced in any fair analysis. It is a shell game. It moves the \$250 billion shortfall for doctors out of the bill. They say we don't have a problem, our bill balances. But there is a \$250 billion hole sitting over here; we just moved it across the room here. That is not good and sound policy.

The Gregg amendment prohibits the using of the \$465 billion in Medicare cuts to pay for the new government spending in this legislation. It would keep the Medicare expansions—Medicaid expansions from going into effect without—by having or saving cuts in Medicare or Social Security. Unlike the Bennet amendment, which had no meaning whatsoever, it has some teeth to it. So we will know something significant about how people feel about Medicare and the financial responsibility when this vote comes up.

Senator BENNET has said:

With my amendment, the bill strengthens Medicare and preserves seniors' benefits.

Well, I think that is not an accurate statement. Once and for all, with this amendment, we will be able to show American seniors who have paid into their health care—Medicare—all their lives, that we mean it when we say we don't want to weaken their program.

One asks, how can you have such a disagreement, Senator SESSIONS? Look, you might ask me, they say the money is there; you say you are cutting Medicare; they say it is not cutting Medicare, \$465 billion. Somebody ought to be able to get it straight here. How can you possibly have this kind of disagreement? I say to you the general fund budget for the State of Alabama—we are about one-fiftieth of the Nation's population, 4 million people, it is about \$2 billion. So how can we lose \$465 billion? Well, this is what they are saying. If you listen to much of the comments carefully, they are saying: We are not cutting guaranteed benefits to seniors. They are not saying they are cutting Medicare, if you listen to most of the people who are careful about what they say. They say, We are not cutting guaranteed benefits.

I see. What are we doing?

We are cutting home health care agencies; we are cutting hospice programs; we are cutting hospitals; we are cutting the disproportionate share hospitals for poor people; we are cutting program after program after program. So they are cutting the providers and telling everybody we are not cutting Medicare. But if we are going to cut providers, why haven't we already done it and put Medicare on a sound footing? You can't cut providers this much. You cannot do so. They will collapse. Doctors already are refusing to take Medicare patients and they are worried about that. I think in the future, if we go through with this legislation, we

will see far more will quit seeing those patients.

Well, the Gregg amendment makes sure Medicare savings go to making the program more solvent and not to offset the creation of an entirely new entitlement program. There are many things we can do in this legislation to improve health care in America. I know many on our side have offered many things, some of which are in the bill, many of which are not, but we can do a lot of things together that we could agree on that would strengthen and make health care better in this country.

This legislation is unsound. We will be raiding Medicare. We will have a massive, new tax increase. If we were going to raise taxes, let me ask, might that money be best spent to make Medicare solvent instead of creating a new program, when we know Medicare is going to be insolvent in just a few years? We will be raising taxes and creating bogus, phantom cuts in Medicare, and they claim that will make this bill balance. They are adjusting the numbers in the bill so the benefits don't start for 5 years, to make the first 10 years look like it is a sound program—looks like it is going to cost \$848 billion for the first full 10 years of implementation, and it costs \$2.5 trillion.

There is not nearly enough money to pay for that. We are just going to be increasing the debt. That is why the American people have noticed. They have been out there at tea parties and meetings and rallies, pleading with us to be responsible, to quit throwing away money, quit acting like there can be something for nothing. There can't be something for nothing. Somebody has to provide care if we say care will be provided. If they provide it, it has to be paid for. That is simple.

We are creating a mindset that has resulted in a budget from the President that will double the entire national debt in 5 years and triple the national debt in 10 years. The national debt—\$5.7 trillion last year—will go to \$11 trillion-plus in 5 years and \$17 trillion in 10 years. That is unacceptable. It is irresponsible. We need to listen to our constituents and respond to their commonsense pleas that we act with more responsibility in the Senate. I thank the Chair.

The PRESIDING OFFICER. The Senator from Arkansas is recognized.

Mr. PRYOR. Mr. President, I am here to speak on my amendment, which is a simple and straightforward amendment to create an enrollee satisfaction survey for the qualified health plans offered through the exchange established in the Senate health care reform bill. Let me show you how this will work. This is taken from the Federal Employees Health Benefits Program Web page that is administered by the Office of Personnel Management, OPM. They lay out on the Web page how the survey works.

The first question is:

How would you rate your overall experience with your health plan?

Other questions are:

When you needed care right away, how often did you get care as soon as you thought you needed it?

How often did your personal doctor listen carefully to you, show respect for what you had to say, and spend enough time with you?

This is all collected and put into a form and used when people make health care decisions on what plan to choose. One of the real measures of the quality of a health care plan is how satisfied people are with that plan. It is a little bit hard to measure. We send out these surveys to Federal employees. They come back and the information is available to the public. People can click on this and know, when they are about to sign up for a plan, how the plan rates in satisfaction.

This is not a new idea. It has been around for a long time. It helps people make good health care decisions. It allows them to compare one company to another. It allows them to look at what the people who have that health care plan right now, how they perceive the performance of the plan. It is a win-win for the whole system.

The idea is to make this part of the new law, and if you are on the exchange, you would have access to filling out one of these surveys; but, more importantly, you would also have access to reading the surveys and knowing, when you are making your health care choice, how your company rates. Here are a few examples.

Again, this is from the Web page right now under the Federal health care plan. The first question was about overall plan satisfaction. The FEHBP national average is 80 percent. People are 80 percent satisfied with that. There is one insurance company that only has 54.5 percent. Another one has 88.7 percent. So you can understand the range. Again, that is not to say nobody is happy with that one at 54.5 percent, but it allows the people who are purchasing the health care to make an informed decision before they enter into a contract with the company.

One of these categories is "getting care quickly." The average is 91.6 percent. It is not a big spread, but one company is at 88 percent, a little below average. The highest company is at 93.5 percent, a little above average. That is not a very big spread, but if getting care quickly is your most important thing, you may want to go to the one where the people who use that insurance company right now say you get care the quickest.

Another issue is the claims processing. That is one of the questions here: How does a company do in processing your claims? In our office, we have hundreds of complaints from people around Arkansas who have had problems with insurance companies

processing their claims. Again, the average here is 92 percent. That is what the FEHBP average is. There is a company that has a 77-percent rating as a result of the survey. There, again, that is not saying people would not choose that company; they may choose it for other reasons. But if the claims processing part of their business is important, they may not choose that company, or at least they know what they are getting into. The highest one I saw in the claims processing was 96.8 percent.

You understand this is something that already exists, something I cannot imagine anybody having a problem with because it puts the tool in the hands of the people making decisions on the health care provider that they are going to choose. It puts the tool in their hands, before they choose them, to know what they are getting into.

Lastly, basically, this doesn't cost any money—and if it does, it is just a tiny amount. This is a very consumer-friendly tool. It simplifies the process for people. It takes a lot of anxiety out of the process for people. It is also a very good commonsense, grassroots way to hold insurance companies accountable. If they don't do well in these customer surveys, chances are they will not get a lot of business in the coming year. It puts a quality control there—a satisfaction-based quality control there. I think it is a great tool for keeping people happy. I can guarantee you that, when they look at the survey from this company that only had 55 percent respond in a positive way, they are going to talk to their folks and say: We have to get that number up. What is going on in this company?

Again, this is something people talk about. I have heard many people in Arkansas and around the country say they want the same deal we have in Congress. This isn't all the same deal, but this is part of it. What we are able to do is, when we make health care choices, we are able to have this knowledge before we make a decision. Accountability and performance go hand in hand. This is a great example of how we can do that and have a very inexpensive way and a way that is meaningful to the people making the decision. This is there at the point of decision.

I ask that all my colleagues join in this amendment. We will vote on this, I understand, around 4 o'clock.

With that, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. PRYOR. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. PRYOR. Mr. President, I ask unanimous consent that the time during the quorum call be charged equally between the two sides.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. PRYOR. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. ENZI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ENZI. Mr. President, I allocate the balance of our time to the Senator from Tennessee.

The PRESIDING OFFICER. The Senator from Tennessee is recognized.

Mr. DURBIN. Mr. President, before the Senator speaks, I ask unanimous consent to follow the Senator from Tennessee.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CORKER. Mr. President, how much time is there on the minority side?

The PRESIDING OFFICER. There is 12 minutes.

Mr. CORKER. Mr. President, I may not take 12 minutes, I tell the Senator from Illinois so he may plan his time.

I am here to speak regarding the Gregg amendment. This health care debate, in many ways, has been going on the better part of this entire year. There are obviously differences in this body over philosophical issues and how health care needs to be delivered.

One of the things I hope has come across is that all of us would like to see health care reform. I campaigned on health care reform. I used to be commissioner of finance for the State of Tennessee. In that particular role, I oversaw the Medicaid Program, which is called TennCare. I saw, firsthand, the tremendous plight of people not having appropriate health care and what they deal with on a daily basis. When I ran for the Senate—and I have been here 3 years now—I ran on the whole notion of health care reform.

I have put forth numerous ideas during my first Congress, authored with others bills that I feel would have delivered health care in an appropriate way to citizens across this country. The other part of the debate, though, is not just philosophically how that is done—and we have had a lot of give and take on that—but it has been the issue of paying for something such as this.

Early on, I sat down with the chairman of the Finance Committee. I have met ad nauseam with people on both sides regarding health care insurance and sent to the majority leader of the Senate a letter, signed by 36 Senators, to this effect: We all want to see health care reform.

But we also want to ensure that the entitlements that are in place, and in particular in this case Medicare, are on a sound footing. We want to make sure those commitments we have made to seniors and future seniors will remain in place. And we want to make sure our country's fiscal condition is on solid footing.

I could go into discussions about how we are perceived around the world as relates to our financial situation. I could talk about the value of the dollar. But I am going to speak about the one issue the Gregg amendment addresses, and that is keeping integrity in the Medicare Program.

I believe the Senator from Illinois, who is going to speak in a moment, and myself would be much closer in this debate had we not begun with a fundamental building block of this bill using \$464 billion in Medicare "savings," to leverage an entirely new entitlement. For me that was an absolute non-starter. I know for Senator ENZI from Wyoming it was an absolute non-starter.

We have a number of differences, but the fact that we would raid a program we all know is insolvent, that has \$38.6 trillion of unfunded liabilities, that we know is going to end up creating havoc for our country if we do not deal with it, the fact that we would take savings from that program, which is insolvent, and use it to leverage a new entitlement, in my State and I think most States around the country, does not pass the commonsense test.

People have lined up on both sides. My friends on the left certainly see this possibility, and certainly I am in no way implying any agenda issue, but this has become a political issue. The President obviously was over here yesterday advocating that everybody stick together and pass this bill. This one amendment we are getting ready to vote on this afternoon to me defines much of this debate; that is, are we truly as a country going to take \$464 billion in savings from an insolvent program that everyone knows is insolvent and use that to leverage a new entitlement, that even when it begins is insolvent also? If you look at 10-year costs versus 10-year revenue, we know that over time, this new entitlement that might be created by this bill is also going to have tremendous fiscal implications to our country.

One of the most offensive pieces of this legislation is not only will we be taking this \$464 billion—and I realize the Senator from Illinois mentioned yesterday on the floor the fact that some of the things that are in this bill will lengthen the life of Medicare. I understand how the math works on that. I do. I understand that. But I think the fact that we would take, again, savings from a program that is an entitlement that people count on, that seniors count on and that future generations—

these young people sitting before us on the steps, these wonderful people who have come here to help us—are going to ultimately be stuck paying for, taking that money to create a new entitlement, to me, does not make sense.

The offensive part I was going to allude to is not even dealing with the SGR, the doc fix. This pays for the doc fix, or SGR, for 1 year. For those who are listening and don't know what that means, it means that physicians who deal with Medicare recipients for 1 year will not receive a 21-percent cut in reimbursements. But the very next year, there is going to be a 23-percent cut to physicians who serve Medicare recipients.

This bill, instead of taking those savings and dealing with that—and over a 10-year period that would cost \$250 billion, I might add—instead of dealing with that, we are going to throw that off to the side and use the \$464 billion to create a new entitlement. I do not know how anyone in this body can talk to their constituents or talk to any of us with a straight face and say that is a sensible thing to do.

All of us know we have huge deficits, and even though we disagree about much of that, the stimulus, and other issues that are happening, the thing that we agree on is our country has some long-term issues that need to be dealt with. It seems to me we would show people around this world who loan us money and certainly show our citizens back home that we have the courage to deal with those entitlements.

I am hoping we are going to have an opportunity to vote on a task force, a commission that will have a binding ability to cause us to deal with Medicare and Social Security in a defined amount of time very soon. But it seems to me the first huge step for all of us is to vote for the Gregg amendment today.

I realize that if the Gregg amendment is adopted, the construct under which this entire health care reform bill is based would dissipate. I realize that. I realize we are creating a health care bill from something that is insolvent, taking money from it to create something that, again, will be insolvent.

What I say to my friends on the left is I stand ready to talk about solutions. I have proposed solutions. I don't know how anybody in this body can with a straight face say we are being responsible as it relates to Medicare as an entitlement if, in fact, Members of this body do not support the Gregg amendment which would keep this savings from being used for a new entitlement and instead would lock it away in a manner to make Medicare more solvent for generations to come.

I thank my colleagues for the time. I do believe it is the initial building blocks, the fundamentals of this bill

that have kept us apart. I realize there are some emotional issues that separate Members of this body, and my guess is that Senator REID, in his managers' amendment, in working with Senator DURBIN and others, will figure out a way to resolve this issue. I know there is the issue of the public option. My guess is that will be figured out in some form or fashion on the other side of the aisle. There are other issues that I know are emotional that divide us. But the fundamental building blocks of this bill are flawed. They are flawed. It is this very issue, plus a couple of others, that has kept this body from being able to work together and has made this debate a very partisan debate. I regret that.

I hope my friends on the other side of the aisle will over the next few days realize this is not something of common sense, this is not sensible. I hope they will reconvene and I hope that we together can focus on something that will stand the test of time instead of kicking the can down the road, knowing full well this is incredibly irresponsible.

My guess is—and I would love to hear the Senator from Illinois dispute this—if this bill were to pass in its present form, that within a week or two, the majority will take up the issue of paying for the doc fix or not paying for it, but actually passing legislation to basically throw debt on these young men and women sitting in front of us.

My guess is if this bill passes, the majority party will say: Oh, we have to deal with the doc fix; we have to deal with SGR. By the way, that is a \$250 billion tab. My guess is the majority party is going to bring legislation forward in the next 2 or 3 weeks to deal with that—or maybe not in the next 2 or 3 weeks. I guess since we have a 1-year—within the next year the majority party will bring something forth to deal with this issue and point back to this moment of disingenuous activity on this floor. I hope that is not the case.

I thank all involved. I know this has been a very vigorous debate which I hope will carry on until we get it right. But I am very disappointed that the fundamental building blocks of this bill have separated us. I hope this body will stop what it is doing in regard to Medicare, come together, and do something that stands the test of time.

I realize my time is about up. I do not want to cause the Presiding Officer to tell me that.

I yield the floor.

**THE PRESIDING OFFICER.** The Senator from Illinois.

**MR. DURBIN.** How much time is remaining on the Democratic side?

**THE PRESIDING OFFICER.** Nineteen minutes.

**MR. DURBIN.** Mr. President, I thank the Senator from Tennessee. Although we disagree on this issue, I respect him

very much. I am hoping—maybe it is a false hope—before the end of the day, he will join us and make this a truly bipartisan effort. We have tried, we have reached out to the other side of the aisle for almost one calendar year with lengthy hearings in the HELP Committee, in the Finance Committee, inviting Republican Senators to come join us.

There were times when there was kind of a tease that was going on where they would come in and offer amendments and the amendments would be adopted in the HELP Committee. I think over 100 Republican amendments were adopted. We felt they were coming our way, that we were going to have a bipartisan bill. Then the roll was called and not a single Republican Senator would vote for it.

As I stand here today, after 1 year of effort, despite three committees in the House going through markup, two committees in the Senate, despite the vote on the Senate floor, the official tally is this: Only two Republicans have voted for health care reform. One Congressman from New Orleans, LA, a Republican Congressman, voted for the House bill. One Republican Senator, Senator SNOWE of Maine, voted for the Finance Committee bill to be brought from the committee. We have made a good-faith effort. We will continue to.

I salute the Senator from Wyoming who is on the floor who is the ranking member of the HELP Committee. I know he spent long, arduous allocations of time meeting and trying to find a bipartisan solution without success. But thank you for trying.

I say to the Senator from Tennessee, we would like to have your support. We would like to have your help in passing this bill and truly making it bipartisan. That is our goal, and I hope it happens.

The Senator from Tennessee questioned the fundamental building blocks of this bill. I cannot resist the opportunity to say I think this is a good bill, and I believe the effort that went into it by Senator DODD, who has now joined us, and the HELP Committee and Senator BAUCUS and the Finance Committee gives us a bill that has many positive things.

This is our bill, 2,074 pages. It is the Democratic reform bill. You will see the desks on the other side of the aisle are empty because they do not have a bill. The Republicans have not produced a health care reform bill. In 1 year of speeches and press releases and charts and appearances on television talking about health care reform, they have not produced a comprehensive health care reform bill. I know why. It is hard. It is very difficult to tackle one-sixth of our economy. We did it, and it took a lot of effort, as I mentioned earlier.

Second, there are some in the Senate—not on this side of the aisle—some

in the Senate who do not believe we need to change. Some accept the current system. I think if they accept it, then they have to answer a few fundamental questions about the building blocks of this amendment. If the Republican Senators who oppose our bill accept the current system, what do they have to say about the affordability of health care premiums?

We know what has happened. Health care premiums have risen dramatically. Ten years ago, a health insurance plan for a family of four was \$6,000 on average. Today it is \$12,000. We project in 8 years it will be \$24,000. If we do not stop this, fewer and fewer Americans will have health insurance, and what they have may not be any good.

We have in this bill efforts to reduce the increase in costs in health insurance premiums. Don't take my word for it. The Congressional Budget Office, which is the official umpire, has said, yes, the vast majority of Americans will see their health insurance premiums either go down in cost or not go up as they would have. So we address, No. 1, the affordability of health care for businesses and families across America. There is no Republican bill that does this.

Secondly, the provisions in this bill will extend protection of health insurance so that 94 percent of Americans will have the peace of mind of knowing they have health insurance. Thirty million more Americans uninsured today will have health insurance. Of the lowest income categories, some will qualify for Medicaid, the government program for the poor and disabled, and in other instances some will qualify for the health insurance program, but they will have protection—30 million more Americans. There is no Republican bill or amendment that extends coverage of health insurance to 30 million more Americans. There is none.

There is a third issue, too. We have built into the front end of this bill what we call the health care bill of rights. It is about time somebody stood up for families and individuals across America who have been treated very poorly by health insurance companies. These extremely profitable companies make a lot of money by saying no—saying no to your doctor's recommendation for surgery, saying no to your doctor's recommendation for the appropriate medication. They have people who just say no. But here is what our bill does. Our bill says that in America you will have the right to buy insurance if you have a preexisting condition.

What that basically means is the No. 1 reason that health insurance companies deny coverage today is going to come to an end. We are creating new risk pools where preexisting conditions cannot exclude you. I know everyone is

concerned about that critical moment in time when there is a frightening diagnosis or a terrible accident that they will turn to their health insurance they have paid into for a lifetime and the company will say: No. We checked your application and you failed to disclose something about your past medical history—such as acne. Incidentally, that was one of the reasons used to refuse coverage. So the first thing we do is make sure that Americans have the right to buy insurance and won't be excluded for preexisting conditions.

We also make sure you will be able to keep your insurance if you become sick or injured. Too many times when you get sick, your insurance fails you. Two out of three people filing for bankruptcy in America today file because of medical bills they can't pay—two out of three. And 74 percent of them had health insurance. They thought they had protection—they paid the premiums—but when they needed it, it wasn't there. So the No. 2 element in our health care bill of rights in this bill is that you can keep your insurance if you become sick or injured, that your insurance won't face lifetime limits on coverage, and that you will have affordable insurance if you lose or change your job. That is a large portion of the uninsured people in America.

Here is one that parents will appreciate. Remember when you first learned when your family policy wouldn't cover your son or daughter, right as they were coming out of college? And you thought: Uh-oh, they are loaded with student debt, they are looking for a job, and now they don't have health insurance. I can't tell you how many times I called my daughter and said: Jennifer, have you got health insurance yet? Oh, yeah, dad, I will get to that soon. I didn't like to hear that. Parents don't like to hear that. Well, we extend them from age 24, and we say they can stay on their parents' insurance policy until they are 27. That is an addition of several years of protection—peace of mind—while a young person goes about finding a job, starting a career, and starting a family.

We also provide preventive care without extra cost, and we also begin to eliminate the discrimination in health insurance premiums. Health insurance companies—insurance companies in general and health insurance companies—are the only business, save American baseball, that is exempt from antitrust laws, which means they can literally come together—the executives of the insurance companies—and decide how much to charge in premiums for women, the elderly, people who are members of a minority group, and they can make those distinctions and do it legally. We put an end to that. We say you have a right to fair insurance premiums without discrimination based

on gender, health history, family history, or occupation.

There has not been a single Republican bill offered that offers this patients bill of rights to make sure we have this kind of protection when it comes to health insurance. It is one of the fundamental building blocks when it comes to health care reform in America.

The Senator from Tennessee and others have raised the question about deficits and have said: Well, isn't this bill, for all that it seeks to do, going to add more expense to our deficit? That was a legitimate question, asked by President Obama when he told us: If you want to do health care reform, don't do it at the expense of adding to our debt as a nation.

When we passed the prescription drug bill under Medicare—when there was a different party in charge in the Senate and in the White House—they added \$400 billion to the deficit and didn't blink—\$400 billion in debt added to America with impunity. It meant more subsidies for pharmaceutical companies—which do quite well—and more subsidies for health insurance companies—which are very profitable—at the expense of our deficit.

Now when it comes to this bill, that same party has returned to its role as the deficit hawk. Well, they should look very carefully at this bill, because the Congressional Budget Office tells us this legislation will reduce the deficit of the United States by \$130 billion over the next 10 years, and in the following 10 years there will be \$650 billion in reduced deficit. That is almost \$1 trillion in deficit savings over 20 years.

There is no bill that has ever been introduced that makes this kind of deficit savings, according to the Congressional Budget Office. And unfortunately for their argument, there is not a single bill before us on the Republican side of the aisle which would even come close to reducing the deficit in that regard. In fact, all the major amendments that have been offered so far on the Republican side of the aisle add to our deficit. They want to continue the subsidy for private health insurance companies under a program called Medicare Advantage.

The Senator from Connecticut has said repeatedly—and I hope he will say again soon—that Medicare Advantage is neither Medicare nor an advantage. It is a subsidy from taxpayers to profitable health insurance companies, which the Republican side of the aisle has labored day after day to protect—a private subsidy to health insurance companies. The health insurance companies can't stand this bill because it upsets their apple cart and maybe their profit and loss statement, and they can't stand the thought of having Medicare Advantage policies held to accountability or losing the subsidy

they currently have. But we believe that if we are honest with Medicare and its future, we have to do that.

I want to address one issue that comes up every time my colleagues on the other side of the aisle stand to speak, and it is the issue of the future of Medicare. They fail to recall that Senator CORKER, from Tennessee, Senator DODD, myself, and the Presiding Officer all voted in favor of the amendment offered by Senator MICHAEL BENNET of Colorado. The amendment that he offered—which is the most bipartisan amendment we have had on this otherwise partisan bill—said nothing we do here in this bill will in any way reduce or endanger guaranteed benefits under Medicare, No. 1. And, No. 2, any savings that we get from this bill under the Medicare Program have to go back into putting Medicare on solid financial footing, to extend the benefits available to seniors, and to reduce the cost to seniors.

We all voted for that. It is now a part of the law we want to pass. So to come to the floor and argue the opposite is to ignore their own votes on the issue. Senator BENNET of Colorado has passed a watershed amendment that every senior and the families of seniors should respect as important to their future. So although you may disagree with the fundamental building blocks of this amendment, I think they are sound, I think they are responsible from a fiscal viewpoint, and they are responsible when it comes to the future of Medicare.

Mr. DODD. Will my colleague yield?

Mr. DURBIN. Mr. President, I will be happy to yield, and I will be glad to yield the floor, if the Senator from Connecticut wants to speak.

Mr. DODD. No, no, but I certainly like these moments where we engage a little bit.

Mr. DURBIN. It is perilously close to debate here in the Senate.

Mr. DODD. Be careful about that. The last thing you want to have is a debate here. We used to have them. It doesn't happen often enough these days.

A couple of points you made can't be reinforced enough. One of the great worries, obviously, is the cost issue. I think everyone agrees this is the great nightmare we have, the growing problem of cost—the premium costs. Again, we either love or hate CBO depending on what numbers they come back to us with. I have been on both sides of those emotions when dealing with CBO, but we have come to recognize and accept the fact—I think collectively here—that we rely on them. This is not Mount Olympus, not to say they are 100 percent right on every occasion. But I was going over the numbers, and I wondered if my colleague from Illinois—I know he is aware of these, but I may be wrong on some of this.

If you take the individual market in the country, there are 32 million people

under CBO's analysis that are in the individual market. They would pay, according to CBO, 14 to 20 percent less in premiums of an equivalent plan than under the status quo. In the small group market, there are 25 million people, according to CBO, who fall into the small business market—the small group market, and the ones who are eligible for tax credits would pay 8 to 11 percent less in premiums than for an equivalent plan under the status quo. If you work for small business and don't qualify for the tax credit, your premiums would be about 2 or 3 percent lower. So you go from 8 to 11 percent to 2 or 3. And, lastly, where most people are—where five out of every six people work, in the large group market—people who work for large employers—roughly 134 million people, according to CBO—would see lower premiums up to 3 percent than what they pay under the status quo.

That, to me, goes to the heart of this. Obviously, getting down and reducing our budget deficit by \$130 billion, \$150 billion the second decade, is terribly important. But if I am sitting out there as a consumer and I want to know one thing more than anything else—how is this going to affect me; am I going to be paying more or less—as the Senator points out, we are now looking at the year 2000 in Connecticut where a family of four paid between \$6,000 and \$7,000 for health care and they are now paying \$12,000, the same family, and in the next 7 years they will go to 24,000, and some predict within 10 years going to 35,000. Those are staggering increases.

Compare that, if you will, with what we are being told, even if these numbers are off a little bit, and they may well be one way or the other. But assume for the sake of debate they are not off quite that much; they may almost be flat, the cost; not actually a reduction in premiums. I can't understand why people wouldn't embrace this in a wholehearted fashion and say this is a great achievement. No one has been able to improve these numbers.

Am I wrong about some of these numbers, or are those your calculations as well?

Mr. DURBIN. As a matter of fact, the Senator from Connecticut, I would say through the Chair, is quoting a study from the Congressional Budget Office requested by Senator BAYH of Indiana, who asked the straight-up question of the Congressional Budget Office: If this is passed and becomes law, what will happen to premiums to people across America? As the Senator from Connecticut correctly reports, the premiums are either going to stay the same or go down for the vast majority of people; otherwise, they are going up dramatically.

There is one other element, which I know the Senator is aware of. If you happen to be one of those callous, stypic-hearted individuals who could care

less about people who are uninsured, believing the poor will always be with us, you ought to stop and reflect upon the fact that many of the poor people with no health insurance receive medical care through charity, compassionate care from hospitals and doctors, and their costs are passed along. We estimate that current premiums reflect about \$1,000 to \$1,200 a year that each of us pays—in addition to what we need to cover our families—to cover those uninsured who receive the benefits and the treatment they seek at hospitals.

So in addition to reducing the premiums, as the Senator from Connecticut said, as more and more people come into coverage with their own health insurance, there is less of a pull on our benefit packages to subsidize the uninsured.

Mr. DODD. One other statistic that again jumps off the page at you, and I went back to my staff and said: Are you sure these numbers are right? I am told they are correct. For people who receive tax credits—and many do under our proposal here—the premium savings, on average, are 56 to 59 percent lower relative to the current individual market premiums—56 to 59 percent lower.

That is an incredible achievement in a piece of legislation designed to deal with cost—how do you get costs down? And of course the added elements of this—which again CBO doesn't calculate in showing reductions in premiums—include catastrophic options available to young adults, reinsurance provisions, which would reduce premiums even further. None of those calculations were actually calibrated by CBO in arriving at their conclusion. So, actually, I think these numbers turn out to be far better than the ones we have just talked about.

Mr. DURBIN. I say to the Senator from Connecticut, this affordability element is the No. 1 reason why we need health care reform, and I think the one reason why our critics on the other side of the aisle come to this debate emptyhanded. They don't have anything to offer to reduce the costs. We are looking for a comprehensive bill from the Republican side.

This is ours, and it has been on the Internet for over 2 weeks. Every word can be read by every person in America. That kind of transparency and disclosure is what we need in the course of this debate. I am sorry the other side doesn't offer an alternative but does offer, unfortunately, amendments which don't enhance this bill's goals.

Mr. DODD. If I could get a last minute on the floor, Mr. President, I commend Senator MARK PRYOR, our colleague from Arkansas, whose amendment we will vote on shortly. I commend him for his work. This is a very worthwhile amendment he is offering, and gives individuals and small

businesses better and more consistent information about insurance plans that would be sold in the exchange. All of us in this Chamber, and every Federal employee, gets one of these. This is a little booklet. What it says is: "Guide to Federal Benefits." I think I get some 15 or 20 options this year. I get options—take a look. I can open this book to various pages, and there is a comparative analysis of consumer reactions to the various plans over the last year or so, what they thought of them, how well they worked. There is nothing similar to this. We put language in our bill out of the HELP Committee to try to put this in common language people can understand, getting away from the small print, telling people what exactly will be the benefits under their plan, or the disadvantages, to some degree. The Pryor amendment includes this kind of provision in the bill and strengthens it tremendously. I commend Senator PRYOR of Arkansas for including a provision in this bill that will provide greater clarity and greater understanding, the same kind of clarity we get under the Federal Employees Health Benefits package that allows us to make that very simple. You don't have to have a Ph.D. in economics to understand this. You can go right through and they list it quickly, if it is only yourself, yourself and your family, what it is like in Delaware, the District of Columbia, Florida, Georgia, every State. It is a very simple, very clear understanding of how this works.

One of the complaints all of us get all the time, this is complicated. No matter how sophisticated you may think you are, trying to sort out what is the best plan for you—and I say this candidly, the insurance industry isn't always as forthcoming in letting you know what the disadvantages are as they are marketing their various plans to people. So the Pryor amendment, I think, will go a long way toward providing that kind of clarity and understanding that all Americans want. I urge my colleagues to support the Pryor amendment when that issue comes up for a vote.

I see the time is 3. I inquire and see I have gone over a little bit past 3 o'clock. I apologize to my colleague.

Mr. DURBIN. I ask unanimous consent that the next half hour, between now and 3:30, be evenly divided as the time has been before and the first person recognized on the Democratic side in that slot be the Senator from Washington, Mrs. MURRAY.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DURBIN. And that the same other conditions will apply as the previous unanimous consent.

Mr. CORKER. I wonder if the Senator from Illinois will yield for a question.

The PRESIDING OFFICER. Does the Senator from Illinois yield?

Mr. DURBIN. Relative to the unanimous consent request?

Mr. CORKER. No.

Mr. DURBIN. I have pending a unanimous consent request.

The PRESIDING OFFICER. Is there objection to the request? Without objection, it is so ordered.

Mr. DURBIN. I will be happy to yield and ask our time be evenly divided, but I wish to give the Senator from Washington a chance to speak for a few moments too.

Mr. ENZI. I think we are in alternating modes, so I could yield some time to the Senator from Tennessee.

Mr. CORKER. I listened to the Senator from Illinois talking about Medicare, and I assume, based on his comments, there is a chance we may get a 100-to-zip vote on the Gregg amendment, which truly ensures that all Medicare savings are used to make sure Medicare is more solvent.

The Bennet amendment, as I think the Senator knows, was parodied in the New York Times over the weekend, talking about it as toothless. It was a cover vote to give people the opportunity to be able to say they voted for something that saved Medicare, but actually the Gregg amendment does that. It puts the money away in such a fashion that all savings that are derived from Medicare are used to make Medicare more solvent. I am assuming that, since the Senator from Illinois is so supportive of ensuring that occurs, that he will be supporting this amendment.

Mr. DURBIN. If the Senator from Tennessee is propounding a question, I will be opposing the Gregg amendment. I think the Bennet amendment achieves what we wanted to achieve. I think my friend from New Hampshire in his amendment goes too far and, basically, we understand what he wants to do. He doesn't want to see us create tax credits to help families pay for health insurance premiums. He believes it is an entitlement. I think your side referred to it as such. I think it is important to help businesses and individuals who are struggling to pay health insurance premiums receive some assistance in doing so.

Mr. CORKER. So what the Senator from Illinois just said is the answer is no; that they are willing to use Medicare savings to create a new entitlement and they are not willing to do something that absolutely locks away those savings so they can only be used to make Medicare more solvent. I think all of us know the Bennet amendment was a cover vote. Nothing around here that has any meaning passes with 100 votes, with 58 Democrats, 40 Republicans, 2 Independents. The fact is, the whip on the other side of the aisle, whom I respect and who is very eloquent, has just said that, yes, we are willing to raid Medicare and to take the savings from that, an insolvent program, to create a new entitlement or a new program—whatever you

want to call it; I don't want to be pejorative—that is also going to be insolvent the day it starts, but, yes, we will take Medicare dollars directly. We will not do what Senator GREGG wants to do; that is, to be responsible, to try to make it solvent. We are going to lever it for a new entitlement—or a new program, whatever you want to call it—and I think, by virtue of this vote, we will see who in this body is serious about truly wanting to save Medicare for seniors and making sure young people are not hocked to the hilt in the future.

Mr. ENZI. Mr. President, I reserve the remainder of our time for the Senator from New Hampshire, but I will allow the Senator to speak now.

The PRESIDING OFFICER. The Senator from Washington is recognized.

Mrs. MURRAY. Mr. President, I come to the floor this afternoon, although I know this is an extremely important issue we are debating, health care, but I wish to speak on a different topic.

(The further remarks of Mrs. MURRAY are printed in today's RECORD under "Morning Business.")

The PRESIDING OFFICER. The Senator from New Hampshire.

Mr. GREGG. How much time remains on both sides?

The PRESIDING OFFICER. The minority has 13½ minutes; the majority has 1 minute 8 seconds.

Mr. GREGG. I yield 11 minutes to the Senator from Iowa.

The PRESIDING OFFICER. The Senator from Iowa is recognized.

Mr. GRASSLEY. Mr. President, opponents of the Gregg amendment claim the Reid bill doesn't technically change the law on guaranteed benefits for beneficiaries. But they are ignoring the fact that while those benefits may be "technically guaranteed," if the cuts put health care providers out of business, then those guarantees will be nothing more than useless words in the Medicare Act. Guaranteed benefits are not worth much without health care providers that can treat patients, provide home health services, and run hospitals and hospice agencies. These claims are not good enough to assure seniors who have paid into the Medicare Program for all these years. It is not good enough for protecting access to health care services and the benefits that our seniors have been promised.

My colleague from New Hampshire in his amendment would back up those claims with very real enforceable mechanisms to ensure that Medicare savings are not being used to fund a whole new program at a time when the trust fund is just about broke. The Gregg amendment is needed to protect the Medicare Program. After all, if you knew the Medicare Program already had \$37 trillion in unfunded obligations, would you be assured without an enforcement mechanism to back up those promises? No guarantee is worth

the paper it is written on without an enforcement mechanism to back it up. That is what the Gregg amendment is all about; otherwise, it is just a meaningless guarantee that our friends on the other side of the aisle are talking about. It is not real without an enforcement mechanism.

Let me say for a third time, the Gregg amendment provides that enforcement mechanism. It makes guarantees real. It then goes much further than just the words we get from the other side of the aisle to make sure that what seniors have they will actually get when needed.

Opposition to the Gregg amendment shines light on this issue. If the Gregg amendment is not approved, it should be clear to everyone watching that all the guarantees that are made from the other side of the aisle that Medicare is protected in the Reid bill are worthless. As a result, I hope everyone will be watching carefully how the other side votes on the Gregg amendment. The Gregg amendment is essential for protecting the Medicare Program. It is essential for making guarantees real.

The way the Gregg amendment works to enforce those guarantees is quite simple. The Gregg amendment would make sure the Medicare Program is not used as a piggy bank to spend for other purposes. It would make sure the Medicare Program is not being raided to fund this new program, as the other side claims. Under this important amendment, the Director of the White House Office of Management and Budget and Medicare's Chief Actuary would both be required to add up non-Medicare savings in the bill and compare that total to the total of new spending and revenues in this bill. The Gregg amendment works then that if the non-Medicare savings don't offset all the new costs, then the Treasury Secretary and the Health and Human Services Secretary would be prohibited from implementing the new spending or revenue provisions in the bill. By doing so, the Gregg amendment would ensure that non-Medicare savings are, in fact, paying for the new spending in this bill. It would ensure at the same time that Medicare itself is not being used to pay for new spending in the bill.

It is very simple, very straightforward. It brings common sense to this whole argument that has been full of a lot of nonsense before now. The amendment, therefore, would prevent massive government expansion at the expense of Medicare beneficiaries. Massive expansion of government is one thing, if it is paid for, but it is quite another thing if you take the money out of a trust fund that is on its way to being broke and use it to set up a brandnew entitlement program to the tune of \$464 billion.

As opposed to the mere nonbinding sense-of-the-Senate resolution the

other side has offered to pretend to protect Medicare, this Gregg amendment requires action, action that has to be taken to protect the Medicare Program. The Gregg amendment is the enforcement mechanism for the guarantees the other side says they are making to protect Medicare. Slashing Medicare payments to start up another new and, in fact, unsustainable government entitlement program is not the way to address big and unsustainable budgets.

AMENDMENT NO. 2939

I would like to take a little bit of time to discuss the Pryor amendment. I have always been a strong supporter of transparency. In order to have a successful free market, consumers need to have information. I can't think of any reason, besides my strong objection to the underlying 2,074-page bill, to oppose the Pryor amendment. It is pretty straightforward. It requires that the Secretary of Health and Human Services have a rating system for private health plans. That sounds OK to me. An informed consumer makes better decisions. So I don't object to the Pryor amendment. But I do object to the fact that the Pryor amendment is more proof that this bill is not being crafted out in the open on the Senate floor.

The Associated Press has confirmed, based on an e-mail circulated by Democratic staff, that the Bennet amendment of last week to protect Medicare was simply "a message amendment."

The New York Times went on to call the Bennet amendment "meaningless." Now we have a Pryor amendment that requires a level of transparency that, in fact, is already required by the bill. If you look at page 134, the bill already describes a rating system developed by the Secretary that consumers can use to choose the right health insurance plan. So if the underlying bill is already doing this, I can only assume this amendment by my friend from Arkansas is specifically designed to buy time so the White House and Democratic leadership can cut deals and twist arms behind closed doors.

That is right. The American people need to know this bill is not being written on the Senate floor. In fact, we have a 2,074-page bill before us that took since October 2, until we took it up, for one Senator, the majority leader, to put together. Somehow the other 99 Senators shouldn't have 3 weeks to look at a bill that took well over a month to put together.

Then we had the President here yesterday speaking to his caucus. That kind of obviates any efforts to get bipartisan support for this bill. I think it gives further proof that it is not only partisan but that what this final 2,074-page bill is, we don't know yet. They are trying to put together some sort of a group that can get 60 votes to get a bill passed.

Do we really know what sort of a Christmas present we are giving to the American people with this health reform bill? I don't think so.

I yield the floor.

The PRESIDING OFFICER. Who yields time?

Mr. GREGG. Mr. President, what is the time situation?

The PRESIDING OFFICER. There is 3½ minutes for the Republicans and 1 minute 9 seconds for Democrats.

AMENDMENT NO. 2942

Mr. GREGG. Mr. President, I am not sure when the vote is going to occur. I hope sooner rather than later.

First, I congratulate the Senator from Iowa who has been involved in Medicare and the issue of how we manage Medicare for many years, both as chairman of the Finance Committee and as ranking member. His analysis of this situation relative to my amendment was absolutely dead on and accurate, as he always is. It was a breath of fresh air, common sense and plain speak in this institution, which often gets convoluted, gets tied around its own axle. In this case, it didn't. The Senator from Iowa was very precise, a Senator who used to be chairman of the Finance Committee and is now ranking.

My amendment is simple. It says the cuts in Medicare in this bill, which are substantial—\$460 billion over the first 10 years, \$1 trillion over the 10 years when fully implemented, \$3 trillion over 20 years, that is how much Medicare is cut—the cuts come out of primarily Medicare Advantage and provider payments, all of which will translate into a lesser quality of care for senior citizens, that those Medicare cuts cannot be used for the purpose of financing new programs which have nothing to do with seniors. The new entitlements in this bill are significant, they are expensive, and they benefit a number of people. But they don't benefit seniors. In fact, they benefit very few people who have even paid into the hospital insurance fund from which the Medicare trust fund is funded. It is totally inappropriate to take Medicare money and use it to fund a brandnew entitlement, a series of new initiatives, the biggest of which is a brandnew entitlement and the expansion of Medicaid.

The other side of the aisle—and 100 participated in the vote—sponsored an amendment, agreed to 100 to nothing, which said that wouldn't happen; that Medicare money would not be used for the purpose of funding new programs that had nothing to do with Medicare, the Bennet amendment. But that was a political vote. Everybody knew that was a statement. It was called a sense of the Senate. It didn't even raise to the standard of being an amendment. It is something around here that is a unique vehicle, the purpose of which is to make a political statement; not

worth much more than the paper it is printed on.

This is different. This amendment, as the Senator from Iowa pointed out, is real. It has a hardened enforcement mechanism which requires that monies which are saved by cutting senior citizen benefits and by cutting Medicare will not be used for the purposes of creating new programs at the Federal level.

I have heard from the other side of the aisle that this is an amendment that destroys the bill because all these new benefits they have plowed in here—there are benefits for a lot of new folks in here; there are benefits for Senators whose votes they need, and that has been publicly reported; all funded in large part by Medicare reductions or significantly by Medicare reductions—I have heard the other side of the aisle say that is going to destroy these new programs. No, it is not.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. GREGG. I ask unanimous consent for 1 additional minute.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HARKIN. As long as we get an additional minute.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GREGG. These programs are not going to be terminated by this bill. The programs will still be in the law. They will still go forward. They just have to be paid for with something other than seniors' money, with something other than Medicare. That representation from the other side of the aisle is a straw dog.

What is not a straw dog is that my amendment enforces the language which this Congress, this Senate has already voted on 100 to nothing in the Bennet amendment. It says Medicare money will not be used to fund new programs that are not Medicare related. In the end, that means Medicare money will be used, hopefully, to the extent that these cuts go into place and these changes and benefits go into place, for seniors, to make the Medicare system more solvent because it is already headed toward insolvency.

I reserve the remainder of my time.

Mr. HARKIN. Mr. President, do I have 2 minutes?

The PRESIDING OFFICER. The Senator is correct.

The Senator from Iowa.

Mr. HARKIN. Mr. President, I listened to my colleague from Iowa earlier talking about the "meaningless amendments" and that amendments that do not have any teeth are just meaningless, stuff like that. I listened to that.

I want to make it very clear that the Gregg amendment is not a meaningless amendment. It has a lot of meaning because what it does is it kills health reform. Oh, yes, this is a meaningful

amendment, make no mistake about it. It goes right to heart of what the health reform is all about: making sure people at the low-income end of the scale have a little bit better coverage; that is, people on Medicaid—that is section 2001—the tax credits and the copays that are in there, again, to help moderate-income people and families be able to afford better coverage for themselves and their families—he guts that too—and, of course, the expansion of SCHIP.

So really, yes, I say to my friend from Iowa, this is a meaningful amendment—if you want to kill the bill, if you want to kill it. I suppose since most of my friends on that side of the aisle would like to kill the bill, they will probably vote for the Gregg amendment. But it completely guts it—completely guts it. Why? To help protect the wasteful subsidies to the insurance companies at the expense of families who are struggling to afford insurance and seniors who rely on Medicare.

This bill lowers premiums for American families, businesses, and the country as a whole. The Congressional Budget Office just said that this week. It strengthens Medicare, it improves benefits, and it adds years of life to the Medicare trust fund.

Let's be clear. Not one dime of the Medicare trust fund is used to pay for this reform, and no guaranteed Medicare benefits will be cut. If anyone can prove otherwise, please come forward. We have had a lot of rhetoric about it, but prove that this statement is not true: Not one dime of the Medicare trust fund is used to pay for reform and no guaranteed Medicare benefits will be cut.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. HARKIN. Mr. President, I ask unanimous consent that the Senate now proceed to vote in relation to the Pryor amendment No. 2939; and that upon disposition of that amendment, there be 2 minutes of debate prior to a vote in relation to the Gregg amendment No. 2942; that no amendments be in order to either amendment, and that the second vote in this sequence be 10 minutes in duration; that each of the above-referenced amendments be subject to an affirmative 60-vote threshold, and if the amendment achieves that threshold, then it be agreed to and the motion to reconsider be laid upon the table; that if the amendment does not achieve that threshold, then it be withdrawn; that upon disposition of the above amendments, Senator NELSON of Nebraska be recognized to call up his amendment No. 2962; that once the amendment has been reported by number, it be set aside, and the Republican leader's designee be recognized to call up his motion to commit with instructions.

The PRESIDING OFFICER. Is there objection?

Mr. GREGG. Mr. President, reserving the right to object, I believe I still have 15 seconds left on my time. But independent of that, I would ask that this unanimous consent request be amended and that we agree to the Pryor amendment by unanimous consent.

The PRESIDING OFFICER. Is there objection?

Mr. HARKIN. Mr. President, reserving the right to object, will the Senator please repeat what he just asked?

Mr. GREGG. Mr. President, I requested that we amend the unanimous consent request and agree to the Pryor amendment by unanimous consent.

Mr. HARKIN. Mr. President, I will have to object to that. I have no instructions from Senator PRYOR. I believe he wants a vote on his amendment. So I would have to object to that.

The PRESIDING OFFICER. Objection is heard for the modification.

Mr. HARKIN. Mr. President, I want to modify my request, that the 2 minutes I asked for for debate prior to the vote be evenly divided between the two sides.

The PRESIDING OFFICER. Is there objection to the Senator's modification?

Mr. GREGG. I reserve the right to object because I would like to reserve my 15 seconds.

The PRESIDING OFFICER. Without objection, the Senator's time will be reserved, his 15 seconds will be reserved.

Is there objection to the original request of the Senator from Iowa?

Without objection, it is so ordered.

The Senator from New Hampshire has 15 seconds.

Mr. GREGG. Mr. President, I reserved the 15 seconds because it is easy to respond to the Senator from Iowa and it only takes 15 seconds.

Taking money out of the Medicare fund to fund other parts of this bill is a mistake and it is not appropriate.

The PRESIDING OFFICER. The Senator still has 3 seconds.

Mr. GREGG. I thank the Presiding Officer. I yield my 3 seconds. Actually, I yield it to the Senator from Iowa.

The PRESIDING OFFICER. The Senator from Arkansas.

#### AMENDMENT NO. 2939

Mr. PRYOR. Mr. President, I would like to speak on my amendment for just 1 minute.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. PRYOR. Mr. President, I would ask my colleagues to look at this amendment very closely. It is a good consumer-oriented amendment that will allow people to make smart decisions on their health insurance. We need more of this type of information to allow the premium payers to make good decisions for themselves, for their families, and for their businesses. So I would ask my colleagues on both sides

of the aisle to consider voting for this amendment.

Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The question is on agreeing to amendment No. 2939.

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) and the Senator from Pennsylvania (Mr. SPECTER) are necessarily absent.

The ACTING PRESIDENT pro tempore. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 98, nays 0, as follows:

[Rollcall Vote No. 367 Leg.]

#### YEAS—98

Akaka	Enzi	McConnell
Alexander	Feingold	Menendez
Barrasso	Feinstein	Merkley
Baucus	Franken	Mikulski
Bayh	Gillibrand	Murkowski
Begich	Graham	Murray
Bennet	Grassley	Nelson (NE)

Conrad	Lautenberg	Udall (NM)
Corker	Leahy	Vitter
Cornyn	LeMieux	Voinovich
Crapo	Levin	Warner
DeMint	Lieberman	Webb
Dodd	Lincoln	Whitehouse
Dorgan	Lugar	Wicker
Durbin	McCain	Wyden
Ensign	McCaskey	

#### NOT VOTING—2

Byrd Specter

The ACTING PRESIDENT pro tempore. On this vote, the yeas are 98, the nays are zero. Under the previous order, requiring 60 votes for the adoption of amendment No. 2939, the amendment is agreed to.

Mr. BAUCUS. Madam President, I move to reconsider the vote, and I move to lay that motion on the table.

The motion to lay on the table was agreed to.

#### AMENDMENT NO. 2942

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be 2 minutes of debate, equally divided, prior to a vote on the amendment No. 2942, offered by the Senator from New Hampshire, Mr. GREGG.

The Senator from Montana is recognized.

Mr. BAUCUS. Madam President, the Gregg amendment is a killer amend-

ment. It would kill the tax cuts in the bill, kill assistance for copays, kill the Medicaid expansion for the lowest income Americans, kill additional funding for the Children's Health Insurance Program.

Proponents advertise this amendment as protecting Medicare. That is false advertising. The Gregg amendment would kill health care reform. Health care reform would extend the life of the Medicare trust fund by 4 to 5 years. Health care reform would result in commonsense changes, such as decreasing hospital readmissions, decreasing hospital-acquired infections, and paying doctors and hospitals to work together. Health care reform will not reduce guaranteed Medicare benefits. Health care reform would extend the life of the Medicare trust fund.

The choice is clear. If you want to vote against tax cuts, Medicaid, and the Children's Health Insurance Program, vote for the Gregg amendment. If you want to extend the life of Medicare, vote against it.

The ACTING PRESIDENT pro tempore. The Senator from New Hampshire is recognized.

Mr. GREGG. Madam President, I appreciate—although it was with a bit of hyperbole—that the Senator from Montana has made my case.

The Medicare trust fund and its recipients will be cut by almost \$½ billion in the first 10 years. That money will be taken to fund initiatives that have nothing to do with senior citizens, and it will not benefit them.

In the end, it is going to mean the Medicare trust fund is less solvent and less capable of sustaining the benefits seniors deserve. This is the only amendment we will get to vote on that absolutely guarantees the Medicare funds will not be used to fund a new entitlement or the purchase of votes for the purpose of passing this bill or to fund anything else in this bill that isn't tied to the senior citizens' benefits.

You can either vote with seniors and protect the Medicare funds for them or you can vote to raid the Medicare fund and spend it on something else.

Madam President, I ask for the yeas and nays.

The ACTING PRESIDENT pro tempore. Is there a sufficient second? There is a sufficient second.

The question is on agreeing to the amendment.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) is necessarily absent.

The ACTING PRESIDENT pro tempore. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 43, nays 56, as follows:

[Rollcall Vote No. 368 Leg.]

## YEAS—43

Alexander	DeMint	McConnell
Barrasso	Ensign	Murkowski
Bayh	Enzi	Nelson (NE)
Bennett	Graham	Risch
Bond	Grassley	Roberts
Brownback	Gregg	Sessions
Bunning	Hatch	Shelby
Burr	Hutchison	Snowe
Chambliss	Inhofe	Thune
Coburn	Isakson	Vitter
Cochran	Johanns	Voinovich
Collins	Kyl	Webb

## NOT VOTING—1

Byrd

The ACTING PRESIDENT pro tempore. On this vote, the yeas are 43, the nays are 56. Under the previous order requiring 60 votes for the adoption of this amendment, the amendment is withdrawn.

Mr. NELSON of Nebraska. I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. NELSON of Nebraska. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

AMENDMENT NO. 2962 TO AMENDMENT NO. 2786

Mr. NELSON of Nebraska. Madam President, I call up amendment No. 2962.

The ACTING PRESIDENT pro tempore. The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Nebraska [Mr. NELSON], for himself, Mr. HATCH, Mr. CASEY, Mr. BROWNBACK, Mr. THUNE, Mr. ENZI, Mr. COBURN, Mr. JOHANNIS, Mr. VITTER, and Mr. BARRASSO, proposes an amendment numbered 2962 to amendment No. 2786.

Mr. NELSON of Nebraska. Madam President, I ask unanimous consent that further reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To prohibit the use of Federal funds for abortions)

Beginning on page 116, strike line 15 and all that follows through line 15 on page 123, and insert the following:

(a) SPECIAL RULES RELATING TO COVERAGE OF ABORTION SERVICES.—

(1) IN GENERAL.—Subject to paragraph (2), nothing in this Act (or any amendment made by this Act) shall be construed to require any health plan to provide coverage of abortion services or to allow the Secretary or any other person or entity implementing this Act (or amendment) to require coverage of such services.

(2) COMMUNITY HEALTH INSURANCE OPTION.—The Secretary may not provide coverage of abortion services in the community health insurance option established under section 1323, except in the case where use of funds authorized or appropriated by this Act is permitted for such services under subsection (b)(1).

(3) NO DISCRIMINATION ON THE BASIS OF PROVISION OF ABORTION.—No Exchange participating health benefits plan may discriminate against any individual health care provider or health care facility because of its unwillingness to provide, pay for, provide coverage of, or refer for abortions.

(b) LIMITATION ON ABORTION FUNDING.—

(1) IN GENERAL.—No funds authorized or appropriated by this Act (or an amendment made by this Act) may be used to pay for any abortion or to cover any part of the costs of any health plan that includes coverage of abortion, except in the case where a woman suffers from a physical disorder, physical injury, or physical illness that would, as certified by a physician, place the woman in danger of death unless an abortion is performed, including a life-endangering physical condition caused by or arising from the pregnancy itself, or unless the pregnancy is the result of an act of rape or incest.

(2) OPTION TO PURCHASE SEPARATE SUPPLEMENTAL COVERAGE OR PLAN.—Nothing in this subsection shall be construed as prohibiting any non-Federal entity (including an individual or a State or local government) from purchasing separate supplemental coverage for abortions for which funding is prohibited under this subsection, or a plan that includes such abortions, so long as—

(A) such coverage or plan is paid for entirely using only funds not authorized or appropriated by this Act; and

(B) such coverage or plan is not purchased using—

(i) individual premium payments required for a qualified health plan offered through the Exchange towards which a credit is applied under section 36B of the Internal Revenue Code of 1986; or

(ii) other non-Federal funds required to receive a Federal payment, including a State's or locality's contribution of Medicaid matching funds.

(3) OPTION TO OFFER SUPPLEMENTAL COVERAGE OR PLAN.—Nothing in this subsection shall restrict any non-Federal health insurance issuer offering a qualified health plan from offering separate supplemental coverage for abortions for which funding is prohibited under this subsection, or a plan that includes such abortions, so long as—

(A) premiums for such separate supplemental coverage or plan are paid for entirely with funds not authorized or appropriated by this Act;

(B) administrative costs and all services offered through such supplemental coverage or plan are paid for using only premiums collected for such coverage or plan; and

(C) any such non-Federal health insurance issuer that offers a qualified health plan through the Exchange that includes coverage for abortions for which funding is prohibited under this subsection also offers a qualified health plan through the Exchange that is identical in every respect except that it does not cover abortions for which funding is prohibited under this subsection.

Mrs. BOXER. Madam President, would my friend yield for a unanimous consent request?

Mr. NELSON of Nebraska. Yes.

The ACTING PRESIDENT pro tempore. The Senator from California.

Mrs. BOXER. Madam President, we are trying to get the times locked in so that Senators who have come over here get their time. So I ask unanimous consent that Senator NELSON speak for 10 minutes, BOXER for 5, MIKULSKI for 10, GRASSLEY for 10, CORNYN for 10, GILLIBRAND for 10, and then Senator MCCAIN wishes to comment.

Mr. MCCAIN. I object.

The ACTING PRESIDENT pro tempore. Objection is heard.

The Senator from Nebraska.

Mr. NELSON of Nebraska. Madam President, my lead cosponsor, Senator HATCH, will appear sometime later and speak in favor of amendment 2962. He is unable to be here at the moment.

Before the Thanksgiving break, I voted with a number—and the majority, actually—of my colleagues in favor of beginning this debate. Debate is essential in our democracy. It keeps our country resilient and strong through changing times.

Before that vote, some argued here on the Senate floor that we shouldn't hold this open and full debate. They seemed to suggest that obstruction was better than action. Some also argued here on the floor that the November 21 vote was about abortion. They were wrong. That vote was whether to begin a debate on an issue that has consumed the American public. Now is the time to start debating the issue of abortion, as we are addressing many other issues in health care reform.

I wish to discuss the amendment that I propose, along with a bipartisan group of colleagues, which includes Senators HATCH, CASEY, BROWNBACK, THUNE, COBURN, JOHANNIS, VITTER, and BARRASSO. The amendment we offer today mirrors the Stupak language added to the House health care bill.

For more than three decades, taxpayer money has not been used for elective abortions, and it shouldn't under any new health reform legislation either. Some suggest that the Stupak language imposes new restrictions on abortion. I disagree. We are seeking to justify the same standards on abortion to the Senate health care bill that already exist for Federal health programs. They include those covering veterans, all Federal employees, Native Americans, active-duty servicemembers, and others.

I note that the Senate health care bill, if enacted, would indeed chart new

ground—it covers abortion. The language in the bill goes around the Federal standard disallowing public funding of abortion. A clear majority of Americans, including my constituents in Nebraska, support this prohibition against using public money to cover abortion. Our amendment formally extends that standard to this health reform bill.

The U.S. Supreme Court has held that government may regulate abortion and may disallow public funds being used for elective abortions. Beginning in 1976, with the Hyde amendment, Congress has prohibited public funding for elective abortion in all significant health-related bills. Exceptions have been preserved for when the life of the mother is in danger or in cases of rape or incest. And except for those exceptions, public funds may not be used for any health care benefits package that covers abortion.

Some have now cited the Federal Employees Health Benefits Program—FEHBP—as a possible model for health care reform. The FEHBP helps pay premiums for many different private health insurance plans. That way, Federal employees may choose the insurance plan that best suits their budget and personal needs. It is important to note that none of the benefits packages offered to Federal employees provide health insurance coverage for abortion. I repeat: None of the benefits packages offered to Federal employees provide coverage for abortion, nor do benefits packages that are offered to individuals in other Federal programs, such as the Children's Health Insurance Program, Medicare, Medicaid, Indian Health Services, veterans health, and military health care programs.

Some have argued that the Stupak language imposes tougher restrictions than in current law. That is not the case. Our amendment merely aims to extend the current standard to this new legislation.

On another point, under Federal law, States are allowed to set their own policies concerning abortion. Many States oppose the use of public funds for abortion. Many States also have passed laws that regulate abortion by requiring informed consent and waiting periods, requiring parental involvement in cases where minors seek abortions and protecting the rights of health care providers who refuse, as a matter of conscience, to assist in abortions. And perhaps most importantly, there is no Federal law, nor is there any State law, that requires a private health plan include abortion coverage.

I believe the current health care reform we are debating should not be used to open a new avenue for public funding of abortion. We should preserve the current policies prohibiting the use of taxpayer money for abortion that have existed for more than three decades.

A number of polls this year have again shown that most Americans do not support using taxpayer money for abortion. The Senate bill, as proposed, goes against that majority public opinion. The bill says the Secretary of Health and Human Services may allow elective abortion coverage in the Community Health Insurance Option—the public option—if the Secretary believes there is sufficient segregation of funds to ensure Federal tax credits are not used to purchase that portion of the coverage.

The bill would also require that at least one insurance plan cover abortion and one that does not cover abortion be offered on every State insurance exchange. Federal legislation establishing a public option that provides abortion coverage and Federal legislation allowing States to opt out of the public option that provides abortion coverage eases the restrictions established by the Hyde amendment.

Our amendment would prohibit Federal funds from being used for elective abortion services in the public option and also prohibit individuals who receive tax credits from purchasing a plan that provides elective abortions.

I have always been pro-life and I have a strong record opposing abortion. As Governor of Nebraska in the 1990s, I signed into law the parental notification law and the ban against partial birth abortion. In the Senate, I cosponsored and voted for legislation that prohibits taking minors across State lines to avoid parental notification laws and voted for legislation creating a separate offense for harming or killing an unborn child in utero during the commission of specified violent crimes.

Aside from my personal views, however, I think most Americans would prefer that the health care reform we are working on remain neutral on abortion. Public polls suggest so. So does the fact that over the last 30-plus years Congress has passed new Federal laws that have not provided public funding for abortions.

So the question has been settled: Most Americans, even some who support abortion, do not want taxpayer money to be used for abortions. We should not break with precedent on this bill.

And, finally, as President Obama has said, this is a health care reform bill. It is not an abortion bill. It is time to simply extend the standard disallowing public funding of abortion, which has stood the test of time, to new proposed Federal legislation.

I look forward to debating this and other issues in the health reform bill as we work to address solutions to our troubled health care system. Today it costs too much and delivers too little to the people of my State and to most Americans.

Madam President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Texas.

Mr. CORNYN. Madam President, this last Thursday was one of those days in Washington where the left hand of government didn't know what the right hand was doing. On one end of Pennsylvania Avenue, the President was hosting a jobs summit. But here on the other end of Pennsylvania Avenue, we continued debate on a health care bill which will, for reasons I will explain, be a job killer and will discourage small and large businesses from hiring new people, even though unemployment exceeds double digits.

The November jobs number shows the economy is still hurting. Not only is the unemployment rate at 10 percent, 11,000 more families have lost a breadwinner. More than 15 million Americans remain unemployed, and more than 3 million Americans have lost their jobs since Congress passed the stimulus bill in February, which failed in its essential purpose—to keep unemployment under 8 percent.

According to an article by Mort Zuckerman in U.S. News and World Report, 21 percent of all families have an immediate family member who has lost a job. My family is one of those. My daughter has lost a job. And, according to the article, 33 percent—a third—of U.S. families have an immediate family member or a close friend who has lost a job. But the President, during the jobs summit, seemed to be completely unaware of the impact that policies here in Washington have on the desire and willingness of job creators to actually re-hire laid-off American workers. He seemed to be oblivious to the role of the private sector in creating those jobs.

If you look at the States that have been most successful in creating jobs, it is clear that jobs-friendly policies can actually lead to better results. I don't want to brag, but Texas has been one of the best economies we have had, even during this tough recession. Many analysts have wondered why that is—from the Wall Street Journal to The Economist. But it is clear to me that the Texas economy has been doing better than other States because our laboratory of democracy has embraced better policies—things such as growing jobs in the private sector over government, lower taxes, fiscal discipline, right-to-work legislation, and commonsense civil justice reforms, to mention a few.

But my State isn't the only State that has been successful in embracing these sound job-creating policies. Other States have adopted similar policies and they have seen similar results. That is why it is so frustrating to many of us to see the White House ignore these results and focus on policies that will actually kill jobs, not encourage job creation.

For example, cap and trade. In Texas alone, according to the State comptroller, more than 300,000 jobs would be

lost in the State of Texas if we embrace the ill-considered and misguided cap-and-trade legislation that has passed the House and which we will consider later—perhaps next year. Here is a quote from economist Anne Layne-Farrar regarding card check—eliminating the secret ballot:

For every 3 percentage points gained in union membership through card checks and mandatory arbitration, the following year's unemployment rate is predicted to increase by 1 percentage point—and job creation predicted to fall by about 1.5 million jobs.

So cap and trade is a job killer and card check is a job killer. Then there are higher taxes. Small businesses, which are America's best job creators, may soon face the highest marginal tax rate in a quarter of a century. And still the White House wants to raise taxes higher on energy producers right here at home as well as companies that sell American products in foreign markets. The biggest job killer of all, of course, is the bill that is presently on the Senate floor. This is a \$2.5 trillion expansion of government, and it will cost Americans jobs in a number of ways.

We will recall the President's pledge on September 12, 2008. He said:

I make a firm pledge under my plan, no family making less than \$250,000 will see their taxes increase—not your income taxes, not your payroll taxes, not your capital gains taxes, not any of your taxes.

But yesterday the Joint Tax Committee came out with a new score or analysis of what the impact would be of the Reid health care bill. They said the Reid health care bill increases taxes for 25 percent of taxpayers earning less than \$200,000. That is even after the subsidies that are provided for in this bill are applied. Without those subsidies about 42 percent of taxpayers would see an increase in their taxes.

There are nearly  $\frac{1}{2}$  trillion of higher taxes in this bill, including things such as \$149 billion in excise taxes on Americans who have certain types of health plans, a \$15.2 billion tax on all taxpayers with catastrophic medical costs, and \$14.6 billion of additional taxes on workers who use FSAs.

There are also taxes that allegedly target only the rich. But you know what. These taxes hit thousands of small businesses. That is right; the very job creators we are trying to encourage to create new jobs and retain new jobs, particularly those who file as sole proprietors or partnerships or subchapter S corporations that pay flowthrough income on individual tax returns at individual rates.

For example, a \$54 billion increase in the Medicare payroll tax would be used not to pay for Medicare but to pay for yet a new entitlement spending program. The Reid bill also adds \$100 billion in new taxes and fees on the health care industry which will, of course, be passed down to consumers, which is one reason insurance premiums are cal-

culated to go up under this bill, not down.

The Reid bill would create new punitive taxes on businesses that do not offer a Washington-approved health care plan.

Then there is the employer mandate. The employer mandate will kill jobs because the additional cost of insurance will be passed along to workers in the form of lower wages or result in reduced hours or layoffs. Harvard Professor Kate Baicker said this:

Workers who would lose their jobs are disproportionately likely to be high school dropouts, minority and female. . . . Thus, among the uninsured, those with the least education face the highest risk of losing jobs under employer mandates.

I mentioned the Reid bill would raise premiums for small businesses. Under one study those premiums in the group market would rise by 20 percent. I thought the purpose of health care reform was to lower and make more affordable health care, not to make it more expensive. But the Reid bill does the opposite of reform and makes it worse, not better.

Then, of course, the Reid bill would kill jobs by increasing the cost shifting due to low Medicaid reimbursements. Of course, cost shifting occurs because Medicaid pays a fraction of what private insurance pays. Medicare pays about 80 percent, and so in order to make up the difference, those with private health insurance have to pay an additional cost in the form of cost shifting. Fifteen million more Americans on Medicaid would make this worse, not better.

The Reid bill would kill jobs by raising State and local taxes because of unfunded mandates. Because of the expansion of Medicaid, which is not paid for by the Federal Government, over 10 years the State of Texas alone would see \$20 billion more in Medicaid spending because of this unfunded mandate—\$20 billion. We are a big State, but we can't afford \$20 billion more in an unfunded mandate because of the Medicare expansion under this bill.

It should not be any surprise that the Reid bill and these other job-killing policies are the reasons the private sector is not hiring. Again, according to Mort Zuckerman of U.S. News and World Report, businesses "are holding back in hiring because of anxiety over the administration's policies on such matters as increased health care costs . . . higher taxes . . . more corporate regulations . . . and disaffecting labor policies."

These policies are causing the greatest anxiety among small business owners. Firms with fewer than 20 workers employ a quarter of the workforce. In the last economic expansion they accounted for 4 out of 10 new jobs.

I hear this from my constituents in Texas, people such as Richard Belden who owns a small retail grocery busi-

ness that has been in the family for 54 years and employs 75 people. He files as a subchapter S corporation, so he pays taxes according to the highest marginal tax bracket. He is going to get hit by these taxes.

Do you think that is going to make it easier for him to hire more people and keep the people he has or make it harder? I think the answer is self-evident.

This is from Nathan Avard, who owns and operates five Burger King restaurants in northeast Texas and employs more than 100 people. He said the employer mandate included in this bill will make it harder, not easier, for him to keep the employees he has. He believes the employer mandate would cost him thousands of dollars per restaurant, effectively eliminating much of his profit and making it exceedingly difficult for him to operate and improve his business in this economy.

I have heard the same story from the Chamber of Commerce in Lubbock, TX, that represents more than 2,100 businesses that employ more than 57,000 workers. But it is not just the Lubbock, TX, Chamber, but the Greater Irving-Los Colinas Chamber, the Greater Austin Chamber, the Rosenberg-Richmond Area Chamber, the Harlingen Area Chamber, the Liberty-Dayton area Chamber, the Tyler Area Chamber, the Bryan/College Station's Chamber, the Port Aransas Chamber, the Northwest Houston Chamber, the Odessa Chamber, the Deer Park Chamber, the Henderson Area Chamber, the West I-10 Chamber, the Crowley Area Chamber, Marble Falls/Lake LBJ Chamber, Granbury Chamber, McAllen Area Chamber, and the Washington County Chamber. You get the idea. These are job-killing policies, and this bill is perhaps the biggest of them all.

Of course, a few enterprises will get bigger under the Reid bill; namely, the Internal Revenue Service. According to the nonpartisan Congressional Budget Office, the IRS will need a budget nearly twice its current size to enforce the Reid bill. The IRS will need more agents and more bureaucrats to collect the new taxes, enforce all of the new mandates, and apply all the additional redtape.

I think we should be about facilitating the creation of new jobs not killing jobs through ill-considered policies such as this bill.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from California is recognized.

Mrs. BOXER. Madam President, it is an honor to be here in the Senate at a time when we are working on one of the major issues of our time. We know that generations of leaders in both parties have tried to solve the health care crisis, and they have done it bit by bit. We read history. We know that leaders struggled with Social Security. The Democrats were in the forefront. Republicans fought us every step of the

way. Franklin Roosevelt took the lead on that, and we had John Kennedy and Lyndon Johnson take the lead on Medicare. The Republicans fought us every inch of the way. We had some cooperation from certain Senators and certain Members of Congress, but overall it was very difficult.

This fight is very difficult to make sure that we turn things around. We live in a society where, if we do not step into the breach—we are told by nonpartisan surveys that if we do nothing—and this is important—average premiums for our families in California will be 41 percent of income. In States such as Pennsylvania it will be 50 percent of income. We know what that means. People will not have health insurance. So we can pull the covers over our heads and say it is too hard; it is too tough. We can turn our backs on the fact that 62 percent of bankruptcies are related to a health care crisis. We could turn our backs on that. We could turn our backs on the fact that the infant mortality rate in America is 29th out of 30 nations—that is where we come out.

This is America, the greatest country in the world. Something is wrong when so many people do not have access to insurance; and even if they do, when they need it most it is gone.

How proud am I to be here at this time? Very proud. How grateful am I to the people of my State for sending me back here three times, so I can stand here and be a voice for them? I can't tell you how proud I am.

When we started this health care debate we knew it was important to the people we represent and we knew it was important to the economy of this country. Senator CORNYN has gotten up and said this bill is terrible for the economy. Let me tell you, there are \$27 billion of tax cuts in this bill. Let me repeat that—\$27 billion of tax cuts for small business.

There are billions of dollars of tax breaks for individuals. For people to stand up and say this is not good for our economy, I don't think they understand or get it. If we continue with the status quo, that is when we are in trouble.

The women of the Senate have been very involved, the Democratic women. We have worked together to make sure this bill meets the needs of all of our families, including the women of this country. Senator MIKULSKI, who is on the floor, took the lead and made sure that we corrected a problem that was in the bill, a problem which basically was unclear as to who was going to set the benefits. We wanted to make sure that women could get mammograms after 40 every year. Senator MIKULSKI fixed it by making sure the head of Health and Human Services is going to be the one to decide what is covered.

Women's prevention has now gone way up to the top of the list because of

Senator MIKULSKI and the women who worked with her. We are very proud of that.

There is one thing that was taken care of in the Reid bill that we didn't think we would have an argument about; that is, we thought we had an understanding that we were not going to bring up the issue of abortion; that it was not necessary to do it because we were not doing anything in the bill—Senator REID doesn't do anything in the bill that changes the current agreement.

Let me say, because I started in the House in the 1980s, I was part of that agreement. I offered the amendment that said, yes; it is true no Federal funds could be used unless the life of the woman was at stake, for abortion. Through my amendment we added rape and incest. Those are the only three exceptions. No Federal funds could be used for abortion except to save the life of the woman or if she is a victim of rape or incest. That agreement has held for three decades.

It is fair to say neither side is thrilled with it, but the fact is, the agreement has held. The fact is, Senator REID has crafted a bill, which is the underlying bill, that preserves that three-decades-long agreement.

But over on the House side they passed the radical Stupak amendment which strikes at the heart of this delicate compromise by preventing women from using their own private funds for their legal reproductive health care. That is a big shock because women have been able to utilize their own private funds in order to get a legal procedure—legal procedure—and never has anyone, to my knowledge, on either side of the aisle said she could not get access to insurance to cover the whole range of legal reproductive health care if she uses her own funds. This amendment takes us way back.

Here is what is interesting. The people who bring us this—mostly it is going to be the men who speak on this, I think. We will see if that is right or wrong, but I predict that.

The men who have brought us this do not single out a procedure that is used by a man, or a drug that is used by a man, that involves his reproductive health care and say they have to get a special rider. There is nothing in this amendment that says if a man someday wants to buy Viagra, for example, that his pharmaceutical coverage cannot cover it; that he has to buy a rider. I would not support that. And they should not support going after a woman, using her own private funds, for her reproductive health care.

Is it fair to say to a man: You are going to have to buy a rider to buy Viagra—and this is public information. It could be accessed. No, I don't support that. I support a man's privacy just as I support a woman's privacy.

So it is very clear to me that this amendment would be the biggest roll-

back of a woman's right to choose in decades.

We didn't ask for this fight. We didn't plan for this fight. We don't want this fight. We simply want to ensure that this three-decades-long agreement is kept in place. And that is what Senator REID does in the underlying bill. It is very clear that in the underlying bill, there is a firewall between Federal funds and private funds. All we are saying is, please leave it alone. We believe it is discriminatory to single out a procedure only women can utilize and say to the women of this Nation: Yes, this is a legal procedure, but you can't use your own private funds. Senator REID is very clear. He puts a firewall in place between the Federal funds and the private funds.

Roe v. Wade is still the law of the land. I know a lot of my colleagues would like to see it overturned. They would like to make abortion illegal at the earliest stages. They would like to criminalize it. They would like to put women and doctors in jail. The fact is, Roe v. Wade is the law of the land. At the early stages of a pregnancy, a woman has a right to choose. That is the law. Later on, she can't do it. There are restrictions for her, hurdles for her. That is what Roe does.

There are many people, particularly on the other side of the aisle—more than on our side, for sure—who want to overturn Roe. They know they can't do it because the vast majority of the people support a woman's right to choose at the early stages of a pregnancy. So what can they do? They can make it impossible for her to access a doctor for this procedure. In this bill, they go after her insurance. It is surprising to me that such an amendment could pass the House, but it did.

I am asking my colleagues, women and men, both sides of the aisle, to please stand up for equality. Please don't single out women. What have women done to deserve this? They are our mothers, our daughters, our grandmas. They serve in the military with dignity. Why punish them this way? Why have such a lack of respect for them that they can't even get reproductive health care with their own private funds? It is, to me, such a rollback of women's rights.

I believe we will defeat this in the Senate. I believe Senator REID deserves a lot of credit because what he did in the underlying bill is preserve the status quo—no Federal funds for abortion, not a dollar, but a woman can use her own private funds to buy health insurance.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Arizona.

MOTION TO COMMIT

Mr. MCCAIN. Madam President, as is the agreed-upon procedure by the two leaders, I send a motion to commit to the desk with instructions, as part of

the side-by-side procedure that has been agreed to by the majority leader and the minority leader, and ask for its consideration.

The ACTING PRESIDENT pro tempore. The clerk will report.

The legislative clerk read as follows: The Senator from Arizona [Mr. McCAIN] moves to commit the bill (H.R. 3590) to the Committee on Finance with instructions.

Mr. McCAIN. I ask unanimous consent that reading of the motion be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The motion is as follows: Motion to commit the bill H.R. 3590 to the Committee on Finance with instructions to report the same back to the Senate with changes that include applying the amendments made by section 3201(g) (related to Grandfathering Supplemental Benefits for Current Enrollees) to all individuals enrolled in a Medicare Advantage plan under part C of title XVIII of the Social Security Act as of the date of enactment, in order to ensure the following:

That the 10,600,000 seniors enrolled in Medicare Advantage can continue to keep the benefits they have and may continue to benefit from the protection against traditional Medicare's significant out-of-pocket costs, wellness programs, and vision, hearing, and dental benefits that they have come to rely on.

That the Senate does not cut benefits in a program that disproportionately benefits low-income and minority seniors by providing protection from higher out-of-pocket spending.

That the approximately \$5,000,000,000 "Grandfathering" protections under the amendments made by section 3201(g), which provide Medicare Advantage enrollees in certain States, including Florida, protection from a 64 percent cut in benefits under the Medicare Advantage program under part C, are also provided to the following:

The 181,304 Medicare Advantage enrollees in Alabama.

The 462 Medicare Advantage enrollees in Alaska.

The 329,157 Medicare Advantage enrollees in Arizona.

The 70,137 Medicare Advantage enrollees in Arkansas.

The 1,606,193 Medicare Advantage enrollees in California.

The 198,521 Medicare Advantage enrollees in Colorado.

The 94,181 Medicare Advantage enrollees in Connecticut.

The 6,661 Medicare Advantage enrollees in Delaware.

The 7,976 Medicare Advantage enrollees in the District of Columbia.

The 946,836 Medicare Advantage enrollees in Florida.

The 176,090 Medicare Advantage enrollees in Georgia.

The 79,386 Medicare Advantage enrollees in Hawaii.

The 60,676 Medicare Advantage enrollees in Idaho.

The 176,395 Medicare Advantage enrollees in Illinois.

The 148,174 Medicare Advantage enrollees in Indiana.

The 63,902 Medicare Advantage enrollees in Iowa.

The 43,867 Medicare Advantage enrollees in Kansas.

The 110,814 Medicare Advantage enrollees in Kentucky.

The 151,954 Medicare Advantage enrollees in Louisiana.

The 26,984 Medicare Advantage enrollees in Maine.

The 56,812 Medicare Advantage enrollees in Maryland.

The 199,727 Medicare Advantage enrollees in Massachusetts.

The 406,124 Medicare Advantage enrollees in Michigan.

The 284,101 Medicare Advantage enrollees in Minnesota.

The 44,772 Medicare Advantage enrollees in Mississippi.

The 195,036 Medicare Advantage enrollees in Missouri.

The 27,592 Medicare Advantage enrollees in Montana.

The 30,571 Medicare Advantage enrollees in Nebraska.

The 104,043 Medicare Advantage enrollees in Nevada.

The 13,200 Medicare Advantage enrollees in New Hampshire.

The 156,607 Medicare Advantage enrollees in New Jersey.

The 73,567 Medicare Advantage enrollees in New Mexico.

The 853,387 Medicare Advantage enrollees in New York.

The 251,738 Medicare Advantage enrollees in North Carolina.

The 7,633 Medicare Advantage enrollees in North Dakota.

The 499,819 Medicare Advantage enrollees in Ohio.

The 84,980 Medicare Advantage enrollees in Oklahoma.

The 249,993 Medicare Advantage enrollees in Oregon.

The 864,040 Medicare Advantage enrollees in Pennsylvania.

The 400,991 Medicare Advantage enrollees in Puerto Rico.

The 65,108 Medicare Advantage enrollees in Rhode Island.

The 110,949 Medicare Advantage enrollees in South Carolina.

The 8,973 Medicare Advantage enrollees in South Dakota.

The 233,024 Medicare Advantage enrollees in Tennessee.

The 532,242 Medicare Advantage enrollees in Texas.

The 85,585 Medicare Advantage enrollees in Utah.

The 3,966 Medicare Advantage enrollees in Vermont.

The 151,942 Medicare Advantage enrollees in Virginia.

The 225,918 Medicare Advantage enrollees in Washington.

The 249,027 Medicare Advantage enrollees in West Virginia.

The 243,443 Medicare Advantage enrollees in Wisconsin.

The 3,942 Medicare Advantage enrollees in Wyoming.

Mr. McCAIN. Madam President, the motion I am offering would simply commit the bill back to the Finance Committee for a short period to apply the same grandfathering provision in this legislation to all Medicare Advantage beneficiaries, the provision in the bill as it is specifically drafted, to prevent the drastic Medicare Advantage cuts from impacting some seniors in Florida, which compare to the cuts facing Medicare Advantage enrollees in the rest of Florida and the rest of

America, including the 330,000 Medicare Advantage enrollees in my State.

Basically, this motion says that the same benefits that have been granted in the legislation to citizens in Florida would also apply to citizens who are enrollees in the Medicare Advantage Program all over America. It is pretty simple.

Specifically, starting in 2012, this motion would accomplish a fix that allows all Medicare Advantage enrollees to maintain the current levels of benefits on the date of enactment. That would be in keeping with the sense-of-the-Senate resolution that was agreed to by the Senator from Colorado, Mr. BENNET, that called for all Americans to be able to keep the same level of benefits as they presently have today under Medicare and Medicaid.

During the Finance Committee markup, the senior Senator from Florida advocated in favor of treating certain Medicare Advantage enrollees in Florida better than the rest of America's seniors under Medicare Advantage.

Let me read from two articles written at the time of the Senate Finance Committee's deliberation. From the New York Times, "Senator Tries to Allay Fears on Health Overhaul," September 24, 2009:

But Mr. Nelson, a Democrat, has a big problem. The bill taken up this week by the committee would cut Medicare payments to insurance companies that care for more than 10 million older Americans, including nearly one million in Florida. The program, known as Medicare Advantage, is popular because it offers extra benefits, including vision and dental care and even, in some cases, membership in health clubs or fitness centers.

"It would be intolerable to ask senior citizens to give up substantial health benefits they are enjoying under Medicare," said Mr. Nelson, who has been deluged with calls and complaints from constituents. "I am offering an amendment to shield seniors from those benefit cuts."

Pretty simple. The Senator from Florida believes there would be cuts to the Medicare Advantage Program, and he was able to get into this bill an exemption for some 950,000 enrollees in Medicare Advantage in Florida. Admirably, the Senator from Florida was able to insert in this bill protection for 800-some or 900-some thousand constituents of his who are Medicare enrollees. There are 330,000 of them in my State who are seniors, who have paid into Medicare, who have the Medicare Advantage Program which, under the legislation, with the exception of the carve-out for the citizens in Florida by Mr. NELSON, would also then lose their benefits.

Similar concerns exploded into public view on Wednesday as members of the Finance Committee slogged through a mammoth health care overhaul bill for a second day.

Senator Nelson said Republicans were waging a "scare campaign," but he shares some of their concerns. His predicament highlights the political risks for Democrats eager to reassure older Americans who vote in large numbers.

There are risks for President Obama as well. He cannot afford to lose Mr. Nelson's vote. White House officials have offered to work with him to address his concerns. Mr. Obama has said repeatedly that "if you like your health care plan, you will be able to keep it."

That is one of the remarkable statements that is obviously contradicted by anybody who reads this bill. Any one of 11 million Americans, with the exception of Senator NELSON's constituents, who are under Medicare Advantage will see cuts in Medicare Advantage. That is a fact. If those 11 million Americans like their health care plan, they will not be able to keep it.

The cost of Mr. Nelson's proposed fix—to preserve benefits for many people enrolled in the private Medicare plans—could total \$40 billion over 10 years, and that could also be a problem for the White House. Mr. Obama has promised not to sign a health bill that increases the deficit, and so far Mr. Nelson has not said precisely how he would pay for his amendment.

Approval of the amendment could invite other Democrats to ask for similar deals that might make the bill more palatable to their constituents, but more costly as well.

Well, since that September article, obviously other Senators have asked for the same shielding of their constituents who are enrolled in Medicare Advantage.

An October 20, 2009, Bloomberg story, "Reid Leads Democrats into Carving Out Favors for States on Health."

Democrats such as Senator Bill Nelson of Florida and Ron Wyden of Oregon secured provisions setting aside \$5 billion to shore up benefits for constituents who participate in Medicare Advantage. That program allows private insurers to contract with the government to provide Medicare benefits. Nelson said the aid isn't directed solely at Florida. "It affects several States, including New York," he said. "We're trying to grandfather in seniors so they don't lose the benefits they have."

Well, I am trying to carry out Senator NELSON's ambition. Senator NELSON said that, in effect, several States, including New York, are trying to grandfather in seniors so they don't lose the benefits they have. That is exactly what this motion is all about.

I assume I can expect Senator NELSON's affirmative vote, along with all others listed in the motion of the 11 million people who are under Medicare Advantage in their States.

And the deal-making continues. We have now learned about the special provisions in the 2,000-page legislation designed for certain Senators—I might add, at the expense of Medicare Advantage members in other States and the American taxpayer. We have had to read about such deals because they have been cut in secret closed meetings without the benefit of the C-SPAN cameras, as promised. Just the other day, it came to light that this legislation has special provisions for Oregon, New York, and a special one in Florida. I have had a conversation with Senator WYDEN of Oregon, and he says that is

not the case. I will certainly take Senator WYDEN's word for it.

I want the same protections extended to all seniors. That is all this motion is about—the same protection for all seniors, no special deals for any constituents related to the State in which they reside or the influence of their elected representatives. That is not the way we should treat seniors who have paid into Medicare Advantage.

The special carve-out for some Florida seniors is quite interesting. Despite beneficiaries in Florida hearing the President's promises about being able to keep what you have, it appears the 950,000 Medicare Advantage enrollees in Florida aren't satisfied with the Democrats' promises to protect so-called guaranteed benefits. Medicare Advantage beneficiaries in Florida thought they would be able to keep the Medicare Advantage benefits that provide protection from high cost sharing in traditional Medicare, wellness programs, and vision, hearing, and dental benefits upon which they have come to rely.

However, when Florida beneficiaries learned they were not going to be able to keep what they have—in fact, they were going to see a 64-percent cut in benefits—a deal benefiting some at the expense of other Medicare Advantage beneficiaries and taxpayers was added in exchange for support to move forward on the cuts.

Let me point out, despite attempting to protect hundreds of thousands of Florida seniors from benefit cuts, Senator NELSON's deal still leaves approximately 150,000 Florida seniors and seniors across the country unprotected. So even in the proposed deal that was cut, Senator NELSON was willing to leave 150,000 beneficiaries subject to Medicare Advantage cuts.

The Medicare Advantage Program is a program that had bipartisan support and the support of 11 million seniors who are enrolled in the program.

Just a few short years ago, when Congress enacted the Medicare Modernization Act, new funding was intentionally provided to stabilize the Medicare health plan program. This was one of the few issues on which there was strong bipartisan agreement during the 2003 Medicare debate. It was done to ensure seniors all across America had access to an option in the Medicare Program, an option for additional, better benefits than are available under the traditional Medicare Program.

In June 2003, several of our colleagues, including Senator SCHUMER and Senator KERRY, offered a bipartisan amendment on the Senate floor to provide additional funding for benefits under the Medicare Advantage Program. So I find it a little interesting that Members on the other side want to cut benefits to seniors now. Even though they supported the funding before, they now want to cut them.

Later in 2003, as the Medicare conference committee was completing its deliberations, a bipartisan group of 18 Senators signed a letter urging the conferees to provide a meaningful increase in Medicare Advantage funding. This letter was signed by a diverse group of our colleagues, including Democratic Senators such as DIANNE FEINSTEIN, CHRISTOPHER DODD, RON WYDEN, FRANK LAUTENBERG, PATTY MURRAY, ARLEN SPECTER, MARY LANDRIEU, and MARIA CANTWELL.

Here is a letter dated September 30, 2003. It says "United States Senate," and it is signed by a number of Senators, including my colleague, Senator KERRY. It says:

Dear Medicare conferee:

We are writing to ask you, as a member of the Medicare conference committee, to ensure that the final Medicare bill includes a meaningful increase in Medicare+Choice funding in fiscal years 2004 and 2005.

So I guess my friend and colleague, Senator KERRY, was against cuts in funding before he was for them. He was against them before he was for them. So anyway it goes on to say:

We strongly support additional Medicare+Choice funding for two very important reasons: (1) to protect the health care choices and benefits of the nearly 5 million Medicare beneficiaries who are currently enrolled in private sector health plans; and (2) to strengthen the foundation for future health plan choices.

We believe that the Medicare+Choice funding provisions . . . are critically important to preserving choice and quality for America's seniors. We urge you to include these provisions in the final bill reported out of the Medicare conference committee.

Since then the Medicare Advantage Program has been popular enough so that 11 million of our senior citizens have joined the program. I think that is a pretty impressive number of people who have decided to join the program. So I urge my colleagues to vote for this motion, just to give equal access to a very popular program to all citizens rather than just give it to several hundred thousand who happen to live in a certain part of the country.

Mrs. BOXER. Madam President, will the Senator yield for just a brief question on time, I say to Senator MCCAIN?

I just wondered how much longer the Senator was going to go because we have people waiting on both sides to speak up to 10 minutes.

Mr. MCCAIN. I am not sure.

So, Madam President, recently there was an article in the North County Times from San Diego, dated Saturday, December 5, 2009.

I would say to the Senator from California, in response to her question, this is a very important issue, as the Senator from California just pointed out. I have a lot to say on it, and I have waited my turn to speak. In keeping with the procedures that are in keeping with the agreement between the two leaders, I do not expect to be too much

longer, but I do not expect to curtail my remarks on this very important issue at 5:20 p.m. in the afternoon.

So here is an article from the North County Times from San Diego, dated December 5, 2009: "REGION: State ends subsidy for mammograms to low-income women under 50." I repeat: "State ends subsidy for mammograms to low-income women under 50." It goes on to say:

The eligibility age for state-subsidized breast cancer screening has been raised from 40 to 50 by the California Health and Human Services Agency, which will also temporarily stop enrollment in the breast cancer screening program.

Advocates for low-income women, whose health care the department helps pay for, say the cuts put a two-tier system in place that is based on money rather than medical standards.

The cuts will greatly harm the clinic's mammogram program, said Natasha Riley, manager of Vista Community Clinic's Breast Health Outreach and Education Program.

The clinic and others like it in San Diego County provide reduced-cost care, mostly to low-income people, with money from the state and some private donations.

"More than 50 percent of the women we give breast exams and mammograms to are in their 40s," Riley said. "The majority of our current breast cancer survivors are women in their 40s."

The state's decision, announced Dec. 1 and effective Jan. 1, follows a controversial federal recommendation last month that mammograms before the age of 50 are generally not needed.

So now we see the Federal recommendation that was made last month—that mammograms before the age of 50 are generally not needed—is now being implemented in the State of California.

Moreover, private health care systems such as Scripps Health have rejected the federal task force's recommendation, choosing instead to keep the existing standard, which calls for a mammogram at age 40, with annual mammograms thereafter.

That means doctors will be using two medical practice guidelines, distinguished not by knowledge but by the pocketbook, said Dr. Jack Klausen, a gynecologist and obstetrician who practices at Vista Community Clinic.

"If we are in a situation where we don't screen, but the private-practice doctor can screen, then we are actually not practicing to the standard of care," Klausen said.

Madam President, I ask unanimous consent that this entire article be printed in the RECORD. I certainly hope that a decision like this would not be implemented in discrimination against low-income women in the State of California.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the North County Times, Dec. 7, 2009]

REGION: STATE ENDS SUBSIDY FOR MAMMOGRAMS TO LOW-INCOME WOMEN UNDER 50

(By Bradley J. Fikes)

The eligibility age for state-subsidized breast cancer screening has been raised from 40 to 50 by the California Health and Human

Services Agency, which will also temporarily stop enrollment in the breast cancer screening program.

Advocates for low-income women, whose health care the department helps pay for, say the cuts put a two-tier system in place that is based on money rather than medical standards.

The cuts will greatly harm the clinic's mammogram program, said Natasha Riley, manager of Vista Community Clinic's Breast Health Outreach and Education Program.

The clinic and others like it in San Diego County provide reduced-cost care, mostly to low-income people, with money from the state and some private donations.

"More than 50 percent of the women we give breast exams and mammograms to are in their 40s," Riley said. "The majority of our current breast cancer survivors are women in their 40s."

The state's decision, announced Dec. 1 and effective Jan. 1, follows a controversial federal recommendation last month that mammograms before the age of 50 are generally not needed.

However, the public health department also linked the change to California's budget woes.

The federal recommendation, made Nov. 16 by the U.S. Preventive Services Task Force, has encountered strong opposition.

The task force later retreated a bit, adjusting its recommendation to state that mammograms for women ages 40 to 49 should be considered by their doctors on an individual basis.

Moreover, private health care systems such as Scripps Health have rejected the federal task force's recommendation, choosing instead to keep the existing standard, which calls for a mammogram at age 40, with annual mammograms thereafter.

That means doctors will be using two medical practice guidelines, distinguished not by knowledge but by the pocketbook, said Dr. Jack Klausen, a gynecologist and obstetrician who practices at Vista Community Clinic.

"If we are in a situation where we don't screen, but the private-practice doctor can screen, then we are actually not practicing to the standard of care," Klausen said.

In its announcement, the state said the cuts were needed because of a projected budget shortfall for the California Department of Public Health, and from declining revenue from tobacco taxes.

However, it did not say how much money it expected to save.

Calls to the department were not returned Friday.

The policy puts lives at risk, said Barbara Mannino, CEO of Vista Community Clinic.

"I bet you everybody knows a woman who was diagnosed in her 40s, and her life was saved by a mammogram, or lost because it was too late," Mannino said, just before leaving for her own mammogram.

And she said that little money would be saved, because all the equipment and staff to provide mammograms is already in place.

There is a difference of opinion in the medical community about when mammograms, an X-ray of the breast, should be used.

Mammograms sometimes give false alarms, with the incidence of false positives especially high for women in their 40s.

Estimates are that 10 percent to 15 percent of mammograms give false positives, experts say.

False negatives, in which the cancer is present but the mammogram seems normal, occurs 20 percent of the time, according to the National Cancer Institute.

However, false negatives become less frequent with age.

But the benefits in finding cancers when they are more easily treatable outweigh the drawbacks, Mannino and Klausen said.

And Scripps' breast cancer task force said that because 28 percent of women newly diagnosed with breast cancer are younger than 50, the number of lives saved outweighs the additional cost.

Klausen said the federal panel was trying to "create a best-practices (standard) from a monetary point of view," to provide the most health care for all, out of a limited budget.

Women who get false positives on mammograms not only undergo stress, but they must go through other tests, only to find out there's nothing wrong.

That adds costs to the system without providing any better health care, according to the federal panel's reasoning.

However, Klausen said the state has taken that reasoning too far, putting too much emphasis on saving money.

"What makes me really worried is that the California Department of Public Health wants to save money by taking away a cancer-detection program," Klausen said. "That discriminates against a gender, and also discriminates against an income level. And it also discriminates against how community clinics can practice medicine."

Mr. MCCAIN. Madam President, I have found that the debate on the floor has been invigorating. I have found it to be educational not only to the Members of this body, and this Senator in particular, but I think to all Americans. Believe it or not, a lot of the deliberations and the debate and discussion we have had on the Senate floor have been vigorous. They have been sometimes passionate because this is such an important issue—issues such as the one I just discussed—and they have been sometimes tough.

But I must say, I have always tried to be respectful of the views of my colleagues, even though we have had some—especially the Senator from Illinois, the distinguished whip of the Democratic Party, whom I have engaged vigorously—but they have always been respectful debates. I intend to maintain that respect, as I have throughout my career. But I do not mean that means I will not be passionate.

So I was astonished—I was astonished—and taken aback to see a foxnews.com article that just crossed my desk titled: "Reid Compares Opponents of Health Care Reform to Supporters of Slavery."

Senate Majority Leader Harry Reid took his GOP-blasting rhetoric—

I am quoting from the article—to a new level Monday, comparing Republicans who oppose health care reform to lawmakers who clung to the institution of slavery more than a century ago.

Senate Majority Leader Harry Reid took his GOP-blasting rhetoric to a new level Monday, comparing Republicans who oppose health care reform to lawmakers who clung to the institution of slavery more than a century ago.

The Nevada Democrat, in a sweeping set of accusations on the Senate floor, also compared health care foes to those who opposed

women's suffrage and the civil rights movement—even though it was Sen. Strom Thurmond, then a Democrat, who unsuccessfully tried to filibuster the Civil Rights Act of 1957 and it was Republicans who led the charge against slavery.

So not only was Senator REID wrong in his accusations, Senator REID was also incorrect in who opposed slavery and who supported the Civil Rights Act. But that is not the important point. The important point, as the article goes on to say:

But Reid argued that Republicans are using the same stalling tactics employed in the pre-Civil War era.

And I quote from the article that is quoting Senator REID:

"Instead of joining us on the right side of history, all the Republicans can come up with is, 'slow down, stop everything, let's start over.' If you think you've heard these same excuses before, you're right," Reid said Monday. "When this country belatedly recognized the wrongs of slavery, there were those who dug in their heels and said 'slow down, it's too early, things aren't bad enough.'"

He continued: "When women spoke up for the right to speak up, they wanted to vote, some insisted they simply, slow down, there will be a better day to do that, today isn't quite right."

"When this body was on the verge of guaranteeing equal civil rights to everyone regardless of the color of their skin, some senators resorted to the same filibuster threats that we hear today."

That seemed to be a reference to Thurmond's famous 1957 filibuster—the late Senator switched parties several years later.

Sen. Orrin Hatch, R-Utah, said Reid's remarks were over the top.

"That is extremely offensive," he told Fox News. "It's language that should never be used, never be used. . . . Those days are not here now."

Sen. Saxby Chambliss, R-Ga., suggested Reid was starting to "crack" under the pressure of the health care reform debate.

"I think it's beneath the dignity of the majority leader," Sen. Tom Coburn, R-Okla., said. "I personally am insulted."

So this is a debate which has been spirited. This has been a debate which has been passionate. This has been a debate that I think has been very helpful to the American people. Some of the back and forth that I have seen I think has been excellent. It has been excellent debate and discussion. I enjoyed it when the Senator from Montana and I had a discussion about various endorsements. I appreciated the fact that Senator DURBIN brought my record to light and questioned it. But, most importantly, most of the conversation has been about the components of this bill and its impact on the future of America.

So to somehow compare—as this article says—we who believe firmly in the principles that are being violated by this 2,000-page legislation to people who supported slavery, I would very much appreciate it if Senator REID would come to the floor and, if not apologize certainly clarify his remarks that he was not referring to those of us

who believe we are carrying out and performing our constitutional duties; that is, acting in the best interests of our constituents on an issue that will impact the future of the United States of America for years and years and years.

Madam President, I ask unanimous consent that the foxnews.com article be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

REID COMPARES OPPONENTS OF HEALTH CARE REFORM TO SUPPORTERS OF SLAVERY

Senate Majority Leader Harry Reid took his GOP-blasting rhetoric to a new level Monday, comparing Republicans who oppose health care reform to lawmakers who clung to the institution of slavery more than a century ago.

The Nevada Democrat, in a sweeping set of accusations on the Senate floor, also compared health care foes to those who opposed women's suffrage and the civil rights movement—even though it was Sen. Strom Thurmond, then a Democrat, who unsuccessfully tried to filibuster the Civil Rights Act of 1957 and it was Republicans who led the charge against slavery.

Senate Republicans on Monday called Reid's comments "offensive" and "unbelievable."

But Reid argued that Republicans are using the same stalling tactics employed in the pre-Civil War era.

"Instead of joining us on the right side of history, all the Republicans can come up with is, 'slow down, stop everything, let's start over.' If you think you've heard these same excuses before, you're right," Reid said Monday. "When this country belatedly recognized the wrongs of slavery, there were those who dug in their heels and said 'slow down, it's too early, things aren't bad enough.'"

He continued: "When women spoke up for the right to speak up, they wanted to vote, some insisted they simply, slow down, there will be a better day to do that, today isn't quite right."

"When this body was on the verge of guaranteeing equal civil rights to everyone regardless of the color of their skin, some senators resorted to the same filibuster threats that we hear today."

That seemed to be a reference to Thurmond's famous 1957 filibuster—the late senator switched parties several years later.

Sen. Orrin Hatch, R-Utah, said Reid's remarks were over the top.

"That is extremely offensive," he told Fox News. "It's language that should never be used, never be used. . . . Those days are not here now."

Sen. Saxby Chambliss, R-Ga., suggested Reid was starting to "crack" under the pressure of the health care reform debate.

"I think it's beneath the dignity of the majority leader," Sen. Tom Coburn, R-Okla., said. "I personally am insulted."

Mr. MCCAIN. So if I could return to my amendment. My amendment would make sure every beneficiary is protected and receives equal treatment. I would expect strong bipartisan support, since I think we would all like to see the same protections guaranteed for our own constituents. I know the Senator from Pennsylvania will appreciate this amendment, since he filed

his own amendment to spend \$2.5 billion in taxpayers' dollars to protect Medicare Advantage beneficiaries in Pennsylvania. I guess the 864,000 Medicare Advantage beneficiaries in Pennsylvania weren't satisfied with the promise to protect so-called guaranteed benefits either.

This motion to commit is straightforward and will help the President keep his promise that if you like your health insurance you have today, the policy you have today, you can keep it, and will protect 10.6 million Medicare Advantage beneficiaries from at least a 64-percent cut in benefits.

May I say, again, I think it has been an important debate we have engaged in. I do not and will not impugn the motives or the integrity of those who are sponsors of this legislation. Yes, I will argue we didn't keep the President's promise and commitment over a year ago during the Presidential campaign when he said he would have the C-SPAN cameras in, that there would be bipartisan negotiations with the C-SPAN cameras in, with Republicans and Democrats sitting down together so, in his words, the American people could see who is on the side of the health insurance companies and the special interests and who is on the side of the American people. I think that is a legitimate statement and a legitimate questioning as to the process that is taking place today, where there have been no negotiations with the Members on this side and there has been no C-SPAN camera included where these negotiations are taking place. So I hope there will be. I hope this legislation is defeated. I hope we can go back and sit down together, Republicans and Democrats, and agree on medical malpractice reform, on crossing State lines to be able to get the best insurance policy for every citizen and their family, to emphasize wellness and fitness and reward it, and to enact outcome-based treatment for our patients. I hope we can produce a lot of measures and take a lot of significant steps that would truly reduce the cost of health care in America, not enact a \$2.5 trillion new entitlement program that is a scam. It is a scam because of the way the budgetary process has been set up. Right now, today, I can go out and buy an automobile, and I don't have to make a payment for a year. Under this proposal, you start making the payments and 4 years later you get the benefits. That is Enron accounting.

I hope my colleagues will allow us to continue this spirited debate and discussion. I say, with the greatest respect, these are tough issues and there are strong differences of opinion. But I think, overall, this debate and discussion is good for the American people and, hopefully, the outcome will be one where we will be better informed and can better address the issue of the skyrocketing costs of health care in America and our ability to provide them

with affordable and available health care.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from New York.

Mrs. GILLIBRAND. Madam President, I ask unanimous consent that no further amendments be in order during today's session.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mrs. GILLIBRAND. I yield the floor now to Senator MIKULSKI for 10 minutes.

The ACTING PRESIDENT pro tempore. The Senator from Maryland.

Ms. MIKULSKI. Madam President, I rise to speak on the bill as well as in opposition to the Nelson of Nebraska amendment on the subject of abortion.

First of all, I truly believe health care reform is the most important social justice vote we will cast in this decade. Why? Because we are talking about providing universal access to health care, which I believe is a basic human right and should be a fundamental American right. That is why health care reform is so important: To provide universal access to health care and, in this bill, ending the punitive practices of insurance companies against women, particularly in the area of gender discrimination, where we pay more and get less in our benefit package, as well as where simply being a woman is often treated as a pre-existing condition.

Eight States consider domestic violence a preexisting condition and you can't get insurance. One woman who had a medically mandated C-section was told she couldn't get insurance again unless she had a sterilization—coerced sterilization in the United States of America. I thought that is what they did in Nazi Germany or in old Communist China.

The other thing this bill does is strengthen and stabilize Medicare to make sure seniors have access to health care at all ages and all stages.

I consider these principles to be pro-life. I think the health care bill we are debating is as pro-life as can be because what other thing helps maintain, protect, save, or deal with impaired life better than providing universal access to health care? A famous pastor by the name of Rick Warren, who has written the great book that has inspired so many, "The Purpose Driven Life," talks not about pro-life but whole-life principles. I think being able to see a doctor or an appropriate health care professional saves lives, and I view this vote on health care reform as the most important pro-life or whole-life vote anyone can cast.

I agree with Pastor Rick Warren when he uses that principle. I believe in seeing a doctor when you need one, in saving a life, or in getting the health care you need so you don't lose an eye

from diabetes, you don't lose your kidney, you don't lose your foot or, if you are pregnant and diabetic, you don't lose your child. We want to make sure women have access to mammograms, that the men we love and who love us have access if they have high blood pressure—and sometimes they have it because they don't have health care for their family—or prostate cancer. I believe that is what whole life is.

So with this bill, I believe supporting screening for diabetes is pro-life, cervical cancer screening is pro-life, but, most of all, if you want people to have healthy pregnancies, healthy childbirth, healthy babies, they need access to health care. So that is why I say voting for universal access to health care is as pro-life as you can be.

Making this debate about abortion, I believe, is misguided and wrong. First of all, in the bill, we already deal with this topic. In the interest of passing health care reform, I believe we deal with this sensitive topic in a sensitive way. We rejected shrill and strident amendments on both sides. For example, we did not seek to change the settled language regarding abortion that is the Hyde amendment.

There were those in the exuberance of last year's election who said: Oh, let's get rid of Hyde. Many of us took that position, trying to find that sensible center. We are principled and whole-life people as well. We said: Let's keep the Hyde amendment. It is settled language. I don't use the term "settled law" because that is a precise legal term, and I know my colleague from Pennsylvania and others can argue that, but Hyde is settled language.

What does the Hyde amendment that has been around for almost 30 years do? It prohibits any Federal funds to be used directly for abortions, except in the case of rape, incest, or when the life of the mother is at risk. It has additional provisions that provide a conscious clause to protect providers who do not want to provide abortions. This bill does not seek to change the underlying premise of the Hyde amendment which, as I said, I regard as settled language of 30 years ago.

The pending Senate bill goes even further than Hyde. It was legislation that came out of the Finance Committee, and I salute them for, once again, trying to find a sensible center, engaging in civil and rational dialogue. I wish to compliment them on their efforts. However, the other side keeps changing the midpoint. By seeking a greater good, many of us agreed to what was in the Finance bill. Quite frankly, it went further than I would have liked if I were writing the bill, but, again, in the interest of comity we would keep this debate on the issue of providing health care and not turn it into an abortion debate.

What does what came out of the Finance Committee and what is in the

merged bill do? It says loudly, clearly, and consistently: No Federal funds can be used to pay for the coverage of abortion, and it does it by separating out funds so no public money from Federal credits or subsidies would be used for abortions. What more can we ask anyone to do? Under the pending bill, health care plans cannot be required to cover abortion. Health care plans can choose to cover or not cover it, and State laws regarding abortion are not preempted. It, again, includes the longstanding practice of a strong conscience clause for either individual providers or institutions—for example, Catholic hospitals—from performing abortions if it is against their conscience.

I believe what we have done is found the sensible center, and it leaves the decision in the hands of patients and doctors, not politicians or insurance executives. So the question is not what is decided but who decides. I believe it should be in the hands of patients and doctors, not politicians or insurance executives.

Let's go to Nelson, which is a Senate version of Stupak. I reject the Ben Nelson amendment. I believe it is unnecessary. I believe it is unneeded. I believe it is uncalled for. It goes further than Hyde because it prohibits the public option from covering abortions and it prohibits individuals receiving Federal insurance subsidies from purchasing a plan that covers abortion and, even if you use your own money, it cannot be used for abortion.

It also allows women to purchase an abortion rider. Oh, boy. Is this supposed to be a big deal? Is this supposed to be the kind of thing that is supposed to make us happy? What an insulting, humiliating thing to say: If you want an abortion, go buy a rider. I think it demonizes women. Why don't you go into the workplace and paint a scarlet letter on your head. Hawthorne still lives in the Nelson amendment. Let's paint the "A word" on your forehead. Can you believe this? I don't know of any individual woman or any woman in consultation with the man she loves and who loves her saying: Yes, you know, we might have an abortion. Why don't we buy that rider. Nobody plans to have an abortion. It is not the subject of intimate conversations that families talk about as they plan their lives together. Do you realize the intense discrimination a woman would face? How about: Why don't we have men buy an abortion rider for the women they get pregnant? Let them buy the abortion rider. Maybe we can even give them a discount.

We are hot about this, and we are cranky about it because there is no need to do it like this. We have tried, at every step of the way, to handle this topic with great respect because there are people with principles. We are all people of principle. Some use the term

“pro-life.” I use the term “whole life.” What are the rest of us? Do you think I am anti-life?

All my life as a social worker, I have fought for social justice. I fought for access to health care. And to say I am going to support a bill that denies access to services for most women in the exchange—anyway, I think this thing goes further than Hyde, and we should be debating health care, not abortion. This legislation on the Senate floor should be about women’s health, like the debate we had last week about prenatal health care, how to improve delivery systems for greater survival and how to minimize birth defects. That is what it should be.

Women’s health care decisions should be made by the women, in consultation with their doctor. The Patient Protection and Affordable Care Act is what we believe is a wonderful compromise, and it rejects these strident viewpoints. The most pro-life thing we can do is pass universal access to health care. The most pro-life thing we can do is stabilize Medicare so people have health care at all ages and all stages.

So reject the Nelson amendment, and if you are pro-life, vote for the Senate merged bill.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Iowa is recognized.

Mr. GRASSLEY. Madam President, for the benefit of my colleagues waiting to speak, I don’t think I will speak much more than 10 minutes. Before I speak on my purpose for coming to the floor to support Senator MCCAIN’s amendment, I want to take a couple of minutes to go over a source of information that is no longer credible, which has been used in debate on the floor several times, used throughout the year—information that has been in letters to the editor of Iowa newspapers.

The most recent hearing of this was when the Senator from California rose to talk about the quality of our health care and the reference to the fact that the United States is 37th out of all of the nations of the world in quality of health care.

I don’t deny we have to do a lot to improve the quality of health care in America. I even admit that in this legislation, though I oppose the bulk of this 2,074-page bill, there is a lot in the bill that has to do with the enhancing of the quality of care.

We keep hearing about the United States being 37th in quality. That comes from a World Health Organization analysis that was made back in the year 2000, ranking the United States among all the other nations. It is a 10-year-old report that was flawed in its analysis at the very outset. Yet it is repeated as if gospel truth by almost anybody who wants to denigrate America’s health care system and build a case for this monstrosity of a bill we

have before us. When I call it a monstrosity, I will say it has some very good provisions in it that would enhance the quality of care. The World Health Organization no longer produces such a ranking table because of the complexities of the task. The rankings were flawed because they judged health care systems for problems—cultural, behavioral, and economic—that are not controlled by health care. There is no differentiation between the quality of medical systems and other factors, such as diet, exercise, and violent crime rates, which ought to be taken into consideration when considering a nation’s delivering quality of health care.

The editor in chief of this 2000 report of the World Health Organization, Philip Musgrove, called the figures “... many made-up numbers,” and the result a “nonsense ranking.” Dr. Musgrove, an economist who is now deputy editor of the journal *Health Affairs*, said he was hired to edit the report’s text but didn’t fully understand the methodology until after the report was released. Once he left the World Health Organization, he wrote an article in 2003 for the medical journal *Lancet* criticizing the rankings as “meaningless.”

The U.S. health system spends more than any other country per capita and was ranked 37th out of 191 due to that spending alone. Prior to considering how much we spend, the United States was ranked 15th, not 37th.

The Dominican Republic, Costa Rica, and Morocco ranked 42nd, 45th, and 94th before adjusting for spending levels. After the adjustment for spending levels, can you believe it? They ranked above the United States—35th, 36th, and 29th, respectively.

The United States ranked first in responsiveness. That means respect for persons and prompt attention. Americans understand and appreciate this quality care. This will be lost in this massive health care reform bill when the government takes more control.

Experts in the field of health, such as Mark Pearson, head of health for the Organization of Economic Cooperation and Development, OECD, was quoted as saying:

It’s a very notorious ranking. Health analysts don’t like to talk about it in polite company. It’s one of those things that we wish would go away.

I hope my colleagues will take that into consideration when they bring up the rationale for this bill, that it is because of that World Health Organization study, which I think what I said and a lot of other things you can say about it ought to put it into proper perspective.

For my support of the McCain motion to bring equalization among the 50 States for the Medicare Advantage portions of this bill, I have spent the past 28 years in Congress working to make

sure that rural Iowans have access to the same quality of health care as people living in more urban areas.

Medicare, since 1965, has been a national program. Well, it is a national program with traditional Medicare. But before we brought equity to Medicare Advantage, it wasn’t a national program. It was a program for California, Arizona, Texas, New York, Florida, Chicago, or near the Midwest, maybe Omaha. Since Medicare Advantage was not a national program, and since Medicare since 1965 has been a national program, I set out in the Medicare Modernization Act to bring equity to rural America just as we have in urban America. I fought to make sure that seniors living in rural areas would have the same choices as seniors living in Miami, New York City, or Los Angeles.

That is simply saying that wherever you live in the United States, you have Medicare—traditional Medicare. Before then, wherever you lived in the United States, in most rural areas you didn’t have Medicare Advantage. Since Medicare is a national program, people living in rural America ought to have the same choice as those in urban America.

Today that is the case. Seniors in every county in Iowa have a choice between traditional Medicare and Medicare Advantage. That is a big improvement, since prior to the Medicare Modernization Act not all Iowans had that choice. I can narrow it down to 1 out of 99 counties—Pottawattamie County, across from Omaha, had Medicare Advantage. The other 98 counties didn’t have it. I want to tell you, there are still inequities, because Iowa providers offer high-quality care that leads to less utilization. Iowans get approximately \$1,500 less per year in Medicare Advantage benefits than seniors living in Florida. Under this bill, Iowans will see even less in Medicare Advantage benefits. It looks like that won’t be the case for some lucky Floridians.

In another one of those backroom deals—a backroom deal that seemed to be needed to get 60 votes, backroom deals that are still being attempted to get 60 votes—the Senator from Florida, in one of these backroom deals, was able to secure a provision in the Finance Committee bill that would make sure that seniors in certain Florida counties are able to maintain their current benefits. I am not talking about the so-called guaranteed benefits that Democrats say they are protecting. The provision secured by the Senator from Florida will also protect additional and extra benefits for Floridians. In pushing for this amendment, the senior Senator from Florida said:

It would be intolerable to ask senior citizens to give up substantial health benefits they are enjoying under Medicare.

I guess Floridians weren’t satisfied with the promise that has been made

throughout the last 2 weeks of debate on this bill to protect the so-called guaranteed benefits. Seniors in Florida still wanted the lower cost sharing, wellness programs and vision, hearing and dental benefits they have come to rely on. Now we have the Senator from Pennsylvania filing an amendment to help Medicare beneficiaries in Pennsylvania protect their extra benefits, to get these extra benefits that people on Medicare Advantage have.

I am guessing that seniors in Pennsylvania must have also picked up on the Democrats' hollow promises to protect guaranteed benefits but not worry about other benefits. In fact, the presence of these special deals is proof that this bill is cutting Medicare benefits.

It is even proof that some Senators are worried about going back to their constituents and trying to explain the difference between cutting guaranteed and additional benefits, and explaining why they voted to cut Medicare Advantage benefits by 64 percent. Why else would these special deals be necessary?

I am here to ask my colleagues, why should seniors in Florida or Pennsylvania get to keep their extra benefits, while more than 9 million seniors in other parts of the country see an average cut of 64 percent? To quote the Senator from Florida, isn't this also intolerable?

My colleagues on the other side talk about efficiency and fairness, but they are supporting a bill that maintains the highest Medicare Advantage payments in the country, while slashing benefits in higher quality rural areas. One of those higher quality rural areas is the State of Iowa, where we are fifth in quality but near the bottom of 50 States in reimbursement on Medicare, whereas other States are fiftieth in quality and No. 1 in reimbursement on health care.

All of this doesn't sound very efficient or fair to me. Senator MCCAIN's motion is pretty straightforward. It goes State by State. I am not going to read all 50 States, but it says here that 1 million—it is going to benefit the 70,000 Medicare Advantage enrollees in Arkansas. It is going to benefit the 198,000 Medicare Advantage enrollees in Colorado. In Iowa, it is probably something in the neighborhood of 63,902. It will make sure that seniors in every other State in the country—red States and blue States—get the same deal Senator NELSON got for Florida.

A vote for the McCain amendment is simply a vote for equity. But a vote against the amendment is a vote to favor backroom deals that put the interest of a handful of Floridians above 10 million seniors across the country.

I urge my colleagues to support all seniors and vote for the McCain motion.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from New York.

#### AMENDMENT NO. 2962

Mrs. GILLIBRAND. Mr. President, I rise today in strong opposition to an amendment that has been offered by my distinguished colleague from Nebraska.

There has been a lot of misinformation about what the health care bill we are debating would mean for women and for reproductive rights. So let me please set the record straight.

The underlying legislation before us maintains a historic compromise we have had in this country by barring the use of Federal funds for the full range of reproductive services, except in cases of rape, incest, and to save a woman's life. That is the current law of the land, and the Senate bill goes to great lengths to maintain current Federal law.

The legislation would segregate private funds from public funds, so only a person's private money will contribute to their reproductive coverage. This is not an accounting gimmick, as some critics have falsely charged. In fact, this kind of arrangement is often used when public funds are given to parochial schools or other religious institutions to maintain a separation of church and state.

The Senate version would also require that at least one plan within the health insurance exchange offer a plan that covers reproductive services and one that does not. It would authorize the Secretary of Health and Human Services to audit any and all plans to make absolutely certain abortion is not being paid for with Federal dollars. This arrangement is squarely in line with the historic compromise we have had in this country for 30 years that keeps Federal funds from being used to pay for abortions.

As we debate the solution to the deepening health care crisis that has affected every citizen, business, and community in the country, this is not the time nor the place to instigate a new battle over reproductive rights and reproductive freedoms. Families and businesses that are getting buried under the weight of the current cost of health care deserve much better.

Proponents of the Stupak-Pitts amendment claim this is a continuation of current Federal law, but that is simply false. This proposal goes far beyond Federal law and will, in fact, bring about significant change and dramatic new limitations on reproductive access in this country. It establishes for the very first time restrictions on people who pay for their own private health insurance. This is not partisan spin; this is fact. A new study by George Washington University School of Public Health and Health Services concluded:

The treatment exclusions required under the Stupak/Pitts amendment will have an industry-wide effect, eliminating coverage of medically indicated abortions over time for

all women, not only those whose coverage is derived through a health insurance exchange.

This is government invading the personal lives of Americans, and it puts the health of women and young girls at grave risk.

In fact, this amendment would represent the only place in the entire health care bill where opponents are actually correct. This would truly limit access to medical care by giving the government the power to make medical decisions, not the patient or the doctor.

We all agree it is important to reduce abortions in this country, and I will continue to work in many ways to reduce unintended pregnancies and to promote adoption. However, the Stupak amendment prohibits the public plan as well as the private plans offered through the exchange, if they accept any subsidized customers, from covering any abortion services. This effectively bans full reproductive coverage in all health insurance plans in the new system, whether they are public or private.

Creating a system in which women are forced to purchase a separate abortion rider is not only discriminatory, it is ridiculous. It would require women to essentially plan for an event that occurs in the most unplanned of circumstances and often in critical emergency situations.

There are currently five States that require a separate rider for abortion coverage. In these five States, it is nearly impossible to find such a private insurance policy that covers full reproductive care. In one State, one insurance company holds 91 percent of the State's health insurance market and refuses to even offer such a rider.

There is no doubt that a lack of access to full reproductive health care puts the lives of women and girls at grave risk. The Stupak measure poses greater restriction on low-income women and those who are more likely to receive some kind of subsidy and less likely to be able to afford a supplemental insurance policy.

Denying low-income women reproductive coverage in this way is not only discriminatory, it is dangerous. Without proper coverage, women will be forced to postpone care while attempting to find the money to pay for it. Such a delay can lead to increased costs and graver health risks, particularly for these younger girls or these women will be forced to return to dangerous back-alley providers. Women and girls in America deserve better.

I am optimistic we can defeat this radical change to Federal law, pass a health care bill in the Senate that respects current law, and strip the dangerous Stupak measure during the conference process. As I said before, I think there has been a lot of misinformation about what the Stupak

measure does and the level of danger this kind of sweeping change could pose to women and girls.

This health care package must move us forward toward quality, affordable health care for every single American.

I ask my colleagues to oppose the Nelson amendment and any similar measure. I ask that we work together to preserve current law and respect the private choices made between a woman and her doctor.

Madam President, I yield the floor.

The PRESIDING OFFICER (Mrs. SHAHEEN). The Senator from Pennsylvania.

Mr. SPECTER. Madam President, I have sought recognition to join Senator BOXER, Senator MIKULSKI, and Senator GILLIBRAND in opposing the Stupak amendment.

The controversy set forth on this issue has been debated in this body and in the House since the Hyde amendment was enacted in 1977. What is attempted by the pending amendment in the Senate and the Stupak amendment in the House is to alter that to the disadvantage of a woman's right to choose.

The decision in *Roe v. Wade* in 1973 was admittedly and obviously viewed as a landmark decision which recognizes the constitutional right of a woman to choose. There have been some limitations drafted as we have moved through the process. We have had many debates on this floor on the Mexico City policy, and many aspects have been subject to challenge. But the provision which is in the bill presented by the distinguished majority leader, Senator REID, the pending bill, maintains careful delineation which has been worked out up until this time; that is, there would not be any Federal funds used for abortion, but there would be no limitation on the ability of a woman to have abortion coverage if she chooses to so long as she paid for it herself.

The provisions in the statute are very plain. Section 1302(2)(a) provides for the prohibition on the use of Federal funds. I am inserting the meaning of the language where it has references to many subsections. But the prohibition on the use of Federal funds states, in effect, that if a qualified health plan provides coverage of services for abortion, the issuer of the plan shall not use any of the Federal funds for abortion. Then there is a provision on segregation of funds, section 1303(2)(b), which provides, in effect, in the case of a plan which covers abortions, the issuer of the plan shall segregate an amount equal to the cost of services for medical services other than abortion from the cost of medical services for abortions. That sets it out about as plainly as you can.

The precedent on Medicaid coverage, which involves Federal funding, where some 23 States have chosen to add

abortion coverage where the States are putting up their own money, so that there are no Federal funds involved but the Medicaid services do cover abortions, but they are with funds other than Federal funds—State funds—it is just the same analogy as no Federal funds under this bill but with moneys provided by the woman who wants the coverage for herself. The precedent from Medicaid, it seems to me, is totally dispositive of the matters of public policy.

Also, it ought to be noted that there is some 87 percent of insurance in the private market which covers abortions. Insurance in the private market provided by employers has the feature of deductibility. So while there is not a direct payment by the Federal Government on policies which do cover abortions, there is an indirect factor here because there is a tax break. The Federal Government does not get taxes on items which the employer deducts on the cost of the insurance coverage.

There is also a consideration on an underlying issue of discriminatory practices as to women on the limitation of what is reasonable medical coverage. There is an analogy—none of the analogies are really compelling, but the argument has been made that where you have a pharmaceutical coverage on Viagra, for example, which deals with reproductive capacity, nobody would think of saying the pharmaceutical coverage ought to be limited. Similarly, where there is the right to an abortion, if a woman wants to have it, which she pays for herself, it has all of the ring of discrimination.

A principal concern which I have is that if this issue results in a stalemate, the entire bill will be defeated because of this issue.

There are two remaining matters to be resolved which have some significant import which could lead to the defeat of the bill. One is on the issue of the public option. It is my argument, contention that we still ought to have a robust public option. There is a vast misunderstanding that the public option does not mean that the Federal Government is taking over on insurance coverage. That is single payer. That is not the public option, which is what it says, an option, one alternative. There are efforts being made to find an accommodation. I hope we stick with a robust public option.

The other issue which could lead to defeat of this bill, bring it down, is this controversy on abortion. It is still unclear how the Stupak amendment emerged in the House bill. There are lots of objections to it. Why the dichotomy of Hyde with no Federal funds being used and people could pay for their own was not followed in the House bill I do not know. I do not ascribe any inappropriate motives to any of my colleagues. I would not do that. But I think a consequence of this con-

troversy—and I think there may be some who do want to kill the bill. Certainly, the delaying tactics on the other side of the aisle make it plain that there are those who would use whatever procedures are available, whatever arguments are available to defeat the bill. That would be very regrettable in terms of the long struggle. We have discussed this on the floor again and again, what has happened since Theodore Roosevelt, FDR, and the efforts made to have coverage of health care for the uninsured.

If we stalemate on this issue, that could be the consequence. There is no reason to stalemate when there is such a clear-cut path. The bill explicitly provides that no Federal funds may be used for abortion, that any Federal funds would be segregated. That is the precise precedent of Medicaid. So I urge my colleagues to defeat the pending amendment so we can proceed to move for final enactment of this important legislation.

I thank the Chair and I yield the floor.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. FRANKEN. Madam President, I rise to speak in opposition to the Nelson-Hatch amendment, which replaces the compromise language in the current bill with unprecedented restrictions on women's access to safe and legal abortion services.

I think we can all agree that women's health is fundamental to our Nation's health. We all know that when women are healthier, families, communities, and countries are healthier. But I also know the issue of abortion is difficult, no matter where you stand on it, and I truly respect the fact that we have a range of opinions among us. Women have abortions for different reasons. Some of these reasons may not seem right to some of us. But even if we disagree, it is better that each woman be able to make her own decision with her doctor.

In a perfect world, no woman should have to face the decisions we are discussing today. But the reason we have insurance coverage is to help us deal with the unexpected. No woman expects to have an unplanned pregnancy. No woman expects to end a wanted pregnancy because of fetal anomalies or risks to her own health. If we limit options in private health insurance coverage, we take away a woman's right to make a decision that may be best for her and for her family in their circumstances.

But unplanned pregnancies do occur, and we have a responsibility to provide women with the full range of choices regarding their health. The Supreme Court has repeatedly ruled on this issue and made it clear that women have a constitutional right to access abortion. It is our responsibility to make sure abortions are safe, legal, and rare.

Supporting a woman's right to make decisions about her health means more than keeping abortion services legal; it means supporting a woman's decision to terminate a pregnancy safely and with dignity. It also means teaching honest, realistic sex education. It means the right to choose contraception. It means standing with women who choose to continue their pregnancies—with the hope and expectation that a compassionate society will support them in their responsibilities raising a child. It is about respecting women's personal decisions and the challenges they face, especially at times when they are the most vulnerable.

I strongly oppose the Nelson-Hatch amendment because it undermines the status quo and breaks new ground by restricting women's fundamental rights. The amendment stipulates that health plans cannot cover abortion services if they accept even one subsidized customer, even if the abortion coverage would be paid with the private premiums health plans receive directly from individuals. If adopted, this would mark the first time in Federal law that we would restrict how individuals can use their own dollars in the private health insurance marketplace.

I also oppose the amendment because we have a workable solution. The existing compromise in our bill represents genuine concessions by both pro-choice and pro-life Members of Congress. The current bill prohibits Federal funding of abortion but also allows women to pay for abortion coverage with their own private funds. It makes clear abortion can't be mandated or prohibited and stipulates that Federal funds cannot be used for abortion.

Let me be clear. The compromise within the current bill is as far as we can go. We have negotiated to get to this point. We cannot negotiate further without literally undermining the compromise we have made on behalf of women's health in this country.

We are on the verge of passing a historic health reform law that will do more to improve the health of women and families than any legislation in recent history. We will end discrimination based on health history, on gender, or history of domestic violence. We will provide access to preventive health services so women can get annual exams and mammograms at no cost. It is our responsibility to guarantee women are not worse off—under the health reform we are going to pass—than they are today.

As my friend Paul Wellstone used to say: "If we don't fight hard enough for the things that we stand for, at some point we have to recognize that we don't really stand for them." I urge my colleagues to stand with me today to oppose this amendment.

I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BROWN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BROWN. Madam President, I am troubled by what I have seen in the Chamber of the Senate in the last week. Actually, I am troubled by what I have seen in the Senate Chamber for the last several weeks, as I have watched this slow walk that so many of my colleagues who oppose health care reform are doing—anything to stall, anything to slow things down, anything to distract the public.

It began last summer, when some negotiations were going on. It was pretty clear there was no interest in any kind of real compromise, in any kind of constructive input into these negotiations. I can say that because I remember what happened in the Health, Education, Labor, and Pensions Committee in July. In June and July, we wrote the original—the first health care bill that passed a Senate committee, the HELP Committee.

We processed hundreds of amendments. The markup—which is the discussion inside the committee—took 11 days, the longest markup in anybody's memory. Everybody got a chance, everybody—all 23 Members of the committee, 13 Democrats, 10 Republicans—to offer amendments. Most of those amendments were voted on or agreed to. Nobody filibustered.

There was certainly lots of discussion. Sometimes we are a little long-winded around here, more so than we should be, but 160 Republican amendments were passed—either agreed to or actually voted on and passed in the committee. I voted for most of those amendments—I would say probably all but 10 of them—something like that. But the point is, there was a lot of bipartisanship in this legislation.

On the bigger questions, the differences are more ideological, more fundamental. For instance, Democrats support a strong Medicare. Republicans, who originally opposed Medicare in the 1960s—and not for partisan reasons but for ideological reasons—do not think government should run Medicare. That was pretty clear.

In the 1990s, when I was a Member of the House, Speaker Gingrich and the Republicans—they had a majority in the House and Senate—tried to privatize Medicare. President Clinton mostly blocked it, although he went along with some of it. When the Republicans, for the first time, had the House, the Senate, and the White House, in 2003, they dramatically privatized Medicare, shoveling all kinds of moneys into the insurance companies and giving huge subsidies to the drug companies. Look what we got. We got more difficult problems with

Medicare, more budget problems. We went from a budget surplus to a budget deficit, partly because of that bill and because of the war.

My point is, this bill was bipartisan in many ways, but on the big fundamental questions—should government be involved in things such as Medicare; what should we do on worker safety issues; what to do on consumer protections—the Democrats want to see strong consumer protections, with no more cutting people off their coverage because of preexisting conditions, no more discrimination against women.

As the Presiding Officer knows, through her work in New Hampshire, she has seen too many of her female constituents paying higher prices than male constituents. What is fair about that? So the Republicans have generally sided with the insurance companies and the Democrats generally side with consumers. On those fundamental questions, they aren't really partisan as much as they are ideological.

Saturday night, a couple weeks ago, when we actually began the debate—where no Republican voted to allow the bill to even be debated—that was the ultimate stall tactic, to keep it off the floor. The Democrats voted to put it on the floor. But what bothers me about this stalling is not just that they are stopping us from doing what we need to do in this country, it is that in my State alone, there are 400 people every single day—from Toledo to Athens, from Bryan to St. Clairsville, from Conneaut to Middletown—400 Ohioans every day lose their insurance, 400 Ohioans every day. Across the country, 45,000 people die every year, according to studies, and 1,000 people a week die because they don't have insurance.

As the Presiding Officer knows, because of her work on women's health care, a woman with breast cancer, without insurance, is 40 percent more likely to die than a woman who has breast cancer with insurance.

Think about that. If you have breast cancer, as anxious as you are, as fearful as you are, as sick as you are, if you have insurance you at least do not have to worry about that; you can go get decent medical care and many times your life is saved, particularly if you caught it early enough. But if you don't have insurance, you can't go to the emergency room. They are not going to take care of you every day. They might take care of you at the end of your life, right at the end; if you are dying you might get emergency care. But people like that are just left out of the system. That is why a woman with breast cancer without insurance is 40 percent more likely to die. That is why these delays from my friends over there, they write memos on the best way to delay the bills. They try every motion they can think of. For 3 days we couldn't even get a vote when we wanted to vote on one of their amendments, Senator MCCAIN's amendment

on Medicare. We literally could not get a vote because the Republicans blocked the vote. We finally did.

It is just these delay tactics. Again, 400 people in Findlay and Mansfield and Zanesville and Springfield and Xenia and Columbus—400 people every day lose their insurance in my State alone. Forty-five thousand people die a year because they do not have insurance.

Let me read a couple of letters. I come to the floor most days and read letters from people from my State. Many of these letters—not every one, but many of them—come from people who, if you asked them a year ago, would have said they had pretty good insurance. Then they have a child born with a preexisting condition, and they lose their insurance or then maybe they got sick and their hospital bills were so high the insurance company cut them off. Maybe they lost their job and they lost their insurance.

So many of those letters, as I said, were from people who thought they had good insurance and found out when they really needed the insurance, it was not such good insurance.

Let me just read from a couple of letters. This comes from Amy from Franklin County. Franklin County is in the middle of the State, the State capital located in Franklin County.

I recently had two minor surgeries. But in the last six months alone, I've had to spend about \$4,000 to cover 15 percent of my income. Thank you for taking a strong stance on health reform.

What Amy writes about, when you are spending one-sixth of your gross income on health care—then this is somebody who is working, she is playing by the rules, she is doing everything she can, and she got really sick—there was not the safety net for her that there should be.

Our bill will take care of that. Our bill says if you have health insurance and you like it, you can keep it, but in addition you are going to get good consumer protections, no more preexisting condition, no denial of care that way.

A second thing: If you are a small business you are going to get assistance—some tax incentives, some tax incentives, some tax credits—to insure your employees. Most small business people I know in Bucyrus, OH, in Galion, in Crestline, in Shelby, and all over my part of the State, like that. Most of them want to cover their employees, but if you have 20 employees and one of them gets sick, your insurance rates will go so high you can no longer afford it sometimes or you will get cancelled.

The third thing our bill does is it helps people, those who do not have insurance, by giving them assistance so they can afford insurance, so people like Amy can get a better insurance policy rather than spending that much money out of pocket.

The other letter I would like to share is from Amber from Morrow County, an

area of the State sort of north-central, north of Columbus, Mount Gilead, that part of the State, Cardington. She says, at age 19—this is more a story about her than an actual letter—at age 19 Amber was discontinued on her stepfather's insurance plan because of a preexisting condition. Needing constant medication and treatment for her diabetes, she tried to obtain her own health insurance plan. She was unable to afford any of her treatments or medications because she couldn't get insurance. As a result of an inability to treat her condition, she suffered two heart attacks and lost most of her vision.

She is 22 years old now. Now legally blind, she has lost feeling in her hand and feet, missing many of her teeth, and has kidney and intestinal problems. She feels lucky now to qualify for government disability benefits.

I don't know Amber. I know what her family members sent to us about her. But because she could not get insurance, because she was taken off her stepfather's insurance because of a preexisting condition, she was not able to do the kind of care diabetics are able to do.

It is a horrible disease. My best friend had diabetes. We have friends and neighbors and family members and colleagues and associates who have diabetes. Most of them, if they have a good health insurance plan, are able to live normal lives and don't have these kinds of things happen that happened to Amber.

What has happened, lost feeling in her hands and feet, kidney and intestinal problems, all the awful things that come out of diabetes are because it is a chronic disease. They are manageable. You know what will happen. Amber ends up in the hospital. Because she doesn't have insurance, it costs others in Morrow County who have insurance. They all pay more because they have to take care of Amber in a very expensive situation instead of providing insurance for Amber so she can manage her diabetes at much less cost and much more humanely.

It simply doesn't make sense to continue to stall. I have been around a good while in government. I have never been more upset than I have watching these stall tactics. These are not games people should be playing when you think about the human life, you think about Amber, you think about Amy, you think about how we all have people in our States who have suffered because they do not have insurance. We know how to fix it. We need to move forward and get this done as quickly as we can.

Four hundred Ohioans losing their insurance every day; 45,000 Americans dying every year because they don't have insurance. Those things simply are not acceptable.

I yield the floor.

Mr. KOHL. Madam President, with America aging at an unprecedented rate, and with the high and rising costs of caring for a loved one, the financing of long-term care must be addressed if we are going to get health care costs under control. For those who can plan ahead while they are still healthy, and who can afford it, private long-term care insurance may play a helpful role in enhancing their retirement security—but only if the policies they purchase are sound and the protections are strong.

We all know that long-term care is expensive. The cost of care in a nursing home now averages \$75,000 per year. However, most Americans do not realize Medicare provides only very limited assistance through home health services, and that Medicaid will not cover long-term care costs unless their household savings are nearly eliminated. States share the responsibility of providing Medicaid funding for long-term care with the Federal Government, and are also looking for ways to reduce their expenses. As of today, 43 States are in the process of launching "partnership" programs, which provide consumers who purchase private long-term care insurance and exhaust their benefits the ability to retain higher assets than are normally permitted if they go on to receive services under Medicaid.

We have a duty to try to ensure that these policies, which often span decades, are financially viable. During the last several years, several long-term care insurance carriers have fallen into financial difficulties, raising questions about how protected policyholders' investments are, and others have sharply raised premiums to compensate for actuarial miscalculations. Such premium increases can be devastating for older persons who are living on fixed incomes. Their choices are often stark and very limited: they can either dig deeper and pay the increased premiums, or let their policy lapse, leaving them with no coverage if they ever need care.

Last year, I was joined by several Senate and House colleagues in releasing a GAO report on whether adequate consumer protections are in place for those who purchase long-term care insurance. The report found that rate increases are common throughout the industry, and that consumer protections are uneven. While some States have adopted requirements that keep rates relatively stable, some have not, leaving consumers unprotected.

The amendment I am cosponsoring with Senators WYDEN and KLOBUCHAR will help mitigate these problems and do a better job of protecting policyholders who buy policies in the future. We need to strengthen standards for all policies to ensure that premiums increases are kept to a minimum; that insurance agents receive adequate

training; and that complaints and appeals are addressed in a timely manner. We also need to make it easier for consumers to accurately compare policies from different insurance carriers, particularly with regard to what benefits are covered and whether the plan offers inflation protection. States should also have to approve materials used to market Partnership policies. This amendment will institute these and many other improvements.

It is estimated that two out of three Americans who reach the age of 65 will need long-term care services and supports at some point to assist them with day-to-day activities, and enable them to maintain a high-quality, independent life. Long-term care insurance is an appropriate product for many who wish to plan for a secure retirement. But to be a viable part of the health care solution, we must take the necessary steps to guarantee that consumers across the country have adequate information and protections, and that premiums won't skyrocket down the road.

I am pleased to say that this policy is strongly supported by the National Association of Insurance Commissioners and the Wisconsin Office of the Insurance Commissioner, Consumers Union, Genworth Financial, Northwestern Mutual, the National Treasury Employees Union, and California Health Advocates, which provides support to that state's insurance counseling and advocacy programs.

I urge my colleagues to support this vital amendment.

#### MORNING BUSINESS

Mr. BROWN. Madam President, I ask unanimous consent the Senate proceed to a period of morning business with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### LAKEWOOD POLICE SHOOTINGS

Mrs. MURRAY. Madam President, tomorrow will be a somber and very difficult day in my home State.

That is because tomorrow, just over a week after the single worst act of violence against law enforcement in Washington State history, police officers from across the State and Nation, heartbroken Washington State residents, the community of Lakewood, WA, and the families of the victims of last Sunday's brutal attack on four police officers will gather to say goodbye.

Tomorrow's memorial for the four officers killed on the morning of November 29th will begin with a procession that leaves from just steps away from the coffee shop that was the site of that senseless and cowardly attack.

An attack in which four officers were targeted solely because they were in

uniform, solely because they had sworn to protect their community.

The procession will then weave its way through that very community—Lakewood, WA, a community that has been devastated by this tragedy, a community where these four officers were original members of their police force—and were loved and respected by their colleagues and the people they served.

Along the way, the procession route is expected to be lined by thousands of Lakewood residents and by all those who have been so deeply affected by this tragedy from throughout my State.

At the Lakewood Police Department the procession will stop to pick up the families of the fallen officers—families who together now include nine children left without a parent—families whose grief is hard to imagine.

The procession will end at a service that is expected to be attended by more than 20,000 law enforcement officers from every corner of my State and from throughout the Nation.

It will be an emotional end to a week that has rocked my home State.

It will also be farewell for four police officers who devoted and ultimately gave their lives to protect others.

Law enforcement is not for everyone. In fact, it takes a special kind of person to be willing to wake up each day—motivated and ready to be the line of protection between dangerous criminals and our neighborhoods and people.

But in the case of Sergeant Mark Renninger and Officers Gregory Richards, Tina Griswold and Ronald Owens it is easy to see where they got that motivation from.

When you hear their life stories, it is clear that, to a person, these were officers who beyond all else, were dedicated to family; officers who knew that the work they did protected those they love and families just like theirs.

In a telling quote this week, a fellow Lakewood officer described his fallen colleagues by saying that they were executed because they were cops, but that none of them saw their lives that way.

Instead he said they saw themselves first and foremost as family men and women.

For these four police officers any reminder of just how critical the duties they performed each day were came when they went home each night.

Officer Greg Richards leaves behind a wife and three children. He was an 8-year veteran who served in the Kent Police Department before joining the Lakewood department.

In memorials he has been described as a glass-half-full guy, someone who made things better for the people around him. His wife Kelly has talked this week about his passion for music, his job and of course his family.

Officer Tina Griswold leaves behind a husband and two children. She was a

14-year veteran who served in the police departments in Shelton and Lacey before joining the Lakewood police force in 2004.

She stood 4 foot 11 but as her colleagues have said many times—she wouldn't back down from anyone. She was a member of the riot response team, a hard-charging officer and mom who loved her job and her family.

Officer Ronald Owens leaves behind a daughter. Owens followed his father into law enforcement and was a 12-year veteran who served on the Washington State Patrol before moving to the Lakewood Police Department.

He has been remembered as spending almost all of his off-duty time with his daughter—attending all of her school functions, riding bikes together, and treating her to nights out whenever he could.

Sgt. Mark Renninger leaves behind a wife and three children. He was a veteran, who wore the uniform of the United States before putting on the uniform of the Tukwila Police Department in 1996. He joined the Lakewood Police Department in 2004.

He was an Army Ranger and has been described as having the kind of natural leadership abilities that put other officers at ease in difficult situations.

He was a SWAT team trainer known for an enthusiasm for his job. But he was also remembered this week for the joy that family brought him—whether it was trips to Mariners games or family vacations to Mount Rainier.

This was a senseless and brutal killing—and it specifically targeted the people who sacrifice each day to keep all of us safe.

This terrible crime has not only left the families of the victims shattered, but it has shattered our sense of safety and left an entire community in disbelief.

It was also part of a shockingly violent month for my State's law enforcement community that has also included a senseless attack on October 31 which killed Seattle Police Officer Timothy Brenton and left another officer—Britt Sweeney—injured.

These attacks remind all of us of the incredible risks our law enforcement officers take each day, and that even when doing the most routine aspects of their jobs, our law enforcement officers put themselves on the line for our safety.

Already this year more than 100 police officers across our country have given their lives while serving to protect us.

Each of these tragedies sheds light on just how big a sacrifice our police officers make in the line of duty.

But these most recent attacks in my home State also offer an important reminder that our officers are always in the line of duty, even when they are training other officers, out on routine patrols, or simply having coffee.

There is no doubt that these senseless attacks have left many law enforcement officers across my State and our country feeling targeted. But there is also no doubt that their willingness to put themselves on the line to protect us will continue unshaken. That is a testament to the commitment they make to serve and protect us every day, and it should remind all of us that these brave men and women deserve all the support we can provide to keep them safe.

As my State prepares to say goodbye to these four heroes, I again extend my condolences and the condolences of the entire Senate to their families.

Our law enforcement professionals put themselves between us and danger every day. Right now, in light of such horrible events, we hold them even closer in our own thoughts and prayers.

#### PEARL HARBOR ANNIVERSARY

Mr. AKAKA. Madam President, I rise in remembrance of the attack on Pearl Harbor, the "Day of Infamy," 68 years ago today.

I had other things on my mind when I woke up on the morning of Sunday, December 7, 1941. I was 17 years old and studying at the Kamehameha School for Boys. I climbed to the roof of my dormitory in the foothills above Pearl Harbor—and saw the planes swarm. I watched as their bombs and torpedoes delivered a crippling blow to the Pacific fleet. I saw smoke rise to the sky as the USS *Arizona* and other battleships sank.

When the planes flew over our campus for a second bombing run in Kaneohe, close enough to see the unmistakable red sun of imperial Japan, I confirmed what I had feared: we were under attack. I did not know what would happen next, but I knew for certain that my life, Hawaii, the United States, and the world would never be the same.

As an ROTC cadet, I spent the rest of that day in the foothills above our campus, searching for paratroopers. Later, I joined the Army and served as a noncommissioned officer in the Pacific.

Hawaii changed immediately. Martial law was declared. A military governor was appointed. Food and supplies were rationed. The people of Hawaii were subjected to a curfew, and sat in darkness all night—lights were banned to make it harder for the enemy to find the islands.

The terrible attack inspired a generation of young people to set their lives and dreams aside to fight World War II. When we returned home, victorious, we returned to a grateful Nation. Thanks to the G.I. bill and other reintegration efforts, these young veterans went on to become The Greatest Generation: Presidents, Nobel laureates, and leaders in their communities.

We who lived through Pearl Harbor and fought World War II know too well that today's service men and women face challenges similar to those from our youth. So does our Nation. But we benefit from the lessons of World War II: that our warriors can do great things if they return to a grateful Nation that provides them with the care and support they have earned.

World War II changed our country forever, revolutionizing our defense forces, industrializing our Nation, and leading the United States to assert its global leadership and become the world's superpower.

As we pause to remember those lost on the "Day of Infamy," let us also honor those who are overseas fighting today, and all those who have sacrificed to defend our great country over the years.

Like the veterans of World War II, today's servicemembers and former servicemembers can achieve great things if they are supported by the Nation they have defended. With that in mind, let us show our thanks by honoring our veterans and preserving the Union they risked everything to protect.

Mr. LEMIEUX. Madam President, 68 years ago today, the United States was thrust into World War II following the surprise attack on Pearl Harbor. Today, we pay tribute to those who survived the attack and remember the men and women who perished.

Although the attack claimed the lives of more than 2,300 Americans, it did not break the resolve of our military. Today, we are grateful for the service of those we lost in conflict as well as those who returned after fighting to keep us safe and free. I join all Floridians in honoring those who fought for our freedom on that day and throughout the ensuing campaigns in Europe and the Pacific.

On this Pearl Harbor Day, I thank all World War II veterans who answered our Nation's call to serve in the cause of freedom. They are true heroes and our Nation will always remember their sacrifice.

#### HONORING OUR ARMED FORCES

##### LIEUTENANT COLONEL JAMES GENTRY

Mr. BAYH. Madam President, I rise today to honor the life of LTC James Gentry, commander of the 1st Battalion, 152nd Infantry of the Indiana National Guard.

Jim was only 52 years old when he tragically lost his long and heroic battle with cancer on November 25, 2009, the day before Thanksgiving.

A native of Mitchell, IN, he served two tours of duty in Iraq. It was in Iraq in 2003 where Lieutenant Colonel Gentry and the more than 600 soldiers he bravely led were exposed to the lethal chemical sodium dichromate while guarding the Qarmat Ali water treatment facility in Basrah.

In 2006, Lieutenant Colonel Gentry was diagnosed with terminal cancer and given 2 months to live. He not only valiantly fought this debilitating illness—and survived much longer than doctors expected—but he also fought to bring crucial details about the tragedy at Qarmat Ali to the Nation's attention.

With his quiet courage, he advocated for justice for the soldiers under his command until his final days. Due in large part to his efforts, the Department of Defense is now investigating why so many service men and women were exposed to this deadly chemical.

As Americans, we take pride in the example Lieutenant Colonel Gentry set as a soldier, a leader, and a patriot. I had the privilege of speaking with him on the phone a little more than a month ago. Even in what turned out to be his final days, he remained steadfast in his dedication to his troops and in his efforts to ensure they received proper care.

Jim is survived by his devoted wife LouAnn Grube Gentry, five children Sarah Clark, Jason Newman, Emily Gentry, Jennafer Newman, and Ellen Gentry, his parents George and Brenda Sue Gentry, brother Sanford Gentry, and sister Carolyn Hodges.

Lieutenant Colonel Gentry was a brave man who put his soldiers before himself, both on and off the field of battle. Today and always, he will be remembered by family and friends, fellow soldiers and all Hoosiers as a true American hero. We cherish the legacy of his service and his life.

It is my sad duty to enter the name of LTC James Gentry in the RECORD of the U.S. Senate for his service to this country and for his profound commitment to freedom, democracy, and peace.

#### AMINATOU HAIDAR

Mr. LEAHY. Madam President, last week I spoke about the situation of Aminatou Haidar, a Sahrawi human rights activist who has been on a hunger strike since shortly after November 13 when her passport was confiscated by Moroccan authorities and she was deported to the Canary Islands. She is now in the third week of her hunger strike, and her health has seriously declined. An agreement between the Spanish and Moroccan governments was reportedly reached on Friday, but it fell through at the last minute and Ms. Haidar remains at the Lanzarote Airport.

Given this dire situation and the damage it is causing to efforts to resume good-faith negotiations on the future status of the Western Sahara, I want to repeat my appeal to the Moroccan authorities to reinstate Ms. Haidar's passport and allow her to return home to her family.

Morocco and the United States are friends and allies. The denial of citizenship and forcible exile of Ms. Haidar is inconsistent with international human rights norms to which Morocco is a signatory and will accomplish nothing positive. It also raises the question, as do the recent arrests of other Sahrawi activists, of whether the United Nations' mandate in Western Sahara should be expanded to include human rights monitoring. I believe the State Department should seriously review this issue when the UN mission's term comes up for extension in the Security Council in April.

There is still time, but it is running out, to resolve this issue in a manner that serves Morocco's interests and protects Ms. Haidar's rights.

#### ADDITIONAL STATEMENTS

##### REMEMBERING MITCH DEMIENTIEFF

• Mr. BEGICH. Mr. President, I wish to remember the life of a much respected and accomplished resident from my home State of Alaska, Mr. Mitch Demientieff of Nenana. Mitch passed away on December 1, 2009. He was 57.

Mr. Demientieff not only held many important positions in the Native community, he was an ardent preserver of his Athabascan culture and a true family man. While a student at the University of Alaska Fairbanks, he accomplished something truly amazing: at age 19, he was elected president of the Tanana Chiefs Conference, a post he held again years later. One year before his election as president, he broke into the local political scene as mayor of Nenana.

His legacy at the Chiefs included the modernization of the tribal health programs and working to provide education to the youth in the Native community. His personal legacy revolves around his dedication to preserving Native culture. Mitch was committed to making sure the traditions of Alaska Natives and his people were not lost. His interests included the stories he heard and passed on, traditional songs and dances, how clans were run and the practices of traditional medicine.

His achievements later in life included service on the Federal Subsistence Board where he was a strong advocate for subsistence rights for Natives. At the time of his passing, he was serving on the Nenana City Council and was the Nenana tribal chief.

In his personal life Mitch was an avid sports fan and coach who was loved by his family and community. He and his wife Kathleen, married for 24 years, have a blended family of six children and 14 grandchildren. Mitch was both beloved and respected in their community and throughout interior Alaska. Everywhere Mitch went, he made friends.

Mitch Demientieff will be missed by his family, friends, and all of the people he touched in the State of Alaska.●

##### TRIBUTE TO DR. JAMES A. (DOLPH) NORTON

• Mr. VOINOVICH. Mr. President, I wish to congratulate a distinguished American public administrator, Dr. James A. (Dolph) Norton, who is being awarded the 2009 George Graham Award for Exceptional Service by the National Academy of Public Administration, NAPA. NAPA is a congressionally chartered national institution created to help governments serve the public better and achieve excellence. Dr. Norton's career in public service stands as a shining example and testament to the high ideals of public administration that NAPA represents. His diverse and numerous accomplishments serve as an inspiration to those who may also aspire to careers in public administration.

During the course of his outstanding career, Dr. Norton earned degrees from both Louisiana State University and Harvard University. He served with distinction on the faculties at Florida State University, Case Western Reserve University, and the University of Virginia. He went on to become the chief executive officer of several organizations during times of notable achievement. He directed a comprehensive research study on urban governance for the city of Cleveland, served as director of the Greater Cleveland Associated Foundation and director of the Cleveland Foundation, the Nation's oldest and then-largest community foundation, and as chancellor of the Ohio Board of Regents as the State innovated funding for centers of excellence at universities.

In retirement he answered the call to serve from several institutions of higher education throughout the Nation by providing the unique skills necessary to manage their transition from one generation of leadership to another. He served with distinction as interim chancellor of the University of Maryland System, interim president of Hiram College in Ohio, interim president of Adelphi University in New York, interim president of Bryant College in Rhode Island, interim chancellor of Lamar University System in Texas, and interim president of Central Washington University.

I commend Dr. Norton for his lifelong dedication to public service and outstanding leadership, and congratulate him on his award.●

##### EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-3900. A communication from the Assistant to the Board of Governors, Federal Reserve System, transmitting, pursuant to law, the report of a rule entitled "Transactions Between Member Banks and Their Affiliates: Exemption for Certain Purchases of Asset-Backed Commercial Paper by a Member Bank from an Affiliate" (Regulation W; Docket No. R-1331) received in the Office of the President of the Senate on December 2, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-3901. A communication from the Assistant to the Board of Governors, Federal Reserve System, transmitting, pursuant to law, the report of a rule entitled "Transactions Between Member Banks and Their Affiliates: Exemption for Certain Securities Financing Transactions Between a Member Bank and an Affiliate" (Regulation W; Docket No. R-1330) received in the Office of the President of the Senate on December 2, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-3902. A communication from the Assistant to the Board of Governors, Federal Reserve System, transmitting, pursuant to law, the report of a rule entitled "Risk-Based Capital Guidelines; Leverage Capital Guidelines" (Regulations H and Y; Docket No. R-1332) received in the Office of the President of the Senate on December 2, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-3903. A communication from the Secretary of the Interior, transmitting, pursuant to law, a report relative to using private contributions to acquire land adjacent to a designated wilderness area in Lassen Volcanic National Park; to the Committee on Energy and Natural Resources.

EC-3904. A communication from the Director, Office of Surface Mining, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Utah Regulatory Program" (SATS No. UT-046-FOR) received in the Office of the President of the Senate on December 2, 2009; to the Committee on Energy and Natural Resources.

EC-3905. A communication from the Chief of the Endangered Species Listing Branch, Fish and Wildlife Services, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Endangered and Threatened Wildlife and Plants; Revised Designation of Critical Habitat for *Cirsium loncholepis* (La Graciosa Thistle)" (RIN1018-AV03) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Environment and Public Works.

EC-3906. A communication from the Secretary of Labor, transmitting, pursuant to law, a report relative to the impact of the Andean Trade Preference Act on U.S. trade and employment through 2008; to the Committee on Finance.

EC-3907. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Net Operating Loss Carryback Election under Section 13 of the Worker, Homeownership, and Business Assistance Act of 2009" (Rev. Proc. 2009-52) as received during the adjournment of the Senate in the Office of the President of the Senate on November 24, 2009; to the Committee on Finance.

EC-3908. A communication from the Chief of the Border Security Regulations Branch, Customs and Border Protection, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Extension of Port Limits of Columbus, Ohio"

(CPB Dec. 09-35) received in the Office of the President of the Senate on December 2, 2009; to the Committee on Finance.

EC-3909. A communication from the Acting Executive Secretary, U.S. Agency for International Development, transmitting, pursuant to law, a report relative to seven (7) vacancies in the agency; to the Committee on Foreign Relations.

EC-3910. A communication from the Deputy Assistant Administrator, Bureau for Legislative and Public Affairs, U.S. Agency for International Development, transmitting, pursuant to law, the Agency's response to the GAO report entitled "Democracy Assistance: U.S. Agencies Takes Steps to Coordinate International Programs but Lack Information on Some U.S.-funded Activities"; to the Committee on Foreign Relations.

EC-3911. A communication from the Deputy Assistant Administrator, Bureau for Legislative and Public Affairs, U.S. Agency for International Development, transmitting, pursuant to law, the Agency's response to the GAO report entitled "International Food Assistance: USAID Is Taking Actions to Improve Monitoring and Evaluations of Nonemergency Food Aid, but Weaknesses in Planning Could Impede Efforts"; to the Committee on Foreign Relations.

EC-3912. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Air Quality Implementation Plans; North Carolina; Clean Air Interstate Rule" (FRL No. 9086-2) received during adjournment of the Senate in the Office of the President of the Senate on November 23, 2009; to the Committee on Environment and Public Works.

EC-3913. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Air Quality Implementation Plans; Illinois; Indiana; Chicago and Evansville Nonattainment Areas; Determination of Attainment of the Fine Particle Standards" (FRL No. 8985-2) received during adjournment of the Senate in the Office of the President of the Senate on November 23, 2009; to the Committee on Environment and Public Works.

EC-3914. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Implementation Plans; Georgia: Revisions to State Implementation Plan" (FRL No. 8984-7) received during adjournment of the Senate in the Office of the President of the Senate on November 23, 2009; to the Committee on Environment and Public Works.

EC-3915. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Implementation and Designation of Areas for Air Quality Implementation Plans; Tennessee; Clean Air Interstate Rule" (FRL No. 8984-6) received during adjournment of the Senate in the Office of the President of the Senate on November 23, 2009; to the Committee on Environment and Public Works.

EC-3916. A communication from the Director of the Regulatory Management Division,

Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Effluent Limitations Guidelines and Standards for the Construction and Development Point Source Category" (FRL No. 9086-4) received during adjournment of the Senate in the Office of the President of the Senate on November 23, 2009; to the Committee on Environment and Public Works.

EC-3917. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Finding Failure to Submit State Implementation Plans Required for the 1997 Particulate Matter Less Than 2.5 Micrometer (PM<sub>2.5</sub>) National Ambient Air Quality Standards (NAAQS)" (FRL No. 8985-6) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Environment and Public Works.

EC-3918. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Prevention of Significant Deterioration (PSD) and Nonattainment New Source Review (NSR): Inclusion of Fugitive Emissions; Interim Final Rule; Stay" (FRL No. 9089-4) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Environment and Public Works.

EC-3919. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Determinations of Attainment of the One-Hour and Eight-Hour Ozone Standards for Various Ozone Nonattainment Areas in New Jersey and Upstate New York" (FRL No. 9088-8) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Environment and Public Works.

EC-3920. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval of Section 112(1) Authority for Hazardous Air Pollutants; Equivalency by Permit Provisions; National Emission Standards for Hazardous Air Pollutants; Plywood and Composite Wood Products" (FRL No. 9089-2) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Environment and Public Works.

EC-3921. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Implementation Plans and Designation of Areas for Air Quality Planning Purposes; North Carolina: Redesignation of Great Smoky Mountains National Park 1997 8-Hour Ozone Nonattainment Area to Attainment" (FRL No. 9089-1) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Environment and Public Works.

EC-3922. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Imple-

mentation Plans; Kentucky; Source-Specific Revision for Avis Rent-A-Car and Budget Rent-A-Car Facilities Located at the Cincinnati/Northern Kentucky International Airport" (FRL No. 9086-1) received in the Office of the President of the Senate on November 30, 2009; to the Committee on Environment and Public Works.

EC-3923. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Air Quality Implementation Plans; California; Determination of Attainment of the 1997 8-Hour Ozone Standard" (FRL No. 9086-7) received in the Office of the President of the Senate on November 30, 2009; to the Committee on Environment and Public Works.

EC-3924. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Novaluron; Pesticide Tolerances" (FRL No. 8799-6) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-3925. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Hexythiazox; Pesticide Tolerances" (FRL No. 8799-9) received in the Office of the President of the Senate on November 30, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-3926. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Fenpyroximate; Pesticide Tolerances" (FRL No. 8799-2) received in the Office of the President of the Senate on November 30, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-3927. A communication from the Deputy to the Chairman, Federal Deposit Insurance Corporation, transmitting, pursuant to law, the report of a rule entitled "Prepaid Assessments" (RIN 3064-AD51) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-3928. A communication from the Deputy to the Chairman, Federal Deposit Insurance Corporation, transmitting, pursuant to law, the report of a rule entitled "Defining Safe Harbor Protection for Treatment by the Federal Deposit Insurance Corporation as Conservator or Receiver of Financial Assets Transferred by an Insured Depository Institution in Connection With a Securitization or Participation" (RIN 3064-AD53) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-3929. A communication from the Chief Counsel of the Fiscal Service, Bureau of Public Debt, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Sale and Issue of Marketable Book-Entry Treasury Bills, Notes, and Bonds; Customer Confirmation Reporting Requirement Threshold Amount" (31 CFR Part 356) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-3930. A communication from the Secretary of Transportation, transmitting, pursuant to law, an annual report relative to

the regulatory status of each recommendation on the National Transportation Safety Board's Most Wanted List; to the Committee on Commerce, Science, and Transportation.

EC-3931. A communication from the Secretary, Federal Trade Commission, transmitting, pursuant to law, a report entitled "Federal Trade Commission Report to Congress on Marketing Violent Entertainment to Children: A Sixth Follow-Up Review of Industry Practices in the Motion Picture, Music Recording and Electronic Game Industries"; to the Committee on Commerce, Science, and Transportation.

EC-3932. A communication from the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "List of Fisheries for 2010" (RIN0648-AX65) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3933. A communication from the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Magnuson-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Extension of Emergency Fishery Closure Due to the Presence of the Toxin that Causes Paralytic Shellfish Poisoning" (RIN0648-AT48) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3934. A communication from the Acting Director of Sustainable Fisheries, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Closure of the 2009 Commercial Harvest of Gulf of Mexico Greater Amberjack" (RIN0648-XP56) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3935. A communication from the Attorney, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Sea World December Fireworks, Mission Bay, San Diego, CA" ((RIN1625-AA00)(Docket No. USG-2009-0319)) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3936. A communication from the Attorney, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; SR 90 Bridge, Assawoman Bay, Isle of Wight and Ocean City, MD" ((RIN1625-AA00)(Docket No. USG-2009-0956)) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3937. A communication from the Attorney, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Fireworks Displays, Potomac River, National Harbor, MD" ((RIN1625-AA00)(Docket No. USG-2009-0949)) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3938. A communication from the Attorney, U.S. Coast Guard, Department of Home-

land Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Blasting and Dredging Operations and Movement of Explosives, Columbia River, Portland to St. Helens, OR" ((RIN1625-AA00)(Docket No. USG-2009-0946)) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3939. A communication from the Attorney, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Perdido Regional Host Outer Continental Shelf Platform, Gulf of Mexico" ((RIN1625-AA00)(Docket No. USG-2008-1051)) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3940. A communication from the Attorney, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Corporate Party on Hornblower Yacht, Fireworks Display, San Francisco, CA" ((RIN1625-AA00)(Docket No. USG-2009-0907)) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3941. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Regulated Navigation Area; East Rockaway Inlet to Atlantic Beach Bridge, Nassau County, Long Island, NY" ((RIN1625-AA11)(Docket No. USG-2008-0085)) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3942. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Regulated Navigation Areas; Bars Along the Coasts of Oregon and Washington" ((RIN1625-AA11)(Docket No. USG-2008-1017)) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3943. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Regulated Navigation Area; Portsmouth Naval Shipyard, Portsmouth, NH" ((RIN1625-AA11)(Docket No. USG-2009-0895)) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3944. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone and Regulated Navigation Area, Chicago Sanitary and Ship Canal, Romeoville, IL" ((RIN1625-AA11)(Docket No. USG-2009-0942)) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3945. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Munitions and Explosives of Concern (MEC); Seal Island, ME" ((RIN1625-AA00)(Docket No. USG-2009-0595)) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3946. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Air Quality Implementation Plans; Minnesota" (FRL No. 9087-7) received in the Office of the President of the Senate on November 30, 2009; to the Committee on Environment and Public Works.

EC-3947. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Clean Air Interstate Rule; NOx SIP Call Rule; Amendments to NOx Control Rules" (FRL No. 9090-2) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Environment and Public Works.

EC-3948. A communication from the Secretary of the Interior, transmitting, pursuant to law, the annual report for the Department of the Interior's Office of Surface Mining Reclamation and Enforcement for fiscal year 2008; to the Committee on Energy and Natural Resources.

EC-3949. A communication from the General Counsel of the Pension Benefit Guaranty Corporation, transmitting, pursuant to law, a report relative to a nomination in the position of Director of the Pension Benefit Guaranty Corporation; to the Committee on Health, Education, Labor, and Pensions.

EC-3950. A communication from the General Counsel of the U.S. Trade and Development Agency, transmitting, pursuant to law, a report relative to the report of a nomination in the position of Director of the U.S. Trade and Development Agency; to the Committee on Homeland Security and Governmental Affairs.

EC-3951. A communication from the Secretary of Education, transmitting, pursuant to law, a report on the Department's Semiannual Report to Congress on Audit Follow-Up for the period of April 1, 2009, through September 30, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC-3952. A communication from the Director of Communications and Legislative Affairs, Equal Employment Opportunity Commission, transmitting, pursuant to law, the Commission's Performance and Accountability Report for fiscal year 2009; to the Committee on Homeland Security and Governmental Affairs.

EC-3953. A communication from the Attorney General, Department of Justice, transmitting, pursuant to law, the Attorney General's Semiannual Management Report and the Semiannual Report of the Inspector General for the period from April 1, 2009, through September 30, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC-3954. A communication from the Inspector General of the Department of Energy, transmitting, pursuant to law, the Office of Inspector General's Semiannual Report for the period of April 1, 2009 through September 30, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC-3955. A communication from the Secretary of the Department of the Treasury, transmitting, pursuant to law, the Office of Inspector General's Semiannual Report and the Treasury Inspector General for Tax Administration's Report for the period of April

1, 2009 through September 30, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC-3956. A communication from the Administrator of the National Aeronautics and Space Administration, transmitting, pursuant to law, the Office of Inspector General's Semiannual Report for the period of April 1, 2009 through September 30, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC-3957. A communication from the Acting Administrator of the U.S. Agency for International Development, transmitting, pursuant to law, the Office of Inspector General's Semiannual Report for the period of April 1, 2009 through September 30, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC-3958. A communication from the Chief of the Border Security Regulations Branch, Customs and Border Protection, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Technical Amendments to List of CBP Preclearance Offices in Foreign Countries: Addition of Halifax, Canada and Shannon, Ireland" (CPB Dec. 09-45) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC-3959. A communication from the Department of State, transmitting, pursuant to law, a report relative to the transfer of detainees (OSS Control No. 2009-1979); to the Committee on the Judiciary.

EC-3960. A communication from the Assistant Attorney General, Office of Legislative Affairs, Department of Justice, transmitting, pursuant to law, an annual report relative to the activities and operations of the Public Integrity Section, Criminal Division, and the nationwide federal law enforcement effort against public corruption for 2008; to the Committee on the Judiciary.

EC-3961. A communication from the Deputy General Counsel, Office of Capital Access, Small Business Administration, transmitting, pursuant to law, the report of a rule entitled "American Recovery and Reinvestment Act: Loan Program for Systemically Important SBA Secondary Market Broker-Dealers" (RIN3245-AF95) received in the Office of the President of the Senate on December 2, 2009; to the Committee on Small Business and Entrepreneurship.

EC-3962. A communication from the Deputy General Counsel, Office of Government Contracting, Small Business Administration, transmitting, pursuant to law, the report of a rule entitled "Inflationary Adjustment to Acquisition-Related Dollar Thresholds" (RIN3245-AF74) as received during adjournment of the Senate in the Office of the President of the Senate on November 24, 2009; to the Committee on Small Business and Entrepreneurship.

EC-3963. A communication from the Director of Regulation Policy and Management, Veterans Health Administration, Department of Veterans Affairs, transmitting, pursuant to law, the report of a rule entitled "Community Residential Care Program" (RIN2900-AM82) received in the Office of the President of the Senate on December 3, 2009; to the Committee on Veterans' Affairs.

#### INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. BURRIS:

S. 2841. A bill to amend the Internal Revenue Code of 1986 to allow S corporations the deduction for charitable contribution of inventory; to the Committee on Finance.

By Mr. BEGICH:

S. 2842. A bill to amend the Internal Revenue Code of 1986 to deny the deduction for direct to consumer advertising expenses for prescription pharmaceuticals and to provide a deduction for fees paid for the participation of children in certain organizations which promote physical activity; to the Committee on Finance.

By Mr. SCHUMER (for himself, Mr. KYL, Mrs. FEINSTEIN, and Mr. CORNYN):

S. 2844. A bill to amend title 18, United States Code, to improve the terrorist hoax statute; to the Committee on the Judiciary.

By Mr. SCHUMER (for himself, Mr. KYL, Mrs. FEINSTEIN, and Mr. CORNYN):

S. 2845. A bill to amend section 1028 of title 18, United States Code, to prohibit the possession, transfer, or use of fraudulent documents; to the Committee on the Judiciary.

#### SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mrs. HAGAN (for herself and Mr. BURRIS):

S. Res. 371. A resolution congratulating Jimmie Johnson and Hendrick Motorsports for winning the 2009 NASCAR Spring Cup Championship; to the Committee on the Judiciary.

#### ADDITIONAL COSPONSORS

S. 144

At the request of Mr. KERRY, the name of the Senator from Florida (Mr. LEMIEUX) was added as a cosponsor of S. 144, a bill to amend the Internal Revenue Code of 1986 to remove cell phones from listed property under section 280F.

S. 292

At the request of Mr. SPECTER, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 292, a bill to repeal the imposition of withholding on certain payments made to vendors by government entities.

S. 410

At the request of Mrs. LINCOLN, the name of the Senator from Oregon (Mr. MERKLEY) was added as a cosponsor of S. 410, a bill to amend part E of title IV of the Social Security Act to ensure States follow best policies and practices for supporting and retaining foster parents and to require the Secretary of Health and Human Services to award grants to States to improve

the empowerment, leadership, support, training, recruitment, and retention of foster care, kinship care, and adoptive parents.

S. 455

At the request of Mr. ROBERTS, the name of the Senator from Nevada (Mr. ENSIGN) was added as a cosponsor of S. 455, a bill to require the Secretary of the Treasury to mint coins in recognition of 5 United States Army Five-Star Generals, George Marshall, Douglas MacArthur, Dwight Eisenhower, Henry "Hap" Arnold, and Omar Bradley, alumni of the United States Army Command and General Staff College, Fort Leavenworth, Kansas, to coincide with the celebration of the 132nd Anniversary of the founding of the United States Army Command and General Staff College.

S. 461

At the request of Mrs. LINCOLN, the name of the Senator from Oregon (Mr. MERKLEY) was added as a cosponsor of S. 461, a bill to amend the Internal Revenue Code of 1986 to extend and modify the railroad track maintenance credit.

S. 633

At the request of Mr. TESTER, the name of the Senator from North Dakota (Mr. CONRAD) was added as a cosponsor of S. 633, a bill to establish a program for tribal colleges and universities within the Department of Health and Human Services and to amend the Native American Programs Act of 1974 to authorize the provision of grants and cooperative agreements to tribal colleges and universities, and for other purposes.

S. 730

At the request of Mr. ENSIGN, the name of the Senator from Illinois (Mr. BURRIS) was added as a cosponsor of S. 730, a bill to amend the Harmonized Tariff Schedule of the United States to modify the tariffs on certain footwear, and for other purposes.

S. 760

At the request of Mrs. McCASKILL, the name of the Senator from Kansas (Mr. ROBERTS) was added as a cosponsor of S. 760, a bill to designate the Liberty Memorial at the National World War I Museum in Kansas City, Missouri, as the "National World War I Memorial".

S. 761

At the request of Mr. BOND, the name of the Senator from Kansas (Mr. ROBERTS) was added as a cosponsor of S. 761, a bill to establish the World War I Centennial Commission to ensure a suitable observance of the centennial of World War I, and for other purposes.

S. 1055

At the request of Mrs. BOXER, the name of the Senator from Colorado (Mr. BENNET) was added as a cosponsor of S. 1055, a bill to grant the congressional gold medal, collectively, to the 100th Infantry Battalion and the 442nd

Regimental Combat Team, United States Army, in recognition of their dedicated service during World War II.

S. 1147

At the request of Mr. KOHL, the name of the Senator from Wyoming (Mr. ENZI) was added as a cosponsor of S. 1147, a bill to prevent tobacco smuggling, to ensure the collection of all tobacco taxes, and for other purposes.

S. 1222

At the request of Mrs. LINCOLN, the name of the Senator from California (Mrs. FEINSTEIN) was added as a cosponsor of S. 1222, a bill to amend the Internal Revenue Code of 1986 to extend and expand the benefits for businesses operating in empowerment zones, enterprise communities, or renewal communities, and for other purposes.

S. 1397

At the request of Ms. KLOBUCHAR, the name of the Senator from Oregon (Mr. MERKLEY) was added as a cosponsor of S. 1397, a bill to authorize the Administrator of the Environmental Protection Agency to award grants for electronic device recycling research, development, and demonstration projects, and for other purposes.

S. 1518

At the request of Mr. BURR, the names of the Senator from Arkansas (Mrs. LINCOLN), the Senator from Nebraska (Mr. JOHANNIS) and the Senator from Florida (Mr. LEMIEUX) were added as cosponsors of S. 1518, a bill to amend title 38, United States Code, to furnish hospital care, medical services, and nursing home care to veterans who were stationed at Camp Lejeune, North Carolina, while the water was contaminated at Camp Lejeune.

S. 1580

At the request of Mrs. GILLIBRAND, her name was added as a cosponsor of S. 1580, a bill to amend the Occupational Safety and Health Act of 1970 to expand coverage under the Act, to increase protections for whistleblowers, to increase penalties for certain violators, and for other purposes.

S. 1775

At the request of Mr. BAYH, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of S. 1775, a bill to amend the Higher Education Act of 1965 to provide that interest shall not accrue on Federal Direct Loans for members of the Armed Forces on active duty regardless of the date of disbursement.

S. 1933

At the request of Mr. BINGAMAN, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. 1933, a bill to establish an integrated Federal program that protects, restores, and conserves natural resources by responding to the threats and effects of climate change, and for other purposes.

S. 1939

At the request of Mrs. GILLIBRAND, the names of the Senator from Arkan-

sas (Mrs. LINCOLN) and the Senator from Vermont (Mr. SANDERS) were added as cosponsors of S. 1939, a bill to amend title 38, United States Code, to clarify presumptions relating to the exposure of certain veterans who served in the vicinity of the Republic of Vietnam, and for other purposes.

S. 2097

At the request of Mr. THUNE, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. 2097, a bill to authorize the rededication of the District of Columbia War Memorial as a National and District of Columbia World War I Memorial to honor the sacrifices made by American veterans of World War I.

S. 2106

At the request of Mrs. LINCOLN, the name of the Senator from Washington (Mrs. MURRAY) was added as a cosponsor of S. 2106, a bill to require the Secretary of the Treasury to mint coins in commemoration of the 225th anniversary of the establishment of the Nation's first law enforcement agency, the United States Marshals Service.

S. 2760

At the request of Mr. UDALL of New Mexico, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 2760, a bill to amend title 38, United States Code, to provide for an increase in the annual amount authorized to be appropriated to the Secretary of Veterans Affairs to carry out comprehensive service programs for homeless veterans.

S. 2796

At the request of Mr. ENZI, the names of the Senator from South Carolina (Mr. GRAHAM) and the Senator from Nevada (Mr. ENSIGN) were added as cosponsors of S. 2796, a bill to extend the authority of the Secretary of Education to purchase guaranteed student loans for an additional year, and for other purposes.

S. 2837

At the request of Mrs. LINCOLN, the name of the Senator from Louisiana (Ms. LANDRIEU) was added as a cosponsor of S. 2837, a bill to amend part E of title IV of the Social Security Act to examine and improve the child welfare workforce, and for other purposes.

AMENDMENT NO. 2789

At the request of Mr. COBURN, the names of the Senator from Missouri (Mrs. MCCASKILL) and the Senator from Nevada (Mr. ENSIGN) were added as cosponsors of amendment No. 2789 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2792

At the request of Mr. KAUFMAN, the name of the Senator from Iowa (Mr. HARKIN) was added as a cosponsor of

amendment No. 2792 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2793

At the request of Mr. DORGAN, the names of the Senator from California (Mrs. BOXER), the Senator from Virginia (Mr. WEBB) and the Senator from Montana (Mr. TESTER) were added as cosponsors of amendment No. 2793 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2795

At the request of Mr. LEAHY, the name of the Senator from Pennsylvania (Mr. SPECTER) was added as a cosponsor of amendment No. 2795 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2916

At the request of Mr. UDALL of New Mexico, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of amendment No. 2916 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2923

At the request of Mr. DORGAN, the names of the Senator from Colorado (Mr. BENNET) and the Senator from Hawaii (Mr. AKAKA) were added as cosponsors of amendment No. 2923 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2924

At the request of Mr. CASEY, the name of the Senator from Colorado (Mr. UDALL) was added as a cosponsor of amendment No. 2924 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2938

At the request of Mrs. GILLIBRAND, the names of the Senator from New Jersey (Mr. LAUTENBERG) and the Senator from California (Mrs. BOXER) were

added as cosponsors of amendment No. 2938 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

## AMENDMENT NO. 2939

At the request of Mr. PRYOR, the name of the Senator from Connecticut (Mr. DODD) was added as a cosponsor of amendment No. 2939 proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

## AMENDMENT NO. 2942

At the request of Mr. JOHANNIS, his name was added as a cosponsor of amendment No. 2942 proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

## SUBMITTED RESOLUTIONS

## SENATE RESOLUTION 371—CONGRATULATING JIMMIE JOHNSON AND HENDRICK MOTORSPORTS FOR WINNING THE 2009 NASCAR SPRING CUP CHAMPIONSHIP

Mrs. HAGAN (for herself and Mr. BURR) submitted the following resolution; which was referred to the Committee on the Judiciary:

## S. RES. 371

Whereas on November 22, 2009, Hendrick Motorsports driver Jimmie Johnson won the 2009 NASCAR Sprint Cup Championship after finishing in fifth place in the Ford 400 at Homestead-Miami Speedway;

Whereas Jimmie Johnson's victory represents his fourth straight Sprint Cup Championship, a feat that no driver in the 62-year history of NASCAR's premier series had previously been able to accomplish;

Whereas by capturing 4 Sprint Cup Championships in a row, Jimmie Johnson and Hendrick Motorsports have now surpassed the standard set by Cale Yarborough, who previously held the record with 3 consecutive NASCAR Championships between 1976 and 1978;

Whereas since the "Chase for the Sprint Cup" format began in 2004, Jimmie Johnson has won 18 of the 60 Chase races that have been run, failing to finish only once;

Whereas Jimmie Johnson won the 2009 NASCAR Sprint Cup Championship by his widest margin yet, holding a 141-point advantage over his Hendrick teammate, Mark Martin;

Whereas since its inception in February 2006, the Jimmie Johnson Foundation has been dedicated to helping children, families, and communities in need across the United States, and has awarded grants to schools throughout the State of North Carolina, including—

(1) Ashley Park Elementary School in Charlotte, North Carolina;

(2) Collinswood Elementary School in Charlotte, North Carolina;

(3) East Iredell Elementary School in Statesville, North Carolina;

(4) J.H. Gunn Elementary School in Charlotte, North Carolina;

(5) Metro School in Charlotte, North Carolina;

(6) R.B. McAllister Elementary School in Concord, North Carolina;

(7) Smithfield Elementary School in Charlotte, North Carolina;

(8) Third Creek Elementary School in Statesville, North Carolina; and

(9) University Meadows Elementary School in Charlotte, North Carolina;

Whereas in 25 years of competition, Hendrick Motorsports has garnered 8 NASCAR Sprint Cup Series championships, 3 NASCAR Camping World Truck Series titles, and 1 NASCAR Nationwide Series crown (formerly known as the NASCAR Busch Series), making it one of the premier organizations in stock-car racing;

Whereas team owner Rick Hendrick is just the second team owner in the modern era of NASCAR to earn more than 180 Cup Series victories;

Whereas under the Hendrick banner, records have been set for both victories and consistency, with 4 consecutive Southern 500 victories (Jeff Gordon), 6 consecutive road course wins (Gordon), the youngest driver to reach 50 career Cup Series triumphs (Gordon), the youngest driver to win a race in the NASCAR Craftsman Truck Series (Ricky Hendrick), the sole driver to win 3 Truck Series championships (Jack Sprague), and the youngest driver to ever win a NASCAR championship (Brian Vickers);

Whereas all Hendrick race cars are constructed start-to-finish at their 100-plus acre complex, and more than 550 engines are built or rebuilt on-site in Concord, North Carolina each year, with the team leasing some of these engines to other NASCAR outfits;

Whereas the stock car industry has a rich heritage in North Carolina, and as the home to numerous race teams, suppliers, and world-class race tracks, North Carolina has a competitive advantage in this industry;

Whereas as the first race team to implement professional pit crews, Hendrick employs on-site fitness trainers and operates a fully equipped gym to assure that all personnel are in shape and ready for race day; and

Whereas more than 500 employees call Hendrick Motorsports home, with day-to-day activities including management of HendrickMotorsports.com and a 15,000 square foot museum and team store, as well as marketing, public relations, sponsor services, licensing, show cars, merchandising, and much more: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates Jimmie Johnson and Hendrick Motorsports for winning the 2009 NASCAR Sprint Cup Championship;

(2) recognizes the achievements of the owner, driver, pit crew, and support staff, whose perseverance and dedication to excellence helped propel the race team to win the championship; and

(3) respectfully requests the Secretary of the Senate to transmit an enrolled copy of this resolution to—

(A) the team owner of Hendrick Motorsports, Rick Hendrick;

(B) the crew chief of the Lowes Race Team, Chad Knaus; and

(C) the driver of the Lowes Race Team, Jimmie Johnson.

## AMENDMENTS SUBMITTED AND PROPOSED

SA 2953. Mr. UDALL, of Colorado submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table.

SA 2954. Mr. UDALL, of Colorado (for himself and Mr. UDALL, of New Mexico) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2955. Mr. UDALL, of Colorado (for himself, Mrs. HAGAN, Ms. KLOBUCHAR, Mr. BEGICH, Mr. KAUFMAN, Mr. UDALL, of New Mexico, Mr. KIRK, Mr. KOHL, Mr. FRANKEN, Mr. SPECTER, and Mr. CASEY) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2956. Mr. UDALL, of Colorado (for himself, Mr. HARKIN, and Mr. WARNER) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2957. Mr. BENNETT (for himself and Ms. STABENOW) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2958. Mr. BENNETT submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2959. Mr. LEAHY (for himself and Mr. BROWN) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2960. Mrs. SHAHEEN submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2961. Mrs. SHAHEEN submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 2962. Mr. NELSON, of Nebraska (for himself, Mr. HATCH, Mr. CASEY, Mr. BROWNBACK, Mr. THUNE, Mr. ENZI, Mr. COBURN, Mr. JOHANNIS, Mr. VITTER, Mr. BARRASSO, Mr. WICKER, Mr. BOND, Mr. BENNETT, and Mr. INHOFE) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra.

SA 2963. Mr. COBURN submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

Strike line 11 on page 1204 and all that follows through line 16 on page 1206, insert the following:

(B) a local government agency, including municipal, county, and regional public health departments;

(C) a national network of community-based organizations;

(D) a State or local nonprofit organization;

(E) an Indian tribe; or

(F) a nonprofit hospital, clinic, or entity involved in health care delivery or health promotion; and

(2) submit to the Director an application at such time, in such a manner, and containing such information as the Director may require, including a description of the program to be carried out under the grant; and

(3) demonstrate a history or capacity, if funded, to develop relationships necessary to engage key stakeholders from multiple sectors within and beyond health care and across a community, such as healthy futures corps and health care providers.

(d) **DIVERSITY.**—In awarding grants under this section, the Secretary shall ensure, to the extent practicable, that such grants equitably serve racially, economically, and geographically diverse populations and include grants to rural local government agencies or organizations located in, and focused on serving, rural communities.

(e) **USE OF FUNDS.**—

(1) **IN GENERAL.**—An eligible entity shall use amounts received under a grant under this section to carry out programs described in this subsection.

(2) **COMMUNITY TRANSFORMATION PLAN.**—

(A) **IN GENERAL.**—An eligible entity that receives a grant under this section shall submit to the Director (for approval) a detailed plan that includes the policy, environmental, programmatic, and infrastructure changes needed to promote healthy living and reduce disparities.

(B) **ACTIVITIES.**—Activities within the plan shall focus on (but not be limited to)—

(i) creating healthier school environments, including increasing healthy food options, physical activity opportunities, promotion of healthy lifestyle, emotional wellness, and prevention curricula, and activities to prevent chronic diseases;

(ii) creating the infrastructure to support active living and access to nutritious foods in a safe environment;

(iii) developing and promoting programs targeting a variety of age levels to increase access to nutrition, physical activity, and smoking cessation, enhance safety in a community, or address any other chronic disease priority area identified by the grantee;

(iv) assessing and implementing worksite wellness programming and incentives;

(v) working to highlight healthy options at restaurants and other food venues;

(vi) prioritizing strategies to reduce racial, ethnic, and geographic disparities, including social determinants of health; and

**SA 2954.** Mr. UDALL of Colorado (for himself and Mr. UDALL of New Mexico) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1265, between lines 8 and 9, insert the following:

**SEC. 4307. PILOT PROGRAM TO REDUCE THE INCREASING PREVALENCE OF OVERWEIGHT/OBESITY AMONG CHILDREN FROM BIRTH THROUGH 5 YEARS OF AGE.**

(a) **FINDINGS.**—Congress makes the following findings:

(1) Life-long food preferences, eating habits, and activity levels develop early in childhood.

(2) Preschool years are a critical time for determining whether or not an individual will develop obesity later in life.

(3) Aerobic fitness and healthy eating patterns support enhanced behavioral, emotional, and academic performance in school.

(4) Recent studies indicate that children who are overweight at age 5 are more likely to be more overweight at age 9.

(5) Obese preschool children already exhibit signs of cardiovascular disease and diabetes.

(6) According to a 2007 Centers for Disease Control and Prevention study, 12.4 percent of children in the United States ages 2 through 6 are obese.

(7) The 2001 National Household Education Survey found that 74 percent of children in the United States ages 3 through 6 are in some form of non-parental child care, and 56 percent are in center-based child care.

(8) According to a 2009 analysis of child care center licensing regulations, only 12 States have a policy prohibiting or limiting foods of low nutritional value in child care centers, only 8 States require vigorous or moderate physical activity, only one of which has a policy quantifying a required number of minutes of physical activity by day or week, and only 7 States quantify a maximum amount of time for media (television and electronic) each day or week.

(9) In July 2009, the Centers for Disease Control and Prevention released recommended community strategies and measures to prevent obesity in the United States that includes child care specific policy and environmental initiatives to achieve healthy eating and active living among children from birth to 5 years of age.

(10) In September 2009, The Institute of Medicine released findings supporting local governments' ability to play a crucial role in creating environments that make it easier for children to eat healthy diets and remain active.

(11) States should strive to adopt nutrition standards, practices, and policies for childcare centers that are consistent with the 2005 Dietary Guidelines for Americans.

(12) The Child and Adult Care Food Program is a Federal initiative that provides States with grants to provide children and adults in care settings with nutritious meals and snacks.

(13) Childcare centers should serve as settings where children adopt healthy eating habits, have opportunities for age appropriate physical activity, and set screen time limits.

(b) **PURPOSES.**—It is the purpose of this Act to—

(1) establish a 3-year pilot program in 5 States that will focus on reducing the increasing prevalence of overweight/obesity among children between birth and 5 years of age in child care settings;

(2) enhance the focus of child care centers serving the birth to 5 years of age population on children's healthy development through evidence-based or data-informed policies and practices to improve healthy eating, physical activity, and screen time limits; and

(3) identify emerging and expand existing evidence-based practices and understanding

of healthy eating, physical activity, and screen time limits, as appropriate, as well as replicate curricula, interventions, practices, and policy changes that are most effective in promoting nutrition and physical activity among the birth to 5 years of age population in the child care setting.

(c) **DEFINITIONS.**—In this section:

(1) **CHILD CARE CENTER.**—The term “child care center” means a nonresidential facility that generally provides child care services for fewer than 24 hours per day per child, unless care in excess of 24 hours is due to the nature of the parents' work, and that is certified, registered, or licensed in the State in which it is located.

(2) **EARLY LEARNING COUNCIL.**—The term “early learning council” means an early childhood assembly that is established to advise governors, State legislators, or State agency administrators on how best to meet the needs of young children and their families specifically through improvement of programs and services.

(3) **FAMILY CHILD CARE HOME.**—The term “family child care home” means a private family home where home-based child care is provided for a portion of the day, unless care in excess of 24 hours is due to the nature of the parents' work, and that is certified, registered, or licensed in the State in which it is located.

(4) **SCREEN TIME LIMITS.**—The term “screen time limits” means policies or guidelines, such as those developed by the American Academy of Pediatrics, designed to reduce the daily amount of time that children spend watching or looking at digital monitors or displays, including television sets, computer monitors, or hand-held gaming devices.

(5) **SECRETARY.**—The term “Secretary” means the Secretary of Health and Human Services.

(d) **GRANTS.**—

(1) **IN GENERAL.**—The Secretary, acting through the Director of the Centers for Disease Control and Prevention, shall award 3-year competitive grants to 5 State health departments (or other appropriate State agency administering the Child and Adult Care Food Program or other child care programs) to help reduce and prevent obesity among the birth to 5 year old population of the State in child care centers and family child care homes.

(2) **USE OF FUNDS.**—State grantees shall use amounts received under a grant under this subsection to—

(A) provide, or enter into contracts to provide, training (that meets the requirements of paragraph (3)) to the staff of national, State, or community-based organizations with networks of child care centers, or a consortium of childcare centers and family child care homes consisting of at least 10 child care centers or family child care homes, for the purpose of implementing evidence-based or data-informed healthy eating and physical activity policies and practices, including curricula and other interventions; and

(B) provide grants to child care centers and family child care homes, whose staff received the training described in subparagraph (A), to implement practice, curricula, and policy changes (that meet the requirements of paragraph (4)) that promote healthy eating and physical activity among the birth to 5 years of age population.

In determining who receives grant funds, a State shall consider, but not be limited to, child care centers and family child care homes that receive funds under the Child and Adult Care Food Program administered by the Department of Agriculture. Preference

shall be given to those States that demonstrate collaboration between relevant State entities related to child care and health and with key stakeholders, such as State early learning councils and other community based organizations working with child care centers or family child care homes.

(3) TRAINING REQUIREMENTS.—

(A) IN GENERAL.—Training provided under paragraph (2) shall—

(i) include the provision of information concerning age-appropriate healthy eating and physical activity interventions and curricula for the birth to 5 years of age population in the State involved;

(ii) identify, improve upon, and expand nutrition and physical activity best practices targeted to the birth to 5 years of age population in the State involved and identify strategies for incorporating parental education and other parental involvement; and

(iii) provide instruction on how to appropriately model, direct, and encourage child care staff behavior to apply the best practices and strategies identified under clause (ii).

(B) TRAINING ENTITIES.—A grantee may conduct the training required under this subsection directly, or may provide such training through a contract with—

(i) an appropriate national, State, or community organization with relevant expertise;

(ii) a health care provider or professional organization with relevant expertise;

(iii) a university or research center that employs faculty with relevant expertise; or

(iv) any other entity determined appropriate by the State and approved by the Secretary.

(C) REQUIREMENT OF CONTRACT.—If a grantee elects to provide the training under this subsection through a contract, the grantee shall ensure that a consistent healthy eating and physical activity curriculum is being developed for all child care entities that provide care for 10 or more children throughout the State.

(4) PRACTICE, CURRICULA, AND POLICY CHANGES.—After training is provided as required under paragraph (3), a State grantee shall ensure that the organizations and consortium involved—

(A) implement, in child care settings, evidence-based or data-informed policy changes that promote healthy eating, physical activity, and appropriate screen time limits among the birth to 5 years of age population;

(B) utilize an evidence-based or data-informed healthy eating and physical activity curriculum in child care settings focusing on such birth to 5 age population;

(C) implement programs, activities, and procedures for incorporating parental education and involvement of parents in programs, including disseminating a written parental involvement policy, and coordinating and integrating parental involvement strategies under this section, to the extent feasible and appropriate, with parental involvement strategies under other programs, such as the Head Start program and the Early Head Start Program; and

(D) find innovative ways to remove barriers that exist to providing opportunities for healthy eating and physical activity.

All activities described in this paragraph shall be evidence-based or data-informed and be consistent with the curriculum presented through training activities described in paragraph (3).

(e) GRANTS FOR THE EVALUATION OF PILOT PROGRAMS.—The Secretary, acting through the Director of the Centers for Disease Con-

trol and Prevention, shall award competitive grants to Prevention Research Centers or universities to evaluate the programs carried out with grants under subsection (d), including baseline, process, and outcome measurements.

(f) COORDINATION.—

(1) INTERAGENCY COORDINATION.—To the extent practicable, the Secretary, acting through the Centers for Disease Control and Prevention, shall coordinate activities conducted under this section with activities undertaken by the National Prevention, Health Promotion and Public Health Council established under section 4001. Where possible, such coordination should—

(A) include the sharing of current and emerging best practices concerning healthy eating, physical activity, and screen time limits that have a population-level impact in promoting nutrition and physical activity in child care settings;

(B) promote the effective implementation and sustainability of such programs; and

(C) avoid unnecessary duplication of effort.

(2) PILOT COORDINATION.—The Director of the Centers for Disease Control and Prevention shall designate an individual (directly or through contract) to provide technical assistance to States and pilot centers in the development, implementation, and evaluation of activities and dissemination of information described in subparagraphs (A), (B), and (C) of paragraph (1).

(g) EVALUATION AND REPORTING.—

(1) TECHNICAL ASSISTANCE AND INFORMATION.—The Secretary, acting through the Director of the Centers for Disease Control and Prevention, shall—

(A) provide technical assistance to grantees and other entities providing training under a grant under this section; and

(B) disseminate to health departments and trainers under grants under this section information concerning evidence-based or data-informed approaches, including dissemination of existing toolkits, curricula, and existing or emerging best practices that can be expanded or improved upon through a program conducted under this section.

(2) EVALUATION REQUIREMENTS.—With respect to evaluations conducted under subsection (e), the Secretary, acting through the Director of the Center for Disease Control and Prevention, shall ensure that—

(A) evaluation metrics are consistent across all programs funded under this section;

(B) interim outcomes are measured by the number of centers that have implemented policy and environmental strategies that support use of curricula and practices supporting healthy eating, physical activity, and screen time limits;

(C) interim outcomes are measured, to the extent possible, by behavior changes in healthy eating, physical activity, and screen time; and

(D) upon completion of the program, the evaluation shall include an identification of best practices relating to behavior change and reductions in the increasing prevalence of overweight and obesity that could be replicated in other settings.

(3) DISSEMINATION OF INFORMATION.—Upon the conclusion of the programs carried out under this section, the Secretary, acting through the Director of the Centers for Disease Control and Prevention, shall disseminate evidence, best practices, and lessons learned from grantees and shall submit to Congress a report concerning the evaluation of such programs, including recommendations as to how lessons learned from such

programs can be incorporated into future guidance documents developed and provided by the Director for States and communities funded for nutrition, physical activity, and obesity prevention.

(h) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section, \$7,500,000 for each of fiscal years 2011, 2012 and 2013.

**SA 2955.** Mr. UDALL of Colorado (for himself, Mrs. HAGAN, Ms. KLOBUCHAR, Mr. BEGICH, Mr. KAUFMAN, Mr. UDALL of New Mexico, Mr. KIRK, Mr. KOHL, Mr. FRANKEN, Mr. SPECTER, and Mr. CASEY) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1507, after line 19, insert the following:

**SEC. 5510. RURAL PHYSICIAN TRAINING GRANTS.**

Part C of title VII of the Public Health Service Act (42 U.S.C. 293k et seq.) is amended—

(1) after the part heading, by inserting the following:

**“Subpart I—Medical Training Generally”;**

and

(2) by inserting at the end the following:

**“Subpart II—Training in Underserved Communities**

**“SEC. 749B. RURAL PHYSICIAN TRAINING GRANTS.**

“(a) IN GENERAL.—The Secretary, acting through the Administrator of the Health Resources and Services Administration, shall establish a program to make grants to eligible entities for the purposes of—

“(1) assisting eligible entities in recruiting students most likely to practice medicine in underserved rural communities;

“(2) providing rural-focused training and experience; and

“(3) increasing the number of recent allopathic and osteopathic medical school graduates who practice in underserved rural communities.

“(b) ELIGIBLE ENTITIES.—In order to be eligible to receive a grant under this section, an entity shall—

“(1) be a school of allopathic or osteopathic medicine accredited by a nationally recognized accrediting agency or association approved by the Secretary for this purpose, or any combination or consortium of such schools; and

“(2) submit an application to the Secretary at such time, in such form, and containing such information as the Secretary may require, including a certification that such entity—

“(A) will use amounts provided to the institution to—

“(i) establish and carry out a Rural Physician Training Program described in subsection (d);

“(ii) improve an existing rural-focused training program to meet the requirements described in subsection (d) and carry out such program; or

“(iii) expand and carry out an existing rural-focused training program that meets

the requirements described in subsection (d); and

“(B) employs, or will employ within a timeframe sufficient to implement the Program (as described by a timetable and supporting documentation in the application of the eligible entity), faculty with experience or training in rural medicine or with experience in training rural physicians.

“(c) PRIORITY.—In awarding grant funds under this section, the Secretary shall give priority to eligible entities that—

“(1) demonstrate a record of successfully training students, as determined by the Secretary, who practice medicine in underserved rural communities;

“(2) demonstrate that an existing academic program of the eligible entity produces a high percentage, as determined by the Secretary, of graduates from such program who practice medicine in underserved rural communities;

“(3) demonstrate rural community institutional partnerships, through such mechanisms as matching or contributory funding, documented in-kind services for implementation, or existence of training partners with interprofessional expertise (such as dental, vision, or mental health services) in community health center training locations or other similar facilities; or

“(4) submit, as part of the application of the entity under subsection (b), a plan for the long-term tracking of where the graduates of such entity are practicing medicine.

“(d) USE OF FUNDS.—

“(1) ESTABLISHMENT.—An eligible entity receiving a grant under this section shall use the funds made available under such grant to—

“(A) establish and carry out a ‘Rural Physician Training Program’ (referred to in this section as the ‘Program’);

“(B) improve an existing rural-focused training program to meet the Program requirements described in this subsection and carry out such program; or

“(C) expand and carry out an existing rural-focused training program that meets the Program requirements described in this subsection.

“(2) STRUCTURE OF PROGRAM.—An eligible entity shall—

“(A) enroll no fewer than 10 students per class year into the Program; and

“(B) develop criteria for admission to the Program that gives priority to students—

“(i) who have originated from or lived for a period of 2 or more years in an underserved rural community; and

“(ii) who express a commitment to practice medicine in an underserved rural community.

“(3) CURRICULA.—The Program shall require students to enroll in didactic coursework and clinical experience particularly applicable to medical practice in underserved rural communities, including—

“(A) clinical rotations in underserved rural communities, and in specialties including family medicine, internal medicine, pediatrics, surgery, psychiatry, and emergency medicine;

“(B) in addition to core school curricula, additional coursework or training experiences focused on medical issues prevalent in underserved rural communities, including in areas such as trauma, obstetrics, ultrasound, oral health, and behavioral health; and

“(C) any coursework or clinical experience that—

“(i) may be developed as a result of the Symposium described in subsection (f); or

“(ii) the Secretary finds appropriate.

“(4) RESIDENCY PLACEMENT ASSISTANCE.—Where available, the Program shall assist all students of the Program in obtaining clinical training experiences in locations with postgraduate programs offering residency training opportunities in underserved rural communities, or in local residency training programs that support and train physicians to practice in underserved rural communities, as well as assist all students of the Program in obtaining postgraduate residency training in such programs.

“(5) PROGRAM STUDENT COHORT SUPPORT.—The Program shall provide and require all students of the Program to participate in social, educational, and other group activities designed to further develop, maintain, and reinforce the original commitment of such students to practice in an underserved rural community.

“(e) ANNUAL REPORTING REQUIREMENT.—On an annual basis, an eligible entity receiving a grant under this section shall submit a report to the Secretary on—

“(1) the overall success of the Program established by the entity, based on criteria the Secretary determines appropriate;

“(2) the number of students participating in the Program;

“(3) the number of graduating students who participated in the Program;

“(4) the residency program selection of graduating students who participated in the Program;

“(5) the number of graduates who participated in the Program who are practicing in underserved rural communities not less than one year after completing residency training; and

“(6) the number of graduates who participated in the Program who are not practicing in underserved rural communities not less than one year after completing residency training.

“(f) RURAL TRAINING PROGRAM SYMPOSIUM.—

“(1) PURPOSES OF SYMPOSIUM.—To assist the Secretary in carrying out the Program and making grant determinations under this section, the Secretary shall convene a Rural Training Program Symposium (referred to in this section as the ‘Symposium’) to—

“(A) develop best practices that may be incorporated into consideration of applications under subsection (b); and

“(B) establish a network of allopathic and osteopathic medical schools that have developed or will develop rural training programs in accordance with subsection (d).

“(2) COMPOSITION.—The Symposium shall include—

“(A) representatives from eligible entities with existing rural training programs;

“(B) representatives from all eligible entities interested in developing the Program;

“(C) representatives from area health education centers;

“(D) representatives from the Health Resources and Services Administration; and

“(E) any other experts or individuals with experience in practicing medicine in underserved rural communities the Secretary determines appropriate.

“(g) REGULATIONS.—Not later than 60 days after the date of enactment of this section, the Secretary shall by regulation define ‘underserved rural community’ for purposes of this section.

“(h) SUPPLEMENT NOT SUPPLANT.—Any eligible entity receiving funds under this section shall use such funds to supplement, not supplant, any other Federal, State, and local funds that would otherwise be expended by such entity to carry out the activities described in this section.

“(i) MAINTENANCE OF EFFORT.—With respect to activities for which funds awarded under this section are to be expended, the entity shall agree to maintain expenditures of non-Federal amounts for such activities at a level that is not less than the level of such expenditures maintained by the entity for the fiscal year preceding the fiscal year for which the entity receives a grant under this section.

“(j) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated—

“(1) to carry out this section (other than subsection (f))—

“(A) \$4,000,000 for fiscal year 2010;

“(B) \$8,000,000 for fiscal year 2011;

“(C) \$12,000,000 for fiscal year 2012;

“(D) \$16,000,000 for fiscal year 2013; and

“(2) to carry out subsection (f), such sums as may be necessary.”

**SA 2956.** Mr. UDALL of Colorado (for himself, Mr. HARKIN, and Mr. WARNER) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590 to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for the purposes; which was ordered to lie on the table; as follows:

On page 1266, between lines 17 and 18, insert the following:

#### **Subtitle F—Physical Activity Guidelines and Foundation**

#### **PART I—PHYSICAL ACTIVITY GUIDELINES**

#### **SEC. 4501. ESTABLISHMENT OF PHYSICAL ACTIVITY GUIDELINES.**

(a) REPORT.—

(1) IN GENERAL.—At least every 5 years, the Secretary of Health and Human Services (in this section referred to as the “Secretary”) shall publish a report entitled “Physical Activity Guidelines for Americans”. Each such report shall contain physical activity information and guidelines for the general public, and shall be promoted by each Federal agency in carrying out any Federal health program.

(2) BASIS OF GUIDELINES.—The information and guidelines contained in each report required under paragraph (1) shall be based on the preponderance of the scientific and medical knowledge which is current at the time the report is prepared.

(b) APPROVAL BY SECRETARY.—

(1) REVIEW.—Any Federal agency that proposes to issue any physical activity guidance for the general population or identified population subgroups shall submit the text of such guidance to the Secretary for a 60-day review period.

(2) BASIS OF REVIEW.—

(A) IN GENERAL.—During the 60-day review period established in paragraph (1), the Secretary shall review and approve or disapprove such guidance to assure that the guidance either is consistent with the “Physical Activity Guidelines for Americans” or that the guidance is based on medical or new scientific knowledge which is determined to be valid by the Secretary. If after such 60-day review period the Secretary has not notified the proposing agency that such guidance has been disapproved, then such guidance may be issued by the agency. If the Secretary disapproves such guidance,

it shall be returned to the agency. If the Secretary finds that such guidance is inconsistent with the "Physical Activity Guidelines for Americans" and so notifies the proposing agency, such agency shall follow the procedures set forth in this subsection before disseminating such proposal to the public in final form. If after such 60-day period, the Secretary disapproves such guidance as inconsistent with the "Physical Activity Guidelines for Americans" the proposing agency shall—

(i) publish a notice in the Federal Register of the availability of the full text of the proposal and the preamble of such proposal which shall explain the basis and purpose for the proposed physical activity guidance;

(ii) provide in such notice for a public comment period of 30 days; and

(iii) make available for public inspection and copying during normal business hours any comment received by the agency during such comment period.

(B) REVIEW OF COMMENTS.—After review of comments received during the comment period, the Secretary may approve for dissemination by the proposing agency a final version of such physical activity guidance along with an explanation of the basis and purpose for the final guidance which addresses significant and substantive comments as determined by the proposing agency.

(C) ANNOUNCEMENT.—Any such final physical activity guidance to be disseminated under subparagraph (B) shall be announced in a notice published in the Federal Register, before public dissemination along with an address where copies may be obtained.

(D) NOTIFICATION OF DISAPPROVAL.—If after the 30-day period for comment as provided under subparagraph (A)(ii), the Secretary disapproves a proposed physical activity guidance, the Secretary shall notify the Federal agency submitting such guidance of such disapproval, and such guidance may not be issued, except as provided in subparagraph (E).

(E) REVIEW OF DISAPPROVAL.—If a proposed physical activity guidance is disapproved by the Secretary under subparagraph (D), the Federal agency proposing such guidance may, within 15 days after receiving notification of such disapproval under subparagraph (D), request the Secretary to review such disapproval. Within 15 days after receiving a request for such a review, the Secretary shall conduct such review. If, pursuant to such review, the Secretary approves such proposed physical activity guidance, such guidance may be issued by the Federal agency.

(3) DEFINITIONS.—In this subsection:

(A) The term "physical activity guidance for the general population" does not include any rule or regulation issued by a Federal agency.

(B) The term "identified population subgroups" shall include, but not be limited to, groups based on factors such as age, sex, race, or physical disability.

(C) EXISTING AUTHORITY NOT AFFECTED.—This section does not place any limitations on—

(1) the conduct or support of any scientific or medical research by any Federal agency; or

(2) the presentation of any scientific or medical findings or the exchange or review of scientific or medical information by any Federal agency.

## PART II—NATIONAL FOUNDATION ON PHYSICAL FITNESS AND SPORTS

### SEC. 4511. ESTABLISHMENT AND PURPOSE OF FOUNDATION.

(a) ESTABLISHMENT.—There is established the National Foundation on Physical Fitness and Sports (hereinafter in this part referred to as the "Foundation"). The Foundation is a charitable and nonprofit corporation and is not an agency or establishment of the United States.

(b) PURPOSES.—The purposes of the Foundation are—

(1) in conjunction with the President's Council on Physical Fitness and Sports, to develop a list and description of programs, events and other activities which would further the goals outlined in Executive Order 12345 and with respect to which combined private and governmental efforts would be beneficial; and

(2) to encourage and promote the participation by private organizations in the activities referred to in subsection (b)(1) and to encourage and promote private gifts of money and other property to support those activities.

(c) DISPOSITION OF MONEY AND PROPERTY.—At least annually the Foundation shall transfer, after the deduction of the administrative expenses of the Foundation, the balance of any contributions received for the activities referred to in subsection (b), to the United States Public Health Service Gift Fund pursuant to section 2701 of the Public Health Service Act (42 U.S.C. 300aaa) for expenditure pursuant to the provisions of that section and consistent with the purposes for which the funds were donated.

### SEC. 4512. BOARD OF DIRECTORS OF THE FOUNDATION.

(a) ESTABLISHMENT AND MEMBERSHIP.—The Foundation shall have a governing Board of Directors (hereinafter referred to in this part as the "Board"), which shall consist of 9 members each of whom shall be a United States citizen and—

(1) 3 of whom must be knowledgeable or experienced in one or more fields directly connected with physical fitness, sports, or the relationship between health status and physical exercise; and

(2) 6 of whom must be leaders in the private sector with a strong interest in physical fitness, sports, or the relationship between health status and physical exercise.

The membership of the Board, to the extent practicable, shall represent diverse professional specialties relating to the achievement of physical fitness through regular participation in programs of exercise, sports, and similar activities. The Assistant Secretary for Health, the Executive Director of the President's Council on Physical Fitness and Sports, the Director for the National Center for Chronic Disease Prevention and Health Promotion, the Director of the National Heart, Lung, and Blood Institute, and the Director for the Centers for Disease Control and Prevention shall be ex officio, non-voting members of the Board. Appointment to the Board or its staff shall not constitute employment by, or the holding of an office of, the United States for the purposes of any Federal employment or other law.

(b) APPOINTMENTS.—Within 90 days from the date of enactment of this Act, the members of the Board will be appointed. Three members of the Board will be appointed by the Secretary (hereinafter referred to in this part as the "Secretary"), 2 by the majority leader of the Senate, 1 by the minority leader of the Senate, 2 by the Speaker of the House of Representatives, 1 by the minority leader of the House of Representatives.

(c) TERMS.—The members of the Board shall serve for a term of 6 years. A vacancy on the Board shall be filled within 60 days of the vacancy in the same manner in which the original appointment was made and shall be for the balance of the term of the individual who was replaced. No individual may serve more than 2 consecutive terms as a member.

(d) CHAIRMAN.—The Chairman shall be elected by the Board from its members for a 2-year term and will not be limited in terms or service.

(e) QUORUM.—A majority of the current membership of the Board shall constitute a quorum for the transaction of business.

(f) MEETINGS.—The Board shall meet at the call of the Chairman at least once a year. If a member misses 3 consecutive regularly scheduled meetings, that member may be removed from the Board and the vacancy filled in accordance with subsection (c).

(g) REIMBURSEMENT OF EXPENSES.—Members of the Board shall serve without pay, but may be reimbursed for the actual and necessary traveling and subsistence expenses incurred by them in the performance of the duties of the Foundation, subject to the same limitations on reimbursement that are imposed upon employees of Federal agencies.

(h) LIMITATIONS.—The following limitations apply with respect to the appointment of officers and employees of the Foundation:

(1) Officers and employees may not be appointed until the Foundation has sufficient funds to pay them for their service. No individual so appointed may receive pay in excess of the annual rate of basic pay in effect for Executive Level V in the Federal service.

(2) The first officer or employee appointed by the Board shall be the Secretary of the Board who shall serve, at the direction of the Board, as its chief operating officer and shall be knowledgeable and experienced in matters relating to physical fitness and sports.

(3) No Public Health Service employee nor the spouse or dependent relative of such an employee may serve as an officer or member of the Board of Directors or as an employee of the Foundation.

(4) Any individual who is an officer, employee, or member of the Board of the Foundation may not (in accordance with the policies developed under subsection (i)) personally or substantially participate in the consideration or determination by the Foundation of any matter that would directly or predictably affect any financial interest of the individual or a relative (as such term is defined in section 109(16) of the Ethics in Government Act, 1978) of the individual, of any business organization, or other entity, or of which the individual is an officer or employee, is negotiating for employment, or in which the individual has any other financial interest.

(i) GENERAL POWERS.—The Board may complete the organization of the Foundation by—

(1) appointing officers and employees;

(2) adopting a constitution and bylaws consistent with the purposes of the Foundation and the provision of this part; and

(3) undertaking such other acts as may be necessary to carry out the provisions of this part.

In establishing bylaws under this subsection, the Board shall provide for policies with regard to financial conflicts of interest and ethical standards for the acceptance, solicitation and disposition of donations and grants to the Foundation.

### SEC. 4513. RIGHTS AND OBLIGATIONS OF THE FOUNDATION.

(a) IN GENERAL.—The Foundation—

(1) shall have perpetual succession;

(2) may conduct business throughout the several States, territories, and possessions of the United States;

(3) shall have its principal offices in or near the District of Columbia; and

(4) shall at all times maintain a designated agent authorized to accept service of process for the Foundation.

The serving of notice to, or service of process upon, the agent required under paragraph (4), or mailed to the business address of such agent, shall be deemed as service upon or notice to the Foundation.

(b) **SEAL.**—The Foundation shall have an official seal selected by the Board which shall be judicially noticed.

(c) **POWERS.**—To carry out its purposes under section 4511, and subject to the specific provisions thereof, the Foundation shall have the usual powers of a corporation acting as a trustee in the District of Columbia, including the power—

(1) except as otherwise provided herein, to accept, receive, solicit, hold, administer and use any gift, devise, or bequest, either absolutely or in trust, of real or personal property or any income therefrom or other interest therein;

(2) to acquire by purchase or exchange any real or personal property or interest therein;

(3) unless otherwise required by the instrument of transfer, to sell, donate, lease, invest, reinvest, retain or otherwise dispose of any property or income therefrom;

(4) to sue and be sued, and complain and defend itself in any court of competent jurisdiction, except for gross negligence;

(5) to enter into contracts or other arrangements with public agencies and private organizations and persons and to make such payments as may be necessary to carry out its functions; and

(6) to do any and all acts necessary and proper to carry out the purposes of the Foundation.

For purposes of this part, an interest in real property shall be treated as including easements or other rights for preservation, conservation, protection, or enhancement by and for the public of natural, scenic, historic, scientific, educational inspirational or recreational resources. A gift, devise, or bequest may be accepted by the Foundation even though it is encumbered, restricted, or subject to beneficial interests of private persons if any current or future interest therein is for the benefit of the Foundation.

#### **SEC. 4514. PROTECTION AND USES OF TRADE-MARKS AND TRADE NAMES.**

(a) **PROTECTION.**—Without the consent of the Foundation in conjunction with the President's Council on Physical Fitness and Sports, any person who uses for the purpose of trade, uses to induce the sale of any goods or services, or uses to promote any theatrical exhibition, athletic performance or competition—

(1) the official seal of the President's Council on Physical Fitness and Sports consisting of the eagle holding an olive branch and arrows with shield breast encircled by name "President's Council on Physical Fitness and Sports" and consisting, depending upon placement, of diagonal stripes;

(2) the official seal of the Foundation; or

(3) any trademark, trade name, sign, symbol, or insignia falsely representing association with or authorization by the President's Council on Physical Fitness and Sports or the Foundation;

shall be subject in a civil action by the Foundation for the remedies provided in the Act of July 9, 1946 (60 Stat. 427; popularly known as the Trademark Act of 1946).

(b) **USES.**—The Foundation, in conjunction with the President's Council on Physical Fitness and Sports, may authorize contributors and suppliers of goods or services to use the trade name or the President's Council on Physical Fitness and Sports and the Foundation as well as any trademark, seal, symbol, insignia, or emblem of the President's Council on Physical Fitness and Sports or the Foundation in advertising that the contributors, goods, or services when donated, supplied, or furnished to or for the use of, or approved, selected, or used by the President's Council on Physical Fitness and Sports or the Foundation.

#### **SEC. 4515. VOLUNTEER STATUS.**

The Foundation may accept, without regard to the civil service classification laws, rules, or regulations, the services of volunteers in the performance of the functions authorized herein, in the manner provided for under section 7(c) of the Fish and Wildlife Act of 1956 (16 U.S.C. 742f(c)).

#### **SEC. 4516. AUDIT, REPORT REQUIREMENTS, AND PETITION OF ATTORNEY GENERAL FOR EQUITABLE RELIEF.**

(a) **AUDITS.**—For purposes of the Act entitled "An Act for audit of accounts of private corporations established under Federal law", approved August 30, 1964 (Public Law 88-504, 36 U.S.C. 1101-1103), the Foundation shall be treated as a private corporation under Federal law. The Inspector General of the Department of Health and Human Services and the Comptroller General of the United States shall have access to the financial and other records of the Foundation, upon reasonable notice.

(b) **REPORT.**—The Foundation shall, as soon as practicable after the end of each fiscal year, transmit to the Secretary of Health and Human Services and to Congress a report of its proceedings and activities during such year, including a full and complete statement of its receipts, expenditures, and investments.

(c) **RELIEF WITH RESPECT TO CERTAIN FOUNDATION ACTS OR FAILURE TO ACT.**—If the Foundation—

(1) engages in, or threatens to engage in, any act, practice or policy that is inconsistent with its purposes set forth in section 4511(b); or

(2) refuses, fails, or neglects to discharge its obligations under this part, or threaten to do so;

the Attorney General of the United States may petition in the United States District Court for the District of Columbia for such equitable relief as may be necessary or appropriate.

#### **SEC. 4517. AUTHORIZATION OF APPROPRIATIONS.**

For fiscal year 2010, there are authorized to be appropriated such sums as may be necessary, to be made available to the Foundation for organizational costs.

**SA 2957.** Mr. BENNET (for himself and Ms. STABENOW) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the end of section 4101, insert the following:

(c) **AMENDMENTS TO SCHOOL-BASED HEALTH CENTERS PROGRAM.**—Section 399Z-1 of the Public Health Service Act, as added by subsection (b), is amended—

(1) in subsection (f)(1)(A)(iii), by inserting "including programs to promote healthy, active lifestyles and wellness for students" after "programs";

(2) by redesignating subsection (l) as subsection (m); and

(3) by inserting after subsection (k) the following:

"(l) **REGULATIONS REGARDING REIMBURSEMENT FOR HEALTH SERVICES.**—The Secretary shall issue regulations regarding the reimbursement for health services provided by SBHCs to individuals eligible to receive such services through the program under this section, including reimbursement under any insurance policy or any Federal or State health benefits program (including titles XIX and XXI of the Social Security Act)."

**SA 2958.** Mr. BENNET submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the end of title VII, insert the following:

#### **Subtitle C—Rural Health Access and Improvement**

#### **SEC. 7201. GRANTS TO PROMOTE HOSPITAL HEALTH INFORMATION TECHNOLOGY.**

Section 3013 of the Public Health Service Act (42 U.S.C. 300jj-33) is amended by adding at the end the following:

"(j) **PRIORITY.**—In awarding a grant under this section, the Secretary shall give priority to qualified State-designated entities that are critical access hospitals, as defined in section 1861(mm) of the Social Security Act."

#### **SEC. 7202. EXPANDED PARTICIPATION IN SECTION 340B PROGRAM.**

Section 340B(a)(4) of the Public Health Service Act (42 U.S.C. 256b(a)(4)), as amended by section 7101(a), is further amended by adding at the end the following:

"(P) An entity that is a rural health clinic, as defined in section 1861(aa)(2) of the Social Security Act."

#### **SEC. 7203. GAO STUDY AND REPORT ON DISPENSING FEES.**

(a) **STUDY.**—The Comptroller General of the United States shall conduct a study of the cost in each State of dispensing prescription drugs under the Medicaid program under title XIX of the Social Security Act (42 U.S.C. 1396a et seq.), which shall consider—

(1) any reasonable costs associated with pharmacists—

(A) checking for information regarding Medicaid coverage of individuals; and

(B) performing necessary clinical review and quality assurance activities, such as—

(i) activities to identify and reduce the frequency of patterns of fraud, abuse, gross overuse, and inappropriate or medically unnecessary care among physicians, pharmacists, and patients;

(ii) activities associated with specific drugs or groups of drugs, including potential

and actual severe adverse reactions to drugs, including education on therapeutic appropriateness, over-utilization and under-utilization of drugs, appropriate use of generic products, therapeutic duplication, drug-disease contraindications, drug interactions, incorrect drug dosage or duration of drug treatment, drug-allergy interactions, and clinical abuse or misuse; and

(iii) any other clinical review and quality assurance activities required under Federal or State law;

(2) the costs incurred by a pharmacy that are associated with—

(A) the measurement or mixing of a drug covered by Medicaid;

(B) filling the container for such a drug;

(C) physically transferring the prescription to the patient, including any costs of delivering the medication to the home of such patient;

(D) special packaging of drugs;

(E) overhead costs of the pharmacy, or the section of the facility that is devoted to a pharmacy, and maintenance of the pharmacy or section of the facility (including the equipment necessary to operate such pharmacy or such section and the salaries of pharmacists and other pharmacy workers);

(F) geographic factors that impact operational costs;

(G) compounding such prescription if necessary; and

(H) uncollectability of Medicaid prescription copayments;

(3) the variation in costs described in paragraph (2) based on—

(A) whether a product dispensed is a rural or urban pharmacy;

(B) whether the product dispensed is a specialty pharmacy product; and

(C) whether the pharmacy is located in, or contracts with, a long-term care facility; and

(4) the increase in dispensing fees, including the costs described in paragraphs (1), (2), and (3), that would be sufficient to create an incentive for a pharmacist to promote the use of generic medications.

(b) **REPORT.**—Not later than December 1, 2010, the Comptroller General of the United States shall submit to the Secretary of Health and Human Services and to each State a report describing the study conducted under subsection (a). The report shall include—

(1) the average cost in each State of dispensing a prescription drug under Medicaid;

(2) the findings of the study conducted under subsection (a) with respect to—

(A) the variation in costs studied under subparagraphs (A) and (B) of paragraph (3) of such subsection; and

(B) the increase in dispensing fees described in paragraph (4) of such subsection.

(c) **USE OF STUDY.**—Each State shall use the report described in subsection (b) to assess the adequacy of Medicaid pharmacy dispensing fees. The Secretary of Health and Human Services shall use such report to approve State plan amendments for States that submit such amendments for the purposes of increasing Medicaid pharmacy dispensing fees.

#### SEC. 7204. STATE OFFICES OF RURAL HEALTH.

Section 338J of the Public Health Service Act (42 U.S.C. 254r) is amended by striking subsection (k).

**SA 2959.** Mr. LEAHY (for himself and Mr. BROWN) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend

the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1266, between lines 17 and 18, insert the following:

#### SEC. 4403. EXTENSION OF MEDICAL MALPRACTICE COVERAGE TO FREE CLINICS.

(a) **IN GENERAL.**—Section 224(o)(1) of the Public Health Service Act (42 U.S.C. 233(o)(1)) is amended by inserting after “to an individual” the following: “, or an officer, governing board member, employee, or contractor of a free clinic shall in providing services for the free clinic.”

(b) **EFFECTIVE DATE.**—The amendment made by this section shall take effect on the date of enactment of this Act and apply to any act or omission which occurs on or after that date.

**SA 2960.** Mrs. SHAHEEN submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 816, after line 20, insert the following:

#### SEC. 3115. RECOGNITION OF CERTIFIED DIABETES EDUCATORS AS CERTIFIED PROVIDERS FOR PURPOSES OF MEDICAL CARE DIABETES OUTPATIENT SELF-MANAGEMENT TRAINING SERVICES.

(a) **IN GENERAL.**—Section 1861(qq) of the Social Security Act (42 U.S.C. 1395x(qq)) is amended—

(1) in paragraph (1), by inserting “or by a certified diabetes educator (as defined in paragraph (3))” after “paragraph (2)(B)”; and

(2) by adding at the end the following new paragraphs:

“(3) For purposes of paragraph (1), the term ‘certified diabetes educator’ means an individual who—

“(A) is licensed or registered by the State in which the services are performed as a health care professional;

“(B) specializes in teaching individuals with diabetes to develop the necessary skills and knowledge to manage the individual’s diabetic condition; and

“(C) is certified as a diabetes educator by a recognized certifying body (as defined in paragraph (4)).

“(4)(A) For purposes of paragraph (3)(C), the term ‘recognized certifying body’ means—

“(i) the National Certification Board for Diabetes Educators; or

“(ii) a certifying body for diabetes educators, which is recognized by the Secretary as authorized to grant certification of diabetes educators for purposes of this subsection pursuant to standards established by the Secretary, if the Secretary determines such Board or body, respectively, meets the requirement of subparagraph (B).

“(B) The National Certification Board for Diabetes Educators or a certifying body for diabetes educators meets the requirement of this subparagraph, with respect to the cer-

tification of an individual, if the Board or body, respectively, is incorporated and registered to do business in the United States and requires as a condition of such certification each of the following:

“(i) The individual has a qualifying credential in a specified health care profession.

“(ii) The individual has professional practice experience in diabetes self-management training that includes a minimum number of hours and years of experience in such training.

“(iii) The individual has successfully completed a national certification examination offered by such entity.

“(iv) The individual periodically renews certification status following initial certification.”

(b) **EFFECTIVE DATE.**—The amendments made by subsection (a) shall apply to diabetes outpatient self-management training services furnished on or after the first day of the first calendar year that is at least 6 months after the date of the enactment of this Act.

**SA 2961.** Mrs. SHAHEEN submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1925, between lines 14 and 15, insert the following:

#### Subtitle C—Provisions Relating to Generic Drugs

#### SEC. 7201. LABELING CHANGES.

Section 505(j) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(j)) is amended by adding at the end the following:

“(10)(A) If the proposed labeling of a drug that is the subject of an application under this subsection differs from the listed drug due to a labeling revision described under clause (i), the drug that is the subject of such application shall, notwithstanding any other provision of this Act, be eligible for approval and shall not be considered misbranded under section 502 if—

“(i) the application is otherwise eligible for approval under this subsection but for expiration of patent, an exclusivity period, or of a delay in approval described in paragraph (5)(B)(iii), and a revision to the labeling of the listed drug has been approved by the Secretary within 60 days of such expiration;

“(ii) the labeling revision described under clause (i) does not include a change to the ‘Warnings’ section of the labeling;

“(iii) the sponsor of the application under this subsection agrees to submit revised labeling of the drug that is the subject of such application not later than 60 days after the notification of any changes to such labeling required by the Secretary; and

“(iv) such application otherwise meets the applicable requirements for approval under this subsection.

“(B) If, after a labeling revision described in subparagraph (A)(i), the Secretary determines that the continued presence in interstate commerce of the labeling of the listed drug (as in effect before the revision described in subparagraph (A)(i)) adversely impacts the safe use of the drug, no application under this subsection shall be eligible for approval with such labeling.”

**SA 2962.** Mr. NELSON of Nebraska (for himself, Mr. HATCH, Mr. CASEY, Mr. BROWNBACK, Mr. THUNE, Mr. ENZI, Mr. COBURN, Mr. JOHANNES, Mr. VITTER, Mr. BARRASSO, Mr. WICKER, Mr. BOND, Mr. BENNETT, and Mr. INHOFE) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; as follows:

Beginning on page 116, strike line 15 and all that follows through line 15 on page 123, and insert the following:

(a) **SPECIAL RULES RELATING TO COVERAGE OF ABORTION SERVICES.**—

(1) **IN GENERAL.**—Subject to paragraph (2), nothing in this Act (or any amendment made by this Act) shall be construed to require any health plan to provide coverage of abortion services or to allow the Secretary or any other person or entity implementing this Act (or amendment) to require coverage of such services.

(2) **COMMUNITY HEALTH INSURANCE OPTION.**—The Secretary may not provide coverage of abortion services in the community health insurance option established under section 1323, except in the case where use of funds authorized or appropriated by this Act is permitted for such services under subsection (b)(1).

(3) **NO DISCRIMINATION ON THE BASIS OF PROVISION OF ABORTION.**—No Exchange participating health benefits plan may discriminate against any individual health care provider or health care facility because of its unwillingness to provide, pay for, provide coverage of, or refer for abortions.

(b) **LIMITATION ON ABORTION FUNDING.**—

(1) **IN GENERAL.**—No funds authorized or appropriated by this Act (or an amendment made by this Act) may be used to pay for any abortion or to cover any part of the costs of any health plan that includes coverage of abortion, except in the case where a woman suffers from a physical disorder, physical injury, or physical illness that would, as certified by a physician, place the woman in danger of death unless an abortion is performed, including a life-endangering physical condition caused by or arising from the pregnancy itself, or unless the pregnancy is the result of an act of rape or incest.

(2) **OPTION TO PURCHASE SEPARATE SUPPLEMENTAL COVERAGE OR PLAN.**—Nothing in this subsection shall be construed as prohibiting any non-Federal entity (including an individual or a State or local government) from purchasing separate supplemental coverage for abortions for which funding is prohibited under this subsection, or a plan that includes such abortions, so long as—

(A) such coverage or plan is paid for entirely using only funds not authorized or appropriated by this Act; and

(B) such coverage or plan is not purchased using—

(i) individual premium payments required for a qualified health plan offered through the Exchange towards which a credit is applied under section 36B of the Internal Revenue Code of 1986; or

(ii) other non-Federal funds required to receive a Federal payment, including a State's or locality's contribution of Medicaid matching funds.

(3) **OPTION TO OFFER SUPPLEMENTAL COVERAGE OR PLAN.**—Nothing in this subsection shall restrict any non-Federal health insurance issuer offering a qualified health plan from offering separate supplemental coverage for abortions for which funding is prohibited under this subsection, or a plan that includes such abortions, so long as—

(A) premiums for such separate supplemental coverage or plan are paid for entirely with funds not authorized or appropriated by this Act;

(B) administrative costs and all services offered through such supplemental coverage or plan are paid for using only premiums collected for such coverage or plan; and

(C) any such non-Federal health insurance issuer that offers a qualified health plan through the Exchange that includes coverage for abortions for which funding is prohibited under this subsection also offers a qualified health plan through the Exchange that is identical in every respect except that it does not cover abortions for which funding is prohibited under this subsection.

**SA 2963.** Mr. COBURN submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 2074, after line 25, add the following:

**SEC. 90. OPT-OUT OF TAXES AND FEES IMPOSED ON STATES AND INDIVIDUALS.**

(a) **IN GENERAL.**—An individual or State may elect to opt out of any fee or tax imposed or increased under this Act or any amendment made by this Act, including the application of—

(1) the amendments made by section 9003 (relating to distributions for medicine qualified only if for prescribed drug or insulin), and

(2) the amendments made by section 9013 (relating to the modification of itemized deduction for medical expenses).

(b) **PROCESS FOR ELECTION; NOTIFICATION OF OPT-OUT.**—

(1) **IN GENERAL.**—Any election under subsection (a) shall be made by filing a statement (on line, by mail, or in such other manner as specified by the appropriate Secretary)—

(A) in the case of any tax provision, with the Secretary of the Treasury, and

(B) in the case of any other provision, with the Secretary of Health and Human Services. The Secretary of the Treasury, in consultation with the Secretary of Health and Human Services, shall establish a form that may be used for making an election under subsection (a) and shall make such form available on the Internet.

(2) **NOTIFICATION.**—

(A) **IN GENERAL.**—Not later than 1 month after the date of the enactment of this Act, the Secretary of the Treasury, together with the Secretary of Health and Human Services, shall mail a notice to each individual who may make an election under subsection (a).

(B) **CONTENT.**—The notification under subparagraph (A) shall—

(i) state that this Act will create government-run health care exchanges and program

that will be paid for in part with higher taxes and other fees, and

(ii) a form that can be used for opting out of such fees and taxes.

(3) **REVOCATION.**—An individual may revoke an election made under subsection (a) at any time in a manner similar to the manner in which the election is made under paragraph (1).

(c) **RESPONSIBILITY REQUIREMENTS TREATED AS TAX PROVISIONS.**—For purposes of this section, amounts imposed under sections 5000A and 4980H of the Internal Revenue Code of 1986, as added by this Act, shall be treated as taxes.

**SA 2964.** Mr. COBURN submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 17, strike line 11 through line 14.

On page 396, between lines 8 and 9, insert the following:

**SEC. 1563. ENSURING THAT GOVERNMENT HEALTH CARE RATIONING DOES NOT HARM, INJURE, OR DENY MEDICALLY NECESSARY CARE.**

Notwithstanding any other provision of law—

(1) no individual may be denied health care based on age or life expectancy by any Federal health program, the community health insurance option established under section 1323, or any Exchange established under this Act; and

(2) no entity of the Federal Government may develop Quality-Adjusted Life Year measures or other similarly designed government formulas for limiting access to treatment.

Strike section 3403.

Strike section 4105.

On page 1680, between lines 20 and 21, insert the following:

“(2) **PROHIBITION.**—The findings of the Institute are prohibited from being used by any government entity for payment, coverage, or treatment decisions. Nothing in the preceding sentence shall limit a physician or other health care provider from using Institute reports and recommendations when making decisions about the best treatment for an individual patient in an individual circumstance.”.

At the end of subtitle G of title I, add the following:

**SEC. 15. IDENTIFICATION OF FEDERAL GOVERNMENT HEALTH CARE RATIONING.**

(a) **IN GENERAL.**—The Comptroller General of the United States shall conduct, and submit to Congress a report describing the results of, a study that compares, with regard to the programs described in subsection (b)—

(1) any restrictions or limitations regarding access to health care providers (including the percentage of health care providers willing or permitted to care for patients insured by each program);

(2) any restrictions, denials, or rationing relating to the provision of health care, including medical procedures, tests (including mammograms and cervical cancer screenings), and prescription drug formularies;

(3) average wait times to see a primary care doctor;

(4) average wait times for medically necessary surgeries and medical procedures; and

(5) the estimated waste, fraud, and abuse (including improper payments) in each program.

(b) PROGRAMS.—The programs referred to in subsection (a) are—

- (1) Medicare;
- (2) Medicaid;
- (3) the Indian Health Service;
- (4) the Department of Veterans Affairs; and
- (5) the Federal Employee Health Benefits Program.

**SA 2965.** Mr. COBURN submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

After title IX, insert the following:

**TITLE X—CERTIFICATION OF FINANCIAL SUSTAINABILITY AND FISCAL SOLVENCY**

**SEC. 10001. FINANCIAL SUSTAINABILITY AND FISCAL SOLVENCY REQUIREMENT.**

Notwithstanding any other provision of law, the provisions of this Act (and the amendments made by this Act), including any health insurance programs created, run, or expanded by the government through this Act (or the amendments made by this Act), shall not take effect unless the actuary of the Department of Health and Human Services and the actuary of the Social Security Administration each independently certify, in testimony before Congress and in an official report to Congress, that, as of January 1, 2009, the Medicare program under title XVIII of the Social Security Act (42 U.S.C. 1395 et seq.) and the Medicaid program under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.) are financially sustainable and fiscally solvent through January 1, 2029.

**SA 2966.** Mr. COBURN submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 621, strike line 10 and all that follows through page 1134, line 3, and insert the following:

**TITLE III—REDUCING WASTE, FRAUD, AND ABUSE IN MEDICARE AND MEDICAID**

**SEC. 3001. PREVENTION AND DETECTION OF WASTE, FRAUD, AND ABUSE WITHIN THE MEDICARE AND MEDICAID PROGRAMS.**

(a) IN GENERAL.—Not later than 2 years after the date of enactment of this Act, the Secretary shall develop and implement innovative technologies, systems, and procedures (as described under subsection (b)) to reduce waste, fraud, and abuse under the Medicare and Medicaid programs and ensure that

amounts attributed to waste, fraud, and abuse constitute an amount not greater than 5 percent of all funds expended under the Medicare program.

(b) PREVENTION AND DETECTION MEASURES.—For purposes of subsection (a), the technologies, systems, and procedures to be developed and implemented by the Secretary shall include the following:

(1) Improving the Medicare beneficiary identifier (MBI) used to identify beneficiaries under the Medicare program to—

(A) ensure that the social security account numbers assigned to such beneficiaries are not used;

(B) provide such beneficiaries with machine-readable identification cards that employ a unique patient number; and

(C) establish a process for changing the MBI for an individual to a different identifier in the case of the discovery of fraud, including identity theft.

(2) Comprehensive real-time data matching across Federal agencies (similar to measures employed by the credit card industry) that is able to determine—

(A) whether a beneficiary under the Medicare or Medicaid programs is dead, imprisoned, or otherwise not eligible for benefits under such programs; and

(B) whether a provider of services or a supplier under the Medicare or Medicaid programs is dead, imprisoned, or otherwise not eligible to furnish or receive payment for furnishing items and services under such programs.

(3) Imposition of direct financial penalties to facilities receiving funds under the Medicare or Medicaid programs that employ any physician, executive, or administrator that has been convicted of an offense involving fraud relating to the Medicare or Medicaid programs or reached a settlement relating to such an offense with the Federal Government or any State government.

(4) Use of procedures and technology (including front-end, pre-payment technology similar to that used by hedge funds, investment funds, and banks) to provide real-time data analysis of claims for payment under the Medicare program to identify and investigate unusual billing or order practices that could indicate fraud or abuse.

(c) INVESTIGATION.—The Secretary shall, in the case where a provider of services or a supplier under the Medicare or Medicaid programs submits a claim for payment for items or services furnished to an individual who the Secretary determines, as a result of information obtained pursuant to subsection (b), is not eligible for benefits under such program, or where the Secretary determines, as a result of such information, that such provider of services or supplier is not eligible to furnish or receive payment for furnishing such items or services, refer the matter to the Inspector General of the Department of Health and Human Services for investigation not later than 14 days after the Secretary has made such a determination.

(d) DEFINITIONS.—In this title:

(1) MEDICAID.—The term “Medicaid” means the program for medical assistance established under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.).

(2) MEDICARE.—The term “Medicare” means the program for medical assistance established under title XVIII of the Social Security Act (42 U.S.C. 1395 et seq.).

(3) SECRETARY.—The term “Secretary” means the Secretary of Health and Human Services.

**SEC. 3002. REINVESTMENT OF SAVINGS INTO MEDICARE PROGRAM.**

Any savings achieved under the Medicare program pursuant to the measures developed and implemented by the Secretary under section 3001 shall be reinvested into the Federal Hospital Insurance Trust Fund, as established under section 1817 of the Social Security Act (42 U.S.C. 1395i), or the Federal Supplementary Medical Insurance Trust Fund, as established under section 1841 of such Act (42 U.S.C. 1395t).

**SEC. 3003. USING HEALTH CARE PROFESSIONALS TO REDUCE FRAUD.**

(a) IN GENERAL.—The Secretary shall establish a demonstration project that uses practicing health care professionals to conduct undercover investigations of other health care professionals.

(b) DEMONSTRATION PROJECT.—

(1) IN GENERAL.—The Secretary, in coordination with the Office of the Inspector General of the Department of Health and Human Services (referred to in this section as the “Inspector General”), shall establish a demonstration project in which the Secretary enters into contracts with practicing health care professionals to conduct investigations of health care providers that receive reimbursements through any Federal public health care program.

(2) SCOPE.—The Secretary shall conduct the demonstration project under this section in States or regions that have—

(A) above-average rates of Medicare fraud; or

(B) any level of Medicaid fraud.

(c) ELIGIBILITY.—To be eligible to receive a contract under subsection (b)(1), a health care professional shall—

(1) be a licensed and practicing medical professional who holds an advanced medical degree from an accredited American university or college and has experience within the health care industry; and

(2) submit to the Secretary such information, at such time, and in such manner, as the Secretary may require.

(d) ACTIVITIES.—Each health care professional awarded a contract under subsection (b)(1) shall assist the Secretary and the Inspector General in conducting random audits of the practices of health care providers that receive reimbursements through any Federal public health care program. Such audits may include—

(1) statistically random visits to the practices of such health care providers;

(2) attempts to purchase pharmaceutical products illegally from such health care providers;

(3) purchasing durable medical equipment from such health care providers;

(4) hospital visits; and

(5) other activities, as the Secretary determines appropriate.

(e) FOLLOW-UP BY THE INSPECTOR GENERAL.—The Inspector General shall follow up on any notable findings of the investigations conducted under subsection (d) in order to report fraudulent practices and refer individual cases to the appropriate State and local authorities.

(f) LIMITATION.—The Secretary shall not contract with a health care professional if, due to physical proximity or a personal, familial, proprietary, or monetary relationship with such health care professional to individuals that such professional would be investigating, a conflict of interest could be inferred.

(g) FUNDING.—To carry out this section, the Secretary and the Inspector General are each authorized to reserve, from amounts appropriated to the Department of Health and

Human Services and the Office of the Inspector General of the Department of Health and Human Services, respectively, \$500,000 for each of fiscal years 2010 through 2014.

**SA 2967.** Mr. COBURN submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 124, line 1 insert "OTHER" before "FEDERAL".

On page 124, line 4, insert "other" before "Federal".

On page 124, between lines 22 and 23, insert the following:

**SEC. 1304. NONDISCRIMINATION ON ABORTION AND RESPECT FOR RIGHTS OF CONSCIENCE.**

(a) **NONDISCRIMINATION.**—A Federal agency or program, and any State or local government, or institutional health care entity that receives Federal financial assistance under this Act (or an amendment made by this Act), shall not—

(1) subject any individual or institutional health care entity to discrimination; or

(2) require any health care entity that is established or regulated under this Act (or an amendment made by this Act) to subject any individual or institutional health care entity to discrimination;

on the basis that such health care entity does not provide, pay for, provide coverage of, or refer for abortions.

(b) **DEFINITION.**—In this section, the term "health care entity" includes an individual physician or other health care professional, a hospital, a provider-sponsored organization, a health maintenance organization, a health insurance plan, a plan sponsor, a health insurance issuer, a qualified health plan or issuer offering such a plan, or any other kind of health care facility, organization, or plan.

(c) **ADMINISTRATION.**—The Office for Civil Rights of the Department of Health and Human Services is designated to receive complaints of discrimination based on this section, and coordinate the investigation of such complaints.

**SA 2968.** Mr. COBURN submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

Strike subtitle D of title IV and insert the following:

**Subtitle D—Prohibition on Comparative Effectiveness Research for the Purpose of Determining Cost and Coverage Decisions**

**SEC. 4301. PROHIBITION ON COMPARATIVE EFFECTIVENESS RESEARCH FOR THE PURPOSE OF DETERMINING COST AND COVERAGE DECISIONS.**

Reports and recommendations from the Patient-Centered Outcomes Research Insti-

tute, established under section 1181 of the Social Security Act (as added by section 6301), are prohibited from being used by any government entity for payment, coverage, or treatment decisions based on cost. Nothing in the preceding sentence shall limit a physician or other health care provider from using reports and recommendations of such Institute when making decisions about the best treatment for an individual patient in an individual circumstance.

**SA 2969.** Mr. COBURN (for himself, Mr. GRASSLEY, Mr. BURR, Mr. VITTER, Mrs. MCCASKILL, and Mr. ENSIGN) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 156, line 4, strike all through page 157, line 7, and insert the following:

(D) **REQUIREMENT OF MEMBERS OF CONGRESS AND OTHERS TO ENROLL IN THE PUBLIC OPTION.**—

(i) **REQUIREMENT.**—Notwithstanding any other provision of law, all Federal officers shall be enrolled in the community health insurance option when established by the Secretary.

(ii) **INELIGIBLE FOR FEHBP.**—Effective on the date on which the community health insurance option is established by the Secretary, no Federal officer shall be eligible to participate in a health benefits plan under chapter 89 of title 5, United States Code.

(iii) **EMPLOYER CONTRIBUTION.**—

(I) **IN GENERAL.**—The appropriate disbursing officer for each Federal officer shall pay the amount determined under subclause (II) to—

(aa) the appropriate community health insurance option; or

(bb) in the case of a Federal officer who resides in a State which opts out of providing a community health insurance option and is enrolled in a plan offered through an Exchange, the appropriate Exchange.

(II) **AMOUNT OF EMPLOYER CONTRIBUTION.**—The Director of the Office of Personnel Management shall determine the amount of the employer contribution for each Federal officer. The amount shall be equal to the employer contribution for the health benefits plan under chapter 89 of title 5, United States Code, with the greatest number of enrollees, except that the contribution shall be actuarially adjusted for age.

(iv) **DEFINITIONS.**—In this subparagraph:

(I) **COMMUNITY HEALTH INSURANCE OPTION.**—The term "community health insurance option" means the health insurance established by the Secretary under section 1323.

(II) **CONGRESSIONAL EMPLOYEE.**—The term "congressional employee" means an employee of—

(aa) a committee of the Senate or House of Representatives;

(bb) the office of a Member of Congress;

(cc) the Majority Leader of the Senate;

(dd) the Minority Leader of the Senate;

(ee) the Speaker of the House of Representatives; or

(ff) the Minority Leader of the House of Representatives;

(III) **FEDERAL OFFICER.**—The term "Federal officer" means—

(aa) a Member of Congress;

(bb) the President;

(cc) the Vice President;

(dd) a political appointee; and

(ee) a congressional employee.

(IV) **MEMBER OF CONGRESS.**—The term "Member of Congress" means any member of the House of Representatives or the Senate.

(V) **POLITICAL APPOINTEE.**—The term "political appointee" means any individual who—

(aa) is employed in a position described under sections 5312 through 5316 of title 5, United States Code, (relating to the Executive Schedule);

(bb) is a limited term appointee, limited emergency appointee, or noncareer appointee in the Senior Executive Service, as defined under paragraphs (5), (6), and (7), respectively, of section 3132(a) of title 5, United States Code; or

(cc) is employed in a position in the executive branch of the Government of a confidential or policy-determining character under schedule C of subpart C of part 213 of title 5 of the Code of Federal Regulations.

**SA 2970.** Mr. CASEY submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**TITLE PULMONARY HYPERTENSION RESEARCH AND EDUCATION**

**SEC. 101. SHORT TITLE.**

This title may be cited as the "Tom Lantos Pulmonary Hypertension Research and Education Act of 2009".

**Subtitle A—Research on Pulmonary Hypertension**

**SEC. 11. EXPANSION AND INTENSIFICATION OF ACTIVITIES.**

(a) **SENSE OF CONGRESS.**—It is the sense of the Congress that—

(1) the Secretary of Health and Human Services (in this Act referred to as the "Secretary"), acting through the Director of the National Institutes of Health and the Director of the National Heart, Lung, and Blood Institute (in this title referred to as the "Institute"), should continue aggressive work on pulmonary hypertension;

(2) as part of such work, the Director of the Institute should continue research to expand the understanding of the causes of, and to find a cure for, pulmonary hypertension; and

(3) activities under paragraph (1) may include conducting and supporting—

(A) basic research concerning the etiology and causes of pulmonary hypertension;

(B) basic research on the relationship between scleroderma, sickle cell anemia (and other conditions identified by the Director of the Institute that can lead to a secondary diagnosis of pulmonary hypertension), and pulmonary hypertension;

(C) clinical research for the development and evaluation of new treatments for pulmonary hypertension, including the establishment of a "Pulmonary Hypertension Clinical Research Network";

(D) support for the training of new clinicians and investigators with expertise in the pulmonary hypertension; and

(E) information and education programs for the general public.

(b) BIENNIAL REPORTS.—As part of the biennial report made under section 403 of the Public Health Service Act (42 U.S.C. 283), the Secretary shall include information on the status of pulmonary hypertension research at the National Institutes of Health.

**Subtitle B—Increasing Awareness of Pulmonary Hypertension**

**SEC. 21. PROMOTING PUBLIC AWARENESS.**

(a) IN GENERAL.—The Secretary, acting through the Director of the Centers for Disease Control and Prevention, shall carry out an educational campaign to increase public awareness of pulmonary hypertension. Print, video, and Web-based materials distributed under this program may include—

- (1) basic information on pulmonary hypertension and its symptoms; and
- (2) information on—
  - (A) the incidence and prevalence of pulmonary hypertension;
  - (B) diseases and conditions that can lead to pulmonary hypertension as a secondary diagnosis;
  - (C) the importance of early diagnosis; and
  - (D) the availability, as medically appropriate, of a range of treatment options and pulmonary hypertension.

(b) DISSEMINATION OF INFORMATION.—The Secretary is encouraged to disseminate information under subsection (a) through a cooperative agreement with a national non-profit entity with expertise in pulmonary hypertension.

(c) REPORT TO CONGRESS.—Not later than September 30, 2010, the Secretary shall report to the Committee on Energy and Commerce of the House of Representatives, the Committee on Health, Education, Labor, and Pensions of the Senate, and the Committee on Appropriations of the House of Representatives and the Senate on the status of activities under this section.

(d) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section, there is authorized to be appropriated \$2,500,000 for each of fiscal years 2010, 2011, and 2012.

**SEC. 22. PROMOTING AWARENESS AMONG HEALTH CARE PROFESSIONALS.**

(a) IN GENERAL.—The Secretary, acting through the Administrator of the Health Resources and Services Administration and the Director of the Centers for Disease Control and Prevention, shall carry out an educational campaign to increase awareness of pulmonary hypertension among health care providers. Print, video, and Web-based materials distributed under this program may include information on—

- (1) the symptoms of pulmonary hypertension;
- (2) the importance of early diagnosis;
- (3) current diagnostic criteria; and
- (4) Food and Drug Administration-approved therapies for the disease.

(b) TARGETED HEALTH CARE PROVIDERS.—Health care providers targeted through the campaign under subsection (a) shall include, but not be limited to, cardiologists, pulmonologists, rheumatologists, primary care physicians, pediatricians, and nurse practitioners.

(c) DISSEMINATION OF INFORMATION.—The Secretary is encouraged to disseminate information under subsection (a) through a cooperative agreement with a national non-profit entity with expertise in pulmonary hypertension.

(d) REPORT TO CONGRESS.—Not later than September 30, 2010, the Secretary shall report to the Committee on Energy and Com-

merce of the House of Representatives, the Committee on Health, Education, Labor, and Pensions of the Senate, and the Committee on Appropriations of the House of Representatives and the Senate on the status of activities under this section.

(e) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section, there is authorized to be appropriated \$2,500,000 for each of fiscal years 2010, 2011, and 2012.

**SA 2971.** Mr. CASEY submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 731, strike line 9 and all that follows through line 16 and insert the following: clude a teaching hospital or medical school, physicians, and other clinical entities, that, through their structure, operations, and joint-activity deliver a full spectrum of integrated and comprehensive health care services to applicable individuals while also incorporating innovative methods for the clinical training of future health care professionals.

“(xix) Determining the efficacy of methods to change education models and the practice of community based physicians for higher quality and more cost effective care, to be conducted by a new, freestanding medical school working in a collaborative model with an insurer, community hospitals, private practice physicians, and other health professionals.

**SA 2972.** Mr. CASEY submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 731, between lines 16 and 17, insert the following:

“(xvii) Funding the use of telehealth systems to facilitate acute stroke therapy services furnished to Medicare beneficiaries in both rural and urban areas that are administered by board eligible or board certified vascular neurologists and coordinated by a certified stroke center.”.

**SA 2973.** Mrs. MURRAY (for herself and Ms. STABENOW) submitted an amendment intended to be proposed by her to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

**SEC. \_\_\_\_ COMMUNITY-BASED COLLABORATIVE CARE NETWORKS.**

Part D of title III of the Public Health Service Act (42 U.S.C. 254b et seq.) is amended by adding at the end the following new subpart:

**“Subpart XI—Community-Based Collaborative Care Network Program**

**“SEC. 340H. COMMUNITY-BASED COLLABORATIVE CARE NETWORK PROGRAM.**

“(a) IN GENERAL.—The Secretary may award grants to eligible entities for the purpose of establishing model projects to accomplish the following goals:

“(1) To reduce unnecessary use of items and services furnished in emergency departments of hospitals (especially to ensure that individuals without health insurance coverage or with inadequate health insurance coverage do not use the services of such department instead of the services of a primary care provider) through methods such as—

“(A) screening individuals who seek emergency department services for possible eligibility under relevant governmental health programs or for subsidies under such programs; and

“(B) providing such individuals referrals for followup care and chronic condition care.

“(2) To manage chronic conditions to reduce their severity, negative health outcomes, and expense.

“(3) To encourage health care providers to coordinate their efforts so that the most vulnerable patient populations seek and obtain primary care.

“(4) To provide more comprehensive and coordinated care to vulnerable low-income individuals and individuals without health insurance coverage or with inadequate coverage.

“(5) To provide mechanisms for improving both quality and efficiency of care for low-income individuals and families, with an emphasis on those most likely to remain uninsured despite the existence of government programs to make health insurance more affordable.

“(6) To increase preventive services, including screening and counseling, to those who would otherwise not receive such screening, in order to improve health status and reduce long-term complications and costs.

“(7) To ensure the availability of community-wide safety net services, including emergency and trauma care.

“(b) ELIGIBILITY AND GRANTEE SELECTION.—

“(1) APPLICATION.—A community-based collaborative care network described in subsection (d) shall submit to the Secretary an application in such form and manner and containing such information as specified by the Secretary. Such information shall at least—

“(A) identify the health care providers participating in the community-based collaborative care network proposed by the applicant and, if a provider designated in paragraph (d)(1)(B) is not included, the reason such provider is not so included;

“(B) include a description of how the providers plan to collaborate to provide comprehensive and integrated care for low-income individuals, including uninsured and underinsured individuals;

“(C) include a description of the organizational and joint governance structure of the community-based collaborative care network in a manner so that it is clear how decisions will be made, and how the decision-making process of the network will include appropriate representation of the participating entities;

“(D) define the geographic areas and populations that the network intends to serve;

“(E) define the scope of services that the network intends to provide and identify any reasons why such services would not include a suggested core service identified by the Secretary under paragraph (3);

“(F) demonstrate the network’s ability to meet the requirements of this section; and

“(G) provide assurances that grant funds received shall be used to support the entire community-based collaborative care network.

“(2) SELECTION OF GRANTEEES.—

“(A) IN GENERAL.—The Secretary shall select community-based collaborative care networks to receive grants from applications submitted under paragraph (1) on the basis of quality of the proposal involved, geographic diversity (including different States and regions served and urban and rural diversity), and the number of low-income and uninsured individuals that the proposal intends to serve.

“(B) PRIORITY.—The Secretary shall give priority to proposals from community-based collaborative care networks that—

“(i) include the capability to provide the broadest range of services to low-income individuals; and

“(ii) include providers that currently serve a high volume of low-income individuals.

“(C) RENEWAL.—In subsequent years, based on the performance of grantees, the Secretary may provide renewal grants to prior year grant recipients.

“(3) SUGGESTED CORE SERVICES.—For purposes of paragraph (1)(E), the Secretary shall develop a list of suggested core patient and core network services to be provided by a community-based collaborative care network. The Secretary may select a community-based collaborative care network under paragraph (2), the application of which does not include all such services, if such application provides a reasonable explanation why such services are not proposed to be included, and the Secretary determines that the application is otherwise high quality.

“(4) TERMINATION AUTHORITY.—The Secretary may terminate selection of a community-based collaborative care network under this section for good cause. Such good cause shall include a determination that the network—

“(A) has failed to provide a comprehensive range of coordinated and integrated health care services as required under subsection (d)(2);

“(B) has failed to meet reasonable quality standards;

“(C) has misappropriated funds provided under this section; or

“(D) has failed to make progress toward accomplishing goals set out in subsection (a).

“(c) USE OF FUNDS.—

“(1) USE BY GRANTEEES.—Grant funds are provided to community-based collaborative care networks to carry out the following activities:

“(A) Assist low-income individuals without adequate health care coverage to—

“(i) access and appropriately use health services;

“(ii) enroll in applicable public or private health insurance programs;

“(iii) obtain referrals to and see a primary care provider in case such an individual does not have a primary care provider; and

“(iv) obtain appropriate care for chronic conditions.

“(B) Improve health care by providing case management, application assistance, and ap-

propriate referrals such as through methods to—

“(i) create and meaningfully use a health information technology network to track patients across collaborative providers;

“(ii) perform health outreach, such as by using neighborhood health workers who may inform individuals about the availability of safety net and primary care providers available through the community-based collaborative care network;

“(iii) provide for followup outreach to remind patients of appointments or follow-up care instructions;

“(iv) provide transportation to individuals to and from the site of care;

“(v) expand the capacity to provide care at any provider participating in the community-based collaborative care network, including telehealth, hiring new clinical or administrative staff, providing access to services after-hours, on weekends, or otherwise providing an urgent care alternative to an emergency department; and

“(vi) provide a primary care provider or medical home for each network patient.

“(C) Provide direct patient care services as described in their application and approved by the Secretary.

“(2) GRANT FUNDS TO HRSA GRANTEEES.—The Secretary may limit the percent of grant funding that may be spent on direct care services provided by grantees of programs administered by the Health Resources and Services Administration (in this section referred to as ‘HRSA’) or impose other requirements on HRSA grantees participating in a community-based collaborative care network as may be necessary for consistency with the requirements of such programs.

“(3) RESERVATION OF FUNDS FOR NATIONAL PROGRAM PURPOSES.—The Secretary may use not more than 7 percent of funds appropriated to carry out this section for providing technical assistance to grantees, obtaining assistance of experts and consultants, holding meetings, developing of tools, disseminating of information, and evaluation.

“(d) COMMUNITY-BASED COLLABORATIVE CARE NETWORKS.—

“(1) IN GENERAL.—

“(A) DESCRIPTION.—A community-based collaborative care network described in this subsection is a consortium of health care providers with a joint governance structure that provides a comprehensive range of coordinated and integrated health care services for low-income patient populations or medically underserved communities (whether or not such individuals receive benefits under title XVIII, XIX, or XXI of the Social Security Act, private or other health insurance or are uninsured or underinsured) and that complies with any applicable minimum eligibility requirements that the Secretary may determine appropriate.

“(B) REQUIRED INCLUSION.—Each such network shall include the following providers that serve the community (unless such provider does not exist within the community, declines or refuses to participate, or places unreasonable conditions on their participation)—

“(i) A safety net hospital that provides services to a high volume of low-income patients, as demonstrated by meeting the criteria in section 1923(b)(1) of the Social Security Act, or other similar criteria determined by the Secretary; and

“(ii) All Federally qualified health centers (as defined in section 1861(aa) of the Social Security Act (42 U.S.C. 1395x(aa))) located in the geographic area served by the Coordinated Care Network;

“(C) ADDITIONAL INCLUSIONS.—Funding preferences shall be given to networks that include additional providers such as the following:

“(i) A hospital, including a critical access hospital (as defined in section 1820(c)(2) of the Social Security Act (42 U.S.C. 1395i-4(c)(2)));

“(ii) A county or municipal department of health.

“(iii) A rural health clinic or a rural health network (as defined in sections 1861(aa) and 1820(d) of the Social Security Act, respectively (42 U.S.C. 1395x(aa), 1395i-4(d))).

“(iv) A community clinic, including a mental health clinic, substance abuse clinic, or a reproductive health clinic.

“(v) A health center controlled network as defined by section 330(e)(1)(C) of the Public Health Service Act.

“(vi) A private practice physician or group practice.

“(vii) A nurse or physician assistant or group practice.

“(viii) An adult day care center.

“(ix) A home health provider.

“(x) Any other type of provider specified by the Secretary, which has a desire to serve low-income and uninsured patients.

“(D) CONSTRUCTION.—

“(i) Nothing in this section shall prohibit a single entity from qualifying as community-based collaborative care network so long as such single entity meets the criteria of a community-based collaborative care network. If the network does not include the providers referenced in clauses (i) and (ii) of subparagraph (B) of this paragraph, the application must explain the reason pursuant to subsection (b)(1)(A).

“(ii) Participation in a community-based collaborative care network shall not affect Federally qualified health centers’ obligation to comply with the governance requirements under section 330 of the Public Health Service Act (42 U.S.C. 254b).

“(iii) Federally qualified health centers participating in a community-based collaborative care network may not be required to provide services beyond their Federal Health Center scope of project approved by HRSA.

“(iv) Nothing in this section shall be construed to expand medical malpractice liability protection under the Federal Tort Claims Act for Section 330-funded Federally qualified health centers.

“(2) COMPREHENSIVE RANGE OF COORDINATED AND INTEGRATED HEALTH CARE SERVICES.—The Secretary shall define criteria for evaluating whether the services offered by a community-based collaborative care network qualify as a comprehensive range of coordinated and integrated health care services. Such criteria may vary based on the needs of the geographic areas and populations to be served by the network and may include the following:

“(A) Requiring community-based collaborative care networks to include at least the suggested core services identified under subsection (b)(3), or whichever subset of the suggested core services is applicable to a particular network.

“(B) Requiring such networks to assign each patient of the network to a primary care provider responsible for managing that patient’s care.

“(C) Requiring the services provided by a community-based collaborative care network to include support services appropriate to meet the health needs of low-income populations in the network’s community, which may include chronic care management, nutritional counseling, transportation, language services, enrollment counselors, social

services and other services as proposed by the network.

“(D) Providing that the services provided by a community-based collaborative care network may also include long-term care services and other services not specified in this subsection.

“(E) Providing for the approval by the Secretary of a scope of community-based collaborative care network services for each network that addresses an appropriate minimum scope of work consistent with the setting of the network and the health professionals available in the community the network serves.

“(3) CLARIFICATION.—Participation in a community-based collaborative care network shall not disqualify a health care provider from reimbursement under title XVIII, XIX, or XXI of the Social Security Act with respect to services otherwise reimbursable under such title. Nothing in this section shall prevent a community-based collaborative care network that is otherwise eligible to contract with Medicare, a private health insurer, or any other appropriate entity to provide care under Medicare, under health insurance coverage offered by the insurer, or otherwise.

“(e) EVALUATIONS.—

“(1) GRANTEE REPORTS.—Beginning in the third year following an initial grant, each community-based collaborative care network shall submit to the Secretary, with respect to each year the grantee has received a grant, an evaluation on the activities carried out by the community-based collaborative care network under the community-based collaborative care network program and shall include—

“(A) the number of people served;

“(B) the most common health problems treated;

“(C) any reductions in emergency department use;

“(D) any improvements in access to primary care;

“(E) an accounting of how amounts received were used, including identification of amounts used for patient care services as may be required for HRSA grantees; and

“(F) to the extent requested by the Secretary, any quality measures or any other measures specified by the Secretary.

“(2) PROGRAM REPORTS.—The Secretary shall submit to Congress an annual evaluation (beginning not later than 6 months after the first reports under paragraph (1) are submitted) on the extent to which emergency department use was reduced as a result of the activities carried out by the community-based collaborative care network under the program. Each such evaluation shall also include information on—

“(A) the prevalence of certain chronic conditions in various populations, including a comparison of such prevalence in the general population versus in the population of individuals with inadequate health insurance coverage;

“(B) demographic characteristics of the population of uninsured and underinsured individuals served by the community-based collaborative care network involved; and

“(C) the conditions of such individuals for whom services were requested at such emergency departments of participating hospitals.

“(3) AUDIT AUTHORITY.—The Secretary may conduct periodic audits and request periodic spending reports of community-based collaborative care networks under the community-based collaborative care network program.

“(f) CLARIFICATION.—Nothing in this section requires a provider to report individually identifiable information of an individual to government agencies, unless the individual consents, consistent with HIPAA privacy and security law, as defined in section 3009(a)(2).

“(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as may be necessary for each of fiscal years 2011 through 2015.”.

**SA 2974.** Ms. SNOWE submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 114, beginning with line 17, strike all through page 116, line 6, and insert the following:

(e) CATASTROPHIC PLAN.—

(1) IN GENERAL.—A health plan not providing a bronze, silver, gold, or platinum level of coverage shall be treated as meeting the requirements of subsection (d) with respect to any plan year if the plan provides —

(A) except as provided in subparagraph (B), the essential health benefits determined under subsection (b), except that the plan provides no benefits for any plan year until the individual has incurred cost-sharing expenses in an amount equal to the annual limitation in effect under subsection (c)(1) for the plan year (except as provided for in section 2713); and

(B) coverage for at least three primary care visits.

(2) RESTRICTION TO INDIVIDUAL MARKET.—If a health insurance issuer offers a health plan described in this subsection, the issuer may only offer the plan in the individual market.

On page 155, beginning with line 22, strike all through page 156, line 3, and insert the following:

(A) INDIVIDUALS ALLOWED TO ENROLL IN ANY PLAN.—A qualified individual may enroll in any qualified health plan.

On page 250, lines 7 through 10, strike “, except that such term shall not include a qualified health plan which is a catastrophic health plan described in section 1302(e) of such Act”.

**SA 2975.** Ms. SNOWE submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 348, strike line 22 and all that follows through line 15 on page 349.

**SA 2976.** Mr. CARDIN (for himself and Mr. ENSIGN) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr.

REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 816, after line 20, insert the following:

**SEC. 3115. PERMITTING HOME HEALTH AGENCIES TO ASSIGN THE MOST APPROPRIATE SKILLED SERVICE TO MAKE THE INITIAL ASSESSMENT VISIT UNDER A MEDICARE HOME HEALTH PLAN OF CARE FOR REHABILITATION CASES.**

(a) IN GENERAL.—Notwithstanding section 484.55(a)(2) of title 42 of the Code of Federal Regulations or any other provision of law, a home health agency may determine the most appropriate skilled therapist to make the initial assessment visit for an individual who is referred (and may be eligible) for home health services under title XVIII of the Social Security Act but who does not require skilled nursing care as long as the skilled service (for which that therapist is qualified to provide the service) is included as part of the plan of care for home health services for such individual.

(b) RULE OF CONSTRUCTION.—Nothing in subsection (a) shall be construed to provide for initial eligibility for coverage of home health services under title XVIII of the Social Security Act on the basis of a need for occupational therapy.

**SA 2977.** Mr. BEGICH submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle C of title IV, insert the following:

**SEC. 4208. INTERAGENCY TASK FORCE TO ASSESS AND IMPROVE ACCESS TO HEALTH CARE IN THE STATE OF ALASKA.**

(a) FINDINGS.—Congress finds as follows:

(1) Access to health care in the State of Alaska is challenging due to geographical constraints, health care workforce and treatment facility shortages, and lack of certain medical specialties available in the State.

(2) Delivery of health care to beneficiaries of Federal health care programs is especially challenging in the State of Alaska as a result of capacity constraints at Federal treatment facilities and insufficient civilian provider networks to support Federal systems.

(3) The State of Alaska has the largest, per capita population of veterans, many of whom rely on the health care system of the Department of Veterans Affairs.

(4) The State of Alaska has a large population of active-duty military personnel, military retirees, and dependents of military personnel and retirees who rely on the military health care system. This population will increase as a result of Armed Forces structure initiatives during the next several years.

(5) A significant portion of Alaska's population is comprised of Medicare beneficiaries.

(6) Almost ¼ of Alaska's population is comprised of Medicaid beneficiaries.

(7) Federal agencies have undertaken efforts to improve and increase access to health care in the State of Alaska for Federal health care system beneficiaries, but there are finite medical resources in the State for which such beneficiaries must compete.

(8) To ensure improved and increased access to health care for beneficiaries of Federal health care systems in the State of Alaska, comprehensive policies and inter-agency collaboration are required.

(b) INTERAGENCY ACCESS TO HEALTH CARE IN ALASKA TASK FORCE.—

(1) ESTABLISHMENT.—There is established a task force to be known as the “Interagency Access to Health Care in Alaska Task Force” (referred to in this section as the “Task Force”).

(2) ACTIVITIES.—The Task Force shall—

(A) assess access to health care for beneficiaries of Federal health care systems in Alaska, which shall include consideration of, with regard to the State of Alaska—

(i) current Federal health care delivery methods at Federal treatment facilities and through civilian provider networks;

(ii) shortfalls in delivering health care to beneficiaries of Federal health care systems at Federal treatment facilities and through civilian provider networks; and

(iii) the impact of reimbursement rates and claims processing on civilian provider participation; and

(B) develop a strategy for the Federal Government to improve delivery of health care to Federal beneficiaries in the State of Alaska, which shall include—

(i) interagency collaboration opportunities for addressing shortfalls in delivering health care to beneficiaries of Federal health care systems;

(ii) increasing Federal Government primary care and specialty care capability practices in the State of Alaska at Federal treatment facilities and in the civilian provider community.

(c) MEMBERSHIP.—

(1) APPOINTMENT.—

(A) FEDERAL MEMBERS.—The Task Force shall be comprised of Federal members who shall be appointed as follows:

(i) One member shall be a representative of the Department of Health and Human Services and shall be appointed by the Secretary of Health and Human Services.

(ii) One member shall be a representative of the Centers for Medicare and Medicaid Services and shall be appointed by the Secretary of Health and Human Services.

(iii) One member shall be a representative of the Indian Health Service and shall be appointed by the Secretary of Health and Human Services.

(iv) One member shall be a representative of the TRICARE Management Activity and shall be appointed by the Secretary of Defense.

(v) One member shall be a representative of the Army Medical Department and shall be appointed by the Secretary of the Army.

(vi) One member shall be a representative of the Air Force and shall be appointed by the Secretary of the Air Force from among officers at the Air Force performing medical service functions.

(vii) One member shall be a representative of the Department of Veterans Affairs and shall be appointed by the Secretary of Veterans Affairs.

(viii) One member shall be a representative of the Veterans Health Administration and shall be appointed by the Secretary of Veterans Affairs.

(ix) One member shall be a representative of the United States Coast Guard and shall be appointed by the Secretary of Homeland Security.

(B) NON-FEDERAL MEMBERS.—Individuals appointed by the Secretary of Health and Human Services to the Task Force from outside the agencies may include officers or employees of other departments and agencies of the Federal Government and individuals from the private medical community in Alaska and, at the election of the Governor of the State of Alaska, shall include at least one employee representative of the State of Alaska.

(2) TIMEFRAME FOR APPOINTMENT.—All appointments of individuals to the Task Force, as described in paragraph (2), shall be made not later than 45 days after the date of enactment of this Act.

(3) CO-CHAIRPERSONS.—There shall be 2 co-chairpersons of the Task Force, appointed at the time of appointment of members under paragraph (1). One co-chairperson shall be designated by the Secretary of Health and Human Services from among the representatives of the Department of Health and Human Services who are appointed to the Task Force under clauses (i) through (iii) of paragraph (2), and one co-chairperson shall be designated by the Secretary of Health and Human Services from among the members appointed under clauses (iv) through (ix) of such paragraph.

(4) VACANCIES.—A vacancy in the Task Force shall be filled in the manner in which the original appointment was made.

(5) COMPENSATION.—

(A) IN GENERAL.—Except as provided in subparagraph (B), members of the Task Force may not receive pay, allowances, or benefits by reason of such member's service on the Task Force.

(B) TRAVEL EXPENSES.—The members of the Task Force shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance of services for the Task Force.

(d) MEETINGS.—The Task Force shall meet at the call of the chairperson.

(e) REPORT.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Task Force shall submit to Congress a report detailing the activities of the Task Force and containing the findings, strategies, recommendations, policies, and initiatives developed pursuant to the duties of the Task Force under subsection (b)(2).

(2) CONSIDERATION OF OTHER EFFORTS.—In preparing the report described in paragraph (1), the Task Force shall consider completed and ongoing efforts by Federal agencies to improve access to health care in the State of Alaska.

(f) TERMINATION.—The Task Force shall be terminated on the date of submission of the report described in subsection (e).

**SA 2978.** Mr. BEGICH submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other

purposes; which was ordered to lie on the table; as follows:

After section 3510, insert the following:

**SEC. 3511. ASSISTANCE FOR FRONTIER CLINICS.**

Title III of the Public Health Service Act (42 U.S.C. 241 et seq.), as amended by section 4303, is further amended by adding at the end the following:

**“PART V—ASSISTANCE FOR FRONTIER CLINICS**

**“SEC. 399NN. ASSISTANCE FOR FRONTIER CLINICS.**

“(a) IN GENERAL.—The Secretary of Health and Human Services (referred to in this section as the ‘Secretary’), acting through the Administrator of the Health Resources and Services Administration, shall award grants to eligible health clinics for the purpose of ensuring access to needed emergency care in frontier areas 24-hours per day, 7 days per week, and to ensure the health and safety of patients at such clinics.

“(b) ELIGIBILITY.—To be eligible to receive a grant under subsection (a), an entity shall be—

“(1) located in a community where the closest short-term acute care hospital or critical access hospital is—

“(A) at least 60 miles or one hour usual travel time from such community; or

“(B) inaccessible by public road; and

“(2) designed to address the needs of—

“(A) seriously or critically ill or injured patients for stabilization prior to transport to definitive care; or

“(B) patients who need monitoring and observation for a limited period of time.

“(c) PRIORITY.—In awarding grants under this section, the Secretary shall ensure that not less than 25 percent of the entities receiving such a grant are located in communities from which the nearest short-term acute care hospital or critical access hospital is at least 75 miles or is inaccessible by public road.

“(d) USE OF FUNDS.—Entities receiving a grant under this section shall use such grant funds to meet quality standards established for the staffing, equipment, or health care facility of such entity.

“(e) AUTHORIZATION OF APPROPRIATIONS.—To carry out this section, there is authorized to be appropriated \$20,000,000 for each of fiscal years 2011 through 2015.”

**SA 2979.** Mr. BEGICH submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

After title IX, insert the following:

**TITLE X—INCREASING ACCESS TO PRIMARY CARE SERVICES**

**SEC. 10001. STATE GRANTS TO HEALTH CARE PROVIDERS WHO PROVIDE SERVICES TO A HIGH PERCENTAGE OF MEDICALLY UNDERSERVED POPULATIONS OR OTHER SPECIAL POPULATIONS.**

(a) IN GENERAL.—A State may award grants to health care providers who treat a high percentage, as determined by such State, of medically underserved populations or other special populations in such State.

(b) SOURCE OF FUNDS.—A grant program established by a State under subsection (a)

may not be established within a department, agency, or other entity of such State that administers the Medicaid program under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.), and no Federal or State funds allocated to such Medicaid program, the Medicare program under title XVIII of the Social Security Act (42 U.S.C. 1395 et seq.), or the TRICARE program under chapter 55 of title 10, United States Code, may be used to award grants or to pay administrative costs associated with a grant program established under subsection (a).

**SEC. 10002. INCENTIVE PAYMENTS FOR PRIMARY CARE PHYSICIANS WHO TREAT A CERTAIN PERCENTAGE OF NEW MEDICARE PATIENTS.**

(a) IN GENERAL.—Section 1833 of the Social Security Act (42 U.S.C. 1395l), as amended by section 5501, is further amended by adding at the end the following new subsection:

“(z) INCENTIVE PAYMENTS FOR PRIMARY CARE SERVICES PROVIDED TO NEW MEDICARE PATIENTS.—

“(1) IN GENERAL.—In the case of primary care services furnished on or after January 1, 2011, and before January 1, 2016, by an eligible primary care practitioner in a calendar year, in addition to the amount of payment that would otherwise be made for such services under this part, including any payment available under subsection (x), there also shall be paid (on a monthly or quarterly basis) an amount equal to 5 percent of the payment amount for the service under this part.

“(2) DEFINITIONS.—In this subsection—

“(A) the term ‘eligible primary care provider’ means a primary care practitioner for whom, of all patients for whom such practitioner provides primary care services in a calendar year and for whom such practitioner did not provide such services in the previous calendar year, 10 percent of such patients are enrollees under this part;

“(B) the terms ‘primary care practitioner’ and ‘primary care services’ have the meanings given such terms in subsection (x)(2).

“(3) COORDINATION WITH OTHER PAYMENTS.—The amount of the additional payment for a service under this subsection and subsections (m) and (x) shall be determined without regard to any additional payment for the service under subsection (m), subsection (x), and this subsection, respectively.

“(4) LIMITATION ON REVIEW.—There shall be no administrative or judicial review under section 1869, 1878, or otherwise, respecting the identification of primary care practitioners under this subsection.”.

(b) CONFORMING AMENDMENTS.—

(1) Section 1834(g)(2)(B) of the Social Security Act (42 U.S.C. 1395m(g)(2)(B)), as amended by section 5501(b)(2), is further amended by striking “(x) and (y)” in the last sentence and inserting “(x), (y), and (z)”.

(2) Section 1834(x)(3) of such Act, as added by section 5501, is amended—

(A) by striking “subsection (m)” the first place it appears and inserting “subsections (m) and (z)”;

(B) by striking “subsection (m) and” and inserting “subsection (m), subsection (z), and”.

**SEC. 10003. FACULTY LOAN REPAYMENT FOR PHYSICIAN ASSISTANTS.**

Section 738(a)(3) of the Public Health Service Act (42 U.S.C. 293b(a)(3)) is amended by inserting “schools offering physician assistant education programs,” after “public health.”.

**SEC. 10004. ACCOUNTABLE CARE ORGANIZATION DEMONSTRATION PROGRAM.**

Section 1899(b)(2)(D) of the Social Security Act, as added by section 3022, is amended by

adding at the end: “Notwithstanding the preceding sentence, the Secretary may approve for participation in the program any ACO, with any number of Medicare fee-for-service beneficiaries assigned to such ACO, that proposes a plan that would improve efficiencies and provide cost savings.”

**SEC. 10005. AMERICAN PRIMARY CARE CORPS.**

(a) IN GENERAL.—The Secretary of Health and Human Services (referred to in this section as the “Secretary”) shall establish an American Primary Care Corps (referred to in this section as the “program”) for the purpose of encouraging health care practitioners who are recent graduates of a health care program to enter into primary care practice, by providing incentive payments to eligible primary care practitioners.

(b) DEFINITIONS.—In this section:

(1) PRIMARY CARE PRACTITIONER.—The term “primary care practitioner” means a health care provider, including a physician, dentist, nurse practitioner, and physician assistant, who primarily provides primary health services.

(2) PRIMARY CARE SERVICES.—The term “primary health services” has the meaning given such term in section 331(a)(3)(D) of the Public Health Service Act (42 U.S.C. 254d(a)(3)(D)).

(c) PROGRAM.—

(1) IN GENERAL.—The Secretary shall select recipients of the incentive payment awards under this section from among eligible primary care practitioners. Each recipient of such an award shall receive incentive payments, as described in paragraph (2), for a period of 3 years, provided such recipient continues to maintain active employment as a primary care practitioner.

(2) INCENTIVE PAYMENTS.—The Secretary shall award incentive payments, on a competitive basis, to eligible primary care practitioners as follows:

(A) In the first year that a practitioner receives an award under the program, such practitioner shall receive an incentive payment in an amount that is equal to 75 percent of the salary for such year received by such practitioner for employment as a primary care practitioner.

(B) In the second year that a practitioner receives an award under the program, such practitioner shall receive an incentive payment in an amount that is equal to 50 percent of the salary for such year received by such practitioner for employment as a primary care practitioner.

(C) In the third year that a practitioner receives an award under the program, such practitioner shall receive an incentive payment in an amount that is equal to 25 percent of the salary for such year received by such practitioner for employment as a primary care practitioner.

(d) ELIGIBLE PRIMARY CARE PRACTITIONERS.—To be eligible to receive an incentive payment under this section, an individual shall—

(1) be actively employed as a primary care practitioner, or have arrangements to commence active employment as a primary care practitioner;

(2) have graduated, not more than 2 years after the date on which such individual would begin receiving incentive payments under this program, from an accredited program that qualifies such individual to maintain employment as a primary care practitioner; and

(3) submit to the Secretary an application, at such time, in such manner, and containing such information as the Secretary may require.

(e) DURATION OF PROGRAM.—The Secretary shall make awards under this section for each of fiscal years 2011 through 2015. Each such recipient shall remain in the program for a 3-year period, as described in subsection (c), provided such recipient continues to maintain active employment as a primary care practitioner.

(f) AUTHORIZATION OF APPROPRIATIONS.—To carry out this section, there are authorized to be appropriated \$50,000,000 for each of fiscal years 2011 through 2015, and such sums as may be necessary for fiscal years 2016 and 2017.

**SA 2980.** Ms. MIKULSKI submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 84, line 10, insert “sterilization” after “including”.

On page 95, between lines 7 and 8, insert the following:

**“SEC. 2705A. PROHIBITING CONSIDERATION OF PRIOR HISTORY OF STERILIZATION, DOMESTIC VIOLENCE, OR MEDICALLY NECESSARY CESAREAN SECTION AS A CONDITION FOR ISSUING HEALTH INSURANCE COVERAGE.**

“A group health plan and a health insurance issuer offering group or individual health insurance coverage shall not, with respect to an individual desiring to enroll in coverage, take any of the following actions based on evidence of sterilization, domestic violence, or medically necessary cesarean section with respect to such individual:

“(1) Decline to offer coverage to such individual.

“(2) Deny enrollment of such individual in the plan or coverage.

“(3) Establish rules of eligibility (including continued eligibility) for such individual under the plan or coverage.

“(4) Require such individual to pay an additional premium or contribution amount based solely on evidence of sterilization.

“(5) Require sterilization as a condition to offer coverage.”.

On page 99, line 23, insert before the period the following: “, except that the provisions of section 2705A of the Public Health Service Act (as added by such amendments) shall become effective for plan years beginning on or after the date that is 6 months after the date of enactment of this Act”.

**SA 2981.** Ms. SNOWE submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 19, line 19, insert before the period the following: “and for form and rate filings with respect to issuers”.

On page 24, line 14, insert “(including standards relating to form and rate filings)” after “section”.

**SA 2982.** Mr. REID (for Mr. BYRD) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 621, between lines 9 and 10, insert the following:

**SEC. 2956. INFANT EYE AND VISION ASSESSMENT.**

(a) INCLUSION IN MATERNAL AND CHILD HEALTH SERVICES PROGRAM.—Subsection (a)(2) of section 501 of the Social Security Act (42 U.S.C. 701) is amended—

(1) by striking “and” after “without regard to age,”; and

(2) by inserting after “follow-up services” the following: “, and for infant eye and vision assessment promotion”.

(b) DEFINITION.—Subsection (b) of such section is amended by adding at the end the following new paragraph:

“(5) The term ‘infant eye and vision assessment promotion’ means a nationally established program for the promotion of—

“(A) comprehensive eye and vision assessments provided to infants who have attained 6 months, but not 12 months, in age without charge;

“(B) the development and dissemination of parental information and education materials on infant eye and vision health;

“(C) increased participation by optometrists to perform infant eye and vision assessments; and

“(D) public and private partnerships at the State and local levels for the provision of such eye and vision assessments.”.

(c) EFFECTIVE DATE.—The amendments made by this section take effect on January 1, 2010.

**SA 2983.** Mr. REID (for Mr. BYRD) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1265, between lines 8 and 9, insert the following:

**SEC. 4307. SCREENING, BRIEF INTERVENTION, REFERRAL, AND TREATMENT FOR MENTAL HEALTH AND SUBSTANCE ABUSE DISORDERS.**

Part D of title V of the Public Health Service Act (42 U.S.C. 290dd et seq.) is amended by adding at the end the following:

**“SEC. 544. SCREENING, BRIEF INTERVENTION, REFERRAL, AND TREATMENT FOR MENTAL HEALTH AND SUBSTANCE ABUSE DISORDERS.**

“(a) PROGRAM.—The Secretary, acting through the Administrator, shall establish a program (consisting of awarding grants, contracts, and cooperative agreements under subsection (b)) on mental health and substance abuse screening, brief intervention, referral, and recovery services for individuals in primary health care settings.

“(b) USE OF FUNDS.—The Secretary may award grants to, or enter into contracts or cooperative agreements with, entities—

“(1) to provide mental health and substance abuse screening, brief interventions, referral, and recovery services;

“(2) to coordinate such services with primary health care services in the same program and setting;

“(3) to develop a network of facilities to which patients may be referred if needed;

“(4) to purchase needed screening and other tools that are—

“(A) necessary for providing such services; and

“(B) supported by evidence-based research; and

“(5) to maintain communication with appropriate State mental health and substance abuse agencies.

“(c) ELIGIBILITY.—To be eligible for a grant, contract, or cooperative agreement under this section, an entity shall be a public or private nonprofit entity that—

“(1) provides primary health services;

“(2) seeks to integrate mental health and substance abuse services into its service system;

“(3) has developed a working relationship with providers of mental health and substance abuse services;

“(4) demonstrates a need for the inclusion of mental health and substance abuse services in its service system; and

“(5) agrees—

“(A) to prepare and submit to the Secretary at the end of the grant, contract, or cooperative agreement period an evaluation of all activities funded through the grant, contract, or cooperative agreement; and

“(B) to use such performance measures as may be stipulated by the Secretary for purposes of such evaluation.

“(d) PREFERENCE.—In awarding grants, contracts, and cooperative agreements under this section, the Secretary shall give preference to entities that—

“(1) provide services in rural or underserved areas of the United States;

“(2) provide services to entities in States that have high percentages of populations with substance abuse or mental health problems; or

“(3) provide services in school-based health clinics or on university and college campuses.

“(e) DURATION.—The period of a grant, contract, or cooperative agreement under this section may not exceed 5 years.

“(f) REPORT.—Not later than 4 years after the first appropriation of funds to carry out this section, the Secretary shall submit a report to the Congress on the program under this section—

“(1) that includes an evaluation of the benefits of integrating mental health and substance abuse care within primary health care; and

“(2) focusing on the performance measures stipulated by the Secretary under subsection (c)(5).

“(g) AUTHORIZATION OF APPROPRIATIONS.—

“(1) IN GENERAL.—To carry out this section, there are authorized to be appropriated \$30,000,000 for fiscal year 2011 and such sums as may be necessary for each of fiscal years 2012 through 2015.

“(2) PROGRAM MANAGEMENT.—Of the funds appropriated to carry out this section for a fiscal year, the Secretary may use not more than 5 percent to manage the program under this section.”.

**SA 2984.** Mr. BARRASSO submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr.

DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 816, after line 20, insert the following:

**SEC. 3115. USE OF PRIVATE CONTRACTS BY MEDICARE BENEFICIARIES FOR PROFESSIONAL SERVICES.**

(a) IN GENERAL.—Section 1802(b) of the Social Security Act (42 U.S.C. 1395a) is amended to read as follows:

“(b) CLARIFICATION OF USE OF PRIVATE CONTRACTS BY MEDICARE BENEFICIARIES FOR PROFESSIONAL SERVICES.—

“(1) IN GENERAL.—Nothing in this title shall prohibit a medicare beneficiary from entering into a private contract with a physician or health care practitioner for the provision of medicare covered professional services (as defined in paragraph (5)(C)) if—

“(A) the services are covered under a private contract that is between the beneficiary and the physician or practitioner and meets the requirements of paragraph (2);

“(B) under the private contract no claim for payment for services covered under the contract is to be submitted (and no payment made) under part A or B, under a contract under section 1876, or under an MA plan (other than an MSA plan); and

“(C)(i) the Secretary has been provided with the minimum information necessary to avoid any payment under part A or B for services covered under the contract, or

“(ii) in the case of an individual enrolled under a contract under section 1876 or an MA plan (other than an MSA plan) under part C, the eligible organization under the contract or the MA organization offering the plan has been provided the minimum information necessary to avoid any payment under such contract or plan for services covered under the contract.

“(2) REQUIREMENTS FOR PRIVATE CONTRACTS.—The requirements in this paragraph for a private contract between a medicare beneficiary and a physician or health care practitioner are as follows:

“(A) GENERAL FORM OF CONTRACT.—The contract is in writing and is signed by the medicare beneficiary.

“(B) NO CLAIMS TO BE SUBMITTED FOR COVERED SERVICES.—The contract provides that no party to the contract (and no entity on behalf of any party to the contract) shall submit any claim for (or request) payment for services covered under the contract under part A or B, under a contract under section 1876, or under an MA plan (other than an MSA plan).

“(C) SCOPE OF SERVICES.—The contract identifies the medicare covered professional services and the period (if any) to be covered under the contract, but does not cover any services furnished—

“(i) before the contract is entered into; or

“(ii) for the treatment of an emergency medical condition (as defined in section 1867(e)(1)(A)), unless the contract was entered into before the onset of the emergency medical condition.

“(D) CLEAR DISCLOSURE OF TERMS.—The contract clearly indicates that by signing the contract the medicare beneficiary—

“(i) agrees not to submit a claim (or to request that anyone submit a claim) under part A or B (or under section 1876 or under an MA plan, other than an MSA plan) for services covered under the contract;

“(ii) agrees to be responsible, whether through insurance or otherwise, for payment for such services and understands that no reimbursement will be provided under such part, contract, or plan for such services;

“(iii) acknowledges that no limits under this title (including limits under paragraphs (1) and (3) of section 1848(g)) will apply to amounts that may be charged for such services;

“(iv) acknowledges that medicare supplemental policies under section 1882 do not, and other supplemental health plans and policies may elect not to, make payments for such services because payment is not made under this title; and

“(v) acknowledges that the beneficiary has the right to have such services provided by (or under the supervision of) other physicians or health care practitioners for whom payment would be made under such part, contract, or plan.

Such contract shall also clearly indicate whether the physician or practitioner involved is excluded from participation under this title.

“(3) MODIFICATIONS.—The parties to a private contract may mutually agree at any time to modify or terminate the contract on a prospective basis, consistent with the provisions of paragraphs (1) and (2).

“(4) NO REQUIREMENTS FOR SERVICES FURNISHED TO MSA PLAN ENROLLEES.—The requirements of paragraphs (1) and (2) do not apply to any contract or arrangement for the provision of services to a medicare beneficiary enrolled in an MSA plan under part C.

“(5) DEFINITIONS.—In this subsection:

“(A) HEALTH CARE PRACTITIONER.—The term ‘health care practitioner’ means a practitioner described in section 1842(b)(18)(C).

“(B) MEDICARE BENEFICIARY.—The term ‘medicare beneficiary’ means an individual who is enrolled under part B.

“(C) MEDICARE COVERED PROFESSIONAL SERVICES.—The term ‘medicare covered professional services’ means—

“(i) physicians’ services (as defined in section 1861(q), and including services described in section 1861(s)(2)(A)), and

“(ii) professional services of health care practitioners, including services described in section 1842(b)(18)(D),

for which payment may be made under part A or B, under a contract under section 1876, or under a Medicare Advantage plan but for the provisions of a private contract that meets the requirements of paragraph (2).

“(D) MA PLAN; MSA PLAN.—The terms ‘MA plan’ and ‘MSA plan’ have the meanings given such terms in section 1859.

“(E) PHYSICIAN.—The term ‘physician’ has the meaning given such term in section 1861(r).”

(b) CONFORMING AMENDMENTS CLARIFYING EXEMPTION FROM LIMITING CHARGE AND FROM REQUIREMENT FOR SUBMISSION OF CLAIMS.—Section 1848(g) of the Social Security Act (42 U.S.C. 1395w-4(g)) is amended—

(1) in paragraph (1)(A), by striking “In” and inserting “Subject to paragraph (8), in”;

(2) in paragraph (3)(A), by striking “Payment” and inserting “Subject to paragraph (8), payment”;

(3) in paragraph (4)(A), by striking “For” and inserting “Subject to paragraph (8), for”;

(4) by adding at the end the following new paragraph:

“(8) EXEMPTION FROM REQUIREMENTS FOR SERVICES FURNISHED UNDER PRIVATE CONTRACTS.—

“(A) IN GENERAL.—Pursuant to section 1802(b)(1), paragraphs (1), (3), and (4) do not

apply with respect to physicians’ services (and services described in section 1861(s)(2)(A)) furnished to an individual by (or under the supervision of) a physician if the conditions described in section 1802(b)(1) are met with respect to the services.

“(B) NO RESTRICTIONS FOR ENROLLEES IN MSA PLANS.—Such paragraphs do not apply with respect to services furnished to individuals enrolled with MSA plans under part C, without regard to whether the conditions described in subparagraphs (A) through (C) of section 1802(b)(1) are met.

“(C) APPLICATION TO ENROLLEES IN OTHER PLANS.—Subject to subparagraph (B) and section 1852(k)(2), the provisions of subparagraph (A) shall apply in the case of an individual enrolled under a contract under section 1876 or under an MA plan (other than an MSA plan) under part C, in the same manner as they apply to individuals not enrolled under such a contract or plan.”

(c) CONFORMING AMENDMENTS.—(1) Section 1842(b)(18) of the Social Security Act (42 U.S.C. 1395u(b)(18)) is amended by adding at the end the following:

“(E) The provisions of section 1848(g)(8) shall apply with respect to exemption from limitations on charges and from billing requirements for services of health care practitioners described in this paragraph in the same manner as such provisions apply to exemption from the requirements referred to in section 1848(g)(8)(A) for physicians’ services.”

(2) Section 1866(a)(1)(O) of such Act (42 U.S.C. 1395cc(a)(1)(O)) is amended by striking “enrolled with a Medicare Advantage organization under part C” and inserting “enrolled with an MA organization under part C (other than under an MSA plan)”.

(d) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date that is 6 months after the date of the enactment of this Act and apply to contracts entered into on or after that date.

**SA 2985.** Mr. BARRASSO submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place in title I, insert the following:

**SEC. \_\_\_\_ CONTINUED ABILITY TO PAY FOR HEALTH CARE.**

Nothing in this title (or an amendment made by this title) shall be construed to prohibit an individual from purchasing or otherwise paying for health care items or services on an out-of-pocket basis.

**SA 2986.** Mr. BARRASSO submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 201, between lines 6 and 7, insert the following:

**SEC. 1325. PROVIDER CHOICE.**

Notwithstanding any other provision of this title, a Consumer Operated and Oriented Plan under section 1322 and a community health insurance option under section 1323 shall not require the participation of health care providers. The participation of such providers shall be on a voluntary basis.

**SA 2987.** Mr. BARRASSO submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place in title I, insert the following:

**SEC. \_\_\_\_ PROTECTING THE TAXPAYERS.**

The provisions of this title (and the amendments made by this title) shall not apply with respect to a fiscal year if the Director of the Office of Management and Budget fails to certify to Congress that the application of such provisions (and amendments) in such fiscal year will not increase the Federal budget deficit.

**SA 2988.** Mr. BARRASSO submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 320, beginning with line 19, strike all through page 340, line 21.

**SA 2989.** Mr. MENENDEZ (for himself, Mr. SCHUMER, Mr. DODD, Mrs. GILLIBRAND, Mr. KERRY, and Mr. BINGAMAN) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 128, line 6, insert “, and includes, as elected under and subject to section 10001, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands”.

Strike section 2005.

On page 2074, after line 25, add the following:

**TITLE X—PROVISIONS RELATING TO THE TERRITORIES**

**SEC. 10001. SPECIAL RULES FOR APPLICATION OF TITLE I TO TERRITORIES.**

(a) ONE-TIME ELECTION FOR TREATMENT AND APPLICATION OF FUNDING.—

(1) IN GENERAL.—A territory may elect, in a form and manner specified by the Secretary of Health and Human Services jointly with the Secretary of the Treasury, and not later than October 1, 2013, either—

(A) to be treated as a State for purposes of applying title I (including establishing an Exchange for such territory); or

(B) not to be so treated but instead, to have the dollar limitation otherwise applicable to the territory under subsections (f) and (g) of section 1108 of the Social Security Act (42 U.S.C. 1308) for a fiscal year increased by a dollar amount equivalent to the cap amount determined under subsection (c)(2) for the territory as applied by the Secretary for the fiscal year involved.

(2) CONDITIONS FOR ACCEPTANCE.—The Secretary of Health and Human Services has the nonreviewable authority to accept or reject an election described in paragraph (1)(A). Any such acceptance is—

(A) contingent upon entering into an agreement described in subsection (b) between the Secretary of Health and Human Services and the territory and subsection (c); and

(B) subject to the approval of the Secretary of Health and Human Services and the Secretary of the Treasury and subject to such other terms and conditions as the Secretaries may specify.

(3) DEFAULT RULE.—A territory failing to make such an election (or having an election under paragraph (1)(A) not accepted under paragraph (2)) shall be treated as having made the election described in paragraph (1)(B).

(b) AGREEMENT FOR SUBSTITUTION OF PERCENTAGES FOR REDUCTION IN COST-SHARING.—

(1) NEGOTIATION.—In the case of a territory making an election under subsection (a)(1)(A) (in this section referred to as an “electing territory”), the Secretaries of Health and Human Services and the Treasury shall enter into negotiations with the government of such territory so that, prior to January 1, 2014, there is an agreement reached between the parties on the percentages that shall be applied under paragraph (2) for that territory. The Secretary of Health and Human Services shall not enter into such an agreement unless—

(A) payments made under title I (and the amendments made by such title) with respect to residents of the territory are consistent with the cap established under subsection (c) for such territory and with subsection (d); and

(B) the requirements of paragraphs (3) and (4) are met.

(2) APPLICATION OF SUBSTITUTE PERCENTAGES AND DOLLAR AMOUNTS.—In the case of an electing territory, there shall be substituted in section 1402(b)(2) and section 36B of the Internal Revenue Code of 1986 for 400 percent, 133 percent, and other percentages and dollar amounts specified in such sections, such respective percentages and dollar amounts as are established under the agreement under paragraph (1) consistent with the following:

(A) NO INCOME GAP BETWEEN MEDICAID AND REDUCTION IN COST-SHARING.—The substituted percentages shall be specified in a manner so as to prevent any gap in coverage for individuals between the income level at which medical assistance is available through Medicaid and the income level at which reduced cost-sharing is available under section 1402.

(B) ADJUSTMENT FOR OUT-OF-POCKET RESPONSIBILITY FOR PREMIUMS AND COST-SHARING IN RELATION TO INCOME.—The substituted percentages of the Federal poverty line for

income tiers under such sections shall be specified in a manner so that—

(i) individuals eligible for reduced cost-sharing under section 1402 residing in the territory bear the same out-of-pocket responsibility for premiums and cost-sharing in relation to average income for residents in that territory, as

(ii) the out-of-pocket responsibility for premiums and cost-sharing for individuals eligible for reduced cost-sharing under section 1402 residing in the 50 States or the District of Columbia in relation to average income for such residents.

In the case of a territory with a mirror code tax system, the Internal Revenue Code of 1986 shall be applied as if the substitutions permitted under this paragraph were included in such Code.

(3) SPECIAL RULES WITH RESPECT TO APPLICATION OF TAX AND PENALTY PROVISIONS.—The electing territory shall enact one or more laws under which provisions similar to the following provisions apply with respect to such territory:

(A) Section 5000A of the Internal Revenue Code of 1986, except that any resident of the territory who is not eligible for reduced cost-sharing under section 1402 but who would be so eligible if such resident were a resident of one of the 50 States (and any qualifying child residing with such individual) may be treated as covered by minimum essential coverage.

(B) Section 502(c)(11) of the Employee Retirement Income Security Act of 1974.

(C) Section 3121(c) of the Internal Revenue Code of 1986.

(4) IMPLEMENTATION OF INSURANCE REFORM AND CONSUMER PROTECTION REQUIREMENTS.—The electing territory shall enact and implement such laws and regulations as may be required to apply the requirements of subtitles A and C of title I (and the amendments made by such subtitles) with respect to health insurance coverage offered in the territory.

(c) CAP ON ADDITIONAL EXPENDITURES.—

(1) IN GENERAL.—In entering into an agreement with an electing territory under subsection (b), the Commissioner shall ensure that the aggregate expenditures under this section with respect to residents of such territory during the period beginning on January 1, 2014 and ending with 2019 will not exceed the cap amount specified in paragraph (2) for such territory. The Commissioner shall adjust from time to time the percentages applicable under such agreement as needed in order to carry out the previous sentence.

(2) CAP AMOUNT.—

(A) IN GENERAL.—The cap amount specified in this paragraph—

(i) for Puerto Rico is \$3,700,000,000 increased by the amount (if any) elected under subparagraph (C); or

(ii) for another territory is the portion of \$300,000,000 negotiated for such territory under subparagraph (B).

(B) NEGOTIATION FOR CERTAIN TERRITORIES.—The Secretary of Health and Human Services shall negotiate with the governments of the territories (other than Puerto Rico) to allocate the amount specified in subparagraph (A)(ii) among such territories.

(C) OPTIONAL SUPPLEMENTATION FOR PUERTO RICO.—

(i) IN GENERAL.—Puerto Rico may elect, in a form and manner specified by the Secretary of Health and Human Services to increase the dollar amount specified in subparagraph (A)(i) by up to \$1,000,000,000.

(ii) OFFSET IN MEDICAID CAP.—If Puerto Rico makes the election described in clause (i), the Secretary shall decrease the dollar limitation otherwise applicable to Puerto Rico under subsections (f) and (g) of section 1108 of the Social Security Act (42 U.S.C. 1308) for a fiscal year by the additional aggregate payments the Secretary estimates will be payable under this section for the fiscal year because of such election.

(d) LIMITATION ON FUNDING.—In no case shall this section (including the agreement under subsection (b)) permit—

(1) the obligation of funds for expenditures under this section for periods beginning on or after January 1, 2020; or

(2) any increase in the dollar limitation described in subsection (a)(1)(B) for any portion of any fiscal year occurring on or after such date.

#### SEC. 10002. MEDICAID PAYMENTS TO TERRITORIES.

(a) INCREASE IN CAP.—Section 1108 of the Social Security Act (42 U.S.C. 1308) is amended—

(1) in subsection (f), by striking “subsection (g)” and inserting “subsections (g) and (h)”;

(2) in subsection (g)(1), by striking “With respect to” and inserting “Subject to subsection (h), with respect to”; and

(3) by adding at the end the following new subsection:

“(h) ADDITIONAL INCREASE FOR FISCAL YEARS 2011 THROUGH 2019.—Subject to section 10002(b)(1) of the Patient Protection and Affordable Care Act, with respect to fiscal years 2011 through 2019, the amounts otherwise determined under subsections (f) and (g) for Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands and American Samoa shall be increased by the following amounts:

“(1) For Puerto Rico, for fiscal year 2011, \$727,600,000; for fiscal year 2012, \$775,000,000; for fiscal year 2013, \$850,000,000; for fiscal year 2014, \$925,000,000; for fiscal year 2015, \$1,000,000,000; for fiscal year 2016, \$1,075,000,000; for fiscal year 2017, \$1,150,000,000; for fiscal year 2018, \$1,225,000,000; and for fiscal year 2019, \$1,396,400,000.

“(2) For the Virgin Islands, for fiscal year 2011, \$34,000,000; for fiscal year 2012, \$37,000,000; for fiscal year 2013, \$40,000,000; for fiscal year 2014, \$43,000,000; for fiscal year 2015, \$46,000,000; for fiscal year 2016, \$49,000,000; for fiscal year 2017, \$52,000,000; for fiscal year 2018, \$55,000,000; and for fiscal year 2019, \$58,000,000.

“(3) For Guam, for fiscal year 2011, \$34,000,000; for fiscal year 2012, \$37,000,000; for fiscal year 2013, \$40,000,000; for fiscal year 2014, \$43,000,000; for fiscal year 2015, \$46,000,000; for fiscal year 2016, \$49,000,000; for fiscal year 2017, \$52,000,000; for fiscal year 2018, \$55,000,000; and for fiscal year 2019, \$58,000,000.

“(4) For the Northern Mariana Islands, for fiscal year 2011, \$13,500,000; fiscal year 2012, \$14,500,000; for fiscal year 2013, \$15,500,000; for fiscal year 2014, \$16,500,000; for fiscal year 2015, \$17,500,000; for fiscal year 2016, \$18,500,000; for fiscal year 2017, \$19,500,000; for fiscal year 2018, \$21,000,000; and for fiscal year 2019, \$22,000,000.

“(5) For American Samoa, fiscal year 2011, \$22,000,000; fiscal year 2012, \$23,687,500; for fiscal year 2013, \$24,687,500; for fiscal year 2014, \$25,687,500; for fiscal year 2015, \$26,687,500; for fiscal year 2016, \$27,687,500; for fiscal year 2017, \$28,687,500; for fiscal year 2018, \$29,687,500; and for fiscal year 2019, \$30,687,500.”

(b) REPORT ON ACHIEVING MEDICAID PARITY PAYMENTS BEGINNING WITH FISCAL YEAR 2020.—

(1) IN GENERAL.—Not later than October 1, 2013, the Secretary of Health and Human Services shall submit to Congress a report that details a plan for the transition of each territory to full parity in Medicaid with the 50 States and the District of Columbia in fiscal year 2020 by modifying their existing Medicaid programs and outlining actions the Secretary and the governments of each territory must take by fiscal year 2020 to ensure parity in financing. Such report shall include what the Federal medical assistance percentages would be for each territory if the formula applicable to the 50 States were applied. Such report shall also include any recommendations that the Secretary may have as to whether the mandatory ceiling amounts for each territory provided for in section 1108 of the Social Security Act (42 U.S.C. 1398) should be increased any time before fiscal year 2020 due to any factors that the Secretary deems relevant.

(2) PER CAPITA DATA.—As part of such report the Secretary shall include information about per capita income data that could be used to calculate Federal medical assistance percentages under section 1905(b) of the Social Security Act, under section 1108(a)(8)(B) of such Act, for each territory on how such data differ from the per capita income data used to promulgate Federal medical assistance percentages for the 50 States. The report under this subsection shall include recommendations on how the Federal medical assistance percentages can be calculated for the territories beginning in fiscal year 2020 to ensure parity with the 50 States.

(3) SUBSEQUENT REPORTS.—The Secretary shall submit subsequent reports to Congress in 2015, 2017, and 2019 detailing the progress that the Secretary and the governments of each territory have made in fulfilling the actions outlined in the plan submitted under paragraph (1).

(c) APPLICATION OF FMAP FOR ADDITIONAL FUNDS.—Section 1905(b) of such Act (42 U.S.C. 1396d(b)) is amended by adding at the end the following sentence: “Notwithstanding the first sentence of this subsection and any other provision of law, for fiscal years 2011 through 2019, the Federal medical assistance percentage for Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, and American Samoa shall be the highest Federal medical assistance percentage applicable to any of the 50 States or the District of Columbia for the fiscal year involved, taking into account the application of subsections (a) and (b)(1) of section 5001 of division B of the American Recovery and Reinvestment Act of 2009 (Public Law 111-5) to such States and the District for calendar quarters during such fiscal years for which such subsections apply.”.

(d) WAIVERS.—

(1) IN GENERAL.—Section 1902(j) of the Social Security Act (42 U.S.C. 1396a(j)) is amended—

(A) by striking “American Samoa and the Northern Mariana Islands” and inserting “Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, and American Samoa”; and

(B) by striking “American Samoa or the Northern Mariana Islands” and inserting “Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, or American Samoa”.

(2) EFFECTIVE DATE.—The amendments made by paragraph (1) shall apply beginning with fiscal year 2011.

(e) TECHNICAL ASSISTANCE.—The Secretary shall provide nonmonetary technical assistance to the governments of Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, and American Samoa in upgrading their existing computer systems in order to anticipate meeting reporting requirements necessary to implement the plan contained in the report under subsection (b)(1).

#### SEC. 10003. MEDICARE PROVISIONS RELATING TO PUERTO RICO.

(a) MODIFICATION OF MEDICARE INPATIENT HOSPITAL PAYMENT RATE FOR PUERTO RICO HOSPITALS.—Section 1886(d)(9)(E) of the Social Security Act (42 U.S.C. 1395ww(d)(9)(E)) is amended—

(1) by striking “and” at the end of clause (iii);

(2) in clause (iv), by inserting “and before April 1, 2010,” after “2004,” and by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following new clause:

“(v) on or after April 1, 2010, the applicable Puerto Rico percentage is 0 percent and the applicable Federal percentage is 100 percent.”.

(b) APPLICATION OF DEEMED PART B MEDICARE ENROLLMENT RULES TO RESIDENTS OF PUERTO RICO.—

(1) IN GENERAL.—Section 1837(f)(3) of the Social Security Act (42 U.S.C. 1395p(f)(3)) is amended by striking “, exclusive of Puerto Rico”.

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to individuals whose initial enrollment period under section 1837(d) of the Social Security Act (42 U.S.C. 1395p(d)) begins on or after the first day of the first month that begins more than 60 days after the date of the enactment of this Act.

**SA 2990.** Mr. MENENDEZ submitted an amendment intended to be proposed by him to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

#### SEC. \_\_\_\_ . EXPANDING ACCESS TO VACCINES.

(a) IN GENERAL.—Paragraph (10) of section 1861(s) of the Social Security Act (42 U.S.C. 1395w(s)) is amended to read as follows:

“(10) federally approved and recommended vaccines (as defined in subsection (hhh) and their respective administration);”.

(b) FEDERALLY APPROVED AND RECOMMENDED VACCINES DEFINED.—Section 1861 of such Act is amended by adding at the end the following new subsection:

“Federally Approved and Recommended Vaccines

“(hhh) The term ‘federally approved and recommended vaccine’ means a vaccine that—

“(1) is licensed under section 351 of the Public Health Service Act, approved under the Federal Food, Drug, and Cosmetic Act, or authorized for emergency use under section 564 of the Federal Food, Drug, and Cosmetic Act; and

“(2) is recommended by the Director of the Centers for Disease Control and Prevention.”.

(c) CONFORMING AMENDMENTS.—

(1) Section 1833 of such Act (42 U.S.C. 1395l) is amended, in each of subsections (a)(1)(B), (a)(2)(G), and (a)(3)(A), by striking “1861(s)(10)(A)” and inserting “1861(s)(10)” each place it appears.

(2) Section 1842(o)(1)(A)(iv) of such Act (42 U.S.C. 1395u(o)(1)(A)(iv)) is amended—

(A) by striking “subparagraph (A) or (B) of”; and

(B) by inserting before the period the following: “and before January 1, 2011, and influenza vaccines furnished on or after January 1, 2011”.

(3) Section 1847A(c)(6) of such Act (42 U.S.C. 1395w-3a(c)(6)) is amended—

(A) in subparagraph (D)(i), by inserting “, including a vaccine furnished on or after January 1, 2010”; and

(B) by the following new paragraph:

“(H) IMPLEMENTATION.—Chapter 35 of title 44, United States Code shall not apply to manufacturer provision of information pursuant to section 1927(b)(3)(A)(iii) or subsection (f)(2) for purposes of implementation of this section.”.

(4) Section 1860D-2(e)(1) of such Act (42 U.S.C. 1395w-102(e)(1)) is amended by striking “such term includes a vaccine” and all that follows through “its administration” and

(5) Section 1861(ww)(2)(A) of such Act (42 U.S.C. 1395x(ww)(2)(A)) is amended by striking “Pneumococcal, influenza, and hepatitis B vaccine and administration” and inserting “federally approved or authorized vaccines (as defined in subsection (hhh) and their respective administration”.

(6) Section 1927(b)(3)(A)(iii) of such Act (42 U.S.C. 1396r-8(b)(3)(A)(iii)) is amended, in the matter following subclause (III), by inserting “(A)(iv) (including influenza vaccines furnished on or after January 1, 2011),” after “described in subparagraph”.

(7) Section 1847A(f) of such Act (42 U.S.C. 1395w-3a(f)) is amended—

(A) by striking “For” and inserting “(1) IN GENERAL.—For”; and

(B) by indenting paragraph (1), as redesignated in subparagraph (A), 2 ems to the left; and

(C) by adding at the end the following new paragraph:

“(2) TREATMENT OF CERTAIN MANUFACTURERS.—In the case of a manufacturer of a drug or biological described in subparagraphs (A)(iv), (C), (D), (E), or (G) of section 1842(o)(1) that does not have a rebate agreement under section 1927(a), no payment may be made under this part for such drug or biological if such manufacturer does not submit the information described in section 1927(b)(3)(A)(iii) in the same manner as if the manufacturer had such a rebate agreement in effect. Subparagraphs (C) and (D) of section 1927(b)(3) shall apply to information reported pursuant to the previous sentence in the same manner as such subparagraphs apply with respect to information reported pursuant to such section.”.

(d) EFFECTIVE DATES.—The amendments made—

(1) by this section (other than by subsection (c)(6)) shall apply to vaccines administered on or after January 1, 2011; and

(2) by subsection (c)(6) shall apply to calendar quarters beginning on or after January 1, 2010.

**SA 2991.** Mr. MENENDEZ (for himself, Mr. ROCKEFELLER, Mr. BINGAMAN, and Mr. DURBIN) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R.

3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 436, between lines 14 and 15, insert the following:

**SEC. 2008. PERMITTING STATES TO ENSURE COVERAGE WITHOUT A 5-YEAR DELAY OF LAWFULLY RESIDING NONCITIZEN NONPREGNANT ADULTS UNDER MEDICAID.**

(a) STATE OPTION.—

(1) IN GENERAL.—Section 1903(v)(4)(A) of the Social Security Act (42 U.S.C. 1396b(v)(4)(A)) is amended—

(A) in the matter preceding clause (i)—

(i) by striking “children and pregnant women” and inserting “individuals”; and

(ii) by striking “either or both” and inserting “any or all”; and

(B) by adding at the end the following:

“(iii) OTHER LAWFULLY RESIDING INDIVIDUALS.—Individuals who are not described in clause (i) or (ii).”

(2) EFFECTIVE DATE.—The amendments made by paragraph (1) take effect on January 1, 2014.

(b) CONFORMING AMENDMENT.—Effective as if enacted on October 1, 2009, subparagraph (H) of section 2107(e)(1) of the Social Security Act (42 U.S.C. 1397gg(e)(1)) is amended by striking “Paragraph (4) of section 1903(v)” and inserting “Clauses (i) and (ii) of section 1903(v)(4)”.

**SA 2992.** Mr. MENENDEZ submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 867, strike line 15 and all that follows through page 869, line 14, and insert the following:

**SEC. 3142. TREATMENT OF URBAN MEDICARE-DEPENDENT HOSPITALS.**

Section 1886(d)(5) of the Social Security Act (42 U.S.C. 1395ww(d)(5)) is amended by adding at the end the following new subparagraph:

“(M) AUTHORIZATION OF ADJUSTMENT IN AMOUNT OF PAYMENT FOR URBAN MEDICARE-DEPENDENT HOSPITALS.—

“(i) STUDY.—The Secretary shall conduct a study on the need for a payment adjustment under the prospective payment system under this section for urban Medicare-dependent hospitals similar to the adjustment available (as of the date of enactment of this subparagraph) to medicare-dependent, small rural hospitals under subparagraph (G). Such study shall compare the Medicare inpatient operating margins of urban Medicare-dependent hospitals to the Medicare inpatient operating margins of subsection (d) hospitals that receive one or more additional payments or adjustments (as defined in clause (iv)). The Secretary shall finish conducting such study by not later than June 1, 2010.

“(ii) AUTHORIZATION OF ADJUSTMENT.—If the Secretary determines under clause (i) that the average Medicare inpatient operating margin of urban Medicare-dependent

hospitals is materially lower than the average Medicare inpatient operating margin of subsection (d) hospitals that receive one or more additional payments or adjustments (as so defined), the Secretary shall provide for an adjustment to the payment amounts to urban Medicare-dependent hospitals under this section similar to the adjustment available to medicare-dependent, small rural hospitals under subparagraph (G). Any such adjustment shall be effective for discharges occurring on or after October 1, 2010.

“(iii) DEFINITION OF URBAN MEDICARE-DEPENDENT HOSPITAL.—In this subparagraph, the term ‘urban Medicare-dependent hospital’ means a subsection (d) hospital—

“(I) located in an urban area;

“(II) that does not receive any additional payments or adjustments (as so defined);

“(III) that is not a physician-owned hospital, as defined in section 489.3 of title 42, Code of Federal Regulations (as in effect as of the date of the enactment of this subparagraph); and

“(IV) for which not less than 60 percent of its inpatient days or discharges during the cost reporting period beginning in fiscal year 2006, or 2 of the 3 most recently audited cost reporting periods for which the Secretary has a settled cost report, were attributable to inpatients entitled to benefits under part A.

“(iv) ADDITIONAL PAYMENTS OR ADJUSTMENTS DEFINED.—The term ‘additional payments or adjustments’ means payments or adjustments—

“(I) under subparagraph (C) as a rural referral center;

“(II) under subparagraph (D) as a sole community hospital;

“(III) under subparagraph (B) for indirect medical education costs;

“(IV) under subsection (h) for direct graduate medical education costs;

“(V) under subparagraph (F) for disproportionate share hospital payments; or

“(VI) under subparagraph (G) as a medicare-dependent, small rural hospital.”

**SA 2993.** Mr. SCHUMER (for himself and Mrs. LINCOLN) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1999, strike lines 9 through 17 and insert the following:

“(i) LIMITATION ON HEALTH FLEXIBLE SPENDING ARRANGEMENTS.—

“(1) IN GENERAL.—For purposes of this section, if a benefit is provided under a cafeteria plan through employer contributions to a health flexible spending arrangement, such benefit shall not be treated as a qualified benefit unless the cafeteria plan provides that an employee may not elect for any taxable year to have salary reduction contributions in excess of \$2,500 made to such arrangement.

“(2) ADJUSTMENT FOR INFLATION.—In the case of a taxable year beginning in any calendar year after 2011, the dollar amount in paragraph (1) shall be increased to the amount equal to such amount as in effect for taxable years beginning in the calendar year

preceding such calendar year, increased by an amount equal to the product of—

“(A) such amount as so in effect, multiplied by

“(B) the cost-of-living adjustment determined under section 1(f)(3) for such calendar year by substituting the calendar year that is 2 years before such calendar year for ‘calendar year 1992’ in subparagraph (B) thereof, increased by 1 percentage point.

If any increase determined under this paragraph is not a multiple of \$50, such increase shall be rounded to the nearest multiple of \$50.”

**SA 2994.** Mr. SCHUMER (for himself, Mr. AKAKA, Mr. BROWN, Mr. LAUTENBERG, Mr. MERKLEY, Ms. CANTWELL, Mr. KERRY, Mr. LEAHY, Mr. MENENDEZ, and Mr. WHITEHOUSE) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 2074, after line 25, insert the following:

**Subtitle C—Tax Equity for Health Plan Beneficiaries**

**SEC. 9031. APPLICATION OF ACCIDENT AND HEALTH PLANS TO ELIGIBLE BENEFICIARIES.**

(a) EXCLUSION OF CONTRIBUTIONS.—Section 106 of the Internal Revenue Code of 1986, as amended by section 9003, is amended by adding at the end the following new subsection:

“(g) COVERAGE PROVIDED FOR ELIGIBLE BENEFICIARIES OF EMPLOYEES.—

“(1) IN GENERAL.—Subsection (a) shall apply with respect to any eligible beneficiary of the employee.

“(2) ELIGIBLE BENEFICIARY.—For purposes of this subsection, the term ‘eligible beneficiary’ means any individual who is eligible to receive benefits or coverage under an accident or health plan.”

(b) EXCLUSION OF AMOUNTS EXPENDED FOR MEDICAL CARE.—The first sentence of section 105(b) of the Internal Revenue Code of 1986 is amended—

(1) by striking “and his dependents” and inserting “his dependents”, and

(2) by inserting before the period the following: “and any eligible beneficiary (within the meaning of section 106(g)) with respect to the taxpayer”.

(c) PAYROLL TAXES.—

(1) Section 3121(a)(2) of the Internal Revenue Code of 1986 is amended—

(A) by striking “or any of his dependents” in the matter preceding subparagraph (A) and inserting “, any of his dependents, or any eligible beneficiary (within the meaning of section 106(g)) with respect to the employee”;

(B) by striking “or any of his dependents,” in subparagraph (A) and inserting “, any of his dependents, or any eligible beneficiary (within the meaning of section 106(g)) with respect to the employee,”; and

(C) by striking “and their dependents” both places it appears and inserting “and such employees’ dependents and eligible beneficiaries (within the meaning of section 106(g))”.

(2) Section 3231(e)(1) of such Code is amended—

(A) by striking “or any of his dependents” and inserting “, any of his dependents, or any eligible beneficiary (within the meaning of section 106(g)) with respect to the employee,”, and

(B) by striking “and their dependents” both places it appears and inserting “and such employees’ dependents and eligible beneficiaries (within the meaning of section 106(g))”.

(3) Section 3306(b)(2) of such Code is amended—

(A) by striking “or any of his dependents” in the matter preceding subparagraph (A) and inserting “, any of his dependents, or any eligible beneficiary (within the meaning of section 106(g)) with respect to the employee,”, and

(B) by striking “or any of his dependents” in subparagraph (A) and inserting “, any of his dependents, or any eligible beneficiary (within the meaning of section 106(g)) with respect to the employee,”, and

(C) by striking “and their dependents” both places it appears and inserting “and such employees’ dependents and eligible beneficiaries (within the meaning of section 106(g))”.

(4) Section 3401(a) of such Code is amended by striking “or” at the end of paragraph (22), by striking the period at the end of paragraph (23) and inserting “; or”, and by inserting after paragraph (23) the following new paragraph:

“(24) for any payment made to or for the benefit of an employee or any eligible beneficiary (within the meaning of section 106(g)) if at the time of such payment it is reasonable to believe that the employee will be able to exclude such payment from income under section 106 or under section 105 by reference in section 105(b) to section 106(g).”.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2009.

**SEC. 9032. EXPANSION OF DEPENDENCY FOR PURPOSES OF DEDUCTION FOR HEALTH INSURANCE COSTS OF SELF-EMPLOYED INDIVIDUALS.**

(a) IN GENERAL.—Paragraph (1) of section 162(l) of the Internal Revenue Code of 1986 is amended to read as follows:

“(1) ALLOWANCE OF DEDUCTION.—In the case of a taxpayer who is an employee within the meaning of section 401(c)(1), there shall be allowed as a deduction under this section an amount equal to the amount paid during the taxable year for insurance which constitutes medical care for—

“(A) the taxpayer,  
“(B) the taxpayer’s spouse,  
“(C) the taxpayer’s dependents, and  
“(D) any individual who—

“(i) satisfies the age requirements of section 152(c)(3)(A),

“(ii) bears a relationship to the taxpayer described in section 152(d)(2)(H), and

“(iii) meets the requirements of section 152(d)(1)(C), and

“(E) not more than one individual who—

“(i) does not satisfy the age requirements of section 152(c)(3)(A),

“(ii) bears a relationship to the taxpayer described in section 152(d)(2)(H),

“(iii) meets the requirements of section 152(d)(1)(D), and

“(iv) is not the spouse of the taxpayer and does not bear any relationship to the taxpayer described in subparagraphs (A) through (G) of section 152(d)(2).”.

(b) CONFORMING AMENDMENT.—Subparagraph (B) of section 162(l)(2) of the Internal Revenue Code of 1986 is amended by inserting “, any dependent, or individual described in

subparagraph (D) or (E) of paragraph (1) with respect to” after “spouse”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2009.

**SEC. 9033. EXTENSION TO ELIGIBLE BENEFICIARIES OF SICK AND ACCIDENT BENEFITS PROVIDED TO MEMBERS OF A VOLUNTARY EMPLOYEES’ BENEFICIARY ASSOCIATION AND THEIR DEPENDENTS.**

(a) IN GENERAL.—Section 501(c)(9) of the Internal Revenue Code of 1986 is amended by adding at the end the following new sentence: “For purposes of providing for the payment of sick and accident benefits to members of such an association and their dependents, the term ‘dependents’ shall include any individual who is an eligible beneficiary (within the meaning of section 106(g)), as determined under the terms of a medical benefit, health insurance, or other program under which members and their dependents are entitled to sick and accident benefits.”.

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2009.

**SEC. 9034. FLEXIBLE SPENDING ARRANGEMENTS AND HEALTH REIMBURSEMENT ARRANGEMENTS.**

The Secretary of Treasury shall issue guidance of general applicability providing that medical expenses that otherwise qualify—

(1) for reimbursement from a flexible spending arrangement under regulations in effect on the date of the enactment of this Act may be reimbursed from an employee’s flexible spending arrangement, notwithstanding the fact that such expenses are attributable to any individual who is not the employee’s spouse or dependent (within the meaning of section 105(b) of the Internal Revenue Code of 1986) but is an eligible beneficiary (within the meaning of section 106(g) of such Code) under the flexible spending arrangement with respect to the employee, and

(2) for reimbursement from a health reimbursement arrangement under regulations in effect on the date of the enactment of this Act may be reimbursed from an employee’s health reimbursement arrangement, notwithstanding the fact that such expenses are attributable to an individual who is not a spouse or dependent (within the meaning of section 105(b) of such Code) but is an eligible beneficiary (within the meaning of section 106(g) of such Code) under the health reimbursement arrangement with respect to the employee.

**SA 2995.** Mr. SCHUMER (for himself and Ms. MIKULSKI) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 466, between lines 5 and 6, insert the following:

**SEC. 2305. REQUIRING COVERAGE OF SERVICES OF PODIATRISTS.**

(a) IN GENERAL.—Section 1905(a)(5)(A) of the Social Security Act (42 U.S.C. 1396d(a)(5)(A)) is amended by striking “section 1861(r)(1)” and inserting “paragraphs (1) and (3) of section 1861(r)”.

(b) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendment made by subsection (a) shall apply to services furnished on or after January 1, 2010.

(2) DELAY IF NEEDED FOR STATE LEGISLATION.—In the case of a State plan for medical assistance under title XIX of the Social Security Act which the Secretary of Health and Human Services determines requires State legislation (other than legislation appropriating funds) in order for the plan to meet the additional requirement imposed by the amendment made by subsection (a), the State plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet this additional requirement before the first day of the first calendar quarter beginning after the close of the first regular session of the State legislature that begins after the date of the enactment of this Act. For purposes of the previous sentence, in the case of a State that has a 2-year legislative session, each year of such session shall be deemed to be a separate regular session of the State legislature.

**SA 2996.** Mr. KOHL (for himself, Mr. WYDEN, and Ms. KLOBUCHAR) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1979, between lines 15 and 16, insert the following:

**Subtitle B—Long-Term Care Insurance**

**PART I—NATIONAL MARKET SURVEY; MODEL DISCLOSURES AND DEFINITIONS; LTC INSURANCE COMPARE**

**SEC. 8101. NAIC NATIONAL MARKET SURVEY.**

(a) IN GENERAL.—The Secretary shall request the NAIC to conduct reviews of the national and State-specific markets for long-term care insurance policies and to submit reports to the Secretary on the results of such reviews every 5 years.

(b) CONTENT.—The Secretary shall request that the reviews include, with respect to the period occurring since any prior review, analysis of the following:

(1) Information on key market parameters, including the number of carriers offering long-term care insurance, and the scope of coverage offered under those policies (such as policies offering nursing-home only benefits, policies offering comprehensive coverage, cash plans, and reimbursement plans, and hybrid products in which long-term care benefits are present).

(2) The number of complaints received and resolved, including benefit denials.

(3) The number of policies that have lapsed.

(4) The number of agents trained and whether the training included competency tests.

(5) The number of policyholders exhausting benefits.

(6) The number of premium rate increases filed by carriers on a policy basis with the States, including the ranges of the increases approved for or finally used.

(7) The number of policyholders affected by any premium rate increases.

(8) Requests for exceptions to State permitted accounting practices, as defined by the NAIC.

(c) **TIMING FOR REVIEWS AND REPORTS.**—The Secretary shall request the NAIC to—

(1) complete the initial market review under this section not later than 2 years after the date of enactment of this Act;

(2) submit a report to the Secretary on the results of the initial review not later than December 31, 2011; and

(3) complete each subsequent review and submit each subsequent report not later than December 31 of the fifth succeeding year.

(d) **CONSULTATION REQUIRED.**—The Secretary shall request the NAIC to consult with State insurance commissioners, appropriate Federal agencies, issuers of long-term care insurance, States with experience in long-term care insurance partnership plans, other States, representatives of consumer groups, consumers of long-term care insurance policies, and such other stakeholders as the Secretary or the NAIC determine appropriate, to conduct the market reviews requested under this section.

(e) **DEFINITIONS.**—In this section and section 8102:

(1) **LONG-TERM CARE INSURANCE POLICY.**—The term “long-term care insurance policy”—

(A) means—

(i) a qualified long-term care insurance contract (as defined in section 7702B(b) of the Internal Revenue Code of 1986); and

(ii) a qualified long-term care insurance contract that covers an insured who is a resident of a State with a qualified State long-term care insurance partnership under clause (iii) of section 1917(b)(1)(C) of the Social Security Act (42 U.S.C. 1396p(b)(1)(C)) or a long-term care insurance policy offered in connection with a State plan amendment described in clause (iv) of such section; and

(B) includes any other insurance policy or rider described in the definition of “long-term care insurance” in section 4 of the model Act promulgated by the National Association of Insurance Commissioners (as adopted December 2006).

(2) **NAIC.**—The term “NAIC” means the National Association of Insurance Commissioners.

(3) **SECRETARY.**—The term “Secretary” means the Secretary of Health and Human Services.

#### **SEC. 8102. MODEL DISCLOSURE FORM.**

(a) **NAIC STUDY AND REPORT ON STATE DISCLOSURE REQUIREMENTS FOR LONG-TERM CARE INSURANCE.**—

(1) **IN GENERAL.**—The Secretary shall request the NAIC to carry out the activities described in paragraph (2) and issue the report described in paragraph (3).

(2) **REVIEW AND DEVELOPMENT OF PROPOSED MODEL DISCLOSURE REQUIREMENTS.**—The activities described in this paragraph are the following:

(A) **MODEL ACT AND REGULATION DISCLOSURE REQUIREMENTS.**—Review and describe disclosure requirements for long-term care insurance policies under the Model Act and regulation.

(B) **STATE LAW DISCLOSURE REQUIREMENTS.**—Review and describe disclosure requirements for long-term care insurance policies under State laws, including as part of such description an analysis of the effectiveness of the various existing disclosures.

(C) **LONG-TERM CARE SERVICES.**—Review and describe differences in long-term care services, including with respect to providers of such services and the settings in which such

services are provided among States and develop standardized definitions for long-term care services.

(D) **IDENTIFICATION OF KEY ISSUES FOR DEVELOPMENT OF MODEL DISCLOSURE MARKETING FORM.**—Identify and describe key issues to consider in the development of a proposed form for marketing long-term care insurance policies.

(3) **REPORT.**—The report described in this paragraph is an NAIC White Paper that is issued not later than 12 months after the date of enactment of this Act and contains the results of the reviews conducted under paragraph (2) and the descriptions required under that paragraph.

(b) **NAIC WORKING GROUP TO DEVELOP MODEL DISCLOSURE FORM FOR LONG-TERM CARE INSURANCE.**—

(1) **IN GENERAL.**—The Secretary shall request the NAIC to establish, not later than 60 days after the date on which the NAIC White Paper described in subsection (a)(3) is issued and in consultation with the Secretary and the Secretary of the Treasury, a Working Group to develop a model disclosure form for marketing long-term care insurance policies.

(2) **WORKING GROUP MEMBERS.**—The Working Group established under paragraph (1) shall be composed of the following:

(A) Representatives from State Departments of Health (or the most appropriate State agencies with responsibility for oversight of the provision of long-term care).

(B) Representatives of long-term care providers and facilities.

(C) Consumer advocates.

(D) Representatives of issuers of long-term care insurance policies.

(E) Representatives of the NAIC or State insurance commissioners.

(F) Other experts in long-term care and long-term care insurance policies selected by the Secretary and Secretary of the Treasury or the NAIC.

(3) **REQUIREMENTS FOR DEVELOPMENT OF FORM.**—

(A) **CONSIDERATIONS.**—In developing the model form, the Working Group shall consider the following:

(i) Variations among providers, services, and facilities in the long-term care and long-term care insurance markets.

(ii) The results of the reviews and the descriptions included in the NAIC White Paper issued under subsection (a)(3).

(iii) Such other information and factors as the Working Group determines appropriate.

(B) **MINIMUM STANDARDS.**—The Working Group shall ensure that the model has—

(i) minimum standard definitions for coverage of the various types of services and benefits provided under long-term care insurance policies;

(ii) minimum standard language for use by issuers of such policies, and for agents selling such policies, in explaining the services and benefits covered under the policies and restrictions on the services and benefits;

(iii) minimum standard format, color and type size for disclosure documents; and

(iv) such other minimum standards as the Working Group determines appropriate.

(4) **DEADLINE FOR DEVELOPMENT.**—The Working Group shall issue a proposed model disclosure form for marketing long-term care insurance policies not later than 1 year after the date on which the Working Group is established.

(5) **ADOPTION AND INCORPORATION INTO MODEL ACT AND REGULATION.**—The Secretary shall request the NAIC to amend the Model Act and regulation to incorporate the use of

the proposed model disclosure form issued by the Working Group, not later than 1 year after the date on which the Working Group issues the form.

(c) **REQUIRED USE OF MODEL DISCLOSURE FORM IN MARKETING LONG-TERM CARE INSURANCE POLICIES.**—

(1) **APPLICATION TO TAX-QUALIFIED AND MEDICAID PARTNERSHIP POLICIES.**—Not later than 1 year after the date on which the Working Group issues the proposed model disclosure form for marketing long-term care insurance policies under subsection (b):

(A) **TAX-QUALIFIED POLICIES.**—The Secretary of the Treasury shall promulgate a regulation requiring, not later than 1 year after the date on which the regulation is final, any issuer of a qualified long-term care insurance contract (as defined in section 7702B(b) of the Internal Revenue Code of 1986) to use the proposed model disclosure form for marketing such contracts, to the extent such disclosure is not inconsistent with State law.

(B) **MEDICAID PARTNERSHIP POLICIES.**—The Secretary shall promulgate a regulation requiring, not later than 1 year after the date on which the regulation is final, any issuer that markets a qualified long-term care insurance contract intended to cover an insured who is a resident of a State with a qualified State long-term care insurance partnership under clause (iii) of section 1917(b)(1)(C) of the Social Security Act (42 U.S.C. 1396p(b)(1)(C)) or a long-term care insurance policy offered in connection with a State plan amendment described in clause (iv) of such section to use the proposed model disclosure form for marketing such contracts.

(2) **APPLICATION TO ALL OTHER LONG-TERM CARE INSURANCE POLICIES.**—Not later than 18 months, or the earliest date on which an amendment could be enacted for those States with legislatures which meet only every other year, after the date on which the NAIC adopts an amended Model Act and regulation to require the use of the proposed model disclosure form issued by the Working Group under subsection (b), each State shall require by statute or regulation any issuer of a long-term care insurance policy to use the proposed model disclosure form when marketing such a policy in the State.

#### **SEC. 8103. LTC INSURANCE COMPARE.**

(a) **IN GENERAL.**—Section 6021(d) of the Deficit Reduction Act of 2005 (42 U.S.C. 1396p note) is amended—

(1) in paragraph (2)—

(A) in subparagraph (A)—

(i) in clause (ii), by striking “and” at the end;

(ii) in clause (iii), by striking the period at the end and inserting “; and”; and

(iii) by adding at the end the following:

“(iv) establish an Internet directory of information regarding long-term care insurance, to be known as ‘LTC Insurance Compare’, that shall include the following:

“(I) Comparison tools to assist consumers in evaluating long-term care insurance policies (as defined in subparagraph (D)) with different benefits and features and that allow consumers to compare the price, long-term premium stability, and carrier financial strength of such policies.

“(II) State-specific information about the long-term care insurance policies marketed in a State, including the following:

“(aa) Whether a State has promulgated rate stability provisions or has rate stability procedures in place, and how the standards or procedures work.

“(bb) The rating history for at least the most recent preceding 5 years for issuers

selling long-term care insurance policies in the State.

“(cc) An appropriate sampling of the policy forms marketed in the State.

“(III) Links to State information regarding long-term care under State Medicaid programs (which may be provided, as appropriate, through Internet linkages to the websites of State Medicaid programs) that includes the following:

“(aa) The medical assistance provided under each State’s Medicaid program for nursing facility services and other long-term care services (including any functional criteria imposed for receipt of such services, as reported in accordance with section 1902(a)(28)(D) of the Social Security Act) and any differences from benefits and services offered under long-term care insurance policies in the State and the criteria for triggering receipt of such benefits and services.

“(bb) If the State has a qualified State long-term care insurance partnership under section 1917(b)(1)(C)(iii) of the Social Security Act, information regarding how and when an individual with a partnership long-term care insurance policy who is receiving benefits under the policy should apply for medical assistance for nursing facility services or other long-term care services under the State Medicaid program and information regarding about how Medicaid asset protection is accumulated over time.”; and

(B) by adding at the end the following:

“(C) CURRENT INFORMATION.—The Secretary of Health and Human Services shall ensure that, to the greatest extent practicable, the information maintained in the National Clearinghouse for Long-Term Care Information, including the information required for LTC Insurance Compare, is the most recent information available.

“(D) LONG-TERM CARE INSURANCE POLICY DEFINED.—In subparagraph (A)(iv), the term ‘long-term care insurance policy’ means a qualified long-term care insurance contract (as defined in section 7702B(b) of the Internal Revenue Code of 1986), a qualified long-term care insurance contract that covers an insured who is a resident of a State with a qualified State long-term care insurance partnership under clause (iii) of section 1917(b)(1)(C) of the Social Security Act (42 U.S.C. 1396p(b)(1)(C)) or a long-term care insurance policy offered in connection with a State plan amendment described in clause (iv) of such section, and includes any other insurance policy or rider described in the definition of ‘long-term care insurance’ in section 4 of the model Act promulgated by the National Association of Insurance Commissioners (as adopted December 2006).”;

(2) by redesignating paragraph (3) as paragraph (4); and

(3) by inserting after paragraph (2) the following:

“(3) CONSULTATION ON LTC INSURANCE COMPARE.—The Secretary of Health and Human Services shall consult with the National Association of Insurance Commissioners and the entities and stakeholders specified in section 8101(d) of the Patient Protection and Affordable Care Act in designing and implementing the LTC Insurance Compare required under paragraph (2)(A)(iv).”.

(b) MEDICAID STATE PLAN REQUIREMENT TO SUBMIT NURSING FACILITY SERVICES FUNCTIONAL CRITERIA DATA.—Section 1902(a)(28) of the Social Security Act (42 U.S.C. 1396a(a)(28)) is amended—

(1) in subparagraph (C), by striking “and” after the semicolon;

(2) in subparagraph (D)(iii), by adding “and” after the semicolon; and

(3) by inserting after subparagraph (D)(iii), the following new subparagraph:

“(E) for the annual submission of data relating to functional criteria for the receipt of nursing facility services under the plan (in such form and manner as the Secretary shall specify);”.

(c) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section take effect on the date of enactment of this Act.

(2) EXTENSION OF EFFECTIVE DATE FOR STATE LAW AMENDMENT.—In the case of a State plan under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.) which the Secretary of Health and Human Services determines requires State legislation or State regulation in order for the plan to meet the additional requirements imposed by the amendments made by subsection (b), the State plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet these additional requirements before the first day of the first calendar quarter beginning after the close of the first regular session of the State legislature that begins after the date of enactment of this Act. For purposes of the previous sentence, in the case of a State that has a 2-year legislative session, each year of the session is considered to be a separate regular session of the State legislature.

## **PART II—IMPROVED STATE CONSUMER PROTECTIONS FOR QUALIFIED LONG-TERM CARE INSURANCE CONTRACTS AND MEDICAID PARTNERSHIP POLICIES**

### **SEC. 8121. APPLICATION OF MEDICAID PARTNERSHIP REQUIRED MODEL PROVISIONS TO ALL TAX-QUALIFIED LONG-TERM CARE INSURANCE CONTRACTS.**

(a) IN GENERAL.—Section 7702B(g)(1) of the Internal Revenue Code of 1986 (relating to consumer protection provisions) is amended—

(1) in subparagraph (A), by inserting “(but only to the extent such requirements do not conflict with requirements applicable under subparagraph (B)),” after “paragraph (2)”,

(2) by redesignating subparagraphs (B) and (C) as subparagraphs (C) and (D), respectively, and

(3) by inserting after subparagraph (A), the following new subparagraph:

“(B) the requirements of the model regulation and model Act described in section 1917(b)(5) of the Social Security Act.”.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to contracts issued on or after the date that is 1 year after the date of enactment of this Act.

### **SEC. 8122. STREAMLINED PROCESS FOR APPLYING NEW OR UPDATED MODEL PROVISIONS.**

(a) SECRETARIAL REVIEW.—

(1) TAX-QUALIFIED POLICIES.—

(A) 2000 AND 2006 MODEL PROVISIONS.—Not later than 12 months after the date of enactment of this Act, the Secretary of the Treasury, in consultation with the Secretary of Health and Human Services, shall review the model provisions specified in subsection (c)(1) for purposes of determining whether updating any such provisions for a provision specified in section 7702B(g)(2) of the Internal Revenue Code of 1986, or the inclusion of any such provisions in such section, for purposes of an insurance contract qualifying for treatment as a qualified long-term care insurance contract under such Code, would improve consumer protections for insured individuals under such contracts.

(B) SUBSEQUENT MODEL PROVISIONS.—Not later than 12 months after model provisions

described in paragraph (2) or (3) of subsection (c) are adopted by the National Association of Insurance Commissioners, the Secretary of the Treasury, in consultation with the Secretary of Health and Human Services, shall review the model provisions to determine whether the application of such provisions to an insurance contract for purposes of qualifying for treatment as a qualified long-term care insurance contract under section 7702B(g)(2) of the Internal Revenue Code of 1986, would improve consumer protections for insured individuals under such contracts.

(2) MEDICAID PARTNERSHIP POLICIES.—

(A) SUBSEQUENT MODEL PROVISIONS.—Not later than 12 months after model provisions described in paragraph (2) or (3) of subsection (c) are adopted by the National Association of Insurance Commissioners, the Secretary of Health and Human Services, in consultation with the Secretary of the Treasury, shall review the model provisions to determine whether the application of such provisions to an insurance contract for purposes of satisfying the requirements for participation in a qualified State long-term care insurance partnership under section 1917(b)(1)(C)(iii) of such Act (42 U.S.C. 1396p(b)(1)(C)(iii)) would improve consumer protections for insured individuals under such contracts.

(B) REVIEW OF OTHER PARTNERSHIP REQUIREMENTS.—The Secretary of Health and Human Services, in consultation with the Secretary of the Treasury, shall review clauses (iii) and (iv) of section 1917(b)(1)(C) for purposes of determining whether the requirements specified in such clauses should be modified to provide improved consumer protections or, as appropriate, to resolve any conflicts with the application of the 2006 model provisions under paragraph (5) of section 1917(b) (as amended by section 302(a)) or with the application of any model provisions that the Secretary determines should apply to an insurance contract as a result of a review required under subparagraph (A).

(b) EXPEDITED RULEMAKING.—

(1) TAX-QUALIFIED POLICIES.—Subject to paragraph (3), if the Secretary of the Treasury determines that any model provisions reviewed under subsection (a)(1) should apply for purposes of an insurance contract qualifying for treatment as a qualified long-term care insurance contract under the Internal Revenue Code of 1986, the Secretary shall promulgate an interim final rule applying such provisions for such purposes not later than 3 months after making such determination.

(2) MEDICAID PARTNERSHIP POLICIES.—Subject to paragraph (3), if the Secretary of Health and Human Services determines that any model provisions or requirements reviewed under subsection (a)(2) should apply for purposes of an insurance contract satisfying the requirements for participation in a qualified State long-term care insurance partnership under section 1917(b)(1)(C)(iii) of such Act (42 U.S.C. 1396p(b)(1)(C)(iii)), the Secretary shall promulgate an interim final rule applying such provisions for such purposes not later than 3 months after making such determination.

(3) CONSULTATION REQUIRED.—The Secretary of the Treasury and the Secretary of Health and Human Services, respectively, shall consult with the National Association of Insurance Commissioners and the entities and stakeholders specified in section 101(d) regarding the extent to which it is appropriate to apply the model provisions described in paragraph (1) or (2) (as applicable) to insurance contracts described in such

paragraphs through promulgation of an interim final rule. If, after such consultation—

(A) the Secretary of the Treasury determines it would be appropriate to promulgate an interim final rule, the Secretary of the Treasury shall use notice and comment rulemaking to promulgate a rule applying such provisions to insurance contracts described in paragraph (1); and

(B) the Secretary of Health and Human Services determines it would be appropriate to promulgate an interim final rule, the Secretary of Health and Human Services shall use notice and comment rulemaking to promulgate a rule applying such provisions to insurance contracts described in paragraph (2).

(4) **RULE OF CONSTRUCTION RELATING TO APPLICATION OF CONGRESSIONAL REVIEW ACT.**—Nothing in paragraphs (1), (2), or (3) shall be construed as affecting the application of the sections 801 through 808 of title 5, United States Code (commonly known as the “Congressional Review Act”) to any interim final rule issued in accordance with such paragraphs.

(5) **TECHNICAL AMENDMENT ELIMINATING PRIOR REVIEW STANDARD MADE OBSOLETE.**—Section 1917(b)(5) of the Social Security Act (42 U.S.C. 1396p(b)(5)) is amended by striking subparagraph (C).

(c) **MODEL PROVISIONS.**—In this section, the term “model provisions” means—

(1) each provision of the long-term care insurance model regulation, and the long-term care insurance model Act, respectively, promulgated by the National Association of Insurance Commissioners (as adopted as of October 2000 and as of December 2006);

(2) each provision of the model language relating to marketing disclosures and definitions developed under section 102(b)(1); and

(3) each provision of any long-term care insurance model regulation, or the long-term care insurance model Act, respectively, promulgated by the National Association of Insurance Commissioners and adopted after December 2006.

### **PART III—IMPROVED CONSUMER PROTECTIONS FOR MEDICAID PARTNERSHIP POLICIES**

#### **SEC. 8131. BIENNIAL REPORTS ON IMPACT OF MEDICAID LONG-TERM CARE INSURANCE PARTNERSHIPS.**

Section 6021(c) of the Deficit Reduction Act of 2005 (42 U.S.C. 1396p note) is amended to read as follows:

“(c) **BIENNIAL REPORTS.**—

“(1) **IN GENERAL.**—Not later than January 1, 2011, and biennially thereafter, the Secretary of Health and Human Services (in this subsection referred to as the ‘Secretary’) shall issue a report to States and Congress on the long-term care insurance partnerships established in accordance with section 1917(b)(1)(C)(ii) of the Social Security Act (42 U.S.C. 1396p(b)(1)(C)(ii)). Each report shall include (with respect to the period the report addresses) the following information, nationally and on a State-specific basis:

“(A) Analyses of the extent to which such partnerships improve access of individuals to affordable long-term care services and benefits and the impact of such partnerships on Federal and State expenditures on long-term care under the Medicare and Medicaid programs.

“(B) Analyses of the impact of such partnerships on consumer decisionmaking with respect to purchasing, accessing, and retaining coverage under long-term care insurance policies (as defined in subsection (d)(2)(D)), including a description of the benefits and services offered under such policies, the av-

erage premiums for coverage under such policies, the number of policies sold and at what ages, the number of policies retained and for how long, the number of policies for which coverage was exhausted, and the number of insured individuals who were determined eligible for medical assistance under the State Medicaid program.

“(2) **DATA.**—The reports by issuers of partnership long-term care insurance policies required under section 1917(b)(1)(C)(iii)(VI) of the Social Security Act shall include such data as the Secretary shall specify in order to conduct the analyses required under paragraph (1).

“(3) **PUBLIC AVAILABILITY.**—The Secretary shall make each report issued under this subsection publicly available through the LTC Insurance Compare website required under subsection (d).

“(4) **RULE OF CONSTRUCTION.**—Nothing in this section shall be construed as requiring the Secretary to conduct an independent review of each long-term care insurance policy offered under or in connection with such a partnership.”.

#### **SEC. 8132. ADDITIONAL CONSUMER PROTECTIONS FOR MEDICAID PARTNERSHIPS.**

(a) **APPLICATION OF 2006 MODEL PROVISIONS.**—

(1) **UPDATING OF 2000 REQUIREMENTS.**—

(A) **IN GENERAL.**—Section 1917(b)(5)(B)(i) of the Social Security Act (42 U.S.C. 1396p(b)(5)(B)(i)) is amended by striking “October 2000” and inserting “December 2006”.

(B) **CONFORMING AMENDMENTS.**—

(i) Subclause (XVII) of such section is amended by striking “section 26” and inserting “section 28”.

(ii) Subclause (XVIII) of such section is amended by striking “section 29” and inserting “section 31”.

(iii) Subclause (XIX) of such section is amended by striking “section 30” and inserting “section 32”.

(2) **APPLICATION TO GRANDFATHERED PARTNERSHIPS.**—Section 1917(b)(1)(C)(iv) of such Act (42 U.S.C. 1396p(b)(1)(C)(iv)) is amended by inserting “, and the State satisfies the requirements of paragraph (5)” after “2005”.

(b) **APPLICATION OF PRODUCER TRAINING MODEL ACT REQUIREMENTS.**—Section 1917(b)(1)(C) of such Act (42 U.S.C. 1396p(b)(1)(C)) is amended—

(1) in clause (iii)(V), by inserting “and satisfies the producer training requirements specified in section 9 of the model Act specified in paragraph (5)” after “coverage of long-term care”; and

(2) in clause (iv), as amended by subsection (a)(2), by inserting “clause (iii)(V) and” before “paragraph (5)”.

(c) **APPLICATION OF ADDITIONAL REQUIREMENTS FOR ALL PARTNERSHIPS.**—Section 1917(b) of the Social Security Act (42 U.S.C. 1396p(b)) is amended—

(1) in paragraph (1)(C)—

(A) in clause (iii)—

(i) by inserting after subclause (VII) the following new subclause:

“(VIII) The State satisfies the requirements of paragraph (6).”; and

(ii) in the flush sentence at the end, by striking “paragraph (5)” and inserting “paragraphs (5) and (6).”; and

(B) in clause (iv), as amended by subsections (a)(2) and (b)(2), by striking “paragraph (5)” and inserting “paragraphs (5) and (6).”; and

(2) by adding at the end the following new paragraph:

“(6) For purposes of clauses (iii)(VIII) and (iv) of paragraph (1)(C), the requirements of this paragraph are the following:

“(A) The State requires issuers of long-term care insurance policies to—

“(i) use marketing materials filed with the State for purposes of the partnership in all sales and marketing activities conducted or supported by the issuers in the State with respect to any long-term care insurance policies marketed by the issuer in the State;

“(ii) provide such materials to all agents selling long-term care insurance policies in the State;

“(iii) ensure that agent training and education courses conducted or supported by the issuers incorporate discussion of marketing materials; and

“(iv) make such materials available to any consumer upon request, and to make such materials available to all prospective purchasers of a policy offered under a qualified State long-term care insurance partnership before submission of an application for coverage under that policy.

“(B) The State requires issuers of long-term care insurance policies sold in the State to require agents to use any inflation protection comparison form developed by the National Association of Insurance Commissioners when selling the policies in the State.

“(C) The State requires issuers of long-term care insurance policies sold in the State to comply with the provisions of section 8 of the model Act specified in paragraph (5) relating to contingent nonforfeiture benefits.

“(D) The State enacts legislation, not later than January 1, 2012, that establishes rating standards for all issuers of long-term care insurance policies sold in the State that result in rates over the life of the policy that are no less protective of consumers than those produced by the premium rate schedule increase standards specified in section 20 of the model regulation specified in paragraph (5), unless the State has more stringent procedures or requirements.

“(E) The State develops and updates marketing materials filed with the State whenever changes are made under the State plan that relate to eligibility for medical assistance for nursing facility services, including other long-term care services or the amount, duration, or scope of medical assistance for nursing facility services, and also provides to individuals at the time of application for medical assistance under the State plan, or under a waiver of the plan materials that describe in clear, simple language the terms of eligibility, the benefits and services provided as such assistance, and rules relating to adjustment or recovery from the estate of an individual who receives such assistance. Such materials shall include a clear disclosure that medical assistance is not guaranteed to partnership policyholders who exhaust benefits under a partnership policy, and that Federal changes to the program under this title or State changes to the State plan may affect an individual's eligibility for, or receipt of, such assistance.

“(F) The State—

“(i) through the State Medicaid agency under section 1902(a)(5) and in consultation with the State insurance department, develops materials explaining how the benefits and rules of long-term care policies offered by issuers participating in the partnership interact with the benefits and rules under the State plan under this title;

“(ii) requires agents to use such materials when selling or otherwise discussing how long-term care policies offered by issuers participating in the partnership work with potential purchasers and to provide the materials to any such purchasers upon request;

“(iii) informs holders of such policies of any changes in eligibility requirements under the State plan under this title and of any changes in estate recovery rules under the State plan as soon as practicable after such changes are made at the time or at the time of application for medical assistance; and

“(iv) agrees to honor the asset protections of any such policy that were provided under the policy when purchased, regardless of whether the State subsequently terminates a partnership program under the State plan.

“(G) The State Medicaid agency under section 1902(a)(5) and the State insurance department enter into a memorandum of understanding to—

“(i) inform consumers about long-term care policies offered by issuers participating in the partnership, the amount, duration, or scope of medical assistance for nursing facility services or other long-term care services offered under the State plan, consumer protections, and any other issues such agency and department determine appropriate through such means as the State determines appropriate; and

“(ii) jointly facilitate coordination in eligibility determinations for medical assistance under the State plan and the provision of benefits or other services under such policies and medical assistance provided under the State plan that includes—

“(I) the number of policyholders applying for medical assistance under the State plan; and

“(II) the number of policyholders deemed eligible (and, if applicable, ineligible) for such assistance.

“(H) Subject to subparagraph (I), the State enters into agreements with other States that have established qualified State long-term care insurance partnerships under which such States agree to provide reciprocity for policyholders under such partnerships, including providing guaranteed asset protection to all individuals covered under a policy offered under a qualified State long-term care insurance partnership who bought such a policy in the State or in another State with such a partnership and with which the State has a reciprocity agreement.

“(I)(i) In the case of a State described in paragraph (I)(C)(iv) (in this subparagraph referred to as a ‘grandfathered partnership State’)—

“(I) the grandfathered partnership State may, in lieu of entering into agreements that satisfy subparagraph (I), enter into individual reciprocity agreements with other States that have established qualified State long-term care insurance partnerships; and

“(II) if the grandfathered partnership State has not, as of January 1, 2013, entered into a reciprocity agreement with each State that has a qualified State long-term care insurance partnership, the grandfathered partnership State shall enter into and comply with a reciprocity agreement developed by the Secretary in accordance with clause (ii) for each partnership State that the grandfathered State does not have a reciprocity agreement with and, with respect to each such State, for so long as the grandfathered partnership State does not have an individual reciprocity agreement with that State.

“(ii) In developing a reciprocity agreement for purposes of clause (i)(II), the Secretary shall take into account—

“(I) the difference in consumer protections under the partnership program of the grandfathered partnership State and the other partnership State that will be covered by the

agreement, and, to the greatest extent possible, preserve the more protective requirements; and

“(II) the impact the reciprocity agreement will have on expenditures under the State plan under this title (including under any waivers of such plan) of each such State and, to the greatest extent possible, minimize any negative impact on such expenditures and States.”.

(d) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section take effect on the date that is 1 year after the date of enactment of this Act.

(2) EXTENSION OF EFFECTIVE DATE FOR STATE LAW AMENDMENT.—In the case of a State plan under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.) which the Secretary of Health and Human Services determines requires State legislation in order for the plan to meet the additional requirements imposed by the amendments made by this section, the State plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet these additional requirements before the first day of the first calendar quarter beginning after the close of the first regular session of the State legislature that begins after the date of enactment of this Act. For purposes of the previous sentence, in the case of a State that has a 2-year legislative session, each year of the session is considered to be a separate regular session of the State legislature.

#### SEC. 8133. REPORT TO CONGRESS REGARDING NEED FOR MINIMUM ANNUAL COMPOUND INFLATION PROTECTION.

Not later than 18 months after the date of enactment of this Act, the Secretary of Health and Human Services (in this section referred to as the “Secretary”) shall submit a report to Congress that includes the Secretary’s recommendation regarding whether legislative or other administrative action should be taken to require all long-term care insurance policies sold after a date determined by the Secretary in connection with a qualified State long-term care insurance partnership under clause (iii) of section 1917(b)(1)(C) of the Social Security Act (42 U.S.C. 1396p(b)(1)(C)) or a long-term care insurance policy offered in connection with a State plan amendment described in clause (iv) of such section, provide a minimum level of annual compound inflation protection, and if so, whether such requirements should be imposed on a basis related to the age of the policyholder at the time of purchase. The Secretary shall include in the report information on the various levels of inflation protection available under such long-term care insurance partnerships and the methodologies used by issuers of such policies to calculate and present various inflation protection options under such policies, including policies with a future purchase option feature.

#### PART IV—PRESERVATION OF STATE AUTHORITY

##### SEC. 8141. PRESERVATION OF STATE AUTHORITY.

Nothing in this title, any amendments made by this title, or any rules promulgated to carry out this title or such amendments, shall be construed to limit the authority of a State to enact, adopt, promulgate, and enforce any law, rule, regulation, or other measure with respect to long-term care insurance that is in addition to, or more stringent than, requirements established under this title and the amendments made by this title.

**SA 2997.** Ms. KLOBUCHAR (for herself, Mr. BROWN, and Ms. COLLINS) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1441, line 5, strike “or pediatric medicine” and insert “neurology, or pediatric medicine”.

**SA 2998.** Ms. KLOBUCHAR (for herself and Ms. SNOWE) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1783, between lines 2 and 3, insert the following:

#### SEC. 6412. PROVIDER AND SUPPLIER PAYMENTS UNDER MEDICARE AND MEDICAID THROUGH DIRECT DEPOSIT OR ELECTRONIC FUNDS TRANSFER (EFT) AT INSURED DEPOSITORY INSTITUTIONS.

(a) MEDICARE.—

(1) IN GENERAL.—Section 1874 of the Social Security Act (42 U.S.C. 1395kk) is amended by adding at the end the following new subsection:

“(i) LIMITATION ON PAYMENT TO PROVIDERS OF SERVICES AND SUPPLIERS.—No payment shall be made under this title for items and services furnished by a provider of services or supplier unless each payment to the provider of services or supplier is in the form of direct deposit or electronic funds transfer to the provider of services’ or supplier’s account, as applicable, at a depository institution (as defined in section 19(b)(1)(A) of the Federal Reserve Act (12 U.S.C. 461(b)(1)(A))).”.

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to each payment made to a provider of services, provider, or supplier on or after such date (not later than July 1, 2012) as the Secretary of Health and Human Services shall specify, regardless of when the items and services for which such payment is made were furnished.

(b) MEDICAID PILOT PROJECT.—

(1) AUTHORITY TO ESTABLISH.—The Secretary shall establish a Medicaid pilot project under which payment for items and services furnished by providers or suppliers of items or services under the Medicaid programs of the States selected to participate in the project is in the form of a direct deposit or electronic funds transfer to the provider’s or supplier’s account, as applicable, at a depository institution (as defined in section 19(b)(1)(A) of the Federal Reserve Act (12 U.S.C. 461(b)(1)(A))).

(2) DEADLINE FOR IMPLEMENTATION.—The pilot project established under paragraph (1) shall begin in fiscal year 2012.

(3) REPORT.—Not later than September 30, 2014, the Secretary of Health and Human

Services shall report to Congress on the pilot project established under this subsection. The report shall include an analysis of the extent to which the project is effective in improving efficiency, reducing administrative costs, and preventing fraud in the Medicaid program and a recommendation as to whether the project should be expanded to additional or all State Medicaid programs.

**SA 2999.** Ms. SNOWE (for herself, Mr. KERRY, and Ms. LANDRIEU) submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 2057, between lines 6 and 7, insert the following:

**SEC. \_\_\_\_ APPLICATION OF CAFETERIA PLANS TO SELF-EMPLOYED INDIVIDUALS.**

(a) IN GENERAL.—  
(1) APPLICATION TO SELF-EMPLOYED INDIVIDUALS.—Section 125(d) of the Internal Revenue Code of 1986 (defining cafeteria plan) is amended by adding at the end the following new paragraph:

“(3) EMPLOYEE TO INCLUDE SELF-EMPLOYED.—

“(A) IN GENERAL.—The term ‘employee’ includes an individual who is an employee within the meaning of section 401(c)(1) (relating to self-employed individuals).

“(B) LIMITATIONS.—

“(i) IN GENERAL.—The amount which may be excluded under subsection (a) with respect to a participant in a cafeteria plan by reason of being an employee under subparagraph (A) shall not exceed the employee’s earned income (within the meaning of section 401(c)) derived from the trade or business with respect to which the cafeteria plan is established.

“(ii) LIMITATIONS ON CERTAIN FLEXIBLE SPENDING ARRANGEMENTS.—No amount shall be excluded under subsection (a) with respect to any plan which provides benefits in the form of a health flexible spending arrangement or a dependent care flexible spending arrangement and in which an individual described in subparagraph (A) participates unless such plan is administered by a person other than the employer.

“(C) ADDITIONAL TAX ON UNREIMBURSED AMOUNTS.—

“(i) IN GENERAL.—The tax imposed by this chapter on any person who is described in subparagraph (A) and who is a participant in a cafeteria plan which provides benefits in the form of a health flexible spending arrangement or a dependent care flexible spending arrangement shall be increased by an amount equal to 100 percent of the excess (if any) of—

“(I) the maximum value of the qualified benefit with respect to such person, over

“(II) the amount of covered expenses both incurred during the coverage period for the qualified benefit, and any grace period, and reimbursed during that period or during any appropriate run-out period.

“(ii) COLLECTION.—The tax imposed by this subparagraph shall be collected by the person administering the flexible spending arrangement, and to the extent that such person fails to collect such tax, the tax shall be paid by such person.”.

(2) APPLICATION TO BENEFITS WHICH MAY BE PROVIDED UNDER CAFETERIA PLAN.—

(A) GROUP-TERM LIFE INSURANCE.—Section 79 of the Internal Revenue Code of 1986 (relating to group-term life insurance provided to employees) is amended by adding at the end the following new subsection:

“(f) EMPLOYEE INCLUDES SELF-EMPLOYED.—

“(1) IN GENERAL.—For purposes of this section, the term ‘employee’ includes an individual who is an employee within the meaning of section 401(c)(1) (relating to self-employed individuals).

“(2) LIMITATION.—The amount which may be excluded under the exceptions contained in subsection (a) or (b) with respect to an individual treated as an employee by reason of paragraph (1) shall not exceed the employee’s earned income (within the meaning of section 401(c)) derived from the trade or business with respect to which the individual is so treated.”.

(B) ACCIDENT AND HEALTH PLANS.—Subsection (g) of section 105 of such Code (relating to amounts received under accident and health plans) is amended to read as follows:

“(g) EMPLOYEE INCLUDES SELF-EMPLOYED.—

“(1) IN GENERAL.—For purposes of this section, in the case of any coverage under an accident or health plan which is provided through a simple cafeteria plan under section 125(j), the term ‘employee’ includes an individual who is an employee within the meaning of section 401(c)(1) (relating to self-employed individuals).

“(2) LIMITATION.—The amount which may be excluded under this section by reason of subsection (b) or (c) with respect to an individual treated as an employee by reason of paragraph (1) shall not exceed the employee’s earned income (within the meaning of section 401(c)) derived from the trade or business with respect to which the accident or health insurance was established.”.

(C) CONTRIBUTIONS BY EMPLOYERS TO ACCIDENT AND HEALTH PLANS.—

(i) IN GENERAL.—Section 106 of such Code is amended by inserting after subsection (e) the following new subsection:

“(f) SPECIAL RULE FOR BENEFITS PROVIDED THROUGH SIMPLE CAFETERIA PLANS.—

“(1) IN GENERAL.—For purposes of this section, in the case of any coverage under an accident or health plan which is provided through a simple cafeteria plan under section 125(j), the term ‘employee’ includes an individual who is an employee within the meaning of section 401(c)(1) (relating to self-employed individuals).

“(2) LIMITATION.—The amount which may be excluded under subsection (a) with respect to an individual treated as an employee by reason of paragraph (1) shall not exceed the employee’s earned income (within the meaning of section 401(c)) derived from the trade or business with respect to which the accident or health insurance was established.”.

(ii) CLARIFICATION OF LIMITATIONS ON OTHER COVERAGE.—The first sentence of section 162(l)(2)(B) of such Code is amended to read as follows: “Paragraph (1) shall not apply to any taxpayer for any calendar month for which the taxpayer participates in any subsidized health plan maintained by any employer (other than an employer described in section 401(c)(4)) of the taxpayer or the spouse of the taxpayer.”.

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2010.

**SA 3000.** Mr. COBURN submitted an amendment intended to be proposed to

amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle D of title VI insert the following:

**SEC. 6303. PROHIBITION ON COMPARATIVE EFFECTIVENESS RESEARCH FOR THE PURPOSE OF DETERMINING COST AND COVERAGE DECISIONS.**

Reports and recommendations from the Patient-Centered Outcomes Research Institute, established under section 1181 of the Social Security Act (as added by section 6301), or any other government entity are prohibited from being used by any government entity for payment, coverage, or treatment decisions based on costs. Nothing in the preceding sentence shall limit a physician or other health care provider from using reports and recommendations of such Institute or other government entity when making decisions about the best treatment for an individual patient in an individual circumstance.

**NOTICE OF HEARING**

**COMMITTEE ON INDIAN AFFAIRS**

Mr. DORGAN. Mr. President, I would like to announce that the Committee on Indian Affairs will meet on Wednesday, December 9, 2009, at 9:30 a.m. in room 628 of the Dirksen Senate Office Building to conduct a business meeting on pending committee issues, to be followed immediately by a legislative hearing on S. 1690, a bill to amend the Act of March 1, 1933, to transfer certain authority and resources to the Utah Dineh Corporation, and for other purposes. The Committee will then conduct a hearing entitled “Where’s the Trustee? U.S. Department of the Interior Backlogs Prevent Tribes from Using their Lands.”

Those wishing additional information may contact the Indian Affairs Committee at 202-224-2251.

**EXECUTIVE SESSION**

**NOMINATIONS DISCHARGED**

Mr. BROWN. Madam President, I ask unanimous consent the Senate proceed to executive session and the Foreign Relations Committee be discharged en bloc from PN1001, PN1002, PN1003, PN1005, PN1016; and then the Senate proceed en bloc to the consideration of the nominations; that the nominations be confirmed en bloc; the motions to reconsider be considered made and laid upon the table en bloc; that no further motions be in order, and any statements relating to the nominations be printed in the RECORD; the President be immediately notified of the Senate’s action and the Senate then resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

#### DEPARTMENT OF STATE

Bill Delahunt, of Massachusetts, to be a Representative of the United States of America to the Sixty-fourth Session of the General Assembly of the United Nations.

Elaine Schuster, of Florida, to be a Representative of the United States of America to the Sixty-fourth Session of the General Assembly of the United Nations.

Christopher H. Smith, of New Jersey, to be a Representative of the United States of America to the Sixty-fourth Session of the General Assembly of the United Nations.

Wellington E. Webb, of Colorado, to be an Alternate Representative of the United States of America to the Sixty-fourth Session of the General Assembly of the United Nations.

Laura Gore Ross, of New York, to be an Alternate Representative of the United States of America to the Sixty-fourth Session of the General Assembly of the United Nations.

#### LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate resumes legislative session.

#### ORDERS FOR TUESDAY, DECEMBER 8, 2009

Mr. BROWN. I ask unanimous consent when the Senate completes its business today, it adjourn until 10 a.m., Tuesday, December 8; that following

the prayer and pledge, the Journal of proceedings be approved to date, the time for the two leaders be reserved for their use later in the day, and the Senate resume consideration of S. 3590, the health care reform legislation; that following leader remarks, the time until 12:30 p.m. be for debate only, with the time equally divided and controlled between the two leaders or their designees, with Senators permitted to speak for up to 10 minutes each, with the majority controlling the first hour and the Republicans controlling the next hour; finally, I ask that the Senate recess from 12:30 until 2:15 to allow for the weekly caucus luncheons.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### ADJOURNMENT UNTIL 10 A.M. TOMORROW

Mr. BROWN. If there is no further business to come before the Senate, I ask unanimous consent it adjourn under the previous order.

There being no objection, the Senate, at 6:39 p.m., adjourned until Tuesday, December 8, 2009, at 10 a.m.

#### DISCHARGED NOMINATIONS

The Senate Committee on Foreign Relations was discharged from further consideration of the following nomina-

tions by unanimous consent and the nominations were confirmed:

BILL DELAHUNT, OF MASSACHUSETTS, TO BE A REPRESENTATIVE OF THE UNITED STATES OF AMERICA TO THE SIXTY-FOURTH SESSION OF THE GENERAL ASSEMBLY OF THE UNITED NATIONS.

ELAINE SCHUSTER, OF FLORIDA, TO BE A REPRESENTATIVE OF THE UNITED STATES OF AMERICA TO THE SIXTY-FOURTH SESSION OF THE GENERAL ASSEMBLY OF THE UNITED NATIONS.

CHRISTOPHER H. SMITH, OF NEW JERSEY, TO BE A REPRESENTATIVE OF THE UNITED STATES OF AMERICA TO THE SIXTY-FOURTH SESSION OF THE GENERAL ASSEMBLY OF THE UNITED NATIONS.

WELLINGTON E. WEBB, OF COLORADO, TO BE AN ALTERNATE REPRESENTATIVE OF THE UNITED STATES OF AMERICA TO THE SIXTY-FOURTH SESSION OF THE GENERAL ASSEMBLY OF THE UNITED NATIONS.

LAURA GORE ROSS, OF NEW YORK, TO BE AN ALTERNATE REPRESENTATIVE OF THE UNITED STATES OF AMERICA TO THE SIXTY-FOURTH SESSION OF THE GENERAL ASSEMBLY OF THE UNITED NATIONS.

#### CONFIRMATIONS

Executive nominations confirmed by the Senate, Monday, December 7, 2009:

#### DEPARTMENT OF STATE

BILL DELAHUNT, OF MASSACHUSETTS, TO BE A REPRESENTATIVE OF THE UNITED STATES OF AMERICA TO THE SIXTY-FOURTH SESSION OF THE GENERAL ASSEMBLY OF THE UNITED NATIONS.

ELAINE SCHUSTER, OF FLORIDA, TO BE A REPRESENTATIVE OF THE UNITED STATES OF AMERICA TO THE SIXTY-FOURTH SESSION OF THE GENERAL ASSEMBLY OF THE UNITED NATIONS.

CHRISTOPHER H. SMITH, OF NEW JERSEY, TO BE A REPRESENTATIVE OF THE UNITED STATES OF AMERICA TO THE SIXTY-FOURTH SESSION OF THE GENERAL ASSEMBLY OF THE UNITED NATIONS.

WELLINGTON E. WEBB, OF COLORADO, TO BE AN ALTERNATE REPRESENTATIVE OF THE UNITED STATES OF AMERICA TO THE SIXTY-FOURTH SESSION OF THE GENERAL ASSEMBLY OF THE UNITED NATIONS.

LAURA GORE ROSS, OF NEW YORK, TO BE AN ALTERNATE REPRESENTATIVE OF THE UNITED STATES OF AMERICA TO THE SIXTY-FOURTH SESSION OF THE GENERAL ASSEMBLY OF THE UNITED NATIONS.

## HOUSE OF REPRESENTATIVES—Monday, December 7, 2009

The House met at 10:30 a.m. and was called to order by the Speaker pro tempore (Mr. GARAMENDI).

### DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,  
December 7, 2009.

I hereby appoint the Honorable JOHN GARAMENDI to act as Speaker pro tempore on this day.

NANCY PELOSI,  
*Speaker of the House of Representatives.*

### MORNING-HOUR DEBATE

The SPEAKER pro tempore. Pursuant to the order of the House of January 6, 2009, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with each party limited to 30 minutes and each Member, other than the majority and minority leaders and the minority whip, limited to 5 minutes.

### HEALTH CARE REFORM

The SPEAKER pro tempore. The Chair recognizes the gentleman from Oregon (Mr. BLUMENAUER) for 5 minutes.

Mr. BLUMENAUER. Mr. Speaker, as we listen to the debate in the other body, there are two missing factors that would create the momentum for reform and revitalization of our health care. There is a stunning disconnect between the two sides on the nature of the problem and the impact of government's involvement in health care.

Opponents argue, with apparent sincerity, that America has the best health care in the world and it would be "destroyed by Federal involvement undermining the quality of existing care", while supposed cost increases would make health care unaffordable for individuals purchasing insurance and ultimately for the taxpayer as well.

What opponents describe could not be more different from what my research, my constituents and my personal experience tells me. For many in Congress, there is no sense of urgency to compel action because Members of Congress are perhaps the most health care secure people in the world and all can

enjoy the finest health coverage in the world.

No one in Congress is likely to go bankrupt this year, or the next, from their preexisting conditions. It doesn't matter because all are eligible for participation in the Federal employees health benefits program. They are able to access the House physician. When they travel overseas, they have military doctors. About a quarter of the House and Senate are eligible for Medicare and for veterans' programs. No wonder there's no sense of urgency, and Senators and Congresspeople can be sincere in their conviction that America has the best health care in the world.

The disconnect is my colleagues' failure to recognize the government's role in all that they enjoy. There is a simple solution to break this deadlock—support my bill to end government involvement in the health care of Members of Congress. I propose, until comprehensive health care reform is signed by the President, there be no Federal investment in health insurance for Members of Congress. No Federal involvement in negotiating their Federal Employees Health Benefits. They would not be eligible to be participating in the dreaded government single payer program—Medicare. There would be no veterans, no House physicians, no military doctors. Those, after all, are socialized medicine. Members of Congress would be in exactly the same position as over 200 million Americans who are currently underinsured, uninsured, or are relying on the good intentions of a spouse's employer, or their ability to negotiate insurance on the private market, contending with their preexisting conditions and the fine print.

Mr. Speaker, I am absolutely confident that within 6 months of Members of Congress experiencing the health care world of most of America, dealing with the fine print, the pre-existing condition, the uncertainty, the bureaucracy, we would have the consensus necessary to be able to move forward with the comprehensive health insurance reform that Americans want, need and deserve.

I would urge my colleagues to join me in sponsoring this legislation to get government out of the health care of Members of the House and Senate until all Americans can enjoy such health security.

### JOB CREATION

The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. THOMPSON) for 2 minutes.

Mr. THOMPSON of Pennsylvania. Mr. Speaker, a headline in the Wall Street Journal last week read, Job Cuts Loom as Stimulus Fades. Therein lies the jobs problem. The Democratic stimulus plan was poorly designed as a job creator. Government money doesn't do a very good job of stimulating the private sector to invest. The American people know that true economic stimulus starts with tax relief for working families and small businesses. They know that burdening those same families and businesses with an expensive health care program with unknown consequences is a job killer. They know that placing additional energy taxes on the public through the cap and trade system makes businesses pull back on any new investments for the fear of the unknown costs they will face. A stable economy with no surprises looming in the future will give confidence to businesses, and they are the true economic engines of our country. Tax relief promises more capital in the hands of those who invest in the future.

At the time of the stimulus vote, Republicans wanted more funds put into highway construction and Army Corps projects, but that didn't happen. The President has acknowledged that jobs are a problem by holding a jobs summit just this last week. He knows that more than 15 million Americans are looking for work. Let's hope he chooses a new and better path.

### RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until noon today.

Accordingly (at 10 o'clock and 41 minutes a.m.), the House stood in recess until noon.

□ 1200

### AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. LARSEN of Washington) at noon.

### PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

The first touch of snow startled Washington as Your soft whisper of winter upon us, Lord. Not enough to stall the driving force in the Nation's Capital, it melts like political words on the air; yet penetrates the grounding of all future plans.

Lord, this thin white curtain fell on our scene, a seeming call for purification of intentions. Quite unsure if we are ready to be fully clothed with Your victory of total transformation, we beg for more time as if it were not already given freely.

Send us more gentle snow, Lord, if it will awaken within us the hidden child who accepts Your surprising sky with a quiet smile. Brighten our shortened days, Lord, that we may take delight again in Your creation and prepare to celebrate the approaching day of Your visitation, when You embraced all our limitations and kept loving us anyway. Amen.

#### THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

#### PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Texas (Mr. SMITH) come forward and lead the House in the Pledge of Allegiance.

Mr. SMITH of Texas led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

#### HARVARD MED DEAN FAILS HEALTH CARE BILL

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Texas. Mr. Speaker, here is what Jeffrey Flier, dean of Harvard Medical School, has to say about the administration's health care bill: "... The people who favor the legislation are engaged in collective denial.

"Speeches and news reports can lead you to believe that proposed congressional legislation would tackle the problems of cost, access and quality. But that's not true.

"... There are no provisions to substantially control the growth of costs or raise the quality of care. So the overall effort will fail to qualify as reform.

"Whatever its shape, the final legislation that will emerge from Congress will markedly accelerate national health care spending rather than restrain it ... The legislation would do

little or nothing to improve quality or change health care's dysfunctional delivery system.

"Worse, currently proposed Federal legislation would undermine any potential for real innovation in insurance and the provision of care."

Dean Flier has good advice: Congress should start over and do it right.

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken later.

#### RECOGNIZING ECHO COMPANY OF 100TH BATTALION OF THE 442D INFANTRY

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 199) recognizing the 10th Anniversary of the activation of Echo Company of the 100th Battalion of the 442d Infantry, and the sacrifice of the soldiers and families in support of the United States, as amended.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution is as follows:

##### H. CON. RES. 199

Whereas Company E, 100th Battalion, 442d Infantry Regiment of the United States Army was redesignated on February 16, 1999, on the islands of Saipan, Tinian, Rota, Guam and protects the citizens of the Northern Mariana Islands and Guam;

Whereas the soldiers of Company E and their families are active community volunteers supporting the local community and participating in community events;

Whereas Company E has served with great honor and distinction for two tours in Iraq in 2004–2006 and 2008–2009;

Whereas Army Staff Sergeant Wilgene T. Lieto, Army SPC Derence W. Jack, and Army Sergeant Julian F. Manglona of Company E made the ultimate sacrifice for the United States while they served in Iraq; and

Whereas Company E commemorates one of the original companies of the 100th Battalion, 442d Infantry Regiment, which served with distinction during World War II, and continues to live by its motto "Go For Broke": Now, therefore, be it

*Resolved by the House of Representatives (the Senate concurring), That Congress—*

(1) recognizes the valuable, historic, and continued contribution of Company E, 100th Battalion, 442d Infantry Regiment of the United States Army to the citizens of the Northern Mariana Islands, Guam, and the United States;

(2) commends the efforts and contributions of the soldiers and sacrifices of the families of Company E, 100th Battalion, 442d Infantry Regiment to the United States;

(3) recognizes and reaffirms the commitment of Congress to support the mission of Company E, 100th Battalion, 442d Infantry Regiment; and

(4) honors the lives of the soldiers of Company E, 100th Battalion, 442d Infantry Regiment who made the ultimate sacrifice on behalf of the United States.

Amend the title so as to read: "Concurrent resolution Recognizing the 10th Anniversary of the redesignation of Company E, 100th Battalion, 442d Infantry Regiment of the United States Army and the sacrifice of the soldiers of Company E and their families in support of the United States."

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Florida (Mr. ROONEY) each will control 20 minutes.

The Chair recognizes the gentlewoman from Guam.

##### GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, I yield myself such time as I might consume.

Mr. Speaker, I stand in support of House Concurrent Resolution 199, introduced by my colleague, Congressman SABLON, from the Commonwealth of the Northern Mariana Islands.

House Concurrent Resolution 199 recognizes the valuable contributions of Company E, 100th Battalion, 442nd Infantry Regiment of the United States Army.

Not many know that the 100th Battalion, 442nd Infantry Regiment remains the only combat unit in the Army Reserve. In fact, Echo Company of the 100th Battalion was redesignated on February 16, 1999, on the islands of Saipan, Tinian, Rota, and Guam.

As the representative from Guam, I appreciate the opportunity to recognize and commend these soldiers for their outstanding and important service to our Nation.

So today I join my colleague in recognizing the 10th anniversary of the activation of Echo Company and commend the men and women who serve in Echo Company and their families for their dedication and their sacrifice.

During the Second World War, the 100th Battalion, known as "one-puka-puka" was comprised principally of Japanese Americans from Hawaii. The battalion subsequently became a part of the 442nd Infantry Combat Regiment comprised of Japanese Americans who had parents, siblings, and relatives, and many who themselves had been forcibly removed from their homes and communities and sent to internment camps in the United States.

These highly decorated individuals distinguished themselves on the battlefields of Europe; and today those who

volunteer to serve in Echo Company continue to serve with distinction on today's battlefields.

Echo Company has served two tours in Iraq in 2004 through 2006 and, again, in 2008 through this year. In fact, on my most recent trip to Iraq, I had the opportunity to meet with men and women of Echo Company who were performing security operations. I appreciated the opportunity to meet with these men and women in uniform and to recognize their service in the theater of operations.

Unfortunately, three members of Echo Company have made the ultimate sacrifice in defense of our Nation: Staff Sergeant Wilgene T. Lieto, Specialist Derence W. Jack, and Sergeant Julian F. Manglona. Our hearts and prayers are with their families and loved ones and those who they left behind.

The motto of the 100th Battalion is "Go for broke," which continues unabated. Today, we commend Echo Company on their 10th anniversary, and I urge my colleagues to join me in recognizing the service of these fine men and women who have volunteered to defend our Nation, and to support House Concurrent Resolution 199.

I reserve the balance of my time.

Mr. ROONEY. Mr. Speaker, I yield myself such time as I might consume.

Mr. Speaker, I rise in strong support of House Concurrent Resolution 199, which recognizes the service and sacrifices of Echo Company of the 100th Infantry Battalion. I want to thank Delegate GREGORIO SABLON for supporting it.

Ten years ago, Echo Company was redesignated on the island of Saipan, Tinian, Rota, and Guam and now serves to protect the citizens of the Northern Mariana Islands and Guam. Since that time, it has served two tours in Iraq, suffering the loss of two of its men. It continues to support the people and communities of the Northern Marianas and stands ready to serve America.

Echo Company carries on the traditions of World War II predecessors in the 100th Battalion, 442nd Infantry Regiment and continues to live by its motto, "Go for broke."

This resolution honors the soldiers of the unit and the families who support them. I urge Members to vote "yes" on this bill.

I reserve the balance of my time.

Ms. BORDALLO. Mr. Speaker, I yield such time as he may consume to my friend and colleague and the sponsor of this resolution, the gentleman from the Commonwealth of the Northern Mariana Islands (Mr. SABLON).

Mr. SABLON. Mr. Speaker, our Nation can never say "thank you" too frequently to the men and women who put their own lives at risk in military service. So I rise today as the sponsor of House Concurrent Resolution 199 thanking the men and women of Company E, 100th Battalion, 442nd Infantry

Regiment for their service, their dedication, and their sacrifice.

I ask that the House adopt House Concurrent Resolution 199 honoring Company E—Echo Company, as we call it in the Northern Mariana Islands—in this year, the 10th anniversary of this distinguished band of soldiers. This year also marks the completion of Echo Company's second tour of duty in Iraq where they have distinguished themselves for their fortitude and bravery, always living up to the company motto, "Go for broke."

I appreciate the support of the distinguished gentlelady from Guam and the other 25 members of the House Armed Services Committee who are cosponsors of House Concurrent Resolution 199. I also want to thank the additional 29 Members of this House from both sides of the aisle, including my good friend, the distinguished gentleman from Florida, who stepped up to say "thank you" to Echo Company.

Most of all, I want to thank Chairman SKELTON and Ranking Member MCKEON for their leadership and their commitment to our men and women in uniform and for working with me to bring this resolution to the floor today.

As the first person to have the honor to represent the people of the Northern Mariana Islands here in Congress, one of my duties, I believe, is to educate this House about the people I represent. One distinguishing trait of the people of the Northern Mariana Islands is our devotion to the United States of America. We're unique, I believe, in modern times to have chosen as a society to become a permanent part of the United States. We could have become an independent nation, but instead, we chose to be part of this Nation.

Perhaps nothing exemplifies our commitment to serve our new Nation more than our participation in military service. Thirty percent of our graduating class from our public high schools enlisted in military service this year. And obviously, of course, with this out-of-proportion participation in our military, there is an out-of-proportion level of risk. Our community, our small community of some 65,000 people, has suffered the loss of 12 of our people in military service since the commencement of the war in Iraq and Afghanistan. This is certainly one of the highest per capita rates of death in service of any community in our Nation.

I would like to read their names and honor them today: Army Sergeant Yihjyh "Eddie" L. Chen; Army Sergeant Jesse J. Castro; Marine Lance Corporal Adam Q. Emul; Army Specialist Leeroy A. Camacho; Army Private First Class John D. Flores; Army Private First Class Victor M. Fontanilla; Army Specialist Joe G. Charfauros, Jr.; Navy Seaman Anamarie San Nicolas Camacho; Senior Airman Audra P.M. Winkfield; and,

finally, the three members of Echo Company who gave their lives in combat for their country: Army Staff Sergeant Wilgene T. Lieto, Army Specialist Derence W. Jack, and Army Staff Sergeant Julian F. Manglona.

□ 1215

Mr. Speaker, in closing, I would like to say that by honoring specific individuals or a specific unit of the military, we in no way are forgetting all the men and women from communities all across our Nation who serve in the armed services. There are, in fact, many people from the Northern Mariana Islands who are not members of Echo Company in service throughout the world today. My prayers go out to them today and my thanks.

But Echo Company is the only unit from the Northern Mariana Islands composed solely of people from the Northern Mariana Islands and a platoon from Guam. So as the Representative of the Northern Mariana Islands and especially because this is the 10th anniversary of Echo Company in the Northern Mariana Islands, it is my honor and responsibility to take the floor and say "thank you."

Mr. Speaker, I also want to recognize and am honored to have Representative and Senator-elect Ralph Torres of the Northern Mariana Legislature in the gallery today. Mr. Torres is here to join me in paying respect to our troops.

I would like to submit this letter of support from Representative and Senator-elect Ralph M. Torres into the RECORD.

SAIPAN, MP,  
December 5, 2009.

Hon. GREGORIO KILILI CAMACHO SABLON,  
House of Representatives,  
Washington, DC.

DEAR REPRESENTATIVE SABLON: I am proud and honored to write this letter of support for H. Con. Res. 199, the concurrent congressional resolution recognizing the outstanding efforts of Company E, 100th Battalion, 442 Infantry Regiment for their second deployment to Iraq; and to recognize their 10th Anniversary of being located on the Commonwealth of the Northern Mariana Islands (CNMI).

As a current Representative and Senator-Elect in the CNMI Legislature, I appreciate your efforts to honor the dedication of our troops, and for recognizing the commitment and challenges the spouses and families face when their loved ones are deployed.

Company E not only preserves our freedoms, but is a valuable part of our community. They participate in many community events, such as every July 4th as part of Island Liberation Day, provide all funeral details on the CNMI and participate in the Go for Broke baseball and canoeing teams.

Go for Broke is the motto of Company E, and they live that way in all they do and I am proud to support H. Con. Res. 199.

Sincerely,

RALPH TORRES,  
Representative and Senator-Elect.

Godspeed to Company E, to all our men and women for your sacrifice and for all that you have done for our people and for the United States of America.

Mr. ROONEY. Mr. Speaker, I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, at this time, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 199, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. BORDALLO. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

#### COMMENDING THE SOLDIERS AND CIVILIAN PERSONNEL STATIONED AT FORT GORDON

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 206) commending the soldiers and civilian personnel stationed at Fort Gordon and their families for their service and dedication to the United States and recognizing the contributions of Fort Gordon to Operation Iraqi Freedom and Operation Enduring Freedom and its role as a pivotal communications training installation, as amended.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution is as follows:

##### H. CON. RES. 206

Whereas in 1940, in preparation for possible involvement in World War II, the United States Army identified a site near Augusta, Georgia, that was suitable for division-level training, and the War Department entered into a \$22 million contract to construct the new installation;

Whereas, at the groundbreaking ceremony on October 18, 1941, the new installation was named Camp Gordon in memory of John B. Gordon, a general in the Civil War and former Georgia Governor;

Whereas during World War II, Camp Gordon was home to three Army divisions, namely the 4th Infantry Division, the 26th Infantry Division, and the 10th Armored Division until they were deployed to Europe, where all three served with distinction;

Whereas after the war, on November 1, 1948, Camp Gordon began its signal corps tradition by becoming the home of the Signal Corps Training Center;

Whereas by 1950, the need for signalmen for the Army during the Korean War led to a major expansion of the Signal Corps Training Center, making it the largest single source of Army communications specialists;

Whereas, on March 21, 1956, Camp Gordon was made a permanent installation and renamed Fort Gordon;

Whereas the military conflicts in Southeast Asia in the 1960s and 1970s, together

with advances in communications-electronics (C-E) technology, placed heavy training demands on Fort Gordon;

Whereas at the height of the Vietnam War, the Signal Corps Training Center was renamed the Southeastern Signal School and became the primary source of personnel for tactical C-E units in Vietnam;

Whereas in September 1965, the Southeastern Signal School activated the Signal Officer Candidate School, from which more than 2,000 officers graduated by February 1968;

Whereas in the post-Vietnam era, as the Army reorganized and modernized, signal training at Fort Gordon progressed to keep pace with rapid technological advances on the modern battlefield, and the Southeastern Signal School was renamed first as the United States Army Signal School and subsequently the United States Army Signal Center at Fort Gordon;

Whereas in June 1986, the United States Army Signal Corp Regiment was established, and Fort Gordon was designated as the regimental home base;

Whereas the Signal Center's efforts included the development of Mobile Subscriber Equipment, the Army's communications architecture and assuming the lead for the Army's Information Mission Area, which included the integration of automation, communications, visual information, records management, and publications and printing;

Whereas in 1990 and 1991, the Signal Center played a vital role in preparing soldiers for deployment during Operation Desert Shield and Operation Desert Storm;

Whereas in the 1990s, Fort Gordon became the home for training most of the personnel within the Department of Defense who operate and maintain satellites and continued to train signal troops of allied and foreign countries;

Whereas Fort Gordon continues to serve as a power projection base for several Signal units responsible for conducting operations overseas;

Whereas approximately 19,000 soldiers are stationed at Fort Gordon, and many of these soldiers have been deployed in Operation Iraqi Freedom or Operation Enduring Freedom multiple times; and

Whereas the strength and unwavering support of the soldiers and their families of Fort Gordon and the entire Augusta community have contributed to making the United States a safe and secure country: Now, therefore, be it

*Resolved by the House of Representatives (the Senate concurring), That Congress—*

(1) recognizes Fort Gordon as the home of the United States Army Signal Corps on the occasion of the 60th anniversary of Fort Gordon serving as the home of the Signal Corps Training Center;

(2) commends the soldiers, their families, and the civilian personnel at Fort Gordon for their service and dedication to the United States; and

(3) recognizes the contributions of Fort Gordon to Operation Iraqi Freedom and Operation Enduring Freedom.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Florida (Mr. ROONEY) each will control 20 minutes.

The Chair recognizes the gentlewoman from Guam.

##### GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members

have 5 legislative days within which to revise and extend their remarks on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, I yield myself such time as I might consume.

Mr. Speaker, I rise today to support House Concurrent Resolution 206, commending the dedication of soldiers, civilian personnel, and families stationed at Fort Gordon, Georgia, and recognizing the 60th anniversary of Fort Gordon as the vital training center of the United States Army Signal Corps.

Fort Gordon has a long and storied history of preparing our soldiers to effectively utilize technological advances on the battlefield. Now, Fort Gordon is training our soldiers in the advanced communication technologies needed to execute missions in Operation Iraqi Freedom and Operation Enduring Freedom.

I also want to commend the civilian personnel at Fort Gordon who are key members of the United States Army Signal Corps team and whose hard work and dedication to the mission are critical to the United States Army's success. To be the best, we need soldiers and civilians working together.

And finally, I want to express my gratitude to the families stationed at Fort Gordon. While their loved ones train for long hours and deploy overseas for extended periods of time, the families remain supportive and steadfast, understanding the sacrifice that comes from keeping the United States safe and secure. I also commend the entire Augusta, Georgia, community who rally around the great men and women of Fort Gordon.

Mr. Speaker, I would like to thank my colleague, Mr. BROWN of the State of Georgia, for his work in bringing this resolution to the floor, and I ask all my colleagues to support House Concurrent Resolution 206.

I reserve the balance of my time.

Mr. ROONEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of House Concurrent Resolution 206, which commends the soldiers, civilian personnel, and their families stationed at Fort Gordon, Georgia, for their service and dedication to the United States.

I want to commend Representative PAUL BROWN of Georgia for sponsoring this legislation which has drawn wide support of other Members as cosponsors, including a great number of non-Georgians.

Mr. Speaker, Fort Gordon has been an important site of Army training for more than 60 years. Initially a training area for newly formed combat divisions preparing for battle in World War II, the 4th Infantry, the 26th Infantry, and the 10th Armored Divisions trained at

the then-Camp Gordon before they were deployed to combat in Europe and distinguished themselves in hard fighting across France, the Low Countries, and Germany.

After the war, the newly designated Fort Gordon became the home of the Army's Signal Corps. In every conflict since, from Korea through today's wars in Iraq and Afghanistan, Fort Gordon has trained Army combat communicators in their essential combat duties.

This is why it is, therefore, right and proper that we recognize Fort Gordon, the home of the Army Signal Corps, for its outstanding contributions to our Nation. I urge all Members to support this resolution.

Mr. Speaker, I yield back the balance of my time.

Mr. GINGREY of Georgia. Mr. Speaker, I rise today as a cosponsor of H. Con. Res. 206, a resolution commending the soldiers and civilian personnel stationed at Fort Gordon and their families for their service and dedication to the United States and recognizing the contributions of Fort Gordon to Operation Iraqi Freedom and Operation Enduring Freedom and its role as a pivotal communications training installation.

Fort Gordon dates to 1940, when the United States Army recognized a need for a military installation near Augusta, Georgia that could aid in combat during the ensuing Second World War. The groundbreaking actually took place in 1941, and the base was originally named Camp Gordon after John B. Gordon, a general during the Civil War and former Governor of Georgia. During World War II, Camp Gordon was home to the 4th Infantry Division, 26th Infantry Division, and 10th Armored Division of the Army until they were deployed to Europe. However, in 1948, Camp Gordon became the home of the Signal Corps Training Center—for which it is most commonly known today.

Throughout the Korean war the need for signalmen grew, and the Signal Corps Training Center became the largest single source for Army communications specialists. Camp Gordon was also made a permanent installation in 1956 and was renamed Fort Gordon. Further, during the Vietnam war era and after, communications specialists became an absolutely necessary component of highly technological and modernized warfare, and Fort Gordon was recognized as an exemplary institution for these soldiers as the Signal Corps Training Center came to be known as the United States Army Signal Center at Fort Gordon.

Fort Gordon and the troops and families stationed there were instrumental in Operations Desert Shield and Desert Storm, and during the 1990s the installation was responsible for training most of the DoD personnel who operate and maintain satellites, as well as training signal troops of allied and former nations.

Currently, approximately 19,000 soldiers are stationed at Fort Gordon, and Augusta has been a welcome home to all of them. To this day, the base continues its tradition of success in the Signal Corps, as it trains soldiers for deployment into theater in Iraq and Afghanistan. On behalf of Georgia's 11th Con-

gressional District, I am proud of the continued dedication to the safety and security of the United States of the men and women at Fort Gordon and thank them for their nearly 60 years of service to this Nation. Georgia has been blessed with an abundance of willing men and women who are committed to ensuring freedom and liberty for America, and I thank each of them for their service.

I believe that the brave men and women at Fort Gordon and every military installation who sacrifice for our present freedoms deserve our fullest support. Our Nation's service men and women represent the best our country has to offer, and they must be treated with the respect and honor they deserve. As we ask these courageous soldiers, sailors, airmen, and marines—and their families—to do more and more, it's only right we continue doing all we can for them. Commending the accomplishments and service of our troops at Fort Gordon is just one small example of the gratitude that every American should express to our troops at home and abroad.

With that, Mr. Speaker, I ask all of my colleagues to support this resolution.

Mr. BROUN of Georgia. Mr. Speaker, I rise today to commend the soldiers, civilians, and military families stationed at Fort Gordon for their service and dedication to the United States, and to honor the lineage of Fort Gordon as an indispensable communications installation and training center in our Nation's history.

Fort Gordon was originally conceived as Camp Gordon on October 18, 1941, as an answer to America's fight in WWII Europe. Camp Gordon was home to three Army Divisions—the 4th Infantry Division, the 26th Infantry Division, and the 10th Armored Division. All served with distinction in the liberation of Europe from the Nazi tyranny. It was not until March 21, 1956, that Camp Gordon was given permanent status and renamed Fort Gordon.

Since that time, Fort Gordon's soldiers and civilians have continuously served with distinction in Vietnam, Operations Desert Shield and Desert Storm, and in current operations in Iraq and Afghanistan. All the while, the military family members were providing support while dealing with the hardship of long and often times multiple deployment separations.

In June 1986, the United States Army Signal Regiment was established and Fort Gordon was designated as the home base for the regiment. Fort Gordon is home not only to the Army's premier signal training center, but it is also home to deploying active and reserve Army units. The soldiers in these units take the lessons learned from the battlefield in order to incorporate the lessons into the signal training curriculum and in research and development. This functional and technical analysis has led to the development of mobile subscriber equipment, the Army's communication architecture and information mission area, which include integration of automation, communications, and visual information.

Fort Gordon's role as a communications leader was not achieved through individuality but through a combined effort of the Army and the citizens of Augusta who together have fostered a strong community. Margret Mead said it best when referring to the strength of a community, "never doubt that a small, group of

thoughtful, committed citizens can change the world. Indeed, it is the only thing that ever has." These committed Augusta citizens were and are an essential part of Fort Gordon's history that has led to a safer and secure America.

Ms. BORDALLO. Mr. Speaker, at this time I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 206, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. BORDALLO. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

#### HONORING 373RD ANNIVERSARY OF THE NATIONAL GUARD

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 940) recognizing and honoring the National Guard on the occasion of its 373rd anniversary.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

#### H. RES. 940

Whereas the National Guard celebrates its 373rd birthday on December 13, 2009;

Whereas the National Guard and its citizen-soldiers have participated in all major American conflicts, most recently Operation Enduring Freedom and Operation Iraqi Freedom;

Whereas the National Guard is the oldest component of the United States Armed Forces;

Whereas the National Guard has served with distinction as America's first line of defense against natural and man-made disasters within the United States;

Whereas Colonial and State militias were the precursors to the National Guard;

Whereas the militia stood their ground during the opening shots of the Revolutionary War at Lexington Green and Concord Bridge in 1775;

Whereas more than 164,000 members of the militia from the 13 colonies served under the command of George Washington during the Revolutionary War;

Whereas in 1824, the 2nd Battalion, 11th Regiment, New York Artillery became the first military organization in the United States to adopt the title "National Guard";

Whereas during the Mexican War of 1846–1848, more than 70 percent of the total manpower effort was from citizen-soldiers through volunteer militiamen;

Whereas the Union and Confederate Armies relied heavily on militias and volunteer regiments during the Civil War of 1861–1865;

Whereas, on April 15, 1861, President Abraham Lincoln invoked the Calling Forth Act

of 1792 and ordered 75,000 militiamen into Federal service for 90 days;

Whereas during the Spanish-American War in 1898, over 160,000 National Guardsmen volunteered for active duty;

Whereas a group of National Guardsmen from Arizona, New Mexico, Oklahoma and Texas were called the "Rough Riders" and were led by Lieutenant Colonel and future United States President Theodore "Teddy" Roosevelt;

Whereas in 1902, Major General Charles W. Dick, commander of the Ohio Division of the National Guard and a member of the United States House of Representatives, became president of the National Guard Association;

Whereas the Militia Act of 1903 created the modern National Guard and affirmed the National Guard as the primary organized combat Reserve force of the Armed Forces;

Whereas in World War I, the National Guard made up 40 percent of the United States combat divisions;

Whereas the National Defense Act of 1920 established the Army of the United States, to consist of the Regular Army, the Organized Reserve Corps, and the National Guard, when called into Federal service;

Whereas an amendment to the National Defense Act enacted on June 15, 1933, established the National Guard of the United States as a Reserve component of the Army;

Whereas the National Security Act of 1947 established the Air National Guard as a Reserve component of the Air Force;

Whereas more than 300,000 members of the National Guard, including 18 infantry divisions, participated in World War II;

Whereas more than 138,000 members of the Army National Guard and more than 45,000 members of the Air National Guard were called to active duty during the Korean War;

Whereas almost 23,000 members of the Army and Air National Guard were mobilized for two years of active duty during the Vietnam War;

Whereas more than 70,000 members of the Army and Air National Guard were called upon to participate in Operation Desert Shield and Operation Desert Storm in 1990 and 1991;

Whereas since the attacks on September 11, 2001, hundreds of thousands of members of the Army and Air National Guard have been called upon by their States and the Federal Government to provide security at home and combat terrorism abroad; and

Whereas more than 50,000 members of the Army and Air National Guard were deployed in the Gulf States following Hurricane Katrina in 2005: Now, therefore, be it

*Resolved*, That the House of Representatives—

(1) thanks the members of the National Guard for their service in response to the attacks on September 11, 2001, and their continuing role in homeland security and military operations;

(2) supports providing the National Guard with the necessary resources to ensure its readiness;

(3) expresses its condolences and gratitude to the families of those members of the National Guard who have lost their lives through their dedication and commitment to the freedom and security of the United States while serving in the National Guard; and

(4) honors and supports the compassionate, courageous, and dedicated members of the National Guard who serve a critical role in protecting the United States and its citizens' freedoms and treasured liberties.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Florida (Mr. ROONEY) each will control 20 minutes.

The Chair recognizes the gentlewoman from Guam.

GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of House Resolution 940, introduced by my colleague from Ohio (Mr. LATTA), which recognizes the 373rd birthday of the Nation's military first responders, our National Guard.

On December 13, 2009, we will celebrate the enormous contributions that our Nation's citizen soldiers and airmen have contributed to our national defense for over 300 years. Our forefathers relied on its citizen soldiers to protect this young Nation, and today we continue to rely on our citizen soldiers to protect the values and the rights that Americans enjoy today.

Our men and women in the National Guard not only volunteer to serve overseas in our Nation's defense, they are also an integral part of our local communities, providing assistance, support, and protection to their neighbors and loved ones in cases of natural and man-made disasters within the United States.

The history of the National Guard began back during the early days of our Nation. The colonists adopted the English militia system which required all males between the ages of 16 and 60 to bear arms and contribute to the defense of their community. In those early years, the militia provided the first line of defense in our Nation, which continues to this very day.

Throughout our Nation's conflicts, the National Guard has been an integral part of our country's national defense. During World War I, the National Guard made up 40 percent of America's combat divisions. The National Defense Act of 1933 established the National Guard as a reserve component of the Army, and the National Defense Act of 1947 established the air component of the National Guard as a reserve component of the Air Force.

More than 300,000 members of the National Guard participated in World War II, over 180,000 members of the National Guard participated in the Korean War, and nearly 23,000 members of the National Guard deployed in support of the Vietnam War. More than 50,000 members of the National Guard were deployed to the Gulf States in support of Hurricane Katrina. Today, Mr. Speak-

er, almost a quarter of a million members of the National Guard have been mobilized in support of Operation Noble Eagle, Operation Enduring Freedom, and Operation Iraqi Freedom.

So, today, we are here to express our appreciation to those who serve in the National Guard and their families, who are also making a contribution in defense of our Nation, and we are here to express our gratitude and respect to those of the National Guard who have given their lives in defense of our Nation. Our sympathy and our prayers are with their families and their loved ones, and their sacrifices will never be forgotten.

Mr. Speaker, as a former Lieutenant Governor of Guam, I came to rely on the National Guard to be always there, always ready to respond to local issues. On September 11, the National Guard immediately responded to the new and urgent national requirement to protect our airports. The National Guard is a critical component of our national defense. And I am also proud to represent the Guam National Guard, which has the most membership per capita of any other State National Guard in this country.

So I urge my colleagues to support House Resolution 940 and join us as we wish America's National Guard a very happy birthday.

I reserve the balance of my time.

Mr. ROONEY. Mr. Speaker, I yield myself such time as I might consume.

Mr. Speaker, I rise in strong support of House Resolution 940, which recognizes the service and sacrifices of the members of the Army and Air National Guard on the occasion of the 373rd anniversary of the National Guard.

I want to commend Representative ROBERT LATTA of Ohio for sponsoring this legislation.

Mr. Speaker, America is such a dynamic, forward-moving, ever-changing Nation that few institutions can survive for long unless they repeatedly prove their worth and are capable of changing to meet new challenges. For more than 300 years, the National Guard has repeatedly demonstrated its worth and value to this Nation in the crises of peace and war. The courage, commitment, and sacrifices of the National Guard members have been an integral part of every war this Nation has ever fought.

These citizen soldiers most recently have accepted an entirely new role in our national security and enthusiastically transformed themselves and their units from a ready Reserve to an operational Reserve, where repeated deployments to combat have become the norm and not the exception.

□ 1230

While providing significant combat power to support ongoing wars, the Guard has remained true to its mission: to support the individual States

in times of natural disasters. With this dual requirement to support not only the Nation, but also the people of the States from which they come, the National Guard is indispensable to the well-being, safety, and security of all Americans. This is why it is, therefore, right and proper that we recognize the National Guard for 373 years of outstanding service.

I urge all Members to support this resolution.

Mr. Speaker, I reserve the balance of my time.

Ms. BORDALLO. Mr. Speaker, I continue to reserve the balance of my time.

Mr. ROONEY. Mr. Speaker, I would like to yield at this point 3 minutes to the sponsor of this resolution, the gentleman from Ohio (Mr. LATTA).

Mr. LATTA. I thank the gentleman for yielding.

Mr. Speaker, it is very appropriate that we assemble here today on December 7, "a day that will live in infamy," words that were spoken by President Franklin Delano Roosevelt on this House floor 68 years ago tomorrow. On that December 7, the United States lost many courageous, dedicated, heroic, compassionate men and women when the Pacific fleet was attacked at Pearl Harbor by forces of the Imperial Japan Navy.

I rise today in support of House Resolution 940, which I introduced last week on December 1.

As it has already been pointed out very eloquently about the background of the National Guard, the Guard dates its origins back to December 13, 1636, when the General Court of the Massachusetts Bay Colony ordered existing militias to be organized into three regiments. Since then, the National Guard has fought in every major American conflict. From the shot that was heard around the world at Lexington Green and later at Concord Bridge in April of 1775 to our men and women who are standing strong today and fighting in Afghanistan and Iraq, the National Guard and its citizen soldiers have been there for us no matter what, always ready, always there.

The National Guard is the oldest component of the Armed Forces of the United States. The National Guard's number one priority is the security and defense of our homeland at home and abroad. Americans have relied on their National Guard for more than three-and-a-half centuries, even before the United States existed.

I want to thank all past and present members of the National Guard for their service and response to the attacks on September 11, 2001, and their continuing role in homeland security and military operations around the world.

In today's world, it is essential that we honor and support all of our service-members who have sacrificed so much

for us to ensure that our freedoms and liberties are secure in the United States. We need to support and provide our men and women of the National Guard and all the Armed Forces with the necessary resources to ensure their readiness and success.

As the National Guard's official song goes, "Defending freedom, protecting dreams, this is the spirit of what it means to me. For my God and my home that I love: I Guard America, Guarding America, America."

Ms. BORDALLO. Mr. Speaker, I reserve the balance of my time.

Mr. ROONEY. Mr. Speaker, at this time, I would like to yield 3 minutes to the gentleman from Pennsylvania (Mr. THOMPSON).

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I thank my good friend from Florida for yielding on this very important bill.

Mr. Speaker, I rise today in strong support of House Resolution 940, a resolution that recognizes and honors the National Guard on its 373rd anniversary. The National Guard has a long and proud history as the oldest component of our Armed Forces.

The roots of the National Guard date back to our early colonial and State militias, which were vital during the Revolutionary War. It was the National Guardsmen who made up the Rough Riders in the Spanish-American War. More recently, on this date the Japanese attacked Pearl Harbor, and the Greatest Generation went to war. And it is fitting that we pass this resolution today in memory of all those who served, but in particular those who were in the National Guard.

More than 16 million Americans fought in World War II, and about 2 million of them are still alive today, but they are dying at a rate of about 900 a day, according to the Department of Defense. The National Guard have made up 40 percent of the U.S. combat divisions and included 300,000 members and 18 infantry divisions in World War II.

Since the establishment of the National Guard, men and women have served valiantly in every American conflict, including our recent efforts in the Middle East in Operation Enduring Freedom and Operation Iraqi Freedom.

As the father of a former National Guardsman who has served in Iraq with the Army, I have the greatest respect and gratitude for the National Guard and the job that they perform. Earlier this year, I had the privilege to travel to Iraq and Afghanistan to meet many of our soldiers and leaders on the ground, and it was there I witnessed the National Guard firsthand.

I commend and thank the National Guard and all of our men and women in uniform for their selfless service to their country. And I urge my colleagues to support the National Guard and our troops and vote in favor of this important legislation.

Mr. ROONEY. Mr. Speaker, I yield back the balance of my time.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise today in support of H. Res. 940 recognizing and honoring the National Guard on the occasion of its 373rd anniversary.

The security and freedom we enjoy in the United States of America is due in great part to the sacrifices made by the oldest component of the Armed Forces, the National Guard. From the Revolutionary War to the latest military operations in the Middle East, the Citizen-Soldiers of the National Guard have competently responded to the call of duty. In addition to serving overseas, these men and women make up the forces in the state divisions, such as the Texas National Guard, and have been key in serving the local community during natural disasters and civil emergencies.

As we reflect on the 68th anniversary of Pearl Harbor this week, it reminds us of the ultimate sacrifice members of the National Guard have bravely made, and will continue to make, for our country. I urge my colleagues to join me in supporting H. Res. 940 to recognize and honor the National Guard on the occasion of its 373rd anniversary.

Ms. RICHARDSON. Mr. Speaker, I rise today in strong support of House Resolution 940, a resolution recognizing and honoring the National Guard on the occasion of its 373rd anniversary. The National Guard has a rich and vital history of protecting our Nation, and I am proud to support this resolution honoring them.

I would like to thank Congressman LATTA for authoring this important resolution, and House Majority Leader STENY HOYER and Speaker NANCY PELOSI for their skill and leadership in bringing it to the floor.

Mr. Speaker, since the attacks on September 11, 2001, hundreds of thousands of members of the Army and Air National Guard have been called upon by their States and the Federal Government to provide security at home and combat terrorism abroad. As a conferee on H.R. 2647, the National Defense Authorization Act for Fiscal Year 2010, I was proud to support the provision of \$200 million to support National Guard and Reserve military construction projects. The men and women of the National Guard make so many sacrifices to keep our Nation and its people safe, and we need to make sure they have the support and funding to perform their duties. This resolution recognizes and honors those sacrifices.

In conclusion, Mr. Speaker, I support this resolution thanking the members of the National Guard for their service and continued support, as well as expressing condolences and gratitude to the families of members of the National Guard who have lost their lives. I am proud to honor and support the compassionate, courageous, and dedicated members of the National Guard who serve a critical role in protecting the United States and its citizens' freedoms and treasured liberties.

Mr. Speaker, I urge my colleagues to join me in supporting H. Res. 940.

Ms. BORDALLO. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by

the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and agree to the resolution, H. Res. 940.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. BORDALLO. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

#### RECOGNIZING THE AIR FORCE AND DYESS AIR FORCE BASE ON ACHIEVING ENERGY SAVINGS

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 845) recognizing the United States Air Force and Dyess Air Force Base for their success in achieving energy savings and developing energy-saving innovations during Energy Awareness Month, as amended.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

##### H. RES. 845

Whereas the United States Air Force operates 84 major installations and 82 minor installations worldwide and is supported by an employee base of approximately 700,000 persons, which includes regular and Reserve component members and civilian employees;

Whereas the Air Force mission requires a global presence that provides a rapid response capability and strategic positioning of its assets;

Whereas the Air Force is the largest user of energy in the Federal Government since Air Force aircraft consume significant quantities of energy in executing their mission and keeping the United States and its allies safe;

Whereas the Air Force has a comprehensive energy policy and strategy that identifies the imperative to eliminate waste, conserve resources, and seek new, alternative sources of energy;

Whereas October of each year is Energy Awareness Month throughout the Federal Government, and the Air Force's theme for fiscal year 2010 is "Energy Solutions...Fueling the Mission";

Whereas the theme "Energy Solutions...Fueling the Mission" highlights the importance of energy to the Air Force's overall mission to "Fly, Fight, Win" and supports the Air Force energy plan to reduce demand, increase supply, and change the culture to make energy a consideration in everything they do;

Whereas Dyess Air Force Base in Abilene, Texas, is one of just three Air Force installations recognized by the Department of Energy as a 2009 Federal Energy and Water Management Award Winner;

Whereas Dyess Air Force Base has developed several energy-saving initiatives, including a system that employs a pond and an ice plant through which water is circulated and then used to cool the installation during the hot summer months, reducing the energy used by the B-1 simulator campus by over 30

percent, and saving Dyess Air Force Base more than \$239,000;

Whereas through a partnership with two companies, Dyess Air Force Base was able to take previously unusable water to the base through an abandoned pipeline for use on the installation's golf course, thereby saving more than 160 million gallons of water a year;

Whereas the hangar lights at Dyess Air Force Base were replaced with new electronic dimming lights, which have saved 9,734 million BTUs and \$209,000; and

Whereas in 2008, Dyess Air Force Base energy managers, engineers, and contracting officials reduced energy consumption by 16.5 percent and saved more than \$1 million: Now, therefore, be it

*Resolved*, That the House of Representatives—

(1) recognizes the energy savings and innovations achieved by the United State Air Force;

(2) honors the leadership of the 7th Bomb Wing at Dyess Air Force Base for their energy savings; and

(3) congratulates Tom Denslow, Danny Dobbs, Ron Miller, and TSgt (Sel) Daniel Thatcher of the Department of the Air Force, Dyess Air Force Base, and Steve Dumont of the Department of the Air Force, Air Combat Command, for their efforts to reduce energy use in support of the missions of the 7th Bomb Wing and the 317th Airlift Group and to make Dyess Air Force Base a model of efficient energy use.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Guam (Ms. BORDALLO) and the gentleman from Florida (Mr. ROONEY) each will control 20 minutes.

The Chair recognizes the gentlewoman from Guam.

##### GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today to support House Resolution 845, recognizing the United States Armed Forces and Dyess Air Force Base for their success in achieving energy savings and developing energy-saving innovations.

I would like to thank my colleague and former neighbor, Mr. NEUGEBAUER, for his work in bringing this resolution to the floor.

The Air Force pledge to become more energy efficient has facilitated both resourceful engineering projects and simple solutions, such as the installation of new electronic dimming lights in hangars at Dyess Air Force Base.

While the projects at Dyess Air Force Base range in size and scope, the end result is a 16.5 percent reduction in energy usage at a savings of over \$1 million in 2008. The diligence exhibited by the Air Force and leadership at Dyess Air Force Base serves as a good example of what can be achieved in energy

savings, not only at other bases, but in government facilities, private businesses, and personal households.

The men and women at this base in Abilene, Texas, continue to display a commitment to conserve energy and remain faithful stewards of the taxpayers' money. They accomplished all of this without sacrificing their ultimate mission to "Fly, Fight, Win."

So Mr. Speaker, I urge my colleagues to join me in congratulating the United States Air Force and Dyess Air Force Base for their successes in energy conservation by supporting House Resolution 845.

Mr. Speaker, I reserve the balance of my time.

Mr. ROONEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of House Resolution 845, which recognizes the United States Air Force and Dyess Air Force Base, Texas, for their innovative approaches and success in achieving energy savings. I want to commend Representative RANDY NEUGEBAUER of Texas for sponsoring this legislation.

Mr. Speaker, as the largest user of energy in the Federal Government, the Air Force has been a national leader in seeking ways to conserve energy, eliminate waste, and seek alternative sources of energy at its 166 large and small installations around the world. Within this exemplary group of military installations, Dyess Air Force Base, Texas, was just one of three Air Force installations recognized by the Department of Energy as a 2009 Federal Energy and Water Management Award winner. In earning this distinction, Dyess Air Force Base personnel reduced energy consumption by more than 16 percent and saved over \$1 million without sacrificing mission accomplishment in any way.

This is why it is, therefore, right and proper that we recognize the Air Force and Dyess Air Force Base, Texas, for their leadership and outstanding accomplishments in energy stewardship.

I urge all Members to support this resolution.

Mr. Speaker, I reserve the balance of my time.

Ms. BORDALLO. Mr. Speaker, I continue to reserve the balance of my time.

Mr. ROONEY. Mr. Speaker, at this time, I would like to yield 5 minutes to the gentleman from Texas, the sponsor of this resolution, Mr. NEUGEBAUER.

Mr. NEUGEBAUER. Mr. Speaker, today I rise in recognition of the United States Air Force in their tremendous efforts as leaders in the Federal Government's participation in Energy Awareness Month this past October.

America depends on the Air Force to continually provide an umbrella of security, deter our Nation's enemies, and provide safe, efficient, and effective

transportation of essential personnel and supplies to carry out their mission.

As the largest single user of energy in the Federal Government, the Air Force faces the daily challenge of improving their energy efficiency while continuing to provide our Nation and her allies with the most reliable Air Force in the world.

Mr. Speaker, I would like to also take this opportunity to congratulate Dyess Air Force Base, located in my district. Dyess Air Force Base was recently recognized by receiving the Department of Energy's Federal Energy and Waste Management Award. The Federal Energy and Waste Management Award recognizes individuals, groups, and agencies for their outstanding contributions in the areas of energy efficiency, water conservation, and the use of advanced and renewable energy technologies at their Federal facilities. Having earned this award in the past, Dyess Air Force Base continues to be a model for smart energy use.

As we recognize October as Energy Awareness Month throughout the Federal Government, Dyess Air Force Base has made outstanding contributions in areas of energy efficiency, water conservation, and the use of advanced and renewable energy technologies. Some of the energy-saving initiatives included a system that employs a pond and an ice plant through which water is circulated and used to cool the installation during the hot summer months, and reducing the energy used by the B-1 bomb simulator over 30 percent, saving almost \$239,000. They also developed a way to use previously unusable water through an abandoned pipeline for use by the installation's golf course, thereby saving almost 160 million gallons of fresh water each year.

All told, in 2008, Dyess Air Force Base reduced its total energy consumption 16.5 percent and saved the American taxpayers over \$1 million. I am proud of this achievement and the honor that this award brings to the Air Force, the people of the 19th Congressional District, and to the State of Texas. As we step toward developing sustainable and alternative energy sources, we must continue to work to increase our energy efficiency.

Finally, Mr. Speaker, I would like to personally congratulate and insert into the RECORD the following names: Tom Denslow, Danny Dobbs, Ron Miller, and Daniel Thatcher of Dyess Air Force Base; and Steve Dumont of Air Combat Command for their efforts to reduce energy use and to make that base a model of energy use. It is because of their hard work and dedication that America's dollars are better utilized and airmen are best served.

Mr. ROONEY. Mr. Speaker, I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, I wish to thank my colleague from Florida

(Mr. ROONEY) for managing the bills on the floor today. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and agree to the resolution, H. Res. 845, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. BORDALLO. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

□ 1245

#### NORTHWEST STRAITS MARINE CONSERVATION INITIATIVE REAUTHORIZATION ACT OF 2009

Ms. BORDALLO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1672) to reauthorize the Northwest Straits Marine Conservation Initiative Act to promote the protection of the resources of the Northwest Straits, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1672

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

##### SECTION 1. SHORT TITLE.

This Act may be cited as the "Northwest Straits Marine Conservation Initiative Reauthorization Act of 2009".

##### SEC. 2. REAUTHORIZATION OF NORTHWEST STRAITS MARINE CONSERVATION INITIATIVE ACT.

The Northwest Straits Marine Conservation Initiative Act (title IV of Public Law 105-384; 112 Stat. 3458) is amended—

- (1) in section 402, by striking "(in this title referred to as the 'Commission')"; and
- (2) by striking sections 403 and 404;
- (3) by redesignating section 405 as section 410; and
- (4) by inserting after section 402 the following new sections:

##### "SEC. 403. FINDINGS.

"Congress makes the following findings:

"(1) The marine waters and ecosystem of the Northwest Straits in Puget Sound in the State of Washington represent a unique resource of enormous environmental and economic value to the people of the United States.

"(2) During the 20th century, the environmental health of the Northwest Straits declined dramatically as indicated by impaired water quality, declines in marine wildlife, collapse of harvestable marine species, loss of critical marine habitats, ocean acidification, and sea level rise.

"(3) At the start of the 21st century, the Northwest Straits have been threatened by sea level rise, ocean acidification, and other effects of climate change.

"(4) In 1998, the Northwest Straits Marine Conservation Initiative Act (title IV of Pub-

lic Law 105-384) was enacted to tap the unprecedented level of citizen stewardship demonstrated in the Northwest Straits and create a mechanism to mobilize public support and raise capacity for local efforts to protect and restore the ecosystem of the Northwest Straits.

"(5) The Northwest Straits Marine Conservation Initiative helps the National Oceanic and Atmospheric Administration and other Federal agencies with their marine missions by fostering local interest in marine issues and involving diverse groups of citizens.

"(6) The Northwest Straits Marine Conservation Initiative shares many of the same goals with the National Oceanic and Atmospheric Administration, including fostering citizen stewardship of marine resources, general ecosystem management, and protecting federally managed marine species.

"(7) Ocean literacy and identification and removal of marine debris projects are examples of on-going partnerships between the Northwest Straits Marine Conservation Initiative and the National Oceanic and Atmospheric Administration.

##### "SEC. 404. DEFINITIONS.

"In this title:

"(1) COMMISSION.—The term 'Commission' means the Northwest Straits Advisory Commission established by section 402.

"(2) INDIAN TRIBE.—The term 'Indian tribe' has the meaning given that term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).

"(3) NORTHWEST STRAITS.—The term 'Northwest Straits' means the marine waters of the Strait of Juan de Fuca and of Puget Sound from the Canadian border to the south end of Snohomish County.

##### "SEC. 405. MEMBERSHIP OF THE COMMISSION.

"(a) COMPOSITION.—The Commission shall be composed of up to 14 members who shall be appointed as follows:

"(1) One member appointed by a consensus of the members of a marine resources committee established under section 408 for each of the following counties of the State of Washington:

"(A) San Juan County.

"(B) Island County.

"(C) Skagit County.

"(D) Whatcom County.

"(E) Snohomish County.

"(F) Clallam County.

"(G) Jefferson County.

"(2) Two members appointed by the Secretary of the Interior in trust capacity and in consultation with the Northwest Indian Fisheries Commission or the Indian tribes affected by this title collectively, as the Secretary of the Interior considers appropriate, to represent the interests of such tribes.

"(3) One member appointed by the Governor of the State of Washington to represent the interests of the Puget Sound Partnership.

"(4) Four members appointed by the Governor of the State of Washington who—

"(A) are residents of the State of Washington; and

"(B) are not employed by a Federal, State, or local government.

"(b) VACANCIES.—A vacancy in the Commission shall be filled in the manner in which the original appointment was made.
